A Notification of Intent to apply for this program is included in the application kit, which can be obtained at the above address. Organizations which intend to submit applications are requested to return a completed Notification of Intent to OJJDP at the above address by August 9, 1985. The submission of this notification is optional and is for the purposes of estimating the workload associated with review of applications and for notifying potential applicants of any supplemental information related to the preparation of their applications. *Those who have already indicated their intent to apply need not resubmit this form.*

X. Civil Rights Compliance

A. All recipients of OJJDP assistance, including any contractors, must comply with the non-discrimination requirements of the Juvenile Justice and Deliquency Prevention Act of 1974 as amended; Title VI of the Civil Rights Act of 1964; section 504 of the Rehabilitation Act of 1973 as amended; Title IX of the Education Amendments of 1972; the Age Discrimination Act of 1975; and the Department of Justice Non-Discrimination Regulations (28 CFR Part 42, Subparts C, D, E, and G.)

B. In the event a Federal or State court or Federal or State administrative agency makes a finding of discrimination after a due process hearing on the grounds of race, color, religion, national origin or sex against a recipient of funds, the recipient will forward a copy of the finding to the Office of Civil Rights Compliance (CRC) of the Office of Justice Programs.

C. Applicants shall maintain such records and submit to the OJJDP upon request timely, complete and accurate data establishing the fact that no person or persons will be or have been denied or prohibited from participation in, benefits of, or denied or prohibited from obtaining employment in connection with any program activity funded in whole or in part with funds made available under this program because of their race, national origin, sex, religion, handicap or age. In the case of any program under which a primary recipient of Federal funds extends financial assistance to any other recipient or contracts with any other person(s) or group(s), such other recipient, person(s) or group(s) shall also submit such compliance reports to the primary recipient as may be necessary to enable the primary recipient to assure its civil rights compliance obligations under any grant award.

Alfred S. Regnery,

Administrator, Office of Juvenile Justice and Delinquency Prevention.

BILLING CODE 4410-18-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

Utah State Standards; Approval

I. Background

Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under Section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State Plan which has been approved in accordance with Section 18(c) of the Act and 29 CFR Part 1902. On January 10, 1973, notice was published in the Federal Register (38 FR 1178) of the approval of the Utah Plan and adoption of Subpart E to Part 1952

VOL 50 ISS 143 JL 25 1985 UMI

containing the decision. The Plan provides for the adoption of Federal Standards as State Standards by:

1. Advisory Committee coordination,

2. Publication in the Utah Bulletin, available for public review, and

3. Provision of certified copies of Rules and Regulations or Standards to the Office of the State Archivist.

OSHA regulations (29 CFR 1953.22 and 1953.23) require that states respond to the adoption of new or revised permanent federal standards by state promulgation of comparable standards within six months of OSHA publication in the **Federal Register**, and within 30 days for emergency temporary standards. Although adopted state standards or revisions to standards must be submitted for OSHA review and approval under procedures set forth in Part 1953, they are enforceable by the state prior to federal review and approval. By letter dated May 10, 1985, from Douglas J. McVey, Administrator, Utah Occupational Safety and Health Division, to Byron R. Chadwick, OSHA Regional Administrator, the state submitted rules and regulations in response to federal OSHA's Appendix B to Commercial Diving Standards (Guidelines to Scientific Diving), Subpart T of General Industry Standards (29 CFR Part 1910: Educational/Scientific Diving, 50 FR 1046–1050, January 9, 1985).

The above adoptions of federal standards have been incorporated in the State Plan, and are contained in the Utah Occupational Safety and Health Rules and Regulations for General Industry, as required by Utah Code annotated 1943, Title, 63–46–1. In addition, the standards were published in the Utah Bulletin, available for public review. No public comments were received, so no hearings were held.

State standards for 29 CFR Part 1910, Subpart T Appendix B (Guidelines to Scientific Diving), were adopted by the Industrial Commission of Utah, Archives File number 7835, and became effective on May 20, 1985 pursuant to Title 35–9–6, Utah Code annotated 1953. The state Appendix B to the Commercial Diving Standards (Guidelines for Scientific Diving) is identical to the federal standard action, with the only exception being paragraph numbering.

2. Decision

The above state standard has been reviewed and compared with the relevant federal standard, and OSHA has determined that the state standard is identical to the federal standard, and accordingly should be approved.

3. Location of Supplement for Inspection and Copying

A copy of the standard supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Room 1554, Federal Office Building, 1961 Stout Street, Denver, Colorado 80294; Utah State Industrial Commission, UOSHA Offices at 160 East 300 South, Salt Lake City, Utah 84111; and the Office of State Programs, Room N–3476, 200 Constitution Avenue NW, Washington, DC 20210.

4. Public Participation

Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplements to the Utah State Plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reason:

The standards were adopted in accordance with the procedural requirements of state law which permitted public comments, and further public participation would be repetitious.

This decision if effective July 25, 1985.

(Sec. 18, Pub. L. 91–596, 84 Stat. 1608 (U.S.C. 667)).

Signed in Denver, Colorado this 30th day of May, 1985.

Byron R. Chadwick,

Regional Administrator.

BILLING CODE 4510–26–M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 85–47]

NASA Advisory Council (NAC), Space and Earth Science Advisory Committee (SESAC); Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Space and Earth Science Advisory Committee, Space Station Task Force.

DATE AND TIME: August 19–23, 1985, 8:30 a.m. to 5 p.m.

ADDRESS: Stanford University, Building 320, Room 320, Stanford, CA 94305.

FOR FURTHER INFORMATION CONTACT: Mr. Richard S. Sade, Code E, NASA Headquarters, Washington, DC 20546 (202/453–1430).

SUPPLEMENTARY INFORMATION: The Space Station Task force was established under the NAC Space and Earth Science Advisory Committee to counsel NASA on plans for the work in progress on the scientific utilization of the new capabilities which will be afforded by the Space Station, including the relationship of these plans to the existing space science program. This advice includes periodic updates of scientific requirements on Space Station hardware and operations and interaction with contractors during the definition phase of Space Station development. The Task Force is chaired by Dr. Peter Banks and is composed of 23 other members who will meet with about 60 invited participants and certain NASA personnel.

The meeting will be open to the public up to the seating capacity of the room (approximately 150 persons, including Task Force members and invited meeting participants). Visitors will be requested to sign a visitor's register.

Type of Meeting: Open.

Agenda:

August 19, 1985

8:30 a.m.—Registration and General Welcome.
8:45 a.m.—Task Force Activities Update.
9:30 a.m.—Team Activities at Summer Study.
10:30 a.m.—Science Planning for Space Station Era.
1 p.m.—Discipline Team Meetings.
3:15 p.m.—Interdisciplinary Team Meetings.
5 p.m.—Adjourn.

August 20, 1985

8:30 a.m.—Current Space Station Status (Configuration, Evolution, Platforms, Operations).
1 p.m.—Discipline Team Meetings.
3:15 p.m.—Interdisciplinary Team Meetings.
5 p.m.—Adjourn.

August 21, 1985

8:30 a.m.—General Discussion: Small, Adoptive Science.
10:30 a.m.—Discipline Teams.
2:30 p.m.—Interdisciplinary Teams.
5 p.m.—Adjourn.

August 22, 1985

8:30 a.m.—General Discussion: Science Operations.
10:30 a.m.—Discipline Teams.
2:30 p.m.—Interdisciplinary Teams.
5 p.m.—Adjourn.

August 23, 1985

8:30 a.m.—Team Meetings.
1 p.m.—Team Presentations.
5 p.m.—Adjourn.

Dated: July 19, 1985.

Richard L. Daniels,

Deputy Director, Logistics Management, and Information Programs Division, Office of Management.

[FR Doc. 85–17609 Filed 7–24–85; 8:45 am]

BILLING CODE 7510–01–M

NATIONAL SCIENCE FOUNDATION

DOE/NSF Nuclear Science Advisory Committee; Open Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, the National Science Foundation announces the following meeting:

Name: DOE/NSF Nuclear Science Advisory Committee.

Date and Time: August 9, 1985, 9:00 am–6:00 pm.

Place: Room 540, National Science Foundation, 1800 G Street NW, Washington, D.C. 20550.

Type of Meeting: Open.

Contact Person: Dr. Harvey B. Willard, Head, Nuclear Science Section, National Science Foundation, Washington, D.C. 20550, 202/357–7993.

Summary Minutes: May be obtained from Ms. Susan Klear, Physics Division, National Science Foundation, Washington, D.C. 20550.

Purpose of Committee: To provide advice on a continuing basis to both DOE and NSF on the management of and long range planning for basic nuclear science in the United States.

Agenda: August 9, 1985, 9:00 am–6:00 pm. Opening remarks by the Chairman, remarks by Federal officials, report from the Solar Neutrino Subcommittee, discussion of the report, and other business.

M. Rebecca Winkler,

Committee Management Officer.

July 22, 1985.

BILLING CODE 7555–01–M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–223 SP]

University of Lowell; Memorandum Cancelling Prehearing Conference and Terminating Proceeding

Before Administrative Judges Herbert Grossman, Chairman, Richard F. Cole, Ernest F. Hill. In the matter of University of Lowell, (Training & Research Reactor), Docket No. 50–223 SP, ASLBP No. 85–509–02 SP, July 19, 1985, memorandum and order.

On February 14, 1984, the University of Lowell (Licensee) timely filed an application for renewal of its Facility Operating License No. R–125 for an additional 30 years. The license is for the operation of a training and research reactor located on the campus of the university in Lowell, Massachusetts.

On March 29, 1985, the NRC published a notice in the **Federal Register** offering an opportunity to the Licensee and any other person whose interest might be affected by the renewal of the license to file a written petition for leave to intervene by April 29, 1985, 50 FR 12666.

By petition for leave to intervene, dated April 29, 1985, filed with the NRC, John F. Doherty sought to intervene in this proceeding. No other petitions for leave to intervene have been received.

On May 6, 1985, this Atomic Safety and Licensing Board was established to rule on petitions for leave to intervene and to preside over the proceeding in the event that a hearing is ordered. 50 FR 19827 (May 10, 1985).

We issued an Order on June 20, 1985, subsequently published in the **Federal Register**, setting a prehearing conference for August 1–2, 1985, to consider Mr. Doherty's petition. The public was invited to attend. 50 FR 26423, June 26, 1985.

Subsequently, by letter dated July 11, 1985, Mr. Doherty withdrew his petition for leave to intervene. His withdrawal leaves no petition before this Board and no issues to be heard. Consequently, there is no need or occasion for the previously scheduled prehearing conference or for subsequent evidentiary hearings.

Order

For all of the foregoing reasons, and based upon a consideration of the entire record in this matter, it is, this 19th day of July 1985

Ordered

1. That the prehearing conference scheduled for August 1–2, 1985 is *cancelled;* and

2. That this proceeding, begun with establishment of this Board on May 6, 1985, is *terminated.*

Board members, Administrative Judges Richard F. Cole and Ernest F. Hill join in this Order.

Bethesda, Maryland, July 19, 1985

For the Atomic Safety and Licensing Board.

Herbert Grossman,

Chairman, Administrative Judge.

BILLING CODE 7590–01–M

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget Review

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the Office of Management and Budget review of information collection.

SUMMARY: The Nuclear Regulatory Commission has recently submitted to the Office of Management and Budget (OMB) for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

1. Type of submission, new, revision or extension: Extension.

2. The title of the information collection: State Agreements Program.

3. The form number, if applicable: Not applicable.

4. How often the collection is required: On occasion.

5. Who will be required or asked to report: Agreement States.

6. An estimate of the number of responses: 1,000.

7. An estimate of the total number of hours needed to complete the requirement: 10,000.

8. An indication of whether Section 3504(h), Pub. L. 96–511 applies: Not applicable.

9. Abstract: NRC will continue to survey Agreement States to obtain comprehensive information of the materials regulatory program in the U.S. Section 274(j) of the Atomic Energy Act requires the Commission to periodically review agreements and actions taken by the States to ensure they remain adequate and compatible and comply with other requirements of the Act.

Copies of the submittal may be inspected or obtained for a fee from the NRC Public Document Room, 1717 H Street, NW., Washington, D.C. 20555.

Comments and questions should be directed to the OMB reviewer, Jefferson B. Hill, (202) 395–7340.

The NRC Clearance Officer is R. Stephen Scott, (301) 492–8585.

Dated at Bethesda, Maryland, this 22d day of July 1985.

For the Nuclear Regulatory Commission.

Patricia G. Norry,

Director, Office of Administration.

[FR Doc. 85–17710 Filed 7–24–85; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 50–315]

Indiana and Michigan Electric Co., Consideration of Issuance of Amendment to Facility Operating License and Proposed No Significant Hazards Consideration Determination and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is

considering issuance of amendment to Facility Operating License No. DPR–58, issued to Indiana and Michigan Electric Company (the licensee), for operation of the Donald C. Cook Nuclear Plant, Unit No. 1 located in Berrien County, Michigan.

By letters dated July 18 and July 19, 1985, as supplemented by letter dated July 3, 1985, the licensee submitted an application to amend the D.C. Cook Unit No. 1 Technical Specifications to reflect revised heatup, cooldown, and low temperature (cold) overpressure protection through twelve effective full power years of reactor operation. The current Technical Specifications cover nine effective full power years of reactor operation. Unit 1 is currently shut down for the first 10 year inspection; the revised Technical Specifications will be required for startup. The February 14, 1985 submittal, noticed March 27, 1985 (50 FR 12146), was a submittal for the subject of revised heat-up, cooldown only and is superseded by this notice for Unit 1.

As a result of the Commission's review and discussions with the licensee on the original application dated February 14, 1985, it was determined that revision to the application would be required. Once it was realized that a revision was necessary, submission of a completely new submittal for Unit 1 proceeded on a priority basis. The licensee submitted a proposed revision, dated July 18, 1985, to the amendment application for heatup and cooldown and the related proposed application dated July 19, 1985 on cold over-pressurization. The licensee's revised submittals were not filed earlier because it was only recently discovered that the changes to the application would be significant. This revision revises the heatup and cooldown curves in the conservation direction and revises the cold over-pressurization similarly.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not: (1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The proposed revision reflects conservative values of the Reference Nil-Ductility Transition Temperature (RT_{NDT}) for the reactor vessel and provides a margin of safety which complies with the fracture toughness requirements of 10 CFR 50 Appendix G.

Therefore, as a result of these considerations the Commission has made a proposed determination that the amendment request involves no significant hazards considerations.

The Commission is seeking public comments on this proposed determination of no significant hazards consideration.

The Commission has determined that failure to act in a timely way would result in the licensee not starting up the plant on the now scheduled date of August 10, 1985.

Therefore, the Commission has insufficient time to issue its usual 30-day notice of the proposed action for public document.

If the proposed determination becomes final, an opportunity for a hearing will be published in the Federal Register at a later date and any hearing request will not delay the effective date of the amendment.

If the Commission decides in its final determination that the amendment does not involve significant hazards consideration, a notice of opportunity for a prior hearing will be published in the Federal Register and, if a hearing is granted it will be held before any amendment is issued.

The Commission is seeking public comments on this proposed determination of no significant hazards consideration. Comments on the proposed determination may be telephoned to Steven A. Varga, Chief of Operating Reactors Branch No. 1, by collect call to 301–492–8035 or submitted in writing to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, ATTN: Docketing and Service Branch. All comments received by August 9, 1985, 5:00 p.m., will be considered in reaching a final determination. A copy of the application may be examined at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and the Maude Reston Palenske Memorial Library, 500 Market Street, St. Joseph, Michigan 49085.

Dated at Bethesda, Maryland, this 23rd day of July, 1985.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactors Branch No. 1, Division of Licensing.

[FR Doc. 85–17819 Filed 7–24–85; 8:45 am]

BILLING CODE 7590–01–M

OFFICE OF UNITED STATES TRADE REPRESENTATIVE

Determination Regarding the Withdrawal From Warehouse of Certain Alloy Tool Steel Products

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: This notice permits the withdrawal from warehouse for consumption of not more than one-half ton of alloy tool steel plate, presently subject to quota.

EFFECTIVE DATE: July 22, 1985.

FOR FURTHER INFORMATION CONTACT: Maria T. Springer, Office of the United States Trade Representative, (202) 395–4946.

SUPPLEMENTARY INFORMATION: Presidential Proclamation 5074 of July 19, 1983 (48 FR 33233), provides for the temporary imposition of increased tariffs and quantititive restrictions on certain stainless steel an alloy steel imported into the United States. Headnote 10(d), part 2A of the Appendix to the Tariff Schedules of the United States (TSUS) authorizes the U.S. Trade Representative to adjust the restraint level for any such steel to be exceeded during any restraint period.

Accordingly, I have determined that an amount not to exceed one-half ton of the following alloy tool steel plate, provided for in Tariff Schedules of the United States (TSUS) item 926.22, may be entered for consumption or withdrawn from Customs bonded warehouse, in excess of the restraint level provided for the period July 20, 1985–October 19, 1985 for the "Other" foreign country category:

Alloy tool steel plate, 3.660 inches in thickness, 72 inches in width, and 120 inches in length, containing, in addition to iron, each of the following elements by weight in the amount specified:

Carbon: not less than 0.95 percent, and not more than 1.05 percent;
Chromium: not less than 4.75 percent, and not more than 5.50 percent;
Manganese: not more than 1.00 percent;
Phosphorous: not more than 0.030 percent;
Sulphur: not more than 0.030 percent;
Silicon: not more than 0.50 percent;
Vanadium: not less than 0.15 percent; and not more than 0.50 percent;
Molybdenum: not less than 0.90 percent, and not more than 1.40 percent.

In addition, an identical amount shall be deducted from the quota quantity allocated to the "Other" foreign country category for TSUS 926.22 for the restraint period October 20, 1985–January 19, 1986. This determination supersedes the provision of the notice of October 20, 1983 (48 FR 4888), to the extent inconsistent herewith.

Michael B. Smith,

Deputy U.S. Trade Representative.

[FR Doc. 85–17693 Filed 7–24–85; 8:45 am]

BILLING CODE 3190–01–M

Implementation of Modifications in Specialty Steel Import Relief

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: This notice establishes country allocations of the quotas presently applicable to imports of certain specialty steel and alloy tool steel products and makes modifications in the Tariff Schedules of the United States to implement changes in the import relief program. The notice provides separate allocations within the stainless steel bar, stainless steel rod, and the alloy tool steel categories for Brazil, within the stainless bar and the alloy tool steel categories for Mexico, and within the stainless steel bar category for Korea.

EFFECTIVE DATE: July 20, 1985.

FOR FURTHER INFORMATION CONTACT: Maria T. Springer, Office of the United States Trade Representative, (202) 395–4946.

SUPPLEMENTARY INFORMATION: Presidential Proclamation 5074 of July 19, 1983 (48 FR 33233), provided for the temporary imposition of increased tariffs and quantitative restrictions on certain stainless steel and alloy tool steel products imported into the United States, pursuant to Section 203 of the Trade Act of 1974. Proclamation 5074 authorizes the U.S. Trade Representative to take such actions and perform such functions for the United States as may be necessary to administer and implement the relief, including negotiating orderly marketing agreements and allocating quota quantities on a country-by-country basis. The U.S. Trade Representative is also authorized to make modifications in the Tariff Schedules of the United States (TSUS) headnote or items proclaimed by the President in order to implement such actions.

Pursuant to the above authority, the U.S. Trade Representative has determined that the quota quantities should be reallocated to provide country allocations for certain steel products for Brazil, Mexico, and the Republic of Korea.

In conformity with the above, subpart A, part 2 of the Appendix to the TSUS is modified as follows:

(1) Item 926.12 is modified to add to the country allocations, in alphabetical order, "Brazil", "Mexico", and "The Republic of Korea", and also to add corresponding quota quantities of "570" short tons, "450" short tons, and "40" short tons, respectively, for the period July 20, 1985 through October 19, 1985, and for the period October 20, 1985 through January 19, 1986. Item 926.12 is further modified by changing the quota quantity for "Other" countries to "1,113" short tons for the period July 20, 1985 through October 19, 1985 and to "1,115" short tons for the period October 20, 1985 through January 19, 1986.

(2) Item 926.17 is modified to add "Brazil" to the country allocations, and also to add corresponding quota quantity of "330" short tons for the period July 20, 1985 through October 19, 1985 and for the period October 20, 1985 through January 19, 1986. Item 926.17 is further modified by changing the quota quantity for "Other" countries to "1,894" short tons for the period July 20, 1985 through October 19, 1985 and to "1,896" short tons for the period October 20, 1985 through January 19, 1986.

(3) Item 926.22 is modified to add to the country allocations, in alphabetical order, "Brazil", and "Mexico", and also to add corresponding quota quantities of "270" short tons and "75" short tons, respectively, for the period July 20, 1985 through October 19, 1985 and for the period October 20, 1985 through January 19, 1986. Item 926.22 is further modified by changing the quota quantity for "Other" countries to "1,589" short tons for the period July 20, 1985 through October 19, 1985 and to "1,591" short tons for the period October 20, 1985 through January 19, 1986.

Michael B. Smith,

Deputy U.S. Trade Representative.

BILLING CODE 3190–01–M

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review

AGENCY: Railroad Retirement Board.

ACTION: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the Board has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of proposal(s):

(1) Collection title: Employee Representatives' Status and Compensation Reports.

(2) Form(s) submitted: DC–2a, DC–2.

(3) Type of request: Extension of the expiration date of a currently approved collection without any change in the substance or in the method of collection.

(4) Frequency of use: On occasion, annually.

(5) Respondents: Individuals or households, business or other for-profit.

(6) Annual responses: 85.

(7) Annual reporting hours: 37.

(8) Collection description: Benefits are provided under the Railroad Retirement Act for individuals who are employee representatives as defined in section 1 of that Act. The collection obtains information on the status of such individuals and their compensation.

Additional information or comments: Copies of the proposed forms and supporting documents may be obtained from Pauline Lohens, the agency clearance officer (312–751–4692). Comments regarding the information collection should be addressed to Pauline Lohens, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 and the OMB reviewer, Judy McIntosh (202–395–6880), Office of Mangement and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503.

Pauline Lohens,

Director of Information and Data Management.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1–8106]

FundsNet, Inc.; Issuer Delisting; Application To Withdraw From Listing and Registration

July 18, 1985.

The above named issuer has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2–2(d) promulgated thereunder, to withdraw the Common Stock, $.01 Par Value, of FundsNet, Inc. ("Company") from listing

VOL 50 ISS 143 JL 25 1985 UMI

and registration on the Boston Stock Exchange, Inc. ("Exchange").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

FundsNet is requesting such withdrawal in order to list its securities in the NASDAQ National Market System and, therefore, wishes to remove its security from listing and registration on the Exchange.

Any interested person may, on or before August 8, 1985 submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

John Wheeler,

Secretary.

ImmunoGenetics, Inc.; Issuer Delisting; Application To Withdraw From Listing and Registration

July 18, 1985.

The above name issuer has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2-2(d) promulgated thereunder, to withdraw the Common Stock, $.01 Par Value, of ImmunoGenetics, Inc., ("Company") from listing and registration on the Boston Stock Exchange, Inc. ("Exchange").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The Company is withdrawing its Common Stock from listing on the Exchange because it finds that the NASDAQ National Market System provides the Common Stock with sufficient liquidity to meet the Company's requirements and, therefore, the Company wishes to remove its security from listing and registration on the Exchange.

Any interested person may, on or before August 3, 1985 submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

John Wheeler,

Secretary.

[FR Doc. 85-17705 Filed 7-24-85; 8:45 am]

BILLING CODE 8010-01-M

Midwest Stock Exchange, Inc.; Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing

July 22, 1985.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(F)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the following stocks:

Freeport-McMoRan Energy Partners, Ltd.
Depositary Receipts for Depositary Units, (File No. 8422)
AZP Group, Inc.
Common Stock, $2.50 Par Value, (File No. 7-8423)
American Building Maintenance Industries (Delaware)
Common Stock, No Par Value, (File No. 7-8424)
Ensearch Exploration Partners, Ltd.
Common Stock, $2.50 Par Value, (File No. 7-8425)
Atlantic Richfield Company (Delaware)
Common Stock, $2.50 Par Value, (File No. 7-8426)
Atlantic Richfield Company (Delaware)
$2.80 Cumulative Convertible Preferred Stock, $2.50 Par Value, (File No. 7-8427)
Fansteel, Inc.
Common Stock, $5 Par Value, (File No. 7-8428)
Transco Exploration Partners, Ltd.
Depositary Units, (File No. 7-8429)
FoxMeyer Corporation
Common Stock, $.10 Par Value, (File No. 7-8430)
Glendale Federal Savings and Loan Association
$1.00 Par Value, (File No. 7-8431)
Northrop Corporation (Delaware)
Common Stock, $1.00 Par Value, (File No. 7-8432)
Morrison-Knudsen Corporation (Delaware)
Common Stock, $1.00 Par Value, (File No. 7-8432)
Morrison-Knudsen Corporation (New)
Common Stock, $10.00 Par Value, (File No. 7-8433)
Dlevepak Corporation (New)
Common Stock, $1.00 Par Value, (File No. 7-8434)
First Pennsylvania Corporation
Convertible Depositary Preferred Stock, No Par Value, (File No. 7-8435)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before August 12, 1985, written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

[Release No. 35-23768; 70-7121]

Southwestern Electric Power Co; Proposed Tender Offer and Issuance and Sale of First Mortgage Bonds

July 19, 1985.

Southwestern Electric Power Company ("Southwestern"), P.O. Box 21106, Shreveport, Louisiana 71156, a subsidiary of Central and South West Corporation, a registered holding company, has filed an application—declaration with the Commission subject to sections 6(a), 7, 9(a), 10 and 12(c) of the Public Utility Holding Company Act of 1935 and Rules 42 and 50 thereunder.

Southwestern has outstanding $60 million of 15¼% First Mortgage Bonds, Series Q, due April 1, 2011 ("1981 Bonds"), and $70 million of its 15½% First Mortgage Bonds, Series R, due May 1, 2012 ("1982 Bonds") (collectively "Old Bonds"). The 1981 Bonds and 1982 Bonds may not be redeemed at a lower cost of money prior to April 1, 1986 and May 1, 1987, respectively.

Southwestern believes that, based on current market conditions, a refunding of the Old Bonds would benefit its ratepayers by reducing the present interest costs to Southwestern. Although the Old Bonds cannot be called due to refunding restrictions, it is possible to repurchase for cash a substantial portion of the Old Bonds through a tender offer (the "Tender Offer") to the holders.

Southwestern has not determined when the Tender Offer will be made. The Tender Offer prices will include a premium over market price and the first general redemption price after the expiration of the refunding restriction of the Old Bonds (112.73% for the 1981 Bonds and 112.42% for the 1982 Bonds). Southwestern believes that a Tender Offer for the 1981 bonds could be successfully made at approximately 117% of the principal amount, plus accrued interest. The Tender Offer price must be determined shortly before the Tender Offer commences. The actual prices will be based on a number of factors, including the coupon rate of the Old Bonds, the date of expiration of the refunding protection on the Old Bonds (on which date the Company, depending on then prevailing interest rates, may be presumed to call the Old Bonds), the call price on such expiration date and the present market for similar bonds. Based upon limited information available to the company, the 1981 Bonds and 1982 Bonds have recently bid at prices of 116.19% to 115.71% and 120.30% to 118.94% of the principal amount thereof, respectively.

Southwestern proposes to retain Salomon Brothers, Inc. as its tender agent and dealer-manager for the Tender Offer. As dealer-manager, Salomon Brothers, will not be obligated to purchase or sell any of the Old Bonds but will act merely as the Southwestern's agent in disseminating the offer and receiving responses thereto. The dealer-manager's fee will be $2.50 per $1000 principal amount of Old Bonds tendered, a solicitation fee of $1.50 per $1000 principal amount of Old Bonds ($195,000), plus reimbursement of out of pocket expenses in an amount not to exceed $20,000. In addition, the Southwestern will reimburse the dealer-manager for its attorney fees not to exceed $15,000.

It is estimated that Southwestern could issue up to approximately $150,000,000 aggregate principal amount of first mortgage bonds ("New Bonds") at an interest rate of approximately 11.50%, in order to fund the pruchase of the tendered Old Bonds. This would result in an annual reduction in interest costs to the company of approximately $1,356,000, including the amortization of the premuim to be paid on the Old Bonds over the life of the New Bonds, for a total interest savings of $35,300,000. This calculation assumes that 100% of the principal amount of the Old Bonds are acquired pursuant to the Tender Offer and is therefor subject to variation.

The price to be paid to Southwestern (exclusive of any accured interest which will be added to such price) will not be less than 98%, nor more than 101.75%, of the principal amount of the New Bonds, and it is anticipated that they will be redeemable at any time after five years from issue if it is part of a refunding at an effecitve interest cost lower than that of the particular series. The New Bonds will be offered by competitive Bidding in one or more series with up to a 30-year maturity period.

It is anticipated that such New Bonds would be issued prior to commencement of the Tender Offer. Since it will not be possible to predict exactly the amount of Old Bonds which will be tendered or the exact Tender Offer price at the time the New Bonds are offered, Southwestern may be required to pay a portion of the purchase price of tendered Old Bonds from internally generated funds or available short-term borrowings.

The New Bonds will be issued and secured by Southwestern's Mortgage ("Indenture"), and authenticated under the Indenture against available unused net expenditures for bondable property of the Company, which unused net expenditures aggregated approximately $693,000,000 at March 1, 1985, and previously retired first mortgage bonds.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by August 12, 1985, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarant at the address specified above. Proof of service (by affidavit, or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing if ordered, and will receive a copy of any notice or order issued in this matter.

After said date the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

[File No. 1-8016]

Tultex Corp.; Issuer Delisting; Application To Withdraw From Listing and Registration

July 18, 1985.

The above name issuer has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2-2(d) promulgated thereunder, to withdraw the Common Stock, $1.00 Par Value, of Tultex Corporation, ("Company") from listing and registration on the American Stock Exchange, Inc. ("Exchange").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

Tultex Corporation states that it would not be in the best interests of the Company for its Common Stock to be listed on both the American Stock Exchange and the New York Stock Exchange due to the direct and indirect costs of such a dual listing and the potential fragmenting of the market for its Common Stock and, therefore, wishes to remove its security listing and registration on the Exchange.

Any interested person may, on or before August 8, 1985 submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

VOL 50 ISS 143 JL 25 1985 UMI

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Reports, Forms, and Recordkeeping Requirements; Submittals to OMB June 19, 1985–July 12, 1985

AGENCY: Office of the Secretary, DOT.

ACTION: Notice.

SUMMARY: This notice lists those forms, reports, and recordkeeping requirements imposed upon the public which were transmitted by the Department of Transportation, during the period June 19, 1985–July 12, 1985 to the Office of Management and Budget (OMB) for its approval in accordance with the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35).

FOR FURTHER INFORMATION CONTACT: John Chandler or Annette Wilson, Information Requirements Division, M–34, Office of the Secretary of Transportation, 400 7th Street SW., Washington, D.C. 20590, telephone (202) 426–1887, or Gary Waxman or Sam Fairchild, Office of Management and Budget, New Executive Office Building, Room 3228, Washington, D.C. 20503, (202) 395–7340.

SUPPLEMENTARY INFORMATION:

Background

Section 3507 of Title 44 of the United States Code, as adopted by the Paperwork Reduction Act of 1980, requires that agencies prepare a notice for publication in the **Federal Register**, listing those information collection requests submitted to the Office of Management and Budget (OMB) for initial, approval, or for renewal under that Act. OMB reviews and approves agency submittals in accordance with criteria set forth in that Act. In carrying out its responsibilities, OMB also considers public comments on the proposed forms, reporting and recordkeeping requirements. OMB approval of an information collection requirement must be renewed at least once every three years.

Information Availability and Comments

Copies of the DOT information collection requests submitted to OMB may be obtained from the DOT officials listed in the "For Further Information Contact" paragraph set forth above. Comments on the requests should be forwarded, as quickly as possible, directly to the OMB officials listed in the "For Further Information Contact" paragraph set forth above. If you anticipate submitting substantive comments, but find that more than 10 days from the date of publication are needed to prepare them, please notify the OMB officials of your intent immediately.

Items Submitted for Review by OMB

The following information collection requests were submitted to OMB from June 19, 1985–July 12, 1985:

DOT No: 2590
OMB No: New
By: Federal Railroad Administration
Title: New Locomotive Certification (Noise Compliance Regs.)
Form: None
Frequency: Recordkeeping
Respondents: Locomotive manufacturers
Need/Use: 49 CFR 210.27 requires that locomotive manufacturers certify that each model has been tested in accordance with EPA noise emission standards and that such certification be identified by a permanent badge in the locomotive.

DOT No: 2591
OMB No: Consolidated Numbers 2132–0515, 0516, 0518, 0519, 0508, 0523
By: Urban Mass Transportation Administration
Title: Section 19 (Title VI) as it Applies to UMTA Grant Programs
Forms: N/A
Frequency: Annually—On Occasion
Respondents: State or Local Governments and business or other for profit organizations.
Need/Use: The information collection will enable UMTA to determine grantees' compliance with Title VI and ensure that beneficiaries are not discriminated against in the distribution of transportation services/benefits. The civil rights programmatic requirements per the Section 19 regulation will be submitted by transit systems, State DOT's, local governments and planning agencies.

DOT No: 2592
OMB No: 2130–0520
By: Federal Railroad Administation
Title: Stencilling Report Mark, Car Number, etc., on Freight Cars
Forms: None
Frequency: Recordkeeping
Respondents: Railroads
Need/Use: Reporting marks and car numbers are stencilled on all freight cars for identification.

DOT No: 2593
OMB No: 2115–0506
By: U.S. Coast Guard
Title: Declaration of Inspection
Form: None
Frequency: On Occasion
Respondents: The person-in-charge of transferring oil and hazardous liquid cargoes between vessels and facilities.
Need/Use: Coast Guard personnel checks Declarations of Inspection to ensure required procedures have been followed and to determine culpability in spill and accident investigations. Not keeping these records would result in a significant increase in pollution with persons-in-charge either not knowing their responsibilities (in the case of foreign nationals working on foreign ships) or not following all the proper procedures.

DOT No: 2594
OMB No: 2106–0037
By: Office of the Secretary of Transportation
Title: Part 326—Procedures for Bumping Subsidized Air Carriers from Eligible Points
Forms: None
Frequency: On Occasion
Respondents: Airlines
Need/Use: Part 326 sets procedures under which an airline receiving subsidy for serving a community may be replaced by another carrier offering to provide better service or service at a lower subsidy cost. These procedures are needed to implement sections 419 (a) and (b)(8) of the Federal Aviation Act.

DOT No: 2595
OMB No: 2106–0039
By: Office of the Secretary of Transportation
Title: Part 297—Foreign Air Freight Forwarder and Foreign Cooperative Shippers Association
Forms: CAB 297A
Frequency: On Occasion
Respondents: Foreign indirect cargo carriers
Need/Use: CAB Form 297A is a simplified application form for foreign indirect cargo carriers that provides basic information (name, address, phone, applicant's country of citizenship and percent ownership of person's owning 10 percent or more of the applicant's stock). It relieves them from certain provisions of the Act and provides for simplified reporting.

DOT No: 2596
OMB No: 2106–0034
By: Office of the Secretary of Transportation
Title: Part 324—Procedures for Compensating Air Carriers for Losses
Form(s): None
Frequency: On Occasion
Respondents: Air carriers
Need/Use: Part 324 sets the procedures for compensating an air carrier for financial losses incurred for complying with a board order to continue to provide essential air service to a community under section 419(a)(6) of the Airline Deregulation Act of 1978 (P.L. 95–504).

DOT No: 2597
OMB No: New
By: National Highway Traffic Safety Administration
Title: Impact of Public Information and Education Campaign on Driver Perception of Motor Vehicle Accident Injury Risk and Emergency Medical Services Awareness
Forms: None
Frequency: On Occasion
Respondents: Ind/households
Need/Use: PI&E campaign involves a public information and education campaign to increase public knowledge and appropriate use of the EMS system. Two telephone surveys will be used for the test and comparison sites. One will measure public knowledge and awareness of EMS; the other changes in morbidity of MVA victims.

DOT No: 2598
OMB No: 2115–0010
By: U.S. Coast Guard
Title: Recreational Boating Accidents Reports
Forms: CG–3865
Frequency: On Occasion
Respondents: Operators of recreational boats
Need/Use: This requirement is needed and used by the Coast Guard's Office of Boating, Public and Consumer Affairs to identify possible manufacturer defects in boats of equipment. It is also needed to develop safe boating education programs and to publish statistics in accordance with 46 U.S.C. 6102.

DOT No: 2599
OMB No: 2132–0500 (Section 16(b)(2))
By: Urban Mass Transportation Administration
Title: Section 18 and 16(b)(2) Program requirements
Forms: SF–269 and SF–424
Frequency: Annual, on Occasion. Semi-annually
Respondents: State or Local Government
Need/Use: The information collected is used by UMTA's Regional Offices to determine eligibility for grant benefits and ensures compliance with Federal requirements. The information is also used by UMTA Headquarters for program management and evaluation.

DOT No: 2600
OMB No: 2125–0008
By: Federal Highway Administration
Title: Unit Maintenance Cost Index
Forms: FHWA–1521
Frequency: Annually
Respondents: State Highway agencies
Need/Use: For the Federal Highway Administration to develop national cost trends for labor, material, and equipment rental rates, and to assist State highway agencies in preparing maintenance budgets.

DOT No: 2601
OMB No: 2125–0529
By: Federal Highway Administration
Title: Preparation and Execution of Project Agreement and Modifications
Forms: PR–2, PR–2A, PR–2–1
Frequency: On Occasion
Respondents: State Highway agencies
Need/Use: To formally document mutual responsibilities of Federal and State officials for Federal-aid highway projects in order to commence Federal project approval and subsequent State management.

Issued in Washington, D.C. on July 19, 1985.

Jon H. Seymour,
Acting Assistant Secretary for Administration.

BILLING CODE 4910–62–M

Fitness Determination; Jeffrey K. Beeston, d/b/a Island Air Express

AGENCY: Department of Transportation.

ACTION: Notice of commuter air carrier fitness determination—Order 85–7–50, order to show cause.

SUMMARY: The Department of Transportation is proposing to find that Jeffrey K. Beeston, d/b/a Island Air Express is fit, willing, and able to provide commuter air service under section 419(c)(2) of the Federal Aviation Act, as amended, and that the aircraft used in this service will conform to applicable safety standards.

Responses

All interested persons wishing to respond to the Department of Transportation's tentative fitness determination should file their responses with the Special Authorities Division, Room 6420, Department of Transportation, 400 7th Street, SW. Washington, D.C. 20590, and serve them on all persons listed in Attachment A to the order. Responses shall be filed no later than August 12, 1985.

FOR FURTHER INFORMATION CONTACT: Linda L. Lundell, Special Authorities Division, Department of Transportation, 400 7th Street SW., Washington, D.C. 20590 (202) 755–3812.

SUPPLEMENTARY INFORMATION: The complete text of Order 85–7–50 is available from the Documentary Services Division, Room 4107, 400 7th Street, S.W., Washington, D.C. 20590. Persons outside the metropolitan area may send a postcard request for Order 85–7–50 to that address.

Dated: July 22, 1985.

Matthew V. Scocozza,
Assistant Secretary for Policy and International Affairs.

BILLING CODE 4910–62–M

Coast Guard

[CGD 85–056]

Marine Transportation of Oil Field Wastes; Public Meeting

The Eighth Coast Guard District is sponsoring a public meeting to discuss problems associated with the application of existing vessel inspection and oil pollution regulations to the transportation and handling of oil field wastes (containing oil and/or other hazardous wastes) such as drill cuttings, waste or spent drilling mud, wastes from pit cleanup, and production wastes including basic sediment and water (BS & W).

46 United States Code (U.S.C.), section 2101 states "(20) 'oil' includes oil of any type or in any form including petroleum fuel oil, sludge, oil refuse, and oil mixed with waste except for dredge spoil." Therefore, these wastes are "oil" as defined. They are not always transported in tank vessels authorized to carry combustible, flammable or hazardous liquids. They are being transported in uninspected vessels, i.e., open hopper barges, and not handled in compliance with the various 33 CFR oil pollution regulations. It is alleged by industry that some of these products do not lend themselves to compliance with existing rules because of high viscosity and the necessity of handling some of the waste material as if it was a solid.

The purpose of the meeting is to determine what and how much of this type of waste is being transported via marine mode and to review existing rules for necessity and adequacy for such transportation and handling. The meeting will be held in late August or early September 1985 in New Orleans. The specific time and place will be announced at a later date. Representatives from the Commandant, U.S. Coast Guard and the Eight Coast Guard District Office will be present. The agenda for the meeting consists of the following items:

1. Call to order.

VOL
50
ISS
143
JL
25
1985
UMI

2. Opening remarks and solicitation of current, on-going methods of maritime transportation and handling oil field waste.
3. Public comment.
4. Closing remarks.
5. Adjournment.

Attendance is open to the public. With advance notice, members of the public may present oral statements at the meeting. Prior to presentation of their oral statement, but no later than the day before the meeting, members of the public shall submit in writing, to Commander, Eighth Coast Guard District (mvs), Hale Boggs Federal Building, 500 Camp Street, New Orleans, LA 70130 the subject of their comments, a general outline signed by the presenter, and the estimated time required for presentation. The individual making the presentation shall also provide their name, address, and if applicable, the organization they are representing. Any member of the public may submit a written statement at any time.

Additional information may be obtained from Commander D.R. Carlberg, USCG, c/o Commander, Eighth Coast Guard District (mvs), Room 1341, Hale Boggs Federal Building, 500 Camp Street, New Orleans, LA 70130, telephone (504) 589–6271.

It is requested that members of the public who are planning on attending contact Commander Carlberg by August 8, 1985.

July 10, 1985.

Clyde T. Lusk, Jr.,

Rear Admiral, U.S. Coast Guard Commander, Eighth Coast Guard District.

[FR Doc. 85–17695 Filed 7–24–85; 8:45 am]

BILLING CODE 4910-14-M

Federal Highway Administration

Environmental Impact Statement; Fairfield County, CT

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that a draft environmental impact statement will be prepared for a proposed highway project in Fairfield County, Connecticut.

FOR FURTHER INFORMATION CONTACT: David R. Billings, Environmental Engineer, Federal Highway Administration, 1 Hartford Square West, South Building, Hartford, Connecticut 06114, Telephone (203) 722–2437 or James F. Sullivan, Director, Office of Environmental Planning, Connecticut Department of Transportation, 24 Wolcott Hill Road, Wethersfield, Connecticut 06109, Telephone (203) 566–5704.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Connecticut Department of Transportation, will prepare a draft environmental impact statement (DEIS) on a proposal to construct Route 25 in Fairfield County, Connecticut.

The purpose of the DEIS is to analyze environmental impacts which may occur as a result of implementation of the project and to gain input relating to the alternatives under consideration. The DEIS will consider the alternatives of (1) Do-Nothing, (2) Improve Existing Facilities, and (3) Various Expressway and Arterial locations.

The proposed construction will begin at Route 111 in Trumbull and extend notherly to I-84 in Newtown. This project has an extensive history of coordination with Federal, State, local, and regional agencies and organizations. A feasibility study was completed in late 1984 for this project. The feasibility identifies the major environmental issues associated with this project. Since the full range of issues relating to this project have been identified, formal scoping meetings are not deemed necessary at this time.

Agencies, organizations and individuals interested in submitting comments or questions on the proposed action should contact the FHWA or the Connecticut Department of Transportation at the address provided above before 45 days from this publication date.

Dated: July 19, 1985.

James J. Barakos,

Division Administrator.

[FR Doc. 85–17634 Filed 7–24–85; 8:45 am]

BILLING CODE 4910-22-M

Environmental Impact Statement: Dade County, FL

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for a proposed highway project in Dade County, Florida.

FOR FURTHER INFORMATION CONTACT: R.V. Robertson, District Engineer, Federal Highway Administration, 227 N. Bronough St., Room 2015, Tallahassee, Florida 32301. Telephone: (904) 681–7231.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Florida Department of Transportation, will prepare an EIS for a proposal to improve State Road 5 (US–1) in Dade County. The proposed improvement will provide for the multi-laning and reconstruction of US–1 from 123rd Street to 203rd Street, a distance of approximately five miles.

Alternatives under consideration include: (1) Upgrading US–1 from 4 to 6 lanes from 123rd to 151st Street and 4 to 8 lanes from 151st Street to 203rd Street. (2) This alternate provides the same number of mainline lanes as alternate (1); however, this alternate would carry the cross streets over US–1 and the Florida East Coast Rail Lines.

Federal, State, and local agencies have contributed early coordination comments through the A–95 process. Additionally, a project planning team developing this project will contact State, Federal, county, and local agencies for information relative to land use planning, water quality analysis, and local planning needs. Public information meetings will be held during the development of this EIS. In addition, a public hearing will be held. Public notice will be given of the time and place of the meetings and hearing. The draft EIS will be made available for public and agency review and comment prior to the public hearing. A formal scoping meeting is not planned for this project.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the Federal Highway Administration at the address provided above.

Issued on: July 18, 1985.

James E. St. John,

Assistant Division Administrator, Tallahassee, Florida.

[FR Doc. 85–17643 Filed 7–24–85; 8:45 am]

BILLING CODE 4910-22-M

Environmental Impact Statement; Juneau, AK

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notive to advise the public that an Environmental Impact Statement (EIS) will be prepared for a proposed highway project. The project would be located within the boundary of the City and Borough of Juneau, Alaska.

FOR FURTHER INFORMATION CONTACT: Tom Neunaber, Field Operations Engineer, Federal Highway Administration, P.O. Box 1648, Juneau, Alaska 99801 or; Art Dunn, Project Environmental Coordinator, Alaska Department of Transportation and Public Facilities (DOT&PF), P.O. Box 1467, Juneau, Alaska 99802.

SUPPLEMENTARY INFORMATION: The FHWA, is cooperation with the ADOT&PF, will prepare an EIS on a proposed extension of North Douglas Highway, or Douglas Island, northwest of Juneau, Alaska. The highway extension is necessary to open up lands on the weat side of Douglas Island for development.

The proposed extension would begin at a point approximately 2,000 ft. before the end of existing highway and continue south to Point Hilda approximately 8.4 miles. The Department's preferred alternative would be a 14- ft.-wide gravel access road. Widening of the road to a 28-ft. two-lane paved facility and further expansion to a four-lane, limited access facility would take place as future funding becomes available.

Alternatives to the proposed action include: (1) No action; (2) the same development scenario as the department's preferred alternative, but on a more direct alignment with greater possibility of impacts to wetlands and an anadromous fish stream; (3) development on the preferred alignment at such time that funds are available for construction of the 28-ft. paved section, with future expansion to the 4-lane; (4) development on the more direct alignment at such time that funds are available for construction of the 28-ft. paved section, with future expansion to the 4-lane.

Federal, State, and local organizations, land owners, and the general public have been contracted, and will continue to be invited to participate in the development of the Draft Environmental Impact Statement (DEIS). Information meetings to discuss impacts to the natural, social, and economic environments will be held during the DEIS development. A formal Public Hearing, following established Federal Highway Administration (FHWA) guidelines will be held after FHWA approval of the DEIS. Due to extensive prior coordination with affected agencies, and the public, no formal scoping meeting is planned for this project.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular No. A–95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects apply to this program)

Issued on:

Barry F. Morehead,

Division Administrator, Federal Highway Administration, Juneau, Alaska.

BILLING CODE 4910-22-M

UNITED STATES INFORMATION AGENCY

Culturally Significant Objects Imported for Exhibition; Determination

Notice is hereby given of the following determination: Pursuant to the authority vested in me by the act of October 19, 1965 (79 Stat. 985, 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978 (43 FR 13359, March 29, 1978), and Delegation of Authority of December 17, 1982 (47 FR 57600, December 27, 1982), I hereby determine that the objects to be included in the exhibit, "The Treasure House of Britain: Five Hundred Years of Private Patronage and Art Collecting" (including in the list [1] filed as a part of this determination) imported from abroad for the temporary exhibition without profit within the United States are of cultural significance. These objects are imported pursuant to a loan agreement between The National Gallery of Art and the British Council. I also determine that the temporary exhibition or display of the listed exhibit objects at the National Gallery of Art, Washington, D.C., beginning on or about November 3, 1985, to on or about March 16, 1986, is in the national interest.

Public notice of this determination is ordered to be published in the Federal Register.

Dated: July 22, 1985.

Thomas E. Harvey,

General Counsel and Congressional Liaison.

VETERANS ADMINISTRATION

Privacy Act of 1974; Report of New Matching Program

AGENCY: Veterans Administration.

ACTION: Notice of Matching Program—Verification of Veterans Administration Professional Licensure and Registration Records.

SUMMARY: The Veterans Administration is providing notice that the Office of Inspector General will conduct a series of computer matches of VA records of physicians, dentists and other health care professionals with Federal, State, local and private organizations maintaining licensure and registration records.

The goal of these matches is to verify that physicians, dentists, podiatrists, optometrists, and psychologists employed or utilized by the agency are holding current, unrestricted licenses to practice and that nurses and pharmacists are registered in a State.

This notice supersedes the Report of New Matching Program published in the Federal Register on May 2, 1985 (50 FR 18761).

DATES: It is anticipated the matches will commence approximately July 1985.

ADDRESS: Interested individuals may comment on the proposed matches by writing to the Assistant Inspector General for Policy, Planning and Resources (53), Veterans Administration, 810 Vermont Avenue, N.W., Washington, D.C. 20420.

FOR FURTHER INFORMATION CONTACT: Mr. Jack H. Kroll, Assistant Inspector General for Policy, Planning and Resources (53), Veterans Administration, 810 Vermont Avenue, N.W., Washington, D.C. 20420, area code 202–389–5297.

SUPPLEMENTARY INFORMATION: Further information regarding the matching program is provided below. This information is required by paragraph 5.f.(1) of the Revised Supplemental Guidance for Conducting Matching Programs, issued by the Office of Management and Budget (47 FR 21656, May 19, 1982). A copy of this notice has been provided to both Houses of Congress and the Office of Management and Budget.

Approved: July 19, 1985.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

Report of Matching Program

Veterans Administration Records of Physicians, Dentists and Other Health Care Professional/License and Registration Records of Federal, State, Local and Private Organizations

a. *Authority:* The Inspector General Act of 1978, Public Law 95–452.

b. *Program Description:*

(1) *Purpose:* The Office of Inspector General (OIG) plans to match lists of full and part-time physicians, dentists, podiatrists, optometrists, psychologists, nurses and pharmacists employed by the Veterans Administration (VA), as well as consultants, attendings and fee-basis medical practitioners utilized by the VA to provide health care, with the

license and registration records of pertinent Federal, State and local agencies (hereafter referred to as government agencies) and with certain private organizations such as the American Medical Association and the Federation of State Medical Boards of the United States, Inc.

Title 38, United States Code, Section 4105, specifies that any person to be eligible for appointment as a physician, dentist, podiatrist, optometrist, psychologist, nurse or pharmacist in the VA Department of Medicine and Surgery must hold the appropriate degree from a college, university or school approved by the Administrator of Veterans Affairs, have completed an internship satisfactory to the Administrator in the case of physicians and psychologists, and be licensed, certified or registered to practice their profession in a State. The matches will verify that these health care professionals employed or utilized by the VA possess current, unrestricted licenses or are currently registered in a State. For purposes of this computer matching program, "State" means any of the fifty States, the District of Columbia and the Commonwealth of Puerto Rico.

(2) *Procedures:* The initial match to be conducted under the terms of this notice will be with an organization having nationwide records of medical licenses; for example, the Federation of State Medical Boards of the United States, Inc. The VA OIG will perform the match using extracts of three VA systems of records consisting of names, dates of birth and social security numbers and records in a similar format provided by the participating organization. In the event of a "hit", i.e., the determination through the matching program that a license to practice or State registration has expired, or has been suspended, restricted or revoked, the identity of the individual will be confirmed. Before the information is forwarded to the Chief Medical Director for consideration of appropriate personnel action the Office of Inspector General will, to the extent practicable, screen hits appropriately to determine if a valid license exists in another state and/or if the reason for restriction of a license is significant to VA employment. When needed to confirm the identities of individuals who may be listed in the records of a government agency or private organization, the OIG will request that additional information be furnished or the OIG may release additional identifying data to the participating organization in accordance with published routine uses. Where there are reasonable grounds to believe there has been a violation of criminal law, the matter will be investigated and referred for prosecutive consideration.

If the program demonstrates the effectiveness of matching VA records with the license or registration records of a government agency or private organization as a means of identifying VA employees or other health care professional who do not have current, unrestricted licenses, or current registration, the Inspector General may direct that additional matches be conducted. In conducting the matching program the OIG will request that participating government agencies and private organizations provide computerized excerpts containing the names, dates of birth, social security numbers and status of the licenses or registration of health care professionals. If a law or rule prohibits a government agency or private organization from furnishing a computerized extract of its records, the OIG will submit computerized tapes or records containing only names, dates of birth and social security numbers of the VA records to be matched. The loan of any VA records to a government agency or private organization for matching purposes will be in accordance with OMB Matching Guidelines which require the recipient to agree to the following: That the source matching file will remain the property of the VA and will be returned to the OIG at the end of the matching program (or destroyed as appropriate); that the file will be used and accessed only to match the files previously agreed to; that the file will not be used to extract information concerning "non-hit" individuals for any purpose; and that the file will not be duplicated or disseminated within or outside the matching agency unless authorized in writing by the VA OIG.

c. *Records to be Matched:* Lists extracted from the following systems of records will be matched with the license and registration records of government agencies and private organizations:

(1) Individuals Submitting Invoices/Vouchers for Payment-VA (13VA047) (Privacy Act Issuances, 1982/83 Comp., Vol. V, pp. 1150–1151).

(2) Patient Fee Basis Medical and Pharmacy Records-VA (23VA136) (Privacy Act Issuances, 1982/83 Comp., Vol. V, pp. 1156–1157).

(3) Personnel and Accounting Pay System-VA (27VA047) (Privacy Act Issuances, 1982/83 Comp., Vol. V, pp. 1159–1160).

The disclosure of information from these systems of records, for the purpose of the matching program, is permitted by published routine uses.

d. *Period of Match:* Intermittently from approximately July 1985. The matching may be cyclical or may be repeated periodically.

e. *Safeguards:* Records used in the matches and data generated as a result, will be safeguarded from unauthorized disclosure. Access will be limited to those persons who have a need for the information in order to conduct the matches or follow-up actions. All of the material will be stored in locked containers when not in use. The matching files to be used in this project will remain under the control of the OIG and will be returned to the Department of Medicine and Surgery and Office of Budget and Finance or destroyed upon completion of the match. The matching file will be used and accessed only to match files in accordance with this notice; will not be used to extract information concerning "non'hit" individuals for any purpose; and will not be disseminated outside the OIG unless authorized by the Chief Medical Director or the Director, Office of Budget and Finance.

f. *Retention and Disposition:* Records not resulting in "hits" will be destroyed by burning, shredding or electronic erasing within two months of the completion of the individual match. Records resulting in "hits" will be retained by either the OIG or the Department of Medicine and Surgery until the completion of any necessary administrative or legal action and will then be disposed of in accordance with approved records control schedules and/or approved disposition authority from the Archivist of the United States.

Agency Form Under OMB Review

AGENCY: Veterans Administration.

ACTION: Notice.

The Veterans Administration has submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). This document contains a reinstatement and lists and following information: (1) The Department or Staff Office issuing the form; (2) The title of the form; (3) The agency form number, if applicable; (4) How often the form must be filled out; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to fill out the form; and (8) An indication of whether section 3504(h) of Public Law 96–511 applies.

ADDRESSES: Copies of the form and supporting documents may be obtained from Patricia Viers, Agency Clearance Officer (732), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420, (202) 389–2146. Comments and questions about the items on the list should be directed to the VA's OMB Desk Officer, Dick Eisinger, Office of Management and Budget, 726 Jackson Place NW., Washington, D.C. 20503, (202) 395–7316.

DATES: Comments on the information collection should be directed to the OMB Desk Officer within 60 days of this notice.

Dated: July 19, 1985.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

FEDERAL DEPOSIT INSURANCE CORPORATION

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, July 29, 1985, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors, pursuant to sections 552b (c)(2), (c)(6), (c)(8), and (c)(9)(A)(ii) of Title 5, United States Code, to consider the following matters:

Sumary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers, directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(6), (c)(8), and (c)(9)(A)(ii)).

Note.—Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Discussion Agenda:

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550—17th Street, NW., Washington, D.C.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: July 22, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,
Executive Secretary.

[FR Doc. 85-17742 Filed 7-23-85; 11:37 am]
BILLING CODE 6714-01-M

3

FEDERAL DEPOSIT INSURANCE CORPORATION

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 2:00 p.m. on Monday, July 29, 1985, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Application for consent to purchase assets and assume liabilities:

Century Bank and Trust Company, Somerville, Massachusetts, an insured State nonmember bank, for consent to purchase certain assets of and assume the liability to pay deposits made in the Massachusetts Teachers Association Credit Union, Boston, Massachusetts, a non-FDIC-insured institution.

Request for modification of a previously issued order in connection with applications for consent to purchase assets and assume liabilities and establish eleven branches:

Equibank, Latrobe, Pennsylvania, an insured State nonmember bank, for consent to purchase certain assets of and assume the liability to pay deposits made in five branches of First Pennsylvania Bank N.A., Bala-Cynwyd, Pennsylvania, and six branches of Atlantic Financial Federal, Bala-Cynwyd, Pennsylvania, a non-FDIC-insured institution, and to establish those eleven offices as branches of Equibank.

Recommendation regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Memorandum and Resolution re: Penn Square Bank, National Association, Oklahoma City, Oklahoma

Reports of committees and officers:

Minutes of actions approved by the standing committees of the Corporation pursuant to authority delegated by the Board of Directors.

Reports of the Division of Bank Supervision with respect to applications, requests, or actions involving administrative enforcement proceedings approved by the Director or an Associate Director of the Division of Bank Supervision and the various Regional Directors pursuant to authority delegated by the Board of Directors.

Report of the Director, Division of Liquidation:

Memorandum re: Quarterly Report for Actions Approved Under Delegated Authority as of March 31, 1985

Discussion Agenda:

Memorandum and resolution re: Proposed amendments to Part 330 of the Corporation's rules and regulations, entitled "Clarification and Definition of Deposit Insurance Coverage," which would require disclosure in the account records of banks the identities of each person having a beneficial ownership interest in brokered deposit accounts.

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550—17th Street, NW., Washington, D.C.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: July 22, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,
Executive Secretary.

Department of the Treasury

Office of the Secretary

Privacy Act of 1974; Notices of Systems of Records

VOL 50 ISS 143 JL 25 1985 UMI

DEPARTMENT OF THE TREASURY

Office of the Secretary

Privacy Act of 1974: Periodic Publication of All Privacy Act Systems of Records

The Department of the Treasury is systematically republishing all of its systems of records notices. This notice updates the information for the systems of records maintained by the following constituent units of the Department:

Bureau of Alcohol, Tobacco, and Firearms
Comptroller of the Currency
Bureau of Engraving and Printing
Federal Law Enforcement Training Center
Financial Management Service (formerly BGFO)
United States Mint
Bureau of the Public Debt
United States Savings Bonds Division
United States Secret Service

The notices for these systems of records were last published by the **Federal Register** in the Privacy Act Issuances 1984 Compilation, pages 704 through 714, 767 through 787, and 836 through 850.

The Department has eliminated Appendix AA which listed blanket-type routine uses. The applicable routine uses now appear in each system of records. All other changes are editorial in nature and consist principally of address changes, revision of organizational titles and transfer of functions. None of the changes require an altered system report as required by 5 U.S.C. 552a(o).

A total of 13 systems were deleted in this publication. One system was added and three systems were revised for the reasons noted below.

Dated: July 15, 1985.

John F.W. Rogers,

Assistant Secretary of the Treasury (Management).

Revisions

Bureau of the Public Debt

The following three systems were revised to include provisions of the Debt Collection Act and were published on August 12, 1983 (48 FR 36722).

BPD .001—Personnel and Administrative Records
BPD .002—United States Savings—Type Securities
BPD .003—United States Securities (Other than Savings—Type Securities)

Addition

Comptroller of the Currency

CC .015—Chain Banking (published on April 23, 1985, 50 FR 16037)

Deletions

Bureau of Engraving and Printing

BEP .003—Continuation of Pay Record (now included as a part of .005—Compensation Claims)
BEP .013—Employee Locator (covered under Office of the Secretary OS .193—Employee Locator and Automated Directory System)
BEP .019—Identification Files (now included as a part of .027—Programmable access and Security System [PASS])

The following five systems are covered under Treasury OS .002—Treasury Payroll Information System:

BEP .024—Payroll Records
BEP .030—Project Rest (Reporting Employment Statistics in Treasury) Minority Statistics
BEP .031—Reemployment Information Record
BEP .032—Retention Register
BEP .033—Roster of Bureau of Engraving Employees

Financial Management Service

FMS .004—Freedom of Information Requests (no longer filed by name or individual identifier)
FMS .006—Identification Files on Individuals cashing Treasury checks (obsolete)
FMS .009—Postal Savings Deposits (New legislation for submitting claims, Public Law 98-359, July 13, 1984, effective July 13, 1985)

(6) Victims of crimes. (7) Witnesses.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Records containing information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrest, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status; (b) Records containing information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable to an individual; (c) Records containing reports identifiable individual compiled at various stages of the process of enforcement of criminal laws from arrest or indictment through release from supervison; (d) Records compiled and maintained by the Bureau as generally described in (a), (b), and (c) above including the following: (1) Abandoned property reports. (2) ATF Criminal Investigation Reports (not resulting informal prosecution reports). (3) ATF referrals to foreign, Federal, state, and local law enforcement agencies. (4) Chief and Regional Counsel opinions. (5) Contemporaneous investigative notes. (6) Criminal investigatory correspondence from and to foreign, Federal, state and local law enforcement agencies. (7) Criminal intelligence information on individuals suspected to be violating ATF laws and regulations. (8) Documentary proof of defendant's criminal record; identify; or lack or registration of N.F.A. (as amended) firearm(s). (9) FBI Criminal Record Reports. (10) Fingerprints and palmprints. (11) Fugitive arrest warrants. (12) Handwriting exemplars. (13) Index cards, violation and reputation. (14) Illicit liquor and raw material surveys. (15) Laboratory reports of evidence analysis. (16) Memoranda of expected testimony of witnesses. (17) Organized crime members violating or suspected of violating ATF laws. (18) Parole and pardon reports. (19) Personal histories (address, employment, social security number, financial background, physical description, etc.). (20) Photographs. (21) Purchase of evidence records. (22) Records of electronic surveillance by ATF. (23) Records received in response to summons and subpoenas. (24) Reliefs from disability. (25) Reports of interview with witnesses. (26) Search warrants and affidavits for search warrants. (27) Seized property reports. (28) Significant criminals, armed and dangerous, firearms, explosives, liquor, and wagering. (29) Special agent's daily activity diary (accessible by date only). (30) State and local law enforcement criminal investigative reports. (31) Statements of defendants. (32) Statements of witnesses. (33) Summons and subpoenas issued pursuant to criminal investigations. (34) Voice prints. (35) Wagering tax suspected violators. (36) Warning and demand letters. (37) Criminal violation reports (a formal report compiling all or portions of the foregoing for prosecutive purposes).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

(1) 26 U.S.C. Chapters 35 and 40. (2) 26 U.S.C. Chapters 51 and 52. (3) 26 U.S.C. Chapter 53, as amended. (4) 26 U.S.C. Chapters 61 through 80, as amended. (5) 27 U.S.C. Chapter 8, as amended (Federal Alcohol Administration Act). (6) 18 U.S.C. Chapter 40. (7) 18 U.S.C. Chapter 44. (8) 18 U.S.C. Chapter 59. (9) 18 U.S.C. App. 1201–1203 (Title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended by Title III of the Gun Control Act of 1968). (10) 22 U.S.C. section 414, (Mutual Security Act of 1954, as amended). (11) 5 U.S.C. sections 901 and 903, 5 U.S.C. App. (Reorganization Plan of 1950), Treasury Order 221, 5 U.S.C. section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose of this system is to suppress traffic in illicit untaxpaid distilled spirits; to enforce the Federal laws relating to the illegal possession and use of firearms, destructive devices, explosives, explosive matrials, and wagering activities; and to assist Federal, state, local and foreign law enforcement agencies in reducing crime and violence. A record in this system may be disclosed as a routine use to: (a) Employees of other government agencies when required or authorized to be released by statute, regulations or Executive Order. (b) To third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation. (c) Appropriate Federal, state, local and foreign agencies for the purpose of enforcing and investigating administrative, civil or criminal laws relating to the hiring or retention of an employee; issuance of security clearance, license, contract, grant or other benefit. (d) A court, magistrate, or administrative tribunal in the course of presenting evidence; counsel or witnesses in the course of or in preparation for civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) INTERPOL and similar criminal intelligence gathering organizations for the purpose of identifying and suppressing the activities of international and national criminals and terrorists. (f) Appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (g) Insurance companies making determinations regarding claims in cases that the Bureau has conducted or is conducting an arson investigation. (h) A congressional office in response to an inquiry of the individual to whom the record pertains. (i) Unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (j) Provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Centers. Records also stored on magnetic tape at ADP Division, Technical and Scientific Services Branch of Bureau Headquarters and at the IRS Data Center, Detroit, MI. Records are stored in on-line mass computer storage at San Diego, CA (Treasury Enforcement Communications System).

RETRIEVABILITY:

Records are retrievable by name, date of birth, social security number, unique identifier, investigation number, serial

VOL 50 ISS 143 JL 25 1985 UMI

number of firearm, or a combination of any of these; plus date and geographical location of incident giving rise to investigation.

SAFEGUARDS:

Direct access restricted to personnel in Department of Treasury in the performance of their duty. Transmitted to routine users on a "need to know" basis and to others upon verification of the substance and propriety of the request. Stored in lockable file cabinets in rooms locked during non-duty hours.

RETENTION AND DISPOSAL:

Records are retained in accordance with General Services Administration General Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding or burning. Records on tape or on-line mass storage are disposed of by deguassing.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director (Law Enforcement), Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226.

NOTIFICATION PROCEDURE:

The Director of the Bureau of Alcohol, Tobacco and Firearms has exempted this system of records from compliance with the provisions of 5 U.S.C. 552a (e)(4)(G).

RECORD ACCESS PROCEDURES:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempted from compliance with the provisions of 5 U.S.C. 552a(e)(4)(H).

CONTESTING RECORD PROCEDURES:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempted from compliance with the provisions of 5 U.S.C. 552a((e)(4)(H).

RECORD SOURCE CATEGORIES:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552a(e)(4)(I).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Exempt under 5 U.S.C. 552a(j) and 31 CFR 1.36.

Treasury/ATF .004

SYSTEM NAME:

Fiscal Record System—Treasury/ATF.

SYSTEM LOCATION:

Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226. Components of this record system are geographically dispersed throughout the Bureau's field offices. Treasury/ATF .006

SYSTEM NAME:

Internal Security Record System—Treasury/ATF.

SYSTEM LOCATION:

Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Present employees of the Bureau of ATF. (2) Former employees of the Bureau of ATF. (3) Applicants for employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Records containing investigative material compiled for law enforcement purposes including reports relating to: (a) Conduct of employees. (b) Integrity of employees. (2) Records containing investigative material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or access to classified information including reports relating to security clearances of employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

18 U.S.C. 201, Executive Order 10450, Executive Order 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

This system is used to assure the Bureau Director, the Department of the Treasury, and the public that the Bureau is taking strong and vigorous steps to maintain the highest standards of integrity, loyalty, conduct, and security among Bureau personnel. When a criminal investigation results in a compilation of information contained in this system, the information so compiled shall be transferred to the ATF Criminal Investigation Report System and shall become a part of that system for all purposes of the Privacy Act of 1974. A record in this system may be disclosed as a routine use to: (a) Employees of other government agencies when required or authorized to be released by statute, regulations or Executive Order. (b) Third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation. (c) Appropriate Federal, State, local and foreign agencies for the purpose of enforcing and investigating administrative, civil or criminal law relating to the hiring or retention of an employee; issuance of a security clearance, license, contract, grant or other benefit. (d) A court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of or in preparation for civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) Appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of

VOL 50 ISS 143 JL 25 1985 UMI

an indication of a violation or potential violation of civil or criminal law or regulation. (f) A congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (g) Unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (h) Provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Center.

RETRIEVABILITY:

Records are retrievable by name.

SAFEGUARDS:

Direct access restricted to personnel in Department of the Treasury in the performance of their duty. Transmitted to routine users on a "need to know" basis and to others upon verification of the substance and propriety of the request. Stored in lockable metal file cabinets in room locked during non-duty hours.

RETENTION AND DISPOSAL:

Records are retained in accordance with General Services Administration General Records Schedules Numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding or burning.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director (Internal Affairs), Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226.

NOTIFICATION PROCEDURE:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552a(e)(4)(G).

RECORD ACCESS PROCEDURE:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552a(e)(4)(H).

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

(1) Employees of this Bureau. (2) Internal Investigative report forms. (3) Witnesses. (4) Informants. (5) Federal, state and local enforcement agencies. (6) Employers. (7) Educational institutions. (8) Credit agencies. (9) Neighbors. (10) References. (11) Professional Organizations. (12) Other government agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Portions exempt under 5 U.S.C. 552a(k) (relating to security clearances) and 5 U.S.C. 552a(k)(2) (relating to conduct and integrity) and 31 CFR 1.36.

Treasury/ATF .007

SYSTEM NAME:

Personnel Record System—Treasury/ATF.

SYSTEM LOCATION:

Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226. Components of this record system are geographically dispersed throughout the Bureau's field offices. A list of field offices is available by writing to the Chief, Disclosure Branch, Room 4406, 1200 Pennsylvania Avenue, NW, Washington, DC 20226.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Present Employees of the Bureau of ATF. (2) Former Employees of the Bureau of ATF. (3) Applicants for employment with ATF.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Allotment and Dues. (2) Annual Tax Reports. (3) Applicants for employment. (4) Applications for reassignment. (5) Awards, honors, and fellowship records. (6) Classification appeal records. (7) Death claim records. (8) Educational history. (9) Employee indebtedness records. (10) Employees qualified as Grievance Examiners. (11) Employee Suggestions. (12) Employee history. (13) Employee relations case file. (14) Equal employment opportunity case file. (15) Health maintenance records. (16) Insurance records. (17) Military history. (18) Occupational injuries, disabilities, and Worker's Compensation Records. (19) Official personnel folder. (20) Outside employment and identification numbers, business or professional records. (21) Outside employment. (22) Outside financial interests. (23) Overtime and/or Premium Pay records. (24) Performance evaluation records. (25) Personal history. (26) Position description records. (27) Promotion/Selection Certificates Records. (28) Property custody records. (29) Retirement records. (30) Security clearance records. (31) Statement of career goals. (32) Supervisory or managerial potential records. (33) Temporary assignments and details. (34) Time application reports and records. (35) Training record. (36) U.S. Savings Bond participation records. (37) Upward mobility applications. (38) Vehicle accidents. (39) Withholding tax records. (40) Work schedule records. (41) Chief Counsel and Regional Counsel memoranda and opinions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

(1) 5 U.S.C. Chapter 29, Subchapter II. (2) 5 U.S.C. Chapters 31 and 33. (3) 5 U.S.C.Chapter 43. (4) 5 U.S.C. Chapter 45. (5) 5 U.S.C. Chapter 51. (6) 5 U.S.C. Chapter 55, subchapter III. (7) 5 U.S.C. Chapter 61. (8) 5 U.S.C. Chapter 75. (9) 5 U.S.C. Chapter 83. (10) 5 U.S.C. Section 301. (11) 5 U.S.C. 4503. (12) 5 U.S.C. Sections 5101–5115. (13) 5 U.S.C. Sections 7151–7154. (14) 5 U.S.C. Section 7901. (15) Pub. L. 92–261 (Equal Employment Act of 1972). (16) Pub. L. 93–579. (17) Federal Employees Compensation Act. (18) Occupational Safety and Health Act of 1970. (19) Executive Order 10561. (20) Executive Order 11222. (21) Executive Order 11476. (22) Executive Order 11491.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

A record in this system may be disclosed as a routine use to: (a) Employees of government agencies when required or authorized to be released by statute, regulations or Executive Order. (b) Any third party, to the extent necessary, to collect relevant information from the third party, provided that the information is needed by the Bureau to render a decision in regard to a personal matter. (c) Appropriate Federal, state, local or foreign agencies responsible for enforcing administrative, civil, or criminal laws; hiring or retention of an employee; issuance of a security clearance, license, contract, grant or other benefit. (d) A court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of or in preparation for civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) Unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (f) A congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (g) Provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Centers. Records also stored on magnetic tape at the IRS Data Center, Detroit, MI. Records are stored in on-line mass computer storage at San Diego, CA (Treasury Enforcement Communications System).

RETRIEVABILITY:

Records are retrievable by name, date of birth, social security number, employee identification number, or a combination of any of these four.

SAFEGUARDS:

Direct access restricted to personnel in the Department of the Treasury in the performance of their duty. Transmitted to routine users on a "need to know" basis or where "a right to access" is established, and to others upon verification of the substance and propriety of the request. Stored in lockable file cabinets in rooms locked during non-duty hours.

RETENTION AND DISPOSAL:

Records are retained in accordance with General Services Administration Genral Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding, burning or by degaussing.

SYSTEM MANAGER(S) AND ADDRESS:

Comptroller, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226.

NOTIFICATION PROCEDURE:

The Director of the Bureau of Alcohol, Tobacco and Firearms has exempted this system of records from compliance with the provisions of 5 U.S.C. 552a(e)(4)(G).

RECORD ACCESS PROCEDURES:

The Director of the Bureau of Alcohol, Tobacco and Firearms has exempted this system of records from compliance with the provisions of 5 U.S.C. 522a(e)(4)(H).

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

(1) Administrative Records. (2) Applicants for employment with Bureau. (3) Acquaintances. (4) Business and professional associates. (5) Creditors (6) Criminal records. (7) Educational institutions attended. (8) Employee records. (9) Equal Employment Opportunity Commission. (10) Financial institutions. (11) Fiscal records. (12) Former employees. (13) Former employers. (14) Inspection records. (15) Internal investigation reports. (16) Internal Revenue Service. (17) Military records. (18) Outside employers. (19) Physicians. (20) Police reports. (21) Position classification specialists. (22) Psychiatrists. (23) References. (24) Supervisors. (25) Training officers. (26) Unions, accredited. (27) U.S. Civil Service Commission. (28) Witnesses.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Exempt under 5 U.S.C. 552a(k) and 31 CFR 1.36.

Treasury/ATF .008

SYSTEM NAME:

Regulatory Enforcement Record System—Treasury/ATF.

SYSTEM LOCATION:

Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW., Washington, DC 20226. Components of this system of records are also geographically dispersed throughout ATF's regional and field offices. A list of field offices is available by writing to the Chief, Disclosure Branch, Room 4406, 1200 Pennsylvania Avenue, NW, Washington, DC 20226.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Individuals who have been issued permits or licenses, have filed applications with ATF, or have registered with ATF as: (a) Brewers. (b) Claimants for refund, abatement, credit, allowance or drawback of excise or special occupational taxes. (c) Collectors of firearms or ammunition. (d) Importers or wholesalers of beer, wine or distilled spirits; distillers, rectifiers, bottlers, or warehousemen of distilled spirits; or Wine producers. (e) Individuals who produce, receive, blend, store or treat wine or distilled spirits for experimental or research purposes. (f) Individuals who establish experimental distilled spirits plants. (g) Liquor bottle manufacturers. (h) Manufacturers of stills. (i) Manufacturers, importers, or dealers of firearms or ammunition. (j) Manufacturers, importers, dealers, or users of explosive materials. (k) Manufacturers, proprietors of export warehouses or importers of tobacco produces. (l) Non-beverage drawback claimants. (m) Operators of pilot brewing plants. (n) Possessors of stills and related equipment. (o) Proprietors of vinegar plants, fruit—flavor concentrate plants or class 6 bonded warehouses. (p) Proprietors of bonded wine cellars, Bonded wineries, tax paid wine bottling houses, or bonded wine warehouses. (q) Reprocessors or rebottlers of specially denatured spirits. (r) Retailers of beer, wine or distilled spirits. (s) Users of tax-free alcohol, dealers or users of specially denatured spirits, or recoverers of specially denatured or completely denatured spirits. (t) Individuals who establish alcohol fuel plants. (u) Exporters of beer, wine and distilled spirits subject to drawback. (2) Individuals who are employed by businesses engaged in the activities specified in paragraph 1 and who are officers, directors, holders of 10 percent or more of the outstanding stock, designated agents, or responsible persons. (3) Individuals who are not qualified to engage in any of the activities listed in paragraph 1, but who are assessed excise or special occupational taxes. (4) Individuals who submit Offers in Compromise.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records containing investigative material compiled for law enforcement purposes which may consist of the following: (1) Abstracts of offers in compromise. (2) Administrative law judge decisions. (3) Assessment records: (a) Notices of proposed assessments. (b) Notices of shortages or losses. (c) Notices to IRS to assess taxes. (d) Recommendation for assessments. (4) Claim records: (a) Claims. (b) Letters of claim rejection. (c) Sample reports. (d) Supporting data. (e) Vouchers and schedules of payment. (5) Comments on proposed rulemakings. (6) Complaints from third parties. (7) Correspondence concerning records in this system and related matters. (8) Financial statements. (9) Inspection and investigation reports. (10) Joint demands on principals and sureties for payment of excise tax liabilities. (11) Letters of reprimand. (12) Lists of permittees and licensees. (13) List of officers, directors and principal stockholders. (14) Mailing lists and addressograph plates. (15) Notices of delinquent reports. (16) Offers in compromise. (17) Operation records:

VOL 50 ISS 143 JL 25 1985 UMI

(a) Operating reports. (b) Reports of required inventories. (c) Reports of thefts or losses of firearms—who maintains records. (d) Reports of thefts of explosive materials—who maintains records. (e) Transaction records. (f) Transaction reports. (18) Orders of revocation, suspension or annulment of permits or licenses. (19) Regional and Chief Counsel opinions and memoranda. (20) Reports of violations. (21) Permit status records. (22) Qualifying records: (a) Access authorizations. (b) Advertisement records. (c) Applications. (d) Bonds. (e) Business histories. (f) Criminal records. (g) Diagrams of premises. (h) Educational histories. (i) Employment histories. (j) Environmental records. (k) Financial data. (l) Formula approvals. (m) Label approvals. (n) Licenses. (o) Notices. (p) Permits. (q) Personal references. (r) Plant profiles. (s) Plant capacities. (t) Plats and plans. (u) Registrations. (v) Sample reports. (w) Signature authorities. (x) Special permissions and authorizations. (y) Statements of process. (23) Show cause orders. (24) Tax records: (a) Control cards relating to periodic payment and prepayment of taxes. (b) Excise and special tax returns. (c) Notices of tax discrepancy or adjustment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

(1) 26 U.S.C. 5172. (2) 26 U.S.C. 5271(b)(1). (3) 26 U.S.C. 5356. (4) 26 U.S.C. 5401. (5) 26 U.S.C. 5417. (6) 26 U.S.C. 5502(b). (7) 26 U.S.C. 5511(3). (8) 26 U.S.C. 5521(a). (9) 26 U.S.C. 5179(a). Sections 901 *et seq.*; Revenue Act of 1951, Section 616; Treasury Department Order 221 (37 FR 11696, dated June 19, 1972). (50) 5 U.S.C. 301. (51) 26 U.S.C. 5181.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose of this system is to determine suitability, eligibility or qualifications of individuals who are engaged or propose to engage in activities regulated by ATF; achieve compliance with laws under ATF's jurisdiction; assure full collection of revenue due from legal industries; eliminate commercial bribery, consumer deception and other improper trade practices in the distilled spirits, beer and wine industries; interact with Federal, state and local governmental agencies in the resolution of problems relating to industrial development, revenue protection, public health, ecology, and other areas of joint jurisdictional concern. When a criminal investigation results a compilation of information contained in this system of records, the information shall be transferred to the Treasury ATF—Criminal Investigation Report System and shall become part of that system for all purposes of the Privacy Act of 1974. A record in the system may be disclosed as a routine use to: (a) Employees of other governmental agencies when required or authorized to be released by statute, regulations or Executive Order. (b) Any third party to the extent necessary to collect or verify information pertinent to the Bureau's decision to grant, deny or revoke a license or permit; to initiate or complete an investigation of violations or alleged violations of laws and regulations administered by the Bureau. (c) Appropriate Federal, state, local or foreign agencies for the purpose of enforcing administrative, civil or criminal laws; hiring or retention of an employee; issuance of a security clearance, license, contract, grant or other benefit. (d) A court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of or in preparation for civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) INTERPOL and similar national and international intelligence gathering organizations for the purpose of identifying international and national criminals involved in consumer fraud, revenue evasion or crimes. (f) Foreign governments in accordance with formal or informal international agreements. (g) Appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (h) A congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (i) Provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Active records stored in file folders in filing cabinets; card forms in card filing cabinets; and on magnetic tapes or microfiche at IRS Service Centers, ATF Headquarters, or Department of the Treasury.

RETRIEVABILITY:

Records are retrievable by name, permit or license number, or by document locator number.

SAFEGUARDS:

Direct access restricted to personnel in the Department of Treasury in the performance of their duty. Transmitted to routine users on a "need to know" basis and others upon verification of the substance and propriety of the request. Stored in file cabinets in rooms locked during non-duty hours.

RETENTION AND DISPOSAL:

Records are retained in accordance with General Services Administration General Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding, burning or by degaussing.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director (Compliance Operations), Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226.

NOTIFICATION PROCEDURE:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 522a(e)(4)(G).

RECORD ACCESS PROCEDURES:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 522a(e)(4)(H).

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

(1) Acquaintances. (2) Bureau Personnel. (3) Business and Professional Associates. (4) Creditors. (5) Criminal Records. (6) Financial Institutions. (7) Former Employers. (8) Internal Revenue Service. (9) Military Records. (10) Physicians. (11) Psychiatrists. (12) References. (13) Police Reports. (14) Witnesses. (15) Federal Law Enforcement Agencies. (16) State Law Enforcement Agencies. (17) Local Law Enforcement Agencies. (18) State Regulatory Agencies. (19) Federal Regulatory Agencies. (20) Local Regulatory Agencies. (21) Chief Counsel's Opinions. (22) Regional Counsel's Opinions. (23) Chief Counsel's Memoranda. (24) Regional Counsel's Memoranda. (25) Field Investigation Reports. (26) Third Parties.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Exempt under 5 U.S.C. 552a(k)(2) and 31 CFR 1.36.

Treasury/ATF .009

SYSTEM NAME:

Technical and Scientific Services Records System—Treasury/ATF.

SYSTEM LOCATION:

Bureau of Alcohol, Tobacco, and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226. Components of this record system are geographically dispersed throughout Bureau of Alcohol, Tobacco and Firearms' field offices. A list of field offices is available by writing to the Chief, Disclosure Branch, Room 4406, 1200 Pennsylvania Avenue NW., Washington, DC 20226.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Applicants to register firearms under the National Firearms Act. (2) Applicants for Surplus Military Firearms under the Director of Civilian Markmanship Program. (3) Importers of implements of war as defined under the Mutual Security Act of 1954 and the Arms Export Control Act of 1976. (4) Licensed importers registered under the Mutual Security Act of 1954 and the Arms Export Control Act of 1976 (5) Manufacturers of National Firearms Act who are exempt from payment of Special (Occupational) tax provisions. (6) Non-Bureau chemists certified to make analysis of alcoholic beverages. (7) Persons involved in explosives tagging and detection program. (8) Registered owners of National Firearms Act firearms. (9) Special (Occupational) taxpayers as defined under Title II of the Gun Control Act of 1968. (10) Victims of explosives. (11) Individuals involved in Government funded research projects.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Alterations of registered National Firearms Act firearms. (2) Applications for surplus military firearms. (3) Applications to register firearms and destructive devices under the National Firearms Act. (4) Applications to import articles on the United States Munitions list. (5) Blueprints. (6) Certifications of payment of Special (Occupational) tax payments. (7) Changes of address for owner of firearms registered under the National Firearms Act. (8) Claims for erroneous Special (Occupational) taxes payments. (9) Descriptions of Inventions. (10) Delinquency notices regarding proof of importation of National Firearms Act firearms. (11) Explosive reports. (12) Non-Bureau chemists' statements of qualification. (13) Patent information. (14) Registrations of firearms and destructive devices under the National Firearms Act. (15) Registration of war trophy firearms. (16) Requests and authorizations for temporary movement and/or temporary storage of National Firearms Act firearms. (17) Technical and scientific data. (18) Transaction records concerning National Firearms Act firearms. (19) Trade secrets. (20) United States Government contracts to manufacturers of National Firearms Act firearms. (21) Chief Counsel and Regional Counsel memoranda and opinions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

(1) 18 U.S.C. Chapter 40. (2) 18 U.S.C. Chapter 44. (3) 18 U.S.C. Section 3056. (4) 26 U.S.C. Sections 6001 (a), 5001, 5008, 5009 (a), 5006 (a), 5021–5023, 5041, 5042 (a)(2), 5051, 5053, 5056, 5062 (c), 5705, 6201, 6423 (b), 5105, 5106, 5131 (c), 5132, 5172, 5172 (b)(1), 5275, 5301 (b), 5356, 5401, 5417, 5502 (b), 5511 (3), 5521 (a), 5179 (a), 5712, 7011. (5) 27 U.S.C. Sections 204 (c). (6) 26 U.S.C. Chapter 35. (7) Executive Order 10973, as amended by Executive Order 11432.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose of this system is to provide technical and scientific support and expertise to Criminal and Regulatory Enforcement activities of the Bureau; to other Federal, state, local and foreign law enforcement agencies; and to industries involved in activities regulated by the Bureau. When a criminal investigation results in a compilation of information contained in this system, the information so compiled shall be transferred to the ATF Criminal Investigation Report System and shall become a part of that system for all purposes of the Privacy Act of 1974. A record in this system may be disclosed as a routine use to: (a) Employees of other governmental agencies when required or authorized to be released by statute, regulations or Executive Order. (b) Any third party to the extent necessary to collect or verify information pertinent to the Bureau's decision to grant, deny or revoke a license or permit; to initiate or complete an investigation of violations or alleged violations of laws and regulations administered by the Bureau. (c) Appropriate Federal, state, local or foreign agencies, for the purpose of enforcing administrative, civil, criminal laws; hiring or retention of an employee; issuance of a security clearance, license, contract, grant or other benefit. (d) A court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) INTERPOL and similar national and international intelligence gathering organizations for the purpose of identifying international and national criminals involved in consumer fraud, revenue evasion or crimes. (f) Foreign governments in accordance with formal or informal international agreements. (g) Appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (h) Insurance companies making determinations regarding claims in cases that the Bureau has conducted or is conducting an arson investigation. (i) A congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (j) Provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Active records stored in file folders in filing cabinets; on 3 x 5 and 5 x 8 cards stored in card file cabinets; on microfilm reels; magnetic tape reels and discs; and on keypunch cards.

RETRIEVABILITY:

Records are retrievable by name, by unique identifier, control number, serial number of National Firearms Act firearms.

SAFEGUARDS:

Stored in file cabinets locked during non-duty hours.

RETENTION AND DISPOSAL:

Records are retained in accordance with General Services Administration Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding or burning. Records stored on tape discs or on-line mass storage are disposed of by degaussing.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director (Compliance Operations), Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW, Washington, DC 20226.

NOTIFICATION PROCEDURE:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552(e)(4)(G).

RECORD ACCESS PROCEDURES:

The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552a(e)(4)(H).

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

(1) Individuals. (2) Companies. (3) Corporations. (4) Firearms Licensees. (5) Explosive Licensees. (6) Explosive Permittees. (7) Bureau personnel. (8) Federal law enforcement agencies. (9) State law enforcement agencies. (10) Local law enforcement agencies. (11) Foreign law enforcement agencies. (12) Federal Regulatory agencies. (13) State Regulatory agencies. (14) Local Regulatory agencies. (15) Non-Bureau Chemists.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Exempt under 5 U.S.C. 552a(k)(2) and 31 CFR 1.36.

BILLING CODE 4810-31-M

Treasury/Comptroller .004

SYSTEM NAME:

Consumer Complaint Information System (CCIS)—Treasury/Comptroller.

SYSTEM LOCATION:

Office of the Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219. Components of the CCIS are geographically dispersed throughout six (6) district offices. (See addresses listed in Appendix of OCC District Offices.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who file complaints against banks either directly or through second parties, e.g. attorneys, Congressional representatives.

CATEGORIES OF RECORDS IN THE SYSTEM:

The records are maintained in three general categories: correspondence; computer tapes; and hard copies of computer generated reports. Data contained in these records are: The name and address of the complainant or their representative; the name and charter number of bank; the date of incoming letter; the date letter received by the OCC; numerical codes identifying the nature of the complaint, the source of the complaint, and the type of resolution; the name of person assigned to examine the complaint; the resolution date; and, if appropriate, the amount of reimbursement.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. 1, 12 U.S.C. 9, 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Sanitized copies of the files may be used in response to Congressional inquiries on specific subjects. Hard copy computerized reports are used to monitor the system, provide data for the Annual Report to Congress and inquiries from other agencies, public and private.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records in active use are stored in file cabinets in the processing office. Resolved complaints are stored in the office having primary responsibility for the subjects banks, generally the field office. Complaints against banks with over one billion dollars in assets are stored in the appropriate district office. Complaints which appeal the district office's resolution are stored in Central Files in the Washington Office. Active computer tapes are secured in the Information Systems and Technology Division and the computerized reports are stored in file cabinets.

RETRIEVABILITY:

Correspondence records are retrieved from appropriate office using the bank and complainant's name. Other records are retrieved using the complainant's name or the identification number assigned to each complaint.

SAFEGUARDS:

Entrance to the floors where active complaint files are located is a controlled access system. Computer tapes are also located in a controlled access location. Inactive files are located in locked file rooms.

RETENTION AND DISPOSAL:

(a) Consumer complaint correspondence generating administrative action is part of the permanent bank record set that is retained at OCC for three calendar years, then transferred to Washington National Records Center and offered to National Archives Records Service when 20 years old. (b) Consumer complaints of a routine nature are held for three years, transferred to WNRC, and destroyed when seven years old. (c) Computer tapes and one record copy of reports are retained in OCC for three years, then transferred to WNRC, and offered to NARS when 20 years old.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Consumer Examinations Division, Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219.

NOTIFICATION PROCEDURE:

Individuals may write or call the Director of Consumer Examinations Division to obtain this information. They must provide their name, address, name of subject bank, complaint identification number, if available, and the approximate date. The requesting individual will only be provided an affirmative or negative answer. If additional information is requested, procedures under access must be followed.

RECORD ACCESS PROCEDURES:

Access to a record can be requested by writing to the Director of Communications, Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CONTESTING RECORD PROCEDURES:

Decisions by the district offices can be appealed to the Director of Consumer Examinations Division. Such an appeal is the final level of administrative action available to persons filing Complaints.

RECORD SOURCE CATEGORIES:

The initial source is from the person filing a complaint against a national bank. Subsequent sources are from bank correspondence, bank files, or from reports based on on-site examinations.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Comptroller .010

SYSTEM NAME:

Federal Bureau of Investigation Report Card Index—Treasury/Comptroller.

SYSTEM LOCATION:

Comptroller of the Currency, 6th Floor, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who have been involved in or associated with unlawful activity respecting national banking associations.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of alphabetized indices of the names of individuals involved in or associated with unlawful activity respecting national banks and a cross-reference to pertinent Federal Bureau of Investigation Reports relating thereto.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. sections 21, 481, 1818, and 1829, 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(A) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (b) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (c) To disclose information to foreign governments in accordance with formal or informal international agreements. (d) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File cabinet.

RETRIEVABILITY:

The records are retrieved by the name of the individual.

SAFEGUARDS:

Records are retained by the Enforcement and Compliance Division. Within the Division, access to the file is limited to the attorneys and the support staff. During non-working hours the Division office is locked and only Division personnel have access to the office.

RETENTION AND DISPOSAL:

Records are periodically updated to reflect changes and maintained as long as needed.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Enforcement and Compliance Division, Law Department, Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219.

NOTIFICATION PROCEDURE:

Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, date of employment or similar information).

RECORD ACCESS PROCEDURES:

Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CONTESTING RECORD PROCEDURES:

Submit requests to the Director, Public Affairs, at the address above.

RECORD SOURCE CATEGORIES:

Information and names obtained from F.B.I. logs.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3)(4), (d)(1)(2)(3)(4), (e)(1)(2)(3)(4), (G), (H), and (I), (e) (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (h)(2).

Treasury/Comptroller .012

SYSTEM NAME:

Freedom of Information Index and Log—Treasury/Comptroller.

SYSTEM LOCATION:

Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons making request under the Freedom of Information Act (FOIA).

CATEGORIES OF RECORDS IN THE SYSTEM:

List of names of persons making requests under the Freedom of Information Act.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. 1 and 12 U.S.C. 9, 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

No requests for this information are made outside of the Office of the Comptroller of the Currency or the Department of the Treasury.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File cabinet.

RETRIEVABILITY:

Indexed alphabetically by name.

SAFEGUARDS:

Unlocked file cabinet.

RETENTION AND DISPOSAL:

Records are updated periodically to reflect changes and are maintained as long as needed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

VOL 50 ISS 143 JL 25 1985 UMI

NOTIFICATION PROCEDURE:

Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency Office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, date(s) of employment or similar information).

RECORD ACCESS PROCEDURES:

Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CONTESTING RECORD PROCEDURES:

Submit requests to the Director, Communications at the above address.

RECORD SOURCE CATEGORIES:

Persons making requests under Freedom of Information Act.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Comptroller .013

SYSTEM NAME:

Enforcement and Compliance Information System—Treasury/Comptroller.

SYSTEM LOCATION:

Comptroller of the Currency, 6th Floor, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and entities involved in actual or suspected fraudulent activities, and bank directors, officers and shareholders named in administrative enforcement actions.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information identifying the individual, describing the known or suspected criminal activity or enforcement action in which the individual is involved or named, giving the bank name and location, and where applicable, the law enforcement agency to which referred, date referred, indicating if a grand jury subpoena has been issued, indicating other action taken, and identifying the OCC attorney. The name of the individual is the only identifier used.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. 481, 1818, 1820.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To provide the Department of Justice with periodic reports which indicate the number, place and individual identity of outstanding potential criminal violations of the law which have been referred to the Department. (b) To provide the Comptroller of the Currency's offices with statistical information and thereby enable it to respond to general information requests from the Congress. (c) To disclose information to foreign governments in accordance with formal or informal international agreements. (d) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (e) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records will be maintained in general correspondence files, files of enforcement actions, in card files and on computer discs.

RETRIEVABILITY:

All records will be indexed by bank name and location. In addition, records on computer discs will be indexed by name of individual, known or suspected criminal code provision violated.

SAFEGUARDS:

Correspondence files are stored in the Comptroller's Central File room and may only be retrieved by authorized personnel. Enforcement files are accessible only to authorized personnel. Card files will be stored in lockable file cabinets. Computer discs will be accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Records are periodically updated to reflect changes and maintained as long as needed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Enforcement and Compliance Division, Law Department, Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219.

NOTIFICATION PROCEDURE:

This system is exempt from notification requirements under 5 U.S.C. 552a(k)(2) of the Act as relating to investigatory material compiled for law enforcement purposes.

RECORD ACCESS PROCEDURES:

Same as notification above.

CONTESTING RECORD PROCEDURES:

Same as notification above.

RECORD SOURCE CATEGORIES:

Examinations of national banks by national bank examiners; investigations performed by agency attorneys and notifications from the Department of Justice, other Federal and State law enforcement agencies, and other Federal and State bank regulatory agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Components of this system have been designated as exempt from 5 U.S.C. 552a (j)(4). To the extent that the exemption render 5 U.S.C. 552a(j)(4) does not apply, the exemption under 5 U.S.C. 552a(k)(2) applies.

Treasury/Comptroller .014

SYSTEM NAME:

Investigation Files/Employee Reference File—Treasury/Comptroller.

SYSTEM LOCATION:

Comptroller of the Currency, Human Resources Division, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employee of Comptroller of the Currency.

CATEGORIES OF RECORDS IN THE SYSTEM:

Compilation of material for a determination regarding Security Clearance.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. 1 and 12 U.S.C. 9; 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Locked steel file cabinets and a safe with combination lock.

RETRIEVABILITY:

Filed in alphabetical order.

SAFEGUARDS:

Combination locks are changed once a year and only security-cleared employees within the Human Resources Division have access.

RETENTION AND DISPOSAL:

Materials are retained for three months after employee leaves and the records are disposed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Comptroller for Management Resources, Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219.

NOTIFICATION PROCEDURE:

Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system. (2) Identify the category and type of records sought. (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

RECORD ACCESS PROCEDURES:

Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CONTESTING RECORD PROCEDURES:

Submit requests to the Director, Communications at the above address.

RECORD SOURCE CATEGORIES:

The information contained in these records was provided by subject of the record—employers, co-workers, friends, neighbors and associates, and finances.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Portions of this system have been designated as exempt from certain provisions of the Privacy Act pursuant to 5 U.S.C. 552a(k)(5).

Treasury/Comptroller .015

SYSTEM NAME:

Chain Banking Organizations System—Treasury/Comptroller.

SYSTEM LOCATION:

Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, SW, Washington, DC 20219; 1211 Avenue of the Americas, Suite 4250, New York, NY 10036; Peachtree Cain Tower, Suite 2700, 229 Peachtree Street, Atlanta, GA 30303; Sears Tower, Suite 5750, 233 South Wacker Drive, Chicago, IL 60606; 2345 Grand Avenue, Suite 700, Kansas City, MO 64108; 1201 Elm Street, Suite 3800, Dallas, TX 75270; 50 Fremont Street, Suite 3900, San Francisco, CA 94105.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who directly, indirectly, or in concert with others, own and/or control a chain banking organization.

CATEGORIES OF RECORDS IN THE SYSTEM:

The Chain Banking Organizations System consists of word processing and microprocessing programs which perform editing, updating and reporting functions on two types of data: (1) Name of an individual (or group of individuals acting in concert) that owns or controls a chain banking organization and (2) information concerning individual chain banks, such as: name, location, charter number, charter type, date of last examination, percentage of outstanding stock owned by controlling individual or group and, if applicable, name of intermediate holding entity and percentage of it held by controlling individual or group.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. 1, 12 U.S.C. 481, 12 U.S.C. 1817(j).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPORES OF SUCH USES:

The System may be used: (1) To disclose information about specific chain banking organizations to other financial institution supervisory authorities for: (a) Coordination of examining resources when the chain banking organization is composed of banks or financial institutions subject to multiple supervisory jurisdiction; (b) coordination of evaluations and analysis of the condition of the consolidated chain group; (c) coordination of supervisory, corrective or enforcement actions. (2) To disclose information to the extent provided by law or regulation and as necessary to report any apparent violations of law to appropriate law enforcement agencies. (3) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (4) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (5) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in a computer data base and on computer floppy disks or hard copy printouts stored in file cabinets.

RETRIEVABILITY:

All retrievable records are indexed by district location, state, alphabetically by surname of the individual(s) and/or entity controlling the chain banking organization.

SAFEGUARDS:

Access to records in electronic storage systems is restricted by user identification procedures and passwords which limit access to authorized employees of the Office. Computer disks and hard copy printouts will be stored in locked file cabinets when the Office is vacant.

RETENTION AND DISPOSAL:

Records are generally maintained in electronic storage disks in an on-line capacity until needed. Certain records are archived in off-line storage. All records, including those in printout form, are periodically updated to reflect changes and maintained as long as needed.

SYSTEM MANAGER(S) AND ADDRESS:

Senior Deputy Comptroller for Bank Supervision, Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, SW, Washington, DC 20019. District Offices—The Deputy Comptroller for each District is responsible for assuring the accuracy and routine maintenance of that portion of the System applicable to the district.

NOTIFICATION PROCEDURE:

Individuals who wish to be notified if they are named in the system shall submit a signed, written request to the appropriate District Office (or to the System Manager at the address listed). The request must contain: (1) The requester's name and address; (2) the name of the system of records; and (3)

VOL 50 ISS 143 JL 25 1985 UMI

the name and location of the bank(s) which they control individually or in concert with others.

In order to avoid excessive delay and unneeded correspondence, individuals requesting notification should simultaneously request access to records pertaining to them.

RECORD ACCESS PROCEDURES:

Portions of this system of records may be accessed under the Privacy Act for purposes of inspection by identified controlling individuals for the express purpose of verifying that their controlling relationships are accurately recorded.

CONTESTING RECORD PROCEDURES:

Individuals who wish to contest a record in the system must submit a signed written request to the Senior Deputy Comptroller for Bank Supervision, Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, SW, Washington, DC 20219.

The requests should contain: (1) The name and address of the individual contesting the record; (2) the name of the system of records; (3) the name and location of the chain bank(s) which they reportedly control individually or in concert with others; and (4) the specific information being contested and the reason for contesting (it is believed to be inaccurate, irrelevant, incomplete, etc.).

RECORD SOURCE CATEGORIES:

Information that identifies chain banking groups primarily is gathered from: (1) Examination reports and related materials; (2) regulatory filings; and (3) Change in Bank Control Notices filed pursuant to 12 U.S.C. 1817(j).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Comptroller .221

SYSTEM NAME:

Professional Qualifications Records for Municipal Securities Principals and Municipal Securities Representatives—Treasury/Comptroller.

SYSTEM LOCATION:

Office of the Comptroller of the Currency, 490 L'Enfant Plaza East SW, Washington, DC 20219. Records stored in computerized files are maintained off-premises at the National Association of Securities Dealers, 1735 K Street NW, Washington, DC 20006.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who are or seek to be associated with a municipal securities dealer which is a national or District of Columbia bank, or a department, division, or subsidiary of any such bank, in the capacity of municipal securities principals or municipal securities representatives.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain identifying information, detailed educational and occupational histories, certain professional qualifications examination information, disciplinary histories, and information concerning the termination of employment of individuals covered by the system. Identifying information includes names, address history, date and place of birth, and may include Social Security number.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 15B(c)(5), 17 and 23 of the Securities Exchange Act of 1934 (15 U.S.C. 78o–4(c)(5), 78q and 78w) and the general authority of the National Banking Laws, 12 U.S.C. 1 *et seq.*

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The information contained in these records may be subject to the following uses: (a) Referral to the appropriate governmental authority, whether Federal, State, local, or foreign, or to the appropriate self-regulatory organization, of such information as may indicate a violation or potential violation of law, regulation or rule. (b) Referral to the appropriate court, magistrate, or administrative law judge of such information as may be relevant to proceedings before any such court of judicial officer. (c) Disclosure of such information as may aid in the resolution of any action or proceeding: (1) In which the Federal securities or banking laws are at issue; (2) In which the propriety of any disclosure of information contained in the system is at issue; or (3) To which the Comptroller of the Currency or a past or present member of its staff is a party or otherwise involved in an official capacity. (d) Disclosure to a Federal, State, local, or foreign governmental authority, or to a self-regulatory organization, of such information as may be necessary to obtain from such authority or organization additional information concerning the qualifications of an individual covered by the system. (e) Disclosure of such information as may be necessary to respond to a request from a Federal, State, local, or foreign governmental authority, or from a self-regulatory organization, for information needed in connection with the issuance of a license, granting of a benefit, or similar action by such authority or ogranization affecting an individual covered by the system. (f) Disclosure of such information as may be necessary to respond to any Congressional inquiry undertaken at the request of an individual covered by the system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders and on magnetic media.

RETRIEVABILITY:

Records are indexed by name of individual.

SAFEGUARDS:

File folders are stored in lockable metal cabinets and computer memory discs are accessed only by Authorized Personnel.

RETENTION AND DISPOSAL:

Records are updated periodically to reflect changes and maintained as long as needed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Investment Securities Division, 490 L'Enfant Plaza East SW, Washington, DC 20219.

NOTIFICATION PROCEDURE:

Inquiries, including name and date and place of birth, should be addressed to the System Manager. Inquirers may be required to include a notarized statement attesting to identity.

RECORD ACCESS PROCEDURES:

Same as notification procedure.

CONTESTING RECORD PROCEDURES:

Same as notification procedure above.

RECORD SOURCE CATEGORIES:

Those individuals and municipal securities dealers described in the section entitled "Categories of Individuals Covered by the System," provide the bulk of the information in the system. Additional input is provided by Federal, State, local, and foreign governmental authorities, and by self-regulatory organizations, which regulate the securities industry.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Comptroller 300

SYSTEM NAME:

Administrative Personnel System—Treasury/Comptroller.

SYSTEM LOCATION:

Office of the Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219. Components of this system are geographically dispersed throughout six (6) district offices. Contact District Offices for addresses of field offices within their jurisdiction. (See addresses listed in Appendix of OCC District Offices.)

CATEGORIES OF RECORDS IN THE SYSTEM:

Employment related administrative records. This system contains in house control type information about employees. The type of records found within this system are: List of individuals who are issued drivers' licenses, building passes, credit or identification cards, parking permits, accountable property and travel documents; lists of individuals who perform specialized duties (building wardens, relocation teams, safety officers, and civil defense officers); reports about individuals who are involved in accidents while employed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

General Authority—12 U.S.C. 1 and 9, 5 U.S.C. 301. Specific authority is derived from a number of laws, regulations and Executive Orders. Individuals wishing to obtain more detailed information should write to the Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

A record in this system may be disclosed as a routine use to: (1) The Office of Personnel Management (OPM) for the purpose of complying with regulations issued by the CSC; (2) the General Services Administration (GSA) for the purpose of complying with regulations issued by the GSA; and (3) the Department of Labor for the purpose of investigating claims for work related injuries.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, magnetic tape, lists and forms.

RETRIEVABILITY:

Records are retrieved primarily by name (filed alphabetically by category of records); secondary identifiers are used to assure accuracy (date of birth, social security number or employee identification number).

SAFEGUARDS:

Records are stored in lockable cabinets or secure rooms; access is limited to officials who have a need for the information; employees are trained to make only authorized disclosures.

RETENTION AND DISPOSAL:

Personnel-type records are retained for thirty (30) days after termination. All other records are retained and destroyed in accordance with published disposition and retention schedules. Individuals wishing more detailed information should write to the Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Comptroller for Management Resources, 490 L'Enfant Plaza, SW, Washington, DC 20219.

NOTIFICATION PROCEDURE:

Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where last employed; (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

RECORD ACCESS PROCEDURE:

Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CONTESTING RECORD PROCEDURES:

Submit requests to the Director, Communications at the above address.

RECORD SOURCE CATEGORIES:

The information in these records was provided by or verified by the subject of the record, employers and co-workers.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Comptroller 310

SYSTEM NAME:

Fiscal Personnel System—Treasury/Comptroller.

SYSTEM LOCATION:

Office of the Comptroller of the Currency, Finance and Planning Division, 490 L'Enfant Plaza, SW, Washington, DC 20219. Components of this system are geographically dispersed throughout six (6) district offices. (See addresses listed in Appendix of OCC District Offices.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and past employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system is typically identified as payroll or disbursement type records and contains information about employees. The types of records found within this System are: Award, allowance, salary, fund advancement justification and disbursement records; personnel information; leave information; payroll deductions for taxes, life and health insurance, financial institutions, retirement funds and charitable groups.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

General authority—12 U.S.C. 1 and 9, 5 U.S.C. 301. Specific authority is derived from a number of laws, regulations and Executive Orders. Individuals wishing to obtain more detailed information should write to the Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

A record in this system may be disclosed as a routine use to: (1) The Office of Personnel Management (OPM) for the purpose of complying with regulations issued by the OPM; (2) the General Services Administration (GSA) for the purpose of complying with regulations issued by GSA; (3) the General Accounting Office for the purpose of conducting audits; and (4) entities designated to receive payroll deductions, to grant insurance agencies for the purpose of determining eligibility for unemployment benefits, related to delinquent taxes; and (5) in judicial proceedings, garnishment wages for child support or alimony.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, magnetic media and reports. Disbursement records are stored at the Federal Records Center.

RETRIEVABILITY:

Records are retrieved primarily by name (filed alphabetically), secondary identifiers are used to assure accuracy (date of birth, Social Security number, or employee identification number).

SAFEGUARDS:

Records are stored in lockable cabinets or secure rooms; access is limited to officials who have a need for the information; employees are trained to make only authorized disclosures.

RETENTION AND DISPOSAL:

Personnel-type records are retained for 30 days after termination. Disbursement records are retained indefinitely. Individuals wishing more detailed information should write to the Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Comptroller for Systems and Financial Management, 490 L'Enfant Plaza, SW, Washington, DC 20219.

NOTIFICATION PROCEDURE:

Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency Office where last employed; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

RECORD ACCESS PROCEDURES:

Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CONTESTING RECORD PROCEDURES:

Submit request to the Director, Communications, at that address above.

RECORD SOURCE CATEGORIES:

The information contained in these records was provided by or verified by the subject of the record, employers and co-workers.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Comptroller 320

SYSTEM NAME:

General Personnel System—Treasury/Comptroller.

SYSTEM LOCATION:

Office of the Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219. Components of this system are geographically dispersed throughout six (6) District Offices. (See addresses listed in Appendix of OCC District Offices.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and past employees and applicants for employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

Employment related biographical and performance material. This category of records is typically identified as personnel type records and contains data about employees including applicants. The type records found within this category include: Performance evaluations; educational, employment, medical and military histories; locator and emergency contact information; dependent and beneficiary information; physical and qualification descriptions; financial interest statements; personal and family assets, liabilities and other interests in business enterprises.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

General authority—12 U.S.C. 1 and 9, 5 U.S.C. 301. Specific authority is derived from a number of laws, regulations and Executive Orders. Individuals wishing to obtain more detailed information should write to the Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

A record in this system may be disclosed as a routine use to: (1) The Office of Personnel Management (OPM) for the purpose of complying with regulations issued by the OPM; (2) the Veterans Administration (VA) for the purposes of determining veterans preference and pension benefits; (3) the Equal Employment Opportunity Commission for the purpose of providing minority information and case reports; (4) respond to requests from labor organizations for names of employees and identifying information; (5) the Department of Labor for the purpose of reporting health and safety matters; (6) the General Services Administration (GSA) for the purpose of complying with regulations issued by GSA.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, magnetic media, microfiche, printouts, lists and forms.

RETRIEVABILITY:

Records are retrieved primarily by name (filed alphabetically by category of records). Secondary identifiers are used to assure accuracy (date of birth, Social Security number or employee identification number).

SAFEGUARDS:

Records are stored in lockable cabinets or secure rooms; access is limited to officials who have a need for the information; employees are trained to make only authorized disclosures.

RETENTION AND DISPOSAL:

Most personnel-type records are retained for thirty (30) days after termination, at which time they are transferred to the Federal Records Center or destroyed. Some records are retained for varying periods of time in accordance with Federal Personnel Manual Regulations. Individuals wishing more detailed information should write to the Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Comptroller for Management Resources, 490 L'Enfant Plaza, SW, Washington, DC 20219.

NOTIFICATION PROCEDURE:

Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where last employed or where application for employment was made; (4) Provide at least two secondary identifications (date of birth, employee identification number, dates of employment or similar information).

RECORD ACCESS PROCEDURE:

Director, Communications, 490 L'Enfant Plaza, SW, Washington, DC 20219.

CONTESTING RECORD PROCEDURES:

Submit requests to the Director, Communications, at that address above.

RECORD SOURCE CATEGORIES:

The information contained on these records was provided or verified by the subject of the record, employers, co-workers, friends, neighbors and associates listed as references, financial and educational institutions.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/Comptroller 500

SYSTEM NAME:

Chief Counsel's Management Information System—Treasury/Comptroller.

SYSTEM LOCATION:

Office of the Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219. Physical components of this system are also located in regional offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have requested information or action from the Law Department of the Comptroller of the Currency and individuals referenced in documents received by the Law Department in the course of the Agency's bank supervisory functions.

CATEGORIES OF RECORDS IN THE SYSTEM:

The Chief Counsel's Management Information System consists of four primary modules: (1) The Work Assignment Control module; (2) The Case Tracking module; (3) The Litigation Support module; and (4) The Legal Research module. Information contained in the system includes, inter alia, name of the author and/or correspondent and the organization to which the author/correspondent belongs, the date of the correspondence, the city, state and region in which correspondent organization is located, the work type, the bank involved, and the subject.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. 1, 12 U.S.C. 9, 12 U.S.C. 481, 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (1) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issurance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in computer data banks, computer tapes and printouts, and in file cabinents.

RETRIEVABILITY:

All records are indexed on a variety of data fields including correspondent name and location, bank name and location, subject, statutory provisions, and date.

SAFEGUARDS:

All records are indexed through computer indices. Only employees within the Law Department with proper user identification and passwords have access to the computer banks. Employees are trained to make authorized disclosures only to those individuals who have a need for the information. Passwords and user IDs are changed frequently.

RETENTION AND DISPOSAL:

Records are generally maintained in the on-line data bank until it is determined that on-line access is not required. Thereafter the records are archived in an off-line storage system. Records in file cabinets are maintained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Executive Assistant to the Chief Counsel, Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219, (202) 447-1896.

NOTIFICATION PROCEDURE:

Individuals wishing to be notified if they are named in the system or to gain access to records maintained in the system must submit a request containing the following elements: (1) Identity of the record system; (2) identity of the category type of records sought; (3) the location of the Comptroller of the Currency Office where the record might be stored; and (4) at least two items of secondary identification (date of birth, employee identification number, dates of employment, or similar information). The system contains records which are exempt under 5 U.S.C. 552a(j)(2) or 552a(k)(2).

RECORD ACCESS PROCEDURES:

Same as Notification, above.

CONTESTING RECORD PROCEDURES:

Same as Notification, above. Requests should be submitted to: Director, Public Affairs, Comptroller of the Currency, 490 L'Enfant Plaza, SW, Washington, DC 20219.

RECORD SOURCE CATEGORIES:

Materials received by the Law Department from various sources including, inter alia, persons involved in sending inquiries to the Law Department and documents received by the Law Department in the course of the Agency's bank supervisory function. The CCMI contains certain records which have been designated as exempt from certain provisions of the Privacy Act.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a(c)(3)(4), (d)(1)(2)(3)(4), (e)(1)(2)(3)(4), (G), (H), and (I), (e) (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/Comptroller 501

SYSTEM NAME:

Unclaimed Property System—Treasury/Comptroller.

SYSTEM LOCATION:

Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, SW, Washington, DC 20219.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have filed claims in connection with the disposition of unclaimed property in the possession or custody of the Office and individuals who are referenced in those claims.

CATEGORIES OF RECORDS IN THE SYSTEM:

The Unclaimed Property System consists of approximately twenty-five (25) series of programs and includes, inter alia: (1) Ledgers containing information obtained from receivers of the banks including: (a) The names, locations and charter numbers of the banks, (b) names of bank customers identified as the last known owners of the unclaimed property, (c) a description of the types of property recovered from the banks; (2) claims forms, letters and other written correspondence, documents, records or memoranda

VOL 50 ISS 143 JL 25 1985 UMI

submitted by claimants seeking possession of the property; and (3) internal memoranda, letters, reports, records of telephone calls and inquiries, appraisals, invoices, and other miscellaneous internal Office records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

12 U.S.C. 1, 12 U.S.C. 216, 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in a computer data base and in file cabinets.

RETRIEVABILITY:

All records are indexed on a variety of data fields including: (1) The name of the claimant; (2) the name of the bank customer; (3) the charter number and claimant account number; and (4) the name and charter number of the closed bank.

SAFEGUARDS:

All records are indexed through computer indices. Only employees with the Office with proper user identification and passwords will have access to the computer. The file cabinets will be locked when the Office is vacant.

RETENTION AND DISPOSAL:

Records are generally maintained in the on-line data base until it is determined that on-line access is not required. Thereafter the records are archived in off-line storage. Records in the file cabinets are to be maintained indefinitely. The records, however, will be reviewed periodically to determine if any of them can be safely discarded.

SYSTEM MANAGER(S) AND ADDRESS:

Project Manager, Claims Processing Unit, Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, SW, Washington, DC 20219; (202)287-4475.

NOTIFICATION PROCEDURE:

Individuals who wish to be notified if they are named in the system of records or gain access to records maintained in this system must submit a written request containing the following: (1) Identity of the record system; (2) Identity of the category and type of record sought; (3) The location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Individuals seeking notification may be required to include a notarized statement attesting to identity.

RECORD ACCESS PROCEDURES:

Requests should be submitted to: Director, Public Affairs, Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, SW., Washington, DC 20219.

CONTESTING RECORD PROCEDURES:

See record access procedures, above.

RECORD SOURCE CATEGORIES:

(1) Information received from claimants in connection with the Office's disposition of unclaimed property; and (2) information provided to the Office by receivers of national banks and banks in the District of Columbia that were closed before and during the 1930's.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 4810-33-M

Treasury/BEP .002

SYSTEM NAME:

Personal Property Claim File—Treasury/BEP.

SYSTEM LOCATION:

Bureau of Engraving and Printing, 14th and C Streets, SW., Washington, DC 20228.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilian officers and employees of the Bureau of Engraving and Printing, former employees and their survivors having claim for damage to or loss of personal property incident to their service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains investigative and adjudication documents relative to personal property damage claim.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Military Personnel and Civilian Employees' Claims Act of 1964, as amended, Pub. L. 88-558.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (1) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (7) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

5 U.S.C. 301, 4103 and 4302.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (1) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative

VOL 50 ISS 143 JL 25 1985 UMI

tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (7) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in data entry diskettes, file folders and production books.

RETRIEVABILITY:

Indexed by name, work code number and cross-referenced by project number.

SAFEGUARDS:

Maintained in locked cabinets or desks; access is limited to personnel having a "need-to-know."

RETENTION AND DISPOSAL:

Retained three years, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Legal Counsel; Equal Employment Opportunity staff; Chief, Office of Financial Management; Chief, Office of Industrial Relations; Chief, Office of Currency and Stamp Printing; Chief, Office of Engraving; Chief Office of Security; Chief, Office of Stamp Processing and Surface Printing; Chief, Office of Engineering; Chief, Office of Research and Technical Services; Manager, Production Management staff, Program Analysis and External Affairs staff; Office of Currency Standards; Chief, Office of Currency Production and Stamp Printing; Chief, Office of Quality Assurance; Chief, Office of Management and Systems. Address: Bureau of Engraving and Printing; 14th and C Streets, SW, Washington, DC 20228.

NOTIFICATION PROCEDURE:

Disclosure Officer, Bureau of Engraving and Printing; 14th and C Streets, SW, Washington, DC 20228.

RECORD ACCESS PROCEDURES:

See notification above.

CONTESTING RECORD PROCEDURES:

See notification above.

RECORD SOURCE CATEGORIES:

Information furnished by employee, developed by supervisor or by referral document.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/BEP .015

SYSTEM NAME:

Executive Profiles—Treasury/BEP.

SYSTEM LOCATION:

Office of Security, Bureau of Engraving and Printing; 14th and C Streets, SW, Washington, DC 20228.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system contains vital personal information about high-level Bureau executives and their families. These executives who occupy high-level and/or sensitive positions may be targets for criminal extortion, kidnapping or other violent acts. The individuals to be covered by the system are designated by the Director, Bureau of Engraving and Printing, and are participating in the program voluntarily.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains personal information about key Bureau employees, their spouses, children or other persons in the household. The employees' neighbors or other persons who might have knowledge of family members' locations are listed with addresses and phone numbers. Also included are fingerprints, samples of handwriting, and photographs of any residences and automobiles owned by the key employee and/or their families.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Executive Order 11490, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folder in a sealed envelope.

RETRIEVABILITY:

By name or position of employee.

SAFEGUARDS:

Locked file cabinet; access is limited to Office of Security staff for update purposes and to Law Enforcement officials for emergency use.

RETENTION AND DISPOSAL:

Retained during employees' tenure with Bureau, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Office of Security, Bureau of Engraving and Printing; 14th and C Streets, SW, Washington, DC 20228.

NOTIFICATION PROCEDURE:

Disclosure Officer, Bureau of Engraving and Printing; 14th and C Streets, SW, Washington, DC 20228.

RECORD ACCESS PROCEDURES:

See notification above.

CONTESTING RECORD PROCEDURES:

See notification above.

RECORD SOURCE CATEGORIES:

Designated key personnel on a voluntary basis.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/BEP .016

SYSTEM NAME:

Employee Suggestions—Treasury/BEP.

SYSTEM LOCATION:

Bureau of Engraving and Printing, 14th and C Streets, SW, Washington, DC 20228.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Bureau of Engraving and Printing employees submitting suggestions under the incentive award program.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains employee's suggestion, reviewer evaluation and final disposition information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5, U.S.C. 4502(c).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (1) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where

the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulations. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. Treasury/FLETC .002

SYSTEM NAME:

FLETC Trainee Records and FLETC Instructor Records—Treasury/FLETC.

SYSTEM LOCATION:

Buildings—46, 68, 94, 210, and 262, Glynco, GA 31524.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any person who officially attends a formal FLETC training program and all instructors engaged in teaching the FLETC training programs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Trainee records: personal background information supplied by the trainee; grades and performance or conduct evaluations, student advisory form and relevant public health records. Instructor records: personal background information supplied by the instructor, and teaching qualifications. All records described in this system are other than records described and reported by the Office of Personnel Management on behalf of all agencies.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 5 U.S.C. 4101–4118, Executive Order 11348, Treasury Order No. 217 (Revision 1), dated July 1, 1970 and Memorandum of Understanding for the Sponsorship and Operation of the Consolidated Federal Law Enforcement Training Center, dated September 30, 1070.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure upon request to the individual's parent agency, to a prospective Federal employer, and to other government officials involved in training or research. These records and information in the records may be used: (a) To disclose to the Office of Personnel Management concerning pay, leave, benefits, retirement deductions, and other information necessary for OPM to carry out its government-wide personnel management functions. (b) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance or a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To disclose information to foreign governments in accordance with formal or informal international agreements. (f) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (g) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (h) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (i) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic media and tape, paper files, and microfilm.

RETRIEVABILITY:

Name, class number, and Social Security number.

SAFEGUARDS:

Access to these systems of records will be controlled by software and hardware procedures. Software will be used to ensure, in all technically-feasible ways, that data cannot be made available to unauthorized persons. User-identifiers and passwords will be used where feasible to protect the data. Physical security will protect all terminals, magnetic disc and tapes files from access by unauthorized persons. Offices will be locked except when authorized persons are present.

RETENTION AND DISPOSAL:

Computer print-out records are destroyed within six months of production. All other records are retained and disposed in accordance with the GSA General Records Schedule. For more information contact: Records Retention Officer, FLETC, Building 94, Glynco, GA 31524.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director (Resource Management), Office of Resource Management, Administration Building, FLETC, Glynco, GA 31524.

NOTIFICATION PROCEDURE:

The individual must provide full name, social security number, date of birth, parent agency, type of course and approximate dates of attendance to the System Manager.

RECORD ACCESS PROCEDURES:

By written request to the System Manager.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

The trainee himself and members of the staff responsible for grading, rating or evaluating the trainee. Instructors—the instructor himself and staff members responsible for upgrading the instructor's teaching qualifications.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/FMS .010

SYSTEM NAME:

Records of Accountable Officers' authority with Treasury—Treasury/Financial Management Service.

SYSTEM LOCATION:

Financial Management Service, U.S. Department of the Treasury, Washington, DC 20226.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Regional Directors. (2) Certifying Officers. (3) Agent Cashiers. (4) Designated Agents.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records are maintained on the above listed accountable officers showing the designation or removal of the officer to act in the specified capacity pursuant to a proper authorization.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Executive Order 6166, dated June 10, 1933.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose to Banking institutions, Federal Reserve Banks, and Government agencies for verification of information on authority of accountable officers to determine propriety of actions taken by such individuals. (b) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (c) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (d) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (e) To

VOL 50 ISS 143 JL 25 1985 UMI

disclose information to foreign governments in accordance with formal or informal international agreements. (f) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (g) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (h) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (i) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/United States Mint. 010

SYSTEM NAME:

Examination reports of coins forwarded to Mint from U.S. Secret Service—Treasury/United States Mint.

SYSTEM LOCATION:

United States Mint, Judiciary Square Building, 633 3rd Street, NW., Washington, DC 20220.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals from whom U.S. Secret Service has seized coins suspected to be counterfeit or fraudulently altered.

CATEGORIES OF RECORDS IN THE SYSTEM:

Reports prepared for U.S. Secret Service regarding the examination of the questioned coin or coins by United States Mint.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

18 U.S.C. 331, 485, 486, 489, 490 and 491.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The records and information in the records may be used: (a) To disclose information to U.S. Secret Service and other Federal agencies charged with detecting counterfeit or altered coins and the enforcement of Federal counterfeiting statutes. (b) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents.

RETRIEVABILITY:

By name.

SAFEGUARDS:

Files are kept in locked metal file cabinets in area accessible only to authorized agency officials.

RETENTION AND DISPOSAL:

Retained in accordance with United States Mint Records Control Schedule.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director for Technology, United States Mint, Judiciary Square Building, 633 3rd Street, NW., Washington, DC 20220.

NOTIFICATION PROCEDURE:

Assistant Director for Technology, United States Mint, Judiciary Square Building, 633 3rd Street, NW., Washington, DC 20220.

RECORD ACCESS PROCEDURES:

Chief Administrative Programs Division, United States Mint, Judiciary Square Building, 633 3rd Street, NW., Washington, DC 20220.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

United States Secret Service.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

As authorized by 5 U.S.C. 552a (j) and (k), this system is exempt from the following provisions, subsections (c)(3), (d), (e)(1), (e)(4) (G), (H) and (I), and (f) of 5 U.S.C. 552a.

Treasury/United States Mint .011

SYSTEM NAME:

General Correspondence—Treasury/United States Mint.

SYSTEM LOCATION:

United States Mint, Judiciary Square, 633 3rd Street, NW, Washington, DC 20220.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the public, Members of Congress, agency officials and other Federal agencies.

Treasury/United States Mint .016

SYSTEM NAME:

Grievances. Union/Agency Negotiated—Treasury/United States Mint.

SYSTEM LOCATION:

United States Mint, Judiciary Square Building, 633 3rd Street, NW, Washington, DC 20220; United States Mint, Independence Mall, Philadelphia, PA 19106; United States Mint, 320 West Colfax Avenue, Denver, CO 80204; United States Assay Office, 155 Hermann Street, San Francisco, CA 94102; United States Bullion Depository, West Point, NY 10996; United States Bullion Depository, Fort Knox, KY 40121.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees and former employees of the United States Mint.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records contains information or documents relating to employee grievances filed under provisions of negotiated grievance procedures, including decision of appropriate third parties where applicable.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Orders 11491, 11616, 11636 and 11838; negotiated agreements between Mint and exclusively recognized labor unions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (a) To disclose an employee grievance to an arbitrator, and an appeal to the Federal Labor Regulations Council. (b) To disclose information to appropriate officials of the Department of Labor during the course of a grievance or arbitration. (c) To provide information or disclose to the appropriate Federal agency in connection with civil litigation involving the United States Mint. (d) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (e) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (f) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (g) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders or binders.

RETRIEVABILITY:

These records are filed by the names of the individuals on whom they are maintained or by the subject of the grievance.

SAFEGUARDS:

Access to and use of these records are limited to those agency officials whose official duties require such access.

RETENTION AND DISPOSAL:

Retained in accordance with the United States Mint Records Control Schedules; are destroyed in accordance with General Services Administration rules and regulations.

SYSTEM MANAGER(S) AND ADDRESS:

For current and former employees: Personnel Officer, United States Mint, Department of the Treasury, Judiciary Square Building, 633 3rd Street, NW, Washington, DC 20220. Personnel Officer United States Mint, Independence Mall, Philadelphia, PA 19106. Personnel Officer, United States Mint, 320 West Colfax Avenue, Denver, CO 80204. Personnel Officer, United States Assay Office, 155 Hermann Street, San Francisco, CA 94102. Administrative Officer, United States Bullion Depository, West Point, NY 10996. Administrative Officer, United States Bullion Depository, Fort Knox, KY 40121.

NOTIFICATION PROCEDURE:

Individuals who have filed a grievance are aware of that fact and have been provided a copy of the record. They may, however, contact the Personnel Officer indicated above regarding the existence of such records pertaining to them. It is necessary to furnish information sufficient to verify the identity of the requester such as full name, date of birth, a brief description of the grievance and the approximate date of submission.

RECORD ACCESS PROCEDURES:

Individuals who have filed a grievance about a decision or determination made by an agency or about conditions existing in an agency already have been provided a copy of the record. The contest, amendment, or correction of a grievance record is permitted during the prosecution of the grievance to whom the record pertains. However, after a grievance case has been closed, an individual may gain access to, or contest the official copy of the grievance record by writing the appropriate Personnel Officer indicated above. Individuals should provide their name, date of birth, a brief description of grievance and the approximate date of submission.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

The sources of these records are indicated below. (a) Individual to whom the record pertains. (b) Agency officials. (c) Affidavits or statements from employee(s). (d) Testimonies of witnesses. (e) Official documents and correspondence relating to the grievance.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE: 4810-37-M

Treasury/BPD .001

SYSTEM NAME:

Personnel and Administrative Records—Treasury/BPD.

SYSTEM LOCATION:

Bureau of the Public Debt: Washington, DC; Parkersburg, WV; Ravenswood, WV. Federal Records Center: St. Louis, MO.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Past, present, and prospective employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

All personnel records are not mentioned in this system, but maintained at the Bureau, are considered to belong to the Office of Personnel Management and will be reported by that agency. (1) Personnel Folders (Temporary side): Contain the following types of records or information apart from official records, but which may duplicate or supplement official records: Pre-employment records and vouchers; orientation records: Requests for personnel action; requests for training; performance evaluation records; letters of reference; debt correspondence; correspondence between an employee and the personnel office; disciplinary action papers; duplicate copies of personnel actions; payroll, leave, and retirement benefits data; compensation forms and reports relating thereto; tax check records; reduction-in-force data; requests for outside employment; merit promotion applications; and credit and employment verification. (2) Locator File: Contains the employee's office and home address and telephone numbers, emergency notification information, and indication of permission or denial to disclose this information upon inquiry. (3) Applications for Employment File: Contains inquiries concerning employment, applicants' resumes, and correspondence. (4) Career Development Program for Lower Level Employees (CADE) Files: Contain, but are not limited to, all pertinent information, such as applications, vouchers, correspondence, developmental plans, and appraisal forms of candidates for the program. (5) Security Investigation Files: Contain background information and the results of investigations conducted by Internal Revenue Service, U.S. Secret Service, or other federal agencies, on Bureau attorneys and certain other employees. (6) Awards Case Files: Contain reports and background data concerning awards for employees. (7) Informal Equal Employment Opportunity Complaint Files: Contain records of informal EEO complaints and discussions thereon which have not reached the level of formal complaints. (8) Administrative Grievance Files: Contain informal or formal grievance complaints and background documentation. (9) General Correspondence Files: Contain inquiry and reply letters and documentation concerning general administrative, policy, transactional, and personnel matters. (10) Union-related Files: Contain formal, informal, contractual, and administrative grievance complaints; background documentation; and reports of union dues participation. (11) Merit Promotion Files: Contain records of competitive promotion actions, including, but not limited to, vacancy announcements, candidates considered, assessments of candidates, and disposition of applications. (12) Exit Interview Files: Contain records of an employee's critique of the Bureau, final interview, and supervisors' recommendations. (13) Suitability Files: Contain information documenting the suitability for employment of prospective and current employees, such as arrest records, National Agency checks, and background information. (14) Budget Files: (a) Employee Travel Records File: Contains travel vouchers, authorizations, and receipts for travel which an employee performed in connection with official business and which is reimbursable by government funds. (b) Comprehensive Listing of Employee Master File: Contains salary, grade, leave, retirement, health-life insurance, tax, payroll deduction, and other information. (c) Time and Attendance Records: Contain the daily posting of an employee's leave and attendance. (15) Medical Records File: Contains pre-appointment and fitness-for-duty medical reports and records. (16) Employee Relations Files: Contain, but are not limited to, retirement and compensation information. (17) Confidential Financial Statements File: Contains personal financial statements required by certain employees as defined in the Department's Minimum Standards of Conduct. (18) Classification Appeals File: Contains statements and pertinent information relating to the adjudication of an appeal. (19) History of Employment File: Contains service record cards.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C.; Federal Personnel Manual; and Executive Order 11478, as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

A record or information from a record maintained in this system of records may be disclosed as a routine use: (1) To disclose information to the Office of Personnel Management or the Merit Systems Protection Board upon authorized request; (2) To disclose information to other federal agencies for the purpose of their hiring; (3) To

VOL 50 ISS 143 JL 25 1985 UMI

disclose information to other federal agencies, state unemployment agencies, and others when necessary for employee compensation; (4) To disclose information to contractors of the Department for the purpose of processing personnel and pay records; (5) To disclose information to creditors or potential creditors to verify debt complaints or employment data; (6) To disclose information to next-of-kin, voluntary guardians, and other representative or successor in interest of a deceased or incapacitated employee or former employee; (7) To disclose information to other federal agencies to effect salary or administrative offset for the purpose of collecting a debt; (8) To disclose information to a consumer reporting agency, including mailing addresses obtained from the Internal Revenue Service to obtain credit reports; (9) To disclose information to a debt collection agency, including mailing addresses obtained from the Internal Revenue Service, for debt collection services; (10) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation; (11) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit; (12) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings or in response to a subpoena; (13) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114, arbitrators, and other parties responsible for the administration of the federal labor-management program if needed in the performance of their authorized duties; (14) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation; and (15) To provide to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains.

DISCLOSURES TO CONSUMER REPORTING AGENCIES:

Debt information concerning a Government claim against an employee is also furnished, in accordance with 5 U.S.C. 552a(b)(12) and section 3 of the Debt Collection Act of 1982, to consumer reporting agencies to encourage repayment of an overdue debt.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Electronic media, paper, and microform.

RETRIEVABILITY:

By name, and in some cases, Social Security number.

SAFEGUARDS:

Information is contained in secure buildings, Federal Records Centers, or in areas which are occupied by officers and responsible employees of the Bureau who are subject to the Bureau's personnel screening procedures and to the Treasury Department Code of Conduct. Information stored in electronic media is safeguarded by automatic data processing security procedures in addition to physical security measures.

RETENTION AND DISPOSAL:

Records are maintained in accordance with GSA and OPM retention schedules. All records are destroyed by incineration, maceration, or shredding. Records in electronic media are electronically erased using accepted techniques.

SYSTEM MANAGER(S) AND ADDRESS:

For administrative records—Commissioner, Bureau of the Public Debt, Washington, D.C. 20239. For personnel records—Director, Division of Personnel Management, Bureau of the Public Debt, Washington, D.C. 20239.

NOTIFICATION PROCEDURE:

Address administrative inquiries and initial requests for correction of records to: Privacy Act Request, Commissioner, Bureau of the Public Debt, Washington, D.C. 20239, (202) 376-4307. Address personnel inquiries and initial requests for correction of records to: Privacy Act Request, Director, Division of Personnel Management, Bureau of the Public Debt, Washington, D.C. 20239, (202) 447-1297; or Privacy Act Request, Personnel Officer, Savings Bond Operations Office, Bureau of the Public Debt, 200 Third Street, Parkersburg, WV 26106, (304) 420-6143.

RECORD ACCESS PROCEDURES:

Individuals who wish to request access to records relating to them or who wish to request correction of records they believe to be in error should submit such requests pursuant to the procedures set out below in compliance with the applicable regulations (31 CFR Part 1, Subpart C). Requests which do not comply fully with these procedures may result in noncompliance with the request but will be answered to the extent possible.

REQUESTS FOR ACCESS TO RECORDS:

(1) A request for access to records should be in writing, signed by the individual concerned, and in order for the Privacy Act procedures to apply, clearly indicate that the request is made pursuant to the Privacy Act of 1974. The Bureau reserves the right to require additional verification of an individual's identity. (2) The request must specify the Bureau system of records within which the desired records are located as well as the categories of records within the system. These categories are set out in the applicable system of records description. (3) Requests for records concerning a deceased or incapacitated individual should be accompanied either by evidence of the requester's appointment as legal representative of the estate or the individual or by a statement attesting that no such representative has been appointed and giving the nature of the relationship between the requester and the individual. (4) The request must state whether the requester wishes to be notified that the record exists or desires to inspect or obtain a copy of the record. If a copy of the record is desired, the requester must agree to pay the fees for copying the documents in accordance with 31 CFR Part 1, Subpart C.

Requests for correction of records: (1) A request by an individual for correction of records should be in writing, be signed, and, in order for the Privacy Act procedures to apply, state that the request is made pursuant to the Privacy Act of 1974. (2) The request for correction should specify: (a) the dates of records in question, (b) the specific records alleged to be incorrect, (c) the correction requested, and (d) the reasons therefor. (3) The request must include any available evidence in support of the request.

Appeals from an initial denial of a request for correction of records: (1) An appeal from an initial denial of a request

for correction of records must be in writing, be signed by the individual involved, and, in order for the Privacy Act procedures to apply, state that it is made pursuant to the Privacy Act of 1974. (2) All appeals must, to be handled under the Privacy Act procedures, be delivered to the address set forth for submission of appeals within 35 days of the individual's receipt of the initial denial of the requested correction. (3) All appeals must also specify: (a) the records to which the appeal relates, (b) the date of the initial request made for correction of the records, and (c) the date that the initial denial of the request for correction was received. (4) All appeals must also specify the reasons for the requester's disagreement with the initial denial of correction and must include any applicable supporting evidence. (5) Appeals should be addressed to the Commissioner, Bureau of the Public Debt, Washington, DC 20239, or as otherwise provided in the applicable appendix to 31 CFR Part 1, Subpart C.

CONTESTING RECORD PROCEDURES:

See "Notification Procedure" and "Record Access Procedures."

RECORD SOURCE CATEGORIES:

Information on records in the system is furnished by the individuals listed in "Categories of Individuals" or their authorized representatives, by creditors, by supervisors, medical personnel, other employees, or as the result of security investigations.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/BPD .002

SYSTEM NAME:

United States Savings-Type Securities—Treasury/BPD.

SYSTEM LOCATION:

Bureau of the Public Debt: Washington, DC 20239; Parkersburg, WV 26106; and Ravenswood, WV 26164. Federal Reserve Banks and Branches located at: Atlanta, GA; Baltimore, MD; Birmingham, AL; Boston, MA; Buffalo, NY; Charlotte, NC; Chicago, IL; Cincinnati, OH; Cleveland, OH; Dallas, TX; Denver, CO; Detroit, MI; El Paso, TX; Jacksonville, FL; Helena, MT; Houston, TX; Kansas City, MO; Little Rock, AR; Louisville, KY; Los Angeles, CA; Memphis,TN; Miami, FL; Minneapolis, MN; Nashville, TN; New Orleans, LA; New York, NY; Oklahoma City, OK; Omaha, NE; Philadelphia, PA; Pittsburgh, PA; Portland, OR; Richmond, VA; Salt Lake City, UT; San Antonio, TX; San Francisco, CA; Seattle, WA; and St. Louis, MO. Federal Records Centers located at: Waltham, MA; New York, NY; Bayonne, NJ; Philadelphia, PA; Mechanicsburg, PA; Washington, DC; East Point, GA; Chicago, IL; Dayton, OH; Kansas City, MO; St. Louis, MO; Fort Worth, TX; Denver, CO; San Bruno, CA; Laguna Niguel, CA; and Seattle, WA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and former owners of, claimants to, persons entitled to, and inquiries concerning United States savings-type securities and interest thereon—including, but not limited to, United States Savings Bonds, Savings Notice, Retirement Plan Bonds, and Individual Retirement Bonds.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Issuance: Records relating to registration, issuance, and correspondence in connection with issuance of savings-type securities. (2) Holdings: Records documenting ownership, status, payments by date and account numbers, and inscription information; interest activity; correspondence in connection with notice of change of name and address; non-receipt or over- and underpayments of interest and principal; and numerical registers of ownership. Such records include information relating to savings-type securities held in safekeeping in conjunction with the Department's program to deliver such securities to the owners or persons entitled. (3) Transactions (redemptions, payments, and reissues): Records, which include securities transaction requests; interest activity; legal papers supporting transactions; applications for disposition or payment of securities and/or interest thereon of deceased or incapacitated owners; records of retired securities; and payment records. (4) Claims: Records including correspondence concerning lost, stolen, destroyed or mutilated savings-type securities; bonds of indemnity; legal documents supporting claims for relief; and records of caveats entered. (5) Inquiries: Records of correspondence with individuals who have requested information concerning savings-type securities and/or interest thereon.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 3101 *et seq.* and 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

A record or information from a record maintained in this system of records may be disclosed as a routine use: (1) To disclose information to agents or contractors of the Department for the purpose of administering the public debt of the United States; (2) To disclose information to next-of-kin, voluntary guardian, legal representative or successor in interest of a deceased or incapacitated owner of securities and others entitled to the reissue, distribution, or payment for the purpose of assuring equitable and lawful disposition of securities and interest; (3) To disclose information to either co-owner for bonds registered in that form or to the beneficiary for bonds registered in that form, provided that acceptable proof of death of the owner is submitted; (4) To disclose information to the Internal Revenue Service for the purpose of facilitating collection of the tax revenues of the United States; (5) To disclose information to the Department of Justice in connection with lawsuits to which the Department of the Treasury is a party or to trustees in bankruptcy for the purpose of carrying out their duties; (6) To disclose information to the Veterans Administration and selected veterans publications for the purpose of locating owners or other persons entitled to undeliverable bonds held in safekeeping by the Department; (7) To disclose information to other Federal agencies to effect salary or administrative offset the purpose of collecting debts; (8) To disclose information to a consumer reporting agency, including mailing addresses obtained from the Internal Revenue Service, to obtain credit reports; (9) To disclose information to a debt collection agency, including mailing addresses obtained from the Internal Revenue Service, for debt collection services; (10) To disclose information to contractors conducting Treasury-sponsored surveys, polls, or statistical analyses relating to the marketing or administration of the public debt of the United States; (11) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license; (12) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings or in response to a subpoena; and (13) To provide information to a congressional office in response to an inquiry made at the

VOL 50 ISS 143 JL 25 1985 UMI

request of the individual to whom the record pertains.

DISCLOSURES TO CONSUMER REPORTING AGENCIES:

Debtor information is also furnished, in accordance with 5 U.S.C. 552a(b)(12) and section 3 of the Debt Collection Act of 1982, to consumer reporting agencies to encourage repayment of an overdue debt.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records in this system are stored in their original form in file cabinets, as information in electronic media, or on microform.

RETRIEVABILITY:

Information can be retrieved alphabetically by name, bond serial numbers, or, in some cases, numerically by social security number. In the case of securities, except Series G savings bonds, registered in more than one name, information relating thereto can only be retrieved by the name, or, in some cases, the social security number of the first-named co-owner.

SAFEGUARDS:

Information is contained in secure buildings, Federal Records Centers, or in areas which are occupied either by officers and responsible employees of the Department who are subject to personnel screening procedures and to the Treasury Department Code of Conduct or by agents of the Department who are required by the Department to maintain proper control over records while in their custody. Additionally, since in most cases, numerous steps are involved in the retrieval process, unauthorized persons would be unable to retrieve information in meaningful form. Information stored in electronic media is safeguarded by automatic data processing security procedures in addition to physical security measures.

RETENTION AND DISPOSAL:

Records of holdings, forms, documents, and other legal papers which constitute the basis for transactions susequent to original issue are maintained for such time as is necessary to protect the legal rights and interests of the United States Government and the persons affected, or otherwise until they are no longer historically significant. Other records are disposed of at varying intervals in accordance with records retention schedules reviewed and approved by the National Archives and Records Service, General Services Administration. All records are destroyed by shredding, incineration, or maceration. Records in electronic media are electronically erased using accepted techniques.

SYSTEM MANAGER(S) AND ADDRESS:

Commissioner, Bureau of the Public Debt, Washington, D.C. 20239

NOTIFICATION PROCEDURE:

Address inquiries and initial requests for correction of records to: Privacy Act Request, Assistant Commissioner, Savings Bond Operations Office, Bureau of the Public Debt, Parkersburg, WV 26106, (304) 420–6402. Inquiries should include the full name, social security number, address, and security serial number(s), if known.

RECORD ACCESS PROCEDURES:

Individuals who wish to request access to records relating to them or who wish to request correction of records they believe to be in error should submit such requests pursuant to the procedures set out below in compliance with the applicable regulations (31 CFR Part 1, Subpart C). Requests which do not comply fully with these procedures may result in noncompliance with the request but will be answered to the extent possible.

Requests for access to records: (1) A request for access to records must be in writing, signed by the individual concerned, and in order for the Privacy Act procedures to apply, clearly indicate that the request is made pursuant to the Privacy Act of 1974. The Bureau reserves the right to require additional verification of an individual's identity. (2) The request must specify the Bureau system of records within which the desired records are located as well as the categories of records within the system. These categories are set out in the applicable system of records description. (3) In the case of requests for information concerning holdings of securities, the type of security involved (e.g., Series E and EE savings bonds, Series H and HH savings bonds, savings notes, retirement plan bonds) must be specified. Additionally, the request should, to the extent possible, specify: The approximate date of issue, serial number(s), exact form of registration, social security number and address. Requests which do not furnish all or some of the above information will be complied with to the extent possible, but maybe subject to the requirement that additional identifying evidence be furnished. (4) Requests for information concerning records of holdings of securities, except Series G savings bonds registered in co-ownership form, must be accompanied by the name and, wherever possible, the social security number of the first-named co-owner. Requests for information concerning securities registered in beneficiary form must also be accompanied by the name and social security number of the owner thereof and, if made by the beneficiary, must be accompanied by proof of death of the registered owner. (5) Requests for records of holdings or other information concerning a deceased or incapacitated individual should be accompanied either by evidence of the requester's appointment as legal representative of the estate or the individual or by a statement attesting that no such representative has been appointed and giving the nature of the relationship between the requester and the individual. (6) The request must state whether the requester wishes to be notified that the record exists or desires to inspect or obtain a copy of the record. If a copy of the record is desired, the requester must agree to pay the fees for copying the documents in accordance with 31 CFR Part 1, Subpart C.

Requests for correction of records: (1) A request by an individual for correction of records should be in writing, be signed, and, in order for the Privacy Act procedures to apply, state that the request is made pursuant to the Privacy Act of 1974. (2) The request for correction should specify: (a) The dates of the prior correspondence with the Bureau concerning the records in question; (b) the specific records alleged to be incorrect; (c) the correction requested; and (d) the reasons therefor. (3) The request must include any available evidence in support of the request.

Appeals from an initial denial of a request for correction of records: (1) An appeal from an initial denial of a request for correction of records must be in writing, be signed by the individual involved and, in order for the Privacy Act procedures to apply, state that it is made pursuant to the Privacy Act of 1974. (2) All appeals must, to be handled under the Privacy Act procedures, be delivered to the address set forth for submission of appeals within 35 days of the individual's receipt of the initial denial of the requested correction. (3) All appeals must specify: (a) The records to which the appeal relates, (b) the date of the initial request made for correction of the records, and (c) the date that initial denial of the request for correction was received. (4) All appeals must also specify the reasons for the requester's disagreement with the initial denial of correction and must include any applicable supporting evidence. (5) Appeals should be addressed to the Commissioner, Bureau of the Public Debt, Washington, D.C. 20239, or as otherwise provided in the applicable appendix to 31 CFR Part 1, Subpart C.

CONTESTING RECORD PROCEDURES:

See "Notification Procedure" and "Record Access Procedures."

RECORD SOURCE CATEGORIES:

Information on records in this system is furnished by the individuals or their authorized representatives as listed in "Categories of Individuals" and issuing agents for securities or is generated within the system itself.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/BPD .003

SYSTEM NAME:

United States Securities (Other than Savings-Type Securities)—Treasury/BPD.

SYSTEM LOCATION:

Bureau of the Public Debt: Washington, D.C. 20239; Parkersburg, WV 26106; and Ravenswood, WV 26164; Federal Reserve Banks and Branches located at: Atlanta, GA; Baltimore, MD; Birmingham, AL; Boston, MA; Buffalo, NY; Charlotte, NC; Chicago, IL; Cincinnati, OH; Cleveland, OH; Dallas, TX; Denver, CO; Detroit, MI; El Paso, TX; Jacksonville, FL; Helena, MT; Houston, TX; Kansas City, MO; Little Rock, AR; Louisville, KY; Los Angeles, CA; Memphis, TN; Miami, FL; Minneapolis, MN; Nashville, TN; New Orleans, LA; New York, NY; Oklahoma City, OK; Omaha, NE; Philadelphia, PA; Pittsburgh, PA; Portland, OR; Richmond, VA; Salt Lake City, UT; San Antonio, TX; San Francisco, CA; Seattle, WA; and St. Louis, MO. Federal Records Centers located at: Waltham, MA; New York, NY; Bayonne, NJ; Philadelphia, PA; Mechanicsburg, PA; Washington, DC; East Point, GA; Chicago, IL; Dayton, OH; Kansas City, MO; St. Louis, MO; Fort Worth, TX; Denver, CO; San Bruno, CA; Laguna Niguel, CA; and Seattle, WA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and former owners of, subscribers to, claimants to, persons entitled to, and inquirers concerning United States Treasury Securities (except savings-type securities) and interest thereon and such securities for which the Treasury acts as agent and interest thereon—including, but not limited to, Treasury Bonds, Notes and Bills; Adjusted Service Bonds; Armed Forces Leave Bonds; and Federal Housing Administration Debentures.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Issuance: Records relating to tenders, bids, subscriptions, advices of shipment, requests (applications) for original issue, and correspondence concerning erroneous issue and non-receipt of securities. (2) Holdings: Records of ownership and interest activity on registered or recorded United States securities (other than savings-type securities); change of name and address notices; correspondence concerning errors in registration or recordation; non-receipt or over-and underpayments of interest and principal; records of interest activity; records of unclaimed accounts; and letters concerning the New York State tax exemption for veterans of World War I. (3) Transactions (redemptions, payments, reissues, transfers, and exchanges): Records which include securities transaction requests; legal papers supporting transactions; applications for transfer, disposition, or payment of securities of deceased or incompetent owners; records of Federal estate tax transactions; certificates of ownership covering paid overdue bearer securities; records of erroneous redemption transactions; records of retired securities; and payment records. (4) Claims: Records including correspondence concerning lost, stolen, destroyed, or mutilated United States securities (other than savings-type securities) or securities for which the Treasury acts as agent and interest coupons thereon; bonds of indemnity; legal documents supporting claims for relief; and records of caveats entered. (5) Inquiries: Records of correspondence with individual who have requested information concerning United States Treasury securities (other than savings-type securities) or securities for which the Treasury acts as agent.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 3101 *et seq.* and 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

A record or information from a record maintained in this system of records may be disclosed as a routine use: (1) To disclose information to agents or contractors of the Department for the purpose of administering the public debt of the United States; (2) To disclose information to next-of-kin, voluntary guardian, legal representative or successor in interest of a deceased or incapacitated owner of securities and others entitled upon transfer, exchange, distribution, or payment for the purpose of assuring equitable and lawful disposition of securities and interest; (3) To disclose information to any of the owners if the related securities are registered or recorded in the names of two or more owners; (4) To disclose information to the Internal Revenue Service for the purpose of facilitating the collection of the tax revenues of the United States; (5) To disclose information to the Department of Justice in connection with lawsuits to which the Department of the Treasury is a party or to trustees in bankruptcy for the purpose of carrying out their duties; (6) To disclose information to the Veterans Administration when it relates to the holdings of Armed Forces Leave Bonds to facilitate the redemption or disposition of these securities; (7) To disclose information to other Federal agencies to effect salary or administrative offset for the purpose of collecting debts; (8) To disclose information to a consumer reporting agency, including mailing addresses obtained from the Internal Revenue Service, to obtain credit reports; (9) To disclose information to a debt collection agency, including mailing addresses obtained from the Internal Revenue Service, for debt collection services; (10) To disclose information to contractors conducting Treasury-sponsored surveys, polls, or statistical analyses relating to marketing or administration of the public debt of the United States; (11) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license; (12) To disclose to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings or in response to a subpoena; and (13) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains.

DISCLOSURES TO CONSUMER REPORTING AGENCIES:

Debtor information is also furnished, in accordance with 5 U.S.C. 552a(b)(12) and section 3 of the Debt Collection Act of 1982, to consumer reporting agencies to encourage repayment of an overdue debt.

VOL 50 ISS 143 JL 25 1985 UMI

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records in this system are stored in their original form in file cabinets, as information in electronic media, or on microform.

RETRIEVABILITY:

Information can be retrieved by Social Security or account number, or, in some cases, alphabetically by name or numerically by security serial number. In the case of securities registered in more than one name, information relating thereto can generally only be retrieved by Social Security number or by the name of the first-named owner.

SAFEGUARDS:

Information is contained in secure buildings, Federal Records Centers, or in areas which are occupied either by officers and responsible employees of the Department who are subject to personnel screening procedures and to the Treasury Department Code of Conduct or by agents of the Department who are required by the Department to maintain proper control over records while in their custody. Additionally, since in most cases, numerous steps are involved in the retrieval process, unauthorized persons would be unable to retrieve information in a meaningful form. Information stored in electronic media is safeguarded by automatic data processing security procedures in addition to physical security measures.

RETENTION AND DISPOSAL:

Records of holdings, forms, documents, and other legal papers which constitute the basis for transactions subsequent to original issue are maintained for such time as is necessary to protect the legal rights and interests of the U.S. Government and the persons affected, or otherwise until they are no longer historically significant. Other records are disposed of at varying intervals in accordance with records retention schedules reviewed and approved by the National Archives and Records Service, General Services Administration. All records are destroyed by shredding, incineration, or maceration. Records in electronic media are electronically erased using accepted techniques.

SYSTEM MANAGER(S) AND ADDRESS:

Commissioner, Bureau of the Public Debt, Washington, D.C. 20239.

NOTIFICATION PROCEDURE:

Address inquiries and initial requests for correction of records to: Privacy Act Request, Assistant Commissioner, (Securities and Accounting Service), Bureau of the Public Debt, Washington, D.C. 20239, (202) 447-9862. Inquiries should include the full name, social security number, address, and security serial number(s), if known.

RECORD ACCESS PROCEDURES:

Individuals who wish to request access to records relating to them or who wish to request correction of records they believe to be in error should submit such requests pursuant to the procedures set out below in compliance with the applicable regulations (31 CFR Part 1, Subpart C). Requests which do not comply fully with these procedures may result in noncompliance with the request but will be answered to the extent possible.

Requests for access to records: (1) A request for access to records must be in writing, signed by the individual concerned, and, in order for the Privacy Act procedures to apply, clearly indicate that the request is made pursuant to the Privacy Act of 1974. The Bureau reserves the right to require additional verification of an individual's identity. (2) The request must specify the Bureau system of records within which the desired records are located as well as the categories of records within the system. These categories are set out in the applicable system of records description. (3) In the case of requests for information concerning records of holdings of securities, the type of security involved (e.g., Treasury Notes, Armed Forces Leave Bonds, Adjusted Service Bonds) must be specified. Additionally, the request should, to the extent possible, specify: The loan and issue, approximate date of issue, denomination, serial number(s), exact form of registration, social security number, and address. Requests which do not furnish some or all of the latter information will be complied with to the extent possible but may be subject to the requirement that additional identifying evidence be furnished. (4) Requests for records of holdings of securities registered in the name of more than one person should include the name and, wherever, possible, social security number of the first-named owner. (5) Requests for records of holdings or other information concerning a deceased or incapacitated individual must be accompanied either by evidence of the requester's appointment as legal representative of the estate or the individual or by a statement attesting that no such representative has been appointed and giving the nature of the relationship between the requester and the individual. (6) The request must state whether the requester wishes to be notified that the record exists or desires to inspect or obtain a copy of the record. If a copy of the record is desired, the requester must agree to pay the fees for copying the documents in accordance with 31 CFR Part 1, Subpart C.

Requests for correction of records: (1) A request by an individual for correction of records should be in writing, be signed, and, in order for the Privacy Act procedures to apply, state that the request is made pursuant to the Privacy Act of 1974. (2) The request for correction should specify: (a) The dates of the prior correspondence with the Bureau concerning the records in question, (b) the specific records alleged to be incorrect, (c) the correction requested, and (d) the reasons therefor. (3) The request must include any available evidence in support of the request.

Appeals from an initial denial of a request for correction of records: (1) An appeal from an initial denial of a request for correction of records must be in writing, be signed by the individual involved, and, in order for the Privacy Act procedures to apply, state that it is made pursuant to the Privacy Act of 1974. (2) All appeals must, to be handled under the Privacy Act procedures, be delivered to the address set forth for submission of appeals within 35 days of the individual's receipt of the initial denial of the requested correction. (3) All appeals must specify: (a) The records to which the appeal relates, (b) the date of the initial request made for correction of the records; and (c) the date that initial denial of the request for correction was received. (4) all appeals must also specify the reasons for the requester's disagreement with the initial denial of correction and must include any applicable supporting evidence. (5) Appeals should be addressed to the Commissioner, Bureau of the Public Debt, Washington, D.C. 20239, or as otherwise provided in the applicable appendix to 31 CFR Part 1, Subpart C.

CONTESTING RECORD PROCEDURES:

See "Notification Procedure" and "Record Access Procedures."

RECORD SOURCE CATEGORIES:

Information contained in records in the system is furnished by the individuals or their authorized representatives as listed in "Categories of Individuals," or is generated within the system itself.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/USSBD .001

SYSTEM NAME:

Savings Bonds Employee Records System—Treasury/USSBD.

SYSTEM LOCATION:

Savings Bonds Division, Department of the Treasury, 1111 20th Street, NW, Washington, DC 20226.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees of USSBD.

CATEGORIES OF RECORDS IN THE SYSTEM:

Appeal and Grievance Records, Applicant Supply Files, Case Actions, Employee Earning Statements, Employee Financial Statements, Equal Employment Opportunity Files, Incentive Awards and Reports, Itineraries, Locator Cards, Medical Records, Merit Promotion, Motor Vehicle Records, Payroll, Performance Evaluation, Personal Investigation, Position Control, Reduction in Force File, Register of Separation and Transfer, Retirement Cards, Time and Attendance Records, Tort Claims, Training Records and Reports, Travel Vouchers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Treasury Department Order No. 13 established the Division of Savings Bonds under the Office of the Fiscal Assistant Secretary, dated April 1941.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

A record or information from a record maintained in this system of records may be disclosed as a routine use when: (1) Providing employee information to other Federal Personnel offices when an employee is under consideration for a position with that Agency. (2) Helping a Federal, state, or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the Bureau's hiring or retention of an employee, or issuance of a security clearance, license, contract, grant, or other benefit. (3) Providing information to a Congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (4) To disclose to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

All records in Personnel, with the exception of card files, are stored in metal correspondence files, indexed by individual names and numbers. Files are maintained in separate offices according to the nature or content of data.

RETRIEVABILITY:

Storage of financial information is maintained on computer printouts supplied by Bureau of Mint. Time and attendance reports and travel vouchers of employees are stored in separate files and are accessible by name and Social Security number.

SAFEGUARDS:

Files are accessible to Personnel employees and are locked at the close of each day.

RETENTION AND DISPOSAL:

Records pertaining to personal historical data are maintained for two years and are then sent to the Federal Records Center. Less important records are destroyed after the two-year period. All payroll and time and attendance records are retained between audit periods (normally two years) and then destroyed by shredding. Travel vouchers are maintained on file for three years after audit and then sent to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Administration, Department of the Treasury, Savings Bonds Division, 1111 20th Street, NW, Washington, DC 20226.

NOTIFICATION PROCEDURE:

Records that are housed by the Savings Bonds Division are not of a nature that would warrant strict guidelines for accessibility.

RECORD ACCESS PROCEDURES:

See System manager and Notification above. An individual may request access to his/her record or any information pertaining to him/her by merely notifying the office or officer in charge. The individual, however, must be under the supervision of a Savings Bonds Officer during the entire time he/she has this information in his/her possession.

CONTESTING RECORD PROCEDURES:

Contested information should be specified, and the reasons(s) for contesting the record listed. See System Manager above.

RECORD SOURCE CATEGORIES:

Data accumulated in the record system at Savings Bonds are gathered from the individual and/or from sources directly connected with the employee's appointment.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Portions of this system are exempted elsewhere in the Federal Register.

Treasury/USSBD .002

SYSTEM NAME:

Savings Bonds Sales Promotion/Volunteer Record System—Treasury/USSBD.

SYSTEM LOCATION:

Savings Bonds Division, Department of the Treasury, 1111 20th Street, NW, Washington, DC 20226; and/or Regional and Branch Offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Bond Tellers, Campaign Managers, Campaign Nominees, Committee Volunteer Lists and Contacts, General Correspondence, Geographical Chairmen, Governmental Biographical Sketches, Honorary Chairmen, Individual Volunteer Lists, Mailing Lists—General and Labor, Major Corporation Executives.

CATEGORIES OF RECORDS IN THE SYSTEM:

Administrative lists and related detail.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Treasury Department Order No. 13 established the Division of Savings Bonds under the Office of the Fiscal Assistant Secretary, dated April 1941.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

There are no disclosures outside the Department for this records system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Mailing lists are accessible to employees and stored on addressograph plates. Other correspondence and materials are filed in the regular correspondence file cabinets and permanently retained.

VOL 50 ISS 143 JL 25 1985 UMI

RETRIEVABILITY:

Records are indexed by year, volunteer position and name, and are retrievable by those identifiers.

SAFEGUARDS:

Records that are housed by the Savings Bonds Division are not of a nature that would warrant strict guidelines for accessibility.

RETENTION AND DISPOSAL:

Records are maintained as long as needed and updated as necessary.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Department of the Treasury, Savings Bonds Division, 1111 20th Street, NW, Washington, DC 20226.

NOTIFICATION PROCEDURE:

An individual may request access to his/her record at any time by notifying the officer in charge. The individual, however, must be under the supervision of a Savings Bonds Officer during the entire time the information is in his/her possession.

RECORD ACCESS PROCEDURES:

See System Manager and Notification above.

CONTESTING RECORD PROCEDURES:

Contested information should be specified, and the reason(s) for contesting the record listed. See System Manager above.

RECORD SOURCE CATEGORIES:

Data accumulated in the record system at Savings Bonds Division are gathered from the individual and/or from sources directly connected with the volunteer's appointment.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/USSBD .003

SYSTEM NAME:

Savings Bonds Sales Record System—Treasury/USSBD.

SYSTEM LOCATION:

Savings Bonds Division, Department of the Treasury, 1111 20th Street, NW, Washington, DC 20226; and/or Regional Offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Blue Ribbon Target Cards, Blue Ribbon Target Status Control Sheets, Field Call Reports, Itineraries, Net-Saver Reports, Payroll-Savings Reporting Procedures Forms, Progress Summaries, Time and Attendance Reports, Training Reports, Work Plans, State-County Chairmen, State and Volunteer Fund Lists, "Take stock in America" Records, Telephone calls, Volunteer Bio's.

CATEGORIES OF RECORDS IN THE SYSTEM:

Routine lists and administrative details associated with sales.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Treasury Department Order No. 13 established the Division of Savings Bonds under the Office of the Fiscal Assistant Secretary, dated April 1941.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

There are no disclosures for this system of records outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records of this nature are filed in large notebooks and are indexed according to individual names, regions, areas and states.

RETRIEVABILITY:

Records are retrievable under indexes indicated above.

SAFEGUARDS:

Records do not warrant tight security.

RETENTION AND DISPOSAL:

High priority records are kept as long as needed, records of lower priority are destroyed after two years.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Sales Operations, Department of the Treasury, Savings Bonds Division, 1111 20th Street, NW, Washington, DC 20226.

NOTIFICATION PROCEDURE:

An individual may request access to his/her record or any information pertaining to him/her by merely notifying the office or officer in charge. The individual, however, must be under the supervision of a Savings Bonds Officer during the entire time he/she has this information in his/her possession.

RECORD ACCESS PROCEDURES:

See System Manager and Notification above.

CONTESTING RECORD PROCEDURES:

Contested information should be specified, and the reason(s) for contesting the record listed. See System Manager and Notification above.

RECORD SOURCE CATEGORIES:

Data accumulated in the sales record system at Savings Bonds Division are gather from the individual and/or from sources directly connected with the employee's appointment.

Administrative Operations Information System—Treasury/USSSS

SYSTEM LOCATION:

U.S. Secret Service (Headquarters), 1800 G Street, NW, Washington, DC 20223. Components of the Administrative Operations Information System are geographically dispersed throughout Secret Service field offices. (See below, United States Secret Service, Appendix A, listing the addresses of Secret Service offices.) U.S Secret Service Uniformed Division, 1310 L Street, NW, Washington, DC 20005. Treasury Police Force, Main Treasury Building, Washington, DC 20220. Presidential Protective Division, U.S. Secret Service, Room 12, Executive Office Building, 17th and Pennsylvania Avenue, NW, Washington, DC 20500. Vice-Presidential Protective Division, U.S. Secret Service, Executive Office Building, Room 295, Washington, DC 20500. Dignitary Protective Division, U.S. Secret Service, 1310 L Street, NW, Washington, DC 20005. Protective Vehicle Division, U.S. Sercet Service, 1310 L Street, NW, Washington, DC 20005. Johnson Protective Division, U.S. Secret Service, Stonewall, TX 78671. Ford Protective Division, U.S. Secret Service, P.O. Box 955, Rancho Mirage, CA 92270. Technical Security Division, Executive Office Building, Washington, DC 20500. Carter Protective Division, U.S. Secret Service, P.O. Box 308, Plains, GA 31780. Western Protective Division, Westlake Village, CA 91361.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(a) Individuals who are now or were Secret Service employees; (b) Individuals, contractors, and vendors, etc., who are presently doing or previously did business with the Secret Service; (c) Claimants against the Service under the Federal Tort Claims Act and the Military Personnel and Federal Employees Claims Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Records containing information on issuance of Secret Service equipment and accountable government property; (b) Records containing procurement

negotiations, contracts, agreements, etc., with the Secret Service; (c) Records containing information on past, present and future administrative correspondence with individuals, contractors, vendors, etc., who have or plan to enter into contractual agreements with the Secret Service; (d) Records on vehicle accidents, injuries, fatalities; (e) Records on motor vehicle operators in the Secret Service; (f) Statement of employment and financial interests of certain Secret Service employees required under Treasury Department standards of conduct.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The authority of this System is contained in Title 40 and 41 of the U.S. Code, other rules and regulations where applicable; 5 U.S.C. 301; 44 U.S.C. 3101.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses of this System are as follows: (a) Referral of information of U.S. Treasury, GAO, OMB, GSA, Department of Justice and other Federal, state, and local governments regarding purchases, contracts, and anticipated purchases and contracts of the Secret Service; (b) To provide administrative services for the Secret Service and maintain administrative records as required by law; (c) To use in the adjudication of any claim for or against the Secret Service; (d) Referral to individuals, contractors, vendors, etc., for the purpose of inquiries relating to or confirmation of orders and purchases.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are contained in file folders.

RETRIEVABILITY:

Records may be retrieved by name and/or numbers.

SAFEGUARDS:

(1) File jackets and indices are secured by alarms and other internal security devices in locked rooms with guards on duty on an around the clock basis. Access is available only to employees responsible for records management and operational employees who have a need for such information, each of whom holds a top secret security clearance; (2) The file jackets and the master file indices in Secret Service field offices are located in locked filing cabinets and in locked rooms when Secret Service employees are not on duty. Access to the system is limited to employees of the Secret Service holding top secret security clearances.

RETENTION AND DISPOSAL:

The file jackets and indices are retained in accordance with mandatory GSA General Records Schedules 3, 4, 8, 10, 11, 13, & 23. Disposal is by burning or shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director, Office of Administration, U.S. Secret Service, 1800 G Street, NW., Washington, DC 20223.

NOTIFICATION PROCEDURE:

Any individual who wishes to present a request as to whether this system contains records pertaining to him/her should address his/her inquiry to: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW., Room 720, Washington, DC 20223.

RECORD ACCESS PROCEDURE:

Any individual wishing to obtain information on the procedures for gaining access to and contesting records should contact: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

(a) Individuals who are presently or were Secret Service employees; (b) Individuals, corporations, companies, contractors, etc., previously engaged or presently engaged in business with the Secret Service; (c) Claimants.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/USSS .002

SYSTEM NAME:

Treasury/USSS—Criminal Investigation Information System.

SYSTEM LOCATION:

(a) United States Secret Service, 1800 G Street, NW, Washington, DC 20223. (b) Components of this System are geographically dispersed throughout Secret Service field offices. (See below United States Secret Service Appendix A listing the addresses of Secret Service field offices.) (c) Treasury Police Force, Room 1044, Main Treasury Building, Washington, DC 20220.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(a) Individuals who have been or are currently the subject of a criminal investigation by the U.S. Secret Service in connection with the performance by that agency of its authorized criminal investigative functions; (b) Individuals who are payees, registered owners or endorsers of stolen or lost obligations and other securities of the United States; (c) Individuals who are witnesses, complianants, informants, suspects, defendants, fugitives, released prisoners, correspondents, organized crime figures, and victims of crimes who have been identified by the Secret Service in the conduct of criminal investigations or by information supplied by other law enforcement agencies, government units, and the general public.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Records containing information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrest, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status; (b) Records containing information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual; (c) Records containing reports identifiable with an individual compiled at various stages of the process of enforcement of criminal laws from arrest or indictment through release from supervision; (d) Records containing investigatory material compiled for law enforcement purposes, including but not limited to, handwriting exemplars; laboaratory analyses of inks and papers; handwriting analysis; petitions for the remission of forfeitures; notice of non-receipt of Treasury drafts; affidavits of forged endorsements; opinions of the examiner of questioned documents; certificates by owners of U.S. registered securities concerning forged requests for payments or assignments; applications for relief on account of loss, theft, or destruction of U.S. Savings Bonds or checks; photographic reproductions of obligations and other securities of the United States; contraband items; claims against the United States for the proceeds of government checks and bonds; and reports necessary for the settlement of check and bond claims.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The criminal investigative authority of the U.S. Secret Service is contained in 18 U.S.C. 3056.

VOL 50 ISS 143 JL 25 1985 UMI

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses of this System are as follows: (a) Referral to Federal, state, and local governments, foreign and domestic, having prosecutive and civil law enforcement functions for use by attorneys, magistrates, and judges; and parole and probation authorities for the purpose of prosecuting, sentencing, and determining the parole and probation status of criminal offenders or suspected criminal offenders; (b) Referral to personnel of other Federal, state and local law enforcement agencies, foreign and domestic , for the purpose of developing information on subjects involved in Secret Service criminal investigations and assisting other law enforcement agencies in the investigation and prosecution of violations of the criminal laws which those agencies are responsible for enforcing; (c) Referral to personnel of Federal, state, and local governmental agencies, where such referral is considered reasonably necessary for the purpose of furthering Secret Service efforts to investigate the activities of and apprehend criminal offenders and suspected criminal offenders; (d) Referral to personnel of Federal, state, and local governmental agencies, foreign and domestic, where there is a showing of reasonable necessity to obtain such information to accomplish a valid law enforcement purpose; (e) Referral to employees and officials of financial and commercial business firms and to private individuals of identifying information pertaining to actual or suspected criminal offenders where such referral is considered reasonably necessary for the purpose of furthering Secret Service efforts to investigate the activities of and apprehend criminal offenders and suspected criminal offenders; (f) Records maintained in this System indicating a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, may be referred to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto; (g) Disclosures in the course of presenting evidence to a court, magistrate or administrative tribunal and disclosures to opposing counsel in the course of discovery proceedings for the purpose of enforcing, or prosecuting, a violation or potential violation of law, whether civil, criminal or regulatory in nature and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto; (h) Disclosures to Federal, state or local agencies maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit; (i) Disclosures to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (j) Disclosures of information relating to criminal and civil proceedings to the news media in accordance with the guidelines contained in 28 CFR 50.2.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

All records comprising this System of the U.S. Secret Service are contained in file jackets. Portions of the indices and information contained in the records are programmed into a magnetic media maintained at Headquarters, U.S. Secret Service, 1800 G Street, NW, Washington, DC 20223.

RETRIEVABILITY:

This system is indexed alphabetically by name at Headquarters, in the field master and magnetic media indices. Access to the physical files containing records is by case number obtained from the alphabetized name indices.

SAFEGUARDS:

(1) The field jackets and indices containing of the records of this System are secured by alarms, and other internal security devices, in locked rooms with guards on duty on an around-the-clock basis. Access to the records is available only to employees responsible for records management and operational employees with a "need to know," each of whom have top secret security clearances; (2) The file jackets and the master field indices comprising this System in Secret Service Field Offices and the Treasury Police Force are located in locked filing cabinets and in locked rooms when Secret Service employees are not on duty. Access to the system is limited to employees of the Secret Service and the Treasury Police Force holding top secret security clearances.

RETENTION AND DISPOSAL:

The retention schedule for records comprising this System is as follows: (1) All Field Judicial cases, 20 years; (2) Non-judicial criminal investigative cases (except non-judicial check and bond cases), 10 years; (3) Non-judicial check claim and bond forgery cases, 5 years; (4) Administrative files of an investigative nature, 5 years; (5) All other files and records the disposition of which is not otherwise specified, 5 years; (6) Investigations for other districts, 2 years; (7) Receipts for counterfeits and contraband, 2 years; (8) Investigation Control Forms, Indefinite; (9) Arrest History Forms, Indefinite; (10) Headquarters Criminal Investigative case files, 50 years; (11) Disposal of records contained in this System is by burning, shredding, maceration, and pulping.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director, Office of Investigations, U.S. Secret Service, 1800 G Street, NW., Washington, DC 20223.

NOTIFICATION PROCEDURE:

In accordance with the provisions of 5 U.S.C. 552a (j) and (k), the Director of the U.S. Secret Service has exempted this System from compliance with the provisions of 5 U.S.C. 552a(e)(4)(G).

RECORD ACCESS PROCEDURES:

In accordance with the provisions of 5 U.S.C. 552a (j) and (k), the Director of the U.S. Secret Service has exempted this System from compliance with the provisions of 5 U.S.C. 552a(e)(4)(H).

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

In accordance with the provisions of 5 U.S.C. 552a (j) and (k) the Director of the U.S. Secret Service has exempted this System from compliance with the provisions of 5 U.S.C. 552a(e)(4)(I).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (c)(4), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (e)(4)(I), of the Privacy Act pursuant to 5 U.S.C. 552a (j) and (k).

Treasury/USSS .003

SYSTEM NAME:

Treasury/USSS—Financial Management Information System.

SYSTEM LOCATION:

(a) U.S. Secret Service, 1800 G Street, NW., Washington, DC 20223; (b) Component of this System are geographically dispersed throughout Secret Service field offices (See below United States Secret Service, Appendix A listing the addresses of Secret Service field offices.); (c) U.S. Secret Service Uniformed Division, 1310 L Street, NW. Room 210, Washington, DC 20005; (d) Treasury Police Force, Room 1044, Main Treasury Building, Washington, DC 20220; (e) Special Serivces Division, U.S. Secret Service, Building 216, Washington Navy Yard, Washington, DC 20374; (f) Presidential Protective Division, U.S. Secret Service, Room 1, Executive Office Building, 17th and Pennsylvania Avenue, NW., Washington, DC 20500; (g) Vice-Presidential Protective Division, U.S. Secret Service, Room 295, Executive Office Building, Washington, DC 20500; (h) Dignitary Protection Division, U.S. Secret Service, 1310 L Street, NW., Washington, DC 20005; (i) Candidate Nominee Protective Division, Room 834, 1800 G Street, NW., Washington, DC 20223; (j) Johnson Protective Division, U.S. Secret Service, P.O. Box 927, Stonewall, TX 78671; (k) Ford Protective Division, U.S. Secret Service, P.O. Box 955, Rancho Mirage, CA 92270; (l) Carter Protective Division, P.O. SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/USSS .004

SYSTEM NAME:

Freedom of Information Request System—Treasury/USSS.

SYSTEM LOCATION:

United States Secret Service, 1800 G Street, NW, Washington, DC 20223.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals or organizations who have requested information under the Freedom of Information Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Correspondence relating to requests for information; (b) Documents relevant to appeals and lawsuits under the Freedom of Information Act.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The authority is contained in 5 U.S.C. 552.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(a) Records may be disseminated to a Federal agency which furnished the record for the purpose of permitting a decision as to access or correction to be made by that Agency, or for the purpose of consulting with that Agency as to the propriety of access or correction; (b) Records may be disseminated to any appropriate Federal, state, local, or foreign Agency for the purpose of verifying the accuracy of information submitted by an individual who has requested amendment or correction of records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records comprising this System are maintained in file jackets.

RETRIEVABILITY:

The file jackets and indices are indexed numerically and alphabetically.

SAFEGUARDS:

The file jackets and indices are secured in filing cabinets in locked rooms. Access to the records is available only to employees responsible for the management of the system and operational employees who have a need for such information, each of whom have a top secret security clearance.

RETENTION AND DISPOSAL:

All files and indices are destroyed five years after the date of last entry. Disposal is by burning.

SYSTEM MANAGER(S) AND ADDRESS:

Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

NOTIFICATION PROCEDURE:

Any individual wishing to present a request as to whether this system contains records pertaining to him/her should address his/her inquiry to: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

RECORD ACCESS PROCEDURES:

Any individual who wishes to obtain information on the procedures for gaining access to and contesting records should contact: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

Individuals or organizations requesting information pursuant to the Freedom of Information Act.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/USSS .005

SYSTEM NAME:

Treasury/USSS—Legal Counsel Record System.

SYSTEM LOCATION:

Office of Legal Counsel, United States Secret Service, 1800 G Street, NW. Washington, DC 20223.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(a) Individuals who have filed administrative claims involving an employee of the U.S. Secret Service; (b) Any individual who is involved in litigation against the U.S. Secret Service; (c) Individuals who have filed a petition for remission of forfeiture of equipment that was seized from them during an investigation and/or arrest by the U.S. Secret Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Copies of administrative claims involving employees of the U.S. Secret Service, responses and legal proceedings in those cases where litigation is involved in administrative claims; (b) Any type of legal document, including complaints, summaries, and litigation reports that are prepared for the Department of Justice at their request; (c) Petitions for remission of forfeiture of seized equipment; (d) Records concerning requests for information regarding the use of reproductions of obligations of the United States including bonds, checks, coins, coupons, currencies (U.S. and foreign), fractional notes, postage stamps (U.S. and foreign), postal money orders, and postmarks.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

18 U.S.C. 3056; 28 U.S.C. 2672 (Federal Tort Claims Act); 18 U.S.C. 471–509.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses of the records contained in the Legal Counsel Record System are as follows: (a) Administrative claims may be routinely sent to the Department of Justice to the Attorneys who will represent the Secret Service in any possible litigation. The purpose of sending administrative claims to these attorneys is to assist them in preparation of litigation involving the Secret Service; (b) Legal records are routinely used in preparation for litigation proceedings against the U.S. Secret Service. Litigation reports are routinely sent to the Department of Justice at their request for assistance in preparation of the litigation proceedings. The purpose of such referrals is to assist the Department of Justice in the preparation of litigation concerning the U.S. Secret Service; (c) Files concerning requests for information regarding the use of reproductions of Government obligations are used in responding to general requests from the public or for requests for interpretation of legality with the Department of Justice and Postal authorities; (d) Records maintained in this System indicating a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, may be referred to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto; (e) Disclosures in the course of presenting evidence to a court, magistrate or administrative tribunal and disclosures to opposing counsel in the course of discovery proceedings for the purpose of enforcing, or prosecuting, a violation or potential violation of law, whether civil, criminal or regulatory in nature and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto; (f) Disclosures to Federal, state or local agencies maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit; (g) Disclosures to a Federal agency in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records comprising this System are contained in file jackets.

RETRIEVABILITY:

This System is indexed chronologically for administrative claims, petitions for remission and requests for information regarding reproductions. Access to the physical files containing litigation records is by name.

SAFEGUARDS:

The file jackets are secured in a locked room with guards on duty on an around-the-clock basis. Access to the records is available only to employees responsible for record management and operational employees who have a need for such information, each of whom holds a top secret security clearance.

RETENTION AND DISPOSAL:

The retention schedule is as follows: (1) All judicial case records are retained for a period of 20 years; (2) Administrative claims, petitions for remission, and requests for information are retained indefinitely. Any disposal is by shredding and/or burning.

SYSTEM MANAGER(S) AND ADDRESS:

Legal Counsel, U.S. Secret Service, 1800 G Street, NW, Room 842, Washington, DC 20223.

NOTIFICATION PROCEDURES:

Any individual who wishes to present a request as to whether the system contains records pertaining to him/her should address his/her inquiry to: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

RECORD ACCESS PROCEDURES:

Any individual wishing to obtain information on the procedures and gaining access to and contesting records should contact: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

(a) Administrative claims are filed by those individuals who believe that they have a claim against the U.S. Secret Service; (b) Individuals who are involved in legal proceedings against the U.S. Secret Service. All litigation reports are initiated by Office of Legal Counsel, U.S. Secret Service; (c) Individuals and organizations who have petitioned for remission of forfeiture of seized equipments; (d) Requests for information regarding the use of reproductions from Secret Service field offices, the general public, and from professional organizations.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/USSS .006

SYSTEM NAME:

Non Criminal Investigation Information System—Treasury/USSS.

SYSTEM LOCATION:

(a) United States Secret Service, 1800 G Street, NW, Washington, DC 20223. (b) Components of this System are geographically dispersed throughout Secret Service field offices in the United States, Puerto Rico, and one foreign country. (See below, United States Secret Service Appendix A, listing the addresses of Secret Service field offices.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(a) Individuals who are applicants for employment with the U.S. Secret Service and other bureaus of the Department of the Treasury; (b) Individuals who are employees of the U.S. Secret Service and other bureaus of the Department of the Treasury holding security clearances granting access to classified documents and records; (c) Individuals who have filed administrative claims with the Secret Service and other bureaus of the Department of the Treasury under the Federal Tort Claims Act or who have been involved in automobile accidents

VOL 50 ISS 143 JL 25 1985 UMI

or other incidents involving employees of the Secret Service and other bureaus of the Department of the Treasury resulting in tort claims against such individuals; (d) Individuals involved in investigations required in the administration of the Government Losses in Shipment Act, the Gold Reserve Act, and the Silver Purchase Act; (e) Individuals who are employees of the Secret Service and other bureaus of the Department of the Treasury who have been accused of misconduct in the performance of their duties, or who have been the subject of a complaint involving the performance of their official functions; (f) Individuals who are the subject of investigations or supply information to investigative agents conducting special investigations relating to the performance by the Secret Service of its statutory and regulatory functions.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Record containing investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or access to classified information; (b) Records containing investigatory material compiled for law enforcement purposes, including but not limited to, reports of investigators relating to claims under the Federal Tort Claims Act; Government Losses in Shipment Act; the Gold Reserve Act and the Silver Purchase Act; and employee misconduct or malfeasance; (c) Records containing reports or statement of investigators, witnesses, complainants, claimants and correspondents associated with identifiable individuals.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The authority is contained in 18 U.S.C. 3056; Executive Order 10450 and Treasury Order 82 (revised January 17, 1973); and Treasury Order 173–1.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses of the records contained in this System are as follows: (a) Referral to the Department of Justice and other Federal agencies for administrative, civil, or other legal proceedings to be used by personnel officials, attorneys, administrative law officers, and judges; (b) Referral to personnel of other Federal, state and local governmental agencies, foreign and domestic, for the purpose of developing or confirming information on individuals involved in non-criminal investigations conducted by the Secret Service; (c) Referral to personnel of private institutions and to private individuals for the purpose of confirming and/or determining suitability, eligibility, or qualifications for Federal civilian employment or access to classified information; and for the purposes of furthering the efforts of the Secret Service to investigate the activities of individuals related to or involved in non-criminal civil and administrative investigations; (d) Referral to another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for the purpose of determining suitability, eligibility, or qualifications for employment with or access to classified information in such other agency or instrumentality; (e) Records maintained in the Non-Criminal Investigation Information System indicating a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, may be referred to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto; (f) Disclosures in the course of presenting evidence to a court, magistrate or administrative tribunal and disclosures to opposing counsel in the course of discovery proceedings for the purpose of enforcing, or prosecuting, a violation or potential violation of law, whether civil, criminal or regulatory in nature and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto; (g) Disclosures and/or responses to Federal, state or local agencies maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit, to the extent that the information is relevant and necessary to the decision on the matter; (h) Disclosures of information relating to civil proceedings to the news media in accordance with the guidelines contained in 28 CFR 50.2.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records comprising this System of the U.S. Secret Service are contained in file jackets. Portions of these indices and information contained in this System are programmed into a magnetic media maintained at Headquarters.

RETRIEVABILITY:

This System is indexed alphabetically by name in the Headquarters, Inspection, field master, and magnetic media indices. Access to the physical files is by case number obtained from the name indices.

SAFEGUARDS:

(1) The file jackets and indices are secured by alarms and other internal security devices in locked rooms with guards on duty on an around-the-clock basis. Access to the records is available only to employees responsible for record management and operational employees who have a need for such information, each of whom holds a top secret security clearance; (2) The file jackets and the master field indices comprising this System in field offices are located in locked filing cabinets and in locked rooms when employees are not on duty. Access to the system is limited to employees holding top secret security clearances.

RETENTION AND DISPOSAL:

The retention schedule is as follows: (1) All judicial case records are retained for a period of twenty years; (2) Applicant security and background investigation records of Secret Service employees are retained for twenty years after retirement or separation of the employee from Secret Service employment; (3) Applicant investigation records relating to employees of Bureaus of the Treasury Department other than the Secret Service, are retained for twenty years; (4) All other records, the disposition of which are not otherwise specified, are retained for five (5) years. Disposal: Disposal of records is by burning, shredding, maceration, and pulping.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Directors, Office of Investigation and Office of Inspection, 1800 G Street, NW, Washington, DC 20223.

NOTIFICATION PROCEDURE:

The Director of the U.S. Secret Service has exempted this System from the provisions of 5 U.S.C. 552a(e)(4)(G).

RECORD ACCESS PROCEDURES:

The Director of the U.S. Secret Service has exempted this System from the provisions of 5 U.S.C. 552a(e)(4)(H).

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

The Director of the U.S. Secret Service has exempted this System from the provisions of 5 U.S.C. 552a(e)(4)(I).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF TI. ACT:

This system is exempt from 5 U.S.C. 552a (c)(3), (d), (e)(4)(G), (e)(4)(H), (e)(4)(I) and (f) of the Privacy Act pursuant to 5 U.S.C. 552a (j) and (k).

Treasury/USSS .007

SYSTEM NAME:

Protection Information System—Treasury/USSS.

SYSTEM LOCATION:

(a) United States Secret Service, 1800 G Street, NW, Washington, DC 20223. (b) Presidential Protective Division, U.S. Secret Service, Room 1, Executive Office Building, 17th and Pennsylvania Avenue, NW, Washington, DC 20500. (c) Vice-Presidential Protection Division, U.S. Secret Service, Room 295, Executive Office Building, Washington, DC 20500. (d) Dignitary Protective Division, U.S. Secret Service, 1310 L Street, NW, Washington, DC 20005. (e) Protective Vehicle Division, U.S. Secret Service, 1310 L Street, NW, Suite 400, Washington, DC 20005. (f) Johnson Protective Division, U.S. Secret Service, P.O. Box 927, Stonewall, TX 78671. (g) Ford Protective Division, U.S. Secret Service, P.O. Box 955, Rancho Mirage, CA 92270. (h) U.S. Secret Service Uniformed Division, Room 210, 1310 L Street, NW, Washington, DC 20005. (i) Treasury Police Force, Room 1040, Main Treasury Building, Washington, DC 20220. (j) Technical Security Division, Room 572, Executive Office Building, Washington, DC 20500. (k) Carter Protective Division, U.S. Secret Service, P.O. Box 308, Plains, GA 31780. (l) Western Protective Division, Westlake Village, CA 91361. (m) Components of this System are geographically throughout Secret Service field offices. (See below, United States Secret Service Appendix A, listing the addresses of Secret Service field offices.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(a) Individuals who have been or are currently the subject of a criminal investigation by the U.S. Secret Service or another law enforcement agency for the violation of certain criminal statutes relating to the protection of persons or the security of properties; (b) Individuals who are the subjects of investigative records and reports supplied to the Secret Service by Federal, state, and local law enforcement agencies, foreign and domestic; other governmental agencies; private institutions and individuals for evaluation by the Secret Service in connection with the performance by that agency of its authorized protective functions; (c) Individuals who are the subjects of non-criminal protective and background investigations by the Secret Service and other law enforcement agencies where the evaluation of such individuals, in accordance with criteria established by the Secret Service, indicates a need for such investigations; (d) Individuals who are granted ingress and egress to areas secured by the Secret Service, or to areas in close proximity to persons protected by the Secret Service, including but not limited to invitees, passholders, tradesmen, law enforcement, maintenance and service personnel; (e) Individuals who have attempted or solicited unauthorized entry into areas secured by the Secret Service; individuals who have sought an audience or contact with persons protected by the Secret Service or who have been involved in incidents or events which relate to the protective functions of the Secret Service; (f) Individuals who are witnesses, protectees, suspects, complainants, informants, defendants, fugitives, released prisoners, and correspondents who have been identified by the Secret Service or from information supplied by other law enforcement agencies, governmental units, private institutions, and members of the general public in connection with the performance by the Secret Service of its authorized protective functions.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Records containing information complied for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrest, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status; (b) Records containing information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual; (c) Records containing reports relative to an individual compiled at various stages of the process of enforcement of certain criminal laws from arrest or indictment through release from supervision; (d) Records containing information supplied by other Federal, state, and local law enforcement agencies, foreign and domestic; other governmental agencies; private institutions and persons concerning individuals who, because of their activities, personality traits, criminal or mental history, or history of social deviancy, may be of interest to the Secret Service in connection with the performance by that agency of its protective functions; (e) Records containing information compiled for the purpose of identifying and evaluating individuals who may constitute a threat to the safety of persons or security of areas protected by the Secret Service; (f) Records containing information compiled for the purpose of background investigations of individuals, including but not limited to, passholders, tradesmen, maintenance and service personnel who have access to areas secured by or who may be in close proximity to persons protected by the Secret Service.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The protective authority is contained in 18 U.S.C. 3056 and Section 1 of Pub. L. 90–331, (18 U.S.C. 871; 18 U.S.C. 1751). The protective and security authority of the U.S. Secret Service Uniformed Division is contained in 3 U.S.C. 202 and of the Treasury Police Force in Treasury Orders issued by the Secretary of the Treasury pursuant to the provisions of Reorganization Plan Number 26 of 1950.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses are as follows: (a) Referral to the Department of Justice and other Federal, state and local governmental agencies having a prosecutive function for the use of attorneys, magistrates, and judges; and parole and probation authorities for the purpose of prosecuting, sentencing, and determining the parole and probation status of criminal offenders or suspected criminal offenders; and for civil and other proceedings involving Secret Service Protective functions; (b) Referral to personnel of other Federal, state and local law enforcement agencies, foreign and domestic, for the purpose of developing information on subjects involved in Secret Service protective investigations and evaluations and for the purpose of protective intelligence briefings of personnel of other law enforcement and governmental agencies assisting the U.S. Secret Service in the performance of its protective functions;

VOL 50 ISS 143 JL 25 1985 UMI

(c) Referral to personnel of Federal, state, and local governmental agencies, foreign and domestic, where such referrals are considered reasonably necessary for the purpose of furthering Secret Service efforts to investigate the activities of those persons considered to be of protective interest; (d) Referral to personnel of Federal, state, and local law enforcement agencies and other governmental agencies, foreign and domestic, where there is a showing of a reasonable need to accomplish a valid enforcement purpose; (e) Referral to personnel of private institutions and to private individuals of identifying information pertaining to actual or suspected criminal offenders or other individuals considered to be of protective interest for the purpose of furthering Secret Service efforts to evaluate the danger such individuals pose to persons protected by that agency; (f) Records maintained in the Protection Information System indicating a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, may be referred to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto; (g) Disclosures in the course of presenting evidence to a court, magistrate or administrative tribunal and disclosures to opposing counsel in the course of discovery proceedings for the purpose of enforcing, or prosecuting, a violation or potential violation of law, whether civil, criminal or regulatory in nature and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto; (h) Disclosures and/or responses to Federal, state or local agencies maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (i) Disclosures of information relating to criminal and civil proceedings to the news media in accordance with the guidelines contained in 28 CFR 50.2.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records comprising this System are contained in file jackets and into a magnetic media maintained at Headquarters. This System is indexed alphabetically by name. (See Location Section of this notice and United States Secret Service Appendix A.)

RETRIEVABILITY:

This System is indexed alphabetically by name. Access to the physical files is by case number.

SAFEGUARDS:

(1) The file jackets and indices are secured by alarms and other internal security devices in locked rooms with guards on duty on an around-the-clock basis. Access to the records is available only to employees responsible for record management and operational employees who have a need for such information, each of whom holds a top secret security clearance. (2) The file jackets and the master field indices in field offices are located in locked filing cabinets and in locked rooms when employees are not on duty. Access to the system is limited to employees of the Secret Service holding top secret Security Clearances.

RETENTION AND DISPOSAL:

The retention schedule for records is as follows: (1) All judicial case records are retained for a period of twenty years. In cases where periodic checkups are conducted in protective intelligence cases, the retention period is computed from the date of the final checkup. In the event of a protective intelligence subject's death, the file is routinely destroyed immediately. Otherwise, these files are maintained for a period of twenty years; (2) All other protective intelligence case records including protective surveys and non-judicial protective intelligence cases are routinely retained for a period of five years; (3) Administrative records and files on all types of physical protective activities are retained for a period of two and five years respectively; (4) Disposal of records contained in this System is by burning or shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director, Office of Protective Research, U.S. Secret Service, 1800 G Street, NW, Washington, DC 20223.

NOTIFICATION PROCEDURE:

In accordance with the provisions of 5 U.S.C. 552a (j) and (k) the Director of the U.S. Secret Service has exempted this System from the provisions of 5 U.S.C. 552a(e)(4)(G).

RECORD ACCESS PROCEDURES:

In accordance with the provisions of 5 U.S.C. 552a (j) and (k) the Director of the U.S. Secret Service has exempted the System from the provisions of 5 U.S.C. 552a(e)(4)(H).

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

In accordance with the provisions of 5 U.S.C. 552a (j) and (k) the Director of the U.S. Secret Service has exempted this System from the provisions of 5 U.S.C. 552a (e)(4)(I).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system is exempt from 5 U.S.C. 552a (c)(2), (c)(3), (c)(4), (d), (e)(3), (e)(4)(G), (e)(4)(H), (e)(4)(I), (e)(5), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j) and (k).

Treasury/USSS .008

SYSTEM NAME:

Public Affairs Record System—Treasury/USSS.

SYSTEM LOCATION:

U.S. Secret Service, 1800 G Street, NW, Washington, DC 20223.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(a) Persons who are private citizens who correspond requesting information relating to the Secret Service; (b) Persons who are members of the news media, authors and publishers requesting information about the secret Service; (c) Members of Congress who make inquiries with the Secret Service; (d) Persons who are recipients of the Secret Service Honor Award, who have received recognition from or assisted the Secret Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Records of inquiries received from the general public, the communication media and the press relative to Secret Service activities; (b) Records of awards presented by the Secret Service; (c) Records of Congressional inquiries and correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

18 U.S.C. 3056 and Treasury Department Order Number 173–3, dated October 29, 1965.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses are as follows: (a) Disclosures and/or responses from members of Congress and/or the general public.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records comprising this System are maintained in file folders.

RETRIEVABILITY:

Records are filed alphabetically and chronologically.

SAFEGUARDS:

The files are secured in locked filing cabinets in locked rooms, with guards on duty on an around-the-clock basis. Access is available only to employees responsible for management of the system and operational employees who have a need for such information, each of whom holds a top secret security clearance.

RETENTION AND DISPOSAL:

Records in this system are maintained in accordance with mandatory General Services Administration, Records Schedule 14, Items 1–8.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant to the Director, Office of Public Affairs, U.S. Secret Service, 1800 G Street, NW, Washington, DC 20223.

NOTIFICATION PROCEDURE:

Any individual who wishes to present a request as to whether this system contains records pertaining to him/her should address his/her inquiry to: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

RECORD ACCESS PROCEDURES:

Any individual wishing to obtain information on the procedure for gaining access to and contesting records should contact: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

(a) The general public, the news media and members of Congress who correspond with the Secret Service; (b) Persons who have received awards or honors from the Secret Service.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/USSS .009

SYSTEM NAME:

Training Information System—Treasury/USSS.

SYSTEM LOCATION:

(a) U.S. Secret Service, Office of Training, 1310 L Street, NW, Washington, DC 20005. (b) Treasury Police Force, Main Treasury Building, 1500 Pennsylvania Avenue, NW, Washington, DC 20220. (c) James J. Rowley Training Center, Beltsville, MD 20705.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(a) Individuals who are now or were Secret Service employees, officers of the U.S. Secret Service Uniformed Division or the Treasury Police Force.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records containing the type and dates of training programs of the U.S. Secret Service employees, officers of the U.S. Secret Service Uniformed Division or the Treasury Police Force, including course control documents and lesson plans for classes conducted by the Office of Training.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

18 U.S.C. 3056.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The routine uses are as follows: None. Disclosures are not made outside of the Agency.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on cards.

RETRIEVABILITY:

Records are filed alphabetically.

SAFEGUARDS:

This System records are secured in locked rooms with alarms when employees are not on duty. Access is available only to employees responsible for management of the records and operational employees who have a need for such information, each of whom holds a top secret security clearance.

RETENTION AND DISPOSAL:

Records are currently maintained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant to the Director, Office of Training, U.S. Secret Service, 1310 L Street, NW, Washington, DC 20005.

NOTIFICATION PROCEDURE:

Any individual who wishes to present a request as to whether this system contains records pertaining to him/her should address his/her inquiry to: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

RECORD ACCESS PROCEDURES:

Any individual wishing to obtain information on the procedures for gaining access to and contesting records should contact: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, NW, Room 720, Washington, DC 20223.

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

(a) Individuals who are now or were Secret Service employees, officers of the U.S. Secret Service Uniformed Division and the Treasury Police Force officers; (b) Individuals from other Federal, state and local law enforcement agencies.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 887

Abandoned Mine Land Reclamation Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: The Department of the Interior's fiscal year 1985 continuing appropriations resolution (HR Res. 648—Pub. L. 98–473) provided for the establishment of self-sustaining, individually administered programs to insure private property against damages caused by land subsidence resulting from underground coal mining in those States which have reclamation plans approved under section 503 of the SMCRA. These States are, at the present time, the following: Alabama, Alaska, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Missouri, Montana, New Mexico, North Dakota, Ohio, Oklahoma, Pennsylvania, Texas, Utah, Virginia, West Virginia, and Wyoming.

In order to implement the amendment and provide for grants to eligible States for subsidence insurance programs, the Office of Surface Mining must define certain terms contained in the amendment language and discussed in the section on "Discussion of Issues" contained below and provide for procedures for administering grants to the States.

DATES: Written comments: Accepted until 5:00 p.m. (Eastern standard time) on or before August 26, 1985.

Public hearings: Held on request only.

Public meetings: Held on request only.

ADDRESSES: Written comments: Hand deliver to the Office of Surface Mining, U.S. Department of the Interior, Administrative Record, Room 5315, 1100 L Street, N.W., Washington, D.C.; or mail to the Office of Surface Mining, U.S. Department of the Interior, Administrative Record, Room 5315 L, 1951 Constitution Avenue, N.W., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Jim Fary, Office of Surface Mining, Division of Abandoned Mine Land Reclamation, 1951 Constitution Avenue, N.W., Washington, D.C. 20240, or telephone 202–343–7960.

SUPPLEMENTARY INFORMATION:

Public Commenting Procedures.

Written Comments

Written comments should be specific, pertain only to the issues proposed for this rulemaking and include explanations in support of the commenter's recommendations. Commenters are requested to submit five copies of their comments (see **"ADDRESSES"**). Comments received after the time indicated under **"DATES"** or at locations other than Washington, D.C., may not necessarily be considered or be included in the Administrative Record for the final rulemaking.

Public Hearings

Persons wishing to request a public hearing should contact the person listed under "FOR FURTHER INFORMATION CONTACT". If only one person requests a public hearing, a public meeting, rather than a public hearing, may be held and the results of the meeting included in the Administrative Record.

Filing of a written statement at the time of the hearing is requested and will greatly assist the transcriber. Submission of written requests in advance of the hearing will allow OSM officials to prepare appropriate questions.

Public hearings will continue until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment and wish to do so will be heard following those scheduled. The hearing will end after all persons present in the audience who wish to comment have been heard.

Public Meetings

Persons wishing to meet with OSM representatives to discuss the issues involved in this proposed rulemaking may request a meeting at any of the OSM offices listed in **"ADDRESSES"** by contacting the person listed under **"FOR FURTHER INFORMATION CONTACT."**

All such meetings are open to the public and, if possible, notices of meetings will be posted in advance in the Administrative Record Room (1100 L St.). A written summary of each public meeting will be made a part of the Administrative Record.

Background

The Surface Mining Control and Reclamation Act of 1977, Pub. L. 95–87, 30 U.S.C.A. 1201, et seq., was enacted to establish a nationwide program to protect the environment from the adverse effects of surface coal mining activities, and to promote the reclamation of mined areas left without adequate reclamation prior to August 3, 1977, the date of enactment, 30 U.S.C.A. 1201(a)(h). The SMCRA, as formulated, is a complex, comprehensive and broadly remedial regulatory statute intended to govern the conduct and impact of present day coal mining operations.

In addition, Congress recognized that a serious problem existed because of past mining practices, and that a substantial source of funding was needed to support rehabilitation programs to reclaim vast areas of lands affected by these practices. H.R. Rept. 95–218, 95th Cong., 1st Sess. 135–140 (1977). The SMCRA established the Abandoned Mine Reclamation Fund, 30 U.S.C.A. 1231, to help pay for the restoration of land harmed by past coal mining activities. The reclamation fund derives its revenue from a fee levied on current coal production. All operators of coal mining operations subject to the provisions of SMCRA must pay to the Secretary of the Interior, for deposit in the Fund, a reclamation fee of 35 cents per ton of coal produced by surface coal mining and 15 cents per ton of coal produced by underground mining or 10 per centum of the value of the coal at the mine, as determined by the Secretary, whichever is less, except that the reclamation fee for lignite coal is at a rate of 2 per centum of the value of the coal at the mine, or 10 cents per ton, whichever is less. Regulations implementing the abandoned mine land reclamation program were published on October 25, 1978 (43 FR 49932–49952) and revised on June 30, 1982 (47 FR 28574–28604) and codified in 30 CFR Chapter VII, Subchapter R.

Discussion of Issues

Congress included language in section 324 of HR Res. 648—Pub. L. 98–473 that amended section 401(c)(1) of the Surface Mining Control and Reclamation Act of 1977 (SMCRA), Pub. L. 95–87, 91 Stat. 456, 30 USC 1231. Section 401(c)(1) is now amended to read:

(c) Moneys in the fund may be used for the following purposes:

(1) reclamation and restoration of land and water resources adversely affected by past coal mining, including but not limited to reclamation and restoration of abandoned surface mine areas, abandoned coal processing areas, and abandoned coal refuse disposal areas; sealing and filling abandoned deep mine entries and voids; planting of land adversely affected by past coal mining to prevent erosion and sedimentation; prevention, abatement, treatment, and control of water pollution created by coal mine drainage including restoration

of stream beds, and construction and operation of water treatment plants; prevention, abatement, and control of burning coal refuse disposal areas and burning coal in situ; prevention, abatement, and control of coal mine subsidence; and establishment of self-sustaining, individual State administered programs to insure private property against damages caused by land subsidence resulting from underground coal mining in those States which have reclamation plans approved in accordance with Section 503 of this Act, provided that funds used for this purpose shall not exceed $3,000,000 of the funds made available to any State under section 402(g)(2) of this Act.

In order to implement the Congressional direction that OSM provide for grants to eligible States for the establishment of self-sustaining, individual State administered programs to insure private property against damages caused by land subsidence from underground coal mining, OSM is proposing to amend 30 CFR Subchapter R to establish a new Part 887 (Subsidence Insurance Program Grants).

Proposed Part 887 would consist of the following:

Proposed § 887.1 (Scope)—Indicates that the purpose of the proposed rule is to set forth procedures for grants to States having an approved State reclamation plan for the establishment, administration, or operation of self-sustaining individual State administered programs.

Proposed § 887.3 (Authority)—Provides authority for the Director of OSM to approve or disapprove applications for grants up to a total amount of $3,000,000 for reach State with an approved State reclamation plan provided that moneys are available in the State share of the Abandoned Mine Land Reclamation Fund. This provision gives the Director of OSM the flexibility of making a one-time grant of $3,000,000 or a series of grants up to a total amount of $3,000,000. This flexibility is necessary because some eligible States do not have sufficient funds in their State share of the AMLR Fund at the present time to support funding a grant at the $3,000,000 level. This provision will then allow these States the latitude to request funds for subsidence insurance programs over a period of years so as not to exhaust their capacity to continue to receive grants provided for in 30 CFR Part 886 necessary to support their State AML Reclamation Programs.

Proposed § 887.5 (Definitions)—Since certain essential terms used in the legislation establishing subsidence insurance programs have not been defined, OSM, in order to implement the Congressional direction, is proposing the following definitions:

Establishment—is defined to mean either the development of a subsidence insurance program or the operation or administration of a subsidence insurance program. By defining "establishment" to mean operation and administration of a program as well as development of a new program, OSM is implementing the Congressional intent found in the legislative history of the amendment. Senator Byrd, the sponsor of the amendment indicated (Congression Record—Senate of October 2, 1984 at p. S 12691) that the amendment would permit States to use a portion of their AMLR funds to operate subsidence insurance programs.

Private Property—is defined to mean any or all of the following: dwellings and improvements, commercial and industrial structures, utilities, underground structures such as sewers, pipes, wells, and septic systems, sidewalks and driveways and land. This inclusive definition will allow the States the greatest latitude to deign subsidence insurance programs to meet their specific local and State needs. States are given the authority to specify the extent of insurance coverage needed for their specific sudsidence insurance programs. The extent of the coverage provided by each State will be directly related to the type of program each State elects to operate. For example, one State may want to provide extensive coverage for land, structures, commercial, residential, private utilities for the full replacement value. Another State may want to put in place a program that pays only for a portion of structural damage.

Self-sustaining—means that a subsidence insurance program maintains an insurance rate structure which is designed to be actuarially sound. Actuarial soundness implies that funds are sufficient to cover expected losses and expenses including a reasonable allowance for underwriting services and contingencies. Self-sustaining shall not preclude the use of funds from other non-Federal sources.

State administered—is defined to mean a subsidence insurance program administered either directly by a State agency or for a State through a State authorized commission, board, contractor, such as an insurance company, or other entity subject to State direction.

This grant program is intended only to provide seed money for the creation of State programs which will be administered solely by the participating States. Neither the establishment or operation of those programs will give rise to any further Federal responsibility.

Proposed § 887.11 (Eligibility for Grants)—Provides that only States with approved reclamation plans under 30 CFR Part 884 are eligible to receive grants for subsidence insurance programs provided the State has sufficient funds in its State share of the AMLR Fund.

Proposed § 887.12 (Coverage and Amount of Grants)—Subsection (a) provides that moneys granted may be used to cover costs to the grantee agency for services and materials obtained from other State and Federal agencies or local jurisdictions according to OMB Circular A–87. Subsection (b) provides that grant applications must contain narrative statements describing how the subsidence insurance program is "State administered" and how the funds requested will achieve a self-sustaining individual State administered program to insure private property against subsidence resulting from underground coal mining. These narrative statements are necessary in order to evaluate the grant application's objectives relative to the purposes for which the subsidence insurance program was established. Subsection (c) provides that grants cannot exceed a total of $3,000,000 per State. This provision allows each State the flexibility to request grant funds as needed or as available in their State share of the AMLR Fund up to a total of $3,000,000. Grant funds can be used for all eligible and necessary expenses related to establishment, administration, and operation of a subsidence insurance program, including payments to other State agencies for services provided in establishing and administering the Program.

Subsection (d) provides that moneys granted may not be used for lands that are ineligible for reclamation funding under Title IV of SMCRA. Specifically, this provision would exclude payments from granted funds for subsidence damage caused by all active mining, mines abandoned or inadequately reclaimed after August 3, 1977, and noncoal mining. In addition, granted funds cannot be used to pay for the actual construction costs of housing or for damages to public property.

Subsection (e) provides that insurance premiums shall be considered program income and must be used to further eligible subsidence insurance program objectives in accordance with the Uniform Administrative Requirements for Grants to States and Local Governments, OMB Circular A–102,

attachment E. The purpose of this subsection is to clarify for the States how to account for moneys received as insurance premiums.

Proposed § 887.13 (Grant Period)—Establishes the grant funding period to be no longer than eight years. Eight years was chosen in order to allow sufficient time for granted funds to be utilized in operating the subsidence insurance program.

Proposed § 887.13 (Grant Administrative Requirements and Procedures)—Incorporated by reference the rules applicable to State reclamation grants. This incorporation provides for consistency and uniform treatment of grants under the AMLR program.

Procedural Matters

Executive Order 12291 and the Regulatory Flexibility Act

The Department of the Interior has determined that this document is not a major rule under E.O. 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

These proposed rules would not result in significant adverse effects on competition, employment, investment, productivity, innovation or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or foreign markets; nor would they increase costs or prices for consumers, individual industries, Federal, State, Tribal or local governmental agencies or geographic regions.

There would be no significant demographic effects, direct cost, indirect costs, nonquantifiable costs, competitive effects, enforcement costs or aggregate effects on small entities.

Since the information collection requirement contained in the proposed rules involve fewer than 10 respondents annually, it is exempt from the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) and does not require clearance by OMB.

National Environmental Policy Act

OSM has prepared an environmental assessment (EA) on this rule that reached the conclusion that this rule should not significantly affect the quality of the human environment. The EA is on file in the OSM Administrative Record, Room 5315, 1100 L Street, N.W., Washington, D.C.

List of Subjects in 30 CFR Part 887

Coal mining, Intergovernmental relations, Surface mining, Underground mining.

Dated: May 28, 1985.

J. Steven Griles,

Deputy Assistant Secretary, Land and Minerals Management.

For the foregoing reasons, OSM proposes to amend 30 CFR Chapter VII Subchapter R to provide a new Part as follows:

1. Part 887 is added as follows:

PART 887—SUBSIDENCE INSURANCE PROGRAM GRANTS

Sec.
887.1 Scope.
887.3 Authority.
887.5 Definitions.
887.10 Information collection.
887.11 Eligibility for grants.
887.12 Coverage and amount of grants.
887.13 Grant period.
887.15 Grant administration requirements and procedures.

Authority: Sec. 324 (H] Res. 648–Pub. L. 98–473), that amended Sec. 401(c)(1), Pub. L. 95–87, 91 Stat. 456 (30 U.S.C. 1231).

§ 887.1 Scope.

This part sets forth procedures for grants to States having an approved State reclamation plan for the establishment, administration and operation of self-sustaining individual State administered programs to insure private property against damages caused by land subsidence resulting from underground coal mining.

§ 887.3 Authority.

The Director is authorized to approve or disapprove applications for grants up to a total amount of $3,000,000 for each State with an approved State reclamation plan provided moneys are available under section 872.11(b)(2) of this chapter and section 402(g)(2) of Pub. L. 95–87.
(30 U.S.C. 1232).

§ 887.5 Definitions.

As used in this Part—

Establishment—means either the development of a subsidence insurance program or the administration or operation of a subsidence insurance program.

Private Property—means any or all of the following: dwellings and improvements, commercial and industrial structures, utilities, underground structures such as sewers, pipes, wells and septic systems, sidewalks and driveways and land.

Self-sustaining—means maintaining an insurance rate structure which is designed to be actuarially sound. Actuarial soundness implies that funds are sufficient to cover expected losses and expenses including a reasonable allowance for underwriting services and contingencies. Self-sustaining shall not preclude the use of funds from other non-Federal sources.

State Administered—means administered either directly by a State agency or for a State through a State authorized commission, board, contractor, such as an insurance company, or other entity subject to State direction.

§ 887.10 Information collection.

Since the information collection requirement contained in 30 CFR 887.12 has fewer than 10 respondents per year, it is exempt from the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) and does not require clearance by OMB.

§ 887.11 Eligibility for grants.

A State is eligible for grants under this part if it has a State reclamation plan approved under Part 884 of this chapter and if it has funds available under section 872.11(b)(2) of this chapter and section 402(g)(2) of Pub. L. 95–87 (30 U.S.C. 1232).

§ 887.12 Coverage and amount of grants.

(a) An agency may use moneys granted under this part to develop, administer, and operate a subsidence insurance program to insure private property against damages caused by subsidence resulting from underground coal mining. The moneys may be used to cover costs to the agency for services and materials obtained from other State and Federal agencies or local jurisdictions according to OMB Circular A–87. If otherwise allowed by law or Federal regulation, moneys granted may be used to cover capitalization requirements and initial reserve requirements as mandated by applicable State law.

(b) The grant application shall contain the following:

(1) A narrative statement describing how the subsidence insurance program is "State administered," and

(2) A narrative statement describing how the funds requested will achieve a self-sustaining individual State administered program to insure private property against subsidence resulting from underground coal mining.

(c) Grants funded under this part cannot exceed a total of $3,000,000 per State.

(d) Moneys granted may not be used for lands that are ineligible for reclamation funding under Title IV of the Surface Mining Control and Reclamation Act of 1977 (Pub. L. 95–87).

(e) Insurance premiums shall be considered program income and must be used to further eligible subsidence insurance program objectives in accordance with the Uniform Administrative Requirements for Grants to States and Local Governments, OMB Circular A–102, attachment E.

§ 887.13 Grant period.

The grant funding period shall not exceed eight years from the time the grant is approved by OSM. Unexpended funds remaining at the end of any grant period shall be returned according to OMB Circular A–102, attachment E.

§ 887.15 Grant administration requirements and procedures.

The requirements and procedures for grant administration set forth for State reclamation grants in Part 886 of this chapter shall be used for subsidence insurance grants.

Part IV

Department of the Interior

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 762

Surface Coal Mining and Reclamation Operations Permanent Regulatory Program; Definitions of Fragile and Historic Lands; Proposed Rule

VOL 50 ISS 143 JL 25 1985 UMI

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 762

Surface Coal Mining and Reclamation Operations Permanent Regulatory Program; Definitions of Fragile Lands and Historic Lands

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) is proposing a rule to modify the definitions of "fragile lands" and "historic lands" to comply with a settlement agreement authorized by the U.S. Distric Court for the District of Columbia on December 3, 1984. The Secretary of the Interior agreed to suspend the then-existing definitions of fragile lands and historic lands and to propose a rule in the Federal Register amending 30 CFR 762.5 by defining fragile lands and historic lands so that only a finding of "significant damage" from surface coal mining operations is required for lands to be classified as fragile or historic. Therefore, neither irreparable nor permanent harm need be caused for an unsuitability determination to be made. This means that proponents of an unsuitability petition will no longer be required to show that surface coal mining will cause irreparable or permanent damage to the lands. Only a showing of significant damage will be required to classify lands as fragile or historic, upon consideration of an unsuitability petition.

DATES: *Written comments:* Must be received before 5:00 p.m. eastern daylight time on or before October 3, 1985.

Public Hearings

Upon request, OSM will hold public hearings on the proposed rule in Washington, D.C.; Denver, Colorado; and Knoxville, Tennessee, at 9:30 a.m. local time on September 26, 1985. Upon request, OSM also will hold public hearings in the States of Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, and Washington at times and on dates to be announced prior to the hearings. OSM will accept requests for public hearings until 5:00 p.m. eastern daylight time on September 12, 1985.

ADDRESSES: *Written Comments:* Hand-deliver to the Office of Surface Mining, Administrative Record, Room 5124B, 1100 L Street, NW., Washington, D.C.; or mail to the Office of Surface Mining, Administrative Record, Room 5124B–L, 1951 Constitution Avenue, NW., Washington, DC 20240.

Public Hearings

Department of the Interior Auditorium, 18th and C Streets, NW., Washington, D.C.; Brooks Towers, 2d Floor Conference Room, 1020 15th Street, Denver, Colorado; and the Hyatt House, 500 Hill Avenue, SE., Knoxville, Tennessee. The addresses for any hearings scheduled in the States of Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, and Washington, will be announced prior to the hearings.

Requests for Public Hearings

Submit in writing to the person and address specified under **"FOR FURTHER INFORMATION CONTACT"** by the time specified under **"DATES."**

FOR FURTHER INFORMATION CONTACT: Stann Chase, Office of Surface Mining, U.S. Department of the Interior, 1951 Constitution Avenue, NW., Washington, DC 20240; telephone: 202–343–5587 (commercial or FTS).

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures
II. Background
III. Discussion of Proposed Rule
IV. Procedural Matters

I. Public Comment Procedures

Written Comments

Written comments submitted on the proposed rule should be specific, be confined to issues pertinent to the proposed rule, and explain the reason for any recommended change. Where practicable, commenters should submit five copies of their comments (see **"ADDRESSES"**).

Comments received after the close of the comment period (see **"DATES"**) may not be considered or included in the Administrative Record for the final rule.

Public Hearings

OSM will hold public hearings on the proposed rule on request only. The times, dates, and addresses scheduled for the hearings at three locations are specified previously in this notice (see **"DATES"** and **"ADDRESSES"**). The times, dates, and addresses for the hearings at the remaining locations have not yet been scheduled but will be announced in the Federal Register at least 7 days prior to any hearings which are held at these locations.

Any person interested in participating at a hearing at a particular location should notify Stann Chase (see **"FOR FURTHER INFORMATION CONTACT"**) either orally or in writing of the desired hearing location by 5:00 p.m. eastern daylight time on September 5, 1985. If no one has contacted Mr. Chase to express an interest in participating in a hearing at a given location by that date, the hearing will not be held. If only one person expresses an interest, a public meeting rather than a hearing may be held and the results included in the Administrative Record.

If a hearing is held, it will continue until all persons wishing to testify have been heard. To assist the transcriber and ensure an accurate record, OSM requests that persons who testify at a hearing give the transcriber a written copy of their testimony. To assist OSM in preparing appropriate questions to clarify issues, OSM also requests that persons who plan to testify submit to OSM at the address previously specified for the submission of written comments (see **"ADDRESSES"**) an advance copy of their testimony.

II. Background

Introduction

The Surface Mining Control and Reclamation Act of 1977, 30 U.S.C. 1201 *et seq.* (the Act, Pub. L. 95–87) sets forth the general regulatory requirements governing surface coal mining and reclamation operations and the surface impacts of underground coal mining. In 1979, OSM implemented or clarified many of the general requirements of the Act and established performance standards under 30 CFR Chapter VII of its permanent regulatory program. On September 14, 1983 (48 FR 41312), the Secretary of the Interior promulgated rules amending its permanent regulatory program with respect to 30 CFR Part 762, which set forth the procedures for implementing Section 522 of the Act for designating lands as unsuitable for all or certain types of surface coal mining operations. Among other things, the September 14, 1983, rules revised the definitions of "fragile lands" and "historic lands" in § 762.5 by incorporating an irreparable damage standard into the definitions. The effect of the change was to require a petitioner to show that fragile lands or historic lands would suffer irreparable damage or would be destroyed.

The September 14, 1983, rules were challenged by the Plaintiff Citizen and Environmental Organizations in Round III of *In re: Permanent Surface Mining Litigation II,* Civil Action No. 79–1144 (D.D.C. 1984). On December 3, 1984, the court issued an order approving an agreement between the Plaintiff Citizen and Environmental Organizations and the Defendant Secretary of the Interior that withdrew these issues from litigation.

Under the terms of the agreement, the Secretary agreed to suspend the definitions of fragile lands and historic lands at 30 CFR Part 762. The Federal Register notice suspending the definitions was published on January 3, 1985 (50 CFR 257). This notice further implements the agreement by proposing to amend the definitions of fragile lands and historic lands to require only a finding of *significant* damage. This is in contrast to the 1983 rule which required a finding of irreparable or permanent damage before lands would meet the definition's standard.

III. Discussion of Proposed Rule

Part 762—Criteria for Designating Areas as Unsuitable for Surface Coal Mining Operations

Section 762.5 Definitions: Fragile Lands and Historic Lands

OSM proposes to modify the definitions of fragile lands and historic lands as areas where surface coal mining operations could result in *significant* damage to natural, ecologic, scientific, esthetic, historic, or cultural resources.

The proposed definitions, which require a showing of significant damage, are in contrast to the definitions at 30 CFR 762.5 (1983) that were suspended on January 3, 1985 (50 CFR 257), and required that irreparable damage to, or destruction of, the stated resources could result from surface coal mining operations before an area could be classified as fragile or historic land. Consequently, the proposed definitions of fragile lands and historic lands would require only a showing that surface coal mining operations could cause significant damage in order for an area to be classfied as fragile or historic if it contains the requisite resources.

The only other proposed change is editorial. The first sentence of the definition of historic lands is revised to make it parallel in construction to the first sentence of the definition of fragile lands.

Effect in Federal Program States

The rules proposed today, if adopted, would be applicable through cross-referencing in those States with Federal programs. This includes Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, Tennessee, and Washington. The Federal programs for these States appear at 30 CFR parts 910, 912, 921, 922, 933, 937, 939, 941, 942, and 947, respectively. Comments are specifically solicited as to whether unique conditions exist in any of these States relating to this proposal which should be reflected either as changes to the national rules or as State-specific amendments to any or all of the Federal program.

IV. Procedural Matters

Federal Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

Executive Order 12291

The Department of the Interior (DOI) has examined the proposed rule according to the criteria of Executive Order 12291 (February 17, 1981) and has determined that it is not major and does not require a regulatory impact analysis.

Regulatory Flexibility Act

The DOI has also determined, pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, that the proposed rule would not have a significant economic impact on a substantial number of small entities.

National Environmental Policy Act

OSM has prepared an environmental assessment (EA) on the impacts on the human environment of this proposed rulemaking.

This EA is on file in the OSM Administrative Record at the address listed in the **"ADDRESSES"** section of this preamble. An EA on the final rule will be completed and a final conclusion reached on the significance of any resulting impacts before issuance of the final rule.

List of Subjects in 30 CFR Part 762

Coal mining, Historic preservation, Monuments and memorials, National forests, National parks, Surface mining, Underground mining, Wildlife refuges.

Accordingly, it is proposed to amend 30 CFR Part 762 as follows:

Dated July 1, 1985.

J. Steven Griles

Deputy Assistant Secretary for Land and Minerals Management.

PART 762—CRITERIA FOR DESIGNATING AREAS AS UNSUITABLE FOR SURFACE COAL MINING OPERATIONS

1. The authority citation for Part 762 is revised to read as follows:

Authority: Pub. L. 95–87 (30 U.S.C. 1201 *et seq.*), unless otherwise noted.

2. In § 762.5, the definitions of "fragile lands" and "historic lands" are revised to read as follows:

§ 762.5 Definitions.

For purposes of this Part: *Fragile lands* means areas containing natural, ecologic, scientific, or esthetic resources that could be significantly damaged by surface coal mining operations. Examples of fragile lands include valuable habitats for fish or wildlife, critical habitats for endangered or threatened species of animals or plants, uncommon geologic formations, National Natural Landmark sites, areas where mining may result in flooding, environmental corridors containing a concentration of ecologic and esthetic features, areas of recreational value due to high environmental quality, and buffer zones adjacent to the boundaries of areas where surface coal mining operations are prohibited under section 522(e) of the Act and Part 761 of this chapter, if those areas have characteristics requiring additional areal protection or if the buffer zone itself contains fragile resources.

Historic lands means areas containing historic, cultural, or scientific resources that could be significantly damaged by surface coal mining operations. Examples of historic lands include archeological and paleontological sites, sites listed on or eligible for listing on a State or National Register of Historic Places, National Historic Landmark sites, sites having religious or cultural significance ot native Americans or religious groups, and sites for which historic designation is pending.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

How To Cite This Publication: Use the volume number and the page number. Example: 50 FR 12345.

Rules and Regulations

Federal Register
Vol. 50, No. 144
Friday, July 26, 1985

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

7 CFR Part 2

Revision of Delegation of Authority

AGENCY: Office of the Secretary, USDA.
ACTION: Final rule.

SUMMARY: This document revises the delegation of authority from the Secretary of Agriculture and general officers of the Department to reflect the transfer of the Traffic Management Branch, Transportation and Storage Division, Agricultural Stabilization and Conservation Service to the Office of Transportation.

EFFECTIVE DATE: July 26, 1985.

FOR FURTHER INFORMATION CONTACT: Mr. Martin F. Fitzpatrick, Director, Office of Transportation, U.S. Department of Agriculture, Room 1405 Auditor's Bldg., 14th Street and Independence Avenue SW., Washington, D.C. 20250 (202–447–3963).

SUPPLEMENTARY INFORMATION: The Traffic Management Branch, Transportation and Storage Division, Agricultural Stabilization and Conservation Service (ASCS) has had the responsibility for developing and recommending policies and programs for inland transportation with respect to USDA and CCC-owned commodities under USDA programs and those in which USDA participates; analyzing freight rate proposals, rules and regulations pertaining to USDA–CCC shipments; recommending revisions of current procedure and contract provisions with respect to such transportation; providing technical advice; maintaining the Department Tariff Library and providing liaison with the trade and other interested groups.

The Office of Transportation (OT) has had the responsibility to coordinate all transportation policy for USDA. OT is also responsible for representing the interests of agriculture and rural communities in the United States in order to ensure the availability of an adequate, efficient, and economical transportation system, domestically and internationally, to meet the needs of agriculture and rural development in the United States.

To further strengthen the Department's ability to manage its transportation responsibilities, the Secretary has determined that the traffic management program should be part of OT. Accordingly, the traffic management program functions are being assigned to the Assistant Secretary for Marketing and Inspection Services and to the Director, OT. The Department believes that this delegation will enable OT to serve other agencies and the public more efficiently.

This rule relates to internal agency management. Therefore, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect thereto are impractical and contrary to the public interest, and good cause is found for making this rule effective less than 30 days after publication in the **Federal Register**. Further, since this rule relates to internal agency management, it is exempt from the provisions of E.O. 12291. Finally, this action is not a rule as defined by Pub. L. 96–354, the Regulatory Flexibility Act and thus, it is exempt from the provisions of that Act.

List of Subjects in 7 CFR Part 2

Authority delegations (Government agencies).

PART 2—[AMENDED]

1. The authority citation for Part 2 continues to read as follows:

Authority: 5 U.S.C. 301 and Reorganization Plan No. 2 of 1953, except as otherwise noted.

Subpart C—Delegations of Authority to the Deputy Secretary, the Under Secretary for International Affairs and Commodity Programs, the Under Secretary for Small Community and Rural Development, and Assistant Secretaries

2. Section 2.17 is amended by revising paragraphs (d)(3) and (d)(5) and by adding new paragraphs (d)(7) and (d)(8), to read as follows:

§ 2.17 Delegations of authority to the Assistant Secretary for Marketing and Inspection Services.

* * * * * *

(d) * * *

(3) Apply results of economic research and operations analysis to evaluate transportation issues and to recommend revisions of current procedures.

* * * * * *

(5) Coordinate Department programs of education, information, loans and grants in the area of agriculture transportation including providing technical advice and assistance to other USDA agencies.

* * * * * *

(7) Cooperate with other Departmental agencies in the development and recommendation of policies for inland transportation of USDA and CCC-owned commodities in connection with USDA programs.

(8) Maintain the Department Tariff Library and provide transportation rates and accessorial charges for various commodities to other USDA agencies.

* * * * * *

Subpart F—Delegation of Authority by the Assistant Secretary for Marketing and Inspection Services

3. Section 2.52 is amended by revising paragraphs (a)(3) and (a)(5) and by adding new paragraphs (a)(7) and (a)(8), to read as follows:

§ 2.52 Director, Office of Transportation.

(a) * * *

(3) Apply results of economic research and operations analysis to evaluate transportation issues and to recommend revisions of current procedures.

* * * * * *

(5) Coordinate Department programs of education, information, loans and grants in the area of agriculture transportation including providing technical advice and assistance to other USDA agencies.

* * * * * *

(7) Cooperate with other Departmental agencies in the development and recommendation of policies and programs for inland transportation of USDA and CCC-owned commodities in connection with USDA programs.

(8) Maintain the Department Tariff Library and provide transportation rates

and accessorial charges for various commodities to other USDA agencies.

BILLING CODE 3410-01-M

Animal and Plant Health Inspection Service

9 CFR Part 75

[Docket No. 85-072]

Equine Infectious Anemia; Procedures for Denying and Withdrawing Approval of Laboratories

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document amends the regulations in 9 CFR Part 75 to establish procedures for denying and withdrawing approval of laboratories to conduct official tests for equine infectious anemia. This action is necessary to provide a mechanism to help ensure that all approved laboratories actually are in the business of conducting official tests and that only laboratories meeting the requirements set forth for approved laboratories are included as approved laboratories.

EFFECTIVE DATE: August 26, 1985.

FOR FURTHER INFORMATION CONTACT: Dr. C. A. Gipson, Special Diseases Staff, VS, APHIS, USDA, Room 826, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8321.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 9 CFR Part 75 (referred to below as the regulations), among other things, contain provisions concerning the interstate movement of horses, asses, ponies, mules, and zebras found to be affected with equine infectious anemia (referred to below as EIA), also known as swamp fever.

The regulations in § 75.4(b)(1) provide that the Agar gel immuno-diffusion test is the official test for determining whether horses, asses, ponies, mules, and zebras are affected with EIA. The official test for EIA is required to be conducted in a laboratory approved by the Deputy Administrator, Veterinary Services. Under the provisions of § 75.4(b)(1), a laboratory will be approved by the Deputy Administrator after determining that the laboratory:

(i) has adequately trained technical personnel assigned to conduct the test, (ii) uses USDA licensed antigen, (iii) follows standard test protocol, (iv) meets check test proficiency requirements, and (v) reports all test results to State and Federal animal health officials.

A document published in the **Federal Register** on May 31, 1985 (50 FR 23137-23138), proposed to amend the regulations by specifying procedures for denying or withdrawing approval of laboratories to conduct official EIA tests. These procedures are set forth in the regulatory text portion of this document. The document of May 31, 1985, invited the submission of written comments on or before July 1, 1985. No comments were received. Based on the rationale set forth in the proposal, the regulations are amended as proposed.

Executive Order 12291 and Regulatory Flexibility Act

This action has been reviewed in conformance with Executive Order 12291 and has been determined to be not a "major rule." The Department has determined that this action will not have an effect on the economy of $100 million or more; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will have no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this rulemaking action, the Office of Management and Budget has waived its review process required under Executive Order 12291.

It is not anticipated that a significant number of laboratories will be affected by this rule. In addition, conducting official EIA tests is not the primary business activity of any laboratory in the United States. Therefore, the Administrator of the Animal and Plant Health Inspection Service has determined that this rule will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 9 CFR Part 75

Animal diseases, Horses, Quarantine, Transportation, Equine, Dourine, Equine infectious anemia, Contagious equine metritis.

PART 75—COMMUNICABLE DISEASES IN HORSES, ASSES, PONIES, MULES, AND ZEBRAS

Accordingly, the regulations in 9 CFR Part 75 are amended as follows:

1. The authority citation for Part 75 is revised to read as set forth below and the authority citations following all the sections in Part 75 are removed:

Authority: 21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134-134h; 7 CFR 2.17, 2.51, and 371.2(d).

2. A new paragraph (d) is added to § 75.4 to read as follows:

§ 75.4 Notice relating to existence of equine infectious anemia (swamp fever), official test and conditions of interstate movement of reactors.

* * * * *

(d) The Deputy Administrator may deny approval of any laboratory to conduct the official test upon a determination that the laboratory does not meet the criteria for approval under this part and at any time may withdraw approval of any laboratory to conduct the official test upon a determination that any of the requirements for approval under this part are not complied with. In the case of denial, the operator of the laboratory will be informed of the reasons for the action and, upon request, shall be afforded an opportunity for a hearing with respect to the merits or validity of such action in accordance with the rules of practice which shall be adopted for the proceeding. In the case of a withdrawal, before such action is taken, the operator of the laboratory will be informed of the reasons for the proposed action and, upon request, shall be afforded an opportunity for a hearing with respect to the merits or validity of such action in accordance with rules of practice which shall be adopted for the proceeding. However, such withdrawal shall become effective pending final determination in the proceeding when the Deputy Administrator determines that such action is necessary to protect the public health, interest, of safety. Such withdrawal shall be effective upon oral or written notification, whichever is earlier, to the operator of the laboratory. In the event of oral notification, written confirmation shall be given to the operator of the laboratory as promptly as circumstances allow. This withdrawal shall continue in effect pending the completion of the proceeding and any judicial review thereof, unless otherwise ordered by the Deputy Administrator. In addition to withdrawal of approval when the requirements for approval are not complied with, approval will be automatically withdrawn by the Deputy Administrator when the operator of any approved laboratory notifies the National Veterinary Services Laboratories in Ames, Iowa, in writing, that the laboratory no longer conducts the official test.

Done at Washington, D.C., this 23rd day of July 1985.

J.K. Atwell,

Deputy Administrator, Veterinary Services.

[FR Doc. 85-17812 Filed 7-25-85; 8:45 am]

BILLING CODE 3410-34-M

9 CFR Part 92

[Docket No. 85-045]

Cattle From Canada

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document amends the regulations in 9 CFR Part 92 concerning the importation into the United States of cattle from Canada by designating the Canadian provinces of Alberta, Manitoba, and Saskatchewan as brucellosis certified free provinces and by allowing cattle classified as cattle from brucellosis certified free provinces of Canada to enter into the United States at certain existing ports of entry. It has been determined that this action is necessary to relieve restrictions on the importation of certain cattle from Canada since it has been determined that these provinces are free of brucellosis. This document also amends the regulations by deleting certain provisions which allowed cattle of the beef breeds raised under range conditions in the western provinces of Canada to meet the brucellosis certification requirements for importation into the United States on an individual animal basis. It has been determined that this action is necessary to help prevent the importation into the United States of cattle infected with brucellosis.

EFFECTIVE DATE: August 26, 1985.

FOR FURTHER INFORMATION CONTACT: Dr. Allan A. Furr, Import/Export Animals and Products Staff, VS, APHIS, USDA, Room 848, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436-8530.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 9 CFR Part 92 (referred to below as the regulations) regulate the importation into the United States of specified animals and animal products in order to prevent the introduction into the United States of various diseases. Section 92.20 of the regulations contains specific provisions concerning the importation into the United States of cattle from Canada.

In a document published in the **Federal Register** on March 21, 1985 (50 FR 11374-11376), the Department proposed to amend the regulations by (1) adding the provinces of Alberta, Manitoba, and Saskatchewan to the list of brucellosis certified free provinces of Canada; (2) by adding the existing Canadian border ports of Raymond, Opheim, and Sweetgrass, Montana; and Pembina, Portal, and Dunseith, North Dakota; to the list of United States ports of entry through which cattle to be imported into the United States from brucellosis certified free provinces of Canada may be shipped; and (3) by deleting certain provisions which allowed cattle of the beef breeds raised under range conditions in the western provinces of Canada to meet the brucellosis certification requirements for importation into the United States on an individual animal basis.

The document of March 21, 1985, invited the submission of written comments on or before April 22, 1985. The two comments that were received raised issues concerning vaccination of cattle imported from Canada. These issues were not raised by the proposal. Therefore, these comments were not considered as a part of this rulemaking. Further, based on the rationale set forth in the proposal, the regulations are amended as proposed.

Executive Order 12291 and Regulatory Flexibility Act

This rule has been reviewed in conformance with Executive Order 12291 and has been determined to be not a "major rule." The Department has determined that this rule will not have an effect on the economy of $100 million or more; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; and will not have any significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this rulemaking action, the Office of Management and Budget has waived its review process required by Executive Order 12291.

As a result of the adoption of this rule, no significant change is anticipated in the number of cattle imported into the United States from Canada or in the cost of importing cattle into the United States from Canada.

Based on the circumstances explained above, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 9 CFR Part 92

Animal diseases, Canada, Imports, Livestock and livestock products, Mexico, Poultry and poultry products, Quarantine, Transportation, Wildlife.

PART 92—IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS; INSPECTION AND OTHER REQUIREMENTS FOR CERTAIN MEANS OF CONVEYANCE AND SHIPPING CONTAINERS THEREON

Accordingly, the regulations in 9 CFR Part 92 are amended as follows:

1. The authority citation for Part 92 continues to read as follows:

Authority: 7 U.S.C. 1622; 19 U.S.C. 1306; 21 U.S.C. 102-105, 111, 134a, 134b, 134c, 134d, 134f, and 135; 7 CFR 2.17, 2.51, and 371.2(d).

2. Section 92.1(w) is revised to read:

§ 92.1 Definitions.

* * * * *

(w) *Brucellosis certified free provinces of Canada.* Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland (including Labrador), Nova Scotia, Prince Edward Island, and Saskatchewan, known in Canada as brucellosis accredited free provinces.

* * * * *

§ 92.20 [Amended]

3. In the first sentence of paragraph (c)(1) of § 92.20, "paragraph (c)(4), or paragraph (c)(6)" is changed to "paragraph (c)(3), or paragraph (c)(5)".

4. In the fourth sentence of paragraph (c)(1) of § 92.20 "in accordance with paragraph (c)(3) of this section" is changed to "issued or endorsed by a salaried veterinarian of the Canadian Government showing them to have been tested for brucellosis with negative results within 30 days preceding their offer for entry".

5. In paragraph (c)(2) of § 92.20, "paragraph (c)(4), or paragraph (c)(6)" is changed to "or paragraph (c)(5)".

6. The sixth sentence of paragraph (c)(2) of § 92.20 is changed to: "Cattle to

be imported into the United States from

List of Subjects in 9 CFR Part 166

Act are enforced in Louisiana and

prevent the dissemination of certain

location. One method of storing spent

fuel will be stored to maintain financial

be imported into the United States from brucellosis certified free provinces of Canada shall be (A) moved entirely within the boundaries of the brucellosis certified free provinces of Canada from the farm of origin directly to the United States ports of entry of Eastport, Idaho; Houlton, Maine; Raymond, Opheim, and Sweetgrass, Montana; Pembina, Portal, and Dunseith, North Dakota; and Blaine, Sumas, Lyndon, and Oroville, Washington; or (B) such cattle shall be moved in a vehicle sealed with Canadian Governments seals."

7. Paragraph (c)(3) of § 92.20 is removed.

8. Paragraphs (c)(4), (c)(5), (c)(6), and (c)(7) of § 92.20 are redesignated as paragraphs (c)(3), (c)(4), (c)(5), and (c)(6) respectively.

9. In redesignated paragraph (c)(3) of § 92.20, "paragraph (c)(3), or paragraph (c)(6)" is changed to "or paragraph (c)(5)".

10. In the second proviso of redesignated paragraph (c)(3)(i) of § 92.20, "paragraphs (c)(1), (3), and (4)(i)" is changed to "paragraphs (c)(1) and (c)(3)(i)".

11. In redesignated paragraph (c)(3)(ii) of § 92.20, "paragraph (c)(4)(i)" is changed to "paragraph (c)(3)(i)" both places that "paragraph (c)(4)(i)" appears.

12. In redesignated paragraph (c)(4) of § 92.20, "paragraph (c)(6)" is changed to "paragraph (c)(5)".

13. In redesignated paragraph (c)(5) of § 92.20, "paragraphs (c)(1), (2), (3) and (4)(i)" is changed to "paragraphs (c)(1), (c)(2), and (c)(3)(i)".

Done at Washington, D.C., this 23rd day of July 1985.

J.K. Atwell,

Deputy Administrator, Veterinary Services.

BILLING CODE 3410-34-M

---

9 CFR Part 166

[Docket No. 85-074]

Swine Health Protection Provisions

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Affirmation of Interim Rule.

SUMMARY: This document affirms the interim rule which removed Louisiana from the list of States that have primary enforcement responsibility under the Swine Health Protection Act (the Act). This amendment was made pursuant to a request from Louisiana. The intended effect of this amendment is to help ensure that certain requirements for the feeding of garbage to swine under the Act are enforced in Louisiana and thereby help prevent the dissemination of certain swine diseases.

This document also affirms the interim rule which removed Arkansas from the list of States that do not have primary enforcement responsibility under the Act, but, under cooperative agreements with APHIS, issue licenses to persons desiring to operate a treatment facility for garbage that is to be treated and fed to swine. Arkansas no longer issues such licenses. With the change affirmed by this document, APHIS is the entity that issues licenses for facilities eligible to be licensed in Arkansas. The removal of Arkansas from the list of such States was necessary to inform interested persons that Arkansas no longer issues such licenses.

EFFECTIVE DATE: July 26, 1985.

FOR FURTHER INFORMATION CONTACT: Dr. John L. Williams, Special Diseases Staff, VA, APHIS, USDA, Room 820, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8487.

SUPPLEMENTARY INFORMATION:

Background

The "Swine Health Protection Provisions" regulations (contained in 9 CFR Part 166 and referred to below as the federal regulations) were established pursuant to the Swine Health Protection Act (set forth in 7 U.S.C. 3801 *et seq.* and referred to below as the Act.) These authorities contain provisions regulating the treatment of garbage to be fed to swine and the feeding thereof in order to prevent the introduction into and dissemination in the United States of certain diseases of swine. The Act, except for authority for certain emergency actions, provides that the provisions of the Act and federal regulations are to be enforced only in States that do not have primary enforcement responsibility under the Act.

A document published in the **Federal Register** on May 2, 1985 (50 FR 18632-18633) amended the regulations with respect to Louisiana and Arkansas.

Louisiana

Pursuant to a request from Louisiana and pursuant to the requirements of Section 10(a) of the Act, the document of May 2, 1985, removed Louisiana from the list of States that have primary enforcement responsibility under the Act. The intended effect of this amendment is to help ensure that certain requirements for the feeding of garbage to swine under the Act are enforced in Louisiana and thereby help prevent the dissemination of certain swine diseases.

Arkansas

Pursuant to authority in the Act, APHIS enters into cooperative agreements with some States that do not have primary enforcement responsibility under the Act to allow such States to issue licenses to persons desiring to operate a treatment facility for garbage that is to be treated and fed to swine. The document of May 2, 1985, also removed Arkansas from the list of States in § 166.14(d) which issue licenses under cooperative agreements with APHIS but do not have primary enforcement responsibility under the Act. With this change APHIS became the entity that issues such licenses for facilities eligible to be licensed in Arkansas.

Comments and Basis for Amendments

The interim rule became effective upon publication. Comments were solicited for 60 days following publication. No comments were received. The factual situation which was set forth in the interim rule still provides a basis for the amendments.

Executive Order 12291 and Regulatory Flexibility Act

This action is issued in conformance with Executive Order 12291 and has been determined to be not a "major rule." Based on information compiled by the Department, it has been determined that this rule will not have a significant effect on the economy; will not cause a major increase in costs or prices for consumers, individual industries, Federal, States, or local government agencies, or geographic regions; and will not cause significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this action, the Office of Management and Budget has waived its review process required by Executive Order 12291.

The amendments affirmed by this document will not cause significant changes in requirements for affected persons.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 9 CFR Part 166

African Swine Fever, Animal diseases, Foot-and-Mouth Disease, Hog Cholera, Hogs, Garbage, Swine Vesicular Disease, Vesicuolar Exanthema of Swine.

PART 166—SWINE HEALTH PROTECTION

Accordingly, the interim rule amending § 166.14 of 9 CFR 166, published in the **Federal Register** at 50 FR 18632-18633 on May 2, 1985, is adopted as a final rule.

Authority: 7 U.S.C. 3802, 3803, 3804, 3808, 3809, 3811; 7 CFR 2.17, 2.51, and 371.2(d).

BILLING CODE 3410-34-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 140

Financial Protection Requirements and Indemnity Agreements; Indemnification of Spent Reactor Fuel Stored at a Reactor Site Different Than the One Where It Was Generated

AGENCY: Nuclear Regulatory Commission.

ACTION: Exercise of discretionary statutory authority.

SUMMARY: The Commission has decided to exercise its discretionary statutory authority under the Price-Anderson Act and again extend Government indemnity to spent reactor fuel stored at a particular reactor site different than the one where it was generated. Absent this action by the Commission, this spent reactor fuel would not have been covered by Government indemnity in the event of a nuclear incident at the site where this spent fuel was stored and where the reactors involved have the same licensee.

FOR FURTHER INFORMATION CONTACT: Mr. Ira Dinitz, Office of State Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 492-9884.

SUPPLEMENTARY INFORMATION: Most operating reactor licensees have increased, or are planning to increase, the capacity of their onsite spent fuel storage pools. In some instances where the capacity of the storage pools at the reactor site cannot be increased sufficiently to meet the licensee's needs, fuel storage may be sought at another location. One method of storing spent fuel away from the reactor from which it is discharged is to store it in the spent fuel pool of another of the same licensee's reactors but at a different site.

The Commission has received a request from Duke Power Company to authorize and indemnify this type of activity. The Duke Power request is for Commission authorization permitting Duke to store spent fuel discharged from its Oconee Units 1, 2, and 3 at its McGuire Unit 2 reactor. Duke is seeking Price-Anderson indemnity protection for all such storage of spent fuel at the distant reactor location. The Commission considered and approved similar requests by Carolina Power and Light Company in August 1977 and Duke Power Company in November 1982 (See **Federal Register** Notice 42 FR 44615 and 46 FR 55024).

Under the Price-Anderson Act (section 170 of the Atomic Energy Act of 1954, as amended (the Act)), financial protection and government indemnity are *mandatory* for production and utilization facilities, such as reactors, licensed under section 103 and section 104 of the Act. This financial protection and indemnity covers the "licensed activity" which encompasses not only possession and operation of the reactor facility itself but also certain ancillary activities including (1) possession of the new fuel (containing special nuclear material) being stored on-site for use in the reactor and (2) on-site storage of spent fuel following irradiation at that reactor. Mandatory indemnification does not extend to the fuel when it is stored at another reactor site.

Possession of spent fuel away from the facility where it was generated, i.e., at a location where it is not used in connection with the operation of the facility, is not a part of the ancillary activity of possession and operation of the facility where the spent fuel is to be stored. As a result, after being transferred from the reactor site where it was generated to some other site, possession of such spent fuel must be licensed under other provisions of the Act which authorize licenses for possession and use of the special nuclear and byproduct material and would not be subject to the mandatory indemnity requirements of the Act providing that the Commission require financial protection of and indemnify reactor (and other production and utilization facility) licensees. Accordingly, no indemnity protection automatically would be afforded spent fuel stored away from the facility where it is produced or used. To indemnify this spent fuel, the Commission must require the licensee at whose facility the spent fuel will be stored to maintain financial protection and to be indemnified by exercising its *discretionary* authority under section 170 of the Act. For the purposes of Price-Anderson coverage, this exercise of discretionary authority would result in treating spent fuel produced at one reactor site but stored at a different site the same as spent fuel stored at the site of the reactor where it was produced. Thus, irradiated fuel generated by a reactor at one site whether stored by itself in the spent fuel pool of a reactor at a different site or commingled with the second reactor's irradiated fuel in that reactor's spent fuel pool would be covered by financial protection and indemnity.

The NRC believes that it would not be desirable to have a situation where spent fuel generated by one reactor and stored in the spent fuel pools of a second reactor at a different site would be unindemnified while the spent fuel produced by the second reactor and stored at the same site would be indemnified. If indemnity coverage were not extended to the spent fuel generated by the first reactor but stored at the site of a second reactor and if an accident occurred involving the fuel storage pool it would be virtually impossible to determine whether indemnified or unindemnified spent fuel caused the accident.

In view of the foregoing, the Commission has decided to exercise its discretionary authority under section 170 of the Atomic Energy Act of 1954, as amended, and will modify Duke's indemnity agreement at the McGuire's facility to permit the storage of Oconee's irradiated fuel at McGuire. As required in 10 CFR 140.9, the Commission is publishing this amendment, which would redefine the term "the radioactive material" in Article I, paragraph 9 in the McGuire Indemnity Agreement B-83, to read as follows:

The radioactive material means source, special nuclear and byproduct material which (1) is used, was used or will be used in, or is irradiated, was irradiated or will be irradiated by, the nuclear reactors licensed under NPF-9 and NPF-17 or (2) was used in, or was irradiated in the nuclear reactors licensed under DPR-38, DPR-47, and DPR-55 and subsequently is transported to the site of the nuclear reactors licensed under NPF-9 and NPF-17 for the purpose of storage or (3) which is produced as a result of operation of the nuclear reactors licensed under NPF-9 and NPF-17.

This amendment relates to changes in an indemnity agreement incorporated into a 10 CFR Part 50 license. Accordingly, this amendment meets the eligibility critria for categories exclusion

set forth in 10 CFR 51.22(c)(10)(i). Pursuant to 10 CFR 51.22(b), no

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 85–ANE–7; Amdt. 39–5097]

Airworthiness Directives: Alexander Schleicher Model ASK–21 Gliders

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action publishes in the **Federal Register** and makes effective to all persons an amendment adopting a new airworthiness directive (AD) which was previously made effective to all known U.S. owners and operators of certain Alexander Schleicher Model ASK–21 gliders by individual letters. The AD requires a one time inspection and enlargement, if necessary, of the wheel box cutout in the fuselage. The AD is needed to prevent structural damage and aileron control problems caused by interference of the wheel fairing with the wheel box cutout.

DATES: Effective July 25, 1985, to all persons except those persons to whom it was made immediately effective by Priority Letter AD No. 85–06–07, issued March 26, 1985, which contained this amendment.

Compliance required prior to next flight after the effective date of this AD, unless already accomplished.

Incorporation by Reference—Approved by the Director of the **Federal Register** on July 25, 1985.

ADDRESSES: The applicable technical note may be obtained from Alexander Schleicher, Segelflugzeugbau, D–6416 Poppenhausen, Federal Republic of Germany.

A copy of the technical note is contained in Rule Docket 85–ANE–7, in the Office of the Regional Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803, and may be examined weekdays, except Federal holidays, between the hours of 8:00 a.m. and 4:30 p.m.

FOR FURTHER INFORMATION CONTACT: Munro Dearing, Brussels Aircraft Certification Office, AEU–100, Europe, Africa, and Middle East Office, Federal Aviation Administration, 40 American Embassy, 1000 Brussels, Belgium, telephone 513.38.30 X2710, or Terry Fahr, Boston Aircraft Certification Office, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803, telephone (617) 273–7103.

SUPPLEMENTARY INFORMATION: On March 26, 1985, Priority Letter AD No. 85–06–07 was issued and made effective immediately to all known U.S. owners and operators of certain Alexander Schleicher Model ASK–21 gliders. The AD requires a one time inspection, and enlargement, if necessary, of the wheel box cutout in the fuselage. AD action was necessary of these gliders since the wheel box cutout in the fuselage may not have been correctly enlarged. This could cause structural damage during wheel retraction when the rear edge of the wheel fairing contracts the wheel box cutout. Also the fouled gear could loosen a rib during a hard landing and cause aileron control problems.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impracticable and contrary to public interest, and good cause existed to make the AD effective immediately by individual priority letters issued March 26, 1985, to all known U.S. owners and operators of certain Alexander Schleicher Model ASK–21 gliders. These conditions still exist, and the AD is hereby published in the **Federal Register** as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective to all persons.

Conclusion

The FAA has determined that this regulation is an emergency regulation that is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption **"FOR FURTHER INFORMATION CONTACT"**.

List of subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends § 39.13 of Part 39 of the Federal Aviation Regulations as follows:

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and [14 CFR 11.89] 49 CFR 1.47.

2. By adding the following new AD:

Alexander Schleicher: Applies to Model ASK–21 Gliders, S/Ns 21194 through 21228, certificated in all categories.

Compliance is required prior to next flight.

To prevent the main wheel fairing from (1) causing structural damage to the fuselage wheel well box cutout and (2) loosening a rib during a hard landing causing aileron control problems, accomplish the following:

Inspect the wheel box cutout in the fuselage for clearance, and modify if necessary, in accordance with Actions 1 through 5 of Alexander Schliecher ASK–21 Technical Note No. 17, dated October 1, 1984, or an FAA-approved equivalent.

Upon request, an equivalent means of compliance with the requirements of this AD may be approved by the Manager, Brussels Aircraft Certification Office, AEU–100, Europe, Africa, and Middle East Office, FAA c/o American Embassy, 1000 Brussels, Belgium, telephone 513.38.30 X2710.

Alexander Schleicher ASK–21 Technical Note No. 17, dated October 1, 1984, is incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received this document from the manufacturer may obtain copies upon request to Alexander Schleicher, Segelflugzeugbau, D–6416 Poppenhausen, Federal Republic of Germany. This document also may be examined at the Office of the Regional Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803, weekdays, except Federal holidays, between the hours of 8:00 a.m. and 4:30 p.m.

This amendment becomes effective July 25, 1985, to all persons except those persons to whom it was made immediately effective by Priority Letter AD No. 85–06–07, issued March 26, 1985, which contained this amendment.

Issued in Burlington, Massachusetts on July 2, 1985.

Jack A. Sain,

Acting Director, New England Region.

[FR Doc. 85–17717 Filed 7–25–85; 8:45 am]

BILLING CODE 4910–13–M

14 CFR Part 39

[Docket No. 84–ANE–24; Amdt. 39–5098]

Airworthiness Directives; Hartzell ( )HC–( )( )(X,V) Series Propellers

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires inspection or replacement of certain blade clamp assemblies on Hartzell ( )HC–( )( )(X,V) series propellers within the next 12 months or by the next overhaul after the effective date of this AD. The AD is needed to prevent failure of certain propeller blade clamp assemblies which could result in blade separation and severe unbalance.

DATES: *Effective*—September 27, 1985.

Compliance required within the next 12 months or by the next overhaul, after the effective date of this AD, whichever occurs first, unless already accomplished.

Incorporation by Reference—Approved by the Director of the Federal Register on September 27, 1985.

ADDRESSES: The applicable service document may be obtained from Hartzell Propeller Products Division, TRW Aircraft Components Group, 350 Washington Ave., Piqua, Ohio 45356.

A copy of the service document is contained in the Rules Docket, Office of Regional Counsel, FAA, Attn: Rules Docket No. 84–ANE–24, 12 New England Executive Park, Burlington, Massachusetts 01803, and may be examined weekdays, except Federal holidays, between 8:00 a.m. and 4:30 p.m.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Alpiser, Chicago Aircraft Certification Office, ACE–140C, FAA, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (312) 694–7130.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations (FAR) to include an AD requiring inspection or replacement of certain blade clamp assemblies on Hartzell ( )HC–( )( )(X,V) series propellers was published in the **Federal Register** on March 22, 1985 (50 FR 11512).

The proposal resulted from a determination that certain Hartzell propeller Part Number C–3–( ) blade clamp assemblies are susceptible to cracks in either the grease fitting hole or in the area of the inner bearing support housing radius which can result in possible blade loss. Since this condition is likely to exist or develop on other blade clamp assemblies of the same type design, the NPRM proposed inspection or replacement of certain blade clamp assemblies.

Blade clamp assemblies with serial numbers ranging from 0 through D5293, generally produced prior to 1959 and which have a grease fitting hole located approximately one-half inch from the clamp parting line, must be removed from service. Blade clamp assemblies with serial numbers ranging from D5294 through K6336, generally produced between 1959 and 1980 and having a grease fitting hole located approximately one inch from the clamp parting line, must be inspected for defects and removed from service if defects are observed. Clamp assemblies on which no serial numbers are readable or which have mismatched serial numbers on each clamp half must be removed from service.

A 5 year malfunction or defect computer run shows that there were 20 reports of blade clamp failures of which at least 3 resulted in blade separation. Hartzell Propeller has issued Service Bulletins Nos. 126B and 127B and Instruction No. 159A to address the corrective action described in this document. It is estimated that an average of 2.5 manhours per blade clamp assembly will be required to comply with this AD. The cost of a replacement blade clamp assembly is approximately $500. Therefore, the cost to replace the clamps on a two blade propeller will approximate $500 per blade X 2+$35/hr. X 5 hrs. labor=$1175 per propeller. The cost to inspect and reuse the blade clamp assemblies on a two blade propeller will approximate $35/hr. X 5 hrs. labor=$175 per propeller. It is estimated that 5000 two blade propellers will require clamp replacement making the total cost for the fleet approximately $5,875,000. Because clamp assemblies manufactured since 1959 only require inspection, it is unlikely that a fleet operator would have more than one or two propellers that require clamp replacement. Additionally, compliance with this AD is a one-time cost, and any additional cost associated with blade clamp replacement would be part of normal maintenance. Therefore, the FAA has determined that this proposed AD will not have a significant economic impact on a substantial number of small entities.

Interested persons have been afforded an opportunity to participate in the making of this amendment. The comment period closed May 21, 1985. Two comments were received:

One commenter concurred with the proposal. A second commenter recommended that the compliance time be changed from at next overhaul or by January 1, 1986, whichever occurs first, to within the next 12 months or by the next overhaul after the effective date of this AD, whichever occurs first. In response to this comment, the compliance time was changed to within the next 12 months or by the next overhaul after the effective date of this AD, whichever occurs first. This was done to accommodate logistical requirements and a determination was made by the FAA that safety would not be derogated. Therefore, this amendment will be adopted substantially as proposed with a minor change that is relieving in nature.

Conclusion

As described in **SUPPLEMENTARY INFORMATION**, the FAA has determined that this regulation is not considered to be major under Executive Order 12291, or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). I certify that this is not a "major rule" under Executive Order 12291; is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified under the caption **"FOR FURTHER INFORMATION CONTACT."**

List of Subjects in 14 CFR Part 39

Propellers, Engines, Air transportation, Aircraft, Aviation safety, Incorporation by reference.

Adoption of the amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the FAA amends § 39.13 of Part 39 of the FAR as follows:

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and [14 CFR 11.89]; 49 CFR 1.47

2. By adding the following new AD:

Hartzell Propeller Products Division: Applies to all Hartzell Model [illegible]

DATES: Interim Rule: Effective July 26,

must be received on or before July 30,

§ 8a.1 Purpose.

Hartzell Propeller Products Division: Applies to all Hartzell Model ( )HC–( )( )(X,V) series propellers with Hartzell Part Number C–3–( ) blade clamp assemblies.

Compliance is required within the next 12 months or by the next overhaul after the effective date of this AD, whichever occurs first, unless already accomplished.

To prevent propeller blade clamp failure, accomplish the following:

(a) Replace all propeller blade clamp assemblies which have serial numbers ranging from 0 through D5293 with airworthy clamp assemblies.

(b) Replace all propeller blade clamp assemblies which have mismatching serial numbers on each clamp half or which have unreadable serial numbers with airworthy clamp assemblies.

(c) Magnetic particle inspect all blade clamp assemblies which have serial numbers ranging from D5294 through K6336 in accordance with Hartzell Service Instruction No. 159A dated May 13, 1985, or FAA approved equivalent. Replace all defective clamp assemblies with airworthy clamp assemblies.

Note.—Blade clamp assemblies with serial numbers subsequent to K6336 are not affected by this AD.

Aircraft may be ferried in accordance with the provisions of Federal Aviation Regulations 21.197 and 21.199 to a base where the AD can be accomplished.

Upon request, an equivalent means of compliance with the requirements of this AD may be approved by the Manager, Chicago Aircraft Certification Office, FAA, Central Region.

Hartzell Service Instruction No. 159A dated May 13, 1985, is incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received this document from the manufacturer may obtain a copy upon request to Hartzell Propeller Products Division, TRW Aircraft Components Group, 350 Washington Avenue, Piqua, Ohio 45356. This document also may be examined at the Office of Regional Counsel, FAA, Attn: Rules Docket No. 84–ANE–24, 12 New England Executive Park, Burlington, Massachusetts 01803, weekdays, except Federal holidays, between 8:00 a.m. and 4:30 p.m.

This amendment becomes effective on September 27, 1985.

Issued in Burlington, Massachusetts, on July 5, 1985.

Jack A. Sain,

Acting Director, New England Region.

BILLING CODE 4910–13–M

---

14 CFR Part 71

[Airspace Docket No. 85–ANE–06]

Control Zone; Portsmouth, NH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the description of the Portsmouth, New Hampshire Control Zone so as to provide protected airspace for aircraft executing a new Nondirectional Radio Beacon (NDB) Approach to the Littlebrook Airpark, Elliot, Maine.

EFFECTIVE DATE: 0901 G.m.t., October 6, 1985.

FOR FURTHER INFORMATION CONTACT: Stanley E. Matthews, Manager, Operations, Procedures and Airspace Branch, ANE–530, Federal Aviation Administration, Air Traffic Division, 12 New England Executive Park, Burlington, Massachusetts 01803. Telephone (617) 273–7139.

SUPPLEMENTARY INFORMATION:

History

On April 8, 1985, the FAA proposed to amend § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to amend the Portsmouth, New Hampshire Control Zone so as to provide protected airspace for Instrument Flight Rules aircraft executing a new NDB Approach to the Littlebrook Airpark, Elliot, Maine. [50 FR 13819].

Interested parties were invited to participate in this Rulemaking Proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in this Notice. Section 71.171 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6A dated January 2, 1985.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations changes the description of the Portsmouth, New Hampshire Control Zone so as to provide protected airspace for Instrument Flight Rules aircraft executing a new NDB Approach to the Littlebrook Airpark, Elliot, Maine.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under this criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zones.

Adoption of the Amendment

PART 71—[AMENDED]

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration (FAA) proposes to amend Part 71 of the FAR (14 CFR Part 71) as follows:

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) [Revised Pub. L. 97–449, January 12, 1983]; [14 CFR 11.69]; 49 CFR 1.47.

2. By amending § 71.171 as follows:

Portsmouth, New Hampshire Control Zone [Amended]

"within a 5 mile radius of the Littlebrook Airpark, Elliot, ME. (Lat. 43°08'35" N., Long. 70°46'22" W.) and within 2 miles each side of the 152° True (168° Mag.) bearing of the Rollings NDB (Lat. 43°13'12" N., Long. 70°49'43" W.) extending from the 5 mile radius of Littlebrook Airpark to the Rollings NDB."

Issued in Burlington, Massachusetts, on July 15, 1985.

Robert E. Whittington,

Director, New England Region.

[FR Doc. 85–17719 Filed 7–25–85; 8:45 am]

BILLING CODE 4910–13–M

DEPARTMENT OF COMMERCE

Office of the Secretary

15 CFR Part 8a

[Docket No. 50695–5095]

Audit Requirements for State and Local Governments

AGENCY: Department of Commerce.

ACTION: Interim final rule with request for comments.

SUMMARY: The Department of Commerce proposes to implement the requirements for auditing State and local governments as required by the Single Audit Act of 1984, Pub. L. 98–502. This regulation is meant to improve audits of Federal aid programs to State and local governments. The rule establishes audit requirements for State and local governments that receive Federal aid, and defines the Department's responsibilities for implementing and monitoring these requirements.

DATES: Interim Rule: Effective July 26, 1985; comments must be received on or before July 30, 1985.

ADDRESS: Comments may be mailed to Mr. Robert M. McNamara, Room 6018, Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT: Robert M. McNamara, 202–377–5817; W. Dan Haigler, 202–377–0142.

SUPPLEMENTARY INFORMATION: The Department of Commerce proposes to implement the requirements for auditing State and local governments as required by the Single Audit Act of 1984, Pub. L. 98–502. The Act establishes audit requirements for State and local governments that receive Federal aid, and defines Federal responsibilities for implementing and monitoring those requirements.

This is not a major rule within the meaning of Section 1 Executive Order 12291. It will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local Government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Because this rule relates to public property, loans, grants, benefits and contracts, it is exempt from the requirements of notice and opportunity to comment on the 30-day delayed effective date (5 U.S.C. 553(a)(2)). No other law requires that notice and opportunity for comment be given of this rule.

Accordingly, the Department's General Counsel has determined and so certified to the Office of Management and Budget, that dispensing with notice and opportunity for comment is consistent with the Administrative Procedure Act and other relevant laws.

Since notice and opportunity to comment are not required to be given for this rule under Section 553 of the Administrative Procedure Act or any other law, no initial or final Regulatory Flexibility Analysis has to be or will be prepared for purposes of the Regulatory Flexibility Act.

Although this rule is exempt from the 30-day delayed effective date and is being issued in interim form, effective upon publication in the Federal Register, public comments are invited and should be sent to the address listed in the "address" section above. Comments must be received on or before July 30, 1985, to be considered in issuing the final rule. All comments received will be shared with other Federal agencies issuing rules pursuant to the Single Audit Act of 1984.

Relationship to OMB Circular A–128: The proposed rule is identical to the Circular in substantive content. For purposes of clarity consistent with this rulemaking effort, however, terminology has been changed where applicable and the format has been changed slightly.

For instance, the words "rule" and "Department" have been substituted for "Circular" and "Federal agency(ies)," respectively, where appropriate. Substitutions of a similar nature have been made where necessary.

In addition, the attachment to the Circular listing the criteria applicable to major Federal financial assistance programs has been included in the definition section under "Major Federal Assistance Programs."

Paperwork Reduction Act: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 2507), approval for any applicable reporting and recordkeeping requirements of the Single Audit Act of 1984 and OMB Circular A–128 are being sought already by OMB from the Office of Information and Regulatory Affairs.

List of Subjects in 15 CFR Part 8a

Grants program, Grants administration, Loan programs, Intergovernmental relations.

For the reasons set out in the preamble, Part 8a is being added to 15 CFR Subtitle A to read as follows:

PART 8a—AUDIT REQUIREMENTS FOR STATE AND LOCAL GOVERNMENTS

Sec.

8a.1 Purpose.
8a.2 Background.
8a.3 Policy.
8a.4 Definitions.
8a.5 Scope of audit.
8a.6 Frequency of audit.
8a.7 Internal control and compliance reviews.
8a.8 Subrecipients.
8a.9 Relation to other audit requirements.
8a.10 Cognizant agency responsibilities.
8a.11 Illegal acts or irregularities.
8a.12 Audit report.
8a.13 Audit resolution.
8a.14 Audit workpapers and reports.
8a.15 Audit costs.
8a.16 Sanctions.
8a.17 Auditor selection.
8a.18 Small and minority audit firms.

Authority: Single Audit Act of 1984, Pub. L. 98–502, (31 U.S.C. 7501, et seq.); OMB Circular A–128, Audits of State and Local Governments.

§ 8a.1 Purpose.

Pursuant to the Single Audit Act of 1984, Pub. L. 98–502, this part established audit requirements for State and local governments that receive Federal aid, and defines Federal responsibilities for implementing and monitoring those requirements.

§ 8a.2 Background.

The Single Audit Act builds upon earlier efforts to improve audits of Federal aid programs. The Act requires State and local governments that receive $100,000 or more a year in Federal funds to have an audit made for that year.

§ 8a.3 Policy.

The Single Audit Act requires the following:

(a) State or local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made in accordance with this rule.

(b) State or local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with this Part, or in accordance with Federal laws and regulations governing the programs they participate in.

(c) State or local governments that receive less than $25,000 a year shall be exempt from compliance with the Act and Federal audit requirements. These State or local governments shall be governed by aduit requirements prescribed by State or local law or regulation.

(d) Nothing in this paragraph exempts State or local governments from maintaining records of financial assistance or from providing access to such records to Federal agencies, as provided in Federal law or in Circular A–102, "Uniform requirements for grants to State of local governments."

§ 8a.4 Definitions.

For the purpose of this part, the following definitions from the Single Audit Act apply:

(a) "Cognizant agency" means the Federal agency assigned by the Office of Management and Budget to carry out the responsibilities described in paragraph 8a.10 of this rule.

(b) "Federal financial assistance" means assistance provided by the Department in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance, or direct appropriations, but does not include direct Federal cash assistance to individuals. It includes awards received directly from the Department, or directly

through other units of State or local governments.

Total expenditures of Federal financial assistance for all programs	Major Federal assistance

accordance with statutory requirements

(b) *Compliance Review.* The Law also

(iii) The principle compliance

carry out its overall responsibilities, the

VOL 50 ISS 144 JL 26 1985 UMI

through other units of State or local governments.

(c) "Federal agency" has the same meaning as the term 'agency' in Section 551(1) of Title 5, United States Code.

(d) "Generally accepted accounting principles" has the meaning specified in the generally accepted government auditing standards.

(e) "Generally accepted government auditing standards" means the *"Standards For Audit of Government Organizations, Programs, Activities, and Functions*, developed by the Comptroller General, dated February 27, 1981.

(f) "Independent auditor" means:

(1) A State or local government auditor who meets the independence standards specified in generally accepted government auditing standards; or

(2) A public accountant who meets such independence standards.

(g) "Internal controls" means the plan of organization and methods and procedures adopted by management to ensure that:

(1) Resource use is consistent with laws, regulations, and policies;

(2) Resources are safeguarded against waste, loss, and misuse; and

(3) Reliable data are obtained, maintained, and fairly disclosed in reports.

(h) "Indian Tribe" means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation (as defined in, or established under, the Alaskan Native Claims Settlement Act) that is recognized by the United States as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(i) "Local government" means any unit of local government within a State, including a county, a borough, municipality, city, town, township, parish, local public authority, special district, school district, intrastate district, council of government, and any other instrumentality of local government.

(j) "Major Federal Assistance Program," for State or local governments having Federal assistance expenditures between $100,000 and $100,000,000, means any program for which Federal expenditures during the applicable year exceed the larger of $300,000, or 3 percent of such total expenditures.

Where total expenditures of Federal assistance exceed $100,000,000, the following criteria apply:

Total expenditures of Federal financial assistance for all programs		Major Federal assistance program means any program that exceeds
More than	But less than	
$100 million	$1 billion	$3 million.
$1 billion	$2 billion	$4 million.
$2 billion	$3 billion	$7 million.
$3 billion	$4 billion	$10 million.
$4 billion	$5 billion	$13 million.
$5 billion	$6 billion	$16 million.
$6 billion	$7 billion	$19 million.
Over $7 billion		$20 million.

(k) "Public accountants" means those individuals who meet the qualifications standards included in generally accepted government auditing standards for personnel performing government audits.

(l) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any instrumentality thereof, and any multi-State, regional or interstate entity that has governmental functions and any Indian Tribe.

(m) "Subrecipient" means any person or government department, agency, or establishment that receives Federal financial assistance to carry out a program through a State or local government, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a direct recipient of Federal financial assistance.

§ 8a.5 Scope of audit.

The Single Audit Act provides that:

(a) The audit shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial and compliance audits.

(b) The audit shall cover the entire operations of a State or local government or, at the option of that government, it may cover departments, agencies or establishments that received, expended, or otherwise administered Federal financial assistance during the year. However, if a State or local government receives $25,000 or more in General Revenue Sharing Funds in a fiscal year, it shall have an audit of its entire operations. A series of audits of individual departments, agencies, and establishments for the same fiscal year may be considered a single audit.

(c) Public hospitals and public colleges and universities may be excluded from State and local audits and the requirements of this Part. However, if such entities are excluded, audits of these entities shall be made in accordance with statutory requirements and the provisions of OMB Circular A-110, "Uniform requirements for grants to universities, hospitals, and other nonprofit organizations."

(d) The auditor shall determine whether:

(1) The financial statements of the government, department, agency or establishment present fairly its financial position and the results of its financial operations in accordance with generally accepted accounting principles;

(2) The organization has internal accounting and other control systems to provide reasonable assurance that it is managing Federal financial assistance programs in compliance with applicable laws and regulations; and

(3) The organization has complied with laws and regulations that may have material effect on its financial statements and on each major Federal assistance program.

§ 8a.6 Frequency of audit.

Audits shall be made annually unless the State or local government has, by January 1, 1987, a constitutional or statutory requirement for less frequent audits. For those governments, the cognizant agency shall permit biennial audits, covering both years, if the government so requests. It shall also honor requests for biennial audits by governments that have an administrative policy calling for audits less frequent than annual, but only for fiscal years beginning before January 1, 1987.

§ 8a.7 Internal control and compliance reviews.

The Single Audit Act requires that the independent auditor determine and report on whether the organization has internal control systems to provide reasonable assurance that it is managing Federal assistance programs in compliance with applicable laws and regulations.

(a) *Internal Control Review.* In order to provide this assurance, the auditor must make a study and evaluation of internal control systems used in administering Federal assistance programs. The study and evaluation must be made whether or not the auditor intends to place reliance on such systems. As part of this review, the auditor shall:

(1) Test whether these internal control systems are functioning in accordance with prescribed procedures.

(2) Examine the recipient's system for monitoring subrecipients and obtaining and acting on subrecipient audit reports.

(b) *Compliance Review.* The Law also requires the auditor to determine whether the organization has complied with laws and regulations that may have a material effect on each major Federal assistance program.

(1) In order to determine which major programs are to be tested for compliance, State and local governments shall identify in their accounts all Federal funds received and expended and the programs under which they were received. This shall include funds received directly from Federal agencies and through other State and local governments.

(2) The review must include the selection and testing of a representative number of charges from each major Federal assistance program. The selection and testing of transactions shall be based on the auditor's professional judgment considering such factors as the amount of expenditures for the program and the individual awards; the newness of the program or changes in its conditions; prior experience with the program, particularly as revealed in audits and other evaluations (e.g., inspections, program reviews); the extent to which the program is carried out through subrecipients; the extent to which the program contracts for goods or services; the level to which the program is already subject to program reviews or other forms of independent oversight; the adequacy of the controls for ensuring compliance; the expectation of adherence or lack of adherence to the applicable laws and regulations; and the potential impact of adverse findings.

(i) In making the test of transactions, the auditor shall determine whether:

(A) the amounts reported as expenditures were for allowable services, and

(B) the records show that those who received services or benefits were eligible to receive them.

(ii) In addition to transaction testing, the auditor shall determine whether:

(A) matching requirements, levels of effort and earmarking limitations were met,

(B) Federal financial reports and claims for advances and reimbursements contain information that is supported by the books and records from which the basic financial statements have been prepared, and

(C) amounts claimed or used for matching were determined in accordance with OMB Circular A-87, "Cost principles for State and local governments," and Attachment F of OMB Circular A-102, "Uniform requirements for grants to State or local governments."

(iii) The principle compliance requirements of the largest Federal aid programs may be ascertained by referring to the *Compliance Supplement for Single Audits of State and Local Governments*, issued by OMB and available from the Government Printing Office. For those programs not covered in the Compliance Supplement, the auditor may ascertain compliance requirements by researching the statutes, regulations, and agreements governing individual programs.

(3) Transactions related to other Federal assistance programs that are selected in connection with examinations of financial statements and evaluations of internal controls shall be tested for compliance with Federal laws and regulations that apply to such transactions.

§ 8a.8 Subrecipients.

State or local governments that receive Federal financial assistance and provide $25,000 or more of it in a fiscal year to a subrecipient shall:

(a) Determine whether State or local subrecipients have met the audit requirements of this part and whether subrecipients covered by Circular A-110, "Uniform requirements for grants to universities, hospitals, and other nonprofit organizations," have met that requirement;

(b) Determine whether the subrecipient spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subrecipient made in accordance with this Part, OMB Circular A-110, or through other means (e.g., program reviews) if the subrecipient has not yet had such an audit;

(c) Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instances of noncompliance with Federal laws and regulations;

(d) Consider whether subrecipient audits necessitate adjustment of the recipient's own records; and

(e) Require each subrecipient to permit independent auditors to have access to the records and financial statement as necessary to comply with this part.

§ 8a.9 Relation to other audit requirements.

The Single Audit Act provides that an audit made in accordance with this Part shall be in lieu of any financial or financial compliance audit required under individual Federal assistance programs. To the extent that a single audit provides the Department with information and assurance it needs to carry out its overall responsibilities, the Department shall rely upon and use such information. However, the Department shall make any additional audits which are necessary to carry out its responsibilities under Federal law and regulations. Any additional Federal audit effort shall be planned and carried out in such a way as to avoid duplication.

(a) The provisions of this part do not limit the authority of the Department to make, or contract for audits and evaluations of Federal financial assistance programs, nor does it limit the authority of the Inspector General or other Federal audit officials.

(b) The provisions of this Part do not authorize any State or local government or subrecipient thereof to constrain the Department, in any manner, from carrying out additional audits.

(c) The Department, when making or contracting for audits in addition to the audits made by recipients pursuant to this Part shall, consistent with other applicable laws and regulations, arrange for funding the cost of such additional audits. Such additional audits include economy and efficiency audits, program results audits, and program evaluations.

§ 8a.10 Cognizant agency responsibilities.

The Single Audit Act provides for cognizant Federal agencies to oversee the implementation of this part.

(a) The Office of Management and Budget will assign cognizant agencies for States and their subdivisions and larger local governments and their subdivisions. Other Federal agencies may participate with an assigned cognizant agency in order to fulfill the cognizant responsibilities. Smaller governments not assigned a cognizant agency will be under the general oversight of the Federal agency that provides them the most funds whether directly or indirectly.

(b) A cognizant agency shall have the following responsibilities:

(1) Ensure that audits are made and reports are received in a timely manner and in accordance with the requirements of this rule.

(2) Provide technical advice and liaison to State and local governments and independent auditors.

(3) Obtain or make quality control reviews of selected audits made by non-Federal audit organizations and provide the results, when appropriate, to other interested organizations.

(4) Promptly inform other affected Federal agencies and appropriate Federal law enforcement officials of any reported illegal acts or irregularities. They should also inform State or local

law enforcement and prosecuting

systems must identify the organization's

(g) Recipients of more than $100,000 in

VOL 50 ISS 144 JL 26 1985 UMI

law enforcement and prosecuting authorities, if not advised by the recipient, of any violation of law within their jurisdiction.

(5) Advise the recipient of audits that have been found not to have met the requirements set forth in this Part. In such instances, the recipient will be expected to work with the auditor to take corrective action. If corrective action is not taken, the cognizant agency shall notify the recipient and Federal awarding agencies of the facts and make recommendations for followup action. Major inadequacies of repetitive substandard performance of independent auditors shall be referred to appropriate professional bodies for disciplinary action.

(6) Coordinate, to the extent practicable, audits made by or for Federal agencies that are in addition to the audits made pursuant to this rule, so that the additional audits build upon such audits.

(7) Oversee the resolution of audit findings that affect the programs of more than one agency.

§ 8a.11 Illegal acts or irregularities.

If the auditor becomes aware of illegal acts or other irregularities, prompt notice shall be given to recipient management officials above the level of involvement. (See also § 8a.12(a)(3) for the auditor's reporting responsibilities.) The recipient, in turn, shall promptly notify the cognizant agency of the illegal acts or irregularities and of proposed and actual actions, if any. Illegal acts and irregularities include such matters as conflicts of interest, falsification of records or reports, and misappropriations of funds or other assets.

§ 8a.12 Audit reports.

Audit reports must be prepared at the completion of the audit. Reports serve many needs of State and local governments as well as meeting the requirements of the Single Audit Act.

(a) The audit report shall state that the audit was made in accordance with the provisions of this Part. The reports shall be made up of at least:

(1) The auditor's report on financial statements and on a schedule of Federal assistance; the financial statements; and a schedule of Federal assistance, showing the total expenditures for each Federal assistance program as identified in the *Catalog of Federal Domestic Assistance*. Federal programs or grants that have not been assigned a catalog number shall be identified under the caption "other Federal assistance."

(2) The auditor's report on the study and evaluation of internal control systems must identify the organization's significant internal accounting controls, and those controls designed to provide reasonable assurance that Federal programs are being managed in compliance with laws and regulations. It must also identify the controls that were evaluated, the controls that were not evaluated, and the material weakness identified as a result of the evaluation.

(3) The auditor's report on compliance containing:

(i) A statement of positive assurance with respect to those items tested for compliance, including compliance with law and regulations pertaining to financial reports and claims for advances and reimbursements;

(ii) Negative assurance on those items not tested;

(iii) A summary of all instances of noncompliance; and

(iv) An indentification of total amounts questioned, if any, for each Federal assistance award, as a result of noncompliance.

(b) The three parts of the audit report may be bound into a single report, or presented at the same time as separate documents.

(c) All fraud abuse, or illegal acts or indications of such acts, including all questioned costs found as the result of these acts that auditors become aware of, should normally be covered in a separate written report submitted in accordance with § 8a.12(f).

(d) In addition to the audit report, the recipient shall provide comments on the findings and recommendations in the report, including a plan for corrective action taken or planned and comments on the status of corrective action taken on prior findings. If corrective action is not necessary, a statement describing the reason it is not should accompany the audit report.

(e) The reports shall be made available by the State or local government for public inspection within 30 days after the completion of the audit.

(f) In accordance with generally accepted government audit standards, report shall be submitted by the auditor to the organization audited and to those requiring or arranging for the audit. In addition, the recipient shall submit copies of the reports to each Federal department or agency that provided Federal assistance funds to the recipient. Subrecipients shall submit copies to recipients that provided them Federal assistance funds. The reports shall be sent within 30 days after the end of the audit period unless a longer period is agreed to with the cognizant agency.

(g) Recipients of more than $100,000 in Federal funds shall submit one copy of the audit report within 30 days after issuance to a central clearinghouse to be designated by the Office of Management and Budget. The clearinghouse will keep completed audits on file and followup with State or local governments that have not submitted required audit reports.

(h) Recipients shall keep audit reports on file for three years from the date of their issuance.

§ 8a.13 Audit resolution.

(a) As provided in § 8a.10, the cognizant agency shall be responsible for monitoring the resolution of audit findings that affect the programs of more than one Federal agency. Resolution of findings that relate to the programs of a single Federal agency will be the responsibility of the recipient and that agency. Alternate arrangements may be made on a case-by-case basis by agreement among the agencies concerned.

(b) Resolution shall be made within six months after receipt of the report by Federal departments and agencies. Corrective action should proceed as rapidly as possible.

§ 8a.14 Audit workpapers and reports.

Workpapers and reports shall be retained for a minimum of three years from the date of the audit report, unless the auditor is notified in writing by the cognizant agency to extend the retention period. Audit workpapers shall be made available upon request to the cognizant agency or its designee or the General Accounting Office, at the completion of the audit.

§ 8a.15 Audit costs.

The cost of audits made in accordance with the provisions of this Part are allowable charges to Federal assistance programs.

(a) The charges may be considered a direct cost of an allocated indirect cost, determined in accordance with the provisions of OMB Circular A-87, "Cost Principles for State and local governments."

(b) Generally, the percentage of costs charged to Federal assistance programs for a single audit shall not exceed the percentage that Federal funds expended represent of total funds expended by the recipient during the fiscal year. The percentage may be exceeded, however, if appropriate documentation demonstrates higher actual cost.

§ 8a.16 Sanctions.

The Single Audit Act provides that no cost may be charged to Federal assistance programs for audits required by the Act that are not made in accordance with this part. In cases of continued inability or unwillingness to have a proper audit, Federal agencies must consider other appropriate sanctions including:

(a) Withholding a percentage of assistance payments until the audit is completed satisfactorily,

(b) Withholding or disallowing overhead costs, and

(c) Suspending the Federal assistance agreement until the audit is made.

§ 8a.17 Auditor selection.

In arranging for audit services State and local governments shall follow the procurement standards prescribed by Attachment O of OMB Circular A-102, "Uniform requirements for grants to State and local governments." The standards provide that while recipients are encouraged to enter into intergovernmental agreements for audit and other services, analysis should be made to determine whether it would be more economical to purchase the services from private firms. In instances where use of such intergovernmental agreements are required by State statutes (e.g., audit services) these statutes will take precedence.

§ 8a.18 Small and minority audit firms.

Small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals shall have the maximum practicable opportunity to participate in contracts awarded to fulfill the requirements of this Part. Recipients of Federal assistance shall take the following steps to further this goal:

(a) Assure that small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals are used to the fullest extent practicable.

(b) Make information on forthcoming opportunities available and arrange timeframes for the audit so as to encourage and facilitate participation by small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals.

(c) Consider in the contract process whether firms competing for larger audits intend to subcontract with small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals.

(d) Encourage contracting with small audit firms or audit firms owned and controlled by socially and economically disadvantaged individuals which have traditionally audited government programs and, in such cases where this is not possible, assure that these firms are given consideration for audit subcontracting opportunities.

(e) Encourage contracting with consortiums of small audit firms as described in paragraph (a) of this section when a contract is too large for an individual small audit firm or audit firm owned and controlled by socially and economically disadvantaged individuals.

(f) Use the services and assistance, as appropriate, of such organizations as the Small Business Administration in the solicitation and utilization of small audit firms or audit firms owned and controlled by socially and economically disadvantaged individuals.

Dated: July 19, 1985.

Sonya Stewart,

Director, Office of Finance and Federal Assistance.

Waiver Authority

CFR Correction

In Title 24 of the Code of Federal Regulations, Parts 700 to 1699, revised as of April 1, 1985, Part 899 was inadvertently omitted. The omitted text, as it should have appeared, is set forth below.

PART 899—WAIVER AUTHORITY

§ 899.101 Waivers.

(a) *Basic Provision.* Upon determination of good cause, the Secretary of Housing and Urban Development may, subject to statutory limitations, waive any provision of this chapter. Each such waiver shall be in writing and shall be supported by documentation of the pertinent facts and grounds.

(b) *Reservation of authority by the Secretary.* The authority under subsection A is reserved to the Secretary and no delegation of this waiver authority shall be effective unless executed subsequent to the June publication date.

(Sec. 201(b), Housing and Community Development Act of 1974 (42 U.S.C. 1437); sec. 7(d) Department of Housing and Urban Development Act (42 U.S.C. 3535(d)))

50 CFR Part 20

Migratory Bird Hunting; Final Frameworks for Selecting Open Season Dates for Hunting Migratory Game Birds in Alaska, Puerto Rico and the Virgin Islands for the 1985–86 Season

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This rule prescribes final frameworks (i.e. the outside limits for dates and times when shooting may begin and end, and the number of birds that may be taken and possessed) from which wildlife conservation agency officials in Alaska, Puerto Rico and the Virgin Islands may select season dates for hunting certain migratory birds during the 1985–86 season. Selected season dates will then be transmitted to the U.S. Fish and Wildlife Service (hereinafter the Service) for publication in the **Federal Register** as amendments to §§ 20.101 and 20.102 of 50 CFR Part 20.

DATES: Effective on July 26, 1985. Season selections due from Alaska, Puerto Rico and the Virgin Islands by July 26, 1985.

ADDRESS: Season selections from Alaska, Puerto Rico and the Virgin Islands are to be mailed to: Director (FWS/MBMO), Rm 3252 U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. Public documents may be inspected in the Service's Office of Migratory Bird Management, Room 536, Matomic Building, 1717 H Street NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Rollin D. Sparrowe, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. (202 254–3207).

SUPPLEMENTARY INFORMATION: On March 14, 1985, the Service published for public comment in the **Federal Register** (50 FR 10276) a proposal to amend 50 CFR 20, with a comment period ending June 20, 1985. That document dealt with the establishment of seasons, limits and shooting hours for migratory game birds under §§ 20.101 through 20.107 and 20.109 of Subpart K of 50 CFR Part 20, including frameworks for Alaska, Puerto Rico and the Virgin Islands. A supplemental proposed rulemaking appeared in the **Federal Register** on June 4, 1985 (50 FR 23459) and another on July 5, 1985 (50 FR 27638). The July 5 document contained no information relevant to Alaska, Puerto Rico and the Virgin Islands. This final rulemaking is the fourth in a series of proposed and final rulemaking documents for migratory bird hunting regulations and deals specifically with final frameworks for the 1985–86 season from which wildlife conservation agency officials in Alaska, Puerto Rico and the Virgin Islands may select season dates for hunting certain migratory game birds. These regulations contain no information collections subject to Office of Management and Budget review under the Paperwork Reduction Act of 1980.

Public Hearing

A public hearing was held in Washington, D.C., on June 20, 1985, as announced in the **Federal Register** dated March 14, 1985 (50 FR 10276). The public was invited to participate in the hearing and/or submit written statements.

Presentations at Public Hearing

Dr. James C. Bartonek, Pacific Flyway Representative, described measures taken by the Service to restore numbers of five populations of geese that nest in Alaska and have undergone recent declines. Significant restrictions on the sport harvest were initiated in 1984 and additional measures will be required for some populations this season. The Yukon-Kuskokwim Delta Goose Management Plan provides for monitoring, verification, and enforcement of harvest restrictions by subsistence hunters and addresses harvest problems while the birds are on their summering grounds. Preliminary reports on breeding conditions for all five kinds of geese sugggest poor production in Alaska with a possibility of a poor fall flight similar to that of last year.

Comments Received at Public Hearing

Ms. Jennifer Lewis, representing the Humane Society of the United States (HSUS) and the World Society for the Protection of Animals (WSPA), reviewed the concerns expressed last year, in regard to Puerto Rico, about hunting harvest kill of columbids and waterfowl, lack of data on both hunted and nonhunted species, and limited law enforcement efforts to protect resident and migrant species. She commended the Service for taking steps to close the season in 1984 on the Caribbean and American coot (to protect Caribbean coots) and for a meeting held with Puerto Rico Department of Natural Resources (DNR) personnel to review past and current biological studies, hunting problems, and the population status of columbids and waterfowl. Ms. Lewis noted more work is needed in 1985 and future years and stressed the need for: better survey information, long-term breeding biology studies of both hunted and nonhunted species, hunter surveys and banding studies, increased habitat acquisition, and improved law enforecement. She asserted that given the serious lack of data and the low populations of resident species, there is no justification for a split waterfowl season and recommended the Service close the season on columbids and waterfowl to allow time for needed studies and to eliminate further risk of reducing populations. She noted environmental assessments need be prepared on these (resident) species.

Response. In response to Ms. Lewis' recommendation for a closed season on columbids and waterfowl, the Service notes the hunting regulations proposed for Puerto Rico contain restrictive measures including closed seasons on selected species and areas that are closed to hunting to protect certain columbids, waterfowl and the Puerto Rican parrot. There is no information to indicate that any species in Puerto Rico is being adversely affected by the split waterfowl hunting season or dove and pigeon hunting season offered. Population and harvest surveys, breeding studies of certain resident species, and enforcement of hunting regulations are currently used to appraise and direct management programs. The Service is presently working cooperatively with Puerto Rico DNR personnel to further these programs. The "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75–54)" addresses the general question of sport hunting of migratory birds in the United States (including Puerto Rico). In view of the FES, the protection afforded by closed seasons and closed areas and the current management efforts underway, the Service does not agree environmental assessments are needed or required.

Dr. Albert M. Manville, II, representing Defenders of Wildlife, recommended that restrictions be taken in Alaska to further reduce harvest of five goose populations that have been declining. Additionally, he recommended that those geese be protected during their reproductive period from disturbances by man.

Response. Pending information on this year's production of those species of geese that nest in Alaska and that have been declining in numbers, additional restrictive measures are likely to be taken for some, but not all, geese. The Service believes that the recently implemented Yukon-Kuskokwim Delta Goose Management Plan addresses the concerns of Dr. Manville about providing better protection to those geese nesting and summering on the Yukon-Kuskokwim Delta.

Mr. John M. Anderson, representing the National Audubon Society, expressed support for the recently developed Yukon-Kuskokwim Delta Goose Managment Plan.

Written Comments Received

Interested persons were given until June 20, 1985, to comment on the March 14 proposed rulemaking. They were also invited to participate in the June 20 public hearing. Since responding to comments in June 4, 1984, **Federal Register** (50 FR 23459), no additional comments were received on the proposed regulations frameworks for Alaska, Puerto Rico, and the Virgin Islands.

NEPA Consideration

The "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75–54)" was filed with the Council on Environmental Quality on June 6, 1975, and notice of availability was published in the **Federal Register** on June 13, 1975 (40 FR 25241). In addition, several environmental assessments have been prepared on specific matters which serve to supplement the material in the Final Environmental Statement. Copies of the environmental assessments are available from the Service.

Endangered Species Act Consideration

Section 7 of the Endangered Species Act provides that, "The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act." and ". . . by taking such action necessary to insure that any action authorized, funded, or carried out . . . is not likely to jeopardize the continued existence of such endangered and threatened species or result in the destruction or modification of habitat of such species . . . which is determined to be critical."

The Service initiated section 7 consultation under the Endangered Species Act for the proposed hunting season frameworks.

On June 18, 1985, Mr. Conrad A. Fjetland, Acting Chief, Office of Endangered Species, gave a biological opinion that the proposed action is not likely to jeopardize the continued existence of listed species or result in the destruction or adverse modification of their critical habitats.

As in the past, hunting regulations this year are designed, among other things, to remove or alleviate chances of conflict between seasons for migratory game birds and the protection and conservation of endangered and threatened species. Examples of such consideration include closures of designated areas in Puerto Rico for the Plain pigeon (*Columba inornota wetmorei*) and the Puerto Rican parrot (*Amazona vittata*), and in Alaska for the Aleutian Canada goose (*Branta canadensis leucoporeia*).

The Service's biological opinion resulting from its consultation under section 7 is considered a public document and is available for inspection in or available from the Office of Endangered Species and the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Regulatory Flexibility Act and Executive Order 12291

In the **Federal Register** dated March 14, 1985, (at 50 FR 10282) the Service reported measures it had undertaken to comply with requirements of the Regulatory Flexibility Act and the Executive Order. These included preparing a Determination of Effects and an updated Final Regulatory Impact Analysis, and publication of a summary of the latter. These regulations have been determined to be major under Executive Order 12291 and they have significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act. This determination is detailed in the aforementioned documents which are available upon request from the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Memorandum of Law

In the **Federal Register** dated March 14, 1985, (at 50 FR 10282), the Service stated that it planned to publish its Memorandum of Law for the 1985–86 migratory bird hunting regulations with its first final rulemaking.

Memorandum of Law. Section 4 of Executive Order 12291 requires that certain determinations be made before any final major rule may be approved. Section 4(a) specifies that the regulation must be clearly within the authority of law and consistent with congressional intent, and that a memorandum of law be provided to support that determination. Also, the agency must state that the factual conclusions upon which the law is based have substantial support in the agency record and that full attention has been given to public comments in general, and to comments of persons directly affected by the rule in particular.

The development of the annual migratory bird hunting regulations is provided for under section 3 of the Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755; 16 U.S.C. 701–711). Such regulations have been promulgated annually since 1918. They appear in 50 CFR Part 20, Subpart K. Congressional support for the development of these rules and ancillary activities involved in their development are reflected in the U.S. Fish and Wildlife Service's budget. Among these activities are biological surveys, hunter activity and harvest surveys, research investigations, law enforcement, and administrative costs associated with the development and publication of the proposed and final rules. Many other Service activities, such as the acquisition and management of habitats for migratory birds, indirectly assist in maintaining the migratory bird resource at levels which allow reasonable sport hunting harvest.

In developing its annual hunting rules for 1985–86, the Service has published three proposed rules for public comment and conducted one public hearing to facilitate public input into the rulemaking process. Five additional proposed and final rulemakings, and another public hearing, are included in the remaining schedule for establishing the annual hunting regulations for 1985–86. Dozens of public comments summarized and responded to in **Federal Registers** listed in the preamble of this document describe the Service's consideration of the impacts of its proposed rules on the public. Many of these comments originated from affected State conservation agencies, while others were submitted by the affected public. In general, the comments strongly supported the Service's initial or supplementary regulatory proposals. Comments which do not support proposed Service action have been adequately addressed. Additional public comments are invited and will be addressed in subsequent **Federal Register** documents. The complete administrative record, including copies of public comments, is available for inspection at the Office of Migratory Bird Management.

Consequently, the Department has determined that is has fulfilled requirements of section 4 of Executive Order 12291 and the Migratory Bird Treaty Act in developing the 1985–86 migratory bird hunting regulations which are adequately supported by the Service's records.

Regulations Promulgation

Final Regulations Frameworks for Selecting Open Season Dates for

Outside Dates: Puerto Rico may select

endangered species under the

VOL 50 ISS 144 JL 26 1985 UMI

Regulations Promulgation

The rulemaking process for migratory bird hunting must, by its nature, operate under severe time constraints. However, the Service is of the view that every attempt should be made to give the public the greatest possible opportunity to comment on the regulations. Thus, when the proposed rulemaking was published March 14, 1985, the Service established what it believed was the longest period possible for public comment. In doing this, the Service recognized that at the period's close, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the Service is of the opinion that the governments of Alaska, Puerto Rico, and the Virgin Islands would have insufficient time to select their season dates, shooting hours, and limits; to communicate those selections to the Service; and finally establish and publicize the necessary regulations and procedures to implement their decisions.

Therefore, the Service, under authority of the Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755; 16 U.S.C. 701–711), prescribes final frameworks setting forth the species to be hunted, the daily bag and possession limits, the shooting hours, the season lengths, the earliest opening and latest closing season dates, and special closures, from which officials of the Alaska Department of Fish and Game, Puerto Rico Department of Natural Resources, and the Virgin Islands Department of Conservation and Cultural Affairs may select open season dates. Upon receipt of season selections from Alaska, Puerto Rico and Virgin Islands officials, the Service will publish in the **Federal Register** final rulemaking amending 50 CFR 20.101 and 20.102 to reflect seasons, limits, and shooting hours for these areas for the 1985–86 season.

The Service therefore finds that "good cause" exists, within the terms of 5, U.S.C. 553(d)(3) of the Administrative Procedure Act and these frameworks will, therefore, take effect immediately upon publication.

Authorship

The primary author of this final rule is Morton M. Smith, Office of Migratory Bird Management, working under the direction of Rollin D. Sparrowe, Chief.

Exports, Hunting, Imports, Transportation, Wildlife.

Final Regulations Frameworks for Selecting Open Season Dates for Hunting Migratory Birds in Alaska, 1985–1986

Outside Dates: Between September 1, 1985, and January 26, 1986, Alaska may select seasons on waterfowl, snipe and cranes, subject to the following limitations:

Shooting hours: One-half hour before sunrise to sunset daily.

Hunting seasons:

Ducks, geese and brant—107 consecutive days in each of the following: North Zone (State Game Management Units 11–13 and 17–26); Gulf Coast Zone (State Game Management Units 5–7, 9, 14–16, and 10—Unimak Island only); Southeast Zone (State Game Management Units 1–4); Pribilof and Aleutian Islands Zone (State Game Management Unit 10—except Unimak Island); Kodiak Zone (State Game Management Unit 8). The season may be split without penalty in the Kodiak Zone. *Exception:* The season is closed on Canada geese from Unimak Pass westward in the Aleutian Island chain.

Snipe and sandhill cranes—An open season concurrent with the duck season.

Daily Bag and Possession Limits:

Ducks—Except as noted, a basic daily bag limit of 7 and a possession limit of 21 ducks. Daily bag and possession limits in the North Zone are 10 and 30, and in the Gulf Coast Zone they are 8 and 24, respectively. In addition to the basic limit, there is a daily bag limit of 15 and a possession limit of 30 scoter, eider, oldsquaw, harlequin, and American and red-breasted mergansers, singly or in the aggregate of these species.

Geese—A basic daily bag limit of 6 and a possession limit of 12, of which not more than 4 daily and 8 in possession may be greater white-fronted or Canada geese, singly or in the aggregate of these species. In addition to the basic limit, there is a daily bag limit of 4 and a possession limit of 8 Emperor geese.

Brant—A daily bag limit of 4 and a possession limit of 8.

Common snipe—A daily bag limit of 8 and a possession limit of 16.

Sandhill cranes—A daily bag limit of 3 and a possession limit of 6.

Final Regulations Frameworks for Selecting Open Season Dates for Hunting Migratory Birds in Puerto Rico, 1985–86

Shooting hours: Between one-half hour before sunrise and sunset daily.

Doves and Pigeons:

Outside Dates: Puerto Rico may select hunting seasons between September 1, 1985, and January 15, 1986, as follows:

Hunting Seasons: Not more than 60 days for Zenaida, mourning, and white-winged doves, and scaly-naped pigeons.

Daily Bag and Possession Limits: Not to exceed 10 doves of the species named herein, singly or in the aggregate, and not to exceed 5 scaly-naped pigeons.

Closed Areas:

Municipality of Culebra and Desecheo Island—closed under Commonwealth regulations.

Mona Island—closed in order to protect the reduced population of white-crowned pigeon (*Columba leucocephala*), known locally as "Paloma cabeciblanca."

El Verde Closure Area—consisting of those areas of the municipalities of Rio Grande and Loiza delineated as follows: (1) All lands between Routes 956 on the west and 186 on the east, from Route 3 on the north to the juncture of Routes 956 and 186 (Km 13.2) in the south; (2) all lands between Routes 186 and 966 from the juncture of 186 and 966 on the north, to the Caribbean National Forest Boundary on the south; (3) all lands lying west of Route 186 for one kilometer from the juncture of Routes 186 and 956 south to Km 6 on Route 186; (4) all lands within Km 14 and Km 6 on the west and the Caribbean National Forest Boundary on the east; and (5) all lands within the Caribbean National Forest Boundary whether private or public. The purpose of this closure is to afford protection to the Puerto Rican parrot (*Amazona vittata*) presently listed as an endangered species under the Endangered Species Act of 1973.

Cidra Municipality and Adjacent Areas consisting of all of Cidra Municipality and portions of Aguas Buenas, Caguas, Cayey, and Comerio Municipalities as encompassed within the following boundary: beginning on Highway 172 as it leaves the Municipality of Cidra on the west edge, north to Highway 156, east on Highway 156 to Highway 1, south on Highway 1 to Highway 765, sougth on Highway 765 to Highway 763, south on Highway 763 to the Rio Guavate, west along Rio Guavate to Highway 1, southwest on Highway 1 to Highway 14, west on Highway 14 to Highway 729, north on Highway 729 to Cidra Municipality, and westerly, northerly, and easterly along the Cidra Municipality boundary to the point of beginning. The purpose of this closure is to protect the Plain pigeon (*Columba inornata wetmorei*), locally known as "Paloma Sabanera," which is present in the above locale in small numbers and is presently listed as an endangered species under the Endangered Species Act of 1973.

Common Ground dove (*Columbina passerina*)—stone dove, tobacco dove, rola, tortolita (protected).

Scaly-naped pigeon (*Columba squamosa*)—red-necked pigeon, scaled pigeon.

Ducks

Outside Dates: Between December 1, 1985, and January 31, 1986, the Virgin Islands may select a duck hunting season as follows.

Hunting Seasons: Not more than 55 consecutive days may be selected for hunting ducks.

Daily Bag and Possession Limits: Not to exceed 4 daily and 8 in possession, except that the season is closed on the ruddy duck (*Oxyura jamaicensis*); the White-cheeked pintail (*Anas bahamensis*); West Indian whistling (tree) duck (*Dendrocygna arborea*); fulvous whistling (tree) duck (*Dendrocygna bicolor*), and the masked duck (*Oxyura dominica*), which are protected by the Commonwealth of Puerto Rico.

Common moorhens—Not to exceed 6 daily and 12 in possession; the season is closed on purple gallinules (*Porphyrula martinica*).

Common snipe—Not to exceed 6 daily and 12 in possession.

Coots—There is no open season on coots, i.e. common coots (*Fulica americana*) and Caribbean coots (*Fulica caribaea*).

Closed Areas: No open season for ducks, common moorhens, and common snipe is prescribed in the Municipality of Culebra and on Desecheo Island.

Final Regulations Frameworks for Selecting Open Season Dates for Hunting Migratory Birds in the Virgin Islands, 1985–86

Shooting Hours: Between one-half hour before sunrise and sunset daily.

Doves and Pigeons

Outside Dates: The Virgin Islands may select hunting seasons between September 1, 1985, and January 15, 1986, as follows.

Hunting Seasons: Not more than 60 days for Zenaida doves and scaly-naped pigeons throughout the Virgin Islands.

Daily Bag and Possession Limits: Not to exceed 10 Zenaida doves and 5 scaly-naped pigeons.

Closed Seasons: No open season is prescribed for ground or quail doves, or other pigeons in the Virgin Islands.

Local Names for Certain Birds

Zenaida dove (*Zenaida aurita*)—mountain dove.

Bridled quail dove (*Geotrygon mystacea*)—Barbary dove, partridge (protected).

Dated: July 12, 1985.

Susan Recce,

Acting Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310–55–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 674

[Docket No. 50694–5094]

High Seas Salmon Fishery Off Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure.

SUMMARY: The Secretary of Commerce (Secretary) closes the commercial salmon fishing season in the fishery conservation zone (FCZ) off Southeast Alaska for chinook salmon and prohibits commercial fishing for all salmon in a small area of the FCZ. This action is necessary to conserve the chinook salmon stocks that contribute to the Alaska, British Columbia, Washington, Oregon, and Idaho salmon fisheries. The intent of this action is to ensure that the harvest of chinook salmon does not exceed the limit imposed by the Pacific Salmon Treaty. This action complements similar actions on the commercial troll fishery in waters managed by the State of Alaska.

DATES: This notice is effective at 0001 hours Alaska Daylight time (ADT), July 23, 1985, and will expire at 2400 hours ADT, September 20, 1985. Public comments are invited until August 23, 1985.

ADDRESSES: Send comments to Robert W. McVey, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, AK 99802. During the 30-day public comment period, the data upon which this notice is based will be available for public inspection from 0800 to 1630 hours ADT Monday through Friday at the NMFS Regional Office, Room 453, Federal Building, 709 West Ninth Street, Juneau, Alaska.

FOR FURTHER INFORMATION CONTACT: Aven M. Andersen (Fishery Management Biologist, NMFS), 907–586–7229.

SUPPLEMENTARY INFORMATION: This notice implements a provision of the regulations implementing the Pacific Salmon Treaty and the Fishery Management Plan for the High Seas Salmon Fishery (FMP). The FMP was developed and amended by the North Pacific Fishery Management Council. The regulations (50 CFR Part 674) govern the salmon fisheries in the FCZ off the coast of Alaska east of 175° east longitude. They were issued under section 7(a) of Pub. L. 99–5, the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3631 *et seq.*), and section 305 of the Magnuson Fishery Conservation and Management Act, as amended (16 U.S.C. 1801 et seq.).

Chapter 3 of Annex IV of the Pacific Salmon Treaty limited the 1985 harvest by all fisheries in southeast Alaska to 283,000 chinook salmon. On June 18, 1985, NMFS issued a final rule to announce that limit and set fishing periods for the 1985 commercial troll fishery in the FCZ (50 FR 25247).

Section 674.23 of the regulations provides that the Secretary may modify the fishing periods and areas by publishing a notice in the **Federal Register**. Any such modification must be based on a determination by the Director of the Alaska Region of NMFS (Regional Director) that (a) the condition of the salmon species is "substantially different from the condition anticipated in the FMP" and (b) this difference requires a modification of the fishing times and areas to adequately conserve that salmon species. The regulations also specify the factors the Regional Director may consider. The regulations also specify that the Secretary must consult with the Alaska Department of Fish and Game before he makes his modifications.

In view of these requirements, the Regional Director (acting on behalf of the Secretary) has consulted with the

Proposed Rules

VOL 50 ISS 144 JL 26 1985 UMI

Alaska Department of Fish and Game (ADF and G). Also, he has reviewed the information on the 1985 salmon fishery to date, has determined that the chinook stocks in 1985 are substantially depressed from the condition anticipated in the FMP, and has determined that this difference in stock condition requires that the commercial troll salmon fishery in the FCZ be stopped from harvesting chinook salmon after midnight on July 22, 1985. Finally, he has determined that to keep the incidental hooking and release of chinook to as low a level as practicable during the fishery for other salmon, it is necessary to close one small area of the FCZ to all commercial salmon fishing.

Counts, estimates, and forecasts of harvested chinook salmon by ADF & G show that the commercial salmon troll fishery will have harvested 111,300 chinook salmon through July 22, 1985; that number includes 23,000 taken in the winter troll fishery (October 1, 1984, to April 15, 1985). In addition, the commercial net fisheries in southeast Alaska are expected to harvest about 20,000 chinook and the sport fisheries, about 22,000. Combined, these predictions total 241,300 chinook, or 21,700 less than the limit of 263,000 imposed by the Pacific Salmon Treaty. After the actual harvests have been tabulated, if the total falls considerably short of the limit, the troll fishery will be allowed to harvest the remainder before the troll season closes on September 20, 1985.

Because a substantial number of chinook salmon will be caught and released when fishermen harvest the other species of salmon and because a high proportion of the released chinook will die, the Regional Director and ADF & G decided to close certain areas known to have high concentrations of chinook salmon to all commercial salmon fishing. This decision supports a provision of the chinook annex of the Pacific Salmon Treaty (Annex IV, chapter 3, paragraph 1(e)) that both nations shall ensure that they minimize all sources of induced fishing mortality of chinook in 1985.

The entire area of the FCZ is closed to commercial fishing for chinook salmon. In addition, the area known as the Outer Fairweather Grounds is closed to commercial fishing for *all* salmon species. This area is roughly rectangular and is bounded on the northwest by Loran C line 7960–Y–29800, on the southeast by Loran C line 7960–Y–29150, on the northeast by Loran C line 7960–X–14560, and on the southwest by Loran C line 7960–X–14400, as shown on NOAA chart #16016. We are using these Loran C lines as boundaries at the request of the fishermen. This closed area is also defined by lines connecting the following points:

58°46.7′ N. lat., 138°54.5′ W. long.
58°15.9′ N. lat., 137°21.5′ W. long.
57°50.0′ N. lat., 138°19.5′ W. long.
58°24.5′ N. lat., 139°48.8′ W. long.; and
58°46.7′ N. lat., 138°54.5′ W. long.

The closures will become effective after this notice has been filed for public inspection with the Office of the Federal Register and has been publicized for 48 hours through procedures of ADF & G as prescribed under § 674.23(b)(2).

Section 674.23(b)(3) requires the Secretary to accept and consider public comments for 30 days after the effective date of notices like this one, which did not provide an opportunity for the public to comment before it became effective. The aggregated data upon which these closure are based are available for public inspection at the address given above. If comments are received, the Secretary will reconsider the necessity of the action and will publish another notice in the **Federal Register** either confirming this notice's continued effect, modifying it, or rescinding it, unless the notice has already expired.

Classification

This action is exempt from the requirements of Administrative Procedure Act, the Regulatory Flexibility Act, and Executive Order 12291 because, as is expressly provided in section 7(a) of Pub. L. 99–5, it involves a foreign affairs function. It contains no requirement for collecting information for purposes of the Paperwork Reduction Act.

In FR Doc. 85–17542 beginning on page 30199 in the issue of Wednesday, July 24, 1985, make the following correction:

On page 30199, third column, in § 51.1859, in the table, under "Inches—Maximum diameter" in the fourth entry, "$32^{1}\!/_{32}$" should read "$3^{1}\!/_{32}$".

BILLING CODE 1505–01–M

Farmers Home Administration

7 CFR Part 1944

Housing Preservation Grant Program

AGENCY: Farmers Home Administration, USDA.

ACTION: Proposed rule.

SUMMARY: The Farmers Home Administration (FmHA) is publishing for public comment proposed regulations for the Housing Preservation Grant (HPG) program authorized by Section 533 of the Housing Act of 1949, as amended by section 522 of Title V of the Housing Urban-Rural Recovery Act of 1983 (Pub. L. 98–181).

The HPG program is intended to provide rehabilitated and repaired homeownership and rental units for low- and very low-income families in rural areas. Grants are to be made to nonprofit and public entities to establish and operate a rehabilitation and repair program The grant funds provided will reduce the construction costs to homeowners or rental unit owners, thereby making units affordable and available to very low- and low-income families. Cost reduction may be achieved by a variety of financial assistance mechanisms, including deferred payment loans, interest reduction on private lending, low interest direct loans, direct grants, etc., based on need of the recipient, cost of repair and rehabilitation, and repayment ability.

This action is needed to implement the HPG program as mandated by Congress for the homeowner aspect of the HPG program. FmHA intends to implement the rental repair and rehabilitation portion of HPG after gaining experience with this initial phase of the program.

DATES: Comments must be received on or before September 24, 1985.

ADDRESSES: Submit written comments in duplicate to: Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6348, 14th and Independence Avenue SW., Washington, D.C. 20250. All written comments will be available for public inspection during regular work hours at the above address. The collection of information requirements contained in this rule have been submitted to OMB for review under §3504(*h*) of the Paperwork Reduction Act of 1980. Submit comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for the Farmers Home Administration, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: John H. Pentecost, Senior Loan Officer, Multi-Family Housing Processing Division, FmHA, USDA, Room 5341 South Agriculture Building, Washington, D.C. 20250; Telephone: (202) 382–8963 (this is not a toll free number).

SUPPLEMENTARY INFORMATION: This proposed action has been reviewed under USDA procedures established in Departmental Regulation 1512–1, which implements Executive Order 12291, and has been determined to be "nonmajor" because there will not be an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This action will not create any significant recordkeeping and reporting burdens or substantially increase costs to the Government and the public. The impact on proposed budget levels is dependent upon funding levels provided by Congress. Congress has provided a total of $20 million for the program through September 30, 1985.

The FmHA programs and projects which are affected by this instruction will be subject to intergovernmental consultation in the manner delineated in FmHA Instruction 1940–J, "Intergovernmental Review of Farmers Home Administration Programs and Activities," (available in any FmHA office).

The Housing Preservation Grant Program does not have a Catalog of Federal Domestic Assistance number at this time. The number will be published in the final rule.

This document has been reviewed in accordance with 7 CFR Part 1940, Subpart G, Environmental Program. It is the determination of FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment and, in accordance with the National Environmental Policy Act of 1969, Pub. L. 91–190, an environmental impact statement is not required.

Dwight O. Calhoun, Acting Associate Administrator, has determined that the proposed action will not have a significant impact on a substantial number of small entities because the relatively narrow scope of the program and the limited amount of current funds available which will restrict the number of applicants eligible to participate in the program. FmHA anticipates funding for FY 1985 to provide resources for less than 100 grantees in the program nationwide.

Alternatives for Implementation

FmHA considers the Housing Preservation Grant (HPG) program to be basically composed of two parts: (1) A single-family homeowner repair and rehabilitation program similar to FmHA Sections 502 and 504 programs in intent, except operated by a public or nonprofit entity; and (2) a multi-family repair and rehabilitation program where the grantee may provide loan or grant assistance to rental unit owners for up to 75 percent of the project's costs. The latter aspect of HPG is similar to the

Rental Rehabilitation program, operated by the Department of Housing and

year compliance period with the rental

end-recipients (i.e. the very low and low

program provides administrative

rehabilitation work, such work shall be

International, Inc.; and supplemented by

VOL 50 ISS 144 JL 26 1985 UMI

Rental Rehabilitation program, operated by the Department of Housing and Urban Development (HUD) as a demonstration program for 2 years and implemented on April 20, 1984.

FmHA has considered three options for implementing the HPG program:

A. Implement a comprehensive homeowner and rental repair program.

B. Implement a homeowner repair program, holding the rental program implementation until FmHA has developed the rehabilitation standards for Section 515, Rural Rental Housing.

C. Implement the homeowner repair program, permitting rental repair on a case-by-case basis.

FmHA has selected option B as the quickest aspect of the program to implement. Program regulations are similar to the mutual self-help and the technical and supervisory assistance programs which are familiar to the Agency's field staff. The rental program will be developed consistent with the Agency's quality and performance criteria for moderate rehabilitation when additional HPG resources become available. Since no tenant subsidies are available through FmHA for the program and HUD's rental rehabilitation program includes tenant subsidies for project feasibility to service low- and very low-income families, FmHA will coordinate with HUD to receive setasides from its voucher program when implementing the rental portion of HPG.

Respondents to the proposed rule are asked to provide FmHA information on the following areas to assist in developing the procedures for rental rehabilitation. The law provides specific requirements on this aspect of the program which control both applicants/grantees and FmHA in its administration. Respondents are encouraged to address the following questions:

1. What demand is there for a federal rental and/or cooperative housing rehabilitation program? What size rental/cooperative properties would best be served by the HPG program? What is the average unit cost for such rehabilitation?

2. Section 533(b)(4) speaks of "comparable assistance . . . designed to reduce the costs of such repair and rehabilitation." FmHA does not interpret this provision to include tenant subsidies along the line of HUD's Section 8 of FmHA's rental assistance program. What "comparable assistance" for rental projects is appropriate which will make rental costs affordable for very low- and low-income persons?

3. Section 533(e)(1)(A) requires an owner of rental or cooperative housing to enter into an agreement to assure a 5-year compliance period with the rental provisions of the law. FmHA proposes to use a certification or delegation of responsibility to the grantee to accomplish this. Respondents are asked to comment on this requirement and provide FmHA with samples of certification or delegations that might be used for this purpose. Are there other alternatives available?

4. The provisions of section 533(e)(1)(B)(i) appears to permit refinancing of rental property. FmHA intends not to permit refinancing or restructing of debt on rental properties unless the property is in need of substantial rehabilitation. With the limited funding available, is this a feasible approach or is it too limiting for potential rental property owners striving to keep rental units available for low- and very-low income persons?

5. HUD's approach to rental rehabilitation provides for a tenant subsidy through Section 8 or housing vouchers as well as lower debt service with a construction subsidy. FmHA's HPG program links with HUD for voucher payments under section 533(a) only for displacees. What non-federal tenant subsidies are available to potential grantees to maintain unit affordability for very-low and low income persons?

Need for Government Action and FmHA's Objectives

FmHA is implementing the HPG program at this time pursuant to the recently passed legislation and because funds have been appropriated in the amount of $20 million for use through September 30, 1985. The HPG program provides an opportunity to expand the rate of upgrading rural housing conditions by using local public agencies and private nonprofit organizations to run rehabilitation programs. Instead of FmHA administering such a program for individual very low and low-income families, the HPG grantee is primarily responsible for the selection, funding and inspection process. The HPG program has been designed to have sufficient flexibility to adapt to local conditions and rehabilitation needs, without sacrificing overall quality of the end product: the decent and affordable home for a person or family with limited resources.

The Agency's objective in implementing the HPG program is to establish a grant making process that results in the selection of grantees most capable of assisting very-low and low-income families rehabilitate and repair their homes. The proposed rule establishes the framework of eligible end-recipients (i.e. the very low and low income homeowners), permitted rehabilitation and administration activities, and the process for selection. The rule also outlines the process for allocation of funds, transfer of funds to grantees and monitoring of fund use and grantee activities. The proposed grant agreement is also published.

FmHA desires public comment on the proposed rule and requests respondents to address these additional questions:

1. What is the minimum level of HPG funds necessary to initiate and operate a feasible HPG Homeowner program for one year? For two years?

2. What is a reasonable time table for applicant submission, including HPG program development and public comment, and if selected, what start-up time is needed?

Responses to these questions will assist FmHA in fund allocation and in preparing FmHA field staff to administer the program.

Background Information

Section 522 of the Housing Urban-Rural Recovery Act of 1983 (Pub. L. 98-181) amended the Housing Act of 1949 by adding section 533, Housing Preservation Grants. Reviewers of the proposed rule are encouraged to read the law as they prepare comments on the rule since the law is detailed and prescriptive. FmHA has developed the HPG regulations in accordance with the provisions of the law, providing supplementary guidance where necessary. The Agency's intent is to initiate a straight-forward repair and rehabilitation program for homeowners, moving with the more complex area of rental rehabilitation at a later time. The Agency expects applicants to present feasible approaches to homeowner rehabilitation, and has left sufficient flexibility for applicants to adapt HPG to meet the needs of their communities, credit availability and leveraging potential. Critical sections of the proposed rule are discussed in the following sections:

General Policies

As stated in the law, the purpose of the program is to provide assistance to very-low and low-income families for repair and rehabilitation of their living units. This is to be done through a third party, or grantee, which will administer the HPG program. The grantee must set up a local financial assistance program for homeowners to meet the costs of repair and rehabilitation work and a process to assure that such work is properly performed and then to report accomplishments to FmHA. The program provides administrative resources up to 20 percent of the total grant to defray the direct and indirect costs associated with the grantee's operation of the HPG program.

The policies also reflect FmHA intention to encourage leveraging of other resources to complement limited HPG funds and to use the program in more rural areas. FmHA will select cost effective approaches to the HPG program and provides as much latitude as possible for grantees in designing their program with the intent of serving the most number of very-low and low-income families.

Definitions

"Adequate housing." Section 533(b)(6) provides that HPG funds be used to "raise health and safety conditions to meet those specified in section 509(a)." The same law that created HPG amended section 509(a) to require the agency to accept locally adopted voluntary national building codes as well as minimum property standards (MPS). Accordingly, HPG assisted units must meet a rigorous rehabilitation standard by having all repair work brought up to local codes and meet FmHA thermal standards. FmHA is currently revising its regulation on MPS and codes to comply with the provisions of section 509(a); those revisions should be in effect to coincide with the publication of the final HPG regulations.

"Applicant or grantee" and "organization." Section 533(a) provides that eligible grantees include "private nonprofit organizations, Indian tribes, general units of local government, counties, States, and consortium of other eligible grantees." FmHA has defined each grantee type, including a definition for a "consortium." This term is new to FmHA as is the concept of how such an entity would operate an HPG program. In this regard, FmHA proposes to simplify its relationship with such a group by limiting the Agency's contact to either one designated member of the consortium or an agreed upon third party. The regulation uses the example of a council of governments. FmHA perceives the designated member to function on behalf of the grantee and not as a conduit for HPG resources to each of the other members.

"Housing preservation" this generic term is defined as those repair and rehabilitation activities necessary to remove essential health and safety hazards as well as improve the living environment. It is not intended to be interpreted in the "historic preservation" sense of restoration to original, but upgraded, condition. However, if historic properties are selected for rehabilitation work, such work shall be completed in a manner that supports national historic preservation objectives.

Applicant Eligibility and Authorized Representative

FmHA has listed the characteristics and capabilities it requires of applicants and the Agency expects to have the applicant designate a representative for consistent coordination with FmHA. Such representatives must be a member of the entity operating the repair/rehabilitation program and cannot be a contractor or developer who would benefit from the grant award. For example, a nonprofit organization may be an authorized representative for a county government but may not then become a recipient of funds, either directly or indirectly after the grant award.

Homeowner Eligibility

FmHA has provided the broadest possible interpretation of "homeowner" in order to encompass a variety of ownership conditions of potential recipients. As presented, it is the grantee's responsibility to assure and document homeownership as part of its responsibilities in administering the HPG program. Respondents are invited to identify other forms of homeownership that meet the intent of the program.

Repair and Rehabilitation Activities

As discussed above, all repair and rehabilitation activities must meet locally adopted building codes, FmHA Thermal Standards and FmHA Development Standards. Development standards are considered to be any of the following codes and standards:

1. *Standards prescribed by FmHA for each State.*

2. *Voluntary national model building codes* (model codes). Nationally recognized codes which address the health and safety aspects of buildings and related structures. They include:

(A) CABO One and Two family Dwelling Code, published by the Council of American Building Officials; supplemented by the Electrical Code for One and Two Family Dwellings, NFPA 70A, published by the National Fire Protection Association.

(B) BOCA Basic/National Building Code, published by the Building Officials and Code Administrators International, Inc.

(C) Standard Building Code, supplemented by the Standard Mechanical Code and Standard Plumbing Code, all published by the Southern Building Code Congress International, Inc.; and supplemented by the National Electrical Code, published by the National Fire Protection Association.

(D) Uniform Building Code, supplemented by the Uniform Mechanical Code and Uniform Plumbing Code, all published by the National Electrical Code, International Conference of Building Officials; and supplemented by the National Electrical Code, published by the National Fire Protection Association.

3. *Minimum Property Standards (MPS).* The Department of Housing and Urban Development (HUD) Minimum Property Standards (MPS), they include:

(A) MPS for One and Two Family Dwellings, HUD Handbook 4900.1 [24 CFR Part 200, Subpart S, § 200.929(b)(1)].

(B) MPS for Multi-family Housing, HUD Handbook 4910.1 [24 CFR Part 200, Subpart S, § 200.929(b)(2)].

The applicant is reponsible for identifying the development standard it will use and may not mix code standards except for historic properties. As discussed above, FmHA will be publishing as a separate document its implementation of section 509(a) of the Housing Act of 1949, from which this requirement stems.

In addition, all units assisted under HPG must meet FmHA thermal standards in Exhibit D of Subpart A of Part 1924 of this chapter.

The proposed regulations then proceed to list major repair activities that may be undertaken as well as those which may be undertaken if done in conjunction with the major activities. The purpose of identifying both types of activities is to stress that the HPG program is not to be used for solely cosmetic or maintenance types of repair, or, in any event, for refinancing or for construction of a new unit.

Administrative activities:

The law permits administrative expenses by including it as a selection criterion under section 533(d)(3). FmHA proposes to limit administration funds for HPG to not exceeding 20 percent of a grant amount and, with the selection criterion of administrative costs, to encourage grantees to use even less of their HPG funds for administrative purposes. This provision permits applicants to leverage other resources for administrative purposes and thereby enhance their chances for selection.

The Agency recognizes that many rural housing organizations eligible to receive HPG assistance may need administration resources. However, the Agency believes that at least 80 percent of the limited HPG resources must be used directly to benefit very low- and

low-income families. Good grantee program administration is needed and

Other Administrative Requirements

would be available to the State for use

Limitation on Grantee Selection

This section was discussed under

approved, is part of the Grant Agreement.

Therefore, as proposed, Subpart N is added to Part 1944 of Chapter XVIII,

VOL
50
ISS
144
JL
26
1985
UMI

low-income families. Good grantee program administration is needed and FmHA believes that the 20 percent administrative cost ceiling will encourage grantees to use its administrative resources wisely, leading to administrative efficiency without sacrificing quality.

The proposed regulations identify unacceptable activities for use of HPG funds. These are consistent with current Agency policies and OMB circular requirements.

Term of Grant

The proposed rule permits a variable grant period up to two years. This flexibility will allow grantees and FmHA to negotiate a term that is reasonable for the level of grant funds available for the HPG project. FmHA believes a two-year period is best in terms of project administration, paperwork burden, and project development and execution.

However, should demand for the program nationwide exceed available resources, FmHA may have to reduce the term of grants and each project's grant request in order to comply with section 533(c)(2) of the law. This section states: "Unless there is only one eligible grantee in a State, a single grantee may not receive more than 50 per centum of a State's allocation." FmHA interprets this provision in the regulations under § 1944.680. If the agency receives two or more acceptable applications in each state, the one year term may be necessary nationwide. If demand is somewhat limited, the two year term for most grantees should be possible.

Project Income

Project income during the grant period falls under the requirements of OMB circulars A–102 and A–110, and must be used to further the purposes of the HPG program. Income also includes amounts recovered which must be reused for HPG purposes.

Project income after completion of the grant is to be considered miscellaneous income to the grantee and FmHA encourages its use for continuing repair and rehabilitation activities.

Equal Opportunity Requirements

The proposed regulations cross reference to FmHA's equal opportunity requirements in FmHA regulations, Subpart E of Part 1901. These regulations require equal opportunity and affirmative action on the part of the grantee in providing HPG assistance to very low- and low-income families.

Other Administrative Requirements

HPG activities that affect historic properties are required by law and FmHA regulations to be reviewed under a separate process and work performed to different standards. The provisions in the proposed regulations follow Section 533(i), which is prescriptive in approach.

Environmental review processes for HPG are also somewhat unique due to the nature of the program and the grantees flexibility in program operation. Unlike HUD's Community Development Block Grant and Rental Rehabilitation programs, HPG does not include a delegation of environmental process to grantees. Accordingly, FmHA must assure compliance with its environmental policies for all actions under HPG. The HPG proposed regulations provide for a two step process based on the general environmental provisions contained in Subpart G of Part 1940. First, applicants are to provide general environmental information on the area(s) in which they propose to operate the HPG program and include a process for an environmental review of each unit to be assisted as part of their statement of activity in their preapplication. Second, where a specific housing unit falls within the need for an environmental assessment, the grantee will work with FmHA to resolve any environmental issue before funds are used for that housing unit.

Consultation With Local Governents and Public Comment

This section describes the process for public comment and coordination with local governments required by section 533(d)(2) of the law as well as by Executive Order 123772 for state clearinghouse review.

Allocation of HPG funds to States

FmHA will allocate available HPG fund to states as provided by section 533(c)(1) and may hold a reserve in the National Office for additional distribution to states that may not have sufficient resources under the formula allocation to fund feasible projects. FmHA's intent is to provide resources to each state consistent with the allocation process, which distributes funds based on a formula reflecting need, while providing a reasonable level of funds for feasible projects *and* complying with the provision of not funding any one grantee more than 50 percent of the allocation if more than one eligible grantee applies in the State (section 533(c)(2)).

In accordance with the law, after funding decisions are made for HPG, any remaining balance of HPG funds would be available to the State for use under the section 504 program.

Preapplication Procedure

This section contains the process and information required for a submission of a preapplication to FmHA. The preapplication is to contain the basic outline of the applicant's proposal for its HPG program. As such, it is also the primary document for project review and selection by FmHA. The information provided will reflect how the applicant will operate its HPG program and accomplish its HPG objectives. Respondents to this proposed rule are encouraged to review carefully both this section and the section on project selection. FmHA believes that the information requested with the preapplication is necessary for review under the project selection criteria and will lead to selection of the best qualified applicants with the best thought-through HPG proposal.

Preapplication Submission Deadline

FmHA proposes to establish deadlines for submission of preapplications. This will enable FmHA to compare all preapplications submitted in the shortest period of time and to select the best for funding. FmHA also proposes to establish fairly tight review timeframes for FmHA's staff so that funding decisions are made promptly. Obligation of funds for HPG projects must be made early enough so that any remaining funds can be used for the section 504 rural housing rehabilitation program prior to the end of the fiscal year when funds will lapse. For Fiscal Year 1985, FmHA will publish the deadline with publication of the final rule. That deadline will be 30 to 60 days after publication of final rule since all HPG funds now available must be obligated prior to September 30, 1985.

Project Selection

Project selection, as proposed, is a two step process. First, applicants filing a preapplication must be determined eligible and their proposed program in compliance with the HPG regulations. Then, the preapplication are evaluated against the project selection criteria. The selection criteria in the proposed regulations is that prescribed by section 533(d)(3) of the law and includes criteria to compare applicant experience and capacity. As noted, the information submitted with the preapplication will be sufficient to adequately and fairly evaluate the preapplications.

Limitation on Grantee Selection

This section was discussed under fund allocation.

Application Submission

Applicants selected by FmHA through the preapplication process will be promptly notified and requested to submit a formal application. The application submission is the final step in the process for selection of a grantee. If the application is acceptable and meets the requirements set forth in the regulations, the State Director may approve the project and obligate funds for the applicant.

Should the preapplication not be selected, FmHA will provide the reasons for its rejection and the applicant will have an opportunity to appeal FmHA's decision under the appeal procedure set forth in the Agency's regulations in Subpart B of Part 1900.

Grant Approval and Requesting HPG Funds

These sections cover the approval process, what happens if, at this point, a project is disapproved, and how funds are disbursed. As proposed in the regulations, applicants may choose to have grant funds advanced monthly, quarterly or annually for program activities and no less frequently than quarterly for administrative purposes. The applicant is responsible for identifying how it wishes to draw grant funds in its application which will be approved or modified by FmHA in its review and approval process.

Reporting Requirements

Section 533(j) of the law requires FmHA to report to Congress on progress made under the HPG projects funded. FmHA proposes a standard quarterly reporting format for grantees which should provide appropriate information for such a report and enable the Agency to track grantee progress in meeting their program objectives. At this time, the Agency sees a narrative report as being sufficient to meet the requirements. At some point in the future, FmHA may develop a report form for the program that will facilitate computer analysis.

Extending and Revising Grant Agreements

This section outlines the process for extensions and/or revisions to grant agreements and the conditions for a time extension. Revisions to the statement of activities may occur with a change in local conditions that affect the operation of the HPG program. Such changes will be attached to the statement of activities which, when approved, is part of the Grant Agreement.

Additional Grants

FmHA sees a benefit in permitting a successful grantee to continue its operation as long as its program is operating smoothly and meets local demand. FmHA also perceives that a new applicant may serve areas of relatively greater need or have a more efficient delivery and financing concept than an existing grantee seeking refunding. This section addresses this subject and proposes a slight modification to the selection criteria for existing grantees that would not permit monopolization of grant funds.

Grant Evaluation, Closeout, Suspension, and Termination

This section briefly covers topics that are covered more thoroughly in the grant agreement. Of particular interest to FmHA is the final project summary report and project audit. The summary report is important for FmHA's mandated report to Congress and the final audit is critical to both grantee and FmHA: to the grantee as a final clearance of use of funds; to FmHA as a check on the monitoring and progress reports as well as HPG fund accountability.

Exception Authority

FmHA proposes an exception authority which will permit necessary exceptions to programs regulations when and if required and if not in conflict with the law.

Exhibits

Exhibit A is the Grant Agreement. Respondents to the proposed rule are encouraged to review the Agreement as a critical aspect of the regulations. Exhibit B is the extension/revision to the Grant Agreement. Exhibit C details FmHA staff responsibilities and review and approval processes. FmHA does not plan to publish Exhibit C in the final rulemaking. It is administrative in scope and deals with internal management of the program. Material relevant to both FmHA and grantees is contained and/or duplicated in the main body of the regulations. Respondents are asked to review this exhibit as well and advise us as to the benefit or lack thereof for its publication in the **Federal Register** as part of the final regulations.

Subpart N—Housing Preservation Grants

§ 1944.651 General.

(a) This subpart sets forth the policies and procedures for making grants under section 533 of the Housing Act of 1949, 42 U.S.C. 1490(m), to provide funds to

eligible applicants to conduct housing preservation programs benefiting very

§§ 1944.654—1944.655 [Reserved]

§ 1944.656 Definitions.

persons or interests for purposes other than making gains or profits for the

this regulation and the grant agreement, OMB Circular A–102 (Uniform

(2) An undivided or divided interest in the property to be repaired when not all

accepted by FmHA under Subpart A of Part 1924 of this chapter or the

eligible applicants to conduct housing preservation programs benefiting very low- and low-income rural residents. Program funds cover part or all of the cost of providing assistance to rural housing homeowners for loans, grants, interest reduction payments or other assistance that will reduce the cost of repair and rehabilitation. Such assistance will be used by the homeowner to remove or correct health or safety hazards of their home to meet applicable development standards or make needed repairs to improve the general living conditions of the resident(s).

(b) The Farmers Home Administration (FmHA) will provide Housing Preservation Grant (HPG) assistance to applicants responsible for providing assistance to eligible homeowners without discrimination because of race, color, religion, sex, national origin, age, marital status, or physical or mental handicap if such person has capacity to contract.

§ 1944.652 Policy.

(a) The policy of FmHA is to provide housing preservation grants to eligible applicants to operate a program which finances repair and rehabilitation to single family housing for very low- and low-income homeowners. Applicants are expected to:

(1) Coordinate and leverage funding for the repair and rehabilitation of such housing with local housing and community development organizations and/or activities; and

(2) Focus the program to rural areas and smaller communities so it serves very low- and low-income families.

(b) FmHA intends to permit grantees considerable latitude in program design and administration. The forms or types of assistance must provide the greatest long term benefit to the greatest number of persons residing in housing needing repair and rehabilitation.

(c) Repairs and rehabilitation activities affecting properties on or eligible for listing on the National Register of Historic Places will be accomplished in a manner that supports national historic preservation objectives as specified in § 1944.673(b) of this subpart.

§ 1944.653 Objective.

The objective of the HPG program is to upgrade substandard housing owned and occupied by very low- and low-income rural persons. Grantees will provide eligible homeowners with financial assistance through loans, grants, interest reduction payments or other comparable financial assistance for necessary repairs and rehabilitation.

§§ 1944.654—1944.655 [Reserved]

§ 1944.656 Definitions.

References in this subpart to County, District, State, National and Finance Offices and to County Supervisor, District Director, State Director, and Administrator refer to FmHA offices and officials and should be read as prefaced by FmHA. Terms used in this subpart have the following meanings:

(a) *Adequate housing.* A housing unit of size and design which meets the specific needs of low-income families and which meets the standard prescribed under § 1944.664(a) of this subpart.

(b) *Applicant or grantee.* Any eligible organization which applies for or receives HPG funds under a grant agreement.

(c) *Grant agreement.* The contract between FmHA and the applicant which sets forth the terms and conditions under which HPG funds will be made available. (See Exhibit A of this subpart.)

(d) *Very low-income.* An adjusted annual income that does not exceed the very low-income limit according to size of household as established by the Department of Housing and Urban Development (HUD) for the county or Metropolitan Statistical Area (MSA) where the property is located. Maximum very low-income limits are set forth in Exhibit C of Subpart A of Part 1944 of this chapter.

(e) *Low-income.* An adjusted annual income that does not exceed the "lower" income limit according to size of household as established by HUD for the county or MSA where the property is or will be located. Maximum low-income limits are set forth in Exhibit C of Subpart A of Part 1944 of this chapter.

(f) *Adjusted annual income.* As defined under Section 1944.2 (b) of Subpart A of Part 1944 of this chapter.

(g) *Organization.* (1) A State or political subdivision or public nonprofit corporation authorized to receive and administer HPG funds;

(2) An Indian tribe, band, group, nation, including Alaskan Indians, Aleuts, Eskimos and any Alaskan Native Village, of the United States which is considered an eligible recipient under the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638) or under the State and Local Fiscal Assistance Act of 1972 (Pub. L. 92–512);

(3) A private nonprofit corporation which local representation from the area being served that is owned and controlled by private persons or interests and is organized and operated by private persons or interests and is organized and operated by private persons or interests for purposes other than making gains or profits for the corporation, is legally precluded from distributing any gains or profits to its members, and is authorized to undertake housing development activities; or

(4) A consortium of units of general local governments or private nonprofit organizations which is otherwise eligible to receive and administer HPG funds and which meets the following conditions:

(i) Be comprised of units of general local government or private nonprofit corporations that are close together, located in the same state, and serve areas eligible for FmHA housing assistance; and

(ii) Have executed an agreement among its members designating one participating unit of local government or private nonprofit corporation as the applicant or designating a legal entity (such as a Council of Governments) to be the applicant.

(h) *Rural area.* The definition in § 1944.10 of Subpart A of Part 1944 of this chapter applies.

(i) *Housing preservation.* Repairs and rehabilitation activities to remove health and safety hazards or make major repairs needed to improve the general living environment of the occupant. Repairs and rehabilitation activities will meet FmHA Thermal Standards and applicable development standards recognized by FmHA in Subpart A of Part 1924 of this chapter. Properties included on or eligible for inclusion on the National Register of Historic Places are subject to the conditions of 1944.673(b) of this subpart.

(j) *Homeowner.* For the purpose of the HPG program, a homeowner is one who can meet the conditions of ownership under § 1944.661 of this subpart.

§ 1944.657 [Reserved]

§ 1944.658 Applicant eligibility.

To be eligible to receive a grant, the applicant must:

(a) Be an organization as defined in § 1944.656 (f) of this subpart.

(b) Have the necessary background and experience with proven ability to perform responsibly in the field of low-income rural housing development, repair, and rehabilitation, or other business management or administrative experience which indicates an ability to operate a program providing repair and rehabilitation financial assistance;

(c) Legally obligate itself to administer HPG funds, provide an adequate accounting of the expenditure of such funds in compliance with the terms of this regulation and the grant agreement, OMB Circular A–102 (Uniform Requirements for Grants to State and Local Education, Hospitals, and other Nonprofit Organizations, Uniform Administrative Requirements) as appropriate which are available in any FmHA office, and comply with the grant agreement and FmHA regulations; and

(d) If the applicant is engaged in or plans to become engaged in any other activities, provide sufficient evidence and documentation that it has adequate resources, including financial resources, to carry on any other program or activities to which it is committed without jeopardizing the success and effectiveness of its HPG project.

§ 1944.659 [Reserved]

§ 1944.660 Authorized representative of the HPG applicant and FmHA point of contact.

(a) FmHA will deal only with authorized representatives designated by the HPG applicant. If the authorized representative is a third party, the representative must have no pecuniary interest in any of the following as they would relate in any way to the HPG grant: the award of any engineering, architectural, management, administration, or construction contracts; purchase of any furnishings, fixtures or equipment; or purchases and/or development of land.

(b) FmHA has designated the District Office as the point of initial contact for all matters relating to the HPG program and as the office generally responsible for the administration of HPG projects. However, the State Director may, based on total program size or complexity of a particular applicant, elect to process applications and service the program at the State Office or any other FmHA office in the applicant's service area with the capacity to provide the necessary reviews and servicing.

§ 1944.661 Homeowner eligibility for HPG assistance.

The homeowners assisted by HPG must be the owner-occupant, at least one year prior to the time of assistance, of a single family dwelling that is located in a rural area and is in need of repairs and rehabilitation. Each homeowner is required to submit evidence of ownership for retention in the grantee files. This evidence may be a photostatic copy of the instrument evidencing ownership. Grantees may require certification or additional information from the homeowner, or may seek advice from their attorney.

(a) The following will satisfy or fulfill this requirement of ownership:

(1) Full marketable title.

(2) An undivided or divided interest in the property to be repaired when not all of the owners are occupying the property. HPG assistance may be made in such cases when:

(i) The occupant has been living in the house for at least 10 years prior to the date of requesting assistance; and

(ii) The grantee has no reason to believe the occupant's position of owner/occupant will be jeopardized as a result of the improvements to be made with HPG funds; and

(iii) In the case of a loan, the co-owner(s) will also sign the security instrument.

(3) A leasehold interest in the property to be repaired. When the potential HPG recipient's "ownership" interest in the property is based on the leasehold interest, the lease must be in writing and a copy must be included in the grantee's file. The unexpired portion of the lease must not be less than five years and must permit the recipient to make modifications to the structure without increasing the recipient's lease cost.

(4) A life estate, with the right of present possession, control, and beneficial use of the property.

(5) Land assignments may be accepted as evidence of ownership only for Indians living on a reservation, when historically the permits have been used by the Tribe and have had the comparable effects of a life estate.

(b) The following items may be accepted as evidence of ownership if a recorded deed cannot be provided:

(1) Any legal instrument, whether or not recorded, which is commonly considered evidence of ownership.

(2) Evidence that the HPG recipient is listed as the owner of the property by the local taxing authority and that real estate taxes, if any, for the property are paid by the recipient.

(3) Affidavits by others in the community that the recipient has occupied the property as the apparent owner for a period of not less than 10 years, and is generally believed to be the owner.

§§ 1944.662—1944.663 [Reserved]

§ 1944.664 Repair and rehabilitation activities.

(a) Grantees under HPG are responsible for providing loans, grants or comparable assistance to homeowners to remove or correct health or safety hazards or make needed repairs to improve the living environment of the resident(s). HPG repair and rehabilitation activities shall meet FmHA Thermal Standards and applicable development standards accepted by FmHA under Subpart A of Part 1924 of this chapter or the requirements of § 1944.673(b) if the property to be repaired is listed on or eligible for the National Register of Historic Places.

(b) Authorized repair and rehabilitation activities include but are not limited to:

(1) Installation and/or repair of sanitary water and waste disposal systems, together with related plumbing and fixtures, which will meet local health department requirements.

(2) Payment of reasonable connection or other fees for utilities (i.e., water, sewer, electricity or gas).

(3) Energy conservation measures such as:

(i) Insulation; and

(ii) Combination screen-storm windows and doors.

(4) Repair or replacement of the heating system including the installation of alternative systems such as woodburning stoves or space heaters, when appropriate and if local codes permit.

(5) Electrical wiring.

(6) Repair of, or provision for, structural supports.

(7) Repair or replacement of the roof.

(8) Replacement of severely deteriorated siding, porches, or stoops.

(9) Alterations of the unit's interior or exterior to provide greater accessibility for any handicapped family members.

(10) For properties listed on or eligible for the National Register of Historic Places, activities associated with conforming repair and rehabilitation activities to the standards and/or design comments resulting from the consultation process contained in § 1944.673 of this subpart.

(11) Necessary repairs to manufactured homes or mobile homes provided:

(i) The recipient owns the home and the site on which the home is situated and has occupied that home on that site for at least one year prior to receiving HPG assistance; and

(ii) The manufactured home or mobile home is on a permanent foundation or will be put on a permanent foundation with HPG funds. A permanent foundation will be in accordance with the requirements of Exhibit J to Subpart A of Part 1924 of this chapter.

(12) Additions to any dwelling (conventional, manufactured or mobile) only when it is clearly necessary to remove health hazards to the occupants.

(13) Payment of incidental homeowner expenses directly related to accomplishing authorized acitivities such as fees for credit reports, surveys,

title clearance, loan closing, inspections, and architectural or other technical services.

property having a unit value of $1,000 or more, acquired with HPG funds, will be specifically identified to FmHA in

§ 1944.667 [Reserved]

§ 1944.668 Term of grant.

(3) When such a unit requiring an

parish and/or township governments of

undertake a HPG program and to

VOL

title clearance, loan closing, inspections, and architectural or other technical services.

(c) HPG funds may be used to make changes to the dwelling for cosmetic or convenience purposes when such work is not the primary purpose, the percentage of funds to be used for such purposes does not exceed *25* percent of the total funding, and such work is combined with improvements listed as eligible under paragraph (b) of this section. Cosmetic and convenience changes might include, but are not limited to the following:

(1) Painting;
(2) Paneling;
(3) Carpeting;
(4) Improving clothes closets or shelving;
(5) Improving kitchen cabinets;
(6) Air conditioning; or
(7) Landscape plantings.

(d) HPG funds may not be used to:

(1) Assist in the construction of a new dwelling.

(2) Refinance any debt or obligation of the borrower/grantee other than obligations incurred for eligible items covered by this section entered into after date of agreement with HPG grantee.

(3) Repair or rehabilitate any property located in the Coastal Barrier Resources System as designated by the Coastal Barrier Resource Act.

§ 1944.665 Supervision and inspection of rehabilitation and repair work.

Grantees are responsible for supervising all rehabilitation and repair work financed with HPG assistance. All HPG work must be inspected by a disinterested third party, such as local building and code enforcement officials. If there are no such officials serving the area where HPG activities will be undertaken, the grantee may use qualified contract or fee inspectors.

§ 1944.666 Administrative activities and policies.

Grant funds are to be used primarily for housing repair and rehabilitation activities. Use of grant funds for administration is a secondary purpose and must not exceed 20 percent of the HPG funds awarded to the grantee.

(a) Administrative expenses may include:

(1) Payment of resonable salaries or contracts for professional, technical, and clerical staff actively assisting in the delivery of the HPG project.

(2) Payment of necessary and reasonable office expenses such as office rental, supplies, utilities, telephone services, and equipment. (Any item of nonexpendable personal property having a unit value of $1,000 or more, acquired with HPG funds, will be specifically identified to FmHA in writing.

(3) Payment of necessary and reasonable administrative costs such as workers' compensation, liability insurance, and the employer's share of Social Security and health benefits. Payments to private retirement funds are permitted if the grantee already has such a fund established and ongoing.

(4) Payment of reasonable fees for necessary training of grantee personnel.

(5) Payment of necessary and reasonable costs for an audit upon expiration of the grant agreement.

(6) Other reasonable travel and miscellaneous expenses necessary to accomplish the objectives of the specific HPG grant which were anticipated in the individual HPG grant proposal and which have been approved as eligible expenses at the time of grant approval. This may include contract of fee inspection where necessary pursuant to § 1944.665 of this subpart.

(b) HPG administrative funds may not be used for:

(1) Preparing housing development plans and strategies except as necessary to accomplish the specific objectives of the HPG project.

(2) Substitution for any financial support which would be available from any other source.

(3) Hiring personnel to perform construction.

(4) Buying property of any kind from families receiving assistance from the grantee under the terms of the HPG.

(5) Paying for or reimbursing the grantee for any expense or debts incurred before FmHA executes the grant agreement.

(6) Paying any debts, expenses, or costs which should be the responsibility of the individual families receiving HPG assistance outside the costs of repair and rehabilitation.

(7) Any type of political activities prohibited by OMB Circular A–122.

(8) Other costs including contributions and donations, entertainment, fines and penalties, interest and other financial costs unrelated to the HPG assistance to homeowners, legislative expenses and any excess of cost from other grant agreements.

(c) Advice concerning ineligible costs may be obtained from the State Office as part of the HPG application review or when a proposed cost appears ineligible.

(d) The grantee may not charge fees or accept any compensation or gratuities from HPG recipients for the grantee's technical services under this program.

§ 1944.667 [Reserved]

§ 1944.668 Term of grant.

HPG projects may be funded under the terms of a Grant Agreement for a period of up to two years commencing on the date of execution of the Agreement by the State Director. Term of the project will be based upon HPG resources available for the proposed project and the accomplishability of the applicant's proposal within one or two years. Applicants requesting a two year term may be asked to develop a feasible one year program if sufficient funds are not available for a two year program.

§ 1944.669—1944.670 [Reserved]

§ 1944.671 Project income.

(a) Project income during the grant period from loans made to homeowners is governed by OMB Circular A–102 or A–110 available in any FmHA office. All income, including amounts recovered by the grantee due to breach of agreements between the grantee and the HPG recipient must be used under (and in accordance with) the requirements of the HPG program.

(b) Grantees are encouraged to establish a program which reuses income from loans after the grant period for continuing repair and rehabilitation activities.

§ 1944.672 Equal opportunity requirements.

The policies and regulations contained in Subpart E of Part 1901 of this chapter apply to grantees under this subpart.

§ 1944.673 Other administrative requirements.

The following policies and regulations apply to grants made under this subpart:

(a) Subpart G of Part 1940 of this chapter regarding Environmental Assessments.

(1) To comply with Subpart G of Part 1940, applicants for HPG assistance will submit Form FmHA 1940–20, "Request for Environmental Information," on the geographical areas proposed to be served by the HPG program.

(2) In general, rehabilitation of existing single family houses is exempt from an environment assessment. However, if such units are located in floodplain or wetland, or are eligible for or listed on the National Register of Historic Places, an environmental assessment may be required. Applicants must include in their application a process for identifying specific housing repair or rehabilitation units that require an environment assessment.

(3) When such a unit requiring an environmental assessment is proposed for HPG assistance, the grantee will immediately contact the FmHA office designated to service the HPG grant and work with that office in preparing an environmental assessment and otherwise complying with Subpart F of Part 1940.

(b) The policies and regulations contained in Subpart F of Part 1901 of this chapter regarding historical and archaeological properties.

(1) In addition, the grantee may not initiate any rehabilitation activity which would affect an historic property, defined as a property that is included or is eligible for inclusion on the National Register of Historic Places, unless:

(i) Such activity will reasonably meet the standards for rehabilitation issued by the Secretary of Interior and the appropriate State historic preservation officer is afforded an opportunity to comment on the specific rehabilitation plans; or

(ii) The Advisory Council on Historic Preservation is afforded an opportunity to comment on cases for which the grantee, in consultation with the State historic preservation officer, determines that the proposed rehabilitation activity cannot reasonably meet such standards or would adversely affect historic property.

(2) Consultation procedures regarding historic properties will be accomplished on both the program and project level.

(i) In developing preapplications, applicants must request the views of their appropriate State Historic Preservation Officer (SHPO). This will be done by providing the SHPO with a copy of the proposed Statement of Activities.

(ii) Proposed sites for repair and rehabilitation work must be reviewed in accordance with § 1944.673(a) of this subpart. Any mitigation measures or operating agreements reached in the accomplishment of paragraph (b)(2)(i) of this section can serve as a replacement for individual site reviews as long as the site work will be accomplished in accordance with the agreement and the grantee so documents this in the case file and monitors such work for proper compliance.

(c) The policies, guidelines and requirements of OMB Circular Nos. A–102, and A–110, and A–122 apply to the acceptance and use of housing preservation grant funds.

§ 1944.674 Consultation with local governments and public comment.

(a) In preparing its Statement of Activity, the applicant is responsible for consulting with leaders from the county, parish and/or township governments of the area where HPG activities will take place for the purpose of assuring that the proposed HPG program is beneficial and does not duplicate current activities. Indian nonprofit organization applicants should obtain the written concurrence of the Tribal governing body in lieu of the concurrence of the county governments.

(b) The applicant must make its statement of activities available to the public for comment. The applicant must announce the availability of its Statement of Activities for review in a newspaper of general circulation in the project area and allow at least 15 days for comment.

(c) The HPG program is subject to 7 CFR Part 3015, Subpart V, "Intergovernmental Review of Department of Agriculture Programs and Activities." See FmHA Instruction 1940–J, available in any FmHA office.

§ 1944.675 Allocation of HPG funds to States and unused HPG funds.

(a) The Administrator will allocate rehabilitation grant funds for use in each State on the basis of a formula, using the most current available information and using the average of the ratios between:

(1) The population of the rural areas in that State and the population of the rural areas of all States;

(2) The extent of poverty in the rural areas in that State and the extent of poverty in the rural areas of all States; and

(3) The extent of substandard housing in the rural areas of that State and the extent of substandard housing in the rural areas of all States.

(b) The Administrator may reserve a portion of the available funds for HPG in a National Office pool for States needing additional funds for feasible, acceptable projects.

(c) Any funds which are allocated to a State but uncommitted to grantees will be transfered to the State Office in a timely manner and be used for authorized purposes under Section 504 of the Housing Act of 1949, as amended.

§ 1944.676 Preapplication procedure.

(a) All applicants will file an original and two copies of Form AD–621, "Preapplication for Federal Assistance," and supporting information outlined in subparagraph (b) of this section with the appropriate FmHA office. A preapplication packet including Form AD–621 is available in all FmHA District and State Offices.

(b) All preapplications shall be accompanied by the following information which FmHA will use to determine the applicant's eligibility to undertake a HPG program and to determine whether a grant will be awarded.

(1) A statement of activities proposed by the applicant for its HPG program, including:

(i) A complete discussion of the type of and conditions for financial assistance for repair and rehabilitation;

(ii) The process for selecting recipients of HPG assistance, determining repair and rehabilitation needs of the unit, assessing potential environmental constraints (per § 1944.673(a) of this subpart), performing the necessary work, and monitoring/inspecting work performed;

(iii) The development standard the applicant will use for the repairs and rehabilitation work;

(iv) The time schedule for completing the program;

(v) The staffing required to complete the program;

(vi) The estimated number of very low- and low-income minority and nonminority families the applicant will assist with HPG funds;

(vii) The area(s) to be served by the HPG program;

(viii) Annual estimated budget for the program year based on the financial needs to accomplish the objectives outlined in the proposal. The budget should include proposed direct and indirect administrative costs, such as personnel, fringe benefits, travel, equipment, supplies, contracts, and other costs categories, detailing those costs for which the grantee proposes to use the HPG grant separately from non-HPG resources, if any. The applicant's budget should also include a schedule (with amounts) of how the applicant proposes to draw HPG grant funds, i.e., monthly, quarterly, lump sum for program activities, etc.

(ix) A brief description of the accounting system to be used;

(x) The method of evaluation to be used by the applicant to determine the effectiveness of its program which encompasses the requirements for quarterly reports to FmHA per §1944.683(b) of this subpart;

(xi) The sources and estimated amounts of other financial resources to be obtained and used by the applicant for both HPG activities and housing development and/or supporting activities;

(xii) The use of program income, if any; and

(xiii) Any other information necessary to explain the HPG program.

(2) Complete information about the applicant's experience and capacity to

carry out the objectives of the proposed HPG program;

(3) Evidence of the applicant's legal

(d) The applicant is to make its Statement of Activity available to the

assistance provided by the proposed HPG program, in order to:

§ 1944.682 Grant approval and requesting HPG funds.

shall submit an original and two copies

the State Director will recommend

VOL 50 ISS 144 JL 26 1985 UMI

carry out the objectives of the proposed HPG program;

(3) Evidence of the applicant's legal existence, including, in the case of a private nonprofit organization, a copy of, or an accurate reference to, the specific provisions of State law under which the applicant is organized; a certified copy of the applicant's Articles of Incorporation and Bylaws or other evidence of corporate existence; certificate of incorporation for other than public bodies: evidence of good standing from the State when the corporation has been in existence one year or more; the names and addresses of the applicant's members, directors, and officers. If other organizations are members of the applicant-organization, or the applicant is a consortium, the names, addresses, and principal purpose of the other organizations and, if a consortium, documentation showing compliance with § 1944.566(g)(4) of this subpart.

(4) For a private nonprofit entity, the most recent audited statement and a current financial statement dated and signed by an authorized officer of the entity showing the amounts and specific nature of assets and liabilities together with information on the repayment schedule and status of any debt(s) owed by the applicant. If the applicant is an organization being assisted by another private nonprofit organization, the same type of financial statement should also be provided by that organization.

(5) A brief narrative statement which includes information about the area to be served and the need for improved housing (including both percentage and actual number of both low-income and low-income minority families and substandard housing), the need for the type of repair and rehabilitation assistance being proposed, the anticipated use of HPG resources for historic properties, the method of evaluation to be used by the applicant in determining the effectiveness of its efforts (as related to paragraph (b)(1) of this section), and any other information necessary to specifically address the selection criteria in § 1944.679 of this subpart.

(6) A list of other activities the applicant is engaged in and expects to continue, a statement as to any other funding, and whether it will have sufficient funds to assure continued operation of the other activities for at least the period of the HPG grant agreement.

(c) An applicant must submit written statements reflecting compliance with § 1944.674(a) of this subpart on consultations between local government(s) and the applicant.

(d) The applicant is to make its Statement of Activity available to the public for comment prior to submission to FmHA pursuant to § 1944.674(b) of this subpart. The preapplication must contain a description of how this was accomplished as well as a synopsis of comments received and how the comments were addressed.

(e) An original and one copy of Form FmHA 1940–20, as well as a description of the applicant's process for determining whether an individual property requires an environment assessment per § 1944.673(a) of this subpart.

(f) An original and one copy of Form FmHA 400–1, "Equal Opportunity Agreement," and Form FmHA 400–4, "Assurance Agreement."

§ 1944.677 [Reserved]

§ 1944.678 Preapplication submission deadline.

Dates governing the invitation and review of HPG preapplications will be published annually in the Federal Register. Preapplications received after the date specified in the Federal Register will not be considered for funding in that fiscal year and will be returned.

§ 1944.679 Project selection criteria.

(a) Grant applicants must meet all the following criteria:

(1) Provide a financially feasible program of repair and rehabilitation assistance as defined in § 1944.664(b) of this subpart;

(2) Serve eligible rural areas with a concentration of substandard housing for households with very low- and low-income;

(3) Be an eligible applicant entity as defined in § 1944.658 of this subpart; and

(4) Meet the requirements of consultation and public comment per § 1944.674 of this subpart.

(b) For applicants meeting the requirements listed in subparagraph (a) of this section, FmHA will use the criteria in this paragraph in the selection of grant recipients. Each preapplication and its accompanying statement of activities will be evaluated on the extent to which:

(1) The repair and rehabilitation activities will assist persons of very low- and low-income who lack adequate shelter, with priority given to applicants who propose to assist the maximum number of persons and families with very low income;

(2) The repair and rehabilitation activities include the participation of other public or private organizations in providing assistance, in addition to the assistance provided by the proposed HPG program, in order to:

(i) Lower the cost of such activities to very low- and low-income families; or

(ii) Provide for the leveraging of available funds to supplement the proposed HPG program;

(3) The proposed program will be undertaken in rural areas identified by FmHA as having populations below 10,000 or in remote parts of other rural areas (i.e, rural areas not contained in Metropolitan Statistical Areas with less than 10,000 population);

(4) The repair and rehabilitation activities may be expected to result in achieving the greatest degree of repair or improvement for the least cost per unit or dwelling;

(5) The program will minimize displacement;

(6) The program will alleviate overcrowding in rural residences inhabited by very low- and low-income families;

(7) The program will minimize the use of grant funds for administrative purposes, i.e., less than 20 percent of grant funds.

(8) The applicant has demonstrated its capacity in administering its programs and past performance reflecting such capacity in administering selected housing programs;

(9) The applicant is currently effective in assisting very low and low-income families obtain adequate housing; and

(10) The applicant will have the capacity to implement its proposed time schedule for starting and completing the HPG program and each phase thereof.

§1944.680 Limitation on grantee selection.

After all preapplications have been reviewed under the selection criteria and if more than one preapplication has met the criteria of § 1944.679(a) of this subpart, the State Director may not approve more than fifty percent of the State's allocation to a single applicant.

§ 1944.681 Application submission.

(a) Applicants selected by FmHA will be advised to submit a full application in an original and two copies of Form AD–623, "Application for Federal Assistance (Nonconstruction Programs)," and provide additional information if necessary. Instructions on submission and timing will be provided by FmHA.

(b) Applicants not selected by FmHA will be so notified and advised of their appeal rights under Subpart B of Part 1900 of this chapter.

§ 1944.682 Grant approval and requesting HPG funds.

(a) Grant approval is the process by which FmHA determines that all applicable administrative and legal conditions for making a grant have been met, the Grant Agreement is signed, and funds obligated for the HPG project. The FmHA District Office responsible for servicing and monitoring the HPG applicant's program will review the application submission. If acceptable and if the District Office is prepared to recommend the application to the State Office for approval, the applicant will sign a Form FmHA 1940–1, "Request for Obligation of Funds." and Exhibit A of this subpart, the Housing Preservation Grant Agreement. If the application is approved by the State Director, the applicant will be sent a copy of the executed Grant Agreement and Form FmHA 1940–1. Should the State Director attach any conditions to the Agreement that must be satisfied prior to the applicant receiving any HPG funds, the Agreement and the conditions will be returned to the applicant for acceptance and acknowledgement on the Agreement prior to execution by the State Director.

(b) The application may be disapproved before execution of the grant agreement if the applicant is no longer eligible, the proposal is no longer feasible, or the applicant requests cancellation of its project. Except when the applicant requests cancellation, FmHA will document its findings and advise the applicant of its appeal rights under Subpart B of Part 1900 of this chapter.

(c) With the executed Grant Agreement and Form FmHA 1940–1, FmHA will send the approved applicant (now the "grantee") copies of Standard Form 270, "Request for Advance or Reimbursement." The grantee must submit an original and two copies of Standard Form 270 to the District Office advances or reimbursements must be in accordance with the grantee's budget and Statement of Activity, including any amendments, prior approved by FmHA. Requests for reimbursement or advances must be at least 30 calendar days apart.

(d) If the grantee fails to submit required reports pursuant to § 1944.683 of this subpart or is in violation of the Grant Agreement, FmHA may suspend HPG reimbursements and advances or terminate the grant in accordance with § 1944.688 of this subpart and the Grant Agreement.

§ 1944.683 Reporting requirements.

(a) Standard Form 269, "Financial Status Report," is required of all grantees on a quarterly basis. Grantees shall submit an original and two copies of the report to the designated FmHA servicing office. Reports will be submitted no later than February 15, April 15, July 15 and October 15 while the grant agreement is in effect.

(b) Quarterly performance reports shall be submitted by grantees with the SF–269, "Financial Status Report," in an original and two copies. The quarterly report should relate the activities during the report period to the project's objectives and analyze the effectiveness of the program. As part of the grantee's preapplication submission, as required by § 1944.676(b) of this subpart, the grantee established the objectives of its HPS program, including its method of evaluation to determine its effectiveness. Accordingly, the report should include, but need not be limited to, the following:

(1) The following specific information for each unit assisted:

(i) Income category of the homeowner (very low or low);

(ii) Cost, major repairs, amount financed by HPG and/or other sources of funds;

(iii) Type of financing provided (interest subsidy, direct loan, etc.); and

(iv) Results of implementing the environmental process contained in § 1944.673 of this subpart.

(2) A comparison of actual accomplishments to the objectives set for that period, including:

(i) The number of very low- and low-income, minority and nonminority families assisted in obtaining adequate housing by the HPG program through repair and rehabilitation; and

(ii) The average cost of assistance provided to homeowners.

(3) Reasons why, if established objectives are not met.

(4) Problems, delays, or adverse conditions which will materially affect attainment of the HPG grant objectives, prevent the meeting of time schedules or objectives, or preclude the attainment of program work elements during established time periods. This disclosure shall be accompanied by a statement of the action taken or comtemplated and any Federal assistance needed to relieve the situations.

(5) Objectives established for the next reporting period, sufficiently detailed to identify the type of assistance to be provided, the number and type of faimilies to be assisted, etc.

(c) The grantee should be prepared to meet with the District Office to discuss its quarterly report shortly after submission.

(d) If the reports indicates unsatisfactory progress or the grantee is not meeting its established objectives, the State Director will recommend appropriate action to resolve the indicated problem(s). If appropriate corrective action is not taken by the grantee, the State Director has the discretion to not authorize further advances by suspending the project in accordance with § 1944.688 of this subpart and the Grant Agreement.

§ 1944.684 Extending grant agreements and modifying statements of activities.

(a) All requests extending the original grant agreement of modifying the HPG program's statement of activities must be in writing. Such requests will be processed through the District Director. The State Office will respond to the applicant within 30 days of receipt of the request in the State Office.

(b) An extension of a grant beyond the project term may be granted by the State Director when:

(1) There are grant funds remaining and the grantee requests an extension of the grant period to the ending date of the Grant Agreement;

(2) The grantee has demonstrated its ability to conduct their program in accordance with the terms of its grant agreement and in a manner satisfactory to FmHA;

(3) The Grantee is likely to complete the goals outlined in the initial proposal, or

(4) The District Director recommends continuation of the grant until the grantee has expended all of the remaining grant funds.

(c) Modification of the statement of activities, such as revising the processes the grantee follows in operating the HPG program, may be approved by the State Director when the modifications are for eligible purposes per §§ 1944.664 and 1944.666 of this subpart and the program will continue to serve the geographic area originally approved. The grantee will submit its proposed revisions together with the necessary supporting information to FmHA.

(d) Exhibit B, "Amendment to Housing Preservation Grant," will be used for all extensions and modifications.

§ 1944.685 [Reserved]

§ 1944.686 Additional grants.

An additional HPG grant may be made to a grantee when it has achieved or nearly achieved the goals established for the previous grant. The grantee must file a new application for HPG funds that will be processed similar to an initial applications and compared under the project selection criteria to others submitted at the time. Preference may be given to an existing grantee where there is a continuing need for the

program in the area currently being served by the existing grant, the

requirements of this subpart not

"Cost Principles for Nonprofit

title 31 of the Code of Federal Regulations,

12. If the grant exceeds $100,000,

schedules required and any FmHA assistance

VOL 50 ISS 144 JUL 26 1985 UMI

program in the area currently being served by the existing grant, the program has local public and community support, and the grantee has fully complied with the HPG requirements contained herein.

§ 1944.687 [Reserved]

§ 1944.688 Grant evaluation, closeout, suspension and termination.

(a) Grant evaluation will be an ongoing activity performed by both the grantee and FmHA. The grantee will perform self-evaluations by preparing quarterly performance reports in accordance with § 1944.683 of this subpart. FmHA will also review all reports prepared and submitted by the grantee in accordance with the grant agreement and this subpart.

(b) Within forty-five (45) calendar days after the grant ending date, the grantee will complete closeout procedures as specified in the grant agreement.

(1) The grantee will complete a final Standard Form 269 and a final performance report upon termination or expiration of the grant agreement. The final performance report will serve as the last quartely report.

(2) The grantee will have an audit performed upon termination or completion of the project in accordance with OMB Circular A–102 or or A–110. As part of their final report, the grantee will address and resolve all audit findings.

(c) The grant can be suspended or terminated before the grant ending date for the causes specified in the grant agreement. No further grant funds will be advanced when grant suspension or termination procedures have been initiated in accordance with the grant agreement. Grantees may be reimbursed for eligible costs incurred prior to the effective date of the suspension or termination. Grantees are prohibited from incurring additional obligations of funds after notification, pending corrective action by the grantee. FmHA may allow necessary and proper costs that the grantee could not reasonably avoid during the period of suspension provided they are for eligible HPG purposes.

(d) Applicants will have the opportunity to appeal a suspension or termination under FmHA's appeal procedures, Subpart B of Part 1900 of this chapter.

§ 1944.689 [Reserved]

§ 1944.690 Exception authority.

The Administrator of the Farmers Home Administration may, in individual cases, make an exception to any requirements of this subpart not required by the authorizing statute if the Administrator finds that application of such requirement would adversely affect the interest of the Government, or adversely affect the accomplishment of the purposes of the housing preservation grant program, or result in undue hardship by applying the requirement. The Administrator will exercise this exception authority only at the request of the State Director. The State Director will submit the request supported by information demonstrating the adverse impact, citing the particular requirement involved, recommending proper alternative courses of action, and outlining how the adverse impact could be mitigated.

§§ 1944.691–1944.700 [Reserved]

Exhibit A—Housing Preservation Grant Agreement

This Agreement dated ——— is between ——— (name), ——— (address), (grantee), organized and operating under ——— (authorizing State statute), and the United States of America acting through the Farmers Home Administration (FmHA). FmHA agrees to grant a sum not to exceed $——— subject to the terms and conditions of this Agreement; provided, however, that the proportionate share of any grant funds actually advanced and not needed for grant purposes shall be returned immediately to FmHA. The Housing Preservation Grant (HPG) Statement of Activities approved by FmHA, and attached hereto, shall commence within 10 days of the date of execution of this agreement by FmHA and be completed by ——— (dated). FmHA may terminate the grant in whole, or in part, at any time before the date of completion, whenever it is determined that the grantee has failed to comply with the conditions of this Grant Agreement of FmHA regulation related hereto. The grantee may appeal adverse decisions in accordance with the FmHA Appeal Procedures contained in Subpart B of Part 1900 of this chapter.

In consideration of said grant by FmHA to the Grantee, to be made pursuant to Section 533 of the Housing Act of 1949, Housing Preservation Grant (HPG) program, the grantee will provide such a program in accordance with the terms of this Agreement and applicable FmHA regulations.

PART A *Definitions:*

1. "Beginning date" means that date this agreement is executed by FmHA and costs can be incurred.

2. "Ending date" means the date when all work under this agreement is scheduled to be completed. It is also the latest date grant funds will be provided under this agreement, without an approved extension.

3. "Disallowed costs" are those charges to a grant which the FmHA determines cannot be authorized in accordance with applicable Federal costs principles contained in Circular 74–4, "Cost Principles Applicable to Grants and Contracts with State and Local Governments," and OMB Circular A–122, "Cost Principles for Nonprofit Organizations," and other conditions contained in this Agreement and OMB Circular A–102 and A–110, as appropriate.

4. "Grant closeout" is the process by which the grant operation is concluded at the expiration of the grant period or following a decision to terminate the grant.

5. "Termination" of the grant means the cancellation of Federl assistance, in whole or in part, at any time before the date of completion.

PART B *Terms of agreement:*

FmHA and grantee agree:

1. All grant activities shall be limited to those authorized in Subpart N of 7 C.F.R. 1944.

2. This Agreement shall be effective when executed by both parties.

3. The HPG activities approved by FmHA shall commence and be completed within the dates indicated above, unless earlier terminated under paragraph B 18 below or extended.

4. Grantee shall carry out the HPG activities and process as described in the approved Statement of Activities which is made a part of this Agreement. Grantee will be bound by the activities and processes set forth in the Statement of Activities and the further conditions set forth in this Agreement. If the Statement of Activities is inconsistent with the Agreement, the latter will govern. a change of any activities and processes must be in writing and must be signed by the FmHA State Director or his or her delegated representative.

5. Grantee shall use grant funds only for the purpose and activities approved by FmHA in the HPG budget. Any uses not provided for in the approved budget must be approved in wiriting by FmHA in advance.

6. If the Grantee is a private nonprofit corporation, expenses charged for travel or per diem will not exceed the rates paid FmHA employees for similar purposes. If the grantee is a public body, the rates will be those that are allowable under the customary practice in the government of which the grantee is a part; if none are customary, the FmHA rates will be the maximum allowed.

7. Grant funds will not be used for any of the following:

(a) To pay obligations incurred before the effective date of this Agreement.

(b) To pay obligations incurred after the grant termination or ending date.

(c) Entertainment purposes.

(d) To pay for capital assets, the purchase of real estate or vehicles, improvement or renovation of grantee's office space, or repair or maintenance of privately owned vehicles.

(e) Any other purpose specified in §§ 1944.664(d) and § 1944.666(b) of this subpart.

(f) Administrative expenses exceeding 20% of HPG grant funds.

8. Grant funds shall not be used to substitute for any financial support previously provided or assured from any other source.

9. Disbursal of grants will be governed as follows:

(a) In accordance with Treasury Circular 1075 (fourth revision) Part 205, Chapter II of

title 31 of the Code of Federal Regulations, grant funds will be provided by FmHA as cash advances on an as needed basis not to exceed one advance every 30 days. The advance will be made by direct Treasury check to the grantee. The financial management system of the recipient organization shall provide for effective control over and accountability for all Federal funds as stated in OMB Circular A–102 (42 FR 45828, September 12, 1977) for State and local governments and OMB Circular A–110 (41 FR 32016, July 30, 1976) for nonprofit organizations.

(b) Cash advances to the grantee shall be limited to the minimum amounts needed and shall be timed to be in accord only with the actual, immediate cash requirements of the Grantee in carrying out the purpose of the planned project. The timing and amount of cash advances shall be as close as administratively feasible to the actual disbursements by the grantee for direct program costs (as identified in the grantee's Statement of Activity and budget and fund use plan) and proportionate share of any allowable indirect costs.

(c) Grant funds should be promptly refunded to the FmHA and redrawn when needed if the funds are erroneously drawn in excess of immediate dirbursement needs. The only exceptions to the requirement for prompt refinding are when the funds involved:

(i) Will be disbursed by the recipient organization within seven calendar days from the date of the Treasury check, or

(ii) Are less than $10,000 and will be disbursed within 30 calendar days from the date of the Treasury check.

(d) Grantee shall provide satisfactory evidence to FmHA that all officers of the Grantee organization authorized to receive and/or disburse Federal funds are covered by satisfactory fidelity bonds sufficient to protect FmHA's interests.

10. The grantee will submit performance and financial reports as indicated below to the appropriate FmHA District Office.

(a) As needed, but not more frequently than once every 30 calendar days, an original and 2 copies of Standard Form 270, "Request for Advance or Reimbursement."

(b) Quarterly (not later than January 15, April 15, July 15, and October 15 of each year), an original and 2 copies of Standard Form 269, "Financial Status Report," and a quarterly performance report in accordance with § 1944.683 of this subpart.

(c) Within forty-five (45) days after the termination or expiration of the Grant Agreement, an original and 2 copies of Standard Form 269, and a final performance report which will include a summary of the project's accomplishments, problems, and planned future activities of the grantee for HPG. Final reports may serve as the last quarterly report.

(d) FmHA may require performance reports more frequently if deemed necessary.

11. In accordance with FMC 74–4, Attachment B, compensation for employees will be considered reasonable to the extent that such compensation is consistent with that paid for similar work in other activities of the State or local government.

12. If the grant exceeds $100,000, cumulative transfers among direct cost budget categories totaling more than 5 percent of the total budget must have prior written approval by the District Director.

13. Results of the program assisted by grant funds may be published by the grantee without prior review by FmHA, provided that such publications acknowledge the support provided by funds pursuant to the provisions of Title V of the Housing Act of 1949, as amended, and that five copies of each such publication are furnished to the District Director.

14. Grantee certifies that no person or organization has been employed or retained to solicit or secure this grant for a commission, percentage, brokerage, or contingent fee.

15. No person in the United States shall, on the grounds of race, creed, color, sex, marital status, age, national origin, or mental or physical handicap, be excluded from participating in, be denied the proceeds of, or be subject to discrimination in connection with the use of grant funds. Grantee will comply with the nondiscrimination regulations of FmHA contained in Subpart E of Part 1901 of this chapter.

16. In all hiring or employment made possible by or resulting from this grant, the grantee: (a) Will not discriminate against any employee or applicant for employment because of race, creed, color, sex, marital status, national origin, age, or mental or physical handicap, and (b) will take affirmative action to insure that employees are treated during employment without regard to their race, creed, color, sex, marital status, national origin, age, or mental or physical handicap. This requirement shall apply to, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. In the event grantee signs a contract related to this grant which would be covered by any Executive Order, law, or regulation prohibiting discrimination, grantee shall include in the contract the "Equal Employment Clause" as specified by Form FmHA 400–1.

17. The grantee accepts responsibility for accomplishing the HPG program as submitted and included in the Statement of Activities. The grantee shall also:

(a) Endeavor to coordinate and provide liaison with State and local housing organizations, where they exist.

(b) Provide continuing information to FmHA on the status of grantee HPG programs, projects, related activities, and problems.

(c) The grantee shall inform FmHA as soon as the following types of conditions become known:

(i) Problems, delays, or adverse conditions which materially affect the ability to attain program objectives, prevent the meeting of time schedules or goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accompanied by a statement of the action taken or contemplated, new time schedules required and any FmHA assistance needed to resolve the situation.

(ii) Favorable developments or events which enable meeting time schedules and goals sooner than anticipated or producing more work units than originally projected.

18. Grant closeout and termination procedures will be as follows:

(a) Promptly after the date of completion or a decision to terminate a grant, grant closeout actions are to be taken to allow the orderly discontinuation of grantee activity.

(i) The grantee shall immediately refund to FmHA any uncommitted balance of grant funds.

(ii) The grantee shall furnish to FmHA within 45 calendar days after the date of completion of the grant a Standard Form 269 and all financial, performance, and other reports required as a condition of the grant, including an audit report.

(iii) The grantee shall account for any property acquired with HPG grant funds, or otherwise received from FmHA.

(iv) After the grant closeout, FmHA retains the right to recover any disallowed costs which may be discovered as a result of an audit.

(b) When there is reasonable evidence that the grantee has failed to comply with the terms of this Agreement, the State Director can, on reasonable notice, suspend the grant pending corrective action or terminate the grant pursuant to paragraph (c) below. In such instances, FmHA may reimburse the grantee for eligible costs incurred prior to the effective date of the suspension or termination and may allow all necessary and proper costs which the grantee could not reasonably avoid. FmHA will withhold further advances and grantees are prohibited from further obligating grant funds, pending corrective action.

(c) Grant termination will be based on the following:

(i) *Termination for couse.* This grant may be terminated in whole, or in part, at any time before the date of completion, whenever FmHA determines that the grantee has failed to comply with the terms of this Agreement. The reasons for termination may include, but are not limited to, such problems as:

(A) Failure to make reasonable and satisfactory progress in attaining grant objectives.

(B) Failure of grantee to use grant funds only for authorized purposes.

(C) Failure or grantee to submit adequate and timely reports of its operation.

(D) Violation of any of the provisions of any laws administered by FmHA or any regulation issued thereunder.

(E) Violation of any nondiscrimination or equal opportunity requirement administered by FmHA in connection with any FmHA programs.

(F) Failure to maintain an accounting system acceptable to FmHA.

(ii) *Termination for convenience.* FmHA or the grantee may terminate the grant in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions,

including the effective date and, in case of partial termination, the portion to be

including the effective date and, in case of partial termination, the portion to be terminated.

(d) FmHA shall notify the grantee in writing of the determination and the reasons for and the effective date of the suspension or termination in accordance with § 1900.53 of Subpart B of Part 1900 of this chapter.

19. Upon any default under its representatives or agreements set forth in this instrument, the grantee, at the option and demand of FmHA, will, to the extent legally permissible, repay to FmHA forthwith the grant funds received with interest at the rate of five per centum per annum from the date of the default. The provisions of this Grant Agreement may be enforced by FmHA, at its option and without regard to prior waivers by it or previous defaults of the grantee, by judicial proceedings to require specific performance of the terms of this Grant Agreement or by such other proceedings in law or equity, in either Federal or State Courts, as may be deemed necessary by FmHA to assure compliance with the provisions of this Grant Agreement and the laws and regulations under which this grant is made.

20. Extension of this Grant Agreement and/or modifications of the Statement of Activities may be approved by FmHA provided, in its opinion, the extension and/or modification is justified and there is a likelihood that the grantee can accomplish the goals set out and approved in the Statement of Activities during the period of the extension and/or modifications as specified in § 1944.686 of this subpart.

PART C *Grantee agrees:*

1. To comply with property management standards for expendable and nonexpendable personal property established by Attachment N of OMB Circular A–102 or Attachment N of OMB Circular A–110 for State and local governments or nonprofit organizations respectively. "Personal property" means property of any kind except real property. It may be tangible—having physical existence—or intangible—having no physical existence, such as patents, inventions, and copyrights. "Nonexpendable personal property" means tangible personal property having a useful life of more than one year and an acquisition cost of $300 or more per unit. A grantee may use its own definitions of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined above. "Expendable personal property" refers to all tangible personal property other than nonexpendable personal property. When nonexpendable tangible personal property is acquired by a grantee with project funds, title shall not be taken by the Federal Government but shall vest in the grantee subject to the following conditions:

(a) Right to transfer title. For items of nonexpendable personal property having a unit acquisition cost of $1,000 or more, FmHA may reserve the right to transfer title to the Federal Government or to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such reservation shall be subject to the following standards:

(i) The property shall be appropriately identified in the grant or otherwise made known to the Grantee in writing.

(ii) FmHA shall issue disposition instructions within 120 calendar days after the end of the Federal support of the project for which it was acquired. If FmHA fails to issue disposition instructions within the 120 calendar day period, the grantee shall apply the standards of paragraph 1(c) below.

(iii) When FmHA exercises its right to take title, the personal property shall be subject to the provisions for federally owned nonexpendable property discussed in paragraph 1(a)(iv) below.

(iv) When title is transferred either to the Federal Government or to a third party and the grantee is instructed to ship the property elsewhere, the grantee shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the grantee participation in the cost of the original grant project or program to the current fair market value of the property, plus any reasonable shipping or interim storage costs incurred.

(b) Use of other tangible nonexpendable property for which the grantee has title.

(i) The grantee shall use the property in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When it is no longer needed for the original project or program, the grantee shall use the property in connection with its other Federally sponsored activities, in the following order of priority:

(A) Activities sponsored by FmHA.

(B) Activities sponsored by other Federal agencies.

(ii) Shared use. During the time that nonexpendable personal property is held for use on the project or program for which it was acquired, the Grantee shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the property was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by FmHA; second preference shall be given to projects or programs sponsored by other Federal agencies. If the property is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by FmHA. User charges should be considered if appropriate.

(c) Disposition of other nonexpendable property. When the grantee no longer needs the property, the property may be used for other activities in accordance with the following standards:

(i) Nonexpendable property with a unit acquisition cost of less than $1,000. The grantee may use the property for other activities without reimbursement to the Federal Government or sell the property and retain the proceeds.

(ii) Nonexpendable personal property with a unit acquisition cost of $1,000 or more. The grantee may retain the property for other use provided that compensation in made to FmHA or its successor. The amount of compensation shall be computed by applying the precentage of Federal participation in the cost of the orginal project or program to the current fair market value of the property. If the grantee has no need for the property and the property has further use value, the grantee shall request disposition instructions from the original Grantor agency. FmHA shall determine whether the property can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the property shall be reported, in accordance with the guidelines of the Federal Property Management Regulations (FPMR) to the General Services Administration by FmHA to determine whether a requirement for the property exists in other Federal agencies. FmHA shall issue instructions to the grantee no later than 120 calendar days after the grantee request and the following procedures shall govern:

(A) If so instructed or if disposition instructions are not issued within 120 calendar days after the grantee's request, the grantee shall sell the property and reimburse FmHA an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the orginial project or program. However, the grantee shall be permitted to deduct and retain from the Federal shares $100 or ten percent of the proceeds, whichever is greater, for the grantee's selling and handling expenses.

(B) If the grantee is instructed to dispose of the property other than as described in paragraph 1 (a)(iv) above, the grantee shall be reimbursed by FmHA for such costs incurred in its disposition.

(C) The grantee's property management standards for nonexpendable personal property shall include the following procedural requirements:

(*1*) Property records shall be maintained accurately and shall include:

(*a*) A description of the property.

(*b*) Manufacturer's serial number, model number, Federal stock number, national stock number, or other identification number.

(*c*) Sources of the property including grant or other agreement number.

(*d*) Whether title vests in the grantee or the Federal Government.

(*e*) Acquisition date (or date received, if the property was furnished by the Federal Government) and cost.

(*f*) Percentage (at the end of the budget Year) of Federal participation in the cost of the project or program for which the property was acquired. (Not applicable to property furnished by the Federal Government).

(*g*) Location, use, and condition of the property and the date the information was reported.

(*h*) Unit acquisition cost.

(*i*) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value when a grantee compensates the Federal agency for its share.

(*2*) Property owned by the Federal Government must be marked to indicate Federal ownership.

(*3*) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years. Any difference between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The grantee shall, in connection with the inventory, verify the existence, current utilization, and continued need for the property.

(*4*) A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft of nonexpendable property shall be investigated and fully documented; if the property was owned by the Federal Government, the grantee shall promptly notify FmHA.

(*5*) Adequate maintenance procedures shall be implemented to keep the property in good condition.

(*6*) When the grantee is authorized or required to sell the property, proper sales procedures shall be established which will provide for competition to the extent practicable and result in the highest possible return.

(*7*) Expendable personal property shall vest in the grantee upon acquisition. If there is a residual inventory of such property exceeding $1,000 in total aggregate fair market value, upon termination or completion of the grant and if the property is not needed for any other federally sponsored project or program, the grantee shall retain the property for use of nonfederally sponsored activities, or sell it, but must in either case compensate the Federal Government for its share. The amount of compensation Shall be computed in the same manner as nonexpendable personal property.

2. To provide a financial management system which will include:

(a) Accurate, current, and complete disclosure of the financial reqults of each grant. Financial reporting will be on an accrual basis.

(b) Records which identify adequately the source and application of funds for grant-supported activities. Those records shall contain information pertaining to grant awards and authorizations obligations, unobligated balances, assets, liabilities, outlays, and income.

(c) Effecting control over and accountability for all funds, property, and other assets. Grantee shall adequately safeguard all such assets and shall assure that they are solely for authorized purposes.

(d) Accounting records supported by source documentation.

3. To retain financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of at least three years after the submission of the final Project Performance report pursuant to Part B(9)(c) of this Agreement except in the following situations:

(a) If any litigation, claim, or audit is commenced before the expiration of the three year period, the records shall be retained until all litigations, claims, or audit findings involving the records have been resolved.

(b) Records for nonexpendable property acquired by FmHA, the three year retention requirement is not applicable.

(c) When records are transferred to or maintained by FmHA, the three year retention requirement is not applicable.

Microfilm copies may be substituted in lieu of original records. FmHA and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the grantee which are pertinent to the specific grant program for the purpose of making audits, examinations, excerpts, and transcripts.

4. To provide information as requested by FmHA concerning the grantee's actions in soliciting citizen participation in the application process, including published notice of public meetings, actual public meetings held, and content of written comments received.

5. Not encumber, transfer, or dispose of the property or any part thereof, furnished by FmHA or acquired wholly or in part with HPG funds without the written consent of FmHA except as provided in Part C 1 of this Agreement.

6. To provide FmHA with such periodic reports of grantee operations as may be required by authorized representatives of FmHA.

7. To execute Form FmHA 400–1, "Equal Opportunity Agreement," and to execute any other agreements required by FmHA to implement the civil rights requirements.

8. To include in all contracts in excess of $100,000 a provision for compliance with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act, 42 U.S.C. § 1875C–9 as amended. Violations shall be reported to FmHA and the Regional Office of the Environmental Protection Agency.

9. That no member of Congress shall be admitted to any share or part of this grant or any benefit that may arise therefrom, but this provision shall not be construed to bar as a contractor under the grant a publicly held corporation whose ownership might include a member of Congress.

10. That all nonconfidential information resulting from its activities shall be made available to the general public on an equal basis.

11. That the purpose for which this grant is made may complement, but shall not duplicate programs for which monies have been received, are committed, or are applied for from other sources, public and private.

12. That the grantee shall relinquish any and all copyrights and/or privileges to the materials developed under this grant, such material being the sole property of the Federal Government. In the event anything developed under this grant is published in whole or in part, the material shall contain notice and be identified by language to the following effect: "The material is the result of tax-supported research and as such is not copyrightable. It may be freely reprinted with the customary crediting of the source."

14. That the grantee shall abide by the policies promulgated in OMB Circular A–102, Attachment O, or OMB Circular A–110, Attachment O, as applicable, which provides standards for use by Grantees in establishing procedures for the procurement of supplies, equipment, and other services with Federal grant funds.

15. That it is understood and agreed that any assistance granted under this Agreement will be administered subject to the limitations of Title V of the Housing Act of 1949 as amended, 42 U.S.C. 1471 et. seq., and related regulations, and that all rights granted to FmHA herein or elsewhere may be exercised by it in its sole discretion to carry out the purposes of the assistance, and protect FmHA's financial interest.

16. Standard of Conduct. No employee, officer or agent of the grantee shall participate in the selection, award or administration of a contract in which Federal funds are used where, to the knowledge of such employee, officer or agent, the employee, officer or agent or such person's immediate family members, partners or any organization in which such person or such person's immediate family award or administration of the contract, or when such person is negotiating or has any arrangement concerning future employment. The recipient's officers, employees or agents shall neither solicit not accept gratuities, favors or anything of monetary value from landlords or developers of rental or ownership housing projects or other persons receiving HPG assistance.

PART D *FmHA agrees:*

1. That it may assist grantee, within available appropriations, with such technical and management assistance as needed in coordinating the Statement of Activities with local officials, comprehensive plans, and any State or area plans for improving housing for very low- and low-income households in the area in which the project is located.

2. That at its sole discretion, FmHA may at any time give any consent, deferment, subordination, release, satisfaction, or termination of any or all of grantee's grant obligations, with or without valuable consideration, upon such terms and conditions as Grantor may determine to be: (a) Advisable to further the purposes of the grant or to protect FmHA's financial interests therein, and (b) consistent with the statutory purposes of the grant and the limitations of the statutory authority under which it is made and FmHA's regulations.

This Agreement is subject to current FmHA regulations and any future regulations not inconsistent with the express terms hereof. Grantee has caused this Agreement to be executed by its duly authorized ———, properly attested to and its corporate seal affixed by its duly authorized ———.

Date of Execution of Amendment to Grant Agreement by FmHA:

Exhibit C—Administrative Instructions for FmHA Field Offices Regarding Their Responsibilities in the Administration of the Housing Preservation Grant

I. *Overall Guidance.*

(A) The State and District Offices will maintain for distribution to potential applicants, upon request, a supply of preapplication packets consisting of:

1. Form FmHA AD–621, "Preapplication for Federal Assistance."
2. Form FmHA 400–1, "Equal Opportunity Agreement."
3. Form FmHA 400–4, "Assurance Agreement."
4. Form FmHA 1940–20, "Request for Environmental Information."
5. Subpart N or Part 1944 of this Chapter, "Housing Preservation Grants."

(B) The State Office should decide whether the program will be operated out of the State Office entirely or the District Offices. If operated out of the State Office, the State Office will be responsible for the District Office tasks outlined below. If operated out of District Offices:

1. The preapplication must be submitted to the District Office serving the area in which the applicant proposes to operate the Housing Preservation Grant program. If the applicant proposes to operate in more than one District Office's area, the State Director will designate a specific District Office to serve the applicant.
2. The State Office will refer all requests for assistance in completing the preapplication to the appropriate District Office.

(C) Beyond the responsibilities of the State Office in the selection of grantees and the administration of the program, the HPG program provides an opportunity for the State Director to give priority to applicants serving the rural areas of greatest need for rehabilitation and repair activities as well as encourage the use of the program cooperatively with other Federal and State agencies in addressing the housing needs of the residents of a proposed HPG service area. Therefore, the State Office should be prepared, before receipt of preapplications, to advise District Directors, potential applicants, and other Federal and State agencies which part(s) of the State has the greatest need for the HPG program. Proposals which are clearly inappropriate and do not meet the basic selection criterion criteria of § 1944.679(a) of this subpart should not be encouraged due to the complexity of the preapplication submission.

II. *Preapplication.*

(A) *District Office processing of preapplications.*

(1) The District Director with whom the preapplication is filed will review the preapplication, From AD–621, and the other supporting information from the applicant submitted pursuant to § 1944.676 of this subpart. The District Director will also:

(a) Complete any required environmental review procedures as specified in Subpart G of Part 1940 of this chapter and attach it to the application.

(b) Prepare a review of the project in accordance with Subpart F of Part 1901 of this chapter and attach it to the preapplication.

(2) All District Directors receiving informational copies of the preapplication should submit their comments within five working days to the District Director with whom the preapplication is filed.

(3) The District Director receiving the original preapplication will provide written comments to be attached to the preapplication. These comments will, at a minimum, address the following items:

(a) Whether the area to be covered by the project is a "rural area" as defined in Subpart A of Part 1944 of this chapter.

(b) The District Director's knowledge of the applicant's past history.

(c) The need for the proposed activity, and its relationship to FmHA housing activities anticipated in the District.

(d) Appropriateness and applicability of this proposal for FmHA funding.

(e) Extent of citizen involvement in development of the preapplication, particularly the involvement of minority and/or low-income groups.

(f) All other critheria specified in § 1944.679 of this subpart.

(4) The original and one copy of the preapplication, together with the District Director's written comments and recommendations, will be forwarded to the State Director within 15 calendar days from the deadline for receipt of completed preapplications.

(B) *State Office processing of preapplications.*

(1) Upon receipt of a preapplication, the State Office will review and evaluate the preapplication and accompanying documents and the District Director's comments in accordance with the project selection criteria of § 1944.679 of this subpart and the procedures outline below:

(a) Review preapplications for completeness and adequacy.

(b) Request clarifications from the District Office if necessary.

(c) Evaluate the proposals in light of § 1944.679(a) of this subpart to establish applicant eligibility and select the proposal(s) under the project selection criteria in § 1944.679(b) of this subpart. Selection is a competition process and applicants best meeting the selection criteria should be asked to prepare a full application.

(d) Provide written comments to be attached to the preapplication(s) justifying the selection(s) and addressing the items in § 1944.679 of this subpart.

(e) Return the preapplication(s) not selected by the State Office to the appropriate District Office with reasons noted for nonselection. The District Director will forward to the applicant a letter of denial and notice of appeal rights under Subpart B of Part 1900 of this chapter.

(2) In accordance with § 1944.675 of this subpart, State Offices will be advised of the allocation of HPG funds. States may request additional funds from the National Office Reserve if the State's allocation is not sufficient to fund its two higest priority rated preapplications or additional highly rated preapplications.

(3) The State Office will also:

(a) Make a determination of the environmental impact of the overall HPG program on Form FmHA 1940–21, "Environmental Assessment for Class I Action," Form FmHA 1940–22, Environmental Checklist for Categorical Exclusions," or Class II Environmental Assessment under Subpart B of Part 1940 of this subpart or complete an Environmental Impact Statement, if required.

(b) Prepare an historical and archaeological assessment in accordance with § 1901.255(b) and (c) of Subpart F of Part 1901 of this chapter.

(c) Review comments received in accordance with 7 CFR Part 3015, "Intergovernmental Review of Agriculture Programs and Activities," (see FmHA Instruction 940–J), and the comments and recommendations of the County Office(s), District Office(s),and the State Office.

(4) Concurrently the State Office will obtain an opinion from the Regional Office of the General Counsel (OGC) on the applicant's legal existence and authority to conduct the proposed program.

(5) Within 30 calendar days of receipt by the State Office or 45 calendar days of the closing date for receipt of preapplications, whichever is shorter, preapplications will be reviewed for completeness and compliance with this subpart and evaluated in accordance with the project selection criteria of § 1944.679 of this subpart. For preapplications which are selected, and for which funds are available, the State Director will issue Form AD–622, "Notice of Preapplication Review Action" and request the applicant to prepare Form AD–623, "Application for Federal Assistance (Nonconstruction Programs)," for submission to the District Office. The request will include instructions to the applicant for preparation of the full application as well as a copy of Form AD–623. State Offices will send a copy to the District Offices.

(6) The State Director will notify other applicants that their preapplications were not selected using Form AD–622, "Notice of Preapplication Review Action," and advise them of their appeal rights under Subpart B of Part 1900 of this chapter.

III. *Application.*

(A) *District Office Processing of Application.*

(1) After receipt of Form AD–622, the applicant will submit an application in an original and 2 copies on Form AD–623, and provide whatever additional information is requested to the District Office within 30 calendar days.

(2) Upon receipt of an application Form AD–623, by the District Office, a docket shall be assembled which will include the following:

(a) Form AD–621 and the information submitted in accordance with § 1944.676 of this subpart.

(b) Form AD–622.

(c) Any comments received in accordance with 7 CFR Part 3015 Subpart V, "Intergovernmental Review of Department of Agriculture Programs and Activities." See FmHA Instruction 1940–J.

(d) Form AD–623.

(e) OGC legal determination made pursuant to paragraph II B 3 of this exhibit.

(f) Housing Preservation Grant Agreement.

(g) Form FmHA 1940–1, "Request for Obligation of Funds."

(h) Form FmHA 400–1, "Equal Opportunity Agreement."

(i) Form FmHA 400–4, "Assurance Agreement."

(j) Form FmHA 1940–20, "Request for Environmental Information."

(k) Form FmHA 1940–22, "Environmental Checklist for Categorical Exclusions," Form FmHA 1940–21, "Evironmental Assessment for Class I Actions" or Exhibit H, Subpart G of Part 1940 entitled, "Environmental Assessment for Class II Actions," or an Environmental Impact Statement, if required.

(l) The historical and archaeological assessment.

(m) The detailed budget for the agreement period based upon the needs outlined in the proposal and the comments and recommendations by FmHA.

(3) The District Office will review the docket to determine whether the application complies with these regulations and is consistent with the information and supporting documents submitted with the preapplication and any comments and recommendations of the State Office.

(4) If major problems occur during the development of the docket, the District Office will call upon the State Office for assistance.

(5) If a grant is recommended, Form FmHA 1940–1 and the Grant Agreement will be prepared by the District Office and forwarded to the applicant for signature as authorized in its authorizing resolution. Exhibit A, Grant Agreement, is a part of the HPG regulations.

(6) When Form FmHA 1940–1 and the Grant Agreement are received from the applicant and signed by the applicant, the docket will be forwarded to the State Director.

(B) *State Office Processing and Approval Actions.*

(1) The State Office will review the docket submitted by the District Office. If acceptable for State Director's approval, the following actions will be taken in the order listed:

(a) The State Director, or the State Director's designee, will authorize the request for obligation of HPG funds through the State Office terminal, furnishing the appropriate security identification code. Failure to furnish the security code will result in rejection of the obligation request.

(b) The individual making the request will record the date and time of the request and sign Section 43 of Form FmHA 1940–1.

(i) The terminal operator should use the State Office terminal to verify the obligation date by use of the ADPS status inquiry function (option 3 on the ADPS menu screen). If funds were not available for the project, the terminal generator will immediately advise the State Director.

(ii) The State Office will not submit the Form FmHA 440–57, to Finance Office for HPG grants.

(iii) Form FmHA 1940–1 will not be mailed to the Finance Office.

(c) The State Office will provide a completed Exhibit A to FmHA Instruction 2015–C to the Director of Legislative Affairs and Public Information Staff in the National Office and recommend that the project announcement be released under FmHA Instruction 2015–C.

(d) When the State Office determines that applicable administrative actions have been completed, the Grant Agreement (Exhibit A) will be executed by the State Director. An executed original of the Grant Agreement shall be sent to the District Director.

(e) An executed Form FmHA 1940–1 will be sent to the applicant along with a copy of the executed Grant Agreement with the approved statement of activities on or before the date set for obligation.

(i) The actual date of applicant notification will be entered on the original of Form FmHA 1940–1 and the original of the form will be included as a permanent part of the file.

(ii) Standard Form 270, "Request for Advance or Reimbursement," will be sent to the applicant for completion and return to FmHA.

(f) Upon receipt from the grantee of a properly completed SF–270, Form FmHA 440–57 will be completed and the State Office will request the check through the State Office terminal system in accordance with State Instructions.

(2) If the State Director disapproves the project at this stage in the processing, it should be based on new information about the applicant's eligibility and/or project feasibility. The State Office will fully document its findings and follow the appeal procedure in Subpart B of Part 1900 of this chapter.

(3) If it is determined that a project will not be funded or if major changes in the scope of the project are made after release of the approval announcement, the procedure under § 2015.102(c) of FmHA Instruction 2015–C will be followed.

(4) An approved grant may be canceled before execution of the Grant Agreement if the applicant is determined to no longer be eligible, the proposal is no longer feasible, or the applicant requests cancellation. Cancellation will be accomplished as follows:

(a) The District Director will prepare Form FmHA 1940–10, "Cancellation of U.S. Treasury Check and/or Obligation," in an original and two copies (three copies if the HPG check has been received in the District Office from the disbursing office.) Form FmHA 1940–10 will be sent to the State Director (original and two copies with the check if the Treasury check is being canceled) with the reasons for requesting cancellation.

(b) If the State Director approves the request for cancellation he/she will forward the original request for cancellation (original and one copy of Form FmHA 1940–10 with the check if the Treasury check is being canceled) to the Finance Office.

(c) The District Director will notify the applicant of the cancellation and, unless the applicant requested the cancellation, its right to appeal under Subpart B of Part 1900 of this chapter.

IV. *Requesting HPG checks.*

A. The initial advance of HPG grant funds may not be requested simultaneously with the terminal request for obligation of the grant funds. The check for the initial advance should be requested through the State Office terminal system after the obligation date provided by the status inquiry function.

B. All advances will be requested only after receipt of Standard Form 270 from the grantee. The amount requested must be in accordance with the applicant's budget and statement of activity, including amendments, as approved by FmHA. Standard Form 270 will not be submitted more frequently than once every 30 calendar days. In no case will additional funds be advanced if the grantee fails to submit required reports or is in violation of the Grant Agreement.

C. FmHA may not hold HPG checks longer than 20 calendar days and only that long if necessary to obtain the necessary reports from the grantee. After 20 calendar days, the check must be returned to the Finance Office to be reissued when needed and the applicant advised in writing of the reasons for not receiving their funds.

V. *Grant monitoring.*

A. Each grant will be monitored by FmHA to ensure that the grantee is complying with the terms of the grant and that the HPG project activity is completed as approved. Ordinarily, this will involve FmHA's review of quarterly and final reports submitted by the grantee pursuant to § 1944.683 of this subpart.

B. These reports will be initially reviewed by the District Office to determine satisfactory progress. The District Office will meet with the grantee quarterly after receipt of the progress report to discuss the report and to resolve any problems. The original and one copy of the reports with comments and recommendations on the following areas will be forwarded to the State Office within 15 calendar days of receipt:

(1) The accuracy of the information submitted as to number of units assisted, the

(2) Where the grantee finds that the unit is so located that it needs an environmental

NUCLEAR REGULATORY COMMISSION

For the Nuclear Regulatory Commission.
Samuel J. Chilk,

Regulations held on July 1, 1985, in Las Vegas, Nevada, Mr. Thomas A. Hine,

Independence Avenue, SW., Washington, D.C. 20591. All comments

(1) The accuracy of the information submitted as to number of units assisted, the cost of assistance, and the type of recipients;
(2) The accomplishment of quarterly objectives and the accuracy of the grantee's schedule.
(3) The grantee's performance in implementing environmental and historic preservation processes of § 1944.673 of this subpart.
(4) The type of assistance provided, if necessary, to the grantee to help accomplish the objectives; and
(5) Any recommendations for modifying or amending the statement of activities to reflect grantee activities.

C. The State Office will work closely with the District Office and the grantee to assure adequate HPG performance. The State Office should assist the District Office, as appropriate, in resolving any problems or taking advantage of favorable funding or program opportunities. The State Office will review the reports, comments, and recommendations forwarded by the District Office within fifteen calendar days of receipt.

(1) If the reports indicate satisfactory progress, the State Office will forward a copy to the National Office with all review comments or suggestions and return the original to the District Office and the remaining copy to the grantee through the District Office with a copy of the comments or recommendations.

(2) If the reports indicate unsatisfactory progress, the State Director will recommend appropriate action to resolve the indicated problem(s). In accordance with §§ 1944.683 and 1944.688 and the Grant Agreement, the State Director has the discretion to suspend or terminate the grant where the progress of the project is unsatisfactory. The State Director will notify the grantee in writing through the District Director of a decision to suspend or terminate the grant, providing the grantee with the reasons for such action, possible corrective measures the grantee may take, and the effective date of the action. FmHA will also advise the grantee of its appeal rights under Subpart B of Part 1900 of this chapter.

(3) A copy of the unsatisfactory report and the memorandum returning it will be forwarded to the National Office together with the State Director's decision, comments, and recommendations, as appropriate.

VI. *Environmental Process After Grant Approval.*

A. Applicants will provide environmental information on the area to be served by the HPG program on Form FmHA 1940-20 as part of the their preapplication. In addition, applicants will include in their Statement of Activities their process for assessing whether an individual property requires an assessment because it is located in a floodplain or wetland or is eligible for or listed on the National Register of Historic Places.

B. Grantees are responsible for making an initial environmental review of each unit to be provided HPG assistance.

1. Where there is no wetland or floodplain location involved, or potential impact on an historic property, the grantee must so document in the recipient's file.

(2) Where the grantee finds that the unit is so located that it needs an environmental assessment, the grantee will advise FmHA under § 1944.673(a)(3) of this subpart, and assist FmHA in preparing an environmental assessment. The property to receive HPG assistance will be handled similar to a Section 502 loan, even though the financing will be from the HPG grantee. The grantee may be required, if further site information is needed, to prepare and submit an FmHA Form 1944-20 for the property, with the grantee being the "applicant". FmHA will then prepare the appropriate assessment outlined in Subpart G of Part 1940 of this chapter, working with the grantee to develop alternative actions as appropriate.

(3) Upon completion of the FmHA assessment, the grantee will be advised of appropriate action to comply with the results of the assessment. A copy of FmHA's assessment will be given to the grantee for filing in the recipient's file. FmHA will maintain a copy of the review and related correspondence in the HPG file in the servicing office.

VII. *Extending Grant Agreements and Modifying Statements of Activities.*

A. If request for a grant extension is approved under § 1944.684 of this subpart, the State Director will authorize the District Director to amend the ending date of the Grant Agreement and revise the budget, if necessary, on behalf of the Government.

B. If grantee requests any modifications to the Statement of Activities for the HPG program under § 1944.684 of this subpart, the grantee will submit the modified Statement of Activities, and HPG budget if appropriate, together with any information necessary to justify its requests. Such requests will be submitted to the State Director through the FmHA servicing office which will review and recommend approval if it concurs with the modifications.

C. Exhibit B to this subpart shall be executed upon approval of an extension of the grant period, or significant change in either the project budget or the approved HPG processes contained in the Statement of Activities.

D. If an extension or modification is not approved, the State Director will notify the applicant in writing of the decision and advise the applicant of the appeal procedures under Subpart B of Part 1900.

E. Additional grants to the HPG recipient will be considered and processed competitively, similar to an initial grant as provided in § 1944.686 of this subpart. Upon approval, a new grant agreement will be required and the grant will be coded as an initial grant on Form FmHA 1940-1.

Authority: 42 U.S.C. 1480; 7 CFR 2.23; 7 CFR 2.70.

Dated: March 19, 1985.

Dwight O. Calhoun,
Acting Associate Administrator, Farmers Home Administration.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 2

Adjudications; Special Procedures for Resolving Conflicts Concerning the Disclosure or Nondisclosure of Information; Extension of Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule: Extension of comment period.

SUMMARY: On May 22, 1985 (50 FR 21072), the Nuclear Regulatory Commission published proposed amendments to its rules of practice to provide special procedures for resolving conflicts concerning the disclosure or nondisclosure of information relating to an NRC investigation or inspection not yet concluded or which would reveal the identity of a confidential informant and deemed relevant and material to an adjudication. The notice provided a 60-day period for public comment expiring on July 22, 1985. Two interested parties have requested a thirty day extension of time. Based on the significance of the issues involved and other factors, the NRC has decided to extend the comment period to August 23, 1985.

DATE: The extended comment period expires August 23, 1985. Comments received after that date will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before that date.

ADDRESSES: Submit written comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch. Comments may also be delivered to Room 1121, 1717 H Street, NW., Washington, D.C. between 8:15 a.m. and 5:00 p.m. Copies of comments received may be examined at the NRC Public Document Room 1717 H Street, NW., Washington, D.C. 20555.

FOR FURTHER INFORMATION CONTACT: Jane R. Mapes, Senior Regulations Attorney, Regulations Division, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555; Telephone: (301) 492-8695.

Dated at Washington, D.C., this 23rd day of July, 1985.

For the Nuclear Regulatory Commission.
Samuel J. Chilk,
Secretary of the Commission.

DEPARTMENT OF ENERGY

Western Area Power Administration

10 CFR Part 904

Delay in Comment Period on Proposed General Regulations for the Charges for the Sale of Power From the Boulder Canyon Project

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of a Delay in Comment Period on Proposed General Regulations for the Charges for the Sale of Power From the Boulder Canyon Project.

SUMMARY: The Boulder City Area Office of the Western Area Power Administration (Western) published the proposed "General Regulations for the Charges for the Sale of Power from the Boulder Canyon Project," 10 CFR Part 904 (proposed General Regulations) in the **Federal Register** (50 FR 20732) on May 17, 1985. Interested parties were invited to submit comments concerning the proposed General Regulations to the Boulder City Area Office of Western on or before July 15, 1985.

On July 1, 1985, in response to a request by the current and proposed Boulder Canyon Project allottees, Western announced a 90-day delay in the public process on the proposed General Regulations. As a result of the 90-day delay in the public process, the deadline for comments concerning the proposed General Regulations has been extended.

DATES: All comments concerning the proposed General Regulations should be submitted on or before October 1, 1985.

ADDRESS: All written comments concerning the proposed General Regulations should be sent to: Mr. Thomas A. Hine, Area Manager, Boulder City Area Office, Western Area Power Administration, P.O. Box 200, Boulder City, NV 89005.

SUPPLEMENTARY INFORMATION: On June 27, 1985, Western received a letter from the Colorado River Commission on Nevada on behalf of the Boulder Canyon Project renewal contractors and proposed Uprating Program allottees, requesting a 90-day delay in the public process on the proposed General Regulations. At the public comment forum on the proposed General Regulations held on July 1, 1985, in Las Vegas, Nevada, Mr. Thomas A. Hine, Area Manager, Boulder City Area Office, Western Area Power Administration, read a letter dated July 1, 1985, addressed to Mr. Jack Stonehocker, Colorado River Commission of Nevada, from Western, granting a 90-day delay in the public process on the proposed General Regulations. The delay was granted in order to resolve the concerns expressed by Mr. Stonehocker on behalf of the parties involved.

It is Western's intent to consider all recommendations made by the parties involved for the formulation of the proposed General Regulations. If necessary, Western will publish revised proposed General Regulations in the **Federal Register** and hold a second comment forum on the proposed General Regulations.

Issued at Golden, Colorado, July 12, 1985.
William H. Clagett,
Administrator.

Federal Aviation Administration

14 CFR Parts 25 and 121

[Docket No. 24594, Notice No. 85-10A]

Improved Flammability Standards for Materials Used in the Interiors of Transport Category Airplane Cabins

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM) reopening of comment period.

SUMMARY: This notice announces the reopening of the comment period for Notice of Proposed Rulemaking (NPRM) No. 85-10, which invites comments relative to amending Parts 25 and 121 of the Federal Aviation Regulations (FAR) to upgrade the fire safety standards for cabin interior materials in transport category airplanes. This reopening is necessary to afford all interested parties an opportunity to present their views on the proposed rulemaking.

DATES: Comments must be received on or before September 9, 1985.

ADDRESS: Comments on this proposal may be mailed in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-204), Docket No. 24594, 800 Independence Avenue SW., Washington, D.C. 20591; or delivered in duplicate to: Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591. All comments must be marked: Docket No. 24594. Comments may be inspected in Room 916 weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. In addition, the FAA is maintaining an information docket of comments in the Office of the Regional Counsel (ANM-7), FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168. Comments in the information docket may be inspected in the Office of the Regional Counsel weekdays, except Federal holidays, between 7:30 a.m. and 4:00 p.m.

FOR FURTHER INFORMATION CONTACT: Richard Nelson, Regulations Branch, Transport Standards Staff, ANM-110, Aircraft Certification Division, FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168; telephone (206) 431-2121.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments relating to the environmental, energy, or economic impact that might result from adopting the proposals contained in Notice No. 85-10 (50 FR 15038; April 16, 1985) are invited. Substantive comments should be accompanied by cost estimates. Commenters should identify the regulatory docket or notice number and submit comments, in duplicate, to the Rules Docket address above. All comments received on or before the closing date for comments will be considered by the Administrator before taking action on this proposed rulemaking. The proposals contained in Notice No. 85-10 may be changed in light of comments received. All comments will be available in the Rules Docket for examination by interested persons, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerning this rulemaking will be filed in the docket. Commenters wishing the FAA to acknowledge receipt of their comments must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 24594." The postcard will be date/time stamped and returned to the commenter.

Availability of NPRM

Any person may obtain a copy of Notice No. 85-10 by submitting a request

to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center (APA-430), 800 Independence Avenue SW., Washington, D.C. 20591; or by calling (202) 426-8058. Communications must identify Notice No. 85-10. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedures.

Background

On April 8, 1985, the FAA issued Notice No. 85-10 (50 FR 15038; April 16, 1985), which provided a 90-day comment period, closing on July 15, 1985. In that notice the FAA proposed to amend Parts 25 and 121 of the FAR to upgrade the fire safety standards for cabin interior materials in transport category airplanes by: (1) Establishing new fire test criteria for type certification; (2) requiring that the cabin interiors of airplanes manufactured after a specified date and used in air carrier service comply with these new criteria; and (3) requiring that the cabin interiors of all other airplanes type certificated after January 1, 1958, and used in air carrier service comply with these new criteria upon the first replacement of the cabin interior.

The FAA invited interested persons to submit comments and suggestions as to future action regarding this rulemaking. Since Notice No. 85-10 was published, several requests have been received for extension of the comment period from persons wishing more time in which to study the proposal and to prepare comments. Also, subsequent to the notice, the FAA Technical Center and an industry trade association have completed a series of tests to assess the reproducibility of the specified test method among various laboratories. Based on that series of tests, the FAA Technical Center has recommended certain adjustments in test procedures and acceptance criteria, including: (1) Adjustment of the specimen exposure heat flux from 5 W/CM^2 to 3.5 W/CM^2; (2) elimination of the oxygen depletion method of measuring heat release, leaving only the thermopile method; (3) adjustment of the pass/fail criteria for total heat release over the first two minutes of sample exposure from 40 to 65 kilowatt-minutes per square meter; and (4) inclusion of a requirement for a peak heat release rate of 65 kilowatts per square meter. These recommendations are contained in a memorandum report dated July 11, 1985, from the Manager of the Fire Safety Branch, ACT-350, to the manager of the Regulations Branch, ANM-112. A copy of this memorandum report has been placed in the Rules Docket for public inspection and comment.

Reopening of Comment Period

In consideration of the need for public participation in determining future action regarding this rulemaking, the FAA concludes that the comment period should be reopened.

Accordingly, the comment period for Notice No. 85-10 is reopened for an additional 45 days.

Conclusion

This document reopens the comment period on an NPRM to afford the public and industry with additional time in which to review and respond to this notice. The FAA has determined that this document involves a proposed regulation which is considered to be significant as defined in Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). This document is not major as defined in Executive Order 12291. The FAA certifies that this regulation, if promulgated, will not have a significant economic impact on a substantial number of small entities.

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 84-ASW-45]

Airworthiness Directive; Hughes Helicopters, Inc., Model 269C Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Withdrawal of proposed rule.

SUMMARY: This document withdraws a notice of proposed rulemaking (NPRM) which proposed the adoption of an airworthiness directive (AD) that would have required the removal from service of certain main rotor blades which were modified without FAA design approval and used on Hughes Helicopters, Inc., Model 269C helicopters. The NPRM was prompted by the possibility of main rotor imbalance if one abrasion strip separated from the main rotor blades during flight. Upon further consideration and in light of additional findings, the FAA has determined that the proposed AD is not required and, accordingly, the proposed airworthiness directive is being withdrawn.

FOR FURTHER INFORMATION CONTACT: Jerry Sullivan, Aerospace Engineer, Airframe Section, Western Aircraft Certification Office, Northwest Mountain Region, FAA, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009-2007, telephone (213) 536-6166.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive which, if adopted, would have required that 38 specific Hughes Helicopters, Inc., Model 369 main rotor blades be removed from service until restored to original or other FAA-approved type design was published in the **Federal Register** on January 15, 1985 (50 FR 2059). Comments were requested from the public. The comment period closed March 1, 1985. No comments were received. The FAA arranged for specimens of the subject questionable main rotor blade/abrasion strip bond modification to be analyzed. The specimens were found to meet the original manufacturer's material and process specification with what are considered to be relatively minor variations.

Based on the findings stated above, the FAA has determined that the proposed AD is not justified and the NPRM is being withdrawn. The withdrawal of the NPRM does not preclude the FAA from issuing similar notices in the future, nor does it commit the FAA to any course of action in the future.

Since this withdrawal of an NRPM will have no impact and may be made effective in less than 30 days, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will have no significant economic impact on small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Withdrawal

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration withdraws a proposal to amend § 39.13 of the FAR as follows:

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421, and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.89.

2. By withdrawing the proposed airworthiness directive, Docket No. 84-ASW-45, published in the **Federal Register** on January 29, 1985 (50 FR 3917).

Issued in Fort Worth, Texas, on July 5, 1985.

14 CFR Part 39

[Docket No. 85-ANE-24]

Airworthiness Directives; Secur Aiglon (Formerly l'Aiglon) Model 343 Safety Belts

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to adopt an airworthiness directive (AD) that would require a modification of Secur Aiglon (formerly l'Aiglon) type 343, 343A, 343B, and 343C buckles used on Model 343 safety belts. The proposed AD is needed to prevent any possible blockage and failure to unlock the belt. This NPRM is consistent with the manufacturer's service bulletin (SB) which was made mandatory by French Airworthiness Authority (DGAC) AD 84-73-(AB).

DATES: Comments must be received on or before October 8, 1985.

ADDRESSES: Comments on the proposal may be mailed in duplicate to: Office of the Regional Counsel, Attn: Docket No. 85-ANE-24, FAA, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803 or delivered in duplicate to the above address, to Room 311.

Comments delivered must be marked: Docket No. 85-ANE-24.

Comments may be inspected at Room 311 between the hours of 8:00 a.m. and 4:30 p.m. Monday through Friday, except Federal holidays.

The applicable SB may be obtained from Anjou Aeronautique, Avenue de l'Osier, 49125 Tierce, France.

A copy of the applicable SB is contained in the Rules Docket, Office of the Regional Counsel, Federal Aviation Administration, New England Region, Room 311, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: Mr. Ted T. Ebina, Brussels Aircraft Certification Office, AEU-100, 15 Rue de la Loi, B-1040 Brussels, Belgium, telephone 513.38.30.

SUPPLEMENTARY INFORMATION: Interested persons invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Director before taking action on the

proposed rule. The proposal contained in this notice may be changed in the

The Proposed Amendment

SUMMARY: The Commission is proposing amendments to Parts 16 and 17 of its

large traders required under 17 CFR Part 18.[1]

media using a format and coding structure approved by the Commission

Government. GAO's report used case studies of reporting requirements placed

proposed rule. The proposal contained in this notice may be changed in the light of comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket, at the address given above, for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped post card on which the following statement is made: "Comments to Docket Number 85-ANE-24". The post card will be date/time stamped and returned to the commenter.

The DGAC has, in accordance with existing provisions of a bilateral agreement, notified the FAA of a modification needed on the safety belts to correct jamming of the buckle in the locked position. An incident had indicated that the belt buckle restraint system may become jammed, prevent unlocking of the belt buckle, and entrap the occupant if it is fastened in a certain manner.

Since the condition is likely to exist or develop on other safety belts of the same design, an AD is proposed that would require a modification of type 343, 343A, 343B, and 343C belt buckle fitted on Secur Aiglon Model 343 safety belts.

Conclusion

The FAA has determined that this proposed regulation involves 30,000 safety belts at an approximate labor cost of $12.50 per belt. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a significant rule under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) if promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified under the caption **"FOR FURTHER INFORMATION CONTACT."**

List of Subjects in 14 CFR Part 39

Aircraft, Aviation safety, Incorporation by reference.

The Proposed Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me the FAA proposes to amend Part 39 of the Federal Aviation Regulations (FAR) as follows:

1. The authority citation continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.85.

2. By adding the following new AD:

Secur Aiglon: Applies to Secur Aiglon (formerly l'Aiglon) Model 343 safety belts equipped with type 343, 343A, 343B, 343C buckles installed in, but not limited to, Aerospatiale SA360C helicopters.

Compliance is required as indicated unless already accomplished.

To prevent any possible blockage and failure to unlock the belt, accomplish the following:

Within the next 90 days after the effective date of this AD, modify the belt buckle in accordance with the repair instructions specified in Secur Aiglon SB No. TRW 1 dated April 27, 1984, or later FAA approved revision.

Note.—Incorporation of the SB which repairs the defective buckle, constitutes terminating action for this AD.

Upon request, an equivalent means of compliance with the requirements of this AD may be approved by the Manager, Brussels Aircraft Certification Office, AEU-100, 15 Rue de la Loi, B-1040, Brussels, Belgium, telephone 513.38.30.

Upon submission of substantiating data by an owner or operator through an FAA maintenance inspector, the Manager, Brussels Aircraft Certification Office, AEU-100, 15 Rue de la Loi, B-1040, Brussels, Belgium, may adjust the compliance time specified in this AD.

The FAA will request the permission of the Federal Register to incorporate by reference the manufacturer's SB identified and described in this document.

Issued in Burlington, Massachusetts on July 18, 1985.

Robert E. Whittington,

Director, New England Region.

BILLING CODE 4910-13-M

COMMODITY FUTURES TRADING COMMISSION

17 CFR Parts 16, 17, and 18

Reporting Requirements for Contract Markets, Futures Commission Merchants, Clearing Members and Traders

AGENCY: Commodity Futures Trading Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Commission is proposing amendments to Parts 16 and 17 of its regulations which are intended to provide the Commission with important surveillance data on a more timely basis. Proposed amendments to Part 16 would require that exchanges submit data under rules 16.00, 16.01 and 16.02 to the Commission by 12:00 noon on the business day following the day to which the information pertains. Currently the time of day for exchange submissions is not specified. Under the proposed amendments to Part 17, all futures commission merchants (FCM's), clearing members and foreign brokers would be required to submit the information specified under rule 17.00(a) in machine readable form unless otherwise directed by the Commission or its designee. FCM's and foreign brokers which are exempt from automated reporting and which mail reports would have to mail such reports not later than the day covered by the report.

The Commission is also proposing clarifying amendments to rule 16.06 which requires a contract market promptly to inform the Commission of errors and omissions in data it has provided to the Commission and to rule 18.04 concerning information provided by large traders on CFTC Form 40.

DATES: Comments must be submitted on or before September 24, 1985.

ADDRESS: Comments should be sent to the: Commodity Futures Trading Commission, 2033 K St., NW., Washington, D.C. 20581. Attn: Secretariat.

FOR FURTHER INFORMATION CONTACT: Lamont Reese, Associate Director, Market Surveillance Section, Division of Economic Analysis, 2033 K Street, NW., Room 507, Washington, D.C. 20581. 202-254-3310.

SUPPLEMENTARY INFORMATION: The Commission has established a comprehensive reporting system through which it receives data for both futures and options markets. These data are necessary for the purposes of market surveillance which include prevention of market manipulation and congestion and enforcement of speculative limits, and for research and market analysis programs. The system includes reports from contract markets concerning options and futures data required under 17 CFR Part 16; reports from FCM's clearing members and foreign brokers concerning futures positions and transactions of large traders required under 17 CFR Part 17; and reports from large traders required under 17 CFR Part 18.[1]

I. Proposed Amendments to Part 16

Under Part 16 of the Regulations, each contract market provides information concerning the futures and options positions and transactions of members of its clearing organization, 17 CFR 16.00; futures and options trading volume, open contracts and prices, 17 CFR 16.01; large option trader reports, 17 CFR 16.02; and month-end reports, 17 CFR 16.04. These data are supplied by the contract markets in both hard copy and machine readable form. Upon receipt of the machine readable data, the Commission processes the data and updates its data base. Because of the large volume of data involved, this update can only be made once a day.

Currently, a contract market must submit the data required under rules 16.00, 16.01 and 16.02 on the business day following the day to which the information pertains. The rules, however, do not specify a time of day by which the data must be provided. (See 17 CFR 16.00(b), 16.01(d), and 16.02(b).) Data are received routinely from the exchanges at any time from noon until the close of business. When the data are received near or at the close of business, they are not timely for market surveillance purposes, and there is insufficient time to include the data in the daily update to the data base. The Commission must then forgo use of these data for another 24 hour period.

In view of the above, the Commission is proposing to amend rules 16.00(b), 16.01(d) and 16.02(b) to require that the exchanges provide the information required under rules 16.00(a), 16.01(a)(b) and 16.02(a) in both hard copy and machine readable form by 12:00 noon of the business day following the day to which the information pertains.[2]

The Commission is also proposing clarifying amendments to rule 16.06, 17 CFR 16.06 (1984), under which contract markets must notify the Commission of omissions or errors in the data supplied under Part 16. The proposed amendments to § 16.06 would require that corrections to errors and omissions in reports filed in machine readable form under Part 16 be provided on Commission compatible data processing media using a format and coding structure approved by the Commission or its designee. The contract markets have an obligation at all times to provide the Commission with accurate reports. The Commission recognizes, however, that because of the time limitations for submitting Part 16 data, contract markets may not have resolved all data problems and in fact there may be further adjustments. The Commission expects that contract markets will maintain a program designed to detect errors or omissions and promptly provide corrections to the Commission.

II. Proposed Amendments to Part 17

Commission rule 17.00 requires each FCM, clearing member and foreign broker to submit daily series '01 reports to the Commission concerning special accounts.[3] These reports must show reportable futures positions, exchanges of futures for cash and delivery notices issued or stopped for such accounts.

Under § 17.03 of the regulations, 17 CFR 17.03 (1984), any FCM or clearing member may provide the information required under rule 17.00 on Commission compatible data processing media or updated, Commission-supplied computer printouts using a format and coding structure approved by the Commission. Five firms currently supply daily series '01 information on magnetic tape.[4] These five firms report approximately 11 percent of all daily '01 information.

The Commission's experience with receiving information in machine readable form indicates that it improves data collection and saves time, money, and effort for both the Commission and respondents. The improvement in the data collection results from higher levels of accuracy in the data due to a reduction in transcription and key punch errors and the fact that machine readable data are available to the Commission on a more timely basis.

In a 1983 report to the Committee on Government Operations, House of Representatives, the Comptroller General (GAO) confirmed the Commission's experience.[5] The Committee on Government Operations requested that the GAO identify, in selected agencies, where information technology could improve economy and efficiency in the transfer of data from private businesses to the Federal Government. GAO's report used case studies of reporting requirements placed on businesses by the Departments of Health and Human Services and Commerce and by the Commodity Futures Trading Commission.

In its case study of the Commission's reporting system, GAO contacted 19 firms which in total reported an average of 4,215 accounts daily. Only two of the 19 firms reported data in a machine readable form. GAO found tha 12 of the remaining 17 firms were capable of or interested in reporting their data in machine readable form.[6] Each of these firms either had in-house capability or used a service bureau which has the capability to report on magnetic media on its behalf.

In terms of benefits, GAO found that although some firms would realize savings, the primary benefit to respondents resulted from efficiency of operation. With respect to the Commission, the GAO found that government-cost-savings potential was evident, and that automated submissions to the CFTC would eliminate time-consuming steps in processing data and significantly improve surveillance through more timely data.[7] In light of its own experience and GAO's findings, the Commission is proposing that information required under rule 17.00 be provided to the Commission in machine readable form by FCM's, foreign brokers and clearing members.

The proposed amendments to § 17.00 specifically provide that an FCM, foreign broker or clearing member submit information in machine readable form that is compatible with the Commission's data processing system using a format and coding structure specified in new paragraph 17.00(g). Paragraph 17.00(g) allows reporting only on 1600 BPI magnetic tape with EBCDIC encoded card images and a standard IBM label unless otherwise approved by the Commission or its designee. The paragraph also specifies record formats and definitions for various fields on the tape. The information which must be provided on tape includes a five digit number assigned by the Commission to the FCM, foreign broker or clearing member, the account number assigned by the respondent to a special account, contract market identifier, report date and the position and transaction information currently specified in paragraph 17.00(a)(2) of the regulations. The rules concerning interest in or control of several accounts contained in

[1] Traders are considered large in futures if they own or control a position which exceeds certain levels established by the Commission. See 17 CFR 15.00(b)(1) and 15.03(a).

[2] The Commission is also proposing amendments to rules 16.00(b), 16.01(d), 16.02(b) and 16.04(b) to reflect accurately the types of magnetic media which are compatible with the commission data processing system. These include only magnetic tape and diskettes.

[3] A special account is defined in rule 15.00(c) of the Commission's regulations to mean any commodity futures or option account in which there is a reportable position, 17 CFR 15.00(c) (1984).

[4] A sixth firm is in the process of automating their reporting system.

purposes of the RFA. Thus, pursuant to section 3(a) of the RFA (5 U.S.C. 605(b)),

2. § 16.000 is proposed to be amended by revising paragraph (b) as follows:

day following that to which the information pertains at the Regional

VOL 50 ISS 144 JL 26 1985 UMI

§§ 17.00 (b) and (c) and the methods for reporting positions on a net or a gross basis contained in §§ 17.00 (d) and (e), as well as the assignment of account numbers specified in § 17.01(a), will apply reporting by manual means.[8] The Commission welcomes specific comments from interested persons on the availability of these data in machine readable form and the cost and feasibility of transferring the data into the required format.

In proposing this amendment, the Commission anticipates that most if not all FMC's and clearing members are technologically able to comply with it, either through their own in-house data processing system or through the independent service bureaus which many FCM's and clearing members employ. Many foreign brokers may also be able to comply with these requirements. In a number of instances foreign brokers are affiliated with domestic firms which are FCM's and/or clearing members. The Commission believes that these domestic affiliates could provide a means through which the foreign brokers report series '01 information in an automated manner. Some daily series '01 reports of foreign brokers currently are reported in this fashion. Nevertheless, the Commission recognizes that in certain circumstances the respondents may not be able to comply with automated reporting requirements. Accordingly, the Commission has proposed a limited exemption in new rule 17.03 for the reporting entities who are technologically unable to meet the requirement that the information be provided in machine readable form.[9]

[8] The Commission would also like to clarify its rules with respect to assigning numbers to special accounts and is seeking comment concerning the desirability of amending § 17.01(a) to allow the use of two account numbers. Rule 17.01(a) requires that if a number is assigned to a special account for reporting futures information to the Commission, the same number must be used for reporting options information to the exchange. The number assigned for reporting futures information must be numeric. If a trader becomes reportable in options and is not reportable in futures, FCM's, clearing members and foreign brokers may report non-numeric account numbers to the exchange. However, if the account subsequently becomes reportable in futures, under current regulations, the account number will have to be changed. Alternatively in such cases, the Commission could allow the use to two account numbers, a non-numeric number for reporting options information to the exchange and a numeric account number for reporting futures information to the Commission.

[9] The Commission is proposing to delete current rule 17.03 which allows FCM's of clearing members to report data in machine readable form at their discretion.

Such entities may request that the Commission permit them to provide the information required under proposed rule 17.00 using series '01 reporting forms or Commission supplied computer printouts.

The Commission is also proposing to amend rule 17.02 specifying the place for, and time of, filing reports. Currently the Commission requires that series '01 reports and Form 102's be filed at the Commission office in the city in which the contract market involved in the reported transactions is located. The Commission recognizes that some FCM's or clearing members may have centralized data processing units and that it therefore may be more efficient for some firms to report all data in an automated fashion to a single Commission office. The Commission intends, therefore, to give instructions to respondents on a case-by-case basis concerning the office at which they must file reports. The Commission is proposing the amend rule 17.02 accordingly. The Commission is also proposing that the time for filing automated reports remain the same as that which currently applies to manual reporting—9:00 a.m. local time for the city in which the reports are filed.

The Commission is further proposing to delete rule 17.02(b) which allows foreign brokers to mail series '01 reports on a weekly basis, 17 CFR 17.02(b) (1984). If a foreign broker cannot comply with the Commission's requirement for automated reporting and obtains an exemption under proposed rule 17.03, the Commission is proposing to require that the foreign broker mail series '01 reports to the Commission not later than the day of the report. In certain market situations the Commission has found that weekly reporting by foreign brokers is not sufficient. The Commission believes that this proposed requirement will further its goals of receiving necessary surveillance data on a timely basis and of providing parity of treatment between domestic and foreign market participants. FCM's which mail series '01 reports are currently subject to this proposed requirement, 17 CFR 17.02(a)(2) (1984).

III. Proposed Amendments to Part 18

Regulation 18.04 requires each reportable trader to file with the Commission a "Statement of Reporting trader" on CFTC Form 40, 17 CFR 18.04 (1984). The Form 40 provides certain biographical information about the trader as well as information concerning the Trader's financial interest in organizations which trade futures and/or options and the trader's control over futures and/or options trading accounts. Paragraph (5), (8) and (9) of rule 18.04(a) set forth that the trader shall report certain information concerning the following:

(a) Persons whose accounts are controlled by the reporting trader, 17 CFR 18.04(a)(5);

(b) Persons who guarantee or who have a financial interest of 10% or more in the account of the trader, 17 CFR 18.04 (a)(8); and

(c) Accounts which the reporting trader guarantees or in which the trader has a financial interest of 10% or more. 17 CFR 18.04(a)(9).

The use of the term "account" in each of the above instances may be ambiguous and, if interpreted to mean a direct interest in a specific account, may deny the Commission information regarding important relationships involving financial interest or control between two or more persons who trade options or futures. The Commission is therefore proposing to modify the language in paragraph 18.04(a) (5), (8) and (9) to reflect more accurately its intentions.

In another area, paragraphs 18.04(b) (3) and 18.04(c) (8) request information concerning a trader's use of futures and/or options markets for hedging in conjunction with cash marketing activity. In a number of instances, certain traders which on the basis of other information appear to be commercial firms have stated that they do not use the options or futures markets for hedging because they did not understand these particular questions on the CFTC Form 40. To avoid this misunderstanding, the Commission is proposing clarifying amendments to paragraphs 18.04(b)(3) and 18.04(c)(8). If adopted, the CFTC Form 40 would be changed to reflect the language used in the amended regulations.

IV. Other Related Issues

A. The Regulatory Flexibility Act

The Regulatory Flexibility Act ("RFA") requires that agencies, in proposing rules, consider the impact of those rules on small business. These amendments affect large traders, futures commission merchants and other similar entities. The Commission has defined "small entities" as used by the Commission in evaluating the impact of its rule in accordance with the RFA, 47 FR 18618–18621 (April 30, 1982). In that statement, the Commission concluded that large traders and futures commission merchants are not considered to be small entities for

purposes of the RFA. Thus, pursuant to section 3(a) of the RFA (5 U.S.C. 605(b)), the Chairman, on behalf of the Commission, certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities. The Commission nonetheless invites comments from any firm which believes that these rules would have a significant economic impact upon its operations.

B. Paperwork Reduction Act

Pursuant to the provisions of the Paperwork Reduction Act of 1980, the Office of Management and Budget has assigned for use control numbers 3038–0007 and 3038–0009 to the regulations which appear herein and to the series '01 reports and Forms 103, 40 and 102.

Interested members of the public may obtain a complete copy of the information collections relating to the rules contained herein by contacting Joseph Salazar at (20) 254–8735. Persons wishing to comment on the Paperwork Reduction Act implications of the proposed rule change are asked to send a copy of their comments to Mr. Salazar at the Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, and to the OMB desk officer for the agency, Katie Lewin, Office of Information and Regulatory Affairs, Office Management and Budget, Washington, D.C. 20503.

List of Subjects

17 CFR Part 16

Commodity futures, Reports by Contract Markets, Reporting and recordkeeping requirements.

17 CFR Part 17

Brokers, Commodity futures, Reporting and recordkeeping requirements, Reports by Futures Commission Merchants, Members of Contract Markets and Foreign Brokers.

In consideration of the foregoing, the Commission is proposing to amend Parts 16, 17 and 18 of Chapter I of Title 17 of the Code of Federal Regulations as follows:

PART 16—REPORTS BY CONTRACT MARKETS

1. The authority citation for Part 16 continues to read as follows:

Authority: Sec. 5, 8a, 42 Stat. 1000, 49 Stat. 1500, 88 Stat. 1392; (7 U.S.C. 7, 12a)

2. § 16.000 is proposed to be amended by revising paragraph (b) as follows:

§ 16.00 Clearing member reports.

* * * * *

(b) Form and manner of reporting; time and place of filing reports. Unless otherwise approved by the Commission or its designee, the information required by paragraph (a) of this section shall be submitted in hard copy form and on compatible data processing magnetic tapes or magnetic diskettes using a format and coding structure approved in writing by the Commission or its designee. Unless otherwise instructed by the Commission or its designee, such information shall be submitted by 12:00 noon on the business day following the day to which the information pertains at the Regional Office of the Commission having local jurisdiction with respect to such contract market.

3. § 16.01 is proposed to be amended by revising paragraph (d) as follows:

§ 16.01 Trading Volume, Open Contracts and Prices

* * * * *

(d) Reports to the Commission. Unless otherwise approved by the Commission or its designee, the information specified in paragraphs (a) and (b) of this section shall be submitted to the Commission on compatible data processing magnetic tapes or magnetic diskettes, using a format and coding structure approved in writing by the Commission or its designee. Unless otherwise instructed by the Commission or its designee, such information shall be submitted by 12:00 noon on the business day following the day to which the information pertains at the Regional Office of the Commission having local jurisdiction with respect to such contract market.

4. § 16.02 is proposed to be amended by revising paragraph (b) as follows:

§ 16.02 Large Option Trader Reports

* * * * *

(b) Form and manner of reporting. The information required by paragraph (a) of this section shall be submitted in hard copy form and on compatible data processing magnetic tapes or magnetic diskettes, using a format and coding structure approved in writing by the Commission or its designee. For options on futures and for options on physicals that are settled in cash, such information shall be compiled weekly as of the close of business on Tuesday, or Monday if Tuesday is a holiday, or more frequently than weekly as the Commission may direct. Unless otherwise instructed by the Commission or its designee, the information shall be submitted by 12:00 noon on the business day following that to which the information pertains at the Regional Office of the Commission having local jurisdiction with respect to such contract market.

5. § 16.04 is proposed to be amended by revising paragraph (b) as follows:

§ 16.04 Month-end reports.

* * * * *

(b) Form and manner of reporting; time and place of filing reports. Unless otherwise approved by the Commission or its designee, the information required by paragraph (a) of this section shall be submitted in hard copy form and on compatible data processing magnetic tapes or magnetic diskettes using a format and coding structure approved in writing by the Commission or its designee, such information shall be submitted not later than the fifth business day following the day to which the information pertains at the Regional Office of the Commission having local jurisdiction with respect to such contract market.

6. § 16.06 is proposed to be revised to read as follows:

§ 16.06 Errors or omissions.

Contract Markets shall file with the Commission on compatible data processing media using a format and coding structure approved by the Commission or its designee, corrections to errors or omissions in data previously filed with the Commission pursuant to §§ 16.00, 16.01, 16.02 or 16.04.

PART 17—REPORTS BY FUTURES COMMISSION MERCHANTS, MEMBERS OF CONTRACT MARKETS AND FOREIGN BROKERS

7. The authority citation for Part 17 continues to read as follows:

Authority: 7 U.S.C. 6a, 6c, 6f, 6g, 6i, 7 and 12a, unless otherwise noted.

8. § 17.00 is proposed to be amended by revising in paragraph (a)(1) and adding new paragraphs (a)(3) and (g) as follows:

§ 17.00 Information to be Furnished by Futures Commission Merchants, Clearing Members and Foreign Brokers.

(a) *Special Accounts-reportable futures positions, delivery notices and exchanges of futures for cash.* (1) Each futures commission merchant, clearing member and foreign broker shall submit a report to the Commission for each business day with respect to all Special Accounts carried by the futures commission merchant, clearing member or foreign broker, except for accounts carried on the books of another futures

commission merchant on a fully disclosed basis. Except as otherwise

05 O–T–DELIVERY–MONTH—PIC 9(4).
05 O–T–LONG–POSITION—PIC 9(6).

notices issued (stopped) are reported in

12. § 18.04 is proposed to be amended

(iii) Futures or options markets used.

Branch, U.S. Customs Service, 1301

VOL 50 ISS 144 JL 26 1985 UMI

commission merchant on a fully disclosed basis. Except as otherwise authorized by the Commission or its designee, such report shall be made on Commission compatible data processing media in accordance with the format and coding provisions set forth in paragraph (a) of this section. The report shall show each reportable futures position separately for each contract market and for each future, in each special account as of the close of the market on the day covered by the report and, in addition, the quantity of exchanges of futures for physicals and the number of delivery notices issued for each such account by the clearing organization of a contract market and the number stopped by the account.

* * * * *

(3) Information provided by means of data processing media must also be accompanied by a complete and accurate printout of information, which shall be submitted by the future commission merchant, foreign broker or clearing member if a sole proprietorship, by a general partner of a futures commission merchant, foreign broker or clearing member which is a partnership, by the chief executive officer of a futures commission merchant, foreign broker or clearing member which is a corporation, or by a person designated by the futures commission merchant, foreign broker or clearing member for such purpose provided such designee has been identified as such in writing to the Commission.

* * * * *

(g) *Media and file characteristics.* (1) Except as otherwise approved by the Commission or its designee, information shall be provided on unblocked, nine track, 1600 BPI magnetic tape with EBCDIC encoded card images using a standard IBM label.

(2) All required records shall be submitted together in a single file. Each record will be 80 characters long. Specific record formats are given below as a set of Cobol Language descriptions. There are two different record descriptions. The file must begin with a Type I record identifying the sequence of type II records that follow as series '01 data.

(3) The required records are as follows:

```
01 O-T-Type I RECORD:
   05 Filler—PIC X(10) VALUE "X 01 REG".
   05 O-T-REPORT-DATE—PIC X (6).
   05 Filler—PIC X (64) VALUE "Spaces."
01-O-T-TYPE II RECORD:
   05 O-T-REPORTING-FIRM-NUMBER—
      PIC 9(5).
   05 O-T-REPORT-DATE—PIC 9(6).
   05 O-T-ACCOUNT-NUMBER—PIC 9(12).
   05 O-T-COMMODITY-CODE—PIC 9(6).
   05 O-T-DELIVERY-MONTH—PIC 9(4).
   05 O-T-LONG-POSITION—PIC 9(6).
   05 O-T-SHORT-POSITION—PIC 9(6).
   05 FILLER—PIC X (16) VALUE "Spaces"
   05 O-T-NOTICES -ISSUED—PIC 9(5).
   05 O-T-NOTICES-STOPPED—PIC 9(5).
   05 O-T-BUY-XFC—PIC 9(4).
   05 O-T-SELL-XFC—PIC 9(4).
   05 FILLER—PIC X (1) VALUE "Spaces".
```

(4) Field definitions for each record are as follows:

(i) *Reporting Firm Number.* A five digit number assigned by the Commission to each FCM, clearing member and foreign broker which reports series '01 data.

(ii) *Report Date.* The date on which the reported positions were held by traders. Dates are encoded in a YYMMDD format where YY is the last 2 digits of the year, MM is the month and DD is the date with a leading 0 of month and days 1–9.

(iii) *Account Number.* A unique identifier assigned by the reporting firm to each special account. The field is 0 filled with account number right justified. Assignment of the account number is subject to the provisions of §§ 17.00(b) and (c) and 17.01(a).

(iv) *Commodity Code.* A six character identifier assigned by the CFTC to identify uniquely a contract traded on a specific exchange. The code is in CCCMMS format where CCC identifies the commodity, MM identifies the exchange and S distinguishes between two or more contracts specifying delivery of the same commodity on the same exchange.

(v) *Delivery Month.* The year and month of delivery specified in the contract in YYMM format. YY is the last two digits of the year and MM specifies the month with a leading 0 for months 1–9.

(vi) *Long (Short) Position.* Reportable long (short) position (if any) in the special account held on the contract market as of the close of business on the report date specified in the same record. Long (short) positions are reported in contracts except for the grains and soybeans. In the grains and soybeans, long (short) positions are reported in thousand bushels (000 omitted). The long (short) position in right justified with the field zero filled. Positions are reported on a net or gross basis in accordance with the provisions of paragraphs (d) and (e) of this section.

(vii) *Notices Issued (Stopped).* Delivery notices issued by the clearing organization of a contract market on behalf of a special account (stopped by the account) on the report date. Notices issued (stopped) are reported in contracts except for the grains and soybeans. In the grains and soybeans, notices issued (stopped) are reported in thousand bushels (000 omitted). Notices issued (stopped) are right justified, and the field zero filled.

(viii) *Buy (Sell) XFC's.* The quantity of long contracts opened and/or short contracts liquidated (short contracts opened and/long contracts liquidated) as a result of an exchange of futures for physicals. Buy (Sell) XFC's are reported in contracts except for the grains and soybeans. In the grains and soybeans, Buy (Sell) XFC's are reported in thousand bushels (000 omitted).

9. § 17.02 is proposed to be revised to read as follows:

§ 17.02 Place and Time of Filing Reports.

The reports required to be filed by futures commission merchants, clearing members and foreign brokers under §§ 17.00 and 17.01 shall be filed at a Commission office in accordance with instructions by the Commission or its designee. The reports required under §§ 17.00 and 17.01 shall be filed by futures commission merchants, clearing members and foreign brokers with the appropriate Commission office on the business day following the day for which the reports are filed and not later than 9:00 am local time for the city in which the reports are filed, or at such other time as instructed by the Commission. If a foreign broker or futures commission merchant, other than a clearing member, files manual reports under §§ 17.00 and 17.01 and does not have an office in the city in which the appropriate Commission office is located, such reports may be transmitted to the appropriate Commission office by mail. Each report transmitted by mail must be mailed no later than the report date.

10. § 17.03 is proposed to be revised to read as follows:

§ 17.03 Reporting by Means other than Data Processing Media.

Reports required under § 17.00 may be made on series '01 forms or updated Commission supplied computer printouts at the discretion of the Director of the Division of Economic Analysis upon a showing that the futures commission merchant, clearing member or foreign broker technologically is not able to provide the information in the form required by § 17.00.

PART 18—REPORTS BY TRADERS

11. The authority citation for Part 18 continues to read as follows:

Authority: 7 U.S.C. 6a, 6c, 6f, 6g, 6i and 12a unless otherwise noted.

12. § 18.04 is proposed to be amended by revising paragraphs (a)(5), (a)(8), (a)(9), (b)(3), and (c)(6) as follows. The introductory texts of paragraphs (a)(b), and (c) are shown for the convenience of the reader and remain unchanged.

§ 18.04 Statement of Reporting Trader.

* * * * *

(a) Information to be furnished by all traders in Part A of the Form 40 shall include:

* * * * *

(5) The name and address of each person whose options or futures trading is controlled by the reporting trader.

* * * * *

(8) The names and locations (city and state) of persons who guarantee futures or options trading accounts of the reporting trader or who have a financial interest of 10 percent or more in the reporting trader or the accounts of the reporting trader.

(9) The following information concerning other options or futures trading accounts which the reporting trader guarantees or other futures or options traders or accounts in which the reporting trader has a financial interest of 10 percent or more:

(i) The names of traders for whom the reporting trader guarantees accounts or in which the reporting trader has a financial interest;

(ii) The names of the accounts which the reporting trader guarantees or in which the reporting trader has a financial interest; and

(iii) The names and locations of the brokerage firms at which the accounts are carried.

* * * * *

(b) Information to be furnished in Part B of the Form 40 shall include:

* * * * *

(3) The following information if a trader makes transactions or holds positions in a futures or options contract where such transactions or positions normally represent a substitute for transactions to be made or positions to be taken at a later time in a physical marketing channel, and the transactions or positions are economically appropriate to the reduction of risks in the conduct and management of a commercial enterprise:

(i) Commercial activity associated with use of the options or futures market (*e.g.*, production, merchandising or processing of a cash commodity, asset/liability risk management by depository institutions, security portfolio risk management, etc.)

(ii) Physical commodities underlying use of the futures or options markets.

(iii) Futures or options markets used.

* * * * *

(c) Information to be furnished in Part C of the Form 40 shall include:

* * * * *

(6) The following information if a trader makes transactions or holds positions in a futures on options contract where such transactions or positions normally represent a substitute for transactions to be made or positions to be taken at a later time in a physical marketing channel and the transactions or positions are economically appropriate to the reduction of risks in the conduct and management of a commercial enterprise:

(i) Commercial activity associated with use of the options or futures market (*e.g.*, production, merchandising or processing of a cash commodity, asset/liability risk management by depository institutions, security portfolio risk management, etc.)

(ii) Physical commodities underlying use of the futures or options markets.

(iii) Futures or options markets used.

BILLING CODE 6351-01-M

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Parts 6 and 122

Air Commerce Regulations; Entry and Clearance of Aircraft and Transportation of Persons and Cargo by Aircraft

AGENCY: Customs Service, Department of the Treasury.

ACTION: Proposed revision.

SUMMARY: As part of the general revision of the Customs Regulations, Customs is proposing to revise its rules relating to the entry and clearance of aircraft and the transportation of persons and cargo by aircraft. This proposed revision sets forth the general Customs requirements applicable to all air commerce. It follows a new format and includes changes or additions in language to clarify the current provisions and to make some minor substantive changes.

DATE: Comments must be received on or before October 24, 1985.

ADDRESS: Comments (preferably in triplicate) may be addressed to, and inspected at, the Regulations Control Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., Room 2428, Washington, D.C. 20229. Comments relating to the information collection aspects of the proposal should be addressed to the Regulations Control Branch, as noted above, and also the Office of Information and Regulatory Affairs, Attention: Desk officer for U.S. Customs Service, Office of Management and Budget, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT:

Legal Aspects: John A. Mathis, Carrier Rulings Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202–566–5706).

Operational Aspects: Joseph E. O'Gorman, Office of Inspection and Control, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202–566–8151).

SUPPLEMENTARY INFORMATION:

Background

Customs has undertaken to review and revise selected parts of the Customs Regulations contained in Chapter 1, Title 19, Code of Federal Regulations (19 CFR Chapter I), with the objective of reducing and/or eliminating, to the fullest extent possible, obsolete and unnecessary regulatory requirements. This action was mandated by the Regulatory Flexibility Act, and by the Treasury Department Regulatory Flexibility Review Plan which appeared in the Federal Register on April 14, 1982 (47 FR 16033). As stated in a notice published by Customs in the Federal Register on June 10, 1983 (48 FR 26831), Part 6, Customs Regulations (19 CFR Part 6), is one of those which has been scheduled for revision under the Treasury plan. Accordingly, the revised Part 6, redesignated as Part 122, proposes to set forth all air commerce regulations administered by Customs in a clearly stated new format, which incorporates both current provisions and substantive changes. The major changes from the present regulations are deletion of the requirement that American-flag aircraft report foreign repairs and pay duty (a provision of the Trade Agreements Act of 1979), and the inclusion of a subpart dealing with requirements relating to aircraft liquor kits. The proposal also contains amendments to the regulations dealing with overflight exemptions and reporting requirements which appeared in a notice of proposed rulemaking published in the Federal Register on April 1, 1985 (50 FR 12819).

Additionally, amendments necessitated by the recent revision of

3. Proposed § 122.11(c) is a rephrasing of present § 6.12(e)

excepted aircraft arriving from outside

Subpart E—Aircraft Entry and Entry Documents

15. Proposed § 122.47(d) is based upon present § 6.7(f).

4. Proposed § 122.52(c) is based upon the last two sentences of present

VOL 50 ISS 144 JL 26 1985 UMI

Additionally, amendments necessitated by the recent revision of the Customs bond structure (T.D. 84–213), published in the Federal Register on October 19, 1984 (49 FR 41152), have been incorporated into this proposal.

Revised Part 122 would be divided into 16 subparts. Following is a discussion of the proposed major changes in each of the subparts.

Subpart A—Scope and General Definitions and Provisions

1. Proposed § 122.1 is new and would set forth in general terms the geographic applicability of the revised part.
2. Proposed § 122.2(a) would substitute the statutory definition of "aircraft" from 49 U.S.C. 1301(5), for the present narrower definition of "civil aircraft."
3. Proposed § 122.2(b) is unchanged from present § 6.1(e).
4. Proposed § 122.2(c) would revise § 6.1(g) by substituting the word "agent" for the phrase "authorized person (authorized agent of an owner or operator)."
5. Proposed § 122.2(d) is new and would clarify the difference between commercial and non-commercial (private and public) flights.
6. Proposed § 122.2(e) would clarify § 6.1(h).
7. Proposed § 122.2(f) is new and defines, for the first time, a "landing rights airport."
8. Proposed § 122.2(g) is a rephrasing of present § 24.16.
9. Proposed § 122.2(h) is new and defines "private aircraft."
10. Proposed § 122.2(i) is new and defines "public aircraft."
11. Proposed § 122.2(j) is new and defines "residue cargo." The definition is loosely derived from present § 6.9(a).
12. Proposed § 122.2(k) is a rephrasing of present § 6.1(f).
13. Proposed § 122.2(l) would combine present § 6.1(b) and (c) and include Puerto Rico in the definition of "United States."
14. Proposed § 122.3 is unchanged from present § 6.10.
15. Proposed § 122.4 is a rephrasing of present § 6.6(b).
16. Proposed § 122.5 is a rephrasing of present § 6.6(a).
17. Proposed § 122.6 would significantly revise the specific requirements for reproduction of Customs forms found in present § 6.6(a).

Subpart B—International Airports

1. Proposed § 122.11(a) would rephrase present § 6.12(a), (b) and (d).
2. Proposed § 122.11(b) is a rephrasing of present § 6.12(c).
3. Proposed § 122.11(c) is a rephrasing of present § 6.12(e).
4. Proposed § 122.12(a) is a restatement of present § 6.12(f).
5. Proposed § 122.12(b) is a restatement of present § 6.12(g).
6. Proposed § 122.12(c) is a restatement of present § 6.12(h).
7. Proposed § 122.12(d) is a restatement of present § 6.12(i) with deletion of the reference to "Area."
8. Proposed § 122.12 is unchanged from present § 6.13.

Subpart C—Private Aircraft

1. Proposed § 122.21 is new and would make the subpart applicable to all private aircraft.
2. Proposed § 122.22 would make the landing requirements in proposed § 122.31 applicable to private aircraft.
3. Proposed § 122.23(a) is new and is based upon definitions found in the Department of Transportation regulations relating to exemptions for air taxi operations (14 CFR Part 298).
4. Proposed § 122.23(b), (c), (d), and (e) is a restatement of present § 6.14(a).
5. Proposed § 122.23(f) is new and would state that the final responsibility for giving adequate advance notice of arrival is that of the aircraft commander.
6. Proposed § 122.24(a) and (b) is a restatement of present § 6.14(b) and (g).
7. Proposed § 122.25(a), (b), (c) and (d) is a restatement of present § 6.14(f).
8. Proposed § 122.26 is new and would exempt private aircraft from entry and clearance requirements.
9. Proposed § 122.27 partially is new and partially a restatement of present § 148.5. It would set forth the documentation necessary for declaring baggage and cargo upon arrival of a private aircraft, as well as documentation and requirements for departing with certain cargo not for hire.
10. Proposed § 122.28 is based upon present § 148.32 and relates to a U.S. resident returning a private aircraft to the U.S. which has been taken abroad for non-commercial purposes.
11. Proposed § 122.29 is new and would set forth the changes and procedures relating to overtime services rendered by Customs in connection with an arriving private aircraft. The proposed section is based in part upon present § 24.16.
12. Proposed § 122.30 is based upon present §§ 6.10 and 6.11, and would list other regulatory requirements applying to private aircraft.

Subpart D—Landing Requirements

1. Proposed § 122.31(a) contains a complete rewording and restructuring of present § 6.2(b)(1), and would set forth reporting requirements for all non-excepted aircraft arriving from outside the U.S. Exceptions would appear in proposed § 122.31(b).
2. Proposed § 122.31(b) is based upon present § 6.2(b)(3).
3. Proposed § 122.31(b)(1) is based upon present § 6.2(b)(1), and would set forth the procedures for giving notice of arrival, and would permit reporting by radio or other means.
4. Proposed § 122.31(c)(2) is based upon present § 6.2(b)(2).
5. Proposed § 122.31(d) is based upon present § 6.2(b)(4).
6. Proposed § 122.31(e) is based upon present § 6.2(b)(5).
7. Proposed § 122.31(f) is based upon the second sentence of present § 6.2(b)(1).
8. Proposed § 122.31(g) is based upon present § 6.2(b)(1), and names the aircraft commander as the person responsible for providing adequate advance notice of arrival.
9. Proposed § 122.32 is based upon the first sentence of present § 6.2(a).
10. Proposed § 122.33 is based upon the second sentence of present § 6.2(a). The proposed revision adds reference to two other sections relating to alternative landing sites.
11. Proposed § 122.34 is based upon the last three sentences of present § 6.2(a).
12. Proposed § 122.35 is based upon present § 6.2(h).
13. Proposed § 122.36 is based upon present § 6.2(b)(6).
14. Proposed § 122.37 is based upon present § 6.2(h).
15. Proposed § 122.38(a) is based upon the first sentence of present § 6.2 (e) and (f), and includes the purpose for a permit or special license.
16. Proposed § 122.38(b) is based upon current § 6.2 (e) and (f), and includes the instructions for applying for a permit or special license.
17. Proposed § 122.38(c) is based upon present § 6.2(g).
18. Proposed § 122.38(d) is based upon present § 6.2 (e) and (f), and provides exceptions for the need to obtain a permit or special license for each arrival or departure.
19. Proposed § 122.38(e) is based upon the second sentence of present § 6.2(e) and the first sentence of present § 6.2(f).
20. Proposed § 122.38(f) is based upon present § 6.2 (e) and (f).
21. Proposed § 122.38(g) is new and is based upon Customs Circular INS–2–EV, dated 12/14/61, and provides the procedure for requesting automatic renewal of permits and special licenses.

Subpart E—Aircraft Entry and Entry Documents

1. Proposed § 122.41 is based upon present §§ 6.3(a), 6.4 (a) and (b), and 6.9(c).
2. Proposed § 122.42 (a) and (b) is based upon present §§ 6.3(b) and 6.4(c).

Note.—Much of the remainder of Subpart E is based upon present § 6.7. It covers all of the various forms required for entry. The proposed revision is structured so that each required form is treated in a separate section.

3. Proposed § 122.43 (a) and (c) is based upon present § 6.7 (a) and (b).
4. Proposed § 122.43(b) is based upon Customs Circular AIR–4–ICS, dated 1/24/68, and would permit entry upon presentation of an air cargo manifest in lieu of a general declaration.
5. Proposed § 122.44 is new and is based upon Customs Circular BAG–3–CO (AIR–4–AIR), 8/9/65. It states that aircraft crewmembers arriving from a foreign area must file a crew baggage declaration as provided in Subpart G, Part 148, Customs Regulations (19 CFR Part 148).
6. Proposed § 122.45 is based upon present § 6.7(b)(1) and would substitute "crew list" for "crew manifest.".
7. Proposed § 122.45(d) is based upon Customs Circular BAG–3–CO, 8/9/65, and sets forth requirements for crewmembers returning as passengers.
8. Proposed § 122.46(a) is based upon the last sentence of present § 6.7(b)(2). The qualifying phrase "for any aircraft required to enter by § 122.41" is added.
9. Proposed § 122.46(b) is based upon the last sentence of present § 6.7(b)(2), as well as Customs Circular AIR–4–ICS, dated 1/24/68. The proposed section includes cross-reference to Subpart G, Part 148, Customs Regulations (19 CFR Part 148).
10. Proposed § 122.46(c) is based upon the second and third sentences of present § 6.7(b)(2). The reference to "attached list" is replaced by "crew purchase list."
11. Proposed § 122.47(a) is based upon present § 6.7(f).
12. Proposed § 122.47(b) is based upon present § 6.7(f).
13. Proposed § 122.47(c)(1) is based upon present § 6.7(b)(3)(v).
14. Proposed 122.47(c)(2) is based upon present § 6.7(b)(3) (v) and (vi), and includes major changes. The proposal specifies that "other domestic supplies" may be omitted from the stores list when an appropriate statement appears on the manifest or stores list. Further, the present statement "Aircraft of scheduled airline" is deleted, thus being made applicable to all aircraft required to enter.
15. Proposed § 122.47(d) is based upon present § 6.7(f).

Note.—Proposed § 122.48 is taken from present § 6.7(b)(3). Subparagraphs (v) and (vi) are included in proposed § 122.47(c).

16. Proposed § 122.48(a) is based upon present § 6.7(b)(3), and the phrase "for any aircraft required to enter under § 122.41" is added for clarification.
17. Proposed § 122.48(b) is based upon present § 6.7(b)(3). There is no substantive change except as concerns the requirement that company mail be listed on the cargo manifest.
18. Proposed § 122.48(c)(1) is based upon present § 6.7(b)(3)(i).
19. Proposed § 122.48(c)(2) is based upon present § 6.7(b)(3)(ii).
20. Proposed § 122.48(c)(3) is based upon present § 6.7(b)(3)(iii), with the words "duty free" inserted for clarity.
21. Proposed § 122.48(d) is based upon present § 6.7(b)(3)(vii), as amended by T.D. 84–128, published in the Federal Register on June 4, 1984 (49 FR 23038).
22. Proposed § 122.48(e) is new and is based upon Customs Circular AIR–7–IEI, dated 1/31/72. This section deals with accompanied baggage in transit.
23. Proposed § 122.49(a) is based upon present § 6.7(h) (1) and (2).
24. Proposed § 122.49(b) is based upon present § 6.7(h) (1) and (3), as well as § 4.12(a). The present sections were combined and put in outline form, making it unnecessary to continually refer back to Part 4, Customs Regulations (19 CFR Part 4), to check the applicability of the vessel regulations to aircraft.
25. Proposed paragraphs (c), (d), (e), and (f) of § 122.49 are based upon present §§ 6.7(h) and 4.12. The comments relating to proposed § 122.49(b) apply to these paragraphs as well.

Note.—All reference to the applicability of the vessel repair statute (19 U.S.C. 1466) to repairs made to aircraft, currently reflected in § 6.7(d) and (e), are deleted in proposed Part 122 due to enactment of the Trade Agreements Act of 1979 (Title 6, Pub. L. 96–39) which relieved aircraft from the duty provisions of 19 U.S.C. 1466.

Subpart F—Permit To Proceed

1. Proposed § 122.51 is based upon present § 6.2(d)(3). The word "civil" is deleted and the phrase "passengers carried for hire or merchandise" is replaced by the word "commercial."
2. Proposed § 122.52(a) is based upon present § 6.2(d)(3). The word "civil" is deleted, and the term "commercial aircraft" replaces the term "international traffic."
3. Proposed § 122.52(b) is based upon present § 6.2(d)(3).
4. Proposed § 122.52(c) is based upon the last two sentences of present § 6.2(d)(3). The term "international traffic" has been changed to "commercial aircraft."
5. Proposed § 122.52(d) is based upon present § 6.2(d)(3)(ii), footnote 1, and upon T.D. 55603(1), dated 3/4/60.
6. Proposed § 122.53 is new and is based upon the Federal Aviation Administration regulations (14 CFR 121.153).
7. Proposed § 122.54(a) and (b) is based upon present § 6.2(d)(1). The term "or agent" is added to paragraph (b), and necessary information is listed for inclusion on Customs Form 7507 (Permit to Proceed).
8. Proposed § 122.54(c) is based upon present § 6.2(d)(1).
9. Proposed § 122.54 (d), (e), and (f) is based upon present § 6.2(d)(1).
10. Proposed § 122.54(g) is based upon present § 6.2(d)(2).

Subpart G—Clearance of Aircraft and Permission To Depart

1. Proposed § 122.61(a) is based upon present § 6.3(c), and includes a general statement covering all aircraft except public and private.
2. Proposed § 122.62 (a), (b), and (c) is based upon the third, fourth, and fifth sentences of present § 6.3(c), and names those aircraft not otherwise required to clear.
3. Proposed § 122.63(a) is based upon present § 6.5(c), and the term "authorized person" is changed to "agent" as defined in proposed § 122.2(c).
4. Proposed § 122.63(b) is based upon present § 6.5(c).
5. Proposed § 122.64 is based upon present § 6.3(d), and is basically a restatement of proposed § 122.63 (a) and (b), but deals with aircraft not using procedure outlined therein.
6. Proposed § 122.65 is new and would provide a specific time limit within which cleared aircraft must depart.

Subpart H—Documents Required in Clearance and Permission To Depart

1. Proposed § 122.71 is based upon present § 6.8(a) and rephrases the telephonic clearance procedures, added to the regulations by T.D. 82–92 published in the Federal Register on May 14, 1982 (47 FR 20750).
2. Proposed § 122.72 is based upon present § 6.8(a).
3. Proposed § 122.73 is based upon present § 6.8(b) and T.D. 82–92, and deals with the form and preparation of air cargo manifests.
4. Proposed § 122.74(a) is based upon present § 6.8(a) and the regulations of

the Bureau of The Census (15 CFR 30.24). The term "Customs officer in

provision for crew purchases and stores lists, as well as alternate procedures for

"authorized person" is replaced by the word "agent", and reference to

16. Proposed § 122.117(c)(1) is based upon present § 6.20(c) and deals with

36. Proposed § 122.120(e) is based upon present § 6.23(b) and details the

3. Proposed § 122.163 is based upon present § 6.22(e).

the Bureau of The Census (15 CFR 30.24). The term "Customs officer in charge" is changed to "district director."

5. Proposed § 122.74(b) is based upon present § 6.8(a). The term "Customs officer in charge" is changed to "district director."

6. Proposed § 122.74(c) is based upon present § 6.8(a) and 15 CFR 30.24(a).

7. Proposed § 122.74(c)(1) is based upon present § 6.8(a) and 15 CFR 30.24(a), and deals with shipments to foreign countries.

8. Proposed § 122.74(c)(2) is based upon present § 6.8(e) and 15 CFR 30.24(a)(1), and deals with shipments to and from Puerto Rico.

9. Proposed § 122.74(c)(3) is based upon present § 6.8(a) and 15 CFR 30.24(a)(1), and deals with shipments to U.S. possessions.

10. Proposed § 122.74(d) is based upon present § 6.8(e). The phrase "or all required cargo documents will be filed within the 7-day bond period" is added.

11. Proposed § 122.75(a) (1) and (2) is based upon present § 6.8(e) and 15 CFR 30.21(b), and deals with the contents of a complete air cargo manifest.

12. Proposed § 122.75(b) is based upon the third and fourth sentences of present § 6.8(e).

13. Proposed § 122.76 is based upon present § 6.8(a) and 15 CFR 30.1, and sets forth the requirements for Shipper's Export Declarations.

14. Proposed § 122.77 is based upon present § 6.8(d).

15. Proposed § 122.78 is based upon present § 6.8(c). The phrase "cargo manifest" replaces "outward manifest."

16. Proposed § 122.79(a) is based upon present §§ 6.5(b) and 6.3(c), and deals with shipments to U.S. possessions, other then Puerto Rico.

17. Proposed § 122.79(b) is based upon present §§ 6.5(b) and 6.3(c), and deals with manifest requirements on direct flights to Puerto Rico.

18. Proposed § 122.80 is based upon present § 6.8(e), and deals with verification by Customs of statements made on shipping records.

Subpart I—Residue Cargo Procedures

1. Proposed § 122.81 is based upon present § 6.9(a).

2. Proposed § 122.82 is based upon the present §§ 6.9(a), 4.85(a), 113.13a (a) and (b), and 113.61, and details the bond requirement for aircraft seeking a permit to proceed while carrying residue cargo.

3. Proposed § 122.83(a) is based upon present § 6.9(b), footnote 6. The term "area" is deleted, and the phrase "an authorized person" is replaced by the word "agent."

4. Proposed § 122.83(b) is based upon present § 6.9(b), and includes a provision for crew purchases and stores lists, as well as alternate procedures for unlisted items.

5. Proposed § 122.83(c) is based upon present § 6.9(b). The clarifying phrase "An abstract general declaration and manifest need not be filed at the last domestic port of discharge" is added.

6. Proposed § 122.83(d) is based upon present § 6.9(b), and relates to the contents of a permit to proceed. The word "agent" replaces the phrase "authorized person", and the phrase "Customs officer in charge" replaces "appropriate Customs officer."

7. Proposed § 122.83(e) is based upon present § 6.9, and includes a reproduction of Customs Form 7512–C, Permit to Proceed.

8. Proposed § 122.83(f) is based upon present § 6.9(b). The phrase "The documents presented by the aircraft commander or authorized person when applying for clearance shall be delivered to the aircraft commander" is replaced by ". . . must be delivered to aircraft commander or agent." The word "agent" replaces the phrase "authorized person."

9. Proposed § 122.84 (a) and (b) is based upon present § 6.9(c).

10. Proposed § 122.84(c) is based upon present § 6.9(c). The proposal provides that declarations are to be detached by Customs.

11. Proposed § 122.84(d) is based upon present § 6.9(c), and deals with departure from an intermediate airport.

12. Proposed § 122.85 is based upon present § 6.9(d). It deals with arrival at the final airport.

13. Proposed § 122.86 is new and is based upon Customs Circular AIR-7-EV, dated 11/23/59. It deals with the substitution of aircraft under the residue cargo procedures.

14. Proposed § 122.87 is based upon § 6.9(e).

Subpart J—Transportation in Bond and Merchandise in Transit

1. Proposed § 122.91 is based upon present § 6.15(a).

2. Proposed § 122.92(a) and (b) is based upon present § 6.15(b)(1) and (2).

3. Proposed § 122.92(c) is based upon present § 6.15(b)(3).

4. Proposed § 122.92(d) is based upon present § 6.15(b)(4).

5. Proposed § 122.92(e) is based upon present § 6.15(b)(5), and the phrase "aircraft of the same line" is changed to "aircraft of the same airline".

6. Proposed § 122.92(f) is based upon the first sentence of present § 6.15(b)(6).

7. Proposed § 122.92(g) is based upon second sentence of present § 6.15(b)(6).

8. Proposed § 122.93(a) is based upon present § 6.15(c) The word "port" is changed to "airport", the phrase "authorized person" is replaced by the word "agent", and reference to appropriate Customs forms in inserted.

9. Proposed § 122.93(b) is based upon present § 6.15.

10. Proposed § 122.94(a) is based upon present § 6.16.

11. Proposed § 122.94(b) is based upon present § 6.16, and the phrase "authorized person" is replaced by the word "agent.

12. Proposed § 122.95 is based upon footnote 9 of present § 6.15(a).

Subpart K—Accompanied Baggage in Transit

1. Proposed § 122.101 and 122.102 are new and are based upon Customs Circular AIR–7–IEI, dated 1/31/72. These sections deal with entry and inspection of accompanied baggage in transit.

Subpart L—Transit Air Cargo Manifest (TACM) Procedures

1. Proposed § 122.111 is based upon present § 6.17.

2. Proposed § 122.112(a), (b) and (c) is based upon the definition portion of present § 6.17.

3. Proposed § 122.112(d) is based upon present § 6.18(a), and defines the use of the transit air cargo manifest.

4. Proposed § 122.113 is based upon present § 6.18(a), and discusses the form for transit air cargo manifest procedures.

5. Proposed § 122.114(a) is based upon last sentence of present § 6.18(a), and Customs Circular AIR–7–EV, dated 5/8/62.

6. Proposed § 122.114(b) is based upon the first sentence of present § 6.18(b).

7. Proposed § 122.114(b)(2) is based upon the second sentence of present § 6.18(b).

8. Proposed § 122.114(c) is based upon present § 6.18(d).

9. Proposed § 122.114(d) is based upon present § 6.18(f), and deals with the number of manifest copies required.

10. Proposed § 122.114(e) is based upon present § 6.18(e) and deals with corrections to the route shown on the original manifest.

11. Proposed § 122.115 is based upon present § 6.18(e) and Customs Circular AIR–7–EV, dated 5/8/62. The section deals with labeling of cargo.

12. Proposed § 122.116 is based upon present § 6.19.

13. Proposed § 122.117(a)(1) is based upon the first sentence of present § 6.20(c).

14. Proposed § 122.117(a)(2) is based upon the second sentence of present § 6.20(c).

15. Proposed § 122.117(b) is based upon present § 6.20(b) and (d).

16. Proposed § 122.117(c)(1) is based upon present § 6.20(c) and deals with responsibility for direct exportation of transit air cargo.

17. Proposed § 122.117(c) is based upon the fourth sentence of present § 6.20(c).

18. Proposed § 122.117(c)(3) is based upon the last sentence of present § 6.20(c).

19. Proposed § 122.117(d) is based upon present § 6.20(c) and deals with receipts for split shipments.

20. Proposed § 122.118(a) is based upon present § 6.24(a). All material in the present section following the phrase "in the United States" is deleted and the words "under this section" are added.

21. Proposed § 122.118(b) is based upon present § 6.21(c).

22. Proposed § 122.18(c) is based upon present § 6.24 (b) and (c).

23. Proposed § 122.118(d) is based upon present § 6.24(g) with the phrase "air carrier" being replaced by the word "airline."

24. Proposed § 122.118(f) is based upon Customs Circular AIR–7–CO, dated 3/17/65. It concerns the exportation of post-entered air cargo.

25. Proposed § 122.118(g) is based upon present § 6.24(d).

26. Proposed § 122.119(a) is based upon present § 6.22(a).

27. Proposed § 122.119(b) is based upon present § 6.21(a).

28. Proposed § 122.119(c) is based upon present § 6.22(a) and Customs Circular TRA–1–IMS, dated 7/15/68.

29. Proposed § 122.119(d) (1) and (2) is based upon present § 6.22 (c) and (d), and deals with failure to deliver transit air cargo in a timely fashion.

30. Proposed § 122.119(e), is based upon present § 6.22(a) and deals with the transfer of cargo between carriers.

31. Proposed § 122.120(a) is based upon present § 6.23(a) and establishes the authority for transporting cargo to another port for exportation.

32. Proposed § 122.120(b)(1) is based upon the first sentence of present § 6.23(a). The phrase "may be" is changed to "shall."

33. Proposed § 122.120(b)(2) is based upon the second sentence of present § 6.23(c). The phrase "when the goods are ready for lading" is replaced by the phrase "when transit air cargo is ready for lading."

34. Proposed § 122.120(c) is based upon present § 6.21(b), and deals with the time limit for delivery of transit air cargo for exportation.

35. Proposed § 122.120(d) is based upon present § 6.23 and sets forth new procedures for using Customs Form 7512–C.

36. Proposed § 122.120(e) is based upon present § 6.23(b) and details the requirements for presentation of the carrier manifest copy.

37. Proposed § 122.120(f) is based upon the first sentence of present § 6.23(c).

38. Proposed § 122.120(g) is based upon present § 6.23(e).

39. Proposed § 122.120(h) is based upon present § 6.23(d). The phrase "these documents (including the clearance copies of transit air cargo manifest)" is replaced by the phrase "the exportation and clearance copies of transit air cargo manifests."

40. Proposed § 122.120(i) is based upon present § 6.23(h).

41. Proposed § 122.120(j) is based upon present § 6.23(h) and deals with cargo laden on more than one aircraft of the same airline.

42. Proposed § 122.120(k) is based upon present § 6.23(g).

Subpart M—Aircraft Liquor Kits

Note.—Proposed §§ 122.131 through 122.137, the aircraft liquor kit provisions, do not appear in Part 6, Customs Regulations. The procedures outliend in the proposed subpart are of general applicability and appear by virtue of the requirements of Pub. L. 89–487 (5 U.S.C. 1002). The subpart is based upon Customs Circular AIR–7–AIR, dated 6/16/64.

Subpart N–Flights to and From the U.S. Virgin Islands

1. Proposed § 122.141 is a new definition section, inserted to help clarify the subpart.

2. Proposed § 122.142 is based upon present § 6.25(a).

3. Proposed § 122.143 is based upon present § 6.25(b).

4. Proposed § 122.144(a)(1) is based upon present § 6.25(c)(1).

5. Proposed § 122.144(a)(2) is based upon present § 6.25(c)(2).

6. Proposed § 122.144(b) is based upon present § 6.25(c)(3).

7. Proposed § 122.144(c) is based upon present § 6.25(c)(4).

8. Proposed § 122.144(d) is based upon present § 6.25(c)(5).

9. Proposed § 122.144(d)(1) is based upon present § 6.25(c)(5)(i).

10. Proposed § 122.144(d) (2), (3), and (4) is based upon present § 6.25(c)(5)(ii).

Subpart O—Public Aircraft

1. Proposed § 122.151 is new and is based upon present § 4.5, government vessels.

Subpart P—Penalties

1. Proposed § 122.161 is based upon present § 6.10.

2. Proposed § 122.162 is based upon present § 6.7(b).

3. Proposed § 122.163 is based upon present § 6.22(e).

4. Proposed § 122.164 is based upon present § 6.23(g).

5. Proposed § 122.165 is new and is based upon Customs Circular AIR–4–CR, date 11/12/72. It concerns the Air Cabotage statute, 49 U.S.C. 1508(b). U.S.C. 1508(b).

Editorial Changes

Throughout the revision, numerous editorial changes have been made to clarify and simplify the language contained in the present air commerce regulations in Part 6.

Comments

Before adopting this proposal, consideration will be given to any written comments timely submitted to Customs. Comments submitted will be available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552), § 1.6, Treasury Department Regulations (31 CFR 1.6), and § 103.11(b), Customs Regulations (19 CFR 103.11(b)), on regular business days between the hours of 9:00 a.m. and 4:30 p.m. at the Regulations Control Branch, Room 2426, Customs Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

Regulatory Flexibility Act

Pursuant to the provisions of section 606(b) of the Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 601, et seq.), it is certified that this proposed revision will not have a significant economic impact on a substantial number of small entities. Accordingly, it is not subject to the regulatory analysis or other requirements of 5 U.S.C. 603 and 604.

Executive Order 12291

This document does not meet the criteria for a "major rule" as specified in section 1(b) of E.O. 12291. Accordingly, no regulatory impact analysis has been prepared.

Paperwork Reduction Act

This document is subject to section 3504(h) of the Paperwork Reduction Act of 1980, Pub. L. 96–511. Public comments relating to the information collection aspects of the proposal should be addressed to the Office of Management and Budget and to Customs at the addresses set forth in the ADDRESS portion of this document.

PART 6—AIR COMMERCE REGULATIONS [REMOVED]

It is proposed to amend Chapter I of title 19, Code of Federal Regulations, by removing Part 6 (19 CFR Part 6).

It is proposed to further amend Chapter I of title 19, Code of Federal Regulations, by adding a new part, Part 122, to read as folows:

PART 122—AIR COMMERCE REGULATIONS

Subpart A—Scope and General Definitions and Provisions

Sec.
122.1 Scope.
122.2 General definitions.
122.3 Other Customs laws and regulations.
122.4 Availability of forms.
122.5 English language required.
122.6 Reproduction of Customs forms.

Subpart B—International Airports

122.11 Designation as international airport.
122.12 Operation of international airports.
122.13 List of international airports.

Subprt C—Private Aircraft

122.21 Application.
122.22 Notice of arrival.
122.23 Special reporting requirements for private aircraft arriving from areas south of the U.S.
122.24 Landing requirements.
122.25 Exemption from special landing requirements.
122.26 Entry and clearance.
122.27 Documents required.
122.28 Private aircraft taken abroad by U.S. residents.
122.29 Overtime services.
122.30 Other Customs laws and regulations.

Subpart D—Landing Requirements

122.31 Notice of arrival.
122.32 Aircraft required to land.
122.33 Place of first landing.
122.34 Landing rights airport.
122.35 Emergency or forced landing.
122.36 Responsibility of aircraft commander.
122.37 Precleared aircraft.
122.38 Permit and special license to unlade and lade.

Subpart E—Aircraft Entry and Entry Documents

122.41 Aircraft required to enter.
122.42 Aircraft entry.
122.43 General declaration.
122.44 Crew baggage declaration.
122.45 Crew list.
122.46 Crew purchase list.
122.47 Stores list.
122.48 Air cargo manifest.
122.49 Correction of air cargo manifest.

Subpart F—Permit to Proceed

122.51 Aircraft of domestic origin registered in the U.S.
122.52 Aircraft of foreign origin registered in the U.S.
122.53 Aircraft of foreign registry chartered or leased to U.S. air carriers.
122.54 Aircraft of foreign registry.

Subpart G—Clearance of Aircraft and Permission to Depart

122.61 Aircraft required to clear.
122.62 Aircraft not otherwise required to clear.
122.63 Scheduled airlines.
122.64 Other aircraft.
122.65 Failure to depart.

Subpart H—Documents Required for Clearance and Permission To Depart

122.71 Aircraft departing with no commercial export cargo.
122.72 Aircraft departing with commercial export cargo.
122.73 Air cargo manifest.
122.74 Incomplete (pro forma) manifest.
122.75 Complete manifest.
122.76 Shipper's Export Declarations and inspection certificates.
122.77 Clearance certificate.
122.78 Entry or withdrawal for exportation or for transportation and exportation.
122.79 Shipments to U.S. possessions.
122.80 Verification of statement.

Subpart I—Residue Cargo Procedures

122.81 Application.
122.82 Bond requirements.
122.83 Forms required.
122.84 Intermediate airport.
122.85 Final airport.
122.86 Substitution of aircraft.
122.87 Other statutes.

Subpart J—Transportation in Bond and Merchandise in Transit

122.91 Application.
122.92 Procedure at port of origin.
122.93 Procedure at destination or exportation airport.
122.94 Certificate of landing for exportation.
122.95 Other provisions.

Subpart K—Accompanied Baggage in Transit

122.101 Entry of accompanied baggage.
122.102 Inspection of baggage in transit.

Subpart L—Transit Air Cargo Manifest (TACM) Procedures

122.111 Application.
122.112 Definitions.
122.113 Form for transit air cargo manifest procedures.
122.114 Contents.
122.115 Labeling of cargo.
122.116 Identification of manifest sheets.
122.117 Requirements for transit air cargo transport.
122.118 Exportation from port of arrival.
122.119 Transportation to another U.S. port.
122.120 Transportation to another port for exportation.

Subpart M—Aircraft Liquor Kits

122.131 Application.
122.132 Sealing of aircraft liquor kits.
122.133 Stores list required on arrival.
122.134 When airline does not have in-bond liquor storeroom.
122.135 When airline does have in-bond liquor storeroom.
122.136 Outgoing stores list.
122.137 Certificate of use.

Subpart N—Flights to and From the U.S. Virgin Islands

122.141 Definitions.
122.142 Flights between the Virgin Islands and a foreign area.
122.143 Flights from the U.S. to the Virgin Islands.
122.144 Flights from the Virgin Islands to the U.S.

Subpart O—Public Aircraft

122.151 Public aircraft of the U.S. or foreign countries.

Subpart P—Penalties

122.161 In general.
122.162 Failure to notify and explain differences in air cargo manifest.
122.163 Transit air cargo traveling to U.S. ports.
122.164 Transportation to another port for exportation.
122.165 Air cabotage.

Authority: 5 U.S.C 301, 19 U.S.C. 66, 1624, 1644, 49 U.S.C. 1509.

Subpart A—Scope and General Definitions and Provisions

§ 122.1 Scope.

The regulations in this part relate to the entry and clearance of aircraft, and the transportation of persons and cargo by aircraft, and are applicable to all air commerce. They do not apply to Guam, Midway, American Samoa, Wake, Kingman Reef, and Johnston Island and other insular possessions not specified herein. They do apply to the U.S. Virgin Islands as stated in subpart N (§§ 122.141–122.144).

§ 122.2 General definitions

The following definitions apply in this part, unless otherwise stated:

(a) *Aircraft.* An "aircraft" is any device now known, or hereafter invented, used, or designed for navigation or flight in the air.

(b) *Aircraft commander.* An "aircraft commander" is any person serving on an aircraft who is in charge of has command of its operation and navigation.

(c) *Agent.* An "agent" is any person who is authorized to act for or in place of:

(1) An owner or operator of a scheduled airline by written authority; or

(2) An owner or operator of a non-scheduled airline, by power of attorney, the authority to act shall be in writing and satisfactory to the district director.

(d) *Commercial aircraft.* A "commercial aircraft" is any aircraft transporting passengers and/or cargo for some payment of other consideration, including money or services rendered.

(e) *International airport.* An "international airport" is any airport designated by:

(1) The Secretary of the Treasury or the Commissioner of Customs as a port of entry for aircraft arriving in the U.S. from any place outside thereof and for the merchandise carried on such aircraft;

(2) The Attorney General as a port of entry for aliens arriving on such aircraft; and

(3) The Secretary of Health and Human Services as a place for quarantine inspection.

(f) *Landing rights airport.* A "landing rights airport" is any airport, other than an international airport, at which flights from a foreign area may be allowed to land.

(g) *Preclearance.* "Preclearance" is the tentative examination and inspection of air travelers and their baggage, at the request of an airline, at foreign places where Customs personnel are stationed for that purpose. Preclearance may be used only for passengers and their baggage.

(h) *Private aircraft.* A "private aircraft" is any aircraft engaged in a personal or business flight to or from the U.S. which is not:

(1) Carrying passengers and/or cargo for commercial purposes;

(2) Leaving the U.S. in ballast to lade passengers and/or cargo in a foreign area for commercial purposes; or

(3) Returning to the U.S. in ballast after leaving with passengers and/or cargo for commercial purposes;

(i) *Public aircraft.* A "public aircraft" is any aircraft owned by, or under the complete control of, the U.S., its agencies, or any foreign nation. This definition applies if the aircraft is:

(1) Manned entirely by members of the armed forces or civil service of such government, or by both;

(2) Transporting only property of such government, or passengers traveling on official business of such government; or

(3) In ballast.

(j) *Residue cargo.* "Residue cargo" is any cargo on board an aircraft arriving in the U.S. from a foreign area if the:

(1) Final delivery airport in the U.S. is not the port of arrival; or

(2) Cargo remains on board the aircraft and travels from port to port in the U.S., for final delivery in a foreign area.

(k) *Scheduled airline.* A "scheduled airline" is any individual, partnership, corporation or association:

(1) Engaged in air transportation under regular schedules to, over, away from, or within the U.S.; and

(2) Holding a Foreign Air Carrier Permit or a Certificate of Public Convenience and Necessity, issued by the Civil Aeronautics Board.

(l) *United States.* the "U.S." means the territory of the several States, the District of Columbia, and Puerto Rico, including the territorial waters and overlying airspace.

(m) *Place.* The term "place", as used in this Part, means anywhere outside of the airspace of the United States.

§ 122.3 Other Customs laws and regulations.

Except as otherwise provided for in this part, and insofar as such laws and regulations are applicable, aircraft arriving or having arrived from any foreign port or place, and the persons and merchandise, including baggage, carried thereon, shall be subject to the laws and regulations applicable to vessels arriving or having arrived from any foreign port or place, to the extent that such laws and regulations are administered by Customs.

§ 122.4 Availability of forms.

The forms mentioned in this part may be purchased from the district director at a port of entry. A small number of each form is set aside by each district director for free distribution and official use.

§ 122.5 English language required.

A translation in the English language shall be attached to the original and each copy of any form or document written in a foreign language.

§ 122.6 Reproduction of Customs forms.

(a) *Specifications.* The Customs forms mentioned in this part may be printed by private parties if the same size, wording, arrangement, style and size of type, and quality and color of paper are used.

(b) *Exceptions.* District directors may accept privately printed copies of the General Declaration (Customs Form 7507) and air cargo manifest (Customs Form 7509) which are different from the official forms. The private forms shall include all information required on the official forms. The differences allowed are:

(1) *General Declaration.* Customs Form 7507 may be printed in several languages, so long as the form includes an English version. The instructions on the reverse side of the official form may be omitted.

(2) *Air cargo manifest.* Customs Form 7509 may be changed to allow for additional information used by the airline.

Subpart B—International Airports

§ 122.11 Designation as international airport.

(a) *Procedure.* International airports, as defined in § 122.2(e), will be designated after due investigation to establish the fact that a sufficient need exists in any particular district or area to justify such designation and to determine the airport best suited for such purpose. In each case, a specific airport will be chosen, rather than a general area or district. International airports will be publicly owned, unless circumstances require otherwise.

(b) *Withdrawal of designation.* The designation as an international airport may be withdrawn for any of the following reasons:

(1) The amount of business clearing through the airport does not justify maintenance of inspection equipment and personnel;

(2) Proper facilities are not provided or maintained by the airport;

(3) The rules and regulations of the Federal Government are not followed; or

(4) Some other location would be more useful.

(c) *Providing office space to the Federal Government.* Each international airport shall provide, without cost to the Federal Government, proper office and other space for the sole use of Federal officials working at the airport. A suitable paved loading area shall be supplied by each airport at a place convenient to the office space. The loading area shall be kept for the use of aircraft entering or clearing through the airport.

§ 122.12 Operation of international airports.

(a) *Entry, clearance and charges.* International airports are open to all aircraft for entry and clearance at no charge. Charges may be made by the airport when commercial or private aircraft use the airport:

(1) For taking on or discharging passengers or cargo; or

(2) As a base for other commercial or private operations.

(b) *Servicing of aircraft.* when an aircraft enters or clears through an international airport, it shall be promptly serviced by airport personnel solely on the basis of order of arrival or readiness for departure. Servicing charges shall not be greater than the

schedule of charges in effect at the airport in question. A copy of the

Location	Name

place of first landing, as specified in

§ 122.25 Exemption from special landing

registration number for the aircraft;

(a) *Repairs.* Repairs made in a foreign

schedule of charges in effect at the airport in question. A copy of the schedule of charges shall be posted in a prominent place at the offices of Federal agencies at the airport.

(c) *Federal Aviation Administration rules.* Internatonal airports shall follow and enforce any requirements for airport operations, including airport rules, that are set out by the Federal Aviation Administration.

(d) *Additional requirements.* Additional requirements may be put into effect at a particular airport as the needs of the district served by the airport demand.

§ 122.13 List of international airports.

The following is a list of international airports of entry designated by the Secretary of the Treasury without time limit.

Location	Name
Akron, Ohio	Akron Municipal Airport.
Albany, N.Y.	Albany County Airport.
Baudette, Minn.	Baudette International Airport.
Bellingham, Wash.	Bellingham International Airport.
Brownsville, Tex.	Brownsville International Airport.
Burlington, Vt.	Burlington International Airport.
Calexico, Calif.	Calexico International Airport.
Caribou, Maine	Caribou Municipal Airport.
Chicago, Ill.	Midway Airport.
Cleveland, Ohio	Cleveland Hopkins International Airport.
Cut Bank, Mont.	Cut Bank Airport.
Del Rio, Tex.	Del Rio International Airport.
Detroit, Mich.	Detroit City Airport.
Detroit, Mich.	Detroit Metropolitan Wayne County Airport.
Douglas, Ariz.	Bisbee-Douglas International Airport.
Duluth, Minn.	Duluth International Airport.
Duluth, Monn.	Sky Harbor Airport.
Eagle Pass, Tex.	Eagle Pass Municipal Airport.
El Paso, Tex.	El Paso International Airport.
Fort Lauderdale, Fla.	Fort Lauderdale-Hollywood International Airport.
Friday Harbor, Wash.	Friday Harbor Seaplane Base.
Grand Forks, N.Dak.	Grand Forks International Airport.
Great Falls, Mont.	Great Falls International Airport.
Havre, Mont.	Havre City-County Airport.
Houlton, Maine	Houlton International Airport.
International Falls, Minn.	Falls International Airport.
Juneau, Alaska	Juneau Municipal Airport.

Subpart C—Private Aircraft

§ 122.21 Application.

This subpart applies to all private aircraft as defined in § 122.2(h). All other provisions of this part do not apply to private aircraft, except where stated in this subpart.

§ 122.22 Notice of arrival.

When arriving in the U.S. from a foreign area, all private aircraft not covered by § 122.23 shall given advance notice of arrival as required in § 122.31.

§ 122.23 Private aircraft arriving from areas south of the U.S.

(a) *Private aircraft defined.* For the purpose of this section, "private aircraft" means all aircraft except public aircraft and those aircraft operated, on a regularly published schedule, pursuant to a certificate of public convenience and necessity or foreign aircraft permit issued by the Civil Aeronautics Board, or its successor, the Department of Transportation, authorizing interstate, overseas air transportation, and those aircraft with a seating capacity of more than 30 passengers or a maximum payload capacity of more than 7,500 pounds which are engaged in air transportation for compensation or hire on demand. (See 49 U.S.C. 1372 and 14 CFR Part 298).

(b) *Advance report of penetration of U.S. airspace via Gulf and Atlantic Coasts.* All private aircraft arriving in the U.S. via the Gulf of Mexico and Atlantic Coasts from a place in the Western Hemisphere south of 30 degrees north latitude, from any place in Mexico, from the U.S. Virgin Islands, or (notwithstanding the definition of "United States" in § 122.2(l) from Puerto Rico, shall furnish a notice of intended arrival to Customs at the nearest designated airport to the point of crossing listed in § 122.24(b) for the first landing in the U.S.

(c) *Notice of arrival.* Aircraft covered by this section shall give advance notice of arrival to Customs not less than 1 hour before crossing the U.S. border or coastline.

(d) *Notice procedures.* Advance notice of arrival shall be given at the intended place of first landing, as specified in paragraph (f) of this section, either:

(1) Through Federal Aviation Administration flight notification procedures (see International Flight Information Manual, Federal Aviation Administration; or

(2) To the district director or Customs officer in charge.

(e) *Contents of notice.* The advance notice of arrival shall include the following:

(1) Aircraft registration number;
(2) Name of aircraft commander;
(3) Number of U.S. citizen passengers;
(4) Number of alien passengers;
(5) Place of last foreign departure;
(6) Estimated time and location of crossing U.S. border/coastline.
(7) Estimated time of arrival.
(8) Name of intended U.S. airport of first landing, as listed in § 122.24, unless an exemption has been granted under § 122.25.

(f) *Responsibility for notice.* The aircraft commander has the final responsibility for giving adequate advance notice of arrival, regardless of the method of notice used.

§ 122.24 Landing requirements.

(a) *In general.* Private aircraft arriving in the U.S. from a foreign area shall follow the landing requirements set out in §§ 122.23 and 122.36.

(b) *Special requirements.* All private aircraft required to give advance notice of arrival under § 122.23 shall land for Customs processing at the following airport which is nearest to the point of crossing the U.S. border or coastline, unless an exemption has been granted under § 122.25.

Location	Name
Beaumont, Tex.	Jefferson County Airport.
Brownsville, Tex.	Brownsville International Airport.
Calexico, Calif.	Calexico International Airport.
orpus Christi, Tex.	Corpus Christi International Airport.
Del Rio, Tex.	Del Rio International Airport.
Douglas, Ariz.	Bisbee-Douglas International Airport.
Eagle Pass, Tex.	Eagle Pass Municipal Airport.
El Paso, Tex.	El Paso International Airport.
Fort Lauderdale, Fla.	Fort Lauderdale Executive Airport.
Fort Lauderdale, Fla.	Fort Lauderdale-Hollywood International Airport.
Fort Pierce, Fla.	St. Lucie County Airport.
Houston, Tex.	Wiliam P. Hobby Airport.
Key West, Fla.	Key Wet International Airport.
Laredo, Tex.	Laredo International Airport.
McAllen, Tex.	Miller International Airport.
Miami, Fla.	Miami International Airport.
Miami, Fla.	Ops-Locka Airport.
New Orleans, La.	New Orleans International Airport (Moisant Field).
New Orleans, La.	New Orleans Lakefront Airport.

San Diego, Calif.	San Diego International Airport (Lindbergh Field).
Tampa, Fla.	Tampa International Airport.
Tucson, Ariz.	Tucson International Airport.
West Palm Beach, Fla.	Palm Beach International Airport.
Yuma, Ariz.	Yuma International Airport.

§ 122.25 Exemption from special landing requirements.

(a) *Request.* An owner or aircraft commander required to give advance notice of arrival under § 122.23 may request an exemption from the special landing requirements in § 122.24. An exemption permits the aircraft to land at any airport in the U.S. staffed by Customs. Aircraft traveling under an exemption shall still follow advance notice and general landing rights requirements.

(b) *Procedure.* An exemption request shall be made to the district director at the airport of first landing at which Customs processing is desired. The request shall be submitted:

(1) At least 30 days before the anticipated first arrival if the request is for an exemption covering a number of flights over a period of one year; or

(2) At least 15 days before the anticipated arrival if the request is for a single flight.

(c) *Content of request.* A request for exemption from the special landing requirements shall include the following information:

(1) Aircraft registration number;

(2) Identity of the aircraft (make, model number, color and type, such as turboprop, reciprocating, helicopter, etc.);

(3) A statement that the aircraft is equipped with a functioning transponder which will be in use during overflight.

(4) Names, addresses, and dates of birth of owners of the aircraft (if the aircraft is being operated under a lease, the name and address of the lessee, in addition to that of the owner);

(5) Names, addresses, and dates of birth of all crewmembers;

(6) Names, addresses, and dates of birth of usual or potential passengers to the extent possible;

(7) Description of usual or anticipated cargo or baggage;

(8) Description of company's' usual business activity, if aircraft is company-owned;

(9) Name of intended airport of first landing in the U.S.;

(10) Foreign places from which the flight(s) will begin;

(11) Detailed reasons for overflight exemption, stated in terms of savings in cost and time, safety considerations, and convenience.

(d) The owner or aircraft commander or a private aircraft granted an exemption from the landing requirement shall:

(1) Notify Customs of a change of Federal Aviation Administration registration number for the aircraft;

(2) Notify Customs of the sale of the aircraft;

(3) Notify Customs of changes of usual or anticipated pilots or crewmembers, as specified in paragraph (c)(5) of this section. One pilot or crewmember as identified in paragraph (c)(5) of this section shall be present on every flight to maintain exemption status. The notifications specified in this paragraph shall be given to Customs within 5 working days of the change or sale, or before a flight for which there is an exemption, whichever occurs earlier.

§ 122.26 Entry and clearance.

Private aircraft, as defined in § 122.2(h), are not required to enter or to clear.

§ 122.27 Documents required.

(a) *Crewmembers and passengers.* Crewmembers and passengers on a private aircraft arriving in the U.S. shall make baggage declarations as set forth in Part 148 of this Chapter. An oral declaration of articles acquired in foreign areas shall be made, unless a written declaration on Customs Form 6059–B is found necessary by inspecting officers.

(b) *Cargo.* (1) On arrival, cargo and unaccompanied baggage not carried for hire aboard a private aircraft may be listed on a baggage declaration on Customs Form 6059–B, and shall be entered. If the cargo or unaccompanied baggage is not listed on a baggage declaration, it shall be entered in the same manner as cargo carried for hire into the U.S.

(2) On departure, when a private aircraft leaves the U.S. carrying cargo not for hire, the Bureau of Census (15 CFR Part 30) and the Export Administration (15 CFR Parts 368–399) regulations shall be followed. A foreign landing certificate or copy of a foreign Customs entry is required as proof of exportation if the cargo includes:

(i) Merchandise valued at more than $100.00; or

(ii) More than one case of alcoholic beverages withdrawn from a Customs bonded warehouse or otherwise in bond for direct exportation by private aircraft.

§ 122.28 Private aircraft taken abroad by U.S. residents.

An aircraft belonging to a resident of the U.S. which is taken to a foreign area for non-commercial purposes and then returned to the U.S. by the resident shall be admitted under the conditions and procedures set forth in § 148.32 of this chapter.

(a) *Repairs.* Repairs made in a foreign area which are incidental to the use of the aircraft abroad are not subject to duty. Incidental repairs under this section means a repair which was not anticipated before the aircraft left the U.S.

(b) *Equipment.* Equipment or accessories acquired in a foreign area and imported separately are subject to payment of duty. Equipment or accessories not incidental to use of the aircraft abroad are also subject to duty.

(c) *Assessment.* Any repairs made to, or equipment and accessories installed on, a private aircraft which are not incidental to the use of the aircraft abroad are subject to the duty rate at which the aircraft would be dutiable if imported.

(d) *Entry.* Entry on a baggage declaration or on a regular entry shall be made if the repair, equipment or accessory is subject to duty.

§ 122.29 Overtime services.

(a) *Application.* Private aircraft arriving in the U.S. and requiring Customs services to be performed outside the regular hours of duty are subject to overtime charges. The overtime charges to be assessed against the operator of a private aircraft in connection with each arrival are limited to a maximum of $25.

(b) *Procedure.* An application must be made on Customs Form 3171 to receive overtime services. The application shall be supported by a bond on Customs Form 301, containing the bond conditions set forth in subpart G of Part 113 of this chapter, or a cash deposit, and may be effective up to one year. See § 24.16(c) of this chapter.

§ 122.30 Other Customs laws and regulations.

Sections 122.3 and 122.161 apply to private aircraft.

Subpart D—Landing Requirements

§ 122.31 Notice of arrival.

(a) *Application.* All aircraft entering the U.S. from a foreign area shall give advance notice of arrival. Exceptions to this requirement are found in paragraph (b) of this section. When a private aircraft enters the U.S. from a foreign area in the Western hemisphere south of the U.S., advance notice shall be given as stated in § 122.23.

(b) *Exception—(1) Scheduled aircraft of a scheduled airline.* Advance notice is not required for aircraft of a scheduled airline arriving under a regular schedule. The regular schedule shall have been filed with the district director for the district in which the first

landing is made. Scheduled airlines shall also submit a copy of their

shall be at an international airport (see

(1) Travelling from airport to airport in

§ 122.32 Permit and special license to unlade and lade.

(g) *Automatic renewal.* An aircraft which has a bond on Customs Form 301

the general declaration, whether or not cargo is on board. The air cargo

VOL 50 ISS 144 JL 26 1985 UMI

landing is made. Scheduled airlines shall also submit a copy of their schedules to the Regional Commissioner of the region in which the scheduled aircraft will land. This notice shall be given 30 days before the effective date of the schedule.

(2) *Public aircraft.* Public aircraft are covered by Subpart O.

(c) *Giving notice of arrival—Procedure.* The commander of an aircraft covered by this section shall give the advance notice of arrival. Notice shall be given to the district director at or nearest the place of first landing, either:

(i) Directly by radio or other method; or

(ii) Through Federal Aviation Administration flight notification procedure (see International Flight Information Manual, Federal Aviation Administration).

(2) *Reliable facilities.* When reliable means for giving notice are not available (for example, when departure is from a remote place) a landing shall be made at a place where notice can be sent. This shall be done before coming into the U.S. If necessary, radio equipment may be used to give required notice.

(d) *Contents of notice.* The advance notice of arrival shall state:

(1) Type of aircraft and registration number;

(2) Name of aircraft commander;

(3) Place of last foreign departure;

(4) International airport of intended landing or other place at which landing has been authorized by Customs;

(5) Number of alien passengers;

(6) Number of citizen passengers; and

(7) Estimated time of arrival.

(e) *Time of notice.* Notice of arrival shall be sent and received far enough in advance to allow inspecting officers to reach the place of first landing of the aircraft.

(f) *Notice to other Federal agencies.* When advance notice is received, the district director shall inform any other Federal agency connected with landing.

(g) *Responsibility of aircraft commander.* The aircraft commander has the responsibility for giving adequate advance notice of arrival, regardless of the method of notice used.

§ 122.32 Aircraft required to land.

Any aircraft coming into the U.S., including Puerto Rico, from an area outside the U.S., is required to land, unless exempted by the Federal Aviation Administration, Washington, D.C.

§ 122.33 Place of first landing.

The first landing of an aircraft entering the U.S. from a foreign area shall be at an international airport (see § 122.13, International airports). Permission to land at another place may be given under § 122.34 (Landing rights airport) or § 122.35 (Emergency or forced landing).

§ 122.34 Landing rights airport.

(a) *Permission to Land.* Permission to land at a landing rights airport may be given as follows:

(1) *Scheduled flight.* The scheduled aircraft of a scheduled airline may be allowed to land at a landing rights airport. Permission is given by the regional commissioner of the region in which first landing is made.

(2) *Other aircraft.* All other aircraft may be allowed to land at a landing rights airport by the district director at the port of entry or station nearest the first place of landing.

(3) *Addition flights, charters or changes in schedule:*

(i) *Scheduled aircraft.* If a new carrier plans to set up a new flight schedule, or an established carrier makes changes in its approved schedule, landing rights may be granted by the regional commissioner.

(ii) *Additional or charter flight.* If a carrier or charter operator wants to begin operating or to add flights, application shall be made to the district director for landing rights. All requests shall be made not less than 48 hours before the intended time of arrival, except in emergencies. If the request is oral, it shall be put in writing before or at the time or arrival.

(4) *Emergency or forced landing.* Permission to land is not required for an emergency or forced landing (see § 122.35).

(b) *Notice to Federal agencies.* If an aircraft is given permission to land at a landing rights airport, the Customs officer who granted the landing rights shall notify the Public Health Service, the Immigration and Naturalization Service, the Animal and Plant Health Inspection Service, and any other interested Federal agency at once.

(c) *Payment of expenses.* The owner, operator or person in charge of the aircraft shall pay any added charges for inspecting the aircraft, passengers, employees and merchandise when landing rights are given. When permission to land is given to scheduled aircraft of a scheduled airline, no inspection charge is made except for the overtime expenses of Customs officers. (see § 24.16 of this chapter).

§122.35 Emergency or forced landing.

(a) *Application.* This section applies to emergency or forced landings made by aircraft:

(1) Travelling from airport to airport in the U.S. under a permit to proceed (see §§ 122.52, 122.54 and 122.83(d)), or a Customs Form 7509 (see § 122.113); or

(2) Coming into the U.S. from a foreign area.

(b) *Notice.* When an emergency or forced landing is made, notice shall be given:

(1) To the Customs officer at the intended place of first landing, nearest international airport, or nearest port of entry, as soon as possible;

(2) By the aircraft commander, other person in charge, or aircraft owner, who shall make full report of the flight and the emergency or forced landing.

(c) *Passengers and crewmembers.* The aircraft commander or other person in charge shall keep all passengers and crewmembers in a separate place at the landing area until Customs officers arrive. Passengers and crewmembers may be removed if necessary for safety, or for the purpose of contacting Customs officers.

(d) *Merchandise and baggage.* The aircraft commander or other person in charge shall keep all merchandise and baggage together and unopened at the landing area until Customs officers arrive. The merchandise and baggage may be removed for safety or to protect property.

(e) *Mail.* Mail may be removed from the aircraft, but shall be delivered at once to an officer or employee of the Postal Service.

§ 122.36 Responsibility of aircraft commander.

If an aircraft lands in the U.S. and inspection officers have not arrived, the aircraft commander shall hold the aircraft, and any merchandise or baggage on the aircraft for inspection. Passengers and crewmembers shall be kept in a separate place until inspection officers arrive.

§ 122.37 Precleared aircraft.

(a) *Application.* This section applies when aircraft carrying precleared crew, passengers and baggage or merchandise makes an unscheduled or unintended landing at an airport in the U.S.

(b) *Notice.* The airline commander or agent shall give written notice to the Customs office at:

(1) The intended place of unlading; and

(2) The place of preclearance.

(c) *Time of notice.* Notice shall be given within 7 days unless other arrangements have been made in advance between the carrier and the district director.

§ 122.38 Permit and special license to unlade and lade.

(a) *Application.* A permit and/or special license to unlade passengers, baggage, and merchandise, or to lade baggage and merchandise, may be issued at any airport.

(1) *Permit to unlade and lade.* A permit is necessary to obtain Customs supervision of unlading and lading during official Customs duty hours.

(2) *Special license to unlade and lade.* A special license is necessary under this section to obtain Customs supervision of unlading and lading at any time not within official Customs duty hours.

(b) *Procedure.* The application for a permit and/or special license to unlade and lade shall be made on Customs Form 3171. An application will not be granted unless supported by a bond on Customs Form 301, containing the bond conditions set forth in Subpart G of Part 113 of this chapter, or a cash deposit, unless this requirement is waived under § 122.38(c). A request for a permit may be included with a request for a special license. Application shall be made to the district director for the district in which the unlading or lading will take place.

(c) *Waiver.* To insure prompt and orderly clearance of the aircraft, passengers, baggage, or merchandise, the district director may waive the requirement under § 122.38(b) that a bond on Customs Form 301, containing the bond conditions set forth in Subpart G of Part 113 of this chapter, or a cash deposit, be furnished, if he is convinced that the revenue is protected and that all Customs requirements are satisfied.

(d) *Term permit and term special license.* A separate application for a permit and/or special license is not required for each arrival or departure when:

(1) An aircraft is covered by a term permit or a term special license; or

(2) Local arrangements have been made to notify Customs before services are needed.

The notice to Customs shall include the specific kind of service requested, and the exact time it will be needed.

(e) *Separate applications.* If the aircraft is not covered by a term permit or a term special license, and arrangements for notice to Customs have not been made, a separate application for a permit and/or a special license shall be made for arrival and departure.

(f) *Other statutes.* A permit or special license will not be issued, and any term permit or term special license already issued will be revoked, if the carrier does not follow the employee list and terminal facilities requirements of § 4.30 of this chapter.

(g) *Automatic renewal.* An aircraft which has a bond on Customs Form 301 containing the appropriate bond set forth in Subpart G of Part 113 of this chapter, on file may request automatic renewal of a permit and/or special license. The request shall be for successive annual periods which conform to the automatic renewal periods of the airline's consolidated bond. An application for automatic renewal will be approved by the district director unless specific reasons exist for non-approval. If a request for automatic renewal is not approved, the district director shall notify the airline, and shall set out the reasons for the denial. To apply for automatic renewal, item 10 on Customs Form 3171 shall be changed by adding the following words after the period of time indicated:

And automatic annual renewal thereof for so long as the bond is renewed and remains in effect.

Subpart E—Aircraft Entry and Entry Documents

§ 122.41 Aircraft required to enter.

All aircraft coming into the U.S. from a foreign area shall make entry under Subpart E except:

(a) Public and private aircraft; and

(b) Aircraft traveling from airport to airport in the U.S. under Subpart I, relating to Residue Cargo Procedures.

§ 122.42 Aircraft entry.

(a) *By whom.* Entry shall be made by the aircraft commander or an agent.

(b) *Place of entry*—(1) *First landing at International airport.* Entry shall be made at the international airport at which first landing is made.

(2) *First landing at another airport.* If the first landing is not at an international airport, the aircraft commander or an agent shall make entry at the nearest international airport or port of entry, unless some other place is allowed for the purpose.

(c) *Delivery of forms.* When the aircraft arrives, the aircraft commander or agent shall deliver any required forms to the Customs officer at the place of entry at once.

§ 122.43 General declaration.

(a) *When required.* A general declaration, Customs Form 7507, shall be filed for all aircraft required to enter under § 122.41 (Aircraft required to enter).

(b) *Exception.* Aircraft arriving directly from Canada on a flight beginning in Canada and ending in the U.S. need not file a general declaration to enter. Instead, an air cargo manifest (see § 122.48) may be filed in place of the general declaration, whether or not cargo is on board. The air cargo manifest shall state the following:

I certify to the best of my knowledge and belief that this manifest contains an exact and true account of all cargo on board this aircraft.

Signature ______________________

Aircraft Commander or Agent

(c) *Form.* The general declaration shall be on Customs Form 7507 or on a privately printed from prepared under § 122.6. The form shall contain all required information, unless the information is given in some other manner under Subpart E.

§ 122.44 Crew baggage declaration.

When an aircraft enters the U.S. form a foreign area, aircraft crewmembers shall file a crew baggage declaration as provided in Subpart G, Part 148 of this chapter.

§ 122.45 Crew list.

(a) *When required.* A crew list shall be filed by all aircraft required to enter under § 122.41.

(b) *Exception.* No crew list is required for aircraft arriving directly from Canada on a flight beginning in Canada and ending in the U.S. Instead, the total number of crewmembers may be shown on the general declaration.

(c) *Form.* The crew list shall show the full name (last name, first name, middle initial) of each crewmember, either:

(1) On the general declaration in the column headed "total Number of Crew"; or

(2) On a separate, clearly marked document.

(d) *Crewmembers returning as passengers.* Crewmembers of any aircraft returning to the U.S. as passengers on a commercial aircraft from a trip on which they were employed as crewmembers shall be listed on the aircraft general declaration or crew list.

§ 122.46 Crew purchase list.

(a) *When required.* A crew purchase list shall be filed with the general declaration for any aircraft required to enter under § 122.41.

(b) *Exception.* A crew purchase list is not required when an aircraft arrives directly from Canada on a flight beginning in Canada and ending in the U.S. If a written crew declaration is required for the aircraft under Subpart G of Part 148 of this chapter (Crewmember Declarations and Exemptions), it shall be attached to the air cargo manifest, along with the number of any written crew declarations.

(c) *Form.* When a crewmember enters articles for which a written crew

foreign country on the same through flight. Any cargo manifest already on

(e) *Accompanied baggage in transit.* This section applies when accompanied

that evidence to support the explanation of the discrepancy will be retained in the

aircraft has been paid on a prior arrival,

§ 122.53 Aircraft of foreign registry

(c) *Form.* When a crewmember enters articles for which a written crew declaration is not required (see Subpart G, Part 148 of this chapter), the articles shall be listed next to the crewmember's name on the general declaration, or on the attached crew purchase list. Articles listed on a written crew declaration need not be listed on the crew purchase list if:

(1) The crew declaration is attached to the general declaration, or to the crew list which in turn is attached to the general declaration; and

(2) The statement "Crew purchases as per attached crew declaration" appears on the general declaration or crew list.

§ 122.47 Stores list.

(a) *When required.* A stores list shall be filed for all aircraft required to enter under § 122.41.

(b) *Form.* The aircraft stores shall be listed on the cargo manifest or on a separate list. If the stores are listed on a separate list, the list must be attached to the cargo manifest. The statement "Stores List Attached" must appear on the cargo manifest.

(c) *Contents*—(1) *Required listing.* The stores list shall include all of the following:

(i) Alcoholic beverages, cigars, cigarettes and narcotic drugs, whether domestic or foreign;

(ii) Bonded merchandise arriving as stores;

(iii) Foreign merchandise arriving as stores; and

(iv) Equipment which must be licensed by the Secretary of State (see § 122.48(b)).

(2) *Other articles.* In the case of aircraft of scheduled airlines, other domestic supplies and equipment (if not subject to license) and fuel may be dropped from the stores list if the statement "Domestic supplies and equipment and fuel for immediate flight only, except as noted" appears on the cargo manifest or on the separate stores list. The stores list shall be attached to the cargo manifest.

(d) *Other statutes.* Section 446, Tariff Act of 1930 as amended (19 U.S.C. 1446), which covers supplies and stores kept on board vessels, applies to aircraft arriving in the U.S. from any foreign area.

§ 122.48 Air cargo manifest.

(a) *When required.* An air cargo manifest for all cargo on board shall be filed together with the general declaration for any aircraft required to enter under § 122.41.

(b) *Exception.* A cargo manifest is not required for merchandise, baggage and stores arriving from and departing for a foreign country on the same through flight. Any cargo manifest already on board may be inspected. Any arms, ammunition or implements of war on board which must be licensed by the Secretary of State shall be listed on the cargo manifest. Company mail shall be listed on the cargo manifest.

(c) *Form.* The cargo manifest shall be on Customs Form 7509, except when the use of Customs Form 5119A or 7523 is required.

(1) *Customs Form 7509.* When this form is used, it shall contain all required information. A more complete description of the cargo shipped under air waybills may be included by attaching a copy of each air waybill to the cargo manifest. The statement "Cargo as per air waybills attached" shall appear on the cargo manifest when this is done. Each air waybill number shall also be listed on the cargo manifest.

(2) *Custom Form 5119A.* This form may be used as the cargo manifest when the value of the cargo on board is not greater than $1000.00.

(3) *Customs Form 7523.* This form may be used as the cargo manifest when the cargo on board may be entered duty free as described on the form.

(d) *Unaccompanied baggage.* Unaccompanied baggage arriving in the U.S. under a check number from any foreign country by air and presented timely to Customs may be authorized for delivery by the carrier after inspection and examination without preparation of an entry, declaration, or being manifested as cargo. Such baggage must be found to be free of duty or tax under any provision of Schedule 8, Tariff Schedules of the United States (19 U.S.C. 1202), and cannot be restricted or prohibited. Unaccompanied checked baggage not presented timely to Customs or presented timely and found by Customs to be dutiable, restricted, or prohibited shall be shown on the cargo manifest in columns under the following headings:

Check No.	description of package	Where from	Destination

On the right of the foregoing columns two blank columns, one headed "Name of examining officer" and on the right thereof another headed "Disposition," shall be provided on the cargo manifest for the use of Customs officers. Unaccompanied unchecked baggage arriving as air express or freight shall be manifested as other air express or freight.

(e) *Accompanied baggage in transit.* This section applies when accompanied baggage enters into the U.S. in one aircraft and leaves the U.S. in another aircraft. When passengers do not have access to their baggage during the flight, the baggage is considered cargo and shall be listed on Customs Form 7509, Air Cargo Manifest.

§ 122.49 Correction of air cargo manifest.

(a) *Shortages*—(1) *Reporting.* Shortages (merchandise listed on the manifest but not found) shall be reported to the district director by the aircraft commander or agent. The report shall be made;

(i) On a Customs Form 5931, filled out and signed by the importer and the importing or bonded carrier; or

(ii) On a Customs Form 5931, filled out and signed by the importer alone under § 158.3 of this chapter; or

(iii) On a copy of the cargo manifest, which shall be marked "Shortage Declaration," and must list the merchandise involved and the reasons for the shortage.

(2) *Time to file.* Shortages shall be reported within the time set out in Part 158 of this chapter, or within 30 days of aircraft entry.

(3) *Evidence.* To avoid penalties, the aircraft commander or agent shall supply adequate proof of the claim that:

(i) Shortage merchandise was not imported, or was properly disposed of; or

(ii) That corrective action was taken. This proof shall be kept in the carrier file for one year from the date of aircraft entry.

(b) *Overages*—(1) *Reporting.* Overages (merchandise found but not listed on the manifest) shall be reported by the aircraft commander or egent to the district director. The report must be made:

(i) On a Customs Form 5931; or

(ii) On a separate copy of the cargo manifest which is marked "Post Entry" and lists the overage merchandise and the reason for the overage.

(2) *Time to file.* Overages shall be reported within 30 days of aircraft entry.

(3) *Evidence.* Satisfactory proof of the reasons for the overage shall be kept on file by the carrier for one year from the date of the report.

(c) *Statement on cargo manifest.* When the air cargo manifest is used to report shortages or overages, the Shortages Declaration or Post Entry must include the signed statement of the aircraft commander or agent as follows:

I declare to the best of my knowledge and belief that the discrepancy described herein occurred for the reason stated. I also certify that evidence to support the explanation of the discrepancy will be retained in the carrier's files for a period of at least one year and will be made available to Customs on demand.

Signature _____

Aircraft Commander or Agent

(d) *Notice by district director.* The district director shall immediately notify the aircraft commander or agent of any shortages or overages that were not reported by the aircraft commander or agent. Notice shall be given by sending a copy of Customs Form 5931 to the aircraft commander or agent, or in any other appropriate way. Once notice is received, the aircraft commander or agent shall make a satisfactory reply within 30 days of entry of the aircraft or receipt of the notice, whichever is later.

(e) *Correction not required.* A correction in the manifest is not required when:

(1) The district director is satisfied that the difference between the quantity of bulk merchandise listed on the manifest, and the quantity unladen, is the usual difference caused by absorption or loss of moisture, temperature, faulty weighing at the airport, or other such reason; and

(2) The marks or numbers on merchandise packages are different from the marks or numbers listed on the cargo manifest for those packages if the quantity and description of the merchandise is given correctly.

(f) *Statutes applicable.* When an aircraft arrives in the U.S. from a foreign area with merchandise and unaccompanied baggage for which a manifest must be filed, sections 440 (concerning post entry) and 584 (concerning manifest violations), Tariff Act of 1930, as amended (19 U.S.C. 1440, 1584), apply.

Subpart F—Permit To Proceed

§ 122.51 Aircraft of domestic origin registered in the U.S.

After Customs inspection of the aircraft, passengers, baggage and merchandise at the entry airport, commercial aircraft of domestic origin registered in the U.S. may be allowed to proceed to other airports in the U.S. without permit.

§ 122.52 Aircraft of foreign origin registered in the U.S.

(a) *Application.* This section applies to commercial aircraft (as defined in § 122.2(d)) of foreign origin registered in the U.S. and arriving in the U.S. from a foreign area.

(b) *Aircraft entered as an imported article.* When an aircraft covered by this section in entered as an imported article, and any applicable duty for the aircraft has been paid on a prior arrival, it may be allowed to proceed as other than an imported article. This is allowed when the aircraft commander files a declaration that states the:

(1) Port where entry was made;

(2) Date duty, if any, was paid.

(3) Number of the entry.

(c) *Aircraft not entered as imported article.* (1) *Treatment as other then an imported article.* A commercial aircraft covered by this section which has not been entered as an imported article may travel from airport to airport in the U.S. without payment of duty. Each commercial aircraft shall proceed under a permit on Customs Form 7507 or 7509, as provided in § 122.54. Treatment of the aircraft as other than an imported article shall continue for so long as the aircraft:

(i) Is used only for commercial purposes between the U.S. and foreign areas; and

(ii) Will leave the U.S. for a foreign destination in commercial use or in ballast.

(2) *Treatment as an imported article.* Any aircraft covered by this section which was not entered as an imported article shall make entry if it: is withdrawn from commercial use between the U.S. and foreign areas; or

(ii) Is used in the U.S. in a way not reasonably related to efficient commercial use of the aircraft between the U.S. and foreign areas.

(d) *Aircraft damage and duty payment*— (1) *Substantial damage to commercial aircraft.* If an accident causes substantial damage to a commercial aircraft, no entry or duty payment is required for any part of the wreckage.

(2) *Less than substantial damage and export.* If an accident does not cause substantial damage to a commercial aircraft, salvageable parts of the wrecked aircraft may be exported. In this circumstance, the aircraft, as a whole or in part, is not considered to be withdrawn from commercial use and is not subject to entry or to duty as imported merchandise.

(3) *Less than substantial damage and no export.* If an accident does not cause substantial damage to a commercial aircraft and the wrecked aircraft, or any salvageable part of it, is not exported, then:

(i) Entry is required to be made for the damaged aircraft or any salvageable part of it; and

(ii) A duty payment, if applicable, based on the condition of the aircraft following the accident, is required.

§ 122.53 Aircraft of foreign registry chartered or leased to U.S. air carriers.

Aircraft of foreign registry leased or chartered to a U.S. air carrier, while being operated by the U.S. air carrier under the provisions of the Federal Aviation Administration regulations (14 CFR 121.153), shall be treated as U.S. registered aircraft under this subpart.

§ 122.54 Aircraft of foreign registry.

(a) *Application.* For any commercial aircraft of foreign registry arriving in the U.S., the aircraft commander or agent shall file for a permit to proceed when the aircraft:

(1) Is not an imported article; and

(2) Is ferried (proceeds in ballast) from the airport of first arrival to one or more airports in the U.S. (For permit to proceed with residue cargo, passengers, or crewmembers for release in the U.S., see Subpart I of this Part).

(b) *Permit to proceed.* The permit to proceed shall be filed on Customs Form 7507 by the carrier or its agent. Customs Form 7509 may be used if the aircraft arrives directly from Canada on a flight beginning in Canada and ending in the U.S. Either form shall show the following information:

(1) Type of aircraft;

(2) Nationality and registration number of aircraft;

(3) Name and country of aircraft manufacturer;

(4) Name of aircraft commander;

(5) Country from which aircraft arrived;

(6) Name and location of airport where permit to proceed is given;

(7) Date permit to proceed is given;

(8) Name and location of airport to which aircraft is proceeding;

(9) Purpose of stay in the U.S.;

(10) Signature of Customs officer giving permit.

(c) *Permit on board.* The permit to proceed shall be kept on board the aircraft while in the U.S.

(d) *Intermediate airports.* For each airport at which the aircraft lands, the Customs officer, or airport manager if there is no Customs officer present, shall note on the permit:

(1) The name and location of the airport;

(2) The date and arrival time;

(3) The purpose of the visit;

(4) The name and location of the next airport to be visited; and

(5) The date and time of departure.

(e) *Final airport.* The permit to proceed shall be given to the appropriate Customs officer at the airport of final clearance for a foreign destination. Before clearance is given, the Customs officer shall make sure that

the aircraft was properly inspected by Customs in the U.S.

transport outside of the U.S. The clearance applies only to the

undertake any necessary examination of the aircraft and cargo.

the district director before the aircraft will be cleared.

waybill numbers. The statement "Cargo as per export Declarations Attached"

§ 122.78 Entry or withdrawal for exportation or for transportation and

VOL 50 ISS 144 JL 26 1985 UMI

the aircraft was properly inspected by Customs in the U.S.

(f) *Port of Issue.* The permit to proceed shall be returned after final clearance to the district director at the port where the permit was issued, to be kept on file.

(g) *Enforcement.* Once the permit to proceed has been issued for an aircraft, the district director at the port of issue must receive notice that the aircraft has made final clearance. If notice is not received within 60 days, the district director shall report the matter to the Customs agent in charge of the area for investigation.

Subpart G—Clearance of Aircraft and Permission To Depart

§ 122.61 Aircraft required to clear.

All aircraft, except public and private aircraft, leaving the U.S. for a foreign area are required to clear if:

(a) Carrying passengers and/or mechandise for hire; or

(b) Taking abroad or discharging passengers and/or merchandise for hire in a foreign area.

This includes any aircraft used by members of air travel clubs. Foreign aircraft traveling under a permit to proceed shall also clear.

§ 122.62 Aircraft not otherwise required to clear.

(a) *Bureau of the Census.* Under Bureau of the Census Regulations (15 CFR part 30.1), aircraft not required to clear by § 122.61 shall obtain permission to depart if carrying mechandise from the U.S. to Puerto Rico or from Puerto Rico to the U.S.

(b) *Bureau of Internotionol Commerce.* Aircraft leaving the U.S. for a foreign area must be cleared by Customs if a validated license from the Office of Export Administration (Department of Commerce) is required for the aircraft under the Export Control Regulations (15 CFR Part 370). Aircraft are not required to clear if the Secretary of Commerce issues a permit allowing departure without clearance.

(c) *Department of State.* Aircraft not covered by Export Control Regulations are subject to the Department of State export licensing authority as set out in 22 CFR Parts 121,123. Such aircraft may leave the U.S. only with the proper Department of the State license.

§ 122.63 Scheduled airlines.

The aircraft commander or agent shall request clearance or permission to depart for aircraft covered by this subpart.

(a) *Clearance at other than airport of final departure.* Aircraft may clear at each airport where merchandise and/or passengers are taken on board for transport outside of the U.S. The clearance applies only to the merchandise and passengers boarding at each place. Clearance shall be requested at the Customs port of entry (whether or not an international airport) nearest to the place where merchandise and/or passengers are taken on board.

(b) *Clearance at final departure airport.* Clearance or permission to depart may be requested at the Customs port of entry (whether or not an international airport) nearest the last departure airport, unless some other place is chosen by the district director.

§ 122.64 Other aircraft.

Clearance or permission to depart shall be requested for aircraft covered by this subpart by the aircraft commander or agent. The request must be made to the district director at the Customs port of entry (whether or not an international airport) nearest the final departure airport, unless some other place is designated by the district director.

§ 122.65 Failure to depart.

Once an aircraft has been cleared or given permission to depart, the aircraft commander or agent shall report to the district director if departure is delayed or cancelled. The report shall be made within 72 hours after the aircraft received clearance or permission to depart.

Subpart H—Documents Required for Clearance and Permission To Depart

§ 122.71 Aircraft departing with no commercial export cargo.

(a) *Application.* This section applies to aircraft departing for foreign territory with no export cargo.

(1) Such aircraft may clear by telephone in advance with the district director nearest the departure place if departing empty or carrying only:

(i) Passengers for hire; or

(ii) Non-commercial cargo for which shipper's export declarations are not rquired.

(2) If not cleared by telephone, an air cargo manifest containing the following statement, signed by the aircraft commander or agent, shall be submitted to Customs:

I declare that there is no cargo on board this aircraft

Signed _____

(Aircraft Commander or Agent)

(b) *Timeliness.* The request for telephone clearance must be received by the Customs officer in charge with sufficient time remaining before departure to ensure that Customs may undertake any necessary examination of the aircraft and cargo.

(c) *Documentation.* When clearance is granted by telephone, the aircraft commander is not required to file the documents required by this subpart.

§ 122.72 Aircraft departing with commercial export cargo.

This section applies when an aircraft leaves the U.S. for any foreign area. An air cargo manifest and any required Shipper's Export Declarations shall be filed for all cargo on the aircraft, and for the aircraft itself if exported as merchandise. See § 122.79 for special requirements for shipments to U.S. possessions.

§ 122.73 Air Cargo manifest.

(a) *Form.* The air cargo manifest shall be on Customs Form 7509, and shall show all information required. The following statement shall appear on the form:

I declare that all statements contained in this manifest, including the account of the cargo on board this aircraft, are complete, exact, and true to the best of my knowledge.

Signed _____

(Aircraft Commander or Agent)

(b) *Preparation and filing.* The aircraft commander or agent shall file two copies of the air cargo manifest with the district director of the departure airport. Three copies of the air cargo manifest shall be filed if the aircraft is covered by § 122.77(b). The air cargo manifest must be filed in:

(1) Complete form, with all required Shipper's Export Declarations (see § 122.75); or

(2) Incomplete form (pro forma) under § 122.74.

§ 122.74 Incomplete (pro forma) manifest.

(A) *Application.* Clearance or permission to depart may be given to an aircraft by the district director before a complete manifest or all required Shipper's Export Declarations have been filed, if a proper bond is filed.

(b) *Exceptions.* An incomplete manifest will not be accepted:

(1) During any time covered by a proclamation of the President that a state of war exists between foreign nations; or

(2) If the aircraft is departing on a flight from the U.S. directly or indirectly to a foreign area in the country groups listed W, Y, or Z in the Export Regulations of the Bureau of International Commerce (15 CFR Part 370, Supplement No. 1).

In both cases, a complete air cargo manifest and all required Shipper's Export Declarations shall be filed with the district director before the aircraft will be cleared.

(c) *Filing under bond.* An incomplete set of documents may be filed only when accompanied by the proper bond. Under the bond, a complete set of documents shall be filed within whichever of the following time periods is appropriate:

(1) *Shipments to foreign countries.* All required Shipper's Export Declarations and a complete air cargo manifest shall be filed by the airline not later than the fourth business day after clearance (when clearance is required) or departure (when clearance is not required) of the aircraft.

(2) *Shipments to and from Puerto Rico.* For shipments between the U.S. and Puerto Rico, the complete manifest (when required) and all Shipper's Export Declarations shall be filed by the airline not later than the seventh business day after departure.

(3) *Shipments to U.S. Possessions.* For shipments between the U.S. or Puerto Rico and possessions of the U.S., a complete manifest and all required Shipper's Export Declarations shall be filed by the airline not later than the seventh business day after departure. See § 122.79.

(d) *Declaration required.* A declaration shall be made on the incomplete manifest that:

(1) All required documents will be filed within the four-day bond period; or

(2) All required documents will be filed within the seven-day bond period.

Once all documents have been filed, a statement as required by § 122.75(b) shall be made.

§ 122.75 Complete manifest.

(a) *Contents.* A complete air cargo manifest shall list all cargo laden, and show for each item the air waybill number, or marks and numbers on packages and the type of goods carried. When an item does not require a Shipper's Export Declaration, it shall be noted on the air cargo manifest.

(1) *Shipments on an air waybill.* A copy of each air waybill on which shipments are listed may be attached to the air cargo manifest, and the number of the air waybill may be listed on the air cargo manifest. The statement "Cargo as per Air Waybill Attached" must appear on the air cargo manifest when this is done.

(2) *Direct departure.* This subsection applies only to direct departures of shipments requiring a Shipper's Export Declaration. A copy of each declaration may be attached to the air cargo manifest, and the number of each declaration shall be listed on the air cargo manifest in the column for air waybill numbers. The statement "Cargo as per export Declarations Attached" must appear on the manifest when this is done.

(b) *Statement required.* When all required documents are ready for filing, the following statement must appear on the air cargo manifest or on the general declaration form when an air cargo manifest is not required:

Attached Shipper's Export Declarations represent a full and complete enumeration and description of the cargo carried in this flight except that listed on the cargo manifest.

When an incomplete set of documents has been filed and is later completed, the following statement shall accompany the Shipper's Export Declarations and any required air cargo manifests:

Attached Shipper's Export Declarations represent a full and complete enumeration and description of the cargo carried on aircraft No. ———, Flight No. ——— cleared direct for ———, on ——— except cargo listed on any cargo manifest required to be filed for such flight.

Airline _____

Authorized Agent _____

§ 122.76 Shipper's Export Declarations and inspection certificates.

At the time of clearance, the aircraft commander or agent shall file with the district director at the departure airport any Shipper's Export Declarations required by the Bureau of Census (see § 122.62(a)). The aircraft commander or authorized agent also shall deliver a proper export inspection certificate issued by the Veterinary Service, Animal and Plant Inspection Service, Department of Agriculture (9 CFR Part 91), to the Customs officer in charge at the time of departure of any aircraft carrying horses, mules, asses, cattle, sheep, swine or goats.

§ 122.77 Clearance certificate.

(a) *Aircraft departing from the U.S.* One copy of the air cargo manifest shall be used as a clearance certificate when endorsed by the district director to show that clearance is granted.

(b) *Scheduled aircraft.* When a scheduled aircraft clears at an airport which is not the airport at or nearest the place of final take-off from the U.S., two copies of the air cargo manifest shall be filed. One copy shall be used as a clearance certificate when endorsed at the port by the district director at the port where clearance is obtained, and the second copy shall be attached to the first or use at later U.S. ports.

§ 122.78 Entry or withdrawal for exportation or for transportation and exportation.

When a shipment is exported under an entry or withdrawal for exportation, or for transportation and exportation, the air cargo manifest, the air waybill, or the consignment note attached to the manifest shall clearly show for each entry or withdrawal the:

(a) Number;

(b) Date; and

(c) Class of entry or withdrawal, as follows:

(1) Transportation and exportation;

(2) Withdrawal for transportation and exportation;

(3) Immediate exportation;

(4) Withdrawal for exportation; or

(5) Withdrawal for transportation.

The name of the port where the entry or withdrawal was filed, if not the port where merchandise is laden for exportation, shall also appear on the air cargo manifest.

§ 122.79 Shipments to U.S. possessions.

(a) *Other than Puerto Rico.* An air cargo manifest shall be filed for aircraft transporting cargo between the U.S. and U.S. possessions. Shipper's Export Declarations are not required for shipments from the U.S. or Puerto Rico to the U.S. possessions, except to the U.S. Virgin Islands or from a U.S. possession and destined to the U.S., Puerto Rico or another U.S. possession.

(b) *Puerto Rico.* This subsection applies when an aircraft carries merchandise on a direct flight between the U.S. and Puerto Rico. If the requirements contained in Subpart I, Residue Cargo Procedures, have been satisfied, an air cargo manifest is required only for;

(1) Merchandise transported as cargo for which a Shipper's Export Declaration is not required; or

(2) Cargo for which a Shipper's Export Declaration cannot be filed on time. (See 15 CFR 30.21).

Any required air cargo manifest or Shipper's Export Declarations shall be filed with the district director at the departure place.

§ 122.80 Verification of statement.

Customs officers may verify any of the statements required under this subpart by examining the shipping records of the airline involved.

Subpart I—Residue Cargo Procedures

§ 122.81 Application.

(a) *Aircraft arriving with cargo.* Aircraft arriving in the U.S. from a foreign area with cargo, shown on the

manifest to be traveling to other airports in the U.S. or foreign areas, may proceed An abstract general declaration and manifest need not be filed at the last carrying residue cargo, a numbered Customs Form 7512 C shall be filled out

§ 122.85 Final airport.

When an aircraft enters at the last of this chapter). Each copy shall be signed by the carrier or agent

(g) *Warning labels.* The carrier shall supply and attach the warning label, as

manifest to be traveling to other airports in the U.S. or foreign areas, may proceed under the provisions of this Subpart.

(b) *Aircraft arriving with no cargo.* Aircraft arriving in the U.S. from a foreign area with no cargo on board, and requesting immediate clearance, may proceed if a bond on Customs Form 301, containing the bond conditions set forth in Subpart G of Part 113 of this chapter, has been filed and covers the aircraft.

§ 122.82 Bond requirements.

A bond on Customs Form 306 containing the bond provisions set forth in Subpart G of Part 113 of this chapter, shall be filed before an aircraft is given a permit to proceed with residue cargo under this subpart. The bond shall be filed in the correct amount with the district director at the entry airport.

(a) *Traveling general declaration and manifest.* When applying for clearance from an airport or place of entry in the U.S., the aircraft commander or agent shall file a traveling general declaration and manifest. The traveling general declaration and manifest is one certified copy of the original inward general declaration, and each air cargo manifest required when the aircraft entered. This includes air waybills that were part of the manifest.

(b) *Attachments to traveling general declaration and manifest*—(1) *Crew purchase and stores list.* The crew purchase and stores list, if required when the aircraft enters under §§ 122.46 and 122.47, shall be attached to the traveling general declaration and manifest.

(2) *Crew purchases not listed on a crew purchase list.* A crew member's declaration shall be attached to the traveling general declaration and manifest if:

(i) Crew purchases are listed on a crew declaration, Customs Form 5129, instead of on the crew purchase list, under § 122.46(c)(2); and

(ii) The crew member has not left the airport with his or her purchases at the first entry port.

The crew member's declaration must be attached at the port where the articles list on the declaration receive clearance.

(c) *Abstract general declaration and manifest.* The abstract general declaration and manifest is one copy of the general declaration, and one copy of each manifest (including air waybills) covering residue cargo:

(1) Not yet cleared by Customs or other Federal agency; and

(2) To be discharged at another domestic or foreign airport.

An abstract general declaration and manifest need not be filed at the last domestic port of discharge.

(d) *Permit to proceed.* A permit to proceed from one domestic airport to another shall be filed by the aircraft commander or agent with the Customs officer in charge at the clearance airport. The permit to proceed shall include a declaration by the aircraft commander or agent, which shall be signed on entry at the next domestic airport. The permit to proceed and declaration shall state substantially the following:

Permit To Proceed From One Airport to Another

Airport of Departure _____
Date _____
Permission is hereby given aircraft _____
to proceed to _____
_____
(Next Domestic Airport)

The Aircraft which has arrived from and is destined to the places shown in the general declaration, is proceeding to such places of destination to discharge residue cargo, passengers, or crew members and their purchases, as listed in the attached manifest. Bond was given at the airport of arrival for the cargo retained on board. Items of cargo manifested for delivery at this airport appear to have been landed. Number of crew members not cleared by Public Health Service for: Quarantine ——; medical examination of aliens ——. Number of passengers not cleared by Public Health Service for: Quarantine ——; medical examination of aliens ——.
Number of crew members not cleared by Customs. _____
Number of passengers not cleared by Customs. _____
Number of pieces of cargo no cleared. ——
_____
(Customs Officer and Title)

Declaration on Entry of Aircraft at Following Airport

Airport of Arrival _____
Date _____

I, ——, commander or authorized agent of the aircraft identified in this document, declare and guarantee that there were not, when such aircraft departed from the airport of ——, nor have been since, nor now are, any more or other goods, wares, or merchandise on board than was stated in the attached manifests.

_____
(Signature and Title)

The permit to proceed and declaration must be stamped, mimeographed or printed on:

(1) The abstract general declaration;

(2) The traveling general declaration when an abstract general declaration is not required; or

(3) A separate sheet of paper.

(e) *Permit to proceed to nonscheduled aircraft.* For each permit to proceed issued to a nonscheduled aircraft carrying residue cargo, a numbered Customs Form 7512–C shall be filled out and filed. The number on the form shall be placed in the upper right hand corner of the permit to proceed. The original copy of Customs Form 7512–C shall be forwarded to the Data Center by the issuing port and the duplicate must be attached to the permit and given to the aircraft commander. When the aircraft arrives at the final port, the aircraft commander shall deliver the permit to proceed and Customs Form 7512–C (duplicate) to Customs.

(f) *Use of form.* When all of the documents required by this section are in order, the permit to proceed shall be dated and signed by the appropriate Customs officer at the clearance airport. One copy of the permit to proceed shall be delivered to the aircraft commander or agent with the other required documents, for filing at the next international airport.

§ 122.84 Intermediate airport.

(a) *Application.* The provisions of this section apply at any U.S. airport to which an aircraft proceeds with residue cargo, and passengers, or crewmembers and their purchases not cleared by Customs. They do not apply to aircraft arriving at the last domestic port of discharge.

(b) *Entry.* When an aircraft at the next airport, the aircraft commander or agent shall make entry by filing the:

(1) Abstract general declaration and manifest;

(2) Traveling general declaration and manifest; and

(3) Permit to proceed.

The Declaration on Entry of Aircraft at Following Airport, found on the permit to proceed, shall be properly signed before filing for entry.

(c) *Crew declarations.* The declarations and entries, Customs Form 5129, of any crewmembers who leave the aircraft with their purchases at the intermediate airport shall be detached from the traveling general manifest. The declaration and entries are to be detached by the appropriate Customs officer and are kept at the airport.

(d) *Departure.* When the aircraft leaves an intermediate airport carrying residue cargo, and passengers or crewmembers and their purchases are not yet cleared by Customs or an other interested Federal agency, the procedure is the same as at the first arrival airport. All documents required by this section, except those detached under § 122.84(c), shall be returned to the aircraft commander or agent for filing at the next entry airport.

§ 122.85 Final airport.

When an aircraft enters at the last domestic airport of discharge, the traveling general declaration and manifest shall be filed with Customs and kept at the airport. No abstract general declaration and manifest is required.

§ 122.86 Substitution of aircraft.

(a) *Applicotion.* The residue cargo procedure applies when an airline must substitute aircraft to reach a destination due to weather conditions or operational factors.

(b) *Clearance and entry.* Clearance and entry of substitute aircraft is required as provided in this subpart for other aircraft.

(c) *Identification.* An identification of all substitute aircraft shall be clearly made on all clearance and entry documents.

(d) *Transporting cargo*—(1) *Forwarding.* The carrier may forward all cargo which arrived on one aircraft by transferring it to another aircraft of the same airline to complete the inbound flight. The transfer shall be done under Customs supervision.

(2) *Conditions.* All of the residue cargo from more than one inbound flight of an airline may be laden on one substitute aircraft of the airline. The substitute aircraft shall finish the inbound transport of the residue cargo. No other cargo may be laden on the substitute aircraft.

§ 122.87 Other statutes.

Section 4.85 of the chapter, relating to vessels with residue cargo for domestic ports, applies to aircraft residue cargo, except as stated in the subpart.

Subpart J—Transportation in Bond and Merchandise in Transit

§ 122.91 Application.

This subpart applies to the transportation in bond of merchandise arriving in the U.S. by aircraft and entered:

(a) For immediate transportation to another airport without appraisement; or

(b) For transportation through the U.S. and later exportion by aircraft.

§ 122.92 Procedure at port of origin.

(a) *Forms required*—(1) *Customs Form 7512.* Customs Form 7512 shall be used for both entry and manifest. Three copies of the form are required at the port of origin for merchandise for immediate transportation without appraisement. Four copies of the form are required when merchandise for transportation and exportation is entered. (See also, §§ 18.11 and 18.20(a) of this chapter). Each copy shall be signed by the carrier or agent.

(2) *Customs Form 7512–C.* The "Origin" copy of Customs Form 7512–C shall be filed with Customs Form 7512. It shall be dated and its number and date shall be placed on all copies of Customs Form 7512.

(b) *Delivery of Customs form to carrier*—(1) *Merchandise entered for immediate transportation without appraisement.* When merchandise is entered for immediate transportation without appraisement, two copies of Customs Form 7512, and the duplicate copy of Customs Form 7512–C shall be delivered to the carrier.

(2) *Merchandise entered for transportation and exportation.* When merchandise is entered for transportation and exportation, one copy of Customs Form 7512 and one copy of Customs Form 7512–C shall be delivered to the carrier.

(3) *After delivery.* Once the forms are delivered, they shall accompany the merchandise to the port of destination or exportation.

(c) *Receipt and supervision.* The agent of a bonded air carrier shall give a receipt for any merchandise delivered to it for transportation in bond.

(d) *Split shipment*—(1) *Departure within 24 hours.* Merchandise covered by a single entry and manifest (Customs Form 7512) may be sent to the destination airport on one or more aircraft. A separate manifest for each aircraft is not required if the whole shipment is sent within a single 24-hour period.

(2) *Departure not within 24 hours.* When any part of a shipment is sent more than 24 hours after the first part was sent, the entry and manifest copy which accompanies the first shipment shall state that the rest of the shipment will follow by separate aircraft. A single manifest shall be prepared for each part of the shipment sent by separate aircraft. The manifest shall be used as notice of each arrival at the destination airport.

(e) *Transhipment.* Merchandise sent under bond may be transferred at an intermediate airport to one or more aircraft of the same airline. This may be done without Customs supervision and notice of the transfer is not required. When merchandise covered by one entry and manifest is transferred to more than one aircraft, paragraph (d) of this section applies.

(f) *Sealing not required.* The sealing of aircraft, aircraft compartments carrying bonded merchandise, or the cording and sealing of bonded packages carried by the aircraft, is not required.

(g) *Warning labels.* The carrier shall supply and attach the warning label, as described in § 18.4(e) of this chapter, to each bonded package.

§ 122.93 Procedure at destination or exportation airport.

(a) *Delivery to district director.* When a bonded shipment arrives at the destination airport, the aircraft commander or agent shall deliver one copy of the entry and manifest (Customs Form 7512) covering the shipment to the district director of that airport as notice of arrival. If the shipment was sent by separate aircraft more than 24 hours after the first part of the shipment was sent, then a manifest for each part of the shipment shall be delivered to the district director.

(b) *Delivery to consignee.* When the merchandise is sent under an entry for immediate transportation without appraisal, one copy of the manifest covering the merchandise shall be delivered by the carrier to the consignee. This copy is used to make entry, and may also be used as a carrier certificate as provided in § 141.11(a)(4) of this chapter.

§ 122.94 Certificate of lading for exportation.

(a) *Required filing.* This section applies to merchandise entered for transportation and exportation by aircraft. A certificate of lading for exportation, Customs Form 7512 (see § 122.93 of Subpart J) or Customs Form 7520 shall be filed when the merchandise reaches the final departure airport. Either form shall be filled out and signed at the place where aircraft clearance for the merchandise is given. Customs Form 7512–C (duplicate) shall also be submitted at this time.

(b) *Clearance not at place of final departure.* Whenever an aircraft is cleared at a place other than the place of final departure from the U.S., the aircraft commander or agent shall:

(1) Promptly report arrival of any bonded merchandise for export to the Customs officer in charge at that place; and

(2) Submit to the Customs officer in charge the certificate received at the place the merchandise was taken on board. The clearance certificate is kept by the Customs officer in charge until departure.

This procedure shall be followed at each place of landing before final departure.

§ 122.95 Other provisions.

Part 18 of this chapter (Transportation in Bond and Merchandise in Transit) applies to the transportation of

merchandise under this subpart unless stated otherwise.

air or surface movement to the port of

(2) Four copies for transit air cargo

manifest, clearly signed and dated if

(b) *Time.* Transit air cargo shall be

license must be placed under

merchandise under this subpart unless stated otherwise.

Subpart K—Accompanied Baggage in Transit

§ 122.101 Entry of accompanied baggage.

Passengers who enter the U.S. on one aircraft and depart to a foreign area on another aircraft with accompanying baggage shall either:

(a) Submit their baggage to Customs for inspection; or

(b) Arrange with the importing carrier for the baggage to be processed under regular in transit procedures. When passengers choose not to have access to their baggage while in the U.S., the baggage shall be listed on the Air Cargo Manifest as provided in § 122.48 of this chapter.

§ 122.102 Inspection of baggage in transit.

(a) General baggage in transit may be inspected upon arrival, while in transit, and upon exportation. Carriers shall present in-transit baggage for inspection at any time found necessary by the district director.

(b) *Before delivery to passenger.* In-transit baggage shall be presented to a Customs officer for inspection and clearance before the baggage can be delivered to a passenger while in the U.S.

Subpart L—Transit Air Cargo Manifest (TACM) Procedures

§ 122.111 Application.

Cargo (including manifested baggage) which arrives and is transported under Customs control in, through or from the U.S. may be transported in bond under this subpart. If cargo is not transported under this subpart, it shall be transported under other provisions of this chapter. (See Subparts I and J of this part, and Parts 18 and 123 of this chapter).

§ 122.112 Definitions.

The following definitions apply in this subpart:

(a) *Transit air cargo.* "Transit air cargo" is cargo, including manifested baggage, transported under the requirements of this subpart;

(b) *Port of arrival.* The "port of arrival" is the port in the U.S. where imported cargo must be documented for further transportation under this subpart;

(c) *Transfer or transferred.* "Transfer or transferred" means the document change of cargo to transit air cargo for transportation. The terms also include the physical movement of the cargo from one carrier to another, and thereafter by air or surface movement to the port of destination;

(d) *Transit air cargo manifest.* "Transit air cargo manifest" is used in this subpart as the shortened title for the transportation entry and transit air cargo manifest.

§ 122.113 Form for transit air cargo manifest procedures.

A manifest on Customs Form 7509 is required to transport cargo as transit air cargo. The words "Transportation Entry and Transit Air Cargo Manifest" shall be printed, stamped or marked on the form and on all copies of the form required for transit air cargo movement.

§ 122.114 Contents.

(a) *Form duplicates original manifest.* Each transit air cargo manifest shall be a duplicate of the sheet presented as part of the cargo manifest for the aircraft on which the cargo arrived in the U.S.

(b) *Number of shipments shown on manifest—(1) Shipments from one country.* Each transit air cargo manifest sheet may list:

(i) Only air cargo shipments from one exporting country, with the name shown in the heading; or

(ii) The name of the exportation country for each shipment, shown in the "Nature of Goods" column.

(2) *Shipment to the same port.* A single transit air cargo manifest may list only those shipments manifested at the port of arrival for:

(i) The same Customs port of destination;

(ii) The same Customs port for later exportation; or

(iii) Direct exportation from the port of arrival.

(c) *Information required.* Each air cargo manifest sheet shall show:

(1) The foreign port of lading;

(2) The date the aircraft arrived at the port of arrival;

(3) Each U.S. port where Customs services will be necessary due to transit air cargo procedures; and

(4) The final port of destination in the U.S., or the foreign country of destination, for each shipment. The foreign country destination shown on the manifest must be the final destination, as shown by airline shipping documents, even though airline transport may be scheduled to end before the shipment arrives at the final destination.

(d) *Number of copies.* The transit air cargo manifest shall be supplied as follows:

(1) Three copies for transit air cargo exported directly from the port of arrival;

(2) Four copies for transit air cargo moving from the port of arrival to a port of destination in the U.S.; and

(3) Five copies for transit air cargo moving from the port of arrival to another U.S. port for exportation.

(e) *Corrections.* When corrections in the route shown on the original manifest for the cargo are required at the port of arrival to make a manifest sheet, workable as a transit air cargo manifest, the district director at the port of arrival may allow the corrections.

§ 122.115 Labeling of cargo.

A warning label, as required by § 18.4(e) of this chapter, shall be attached to all transit air cargo not directly exported from the port of arrival, before the cargo leaves the port of arrival.

§ 122.116 Identification of manifest sheets.

When the original cargo manifest for the aircraft on which the cargo arrives is presented by the aircraft commander or agent at the port of arrival, a manifest number will be given to the aircraft entry documents by Customs. The number given shall be used by the airline to identify all copies of the transit air cargo manifest. All copies of the manifest shall be correctly numbered before cargo will be released from the port of arrival as transit air cargo.

§ 112.117 Requirements for transit air cargo transport.

(a) *Transportation—(1) Port to port.* Transit air cargo may be carried to another port only when a receipt is given, as provided in § 122.117(b). The receipt may be given only by an airline which:

(i) Is a common carrier for the transportation of bonded merchandise; and

(ii) Has the required Customs bond on file.

(2) *Exportation from port of arrival.* Transit air cargo may be exported from the port of arrival only when covered by a bond on Customs Form 301, containing the bond conditions set forth in subpart G of Part 113 of this chapter, as provided in § 18.25 of this Chapter.

(b) *Receipt—(1) Requirements.* When air cargo is to move from the port of arrival as transit air cargo, a receipt shall be given. The receipt shall be made by the airline responsible for transport or export within the lay order period, or by an authorized extension period (see § 4.37 of this chapter).

(2) *Contents.* The receipt shall appear on each copy of the transit air cargo manifest, clearly signed and dated if required, in the following form:

Received the cargo listed herein for delivery to Customs at the port of destination or exportation shown above, or for direct exportation.

Name of Carrier (or Exporter) _____

Attorney or Agent of Carrier (or Exporter) —

Date _____

(c) *Responsibility for transit air cargo—(1) Direct exportation.* The responsibility of the airline exporting transit air cargo for direct exportation begins when a receipt, as provided in § 122.117(b), is presented to Customs.

(2) *Other than direct exportion.* When the transit air cargo is not for direct exportation, the responsibility of the airline receiving the cargo begins when a receipt, as provided in § 122.117(b), is presented to Customs.

(3) *Carting.* When carting is used to deliver transit air cargo to receiving airlines, the importing airline is responsible for the cargo under its own bond until a receipt is filed by the receiving airline. This does not apply when the carting is done under Part 112 of this chapter, at the expense of the parties involved.

(4) *Importing airlines.* An importing airline which has qualified as a carrier of bonded merchandise, whether registered in the U.S. or a foreign area, may:

(i) Give a receipt for the air cargo;

(ii) File an appropriate bond; and

(iii) Deliver the cargo to an authorized domestic carrier for in-bond transportation from the port of arrival. The importing carrier's bond covers the transportation.

(d) *Split shipments.* A receipt shall be given by one airline for all of the cargo shipments listed on one transit air cargo manifest sheet. Cargo shipments so listed shall be transported from the port of arrival on one aircraft or carrier unless the use of more than one aircraft or carrier would be allowed:

(1) By § 122.92(d) under a single combined entry and manifest;

(2) By § 122.118(d); or

(3) By § 122.119(e), permitting the use of a surface carrier for transport.

Otherwise, all shipments on the transit air cargo manifest shall be separately documented and transported under the regular procedures for transportation of merchandise in bond (See Subpart J).

§ 122.118 Exportation from port of arrival.

(a) *Application.* Transit air cargo may be transferred for exportation from any port of arrival under this section. The district director may require any supervision necessary to enforce the regulations of other Federal agencies.

(b) *Time.* Transit air cargo shall be exported from the port of arrival within 10 days from the date the exporting airline receives the cargo.

(c) *Transit air cargo manifest copies.* Three copies of the transit air cargo manifest shall be filed with Customs.

(1) *Review copy.* The importing airline shall file a copy of each transit air cargo manifest sheet covering any cargo shipment that will be transferred for direct exportation. This filing shall be made as soon as the exporting airline has been chosen. The exporting airline need not give receipt of the review copy for the cargo to be transferred, but the name of the exporting airline shall be placed on the copy.

(2) *Exportation copy.* The exportation copy shall be filed by the exporting airline when clearance documents are presented to Customs.

(3) *Clearance copy.* The clearance copy shall be filed with the exporting aircraft's clearance documents.

The exportation and clearance copies shall show the exporting aircraft's receipt for the cargo, number, flight number, and the date.

(d) *Direct export on different aircraft.* Transit air cargo shipments which are listed on one aircraft transit air cargo manifest sheet may be directly exported on different aircraft of the exporting airline. When this occurs, an additional copy of the transit air cargo manifest shall be filed for each shipment or group of shipments transported in other aircraft. Each copy of the transit air cargo manifest shall be clearly marked to show which shipment or shipments listed are covered by the manifest copy.

(e) *Direct export by another airline.* When shipments listed on one transit air cargo manifest sheet are not exported from the same port on the same airline, separate export entries on Customs Form 7512, as required by § 18.25 of this chapter, shall be filed.

(f) *Post entered air cargo.* Air cargo not listed on the manifest (i.e., overages) which has been post entered under § 122.49(b) may be exported from the port of origin under this subpart. Four copies of the air cargo manifest, Customs Form 7509, marked "Post Entry", shall be provided. All requirements of § 122.44(b) and of this section shall be followed in using this procedure.

(g) *Review.* The review copy of the transit air cargo manifest sheets must be reviewed by Customs as required for the carrier manifest copy in § 122.120(g). The reviewing officer shall take the proper action if a license is necessary for any cargo. The exporting airline shall be notified that any transit air cargo which is not covered by the required license must be placed under constructive Customs custody in a special area of the airline's terminal until the license is obtained.

§ 122.119 Transportation to another U.S. airport.

(a) *Application.* Air cargo shipments may be transferred for transportation as transit air cargo from the port of arrival to another port in the U.S. under this section. The district director of the port of arrival may require Customs supervision of the transfer.

(b) *Time.* Transit air cargo traveling to a final port of destination in the U.S. shall be delivered to Customs at its destination within 15 days from the date the receiving airline gives the receipt for the cargo at the port of arrival.

(c) *Transit air cargo manifest copies.* Three copies of the transit air cargo manifest, and two copies of Customs Form 7512–C (original and duplicate) shall be filed by the airline giving a receipt for moving the cargo shipments to destination.

(1) *Permit copy.* This copy is used and kept by Customs at the port of arrival.

(2) *Customs Form 7512–C (duplicate).* This copy accompanies the transit air cargo to the port of destination.

(d) *Failure to deliver on time—(1) Procedure.* If transit air cargo does not arrive at the destination port on time, the district director at the port of arrival shall take action as provided isn §§ 18.6 and 18.8 of this chapter. When Customs Form 3861 is used by the district director for reporting, the amount of duty or tax due shall not be indicated on the form when the amount is uncertain. Instead, the amount of tax and duty shall be decided at the port of arrival on the basis of information:

(i) On Customs Form 3861;

(ii) On the permit copy kept at the port of arrival; and

(ii) obtained from the carriers as necessary. The district director at the port of arrival shall notify the airline that gave a receipt for the cargo that there has been a failure to deliver.

(2) *Responsibility of airline.* When the airline that gave a receipt for the cargo receives notice of discrepancies, the airline shall answer within 90 days of the date of such notice to the district director at the port of arrival. The answer shall provide any information or documents related to value and description of the cargo involved that the receipting airline and the importing airline can produce.

(e) *Port of arrival to port of destination.* When an aircraft arrives at the port of arrival with cargo to be carried as transit air cargo, the cargo

may be transferred to another carrier for surface movement to the port of destination. The transfer is allowed

(ii) *Exportation and clearance copies.* Two copies marked separately as

7512–C are required for each cargo shipment listed:

(c) *Seals to be used.* Aircraft liquor kits shall be sealed with U.S. Customs

crew members under Customs supervision.

immediately report to the distirct director any:

VOL 50 ISS 144 JL 26 1985 UMI

may be transferred to another carrier for surface movement to the port of destination. The transfer is allowed under the following conditons:

(1) The importing airline's bond must cover the transfer and surface movement;

(2) The description of the cargo on the transit air cargo manifest must be complete;

(3) The entire shipment listed in the transit air cargo manifest must be shipped from the port of arrival to the port of destination by the same surface movement; and

(4) Section 122.114(b) must be followed.

§ 122.120 Transportation to another port for exportation.

(a) *Application.* Air cargo may be transferred as transit air cargo at the port of arrival for transportation to another port in the U.S. and later exportation under this section.

(b) *Supervision*—(1) *From port of arrival to exportation port.* The district director at the port of arrival may order may supervision found necessary for the transfer of transit air cargo for transportation to another port for export.

(2) *At exportation port.* Customs shall be notified far enough in advance to be able to make any required supervision of the lading of cargo, and any other Federal agency checks, when transit air cargo is ready for lading on the exporting aircraft.

(c) *Time.* Transit air cargo covered by this section shall be delivered to Customs at the port of exportation within 15 days from the date of receipt by the forwarding airline.

(d) *Transit air cargo manifest copies.* Five copies of the transit air cargo manifest and a Customs Form 7512–C (original and duplicate) shall be filed with Customs.

(1) *Port of arrival.* Two copies of the transit air cargo manifest, marked separately as "permit" and "control" copies, and Customs Form 7512–C (original) shall be filed with Customs at the port of arrival. Filing shall be made when the arriving aircraft enters, or before the lay order period ends, by the airlines which gives receipt to transport the cargo from the port of arrival to the port of destination.

(2) *Port of exportotion.* Three copies of the transit air cargo manifest shall be filed at the port of exportation.

(i) *Carrier manifest copy.* The carrier manifest copy shall be attached to the listing of cargo shipments and submitted when the cargo arrives at the exportation port.

(ii) *Exportation and clearance copies.* Two copies marked separately as "exportation" and "clearance" copies, shall be filed with Customs at the exportation port.

(e) *Delivery to exporting airline.* When the transit air cargo arrives at the exportation port, it may be delivered directly to the exporting carrier, together with the exportation and clearance copies. The name of the exporting carrier shall be clearly noted on the carrier manifest copy, which shall be delivered to Customs.

(f) *Storage by exporting airline.* The exporting carrier shall keep all cargo listed on the transit air cargo manifest in one storage space. The storage space shall be separate from the area in which special shipments which require a license under § 122.120(g) are stored.

(g) *Export license*—(1) *Review.* The Customs officer shall review the carrier manifest copy of the transit air cargo manifest to make sure that the export licensing requirements of other Federal agencies have been followed.

(2) *Information Inadequate.* If the manifest information is not enough for Customs to determine that a license or other requirement applies, then the transit air cargo shall be checked by examination, or by inspection of the air waybills or attached invoices.

(3) *When License or Other Requirement Applies.* The exporting airline shall be notified at once if Customs finds that the shipment cannot be exported without a license or other approval. The shipment shall then be put under constructive Customs custody in a special area set aside for the shipment in the exporting airline's cargo terminal.

(h) *Filing of exportation and clearance copies*)—(1) *Information.* When filed with Customs, the exportation and clearance copies of the tansit air cargo manifest shall each show the aircraft:

(i) number;

(ii) flight number; and

(iii) the date.

(2) *Filing.* The exporting airline shall file the exportation and clearance copies before the aircraft that carries the transit air cargo departs. The clearance copies shall be grouped together and not mixed in with other outward manifest sheets. The exportation copies shall be grouped together, and kept separate from the outward clearance documents.

(i) *Cargo not laden at same airport by same airline*—(1) *Procedure.* If all the cargo listed on one transit air cargo manifest sheet is not laden for exportation from the same U.S. airport by the same airline, then separate entries on Customs Forms 7512 and 7512–C are required for each cargo shipment listed:

(i) for transportation and exportation under Subpart J of this part; or

(ii) for direct exportation under § 18.25 of this chapter.

(j) *Cargo laden on more than one aircraft of same airline.* When any cargo shipment listed on the same transit air cargo manifest must be exported on more than one aircraft of the same airline, § 122.118(d) applies.

(k) *Failure to deliver.* If all or part of the cargo listed on the transit air cargo manifest is not accounted for with an exportation copy within 40 days, the district director at the port of arrival shall take action as provided in § 122.119(d).

Subpart M—Aircraft Liquor Kits

§ 122.131 Application.

(a) *Liquor and tobacco.* Subpart M applies to:

(1) Duty-free and tax-free liquor and tobacco; and

(2) Duty-paid and tax-paid liquor and tobacco which has been placed in the same liquor kit as duty-free and tax-free liquor and tobacco.

(b) *Aircraft.* Subpart M applies to all commercial aircraft on domestic or foreign flights operating into, from and between U.S. airports, which are carrying:

(1) Duty-free and tax-free liquor and tobacco withdrawn from bond under § 309 of the Traiff Act of 1930, as amended (19 U.S.C. 1309); or

(2) Other liquor or tobacco on which duty or taxes have not been paid.

This includes any aircraft carrying duty-free and tax-free liquor under 19 U.S.C. 1309, or other Federal law, although the aircraft is not required to enter, clear or report arrival.

§ 122.132 Sealing of aircraft liquor kits.

(a) *Sealing Required.* Aircraft liquor kits shall be sealed on board the aircraft by crewmembers before the aircraft lands in the U.S. The liquor kits shall be under seal while on the ground unless taken to an authorize airline in-bond liquor storeroom.

(b) *Exception.* When an aircraft is traveling between airports in the U.S., in a trade for which duty-free and tax-free liquor is used during flight, sealing the liquor kits on board during transporting stopovers is not required if:

(1) The liquor kits are kept on board the aircraft;

(2) The district director finds that sealing is not required for revenue protection.

(c) *Seals to be used.* Aircraft liquor kits shall be sealed with U.S. Customs serially numbered, orange colored, button-type seals, or other approved seals. The airline shall use seals supplied by an approved manufacturer, as provided in Part 24 of this chapter. A small number of seals may be obtained from the district director.

(d) *Removing seals.* When sealed liquor kits are on board any aircraft that is on the ground, the Customs seals may be broken only by:

(1) A customs officer; or

(2) Authorized airline personnel, in an authorized airline in-bond liquor storeroom.

(e) *Resealing.* When a Customs officer breaks the seal of a liquor kit to check the contents, the action shall be recorded on the liquor kit stores list, and the liquor kit must be resealed with an uncolored button seal.

§ 122.133 Stores list required on arrival.

(a) *When required, contents.* Three copies of an incoming stores list shall be prepared for each liquor kit on board before an aircraft lands. The incoming stores shall state for each type of liquor and bottle size the:

(1) Number of full bottles;

(2) Number of partially filled bottles; and

(3) Total number of bottles.

If the carrier chooses not to state the type of liquor for each size bottle, any duty or taxes assessed for any shortage shall be set at the highest rate available for the alcoholic beverages in the kit.

(b) *Disposition of stores list copies.* One copy of the incoming stores list shall be placed in the liquor kit before it is sealed. The remaining two copies shall be used as follows:

(1) One copy of the stores list shall be filed with the inward cargo manifest; and

(2) One copy shall be kept for filing with the outward cargo manifest if the liquor kit was laden for export.

(c) *For aircraft not required to enter and/or clear.* If an aircraft is not required to enter and/or clear:

(1) One copy of the stores list shall be given to the Customs officer upon arrival; and

(2) One copy shall be kept to be given to the Customs officer before departure of the aircraft.

(d) *When stores list not prepared.* When a complete stores list is not prepared before landing, liquor kits must be sealed on board, and the seal number shall be recorded on the stores list. When the aircraft lands, the liquor shall be taken at once to the Customs office and the stores list shall be completed by crew members under Customs supervision.

§ 122.134 When airline does not have in-bond liquor storeroom.

(a) *Handling of liquor kits.* An aircraft may land at an airport where the airline involved does not have an authorized in-bond liquor storeroom. When this occurs, the liquor kits, under any supervision found necessary by the district director, may be:

(1) Kept on board the aircraft;

(2) Removed and replaced upon the aircraft, or

(3) Removed and replaced aboard another aircraft.

(b) *Sealing of kits.* Aircraft liquor kits covered by this section shall remain sealed until departure. Customs officers may remove the seal to check the contents of the liquor kits, but shall reseal the kits as provided in § 122.132(e).

(c) *Restocking.* Additional amounts of duty-free and tax-free liquor and tobacco obtained in the U.S. shall be laden in a separate container on any aircraft covered by § 122.134. The lading shall be done under any supervision the district director finds necessary. The additional liquor and tobacco shall be shown on separate outward stores lists.

§ 122.135 When airline does have in-bond liquor storeroom.

(a) *Restocking.* Liquor kits on board the aircraft landing at an airport where the airline involved has an authorized in-bond liquor storeroom may be restocked in the storeroom.

(b) *Inventory record.* Each authorized airline in-bond liquor storeroom shall keep an inventory record in a form that satisfies the district director. The inventory record shall account for the receipt and use of all aircraft liquor and tobacco stores on which duty and/or tax has not been paid.

(c) *Airline employees.* Any airline which has an authorized in-bond liquor store room at an airport shall give the district director;

(1) A list of names of all airline employees authorized to break Customs seals on liquor kits in the in-bond liquor storeroom; and

(2) signature samples of the authorized employees.

(d) *Opening of aircraft liquor kits.* Aircraft liquor kits received in an authorized storeroom shall be opened only by authorized airline employees, or by Customs officers.

(e) *Contents of liquor kits.* The employees who break the seals on aircraft liquor kits shall check the contents at once. The employees shall immediately report to the distirct director any:

(1) Evidence of seal tampering;

(2) Difference between the seal numbers on the liquor kits and those recorded on the stores list; and

(3) Differences in quantity as shown on the stores list.

(f) *Handling the liquor kits*—(1) *Partial bottles.* Partial bottles of liquor may be removed from incoming liquor kits and kept in the in-bond liquor storeroom to be destroyed or combined with other partial bottles. This may be done under Customs supervision. The costs of Customs supervision shall be paid by the airline.

(2) *Exportation.* The contents of incoming liquor kits may be commingled to restock outbound liquor kits. The commingling must take place in the airline in-bond liquor storeroom, using liquor bottles on which the seal has not been broken.

(3) *Sealing.* All liquor kits shall be sealed as provided in § 122.132(a) before removal from the in-bond liquor storeroom. All seal numbers shall be listed on an outgoing stores list.

§ 122.136 Outgoing stores list.

(a) *Preparation.* Two copies of a serially numbered outgoing stores list shall be prepared by the airline for all liquor and tobacco withdrawn from bonded or non-tax paid stock and added to liquor kits. The outgoing stores, list shall show the total number of bottles for each type liquor, the brand, and the size of each bottle.

(b) *Use of Copies.* The two copies of the outgoing stores list shall be used as follows:

(1) One copy shall be placed and kept in the outgoing kits until the aircraft leaves the U.S.; and

(2) One copy must be filed either with the outgoing cargo manifest (for aircraft required to clear) or with Customs before departing, as provided in § 122.133(c). In both cases, the third copy of the inward stores list shall be filed with the outgoing stores list. (See § 122.133(c)).

§ 122.137 Certificate of use.

Any liquor or tobacco withdrawn from the in-bond storeroom and shown on the outgoing stores list shall be recorded, when exported, on a certificate of use prepared by the airline.

Subpart N—Flight to and From the U.S. Virgin Islands

§ 122.141 Definitions.

Under Subpart N, the following definitions apply:

(a) *United States.* The term "U.S." includes the several States, the District

arrives in the U.S. from the U.S. Virgin Islands, the aircraft commander must be

Aircraft time chartered by the U.S. Government or a foreign government

(d) *Knowledge.* A penalty may be assessed for differences in a manifest

Headquarters since certain limited domestic transportation by foreign civil

PARALLEL REFERENCE TABLE—Continued

VOL 50 ISS 144 JL 26 1985 UMI

(a) *United States.* The term "U.S." includes the several States, the District of Columbia and Puerto Rico.

(b) *Foreign area.* The term "foreign area" means any area other than the several States, the District of Columbia and Puerto Rico.

§ 122.142 Flights between the U.S. Virgin Islands and a foreign area.

(a) *Aircraft arriving in the U.S. Virgin Islands.* Aircraft arriving in the Virgin Islands from a place other than the U.S. are governed by the provisions of this part which apply to aircraft arriving in a State from a foreign area.

(b) *Aircraft leaving the U.S. Virgin Islands.* Aircraft leaving the U.S. Virgin Islands for a place other than the U.S. are governed by the provisions of this part that apply to aircraft leaving a State for a foreign area.

§ 122.143 Flights from the U.S. to the U.S. Virgin Islands.

(a) *In general.* Aircraft on flights from the U.S. to the Virgin Islands are governed by the provisions of this part that apply to aircraft on a flight between two States.

(b) *Bureau of the Census.* When Bureau of the Census regulations (15 CFR Part 30) apply to aircraft carrying merchandise to the U.S. Virgin Islands from the U.S., permission to depart must be obtained from the district director. Permission to depart shall not be given unless:

(1) A complete manifest and Shipper's Export Declarations as required by 15 CFR Part 30 are filed; or

(2) An incomplete manifest under 15 CFR 30.24 is filed and the complete manifest and Shipper's Export Declarations are filed within 7 business days after departure.

§ 122.144 Flights from the U.S. Virgin Islands to the U.S.

(a) *Aircraft not inspected*—(1) *On departure.* Aircraft leaving the U.S. Virgin Islands for the U.S. are governed by the provisions of this part that apply to aircraft leaving the U.S. for a foreign area.

(2) *On arrival.* Aircraft departing from the Virgin Islands and arriving in the U.S. are governed by the provisions of this part that apply to aircraft arriving in a State from a foreign area.

(b) *Supervision.* When aircraft are inspected by customs in the U.S. Virgin Islands, the district director may order any supervision found necessary to protect the revenue and enforce the laws administered by Customs. This includes the collection of duty and taxes on articles bought in the U.S. Virgin Islands.

(c) *Procedure.* When an aircraft that was inspected in the U.S. Virgin Islands arrives in the U.S. from the U.S. Virgin Islands, the aircraft commander must be able to give evidence of the inspection to Customs on request. Evidence of the inspection shall be given in the following manner:

(1) A certificate on Customs Form 7507 shall be presented for aircraft registered in the U.S. and:

(i) Of domestic origin; or

(ii) Of foreign origin, if duty has been paid and the aircraft is proceeding in ballast, or with cargo and/or passengers solely from the U.S. Virgin Islands. Two copies of the certificate shall be given to the inspecting officers in the U.S. Virgin Islands by the aircraft commander. The certificate shall be marked with the port and date of inspection, and must be signed by the inspecting officer. The original of the certificate must be returned to the aircraft commander, who must keep the certificate for a reasonable time after the end of the flight to the U.S. If requested, the certificate shall be presented to Customs. The certificate may be destroyed or disposed of after a reasonable time at the discretion of the aircraft commander or agent.

(2) A permit to proceed on Customs Form 7507 shall be presented for aircraft registered in the U.S. which are:

(i) of foreign origin;
(ii) not duty paid; and
(iii) proceeding in ballast.

The permit to proceed, as required by § 122.57, shall be marked with the port and date of inspection, and shall be signed by the inspecting officer in the U.S. Virgin Islands.

(3) A permit to proceed on Customs Form 7507 shall be presented for aircraft registered in a foreign country and proceeding in ballast. The permit to proceed, as required by § 122.56, shall be marked with the port and date of inspection, and shall be signed by the inspecting officer in the U.S. Virgin Islands.

(4) A permit to proceed, or other document, shall be filed as required under Subpart I of this part for an aircraft carrying residue cargo and/or passengers. The permit to proceed shall be marked with the port and date of inspection, and it must be signed by the inspecting officer in the U.S. Virgin Islands.

Subpart O—Public Aircraft

122.151 Public aircraft of the U.S. or foreign countries.

(a) *Report of arrival, entry and clearance.* No report of arrival, entry or clearance is required for any public aircraft of the U.S. or a foreign country when used exclusively in governmental service and not carrying passengers or merchandise for commercial purposes. Aircraft time chartered by the U.S. Government or a foreign government and government owned aircraft engaged in the carriage of persons or property for commercial purposes are not considered public aircraft.

(b) *Manifest.* The commander of any public aircraft arriving from abroad with cargo on board shall file a manifest, in duplicate, listing all such cargo. The original manifest shall be filed with the district director within 48 hours after arrival of the aircraft. The duplicate copy shall be made available to the discharging inspector at the airport.

(c) *Other agency requirements*—(1) *Agriculture.* The Department of Agriculture has the authority to inspect any aircraft arriving in the U.S. pursuant to Title 7, United States Code, Section 150ff.

(2) *Department of Defense.* All civilian or military aircraft operated by or for the Department of Defense are subject to the requirements of Department of Defense Regulations 5030.49-R, Section III, chapter 7.

Subpart P—Penalties

§ 122.161 In general.

Any person who violates any Customs requirements stated in Part 122, or any regulation that applies to aircraft under § 122.3, is subject to a civil penalty of $500.00. Any aircraft used as part of such violation is subject to seizure or forfeiture, as provided in the Customs laws. A penalty or forfeiture may be mitigated under Part 171 of this chapter.

§ 122.162 Failure to notify and explain differences in air cargo manifest.

(a) *Application.* Penalties shall be assessed when differences in an air cargo manifest (overages or shortages) are discovered and:

(1) The required notice and explanation are not made in time;

(2) The district director is not satisfied that the differences were caused by clerical error or other mistake;

(3) There has been a loss of revenue to the U.S.; or

(4) The district director is not satisfied that there was a valid reason for delay in reporting any differences.

(b) *Definition.* Under this section, "clerical error or other mistake" means a non-negligent, inadvertant, or typographical mistake, made when the manifest is prepared, assembled or submitted.

(c) *Repeated differences.* When repeated differences are found in manifests filed by the same person, it may be determined that the differences were a result of negligence and not clerical error or other mistake.

(d) *Knowledge.* A penalty may be assessed for differences in a manifest that are unknown to the aircraft commander or owner.

§ 122.163 Transit air cargo traveling to U.S. ports.

(a) *Application.* When transit air cargo is traveling from the port of arrival to another U.S. port under § 122.119, a liability shall be assessed, as set out in § 18.8 of this Chapter if there has been:

(1) Shortage in delivery;
(2) Irregular delivery; or
(3) Non-delivery.

(b) *Liabilities assessed.* The liabilities assessed under this section are imposed as liquidated damages under a carrier's bond. The basis for assessing the liquidated damages is the value of the merchandise.

(c) *Value of merchandise.* The district director determines the value of merchandise for assessment purposes. Valuation is based on:

(1) Any data or documents available to the airline which gave a receipt for the transit air cargo, and available to the importing airline relating to the description and value of the cargo; and

(2) Other information available to the district director relating to the same or similar merchandise. If the data or documents required by this section are not submitted within 90 days of the date requested, the district director shall determine value on the basis of other information available to him. The transit air cargo manifest does not reflect value.

§ 122.164 Transportation to another port for exportation.

When transit air cargo is traveling from the port of arrival to another U.S. port for later exportation, any liquidated damages for shortages or irregular delivery shall be assessed as provided in § 122.163.

§ 122.165 Air cabotage.

The air cabotage law (49 U.S.C. 1508(b)) prohibits the transportation of persons, property, or mail for compensation or hire between points of the U.S. in a foreign civil aircraft. The term "foreign civil aircraft" includes all aircraft that are not of U.S. registration except those foreign-registered aircraft leased or chartered to a U.S. air carrier and operated under the authority of regulations issued by the Department of Transportation, 14 CFR 121.153, and those aircraft used exclusively in the service of any government. Customs officers detecting possible violations shall report the matter to Headquarters, Attention: Carrier Rulings Branch. Liability should not be assessed under 49 U.S.C. 1471 pending instructions from Headquarters since certain limited domestic transportation by foreign civil aircraft is permitted under regulations issued by the Civil Aeronautics Board (14 CFR Part 375).

William von Raab,
Commissioner of Customs.

Approved: June 13, 1985.

John M. Walker, Jr.,
Assistant Secretary of the Treasury.

[Docket No. 85N-0136]

Nystatin Tablets; Revision of Disintegration Standard

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to amend the antibiotic drug regulations by revising the disintegration standard for nystatin film-coated tablets. This action will assure better quality control of this product.

DATES: Comments by September 24, 1985; request for an informal conference by August 26, 1985.

ADDRESS: Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Joan M. Eckert, Center for Drugs and Biologics (HFN-815), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4290.

SUPPLEMENTARY INFORMATION: At the request of a manufacturer, FDA is proposing to amend the antibiotic drug regulations by revising the disintegration standard for nystatin film-coated tablets from 30 minutes to 2 hours.

The disintegration test for film-coated tablets (21 CFR 436.212(e)(1)) measures the rate of disintegration of this dosage form by immersion in simulated gastric fluid for the time specified in the individual monograph (regulation). The monograph providing for nystatin tablets specifies a disintegration time period of 30 minutes for film-coated tablets. If the tablets have not disintegrated in 30 minutes, they do not meet the standard for disintegration.

The manufacturer contends that the current disintegration standard is unnecessarily stringent for nystatin film-coated tablets because the availability of nystatin is necessary only in the intestine for the treatment of intestinal candidiasis. The manufacturer noted that the monograph providing for nystatin tablets specifies a disintegration standard of 2 hours for plain-coated tablets that are used for the same treatment. Thus, the manufacturer believes that a disintegration standard of 2 hours for nystatin film-coated tablets would also be sufficient to give adequate assurance of nystatin's availability in the intestine.

FDA has reviewed the manufacturer's request and has tentatively concluded that a disintegration standard of 30 minutes is unnecessarily stringent for nystatin film-coated tablets. Therefore, FDA is proposing that the disintegration standard of 2 hours be established for nystatin film-coated tablets.

In addition, FDA is proposing to amend the regulation (monograph) for nystatin tablets by deleting (1) the provision for the plan-coated tablets because they are no longer marketed, and (2) the reference to film-coated tablets containing a starch filler because all nystatin tablets currently marketed fit this description.

The agency has determined under 21 CFR 25.24(c)(6) (April 26, 1985; 50 FR 16636) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

The agency has considered the economic impact of this proposed rulemaking and has determined that it does not require a regulatory flexibility analysis, as defined in the Regulatory Flexibility Act (Pub. L. 96-354). Specifically, the proposal would refine an existing technical provision to provide a less stringent requirement. Accordingly, the agency certifies that the proposed rule, if implemented, will not have a significant economic impact on a substantial number of small entities.

Interested persons may, on or before September 24, 1985, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Interested persons may also, on or before August 26, 1985, submit to the Dockets Management Branch (address above) a request for an informal conference. The participants in an informal conference, if one is held, will have until September 24, 1985, or 15 days after the day of the conference, whichever is later, to submit their comments.

List of Subjects in 21 CFR Part 449

Antibiotics, Antifungal.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, it is proposed that Part 449 be amended as follows:

PART 449—ANTIFUNGAL ANTIBIOTIC DRUGS

1. The authority citation for 21 CFR Part 449 is revised to read as follows:

Authority Secs. 507, 701, 52 Stat. 1055-1056 as amended, 59 Stat. 463 as amended (21 U.S.C. 357, 371); 21 CFR 5.10.

2. In § 449.150a by revising paragraph (a)(1) to read as follows:

§ 449.150a Nystatin tablets.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity.* Nystatin tablets are tablets composed of nystatin and suitable and harmless buffer substances, diluents, binders, lubricants, colorings, and flavorings. Each tablet contains 500,000 units of nystatin. Its potency is satisfactory if it is not less than 90 percent and not more than 130 percent of the number of units of nystatin that it is represented to contain. The loss on drying is not more than 8 percent. The tablets shall desintegrate within 2 hours. The nystatin used conforms to the standards prescribed by § 449.50(a)(1).

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

33 CFR Parts 322 and 325

National Fishing Enhancement Act

AGENCY: Corps of Engineers, Department of the Army, DOD.

ACTION: Proposed rule.

SUMMARY: The proposed changes are to implement the National Fishing Enhancement Act of 1984 (Pub. L. 98-623). Procedures implementing the authority to assess civil penalties, as provided by the Act, will be proposed at a later date.

DATE: Comments must be submitted on or before September 24, 1985.

ADDRESS: Office of the Chief of Engineers, ATTN: DAEN-CWO-N, Washington, D.C. 20314-1000.

FOR FURTHER INFORMATION CONTACT: Dr. Robert Pierce or Mr. Burt Paynter, Regulatory Branch, (202) 272-0199.

SUPPLEMENTARY INFORMATION: We are hereby issuing a proposed rule which governs the regulatory program of the Corps of Engineers. The major changes of these regulations are to implement the National Fishing Enhancement Act of 1984 (Pub. L. 98-623). Many of these procedures are verbatim from the statute. We will review all comments and determine whether any changes are necessary.

The National Fishing Enhancement Act of 1984 also authorized the Secretary of the Army to assess a civil penalty on any person who, after notice and an opportunity for a hearing, is found to have violated any provision of a permit issued for an artificial reef. Procedures for implementing such civil penalties will be proposed at a later date.

Environmental Documentation: We have determined that this action does not constitute a major Federal action significantly affecting the quality of the human environment. Appropriate environmental documentation is prepared for all permit decisions.

Part 322—Permits for Structures or Work in or Affecting Navigable Waters

PART 322—PERMITS FOR STRUCTURES OR WORK IN OR

conservation policy, and introduce a definition of directed fishing. Each

Part 322—Permits for Structures or Work in or Affecting Navigable Waters of the United States

Section 322.2(g): This section adds the definition of the term "artificial reefs" from the National Fishing Enhancement Act and clarifies what activities or structures the term does not include.

Section 322.2(h): This section adds the definition of the term "outer continental shelf" from Outer Continental Shelf Land Act.

Section 322.5(b): This section is a new section establishing procedures to comply with the National Fishing Enhancement Act of 1984. The specific provisions are taken directly from the statute.

Part 325—Processing of Department of the Army Permits

Section 325.1(d)(8): This is a new section requiring an applicant to include provisions for siting, constructing, monitoring and managing of the artificial reef as part of his application for a permit.

Determinations Under Executive Order 12291 and the Regulatory Flexibility Act

The Department of the Army has determined that the revisions to its regulations do not contain a major proposal requiring the preparation of a regulatory analysis under Executive Order 12291. The Department of the Army certifies, pursuant to section 605(b) of the Regulatory Flexibility Act of 1980, that these regulations will not have a significant economic impact on a substantial number of entities.

Note 1.—The term "he" and its derivatives used in these regulations are generic and should be considered as applying to both male and female.

33 CFR Part 322

Continental shelf, Navigation.

33 CFR Part 325

Administrative practices and procedure, Environmental protection, Navigation.

Dated: July 12, 1985.

Robert K. Dawson,

Acting Assistant Secretary of the Army (Civil Works).

Accordingly, the Department of the Army is amending 33 CFR Parts 322 and 325 as set forth below:

PART 322—PERMITS FOR STRUCTURES OR WORK IN OR AFFECTING NAVIGABLE WATERS OF THE UNITED STATES

1. The authority cite for Part 322 continues to read as follows:

Authority: 33 U.S.C. 403.

1. Section 322.2 is amended by adding new paragraphs (g) and (h) as follows:

§ 322.2 Definitions.

* * * * *

(g) The term "artificial reef" means a structure which is constructed or placed in the navigable waters of the United States or in the waters overlying the outer continental shelf for the purpose of enhancing fishery resources and commercial and recreational fishing opportunities. The team does not include activities or structures, such as wing deflectors, bank stabilization, grade stabilization structures, or low flow key ways, all of which may be useful to enhance fisheries resources.

(h) The term "outer continential shelf" means all submerged lands lying seaward and outside of the area of lands beneath the three mile territorial seas, and of which the subsoil and seabed appertain to the United States and are subject to its jurisdiction and control.

2. Section 322.5 is amended by adding a new paragraph (b), previously reserved, as follows:

§ 322.5 Special policies.

* * * * *

(b) *Artificial Reefs.* (1) When considering an application for an artificial reef, as defined in 33 CFR 322.2(g), the district engineer will review the applicant's provisions for siting, constructing, monitoring, operating, maintaining, and managing the proposed artificial reef and shall determine if those provisions are consistent with the following standards:

(i) The enhancement of fishery resources to the maximum extent practicable;

(ii) The facilitation of access and utilization by United States recreational and commercial fishermen;

(iii) The minimization of conflicts among competing uses of the navigable waters or waters overlying the outer continential shelf and of the resoures in such waters;

(iv) The minimization of environmental risks and risks to personal health and property;

(v) Generally accepted principles of international law; and

(vi) The prevention of any unreasonable obstructions to navigation.

If the district engineer decides that the applicant's provisions are not consistent with these standards, he shall deny the permit. If the district engineer decides that the provisions are consistent with these standards, and if he decides to issue the permit after the public interest review, he shall make the provisions part of the permit.

(2) In addition, the district engineer will consider the National Artificial Reef Plan developed pursuant to Section 204 of the National Fishing Enhancement Act of 1984, and if he decides to issue the permit, will notify the Secretary of Commerce of any need to deviate from that plan.

(3) The district engineer will comply with all coordination provisions required by a written agreement between the DOD and the Federal agencies relative to artificial reefs. In addition, if the district engineer decides that further consultation beyond the normal public commenting process is required to evaluate fully the proposed artifical reef, he may initiate such consultation with any Federal agency, State or local government, or other interested party.

(4) The district engineer will issue a permit for the proposed artifical reef only if the applicant demonstrates, to the district engineer's satisfaction, that he hold unambiguous title to the artifical reef construction materials, and that he is financially able to assume responsibility for all damages which may arise with respect to the artificial reef and for which that applicant may be liable. The permittee and his insurer will be liable, to the extent determined under applicable law, for all damages which may arise with respect to the artificial reef unless those damages result from activities required to be undertaken by the terms and conditions of the permit. The permittee must be acting in compliance with those terms and conditions for this exception from liability to apply.

* * * * *

PART 325—PROCESSING OF DEPARTMENT OF THE ARMY PERMITS

4. The authority cite for Part 325 continues to read as follows:

Authority: 33 U.S.C. 401 et seq.; 33 U.S.C. 1344; 33 U.S.C. 1413.

5. Section 325.1 is amended by adding a new paragraph (d)(8) as follows:

§ 325.1 Applications for permits.

* * * * *

(d) * * *

(8) If the activity would involve the construction or placement of an artificial reef, as defined in 33 CFR 322.2(g), in the navigable waters of the United States or in the waters overlying the outer continential shelf, the application must include provisions for siting, constructing, monitoring, and managing the artificial reef.

Correction

In FR Doc. 85-15102 beginning on page 26388 in the issue of Wednesday, June 26, 1985, make the following correction: On page 26389, in the second column, in § 180.1001, "(D) * * *" should read "(d) * * *".

BILLING CODE 1505-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 302

Civil Defense; State and Local Emergency Management Assistance Program (EMA); Correction

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Corrections to proposed rule.

SUMMARY: This document modifies certain document references in a proposed rule appearing on July 5, 1985 at 50 FR 27627.

FOR FURTHER INFORMATION CONTACT: Edward E. Sergent, Office of Emergency Management Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202-646-3509).

SUPPLEMENTARY INFORMATION: Items 2 and 3 of the Notice of Proposed Rulemaking (see first column p. 27628) would among other matters add to paragraphs (n) and (o) of 44 CFR 302.2 references to Civil Preparedness Guides and Appendices to such Guides. These references to Guide materials contain errors. There is a similar reference to a rescinded Guide in item 8 in the revision to § 302.5(i). Additionally, there are references in item 6 to CPG 1-8 and to CPG 1-8A. The latter document is proposed to be distributed September 1, 1985. Revised CPG 1-8 with a revised title as shown in the proposed regulation is scheduled to be distributed September 15, 1985.

Therefore, the Notice of Proposed Rulemaking which appears in the **Federal Register** of July 5, 1985 at 50 FR 27627 is corrected in the following manner:

(a) Item 2 is revised to read: in section 302.2, paragraph (n) is amended by removing the entire parenthetical phrase at the end of the paragraph and adding "(See CPG 1-32, Financial Assistance Guidelines)".

(b) Item 3 is revised to read: In section 302.2, paragraph (o) is amended by removing the entire parenthetical phrase at the end of the paragraph and adding "(See CPG 1-32, Financial Assistance Guidelines)".

(c) Item 8 is revised by deleting from proposed paragraph (i) of section 302.5 "and CPG 2-12, 'Financial Guidelines for State Comprehensive Cooperative Agreements'."

Samuel W. Speck,

Associate Director, State and Local Programs and Support.

National Oceanic and Atmospheric Administration

50 CFR Part 672

[Docket No. 50720-5120]

Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Proposed rule.

SUMMARY: NOAA issues a proposed rule to implement Amendment 14 to the Fishery Management Plan for Groundfish of the Gulf of Alaska. The seven measures proposed in this amendment will allocate the sablefish resource to prevent potential gear conflicts and ground preemptions, establish a new starting date for the harvest of sablefish, reduce optimum yeilds to prevent overfishing of certain groundfish species, define a new regulatory district to provide NMFS with more timely catch information with which to make inseason management decisions regarding rockfish species, provide a flexible method for establishing prohibited species catch limits for Pacific halibut, revise the reporting system for catcher/processors, implement the NMFS habitat conservation policy, and introduce a definition of directed fishing. Each measure is intended to respond to biological, ecological, or socioeconomic problems that have been identified by the fishing industry and the management agencies. Implementation of these measures is necessary for conservation and management of the groundfish resources and for the orderly conduct of the fishery.

DATE: Written comments must be received on or before September 9, 1985.

ADDRESSES: Comments should be sent to Robert W. McVey, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, AK 99802. Copies of the amendment, the environmental assessment, and the regulatory impact review/initial regulatory flexibility analysis may be obtained by contacting the North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, AK 99510, 907-274-4563.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg (Fishery Biologist, NMFS), 907-586-7230.

SUPPLEMENTARY INFORMATION: The domestic and foreign groundfish fishery in the fishery conservation zone (FCZ) of the Gulf of Alaska is managed under the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP). The FMP was developed by the North Pacific Fishery Management Council (Council) under the Magnuson Fishery Conservation and Management Act (Magnuson Act) and implemented December 1, 1978 (43 FR 52709, November 14, 1978).

Prior to 1984, the Council would receive proposals to amend the FMP during any of its scheduled meetings. At its April 1984 meeting, the Council adopted a policy whereby proposals for amendments would be received only once a year. Proposals contained in Amendment 14 were requested by the Council in September 1984 with a deadline set at December 7, 1984. By the deadline, over thirty proposals were submitted to the Council, which then instructed its Plan Team to review and rank each proposal. At its Febraury 1985 meeting, the Council reviewed the recommendations of the Plan Team, the Scientific and Statistical Committee (SSC), and the Advisory Panel (AP), and selected six proposals for inclusion in Amendment 14. Other proposals were identified for development and consideration for inclusion in a future amendment. The Council directed its Plan Team to analyze the biological, ecological, and socioeconomic impacts of each of the six proposals and

alternatives to each, as required by the National Environmental Policy Act of 1969 and other applicable laws. The

vessels fished in 1984, harvesting 95 percent of the total domestic harvest of

fishery in the Eastern Regulatory Area, starting in 1986 (Table I). It also makes

members that some pot vessel operators have invested substantial funds in

Delaying the season starting date has the effect of providing safer weather

alternatives to each, as required by the National Environmental Policy Act of 1969 and other applicable laws. The Plan Team then prepared drafts of an environmental assessment and a regulatory impact review. The Council reviewed these documents at its March 26–29, 1985, meeting and added a seventh proposal—sablefish seasons—in response to requests from the fishing industry. The Council then released these documents for public review, and invited comments from the interested public, fishing associations, and government agencies until May 3, 1985. In response to comments received, the Plan Team revised the draft analyses for consideration by the Council at its May 21–24, 1985, meeting. At that meeting, the Council reviewed the analyses, heard further public comment, and voted to recommend that the Secretary implement its preferred alternatives for the seven parts of Amendment 14.

Description of and reasons for each part of Amendment 14 follow:

1. *Allocate sablefish among gear types.* Legal commercial fishing gear used in the directed domestic sablefish fishery is limited to hook-and-line gear, pots, and trawls; sablefish quotas are allocated among the legal gear categories by regulatory area, and a schedule for phasing out pot gear is established.

The Magnuson Act encourages domestic development of fishery resources. The Alaska fishing industry has responded by rapidly increasing effort in the sablefish fishery off Alaska, creating jobs for hundreds of fishermen and providing economic growth to Alaska and Pacific Northwest fishing communities. Development of the sablefish resource has been undertaken principally by fishermen using hook-and-line gear, although regulations implementing the FMP did not prevent the use of other types of gear used in the harvest of any groundfish species.

Many domestic fishermen operating in the FCZ of Alaska use hook-and-line gear when targeting on sablefish because they are experienced in the halibut fishery which employs only hook-and-line gear and because little modification of this type of fishing gear is necessary on vessels moving from one fishery to the other.

Pots have been used periodically in the sablefish fishery off Alaska since the mid-1970s. In 1973, 42 percent of the total domestic harvest of 90 metric tons (mt), or 38 mt, was taken by one vessel fishing pots. Since then, no more than six pot vessels have fished in the Gulf during any one season. Since 1973, hook-and-line vessels have dominated the fishery. As many as 200 hook-and-line vessels fished in 1984, harvesting 95 percent of the total domestic harvest of sablefish taken off Alaska, or 7,128 mt. Directed fishing for sablefish using trawls and gillnets has been minimal to date.

In 1982 the sablefish optimum yield (OY) was fully harvested by U.S. fishermen in the Southeast Outside District. In 1983, the OY was again harvested by U.S. fishermen in this district and in the East Yakutat District. In 1984, the OY was harvested by U.S. fishermen for the first time in both the Eastern and Central Regulatory Areas of the Gulf of Alaska. With this achievement came the realization that the sablefish resource would be insufficient to accommodate all users.

This fact became apparent in the Southeast Alaska fishery during the first two months of 1985. Historically, the Southeast Alaska sablefish fishery did not begin until spring, when weather and fishing conditions improved and the fish had recovered from spawning. In January 1985, however, three large vessels began fishing for sablefish using pot gear. Pot gear is set within a narrow depth range (250–500 fathoms), as is hook-and-line gear. Fishing was good and the catch by pot gear was abut 34 percent of the combined Southeast-East Yakutat District OY. When the pot vessels left the area to unload their catch, some pots were stored on the grounds, preempting the grounds and creating a potential for gear conflicts. When hook-and-line gear, which is relatively lightweight, becomes entangled with the heavier pot gear, the hook-and-line gear breaks and is ofter lost. Gear conflicts are likely between these two gear types since fishing is concentrated along the narrow shelf edge. Hook-and-line fishermen testified to the Council that the presence of just one or two vessels using pot gear can preempt a substantial area, forcing hook-and-line fishermen to move to avoid gear loss. Pots lost or stored on the fishing grounds over a long period of time can also contribute to this problem.

As an interim solution, the Council voted at its February 1985 meeting to request the Secretary to implement an emergency rule under section 305(e) of the Magnuson Act that would prohibit the use of pots in the directed sablefish fishery in the Eastern Regulatory Area. The Secretary implemented the emergency rule (50 FR 12809, April 1, 1985), to be effective until June 25, 1985.

After considering extensive public testimony and receiving recommendations from the AP and SSC, the Council adopted this measure, which makes hook-and-line gear the only legal gear type for the directed sablefish fishery in the Eastern Regulatory Area, starting in 1986 (Table I). It also makes hook-and-line and trawl gear the only legal gear types for the directed sablefish fishery in the Central Regulatory Area, starting in 1987, and in the Western Regulatory Area, starting in 1989. The measure establishes a schedule for phasing out the use of pot gear in the Central and Western Regulatory Areas, by which pot gear may harvest sablefish in the Central Regulatory Area in 1986, and in the Western Regulatory Area in 1986, 1987, and 1988.

The measure also allocates the sablefish OYs among the gear types. In the Eastern Regulatory Area, 95 percent of the OY is allocated to hook-and-line gear; the remaining 5 percent is allocated to trawl gear as a bycatch to support target fisheries for other species. In the Central Regulatory Area in 1986, 55, 25, and 20 percent of the OY is allocated to hook-and-line, pot, and trawl gear, respectively. When pot gear is phased out of the Central Regulatory Area in 1987, the portion of the sablefish OY for that area that is allocated to pot gear in 1986 will be reallocated to hook-and-line gear; the share allocated to trawl vessels will remain at 20 percent. In the Western Regulatory Area in 1986, 1987, and 1988, 55, 25, and 20 percent of the OY is allocated to hook-and-line, pot, and trawl gear, respectively. When pot gear is phased out of the Western Regulatory Area in 1989, the portion of the sablefish OY for that area that is allocated to pot gear during those three years will be allocated to hook-and-line gear; the share allocated to trawl gear will remain at 20 percent.

This schedule for phasing out pot gear and allocating the sablefish OYs among the gear types was determined by the Council in recognition of several important factors. These included the historical economic dependence of hook-and-line vessels on the sablefish fishery, their development of the market in a fishery that was largely foreign-dominated until 1983, and the problems of grounds preemption and potential for gear conflicts between hook-and-line and pot gear. The Council's choice was the result of extensive debate and was consistent with a recommendation from the AP. The Council's decision to ban pot gear in the Eastern Regulatory Area, starting in 1986, reflects the traditional dependence by Southeast Alaska communities on the sablefish hook-and-line fishing industry. The one-year and three-year schedules for phasing out pot gear in the Central and Western Regulatory Areas reflect the concerns voiced by the public and certain AP members that some pot vessel operators have invested substantial funds in converting their vessels to pot gear and that sufficient time is needed to convert to the use of other gear for sablefish fishing or for entry into some other fishery.

[2] 1988 and subsequent years—same as 1987.
[3] 1990 and subsequent years—same as 1989.

The proposed Council action is also intended to provide sufficient bycatch amounts of sablefish to trawl vessels conducting fisheries on other target species.

2. Change the starting date for the directed sablefish fishery. The current season starting date for all groundfish, including sablefish, is January 1. This measure changes the starting date for the directed sablefish fishery from January 1 to April 1. Comments received from the fishing industry indicate that a later starting date is desirable for reasons of vessel safety, quality of sablefish product, and a fair start for commercial vessels of all sizes. A similar winter closure was adopted by the State of Alaska in 1959. It remained in effect until 1977 when it was rescinded to allow U.S. vessels to compete more effectively with the foreign trawl fleet operating off Southeast Alaska. However, inclement weather conditions are frequent during the late winter months, rendering fishing unsafe for the many smaller vessels that make up a portion of the fleet operating of Southeast Alaska and Kodiak Island. These vessels are now forced to compete disadvantageously with the larger vessels, which are less affected by inclement weather. Because of increased fishing effort during the late winter months the OYs are now being achieved much earlier than in previous years. For example, in 1985 the combined OYs for the Southeast and East Yakutat Districts were reached on April 21; in 1984 they were reached on June 29.

Delaying the season starting date has the effect of providing safer weather conditions for smaller vessels and thus apportions the sablefish resource among a wider group of participants. Smaller vessels that are forced to remain in port when weather conditions are unsafe risk losing a share of the harvest to larger vessels that are able to remain at sea and harvest a greater share of the OY before smaller vessels are able to fully participate. Implementation of the April 1 starting date would give smaller vessels a better chance to participate before the OYs are reached.

A portion of the sablefish stock spawns in February and March. The flesh of the spawing fish is of poor quality and the fishermen refer to them as "jelly bellies." Some fishermen apparently discard the low quality fish at sea due to their lower value. Implementation of this season change will mitigate such wastage.

Before selecting the April 1 date, the Council considered the effects that a delay in the starting date for the directed sablefish fishery might have on the resource and the fishing industry. The April 1 date was selected, because if will (1) provide adequate fishing time to harvest the OY given the amount of effort employed in this fishery; (2) promote safety for the fleet; and (3) minimize the discard of sablefish in poor condition.

3. Establish lower optimum yields. New optimum yields by regulatory area are established for certain species as follows: pollock—Western/Central=305,000 metric tons (mt); Pacific ocean perch—Western=1,302 mt, Central=3,906; Atka mackerel—Central=500 mt, Eastern=100 mt; "other rockfish"—Gulf-wide=5,000 mt; and "other species"—Gulf-wide=22,460 mt.

At the request of the Council, these reduced OYs were impelemented by emergency rule under section 305(e) of the Magnuson Act (50 FR 29681, July 22, 1985). A full description of the reasons for the OY reductions can be found in the environmental assessment prepared for Amendment 14, which is available from the Council at the address above. Further amounts of reserves were apportioned to DAH and TALFF on July 17, 1985 (50 FR 29681, July 22, 1985).

The Council, in adopting the reduced OYs, considered the effects on prices that the reduced harvests might have. Assuming the entire 305,000 mt OY for pollock were caught, the 95,000 mt decrease from the present OY represents only 6.4 percent of the 1984 U.S. and foreign catch from the FCZ off Alaska and only 2.1 percent of the 1982 worldwide harvest of pollock. The amount of decrease is too small to influence price at any level. Data are not available to compare total reductions of the Pacific ocean perch, rockfish, and Atka mackerel OYs with worldwide catches, but any effects on world prices are believed to be insignificant.

The reductions are conservation measures and, to the extent that overfishing is prevented and some stocks are able to rebuild, the measure provides a benefit.

4. Define a new regulatory district. A new regulatory district—the Central Southeast District—between 56°00′ and 57°30′ N. latitude is established for purposes of better managing demersal shelf rockfish, which are part of the "other rockfish" category. The harvest of "other rockfish" in this new district is limited to 600 mt.

The category "other rockfish" includes about 25 species of *Sebastes* that are currently managed under a Gulf-wide OY. The maximum sustained yield (MSY) for this complex is based on amounts caught incidentally along the continental slope in the foreign trawl fishery for Pacific ocean perch between 1973 and 1976. The Gulf-wide OY has been set at the lower end of the MSY range, or 7,600 mt.

In November 1984 the Alaska Department of Fish and Game (ADF&G) submitted to the Plan Team a report on the rapidly expanding domestic fishery for bottom-dwelling (demersal) rockfish that occur in water less that 100 fathoms deep overlying the continental shelf off Southeast Alaska. Over 20 species of rockfish are regularly landed. Predominant species are yelloweye rockfish (*S. ruberrimus*), canary rockfish (*S. pinniger*), tiger rockfish (*S. nigrocinctus*), and rosethorn rockfish (*S. helvomaculatus*) in the 40–100 fathom depth zone and quillback rockfish (*S. moliger*), china rockfish (*S. nebulosus*) and copper rockfish (*S. caurinus*) in depths of less than 40 fathoms. Yelloweye rockfish and quillback rockfish are the primary target species. Longline gear is the predominant gear type and accounts for well over 90 percent of the harvest. That report pointed out that this fishery is targeting on a geograpically discrete species group. This fishery has grown from less than 64 mt (round weight) in 1970 to nearly 400 mt (round weight) in 1983. The round weight catch for 1984 doubled to approximately 800 mt.

Until recently, the majority of the landings were assumed to be from waters within State jurisdiction. However, aproximately 50 percent of the fishable grounds are within the FCZ.

Based on interviews with fishermen conducted by ADF&G in 1983 and 1984,

program can be developed. Hence, the risk of overfishing rockfish will be

Based on interviews with fishermen conducted by ADF&G in 1983 and 1984, approximately 25 percent of the landings were taken by vessels fishing only in the FCZ, 21 percent were taken by vessels fishing only within State waters, and the remaining 54 percent were taken by vessels that fished areas under both State and Federal jurisdiction.

Aging studies conducted in recent years conclude that rockfish are much longer-lived and slower-growing than early literature suggests. Many of the demersal species can live over 50 years and many do not reach maturity until after age 10. Because rockfish are extremly long-lived and slow-growing, the sustainable yield that can be taken from a stock is much lower than for a comparable biomass of faster-growing species such as pollock or cod. As a result, rockfish stocks can be easily and quickly overfished. Since information on appropriate harvest levels for the demersal shelf rockfish stocks in Southeastern Alaska is lacking, the risk of overharvesting this resource is great.

After reviewing the ADF&G rockfish issue paper, the Plan Team recommended in its November 1984 report to the Council that "other rockfish" category should be redefined to include three separate species groups: Slope rockfish, shelf pelagic rockfish, and shelf demersal rockfish. Further, the management of the shelf demersal category should be conducted in cooperation with the State of Alaska.

At the joint Alaska Board of Fisheries (Board) and Council meeting in early February 1985, ADF&G staff presented alternative management proposals for establishing a separate management category of shelf rockfish stocks in order to reduce the risk of overharvesting demersal shelf rockfish and to eliminate the possibility of harvesting the entire Gulf-wide OY in any one portion of the Gulf of Alaska.

After considering the ADF&G proposals, actions by the Alaska Board of Fisheries, public testimony, and recommendations from the AP and SSC, the Coucil voted to implement an OY of 600 mt for demersal shelf rockfish in waters between 56°00′ N. and 57°30′ N. latitude. The 600 mt quota will be subtracted from the "other rockfish" OY for the remainder of the Gulf of Alaska. Thus, the remainder of the "other rockfish" OY, or 4,400 mt, is available for harvest elsewhere in the management unit. A 600-mt OY in the newly established Central Southeast district for demersal shelf rockfish will allow for a fishery based on historical levels of fishing effort, but will limit further expansion of the fishery until a more comprehensive management program can be developed. Hence, the risk of overfishing rockfish will be mitigated.

The Council also approved language to be incorporated into the FMP that recognizes the State of Alaska's management regime for demersal shelf rockfish which is directed at managing these rockfish stocks within smaller management units than are provided for by the FMP. Such State regulations are in addition to and stricter than Federal regulations and are authorized by the FMP as long as they are (1) not in conflict with the management objectives of the FMP and are (2) limited to establishing smaller areas and quotas, which would result in a harvest of demersal shelf rockfish in each FMP management area at levels no greater than provided for by the FMP. Imposition of such State regulations is limited to vessels registered under the laws of the State of Alaska.

5. *Establish procedure for setting PSC limits for halibut.* A framework procedure is established for setting the prohibited species catch (PSC) limits for Pacific halibut in the joint venture and domestic trawl fisheries, the taking of which will result in a ban on the use of bottom trawl gear for the remainder of the fishing year.

Regulations implementing the FMP contain restrictions on foreign and domestic fishermen in the Western and Central Regulatory Areas that are designed to minimize the taking of halibut, an important commercial species to a separate domestic target fishery. Foreign fishermen are restricted to the use of off-bottom gear when trawling in the Western and Central Regulatory Areas from December 1 through May 31, a period when juvenile halibut are subject to high rates of incidental capture.

Domestic fishermen may use on-bottom gear during this period, but if the total take of Pacific halibut by domestic trawl operations in the Western or Central Areas reaches 29 or 52 mt, respectively, all further trawling by domestic fishermen is prohibited until June 1.

These PSCs were implemented in 1978 and at that time approximated one percent of the weight of Pacific cod expected to be taken by domestic fishermen in 1979 or soon thereafter. Domestic groundfish catches have increased annually since 1979 as market opportunities developed. Most of the increase is attributed to large quantities of pollock taken in joint venture fisheries operating in the Shelik Strait region of the Central Area. Relatively few halibut are taken in this fishery, however, because only off-bottom trawl gear has been employed. For example, in 1983 only about 4 mt of Pacific halibut were taken incidentally to a pollock catch of 132,000 mt. However, domestic catches of other groundfish species (primarily cod and flounder), that do involve a significant halibut bycatch, have also been increasing.

Regulations at § 672.20(d) require that all trawl-caught halibut must be released. Some of the halibut may survive, but survival varies with the type of operation. Observer data suggest very low survival in operations which involve the transfer of codends at sea and where the halibut cannot be released immediately; these operations are typically joint ventures or large freezer/processor operations. On the other hand, potential survival is relatively high in smaller shore-based trawl operations where the catch is typically sorted on deck and the halibut can be immediately released. The survival rate for halibut released from small shore-based trawlers fishing off British Columbia is estimated to be 50 percent.

Halibut have become more abundant in the Gulf of Alaska, and their greater prevalence has increased their potential catch rates in the trawl fisheries. Recognizing the probability of a greater incidental catch in the groundfish fisheries, the Council voted to request the Secretary to implement an emergency rule to increase the PSC limits for halibut to 270 mt and 768 mt in the Western and Central Areas, respectively, during December-May. Recognizing that few halibut are taken with off-bottom trawl gear, the Council also voted to request the Secretary to exempt users of off-bottom trawl gear from the restriction. The Secretary has implemented these requests by emergency regulation in 1984 and again in 1985 (49 FR 8616, March 8, 1984, and 49 FR 48049, December 10, 1984).

Recent data also suggest that halibut are vulnerable to trawls during periods other than the December-May period specified in the FMP. An annual PSC would provide protection for halibut during all seasons.

After considering the merits of the alternatives to provide protection for halibut without unduly restricting domestic groundfish fishermen, the Council adopted a framework procedure to allow the Secretary to establish annual management measures to control and limit the incidental halibut catch in joint venture and domestic trawl fisheries. These measures include (1) the establishment of halibut PSC limits; (2) the apportionment of PSC limits among regulatory areas or parts thereof; (3) the apportionment of PSC limits among gear types and/or individual operations; and (4) the designation of gear types and modes of operation to be either prohibited or permitted after a PSC limit has been reached. As soon as practicable after October 1 of each year and after consultation with the Council, the Secretary publishes in the **Federal Register** the proposed halibut PSC management measures for domestic and joint venture fisheries. The measures are based on criteria contained in the proposed § 672.20(e) below and comments are invited on the proposed PSC measures for 30 days. The Secretary, after considering comments received, then publishes final PSC measures in the **Federal Register** as soon as practicable after December 15 of each year. When the applicable share of PSC allocated to the domestic or joint venture fishery is reached, the Regional Director will, by notice published in the **Federal Register**, prohibit fishing with trawl gear other than off-bottom trawl gear for the rest of the year by the vessels and in the area to which the PSC limit applies; except that he may by such notice allow certain vessels to continue fishing with bottom trawl gear subject to the considerations listed in the proposed § 672.20(e)(2)(iv) below.

Imposing limits on the amounts of halibut that may be taken incidentally by domestic and joint venture fishermen will convey a benefit to halibut fishermen, who have earned as much as $30.5 million in recent years. It will also benefit groundfish fisheries by assuring that halibut PSCs are based on the best available annual information regarding the abundance of halibut and the distribution of the expected groundfish harvest. Thus, the groundfish fisheries will run less risk of being terminated as a result of out-of-date PSC limits.

6. Establish a weekly catch reporting system. A reporting system is established whereby applicants are required to indicate on their Federal groundfish permit applications whether their vessels are to be used for (1) harvesting/processing, (2) mothership processing, (3) harvesting only, or (4) support only. If vessel usage fits (1) or (2), vessel operators will be required to check in and out of regulatory areas or districts. Such harvesting /processing vessels and motherships that catch and hold, or receive and hold, groundfish for periods of 14 days or more will be required to submit a weekly catch report to the NMFS Regional Director, Alaska Region. Vessels that freeze or dry-salt their catches are considered to be in these categories. This requirement is directed at those vessels that are expected to remain at sea for periods of time sufficiently long that catch estimates are needed by fishery managers for inseason management decisions.

The objective of this proposal is to ensure that fishery managers receive timely estimates of catch by all domestic vessels so that fishery closure notices can be promptly issued when OYs are reached. With the recent rapid growth of the domestic fishing fleet, increasing importance is placed on timely reporting of domestic harvests to ensure that OYs are not exceeded. Vessels which deliver their catch to shore-based processors land their catch frequently enough to allow timely estimation of total catch under existing regulations. However, vessels which freeze, salt, or otherwise preserve their catch aboard can remain at sea for extended periods. These vessels are not currently required to report their catch until landing.

Some 25 catcher/processor vessels could be operating in the Gulf of Alaska in 1985. Based on past catcher/processor landing records, the combined hold capacity of these vessels is approximately 13,000 mt. Because OYs for some regulatory areas or districts are significantly smaller than this, these vessels are capable of harvesting entire OYs or significant portions of them on a single trip. Existing fishing regulations do not require reports of the catch aboard these vessels until landing. In addition, vessels are not required to notify fishery managers when they begin fishing operations. Since domestic groundfish fishing vessels are not marked for identification by enforcement overflights, the number of catcher/processor vessels actually fishing in any regulatory area is not known until they land. Without knowledge of effort levels, fishery managers are not able to make projections of catch aboard.

Delayed catch reporting by domestic motherships is also a problem. In these operations, catcher vessels without processing capability deliver their catch, usually by cod-end transfers, to a mothership which processes it. Current regulations at § 672.5 require an ADF&G fish ticket to be filled out each time a catcher vessel lands fish or delivers them to a mothership [processor] at sea, and require these fish tickets to be forwarded to ADF&G within 7 days of the date that fish were delivered. To date, domestic mothership operations have all occurred in sheltered waters with at least periodic access to U.S. mail service so that compliance with this requirement has been feasible. However, these mothership operations are expected to occur with greater frequency in the FCZ, where no method of filing the fish tickets with ADF&G within the 7-day period required by law is available.

With such large processing capacities and incresing numbers of catcher/processor and mothership vessels, the risks of overharvesting groundfish resources under the current system are high. Because of the delays in catch reporting under current regulations, groundfish resources could be significantly overharvested before fishery managers discover that OYs have been exceeded. Since many of the groundfish species concerned are slow-growing and long-lived, overharvesting can have considerable impacts on future production.

The Council considered the importance to NMFS of receiving timely catch information on which to make its inseason management decisions and the importance to the fishing industry of obtaining reasonably accurate projections of upcoming fishery closures. The Council then adopted a three-part proposal for the collection of additional information from catcher/processors and motherships. The first part requires the operators of catcher/processors and mothership to indicate on their applications for Federal fishing permits their capability and intent to preserve their catch at sea and to remain at sea for more than 14 days between landings. The second part requires them to notify the Regional Director of the date, hour, and position, 24 hours before starting and upon stopping fishing in a regulatory area. This requirement enables the NMFS and/or the Coast Guard to check compliance with fishery openings and closures and weekly catch report requirements, and to verify fishing effort by regulatory area. The third part requires each operator of a catcher/processor or mothership to provide the Regional Director a weekly written report of the amounts of groundfish caught by species or species group in metric tons by fishing area.

A definition of "directed fishing" is also proposed. The purpose of this definition is to establish a rebuttable presumption that when any species, stock, or other aggregation of fish comprises 20 percent or more of the catch, take, or harvest that results from any fishing over any period or time, such fishing was directed fishing for such fish during that period.

In addition, NMFS has prepared some minor changes to the information required from applicants for a Federal permit to fish for groundfish in the Gulf of Alaska. This information will allow

enforcement officials better to identify groundfish fishing vessels at sea and

First, the definition of "directed fishing" at § 672.2 is changed. The

environment as a result of this rule. A copy of the EA may be obtained from

3. In § 672.2, the following definition is added in proper alphabetical order to

under paragraph (d)(1) of this section of a change in the type of operations in

Director within one week of the end of the reporting period through such means

VOL 50 ISS 144 JL 26 1985 UMI

enforcement officials better to identify groundfish fishing vessels at sea and will improve NMFS's enforcement of the groundfish fishery regulations.

These proposals will allow NMFS to make informed and well-reasoned inseason management decisions on the adjustment of fishing areas and seasons and on the apportionment of surplus groundfish among the user groups. This is a conservation measure that is intended to optimize the harvest of any one species or species group and mitigate the risks of overfishing, thereby conveying a long-term benefit to the U.S. fishing industry.

7. Implement the NMFS habitat conservation policy. This part of amendment 14 modifies and adds sections to the FMP to address the habitat requirements of individual species in the Gulf of Alaska groundfish fishery. It describes the diverse types of habitat within the Gulf of Alaska, delineates the life stages of the groundfish species, identifies potential sources of habitat degradation and the potential risk to the groundfish fishery, and describes existing programs applicable to the area that are designed to protect, maintain, or restore the habitat of living marine resources. The amendment responds to the Habitat Conservation Policy of NMFS (48 FR 53142, November 25, 1983), which advocates consideration of habitat concerns in the development or amendment of FMPs and the strengthening of NMFS' partnerships with States and the councils on habitat issues.

The habitat policy is not implemented by a codified regulation. It serves as a framework within which to develop regulations specific to habitat conservation objectives. One such regulations was adopted by the Council and is proposed along with regulations implementing the other six parts of Amendment 14. It requires vessel operators to retrieve their own fishing gear and to make a reasonable attempt to retrieve any abandoned or discarded fishing gear that may encounter.

Incorporation of the NMFS habitat policy into the FMP will highlight the Council's concerns not only for the fishery resources under management, but also for the marine environment and the quality of the habitat in which resources live. The policy also gives the Council authority to consider and recommend the implementation of regulations designed to protect the integrity of the marine habitat.

NOAA has made changes to certain regulations, which were submitted by the Council, that pertain to reporting requirements.

First, the definition of "directed fishing" at § 672.2 is changed. The definition submitted by the Council reads "Directed fishing, with respect to any species, stock, or other aggregation of fish, means fishing that is intended or can reasonably be expected to result in the catching, taking, or harvesting of any significant quanity of such fish. It shall be a rebuttable presumption that, when any species, stock, or other aggregation of fish composes 20 percent or more of the catch, take, or harvest that results from any fishing over any period of time, such fishing was directed for such fish during that period." NOAA changes this definition to read as proposed so that the definition is more enforceable.

Second, the requirement that vessels check in and check out of regulatory areas or districts is changed to limit the requirement more specifically to only those vessels that are expected to remain at sea for periods of time sufficiently long that catch estimates are needed by fishery mangers for inseason management decisions. NOAA considers vessels that freeze or drysalt their catches to be in this category. The Council's requirement at § 672.5(a)(3) reads "The operator of any fishing vessel regulated under this part that retains any part of its catch of groundfish on board that vessel for a period of more than 14 days from the time it is caught shall, in addition to the requirements of paragraphs (a)(1) and (a)(2) of this section, meet the following requirements [i.e., the check-in and check-out requirements]. NOAA changes this requirement to read as proposed and makes this change in order to impose the requirement only on vessels that are not expected to land their catches frequently enough for fishery managers to obtain catch reports through ADF&G procedures.

Classification

This proposed rule is published under section 304(a)(1)(C)(ii) of the Magnuson Act, as amended by Pub. L. 97-453, which requires the Secretary to publish regulations proposed by a Council within 30 days of receipt of the amendment and regulations. At this time the Secretary has not determined that the amendment these regulations would implement is consistent with the national standards, other provisions of the Magnuson Act, and other applicable law. The Secretary, in making these determinations, will take into account the data and comments received during the comment period.

The Council prepared an environmental assessment (EA) for this amendment and concluded that there will be no significant impact on the environment as a result of this rule. A copy of the EA may be obtained from the Council at the address above.

The Administrator of NOAA determined that this proposed rule is not a "major rule" requiring a regulatory impact analysis under Executive Order 12291. This determination is based on the regulatory impact review/initial regulatory flexibility analysis (RIR/IRFA) prepared by the Council. A copy of the RIR/IRFA may be obtained from the Council at the address above.

This rule, if approved, will have a significant beneficial economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act. This determination is also based on the RIR/IRFA. These benefits have been discussed earlier in this document relative to each specific action.

This rule contains a collection-of-information requirement subject to the Paperwork Reduction Act. A request to collect this information has been submitted to the Office of Management and Budget for approval.

The Council determined that this rule will be implemented in a manner that is consistent to the maximum extent practicable with the approved coastal zone management program of Alaska. This determination has been submitted for review by the responsible State agencies under section 307 of the Coastal Zone Management Act.

List of Subjects in 50 CFR Part 672

Fish, Fisheries, Reporting and recordkeeping requirements.

Dated: July 23, 1985.

Joseph W. Angelovic,

Deputy Assistant Administrator for Science and Technology, National Marine Fisheries Service.

PART 672—GROUNDFISH OF THE GULF OF ALASKA

For the reasons set out in the preamble, Part 672 is amended as follows:

1. The authority citation for Part 672 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

2. In the table of contents, new sections are added in proper order to read as follows:

Subpart B—Management Measures

Sec.

* * * * *

672.23 Seasons.

* * * * *

672.25 Disposal of fishing gear and other articles.

* * * * *

3. In § 672.2, the following definition is added in proper alphabetical order to read:

§ 672.2 Definitions.

* * * * *

Directed fishing, with respect to any species, stock or other aggregation of fish, means fishing that is intended or can reasonably be expected to result in the catching, taking, or harvesting of quantities of such fish that amount to 20 percent or more of the catch, take, or harvest, or to 20 percent or more of the total amount of fish or fish products on board at any time. It will be a rebuttable presumption that, when any species, stock, or other aggregation of fish comprises 20 percent or more of the catch, take, or harvest or 20 percent or more of the total amount of fish or fish products on board at any time, such fishing was directed fishing for such fish.

* * * * *

4. In § 672.4, paragraphs (b), (d), and (e) are revised to read as follows:

§ 672.4 Permits.

* * * * *

(b) *Application.* The vessel permit required under paragraph (a) of this section may be obtained by submitting to the Regional Director a written application containing the following information:

(1) The vessel's owner's name, mailing address, and telephone number;

(2) The name and the vessel;

(3) The vessel's U.S. Coast Guard documentation number or State registration number;

(4) The home port of the vessel;

(5) The type of fishing gear to be used, if any;

(6) The length and net tonnage of the vessel;

(7) The hull color of the vessel;

(8) The names of all operators and/or lessees of the vessel;

(9) Whether the vessel is to be used in fish harvesting or for support operations, including the receipt of fish from U.S. vessels at sea; and

(10) The signature of the applicant.

* * * * *

(d) *Notification of change.* (1) Except as provided in paragraph (d)(2) of this section, any person who has applied for and received a permit under this section must give written notification of any change in the information provided under paragraph (b) of this section to the Regional Director within 30 days of the date of that change.

(2) A permit issued under this section will authorize either harvesting or support operations, but not both. The notification to the Regional Director under paragraph (d)(1) of this section of a change in the type of operations in which that vessel is to engage must be completed before that vessel begins the new type of operation.

(e) *Duration.* A permit will continue in full force and effect through December 31 of the year for which it was issued, unless it is earlier revoked, suspended, or modified under Part 621 (Civil Procedures) of this chapter.

* * * * *

5. In § 672.5, a new paragraph (a)(3) is added to read as follows:

§ 672.5 Reporting requirements.

(a) * * *

(3) *Catcher/processor vessels.* (i) The operator of any fishing vessel regulated under this part who retains and freezes or dry-salts any part of its catch of groundfish on board that vessel must, in addition to the requirements of paragraphs (a)(1) and (a)(2) of this section, meet the following requirements:

(A) Twenty-four hours before starting and upon stopping fishing in a regulatory area or district, the operator of that vessel must notify the Regional Director of the date and hour in Greenwich mean time (GMT) and the regulatory area and district of such activity. No such operator may retain any part of that vessel's catch on board that vessel for a period of more than 14 days from the time it is caught unless the Regional Director has been notified as required under this paragraph during that period.

(B) When shifting fishing operations to a new area, the operator of that vessel must notify the Regional Director of the date and hour in GMT of the shift to to the new regulatory area and district, and the position of the new fishing activity. This notice must be delivered to the Regional Director within 48 hours of shifting.

(C) The notices required in paragraphs (a)(3)(i) (A) and (B) of this section should be sent by private or commercial communications facilities to the U.S. Coast Guard at Juneau, Alaska. Only if adequate private or commerical communications facilities have not been successfully contacted may the required notices be delivered via the closest Coast Guard communications station.

(D) After the first catch of groundfish by that vessel during that period and continuing until that vessel's entire catch has been off-loaded, the operator of that vessel must submit a weekly catch report for each weekly period, Sunday through Saturday, GMT, or for each portion of such a period, during which groundfish were caught. Catch reports must be sent to the Regional Director within one week of the end of the reporting period through such means as the Regional Director will prescribe upon issuing that vessel's permit under § 672.4 of this part. These reports must contain the following information:

(*1*) Name and radio call sign of vessel;

(*2*) Federal permit number of the Gulf of Alaska Groundfish fisheries;

(*3*) Month and days fished;

(*4*) The estimated round weight of all fish caught by that vessel during the reporting period by species or species group, rounded to the nearest one-tenth of a metric ton (0.1 mt), whether retained, discarded, or off-loaded;

(*5*) The regulatory area or district in which each species or species group was caught, in which an OY for that species or species group is specified; and,

(*6*) If any species or species groups were caught in more than one regulatory area or district during a reporting period, the estimated round weight of each, to the nearest 0.1 mt, by regulatory area or district.

(ii) The operator of any vessel regulated under this part who receives groundfish at sea from a fishing vessel regulated under this part must meet the following requirements:

(A) Twenty-four hours before starting and upon stopping the receipt of fish in any area, the operator of that vessel must notify the Regional Director of the date and hour in GMT and the regulatory area and district of such activity. No such operator may retain any part of that vessel's cargo of fish on board that vessel for a period of more than 14 days from the time it is received unless the Regional Director has been notified as required under this paragraph during that period.

(B) When shifting operations to a new area, the operator of that vessel must notify the Regional Director of the date and hour in GMT of beginning to receive fish in the new regulatory area and district, and the position of the new activity. This notice must be sent to the Regional Director within 48 hours of shifting.

(C) The notices required in paragraphs (a)(3)(i) (A) and (B) of this section should be delivered by private or commercial communications facilities to the U.S. Coast Guard at Juneau, who will relay them to the Regional Director. Only if adequate private or commerical communications facilities have not been successfully contacted may the required notices be delivered via the closest Coast Guard communications station.

(D) After the first receipt of groundfish by that vessel during that period and continuing until that vessel's entire

cargo of fish has been off-loaded, the operator of that vessel must submit a

(*1*) Name and radio call sign of vessel;

(*2*) Federal permit number of the Gulf

of the operator of the catching vessel, in which an OY for that species or species

the next year. A notice of these final halibut PSC limits will be published in

adherence to the prescribed conditions

9. A new § 672.25 is added to read as

cargo of fish has been off-loaded, the operator of that vessel must submit a weekly receipt report for each weekly period, Sunday through Saturday, GMT, or for each portion of such a period, during which groundfish were received at sea. Receipt reports must be sent to the Regional Director within one week of the end of the reporting period through such means as the Regional Director will prescribe upon issuing that vessel's permit under § 672.4 of this part. These reports must contain the following information:

(1) Name and radio call sign of vessel;

(2) Federal permit number of the Gulf of Alaska Groundfish fisheries;

(3) Month and days during which fish were received at sea;

(4) The estimated round weigth of all fish received at sea by that vessel during the reporting period by species or species group, rounded to the nearest 0.1 mt, whether retained, discarded, or off-loaded;

(5) The regulatory area or district in which each species or species group was caught, according to the statement of the operator of the catching vessel, in which an OY for that species or species group is specified; and,

(6) If any species or species groups were caught in more than one regulatory area or district during a reporting period, the estimated round weight of each, to the nearest 0.1 mt, by regulatory area or district.

6. In § 672.20, Table 1 in paragraph (a) and paragraph (e) are revised to read as follows:

§ 672.20 Optimum yield.

(a) * * *

TABLE 1.—OPTIMUM YIELD (OY), DOMESTIC ANNUAL HARVEST (DAH), DOMESTIC ANNUAL PROCESSING (DAP), JOINT VENTURE PROCESSING (JVP), RESERVE, AND TOTAL ALLOWABLE LEVEL OF FOREIGN FISHING (TALFF), ALL IN METRIC TONS. OY=DAH+RESERVE+TALFF; DAH=DAP+JVP.

[4] The catefory "Other rockfish" includes all fish of the genus *Sebastes* except the category "Pacific ocean perch" as defined in footnote 2 above and *Sebastolobus* (thornyhead rockfish).
[5] The category "Other species" includes sculpins, sharks, skates, eulachon smelts, capelin, and octopus. The OY for "Other species" is equal to 5% of the target species

* * * * *

(e) *Halibut.* (1) If, during any year, the Regional Director determines that the catch of halibut for that year by U.S. vessels delivering their catch to foreign vessels (JVP vessels) or U.S. vessels delivering their catch to U.S. fish processors (DAP vessels) will reach the applicable prohibited species catch (PSC) limit for halibut established under paragraph (e)(2) of this section, he will publish a notice in the **Federal Register** prohibiting fishing with trawl gear other than off-bottom trawl gear for the rest of the year by the vessels and in the area to which the PSC limit applies, subject to paragraph (e)(3) of this section.

(2) (i) As soon as practiciable after October 1 of each year, the Secretary, after consultation with the Council, will publish a notice in the **Federal Register** specifying the proposed halibut PSC limits for JVP vessels and DAP vessels. Each halibut PSC may be apportioned among the regulatory areas and districts of the Gulf of Alaska. Public comments on the proposed halibut PSC limits will be accepted by the Secretary for 30 days after the notice is published in the **Federal Register.** The Secretary will consider all timely comments in determining, after consultation with the Council, the final halibut PSC limits for the next year. A notice of these final halibut PSC limits will be published in the **Federal Register** as soon as practicable after December 15 and will also be made available to the public by the Regional Director through other suitable means.

(ii) The Secretary will base the annual halibut PSC limits upon the following types of information:

(A) Estimated halibut bycatch in prior years;

(B) Expected changes in groundfish catch;

(C) Expected changes in groundfish biomass;

(D) Current estimates of halibut biomass and stock condition;

(E) Potential impacts of expected fishing for groundfish on halibut stocks and U.S. halibut fisheries;

(F) The methods available for and costs of reducing halibut bycatches in groundfish fisheries; and

(G) Other biological and socioeconomic information that affects the consistency of halibut PSC limits with the objectives of this part.

(iii) The Secretary may, by notice in the **Federal Register,** change the halibut PSC limits during the year for which they were specified, based on new information of the types set forth in paragraph (e)(2)(ii) of this section.

(iv) When the JVP or DAP vessels to which a halibut PSC limit applies have caught an amount of halibut equal to that PSC, the Regional Director may, by notice in the **Federal Register,** allow some or all of those vessels to continue to fish for groundfish using bottom-trawl gear under specified conditions, subject to the other provisions of this part. In authorizing and conditioning each continued fishing with bottom-trawl gear, the Regional Director will take into account the following considerations, and issue relevant findings:

(A) The risk of biological harm to halibut stocks and of socioeconomic harm to authorized halibut users posed by continued bottom trawling by these vessels;

(B) The extent to which these vessels have avoided incidental halibut catches up to that point in the year;

(C) The confidence of the Regional Director in the accuracy of the estimates of incidental halibut catches by these vessels up to that point in the year;

(D) Whether observer coverage of these vessels is sufficient to assure adherence to the prescribed conditions and to alert the Regional Director to increases in their incidental halibut catches; and

(E) The enforcement record of owners and operators of these vessels, and the confidence of the Regional Director that adherence to the prescribed conditions can be assured in light of available enforcement resources.

7. A new § 672.23 is added to read as follows:

§ 672.23 Seasons.

(a) Fishing for groundfish in the regulatory areas and districts of the Gulf of Alaska is authorized from January 1 to December 31, subject to the other provisions of this part, except as provided in paragraph (b) of this section.

(b) Directed fishing for sablefish with hook-and-line and pot gear in the regulatory areas and districts of the Gulf of Alaska is authorized from April 1 through December 31, subject to the other provisions of this part.

8. In § 672.24, the text is redesignated as paragraph (a), and a new paragraph (b) is added to read as follows:

§ 672.24 Gear limitations.

* * * * *

(b) *Sablefish gear restrictions and allocations.*—(1) *Eastern Area.* No person may use any gear other than hook-and-line and trawl gear in fishing for groundfish in the Eastern Area. No person may use any gear other than hook-and-line gear to engage in directed fishing for sablefish. When vessels using trawl gear have harvested as bycatch 5 percent of the OY for sablefish during any year, the Regional Director will close the Eastern Area to all fishing with trawl gear.

(2) *Central and Western Areas.* During 1986 in the Central Area, and during 1986, 1987 and 1988 in the Western Area, hook-and-line gear may be used to take up to 55 percent of the OY for sablefish; pot gear may be used to take up to 25 percent of that OY; and trawl gear may be used to take up to 20 percent of that OY. After the years specified above, hook-and-line gear may be used to take up to 80 percent of the sablefish OY in each area and trawl gear may be used to take up to 20 percent of that OY. When the share of the sablefish OY assigned to any type of gear for any year and any area or district under this paragraph has been taken, the Regional Director will close that regulatory area or district to all fishing for groundfish with the type of gear, subject to § 672.2(b) of this part. No person may use any gear other than hook-and-line, pot, or trawl gear in fishing for groundfish in these areas during the years specified above. After those years, no person may use any gear other than hook-and-line or trawl gear in fishing for groundfish in the Gulf of Alaska.

9. A new § 672.25 is added to read as follows:

§ 672.25 Disposal of fishing gear and other articles.

(a) *Intentionally discarded or abandoned gear.* No fishing vessel may intentionally discard or abandon fishing gear, net fragments, or other articles which could interfere with fishing activities or cause damage to fishery resources and other marine animals. Exception to this rule will be allowed in case of an emergency involving the safety of the ship and/or crew or when officially authorized to do so.

(b) *Encountered abandoned or discarded gear.* If abandoned or discarded fishing gear, net fragments, or any other article is encountered, or in the event of accidental or emergency placing of such an article into the FCZ, the operator of the vessel must make a reasonable attempt to recover the article or immediately report the incident to the appropriate official, giving the:

(1) Name of the reporting person and his vessel;

(2) Nature of the article;

(3) Location of the article; and

(4) Time and date of the incident.

Agricultural Marketing Service

7 CFR Parts 926 and 944

Tokay Grapes Grown in San Joaquin County, Imports of Tokay Grapes; Proposed Handling Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice invites comments on a proposal that would set quality requirements for shipments of fresh California Tokay grapes and Tokay grapes imported into the United States. The proposed regulation would require that such grapes meet the minimum grade and size requirements for U.S. No. 1 Table grade, with an additional color requirement for the berries on the lower portion of the bunch. The proposal would also require domestically produced grapes to meet certain container marking requirements. These proposed actions are designed to assure domestic shipment and imports of ample supplies of grapes of acceptable quality and to promote orderly marketing in the interests of producers and consumers.

DATES: Comments must be received by August 2, 1985. The proposed effective

The proposal would require that

List of Subjects in 7 CFR Parts 926 and

(b) The Federal or Federal-State

CFR Part 51) and in accordance with the

exempt from the requirements of this

VOL
50
ISS
144
JL
26
1985
UMI

DATES: Comments must be received by August 2, 1985. The proposed effective date is August 8 through November 15, 1985.

ADDRESS: Interested persons are invited to submit written comments in duplicate to: Docket Clerk, Room 2069–S, F&V, AMS, U.S. Department of Agriculture, Washington, D.C. 20250. Comments should reference the date and page number of the **Federal Register** and will be made available for public inspection in the office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Williams J. Doyle, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone (202) 447–5975.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed under Secretary's memorandum 1512–1 and Executive Order 12291, and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities.

Proposed California Tokay Grape Regulation 22 is issued under the marketing agreement. as amended, and Order No. 926, as amended (7 CFR Part 926), regulating the handling of fresh Tokay grapes grown in San Joaquin County, California. The agreement and order are effective under the Agricultrual Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendations and information submitted by the Industry Committee, established under the order, and upon other information.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, a Tokay Grape Import Regulation 4 is also proposed under Section 8e (7 U.S.C. 608e–1). This section requires that whenever specified commodities, including Table grapes, are regulated under a Federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, or maturity requirements as those in effect for the domestically produced commodity. The proposed grade and size requirements for imports of Tokay grapes are the same as those proposed grade and size requirements for domestically produced Tokay grapes.

The Tokay Grape Industry Committee met on June 25, 1985, and unanimously recommended grade, size, and container marking requirements for Tokay grapes grown in San Joaquin County, California, to be effective August 8 through November 15, 1985.

The proposal would require that shipments of Tokay grapes meet the minimum grade and size requirements specified in the U.S. No. 1 Table grade of the U.S. Standards for Grades of Table Grapes (European or Vinifera type), except that at least 30 percent, by count, of the berries in the lower 25 percent, by count, of each bunch shall show characteristic color. The proposal would also require that each container of California Tokay grapes bear a Federal-State Inspection Service lot stamp number in plain letters and figures on one outside end. The committee reports that the minimum grade and container marking requirements for grapes are necessary to maintain orderly marketing conditions by preventing the shipment of immature, poor quality, and excessively small fruit in fresh commercial marketing outlets. Shipment of such low quality fruit would disrupt orderly marketing and tend to depress prices of all grapes since low quality fruit undermines consumer confidence in the quality of all fruit sold in the market and discourages repeat purchases. The proposed grade requirements are consistent with the quality and size composition of the available crop and are designed to provide ample supplies of good quality fruit in the interest of producers and consumers consistent with the declared policy of the act. Fruit not meeting these requirements could be sold within San Joaquin County, or utilized in processing outlets such as crushing.

Production of California Tokay grapes for the 1985 season is estimated by the committee at 136,800 tons, compared with production of 130,112 tons in 1984. In recent years approximately 10 percent of the crop has been shipped fresh. Tokay grapes not shipped fresh are utilized in crushing.

Interested persons may file comments on the proposed regulations by August 2, 1985. This is the maximum comment period which can be provided because the proposed rules must be in effect prior to the beginning of the shipping season which begins around August 8. The proposed requirements are the same as those which have been in effect for the past several years and such requirements are considered by the industry to be the minimum standards of quality necessary to assure orderly marketing of the crop. The proposed requirements were recommended by the committee at an open meeting on June 25, 1985, and no opposition was expressed at that meeting. All comments received by the Docket Clerk by July 31, 1985, will be considered prior to the issuance of any final rule.

List of Subjects in 7 CFR Parts 926 and 944

Marketing agreements and orders, Grapes, California, Fruits, Import regulations.

1. The authority citation for 7 CFR Parts 926 and 944 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. The proposals are to add §§ 926.323 and 944.604 to read as follows:

PART 926—[AMENDED]

§ 926.323 California Tokay Grape Regulation 22.

(a) During the period August 8, 1985, through November 15, 1985, no handler shall ship:

(1) Any Tokay grapes grown in the production area which do not meet the grade and size specifications of U.S. No. 1 Table grade, and the following additional requirement: Of the 25 percent, by count, of the berries of each bunch which are attached to the lower part of the main stem, including laterals, at least 30 percent, by count, shall show characteristic color; and

(2) Any container of Tokay grapes grown in the production area, unless such container bears, in plain letters and figures on one outside end, a Federal-State Inspection Service lot stamp number showing that such grapes have been inspected in accordance with the established grade set forth in this section.

(b) *Definitions.* "U.S. No. 1 Table grade" and "characteristic color" shall mean the same as in the United States Standards for Grades of Table Grapes (European or Vinifera type) (7 CFR 51.880—51.912).

PART 944—[AMENDED]

§ 944.604 Tokay Grape Import Regulation 4.

(a) *Applicability to imports.* Pursuant to section 8e of the Act and Part 944—Fruits; Import Regulations, during the period August 8, 1985, through November 15, 1985, the importation into the United States of Tokay variety grapes is prohibited unless such grapes meet the grade and size specifications of U.S. No. 1 Table Grade, as set forth in the U.S. Standards for Grades of Table Grapes (European or Vinifera type) (7 CFR 51.880—51.912), and the following additional requirement: Of the 25 percent, by count, of the berries of each bunch, which are attached to the lower part of the main stem, including laterals, at least 30 percent, by count, shall show characteristic color.

(b) The Federal or Federal-State Inspecation Service, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is designated as the governmental inspection service for certifying the grade, size, and quality of Tokay grapes that are imported into the United States. Inspection by the Federal or Federal-State Inspection Service with evidence thereof in the form of an offical inspection certificate, issued by the respective service, applicable to the particular shipment of Tokay grapes, is required on all imports. The inspection and certification services will be available upon application in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51) and in accordance with the Procedure for Requesting Inspection and Designating the Agencies to Perform Required Inspection and Certification (7 CFR Part 944.400).

(c) The term "importation" means release from custody of the United States Customs Service.

(d) Any lot or portion thereof which fails to meet the import requirements may be reconditioned or exported. Any failed lot which is not exported shall be disposed of under the supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of said lot borne by the importer.

(e) *Minimum Quantity Exemption:* Any person may import up to 250 pounds of grapes in any one shipment exempt from the requirements of this section.

(f) It is determined that imports of Tokay grapes, during the effective time of this regulation, are in most direct competition with Tokay grapes grown in San Joaquin County, California, under M.O. 926 (7 CFR Part 926). The grade, size and quality requirements of this section are the same as those applicable to Tokay grapes grown in the San Joaquin County of California.

Dated: July 23, 1985.

William J. Doyle,

Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Foreign Agriculture Service

Agriculture Export Enhancement Advisory Group; Meeting

In accordance with the Federal Advisory Committee Act (5 U.S.C. App. I), the U.S. Department of Agriculture announces the following meeting, the holding of which is contingent upon timely establishment of the Agricultural Export Enhancement Advisory Group:

Name: Agricultural Export Enhancement Advisory Group.
Date: August 14, 1985.
Time: 2:00 p.m. to 4:00 p.m.
Place: U.S. Department of Agriculture.
Purpose: To provide advice on the administration of the Agricultural Export Enhancement Program.
Agenda: Review Progress of Export Enhancement Program
Type of Meeting: Closed
Reason for Closing: The premature disclosure of information about the proposed Agricultural Export Enhancement Program would likely significantly frustrate implementation of the proposed program.
Authority to Close Meeting: This determination that this meeting falls within exemption 9(b) of the Government in the Sunshine Act was made by the Secretary of Agriculture pursuant to the provisions of section 10(d) of the Federal Advisory Committee Act.
Contact Person: Melvin E. Sims, General Sales Manager and Assistant Administrator 447-5173.

Done at Washington, D.C., this seventeenth day of July, 1985.

Melvin E. Sims,
Acting Administrator, FAS.

BILLING CODE 3410-11-M

Soil Conservation Service

Muskrat Lake Basin Watershed, ND; Finding of No Significant Impact

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Muskrat Lake Basin Watershed, Mountrail County, North Dakota.

FOR FURTHER INFORMATION CONTACT: August J. Dornbusch, Jr., State Conservationist, Soil Conservation Service, Third Street and Rosser Avenue, Bismarck, North Dakota, 58502, telephone 701-255-4011 ext. 421.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, August J. Dornbusch, Jr., State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concern a plan for watershed protection. The planned works of improvement include land treatment measures on 8,030 acres of cropland to protect the resource base from deterioration and increase net income to the landowners.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting August J. Dornbusch, Jr.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the Federal Register.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904, Watershed Protection and Flood Prevention, and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with state and local officials)

Dated: July 17, 1985.

L. Dean Stratton,
Deputy State Conservationist.

DEPARTMENT OF COMMERCE

Office of the Secretary

Economic Advisory Board; Meeting

Pursuant to the provisions of section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that the meeting of the Department of Commerce Economic Advisory Board will be held on Tuesday, September 10, 1985, from 9:30 a.m. to 4:00 p.m. in Room 4830, Herbert C. Hoover Building, 14th Street and Constitution Avenue NW., Washington, DC 20230.

The Board was established by the Secretary of Commerce on January 13, 1967. The purpose of the Board is to advise the Secretary of Commerce on economic policy issues. The intended agenda for this meeting is as follows:

- A review of the economic outlook by major sector.
- A discussion of the outlook for prices and employment and of strategies for sustaining noninflationary economic growth.

A limited number of seats will be available to the public on a first-come, first-served basis. Public participation will be limited to requests for clarification of items under discussion. Additional statements or inquiries may be submitted to the chair before or after the meeting. Copies of the minutes will be available on request 30 days after the meeting.

Additional information concerning this meeting may be obtained by contacting Mrs. Virginia R. Marketti, Confidential Assistant to the Under Secretary for Economic Affairs, Room 4838, Department of Commerce, Washington, DC 20230 (202) 377-3523.

Dated: July 22, 1985.

Sidney L. Jones,
Under Secretary for Economic Affairs.

Certain Circular Welded Carbon Steel Pipes and Tubes From Thailand; Postponement of Preliminary Antidumping Duty Determination

AGENCY: International Trade Administration, Import Administration, Commerce.

ACTION: Notice.

SUMMARY: The preliminary antidumping duty determination involving certain circular welded carbon steel pipes and tubes from Thailand is being postponed until not later than September 26, 1985.

EFFECTIVE DATE: July 26, 1985.

FOR FURTHER INFORMATION CONTACT: John J. Kenkel, Office of Investigations, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone (202) 377-3965.

SUPPLEMENTARY INFORMATION: On March 20, 1985, we announced the initiation of an antidumping duty investigation to determine whether certain circular welded carbon steel pipes and tubes from Thailand are being, or are likely to be, sold in the United States at less than fair value (50 FR 12068). The notice stated that we would issue a preliminary determination by August 7, 1985.

As detailed in that notice, the petition alleged that imports from Thailand of certain circular welded carbon steel pipes and tubes are being, or are likely to be, sold in the United States at less than fair value.

On July 16, 1985, counsel for petitioner, the Committee on Pipe and Tube Imports, requested that the Department postpone the due date for the preliminary determination until not later than 210 days after the date of receipt of the petition in accordance with section 733(c)(1)(A) of the Tariff Act of 1930, as amended (the Act).

Accordingly, the due date for preliminary determination in this investigation is hereby postponed. We intend to issue a preliminary determination not later than September 26, 1985.

This notice is published pursuant to section 733(c)(2) of the Act.

Dated: July 18, 1985.

C. Christopher Parlin,
Acting Deputy Assistant Secretary for Import Administration.

Certain Refrigeration Compressors From the Republic of Singapore; Final Results of Administrative Review of Suspension Agreement

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of final results of administrative review of suspension agreement.

SUMMARY: On February 13, 1985, the Department of Commerce published the preliminary results of its administrative review of the agreement suspending the countervailing duty investigation on certain refrigeration compressors from the Republic of Singapore. The review covers the period November 7, 1983, through December 31, 1983, and six programs.

We gave interested parties an opportunity to comment on the preliminary results. After review of all of the comments timely received, the final results of the review are the same as the preliminary results.

EFFECTIVE DATE: July 26, 1985.

FOR FURTHER INFORMATION CONTACT: Philip Otterness or Al Jemmott, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 377-2786.

SUPPLEMENTARY INFORMATION:

Background

On February 13, 1985, the Department of Commerce ("the Department") published in the **Federal Register** (50 FR 6025) the preliminary results of its administrative review of the agreement suspending the countervailing duty investigation on certain refrigeration compressors from Singapore (48 FR 51167, November 7, 1983). The Department has now completed that administrative review in accordance with section 751 of the Tariff Act of 1930 ("the Tariff Act").

Scope of the Review

Imports covered by the review are shipments of Singaporean hermetic refrigeration compressors rated not over one-quarter horsepower. Such merchandise is currently classifiable under item 661.0900 of the Tariff Schedules of the United States Annotated. The review covers a producer, Matsushita Refrigeration Industries (Singapore) Pte. Ltd., and a related exporter, Matsushita Electric Trading (Singapore) Pte. Ltd. These two companies, along with the Government of Singapore, are the signatories to the suspension agreement. The review covers the period November 7, 1983, through December 31, 1983, and six programs: (1) An income tax exemption on export earnings as provided for in Part IV of the Economic Expansion Incentives Act; (2) grants received from the Skills Development Fund; (3) the Public Utilities Board surcharge exemption; (4) financing provided by the rediscount facility of the Monetary Authority of Singapore; (5) the payment of income taxes in installments; and (6) the payment of technical assistance fees.

Analysis of Comments Received

We gave interested parties an opportunity to comment on the preliminary results. We received timely written comments from the petitioner, Tecumseh Products Company. We also received comments from the two signatory companies. Because we received those comments after the close of the comment period, we have not considered them in reaching these final results.

Comment 1: The petitioner argues that the "export sales value" used as the denominator by the Department in calculating the *ad valorem* benefit should be based on the f.o.b. price of the goods rather than the c.i.f., c. & i., c. & f. and f.o.b. prices recorded by Matsushita Electric. The petitioner argues that, if the Department calculates the benefit based on c.i.f., c. & i., c. & f., and f.o.b. prices and the duty is collected based only on the f.o.b. value of the merchandise, the amount collected will be less than the full value of the benefit to the product.

Department's Position: It is true a duty collected on the f.o.b. price of a product

should be based on a subsidy calculated using f.o.b. prices. However, in this case, the export payment is collected on

Department's calculations and are available under administrative

petitioner (decrease in energy use per unit of output, decrease in energy use

Comment 6: The petitioner questions the numerator used by the Department

a benefit in contravention of the suspension agreement

Dated: July 17, 1985.

should be based on a subsidy calculated using f.o.b. prices. However, in this case, the export payment is collected on a shipment-by-shipment basis by the Singapore government based on the sales price recorded on the invoice, whether f.o.b., c. & i., c. & f., or c.i.f. This method may undervalue or overvalue the benefit on an individual shipment, but it should represent the cumulative benefit on all shipments. However, since the export tax is collected only on shipments to the United States and the *ad valorem* subsidy rate is based on all export shipments, our calculation may not be completely accurate if the mix of the terms on the shipments to the United States differs significantly from the mix of the terms on shipments to other parts of the world. Our information indicates this is not the case, but we will re-examine the issue in the next requested administrative review.

Comment 2: The petitioner states that it orally requested, and we denied access to, the verification exhibits submitted by the respondents to the Department. The petitioner argues that such withholding of business proprietary data collected at verification excludes it from meaningful participation in the administrative review and is contrary to Congressional intent under section 777 of the Tariff Act.

Department's Position: The Department will only consider written requests for release of proprietary material under administrative protective order, submitted in accordance with the Department's regulations.

As a general practice, the Department does not release verification exhibits containing business proprietary information because the Department believes that the need for continued non-release outweighs the need of the person requesting the information. First, most documents reviewed during the verification include not only proprietary information needed to verify submitted figures but also proprietary information that is not relevant to the administrative review. Without some guarantee of non-release of photocopies of source materials used to verify questionnaire responses, companies involved in verifications might reasonably believe they had more to lose by allowing the Department to retain copies for its convenience than if they only allowed the Department to examine, but not copy, source documents during verification. Second, exhibits that the Department collects at verification are used only to substantiate figures submitted in the questionnaire response and subsequent arguments. The figures in the response are the basis of the Department's calculations and are available under administrative protective order. The withholding of these documents is in no way contrary to Congressional intent to allow petitioners access to materials necessary to obtain relief under the countervailing duty law.

Comment 3: the petitioner argues that two programs under the Skills Development Fund are countervailable because they are grant programs that do not operate by reference to tax laws. The petitioner relies on a decision of the Court of International Trade (*Bethlehem Steel Corporation* v. *United States* 590 F. Supp. 1237 (1984)) to support its view that the general availability criteria should not apply to such grant programs.

Department's Position: We disagree. We do not consider generally available programs to be countervailable. *See, Carlisle Tire and Rubber Co.* v. *United States*. 564 F. Supp. 834 (1983). The petitioner's reliance on *Bethlehem Steel* is misplaced since the court in that case upheld our determination that a generally available tax benefit is not countervailable. The court's further comments in *Bethlehem Steel* on general availability are dicta.

Comment 4: The petitioner states that, although the Public Utilities Board has three criteria for eligibility for exemption from its surcharge, the Board may exempt companies from the surcharge payment without meeting any of those three criteria. The petitioner argues that this demonstrates that the Public Utilities Board has a great deal of discretion in deciding which companies will or will not receive the surcharge exemption. Without the strict application of the same criteria to all companies, a program of this type cannot be termed generally available.

Department's Position: The petitioner relies on the verification report's reference to three criteria for eligibility for the surcharge exemption, but the report also indicates that these are not the only three criteria and that the meeting of other criteria can independently qualify a firm for the exemption. In fact, the Board's main goal through this program is to encourage energy efficiency, and if a company can demonstrate such efficiency or can show that it is working toward the goal of greater energy efficiency, the Board grants the exemption. We saw no evidence at verification that the Board granted exemptions for any reasons other than energy efficiency. The criteria, as outlined in the verification report and found in published sources, include not only the three alluded to by the petitioner (decrease in energy use per unit of output, decrease in energy use per dollar of output, or investment in energy-saving equipment equal to 15 percent or more of a company's annual earnings) but also include, for energy efficient firms, continuation of a high level of energy efficiency. The important point is that the Board uses energy efficiency as the overriding criterion for qualifying for the exemption and that it applies this criterion to all companies.

Comment 5: The petitioner claims that, in determining whether Matsushita Refrigeration's technical assistance fee payments to its Japanese parent were excessive (and therefore countervailable) reductions of the taxable income of the subsidiary, the Department did not adequately examine the extent to which the payments exceed the value of the assistance provided. Instead of analyzing the assistance provided to Matsushita Refrigeration for the fees paid, the Department relied on the Economic Development Board's approval of tax exempt status for the payments. The Department should have made the comparison itself.

Department's Positon: As pointed out in the verification report, not only the Economic Development Board but also the Inland Revenue Department reviews applications for tax exempt status for technical assistance fee payments. We reviewed the procedures used by both agencies. Though only the Economic Development Board can actually reject applications, the Inland Revenue Department has extensive records of existing royalty agreements and can disallow portions of amounts applied for if the portions are excessive when compared to other agreements.

At Matsushita Refrigeration, we also examined the types of assistance received by the company from its parent in return for its payments and the approximate costs to the parent company of that assistance. Contrary to the petitioner's concern that the payments were excessive, the records indicated that the technical assistance fees did not cover the costs of the assistance provided. In fact, the parent company has subsequently decided to increase the fee, and Matsushita Refrigeration has informed us that it has requested approval from the Singapore government for a tax exemption on this higher payment.

The Department has no evidence that the technical assistance fees paid by Matsushita Refrigeration are excessive or that the company is somehow using payments to disguise its true profitability.

Comment 6: The petitioner questions the numerator used by the Department in calculating the tax benefit under the Export Expansion Incentives Act. The petitioner points out that at verification the Department had to add Matsushita Electric's Malaysian sales, which were listed as domestic sales in the company's books, to the company's exports to arrive at the company's total exports as reported in the questionnaire response. The petitioner argues that the Department should have also checked to see if Malaysian sales were included in Matsushita Refrigeration's calculation of its export profit. Since the Department uses both these numbers to calculate the subsidy, the petitioner argues the Department could be undervaluing the subsidy if the numbers do not refer to the same number of goods.

Department's Position: The Department has no reason to believe that the export profits Matsushita Refrigeration reported in its tax returns did not include profits from exports to Malaysia. It would work to the detiment of Matsushita Refrigeration not to include such exports because it receives a tax exemption on 90 percent of its export profits. Finally, it should be noted that Matsushita Electric's manner of recording export and domestic sales was pointed out in the verification report simply to show how a number provided in the questionnaire response was derived.

Comment 7: The petitioner requests that the Department scrutinize the source of and reason for large sums listed in Matsushita Refrigeration's financial statements as money due from related companies. The petitioner suggests that those funds may represent an intra-company subsidy.

Department's Position: In the notes to its financial statements, Matsushita Refrigeration explains that amounts due from or to related companies reflect the fact that the company "purchases most of its raw materials and parts from, and sells substantially all its production through companies in the Matsushita Group." The petitioner made this allegation too late in the review for our consideration. If the petitioner wishes the Department to investigate those transactions further, it should raise the issue in a future review and should explain how such transactions might consititute countervailable subsidies under U.S. law.

Comment 8: The petitioner alleges that Matsushita Refrigeration's financial statements show that the company made use of accelerated depreciation charges. The petitioner feels the use of accelerated depreciation may constitute a benefit in contravention of the suspension agreement.

Department's Position: It is not clear from Matsushita Refrigeration's financial statement that the depreciation charges the petitioner refers to are actually accelerated depreciation or simply reflect a re-evaluation of the actual useful life of certain assets. The petitioner made this allegation too late for our consideration in this review. The Department will examine the issue in the next requested administrative review.

Final Results of the Review

After review of the comments received, the final results of the review are the same as the preliminary results. We determine the total bounty or grant to be 4.92 percent *ad valorem* for the review period.

The suspension agreement states that the Government of Singapore will offset completely with an export charge the net bounty or grant calculated by the Department. Following the methodology outlined in section B.4. of the agreement, the Department determines that, in order to reach a final export charge of 4.92 percent *ad valorem*, a negative adjustment of 0.94 percent *ad valorem* may be made to the provisional export charge of 5.86 percent established in the Department's notice of suspension of countervailing duty investigation. The Government of Singapore may refund this amount to the companies.

The Department will notify the Government of Singapore that the provisional export charge on all exports to the United States with Outward Declarations filed on or after the date of publication of this notice shall be 4.92 percent *od valorem*.

in addition, we determine that the two companies have complied with the terms of the suspension agreement, including the payment of the provisional export charge, for the period November 7, 1983, through December 31, 1983.

The agreement can remain in force only as long as shipments covered by the agreement account for at least 85 percent of imports of Singaporean refrigeration compressors into the United States. The companies accounted for 100 percent of imports into the United States of such refrigeration compressors during the review period.

This administrative review and notice are in accordance with section 751 of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Dated: July 17, 1985.

C. Christopher Parlin,

Acting Deputy Assistant Secretary, Import Administration.

BILLING CODE 3510-DS-M

Semiconductor Technical Advisory Committee; Partially Closed Meeting

Summary: The Semiconductor Technical Advisory Committee was initially established on January 3, 1973, and rechartered on January 5, 1984 in accordance with the Export Administration Act of 1979 and the Federal Advisory Committee Act.

Time and place: August 27, 1985 at 9:30 a.m., Herbert C. Hoover Building, Room 3407, 14th Street and Constitution Ave., NW., Washington, D.C.

Agenda:

General Session

1. Opening remarks by the Chairman
   a. Summary of TAC chairmen's meeting
   b. Outline of 1985 TAC goals
2. Presentation of papers or comments by the public
3. Solicitation of inputs on needed area of commodity decontrol or relaxation of export controls
4. Old committee business
5. New committee business
6. Action items underway
7. Action items due at next meeting.

Executive Session

8. Discussion of matters properly classified under Executive Order 12356, dealing with the U.S. and COCOM control program and stategic criteria related thereto

Public participation: The General Session will be open to the public and a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

Supplementary information: A Notice of Determination to close meeting or portions of meetings of the Committee to the public on the basis of 5 U.S.C. 552b(c)(1) was approved on February 6, 1984, in accordance with the Federal Advisory Committee Act. A copy of the Notice is available for public inspection and copying in the Central Reference and Records Inspection Facility, Room 6628, U.S. Department of Commerce, telephone: 202-377-4217. For further information or copies of the minutes call 202-377-2583.

Dated: July 22, 1985.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Limits for Certain Cotton and Wool Textile Products Produced or Manufactured in the People's Republic of China

July 22, 1985.

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on July 23, 1985. For further information contact Diana Solkoff, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377-4212.

Background

On February 27, 1985 and April 1, 1985 notices were published in the **Federal Register** (50 FR 7947 and 12849) which established staged entry periods for cotton and wool textile products in Categories 313 (cotton sheeting), 317 (cotton twill and sateen), and 433 (men's and boys' wool suit-type coats), produced or manufactured in the People's Republic of China and exported, in the case of Categories 313 and 433, during the twelve-month period which began on February 28, 1984 and extended through February 27, 1985, and, in the case of Category 317, exported during the period which began on March 29, 1984 and extended through March 28, 1985. Inasmuch as it has been determined that these staged entry periods are no longer needed, they are being cancelled.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 55175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the TARIFF SCHEDULES OF THE UNITED STATES ANNOTATED (1985).

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

July 22, 1985.

Commissioner of Customs,
Department of the Treasury. Washington, D.C. 20229

Dear Mr. Commissioner: To facilitate implementation of Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement, effected by exchange of notes dated August 19, 1983, as amended between the Governments of the United States and the People's Republic of China, I request that, effective on July 23, 1985, you cancel the directives of February 22, 1985 and March 28, 1985 concerning cotton and wool textile products in Categories 313, 317 and 433, produced or manufactured in the People's Republic of China.

This letter will be published in the **Federal Register.**

Sincerely,

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

DEPARTMENT OF DEFENSE

Defense Nuclear Agency

Scientific Advisory Group on Effects (SAGE); Meeting

The Scientific Advisory Group on Effects (SAGE) will meet in closed session September 4 to September 6, 1985, at the Department of Energy, Nevada Operations Office, Las Vegas, Nevada. AGENDA: September 4 to September 6 (0830-1700): Presentations, discussions and executive session on issues related to the programs which support the Defense Nuclear Agency's underground test program. The presentations and discussions in the above cited agenda will focus on current and planned activities of the DNA in regards to the underground test program. Executive sessions will be held for the primary purpose of advising the Director, DNA, as to the adequacy of ongoing and planned activities. All planned presentations, discussions, and executive sessions may include classified defense information; therefore, under the provisions of sections 552b(c) (1) and (3), Title 5, U.S.C., this meeting is closed to the public.

Any additional information concerning the meeting may be obtained from: Lt. Col. Gary C. Gibson, USAF, Scientific Secretary, SAGE, Headquarters, Defense Nuclear Agency, Attn: DDST, Washington, D.C. 20305-1000.

Patricia H. Means,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Department of the Navy

Draft Supplemental Environmental Impact Statement for the Proposed Northeast Surface Action Group Homeport Facility, Stapleton-Fort Wadsworth Complex, Staten Island, NY

Pursuant to the regulations implementing the procedural provisions of the National Environmental Policy Act, Title 40 CFR and the requirements of executive Order 12372, Intergovernmental Review of Federal Programs, and the Department of Navy Policy for intergovernmental coordination of land and facility plans, programs, and projects, the Navy announces its intention to prepare a Draft Supplemental Environmental Impact Statement (DSEIS) for the proposed Northeast Surface Action Group Homeport Facility, Stapleton-Fort Wadsworth Complex, Staten Island, NY.

On October 20, 1984 and February 8, 1985 respectively, the Navy filed Draft and Final Environmental Impact Statements with the U.S. Environmental Protection Agency on the Navy's proposed homeport facility in Staten Island. The Secretary of the Navy decision on this project was published in the **Federal Register** on March 21, 1985.

The establishment of a Surface Action Group (SAG) homeport in Staten Island will require the relocation of approximately 2200 Navy families. The DEIS prepared for this project assumed that these families would disperse throughout the New York-New Jersey area. No one community would be impacted significantly by the relocation of these families. However, more in depth data on housing availability and affordability obtained by the Navy has revealed a potential housing shortage, particularly for junior enlisted personnel. In order to reduce this potential deficit in affordable housing units, the Navy is proposing to construct family housing at Fort Wadsworth. Additionally, Navy housing may also be constructed at Floyd Bennett Field in Brooklyn. The Navy is also investigating housing opportunities that may result from a direct Navy leasing program whereby the Navy enters a long term lease agreement(s) with private developer(s) who would build new housing for Naval personnel. These housing options will be fully documented in the DSEIS.

Also, the DSEIS will assess impacts that may result from additional real estate acquisition in the vicinity of the Stapleton waterfront site.

Land acquisition is proposed to offset the need for filling 2.6 acres of the harbor to realign the existing bulkhead. The Navy does not propose to create this upland but will seek additional real estate through acquisition. Additional land will reduce the need for the proposed multi-level parking structure.

Other changes that have been proposed include modification to the Waterfront Development Plan—notably the proposal to build one pier vice two (although a second pier could be added in the future) and changes in the Fort Wadsworth Development Plan, and they will be assessed in the DSEIS.

Publication of the DSEIS is tentatively planned for October 1985. A Public Hearing Schedule will be announced. Local and regional concerns over the Navy's proposed changes in the SAG Homeport project as described above will be considered carefully in the preparation of the scope of work under which the DSEIS will be prepared. Comments and concerns should be forwarded to: Commanding Officer, Northern Division, Naval Facilities Engineering Command, Bldg 77L, Naval Base, Philadelphia, Philadelphia, PA 19112. Atten: Code 09P.

Comments will be received until August 26, 1985. If further information is required in regard to this Notice of Intent, please contact Robet Ostermueller at 215-897-6262.

Dated: July 23, 1985.

William F. Roos, Jr.,

Lieutenant, JAGC, USNR, Federal Register Liaison Officer.

BILLING CODE 3810-AE-M

DEPARTMENT OF EDUCATION

Office of Postsecondary Education

Graduate and Professional Opportunity Fellowships Program; Application Notice for Fiscal Year 1986

This notice invites applications from institutions of higher education for grants to make fellowship awards under the Graduate and Professional Opportunity Fellowships Program (G*POP).

Authority for this program is contained in Part B of Title IX of the Higher Educaton Act of 1965, as amended.

(20 U.S.C. 1134d-1134g)

The Graduate and Professional Opportunity Fellowships Program provides grants to institutions of higher education to support fellowships for graduate and professional study to students who demonstrate financial need and who are predominantly from groups which are traditionally underrepresented in graduate and professional study areas of high national priority.

Closing date for transmittal of applications. An application for a grant must be mailed or hand delivered by October 1, 1985.

Applications delivered by mail: An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center,

Attention: 84.094B, 400 Maryland Avenue, SW., Washington, D.C. 20202.

Program information: Each institution applying for new fellowships will be

(2) The Education Department General Administrative Regulations

curriculm materials, methods, or techniques for bilingual vocational

Program Information

Bilingual Vocational Materials,

Attention: 84.094B, 400 Maryland Avenue, SW., Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) A private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is enouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications delivered by hand: An application that is hand delivered must be taken to the Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, SW., Washington, D.C.

The application Control Center will accept a hand delivered application between 8:00 a.m. and 4:00 p.m. (Washington, D.C. time), daily except Saturdays, Sundays, and Federal holidays.

An application that is hand delivered will not be accepted after 4:00 p.m. on the closing date.

Availabe funds: The Administration's budget request for fiscal year 1986 does not include funds for the Graduate and Professional Opportunity Fellowships Program. However, applications are invited to allow for sufficient time to evaluate them and complete the grants process prior to the end of the fiscal year, should the Congress appropriate funds for this program. If funds are appropriated, the Congress will be asked again to enact legislation overriding the $75,000 minimum grant that can be made to an institution under secton 922 (b)(2) of the statute.

The Secretary will give first priority to providing continuation support for qualified students, who were awarded fellowships in a previous year and who are maintaining satisfactory progress as determined by the institution. See 34 CFR 649.11(a)(2) (i) and (ii).

Program information: Each institution applying for new fellowships will be ranked according to the selecton criteria set out in the regulations in 34 CFR 649.12 govering the Graduate and Professonal Opportunity Fellowships Program. Under these criteria, institutions may apply for new fellowships in up to six academic or professional areas of study, providing, among other criteria, that the choice of study area is justified by providing evidence of underrepresentation, and evidence of national need.

Generally, the Secretary makes only one-year grant awards to institutions allocated new fellowships. As provided in 34 CFR Part 649.11(a)(2) of the Department's regulations and subject to the availability of funds, continuation support for students to complete degree programs may be provided in the subsequent fiscal years.

These estimates do not bind the U.S. Department of Education to a specific number of grants, or to the amount of any grant, unless that amount is otherwise specified by statute or regulations. The regulations for this program are contained in 34 CFR Part 649.

Application forms: Application forms and program information packages are expected to be ready for mailing by August 20, 1985, and may be obtained by writing to the Division of Higher Education Incentive Programs (Graduate and Professional Opportunity Program, G*POP), U.S. Department of Education, (Room 3022, ROB–3), 400 Maryland Avenue, S.W. Washington, D.C. 20202. Telephone: 202–245–3253. (OMB 1840–0508)

Applications must be prepared and submitted in accordance with the regulations, funding criteria, instructions, and forms included in the program information packages. The program information package is only intended to aid applicants applying for a grant under this competition. Nothing in the program information package is intended to impose any paperwork, application content, reporting or grantee performance requirement beyond those specifically imposed under the statute and regulations governing the competition.

The Secretary strongly urges that the narrative portion of the grant application be double-spaced and not exceed 40 pages in length.

Applicable regulations: The regulations applicable to this program include the following:

(1) The regulations governing the Graduate and Professonal Opportunity Fellowships Program, in 34 CFR Part 649.

(2) The Education Department General Administrative Regulations (EDGAR) in 34 CFR Parts 74, 75, 77, and 78.

Further information: For further information contact Charles H. Miller/Barbara J. Harvey of the Division of Higher Education Incentive Programs (Graduate and Professional Opportunity Fellowships Program), U.S. Department of Education, (Room 3022, ROB–3), 400 Maryland Avenue SW., Washington, D.C. 20202. Telephone: 202–245–3253.

(20 U.S.C. 1134d–1134g)

BILLING CODE 4000–01–M

Office of Vocational and Adult Education

Bilingual Vocational Programs; Application

AGENCY: Application Notice for New Awards under the Bilingual Vocational Programs for Fiscal year 1986.

SUMMARY: Applications are invited for new projects for the Bilingual Vocational Training Program, Bilingual Vocational Instructor Training Program, and the Bilingual Vocational Materials, Methods, and Techniques Program for fiscal year 1986.

Authority for these programs is contained in section 441 of Part E, Title IV of the Carl D. Perkins Vocational Education Act, Pub. L. 98–524.

(20 U.S.C. 2441)

The purpose of awards for the Bilingual Vocational Training Program is to provide financial assistance for bilingual vocational education and training for individuals with limited English proficiency to prepare them for jobs in recognized occupations and new and emerging occupations.

The purpose of awards for the Bilingual Vocational Instructor Training Program is to provide financial assistance for conducting training for instructors of bilingual vocational education and training programs for individuals with limited English proficiency.

The purpose of awards for the Bilingual Vocational Materials, Methods, and Techniques Program is to provide financial assistance for the development of instructional and curriculum materials, methods, or techniques for bilingual vocational training for individuals with limited English proficiency.

Closing Date for Transmittal of Applications

Applications for new awards must be mailed or hand delivered by September 9, 1985.

Applications Delivered by Mail

Applications sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: (CFDA No. 84.077A, for Bilingual Vocational Training; CFDA No. 84.099A, for Bilingual Vocational Instructor Training, and CFDA No. 84.100 for Bilingual Vocational Materials, Methods, and Techniques), 400 Maryland Avenue, SW., Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the U.S. Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) A private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications Delivered by Hand

Applications that are hand delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, SW., Washington, D.C.

The Application Control Center will accept hand-delivered applications between 8:00 a.m. and 4:00 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays.

Applications that are hand delivered will not be accepted by the Application Control Center after 4:00 p.m. on the closing date.

Program Information

Bilingual Vocational Training Program

The following types of projects may be funded under this program:

(a) Bilingual vocational training projects for individuals who have completed or left elementary or secondary school and who are available for education in a postsecondary educational institution.

(b) Bilingual vocational education and training projects for individuals who have already entered the labor market and who desire or need training or retraining to achieve year-round employment, adjust to changing manpower needs, expand their range of skills, or advance in employment.

(c) Training allowances for participants in bilingual vocational training projects.

Bilingual vocational training projects must include instruction in the English language to ensure that participants in that training will be equipped to pursue occupation in an English language environment.

In the Commonwealth of Puerto Rico, the Bilingual Vocational Training Program may provide for the needs of students of limited Spanish proficiency.

State agencies, local education agencies, postsecondary educational institutions, private nonprofit vocational training institutions, and other nonprofit organizations specially created to serve individuals who normally use a language other than English are eligible to apply for awards under this program.

Bilingual Vocational Instructor Training

The following types of projects may be funded under this program:

(a) Preservice and inservice training for instructors, aides, counselors, or other ancillary personnel participating or preparing to participate in bilingual vocational training programs.

(b) Fellowships and traineeships for individuals participating in preservice or inservice training.

The Secretary does not make an award under this program unless the Secretary determines that the applicant has an ongoing vocational training program in the field in which participants will be trained and can provide instructors with adequate language capabilities in the language other than English to be used in the project.

State agencies and public and private nonprofit educational institutions are eligible to apply for awards under this program.

Bilingual Vocational Materials, Methods, and Techniques Program

The following types of projects may be funded under this program:

(a) Research in bilingual vocational training.

(b) The development of instructional and curriculum materials, methods, or techniques.

(c) Training projects to familiarize State agencies and training institutions with research findings and with successful pilot and demonstration projects in bilingual vocational education and training.

(d) Experimental, developmental, pilot, and demonstration projects.

State agencies, educational institutions, and nonprofit organizations are eligible to apply for awards under this program.

Selection Criteria

Applications for awards will be evaluated in accordance with the selection criteria contained in the proposed regulations (34 CFR 407, 408, and 409) for the Carl D. Perkins Act. As stated in the regulations, the Secretary may distribute a reserved 15 points among the criteria for each competition held. These 15 points have been assigned as follows:

(a) For the Bilingual Vocational Training Program: 5 points for *Plan of operation*, 5 points for *Program factors*, and 5 points for *Quality of key personnel*.

(b) For the Bilingual Vocational Instructor Training Program: 5 points for *Need* and 10 points for *Quality of key personnel*.

(c) For the Bilingual Vocational Materials, Methods, and Techniques Program: 10 points for *Quality of key personnel* and 5 points for *Evaluation plan*.

Projects may be proposed for a period of 18 months.

Intergovernmental Review

On June 24, 1983, the Secretary published final regulations (34 CFR Part 79, published at 48 FR 29158 *et seq.*) in the **Federal Register**. This implemented Executive Order 12372 entitled "Intergovernmental Review of Federal Programs." The regulations took effect September 30, 1983.

This program is subject to the requirements of the Executive Order and the regulations in 34 CFR Part 79. The objective of Executive Order 12372 is to foster an intergovernmental partnership and a strengthened federalism by relying on State and local processes for State and local government coordination

and review of proposed Federal financial assistance.

The Bilingual Vocational Materials, Methods, and Techniques Program for Bilingual Vocational Training, with average grants of $200,000 each and

(a) The regulations governing the three Bilingual Vocational Training

should be filed on or before August 21, 1985. Protests will be considered by the

section 203 or 205 of the Federal Power Act (16 U.S.C. 824b, 824d)

and review of proposed Federal financial assistance.

The Executive Order—

- Allows States, after consultation with local officials, to establish their own process for review of and comment on proposed Federal financial assistance.
- Increases Federal responsiveness to State and local officials by requiring Federal agencies to accommodate State and local views or explain why those views will not be accommodated; and
- Revokes OMB Circular A–95.

Transactions with nongovernmental entities, including State postsecondary educational institutions and federally recognized Indian tribal governments, are not covered by; Executive Order 12372. Also excluded from coverage are research, development, or demonstration projects that do not have a unique geographic focus and are not directly relevant to the governmental responsibilities of a State or local government within that geographic area.

The following are the current lists of States that have established a process, designated a single point of contact, and have selected these programs for review:

States To Review Program 84.077A, Bilingual Vocational Training

Alabama	New York
Arizona	North Dakota
Arkansas	Ohio
California	Oklahoma
Connecticut	Oregon
Delaware	Pennsylvania
Florida	Rhode Island
Hawaii	South Carolina
Indiana	South Dakota
Iowa	Tennessee
Kansas	Texas
Louisiana	Utah
Maine	Vermont
Massachusetts	Virginia
Michigan	Washington
Missouri	West Virginia
Montana	Wyoming
Nebraska	Puerto Rico
Nevada	Virgin Islands
New Hampshire	Guam
New Jersey	Northern Mariana Islands
New Mexico	

States To Review Program 84.099A, Bilingual Vocational Instructor Training

Alabama	New Mexico
Arizona	New York
Arkansas	North Dakota
California	Ohio
Connecticut	Oklahoma
Delaware	Oregon
Florida	Pennsylvania
Hawaii	South Carolina
Indiana	South Dakota
Kansas	Texas
Louisiana	Utah
Maine	Vermont
Massachusetts	Virginia
Michigan	Washington
Missouri	Wyoming
Nebraska	Virgin Islands
Nevada	Guam
New Hampshire	Northern Mariana Islands
New Jersey	

The Bilingual Vocational Materials, Methods, and Techniques Program (84.100) is a new program, and States have not made a determination as to whether it will be included or excluded from review under the State review process.

Immediately upon receipt of this notice, applicants that are governmental entities, including local educational agencies, must contact the appropriate State single point of contact to find out about, and to comply with, the State's process under the Executive Order. Applicants proposing to perform activities in more than one State should contact, immediately upon receipt of this notice, the single point of contact for each State and follow the procedures established in those States under the Executive Order. A list containing the single point of contact for each State is included in the application package for these programs.

In States that have not established a process or chosen these programs for review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by September 24, 1985 to the following address:

The Secretary, U.S. Department of Education, Room 4181, (CFDA Nos. 84.077, 84.099, or 84.100), 40 Maryland Avenue, SW., Washington, DC 20202. Proof of mailing will be determined on the same basis as that used for applications.

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS COMPLETED APPLICATION. *DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.*

Available Funds

Although grants under this program will be awarded during fiscal year 1986, this notice invites applications for funds from both the fiscal year 1985 appropriation and the fiscal year 1986 appropriation. Beginning with the fiscal year 1986 appropriation, the Department of Education has proposed to shift appropriations for this program from forward funding to a current-year basis.

The fiscal year 1985 funds have been appropriated. After awards are made to noncompeting continuations, the Department expects to have the following fiscal year 1985 funds available for new grants under this competition: approximately $1,800,000 for Bilingual Vocational Training, with average grants of $200,000 each and approximately $368,000 for Materials, Methods, and Techniques, with average grants of $150,000 each.

The Congress has not yet appropriated fiscal year 1986 funds. If, in appropriating these funds, the Congress accepts the Administration's proposed change to current-year funding, additional amounts will be available for new awards under this competition. With the requested 1986 appropriation, the following amounts will be available for new awards: approximately $4,500,000 for Bilingual Vocational Training, with average grants of $200,000 each; approximately $776,000 for Materials, Methods, and Techniques, with average grants of $150,000 each, and $553,000 for Bilingual Vocational Instructor Training, with average grants of $110,000 each.

These estimates do not bind the U.S. Department of Education to a specific number of grants, nor to the amount of any grant, unless that amount is otherwise specified by statute or regulations.

Application Forms

Application forms and program information packages will be available on July 29, 1985. These packages may be obtained by writing to the Office Vocational and Adult Education, U.S. Department of Education, (Room 5028, Regional Office Building 3) 400 Maryland Avenue, SW., Washington, DC 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information package is only intended to aid applicants in applying for assistance under this program. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those specifically imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed twenty-five pages.

The Secretary further urges that applicants not submit information that is not requested.

(The application form is approved by the Office of Management and Budget under control number 1830–0013)

Applicable Regulations

The following regulations apply to this program:

(a) The regulations governing the three Bilingual Vocational Training Programs, as proposed to be codified in 34 CFR Parts 400, 407, 408, and 409. The proposed regulations were published on January 25, 1985 (50 FR-3650–3653). Applicants should prepare their applications based on these proposed regulations. Applicants will be given an opportunity to amend or resubmit their applications if the final regulations are changed significantly from the proposed regulations.

(b) The Education Department General Administrative Regulations (EDGAR) 34 CFR Parts 74, 75, 77, 78, and 79.

For Further Information

For further information, contact Ron Castaldi, Office of Vocational and Adult Education, U.S. Department of Education, (Room 5028, Regional Office Building 3) 400 Maryland Avenue, SW., Washington, DC 20202. Telephone: (202) 245–2775.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Marjorie Linder Cooley v. Clifton Power Corp.; Complaint

July 22, 1985.

Take notice that on June 27, 1985 Marjorie Linder Cooley submitted for filing a complaint against Clifton Power Corporation pursuant to the Commission's Rule 206, 18 CFR 385.206. Mrs. Cooley seeks an order finding Clifton Power Corporation to be in violation of certain provisions of Parts II and III of the Federal Power Act, and of the Commission's regulations.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before August 21, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. EL85–39–000]

Municipal Electric Utilities Association of New York State v. Consolidated Edison Company of New York, Inc.; Complaint

July 22, 1985.

Take notice that on July 5, 1985, Municipal Electric Utilities Association of New York State ("MEUA"), by and through its undersigned counsel and pursuant to Rule 206 of the Commission's Rules of Practice and Procedure, 18 CFR 385.206, submitted for filing its complaint against Consolidated Edison Company of New York, Inc. ("Con Edison").

MEUA stated in this complaint that Con Edison is in violation of section 203 of the Federal Power Act, 16 U.S.C. 824b, because it has leased or otherwise disposed of part of its facilities subject to the jurisdiction of the Commission, without first having secured an order of the Commission authorizing such transaction.

MEUA further stated that its customers are suffering substantial injury as a result of the Con Edison lease because Con Edison is obtaining thereby preference power properly allocable to MEUA members under the preference provisions of the Niagara Redevelopment Act, 16 U.S.C. 836.

MEUA also stated that the lease is not in the public interest.

Wherefore, MEUA requests that:

The Commission order Con Edison to show cause why the lease has not been submitted for review by the Commission.

The Commission initiate an evidentiary hearing to determine whether the lease is in the public interest.

The Commission order Con Edison to file all documents pertaining to the lease.

The Commission declare that the lease is not in the public interest and should not be approved pursuant to section 203 or 205 of the Federal Power Act (16 U.S.C. 824b, 824d).

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before August 21, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. RP85–36–001]

ANR Pipeline Co.; Tariff Filing Pursuant to Order Approving Settlement Agreement

July 22, 1985.

Take notice that on July 17, 1985, ANR Pipeline Company (ANR) tendered for filing Second Substitute Second Revised Sheet No. 667A under Rate Schedule X–64 of First Revised Volume No. 2 of its F.E.R.C. Gas Tariff. This revised Sheet No. 667A is proposed to be effective January 1, 1985.

ANR states that the purpose of this filing is to reflect a settlement of Docket No. RP85–36–000 approved by a Federal Energy Regulatory Commission Letter Order issued June 18, 1985, in that it reflects the settled rate of $507,713 per month to the High Island Offshore System.

Any person desiring to be heard or to protest said filing should file a motion to intervene or to protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rule 211 or Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before August 1, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a motion to intervene. Copies of this

filing are on file with the Commission and are available for public inspection.

Secretary.

[FR Doc. 85-17791 Filed 7-25-85; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 2828-001]

City of Redding, CA; Intent To Prepare Environmental Impact Statement and Notice of Scoping Session and Public Meeting

July 22, 1985.

The City of Redding, California, on February 19, 1982, filed an application for a license for the Lake Redding Power Project, FERC No. 2828, to be located on the Sacramento River in Shasta County, California. The new dam would be constructed about thirty feet downstream from, and replace, the existing Anderson Cottonwood Irrigation District Dam. The proposed project would be operated in a run-of-river mode with a minimum flow of 50 cubic feet per second spilled over the dam at all times. The new dam would increase the existing maximum normal water surface elevation 4.5 feet.

Public notice of the acceptance of the application by the Commission was issued on November 30, 1982, with January 27, 1983, as the due date for comments, protests, and motions to intervene. The application was also mailed to interested agencies for their review and comments. Motions to intervene by the California Department of Fish and Game and the U.S. Department of the Interior have been granted. The Commission staff issued a draft environmental assessment of the application on October 5, 1984, and circulated if for comment. The Commission staff has determined that issuance of a license for the proposed project would constitute a major federal action significantly affecting the quality of the human environment. The staff therefore intends to prepare an environmental impact statement (EIS) in accordance with the National Environmental Policy Act. Possible alternatives to the proposed action will be addressed in the EIS.

Scoping Session

Interested persons and agencies are invited to participate in a scoping meeting to identify and discuss the significant environmental impacts resulting from the proposed Lake Redding Project No. 2828. The scoping session will be convened by the Commission staff at 10:00 a.m. on August 20, 1985, in the Redding City Council Chambers at 1313 California Street, Redding, California. The purposes of the scoping session are to: (1) Present environmental issues, currently identified for treatment in the EIS, to the public and experts familiar with the proposed project; (2) receive information and views from the public and experts on the issues presented; (3) clarify the significance of issues; (4) identify additional issues for EIS treatment; and (5) identify issues that do not merit EIS treatment. Agencies and individuals with environmental expertise and concerns are encouraged to attend the scoping session and assist Commission staff with the determination of issues to be addressed in the EIS.

Public Hearing

Interested officials and members of the general public are invited to express their views about the proposed project and significant environmental impacts in a public hearing to be held at 7:00 p.m. on August 20, 1985, in the Redding City Council Chambers at 1313 California Street, Redding, California. The public hearings will be conducted by the Commission staff.

At the public hearing persons may give their statements orally or in writing. All statements will be recorded by a stenographer and will become part of the public files associated with this proceeding. In addition, the public record for this hearing will remain open until September 4, 1985, and anyone may submit written comments on these matters until that time. Comments should be addressed to Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, and should clearly show the project name and number (Project No. 2828-001) on the first page.

For further information, please contact James R. Kirby at (202) 376-9070.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85-17792 Filed 7-25-85; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. GP85-37-000]

Commonwealth of Pennsylvania, Department of Environmental Resources and Environgas Inc.; Petition To Reopen and Vacate Final Well Category Determinations

Issued: July 22, 1985.

In the matter of Commonwealth of Pennsylvania, Department of Environmental Resources, Section 102 Determinations, Environgas, Inc., Alvin Eliason #1 Well, FERC JD No. 80-21432; Richard Brunner #1 Well, FERC JD Do. 80-21480; James Fiske #2 Well, FERC JD No. 80-22636. J. Wasielewski #1 Well, FERC JD No. 80-42810.

Take notice that on July 1, 1985, the Commonwealth of Pennsylvania, Department of Environmental Resources (Pennsylvania), filed with the Commission pursuant to § 275.205 of the Commission's regulations a petition to reopen and vacate final well category determinations under section 102(c)(1)(B) of the Natural Gas Policy Act of 1978 (NGPA) for the wells listed in the caption of this order, each of which is located in the Summit Storage Field, Erie County, Pennsylvania. Environgas, Inc. is the owner and operator of the wells.[1]

Pennsylvania states that the wells do not qualify under section 102 of the NGPA because of the location of existing marker wells within the Summit Storage Field and that this information was inadvertantly omitted at the time the determinations were made.

The question of whether refunds, plus interest calculated under § 154.102(c) of the regulations, will be required is a matter which will be considered by the Commission in ruling on the subject petition.

Any person desiring to be heard or protest this petition should file a motion to intervene or protest in accordance with Rules 214 or 211 of the Commission's rules of practice and procedure. All motions to intervene or protests should be submitted to the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, not later than 30 days following publication of this notice in the Federal Register. All protests will be considered by the Commission but will not serve to make protestants parties to the proceeding. Any person wishing become a party must file a motion to intervene in accordance with Rule 214. Copies of this petition are on file with the Commission and available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85-17793 Filed 7-25-85; 8:45 am]

BILLING CODE 6717-01-M

[1] Notices of Pennsylvania's determinations were received for the Alvin Eliason well on March 20, 1980, for the Richard Brunner well on March 20, 1980, for the James Fiske well on March 27, 1980, and for the J. Wasielewski well on June 26, 1980. Pursuant to § 275.202(a) of the Commission's regulations, these determinations became final 45 days following notification.

[Docket Nos. ER85-623-000,et al.]

Electric Rate and Corporate Regulation Filings; Illinois Power Co., et al.

July 22, 1985.

Take notice that the following filings have been made with the Commission:

1. Illinois Power Company

[Docket No. ER85-623-000]

Take notice that on July 11, 1985, Illinois Power Company ("Illinois Power") tendered for filing a maintenance agreement ("Agreement") supplementing the Interconnection Agreement, dated March 1, 1983, between Southern Illinois Power Cooperative ("SIPC") and Illinois Power.

Illinois Power indicates that this filing is made for the purposes of FERC approval of (1) a maintenance agreement between these two utilities for equipment at the Baldwin Power Plant Substation and (2) a Letter Agreement concerning the sharing of a microwave radio system of benefit to both utilities.

Illinois Power states that a copy of the filing was served upon SIPC and the Illinois Commerce Commission.

Comment date: August 2, 1985, in accordance with Standard Paragraph E at the end of this notice.

2. Central Hudson Gas & Electric Corporation

[Docket No. ER85-616-000]

Take notice that on July 11, 1985, Central Hudson Gas & Electric Corporation (Central Hudson) tendered for filing its development of actual costs for 1984 related to transmission service provided from the Roseton Generating Plant to Consolidated Edison Company of New York, Inc. (Con Edison) and Niagara Mohawk Power Corporation (Niagara Mohawk) in accordance with the provisions of its Rate Schedule FERC No. 42.

The actual costs for 1984 amounted to $1.4004 per Mw.-day to Con Edison and $4.6661 per Mw.-day to Niagara Mohawk and are the basis on which charges for 1985 have been estimated.

Central Hudson requests waiver on the notice requirements set forth in 18 CFR 35.11 of the Regulations to permit charges to become effective January 1, 1985 as agreed by the parties.

Central Hudson states that a copy of its filing was served on Con Edison, Niagara Mohawk and the State of New York Public Service Commission.

Comment data: August 2, 1985, in accordance with Standard Paragraph E at the end of this notice.

3. Central Hudson Gas & Electric Corporation

[Docket No. ER85-617-000]

Take notice that on July 11, 1985, Central Hudson Gas & Electric Corporation (Central Hudson) tendered for filing its development of actual costs for 1984 related to subsection service provided to Consolidated Edison of New York, Inc. (Con Edison) in accordance with the provisions of its Rate Schedule FERC No. 43.

Central Hudson indicates that the actual cost for 1984 amounted to $336,830 and will be the basis on which estimated charges for 1985 will be billed.

Central Hudson requests waiver on the notice requirements set forth in 18 CFR 35.11 of the Regulations to permit charges to become effective January 1, 1985 as agreed by the parties.

Central Hudson states that a copy of its filing was served on Con Edison and the State of New York Public Service Commission.

Comment date: August 2, 1985, in accordance with Standard Paragraph E at the end of this notice.

4. Consolidated Edison Company of New York, Inc.

[Docket No. ER85-621-000]

Take notice that on July 11, 1985, Consolidated Edison Company of New York, Inc. ("Con Edison") tendered for filing as an initial rate schedule a Lease and Operating Agreement dated February 28, 1985 between Con Edison and the County of Westchester acting by and through the County of Westchester Public Utility Service Agency ("Westchester"). The rate schedule provides for Westchester to pay a charge for use of Con Edison's facilities to sell and distribute hydroelectric power and energy to Westchester's customers (who are retail consumers of electricity) equal to the charges that would have been billed to such customers under Con Edison's retail electric rate schedule on file with the New York State Public Service Commission less Con Edison's fuel and purchased power costs reflected in such rate schedule.

Con Edison requests a waiver of notice requirements so that the rate schedule can be made effective as of July 1, 1985.

Con Edison states that copies of this filing have been served by mail upon Westchester and the Power Authority of the State of New York, from whom Westchester is purchasing the hydroelectric power and energy to be sold and distributed to Westchester's customers.

Comment date: August 2, 1985, in accordance with Standard Paragraph E at the end of this notice.

5. The Cleveland Electric Illuminating Company

[Docket No. ER85-626-000]

Take notice that on July 12, 1985, the Cleveland Electric Illuminating Company (CEI) tendered for filing an executed Service Agreement and Exhibits A and B thereto, providing for transmission by CEI of approximately 22 MW of power from the 345 kv interconnection point on CEI's Ashtabula/Erie-West Line with Pennsylvania Electric Company to the City of Cleveland, Ohio (City) in accordance with the terms and conditions of CEI's FERC Transmission Service Tariff.

CEI has requested waiver of the FERC's 60-day notice requirement in order to permit commencement of transmission service on July 1, 1985.

Comment date: August 2, 1985, in accordance with Standard Paragraph E at the end of this notice.

6. Indiana & Michigan Electric Company

[Docket No. ER85-609-000]

Take notice that on July 8, 1985, American Electric Power Service Corporation (AEP) tendered for filing on behalf of its affiliate operating subsidiary Indiana and Michigan Electric Company (I&ME), which is an AEP affiliated operating subsidiary, Modification No. 13 dated May 31, 1985 to the Agreement dated January 2, 1977 between I&ME and the City of Richmond, Indiana (RP&L). The Commission has previously designated the 1977 Agreement as I&ME's Rate Schedule FERC No. 70.

Section 1 and 2 of Modification No. 13 provide for an increase in transmission demand rate for Short Term Power when I&ME is the supplying party to $0.46 per kilowatt per week and to $0.092 per kilowatt per day. Sections 3 and 4 increase the Limited Term Power and Transmission Service demand rates when I&ME is the supplying party to $2.00 per kilowatt per month. These proposed rates are the same as those which have been filed and accepted for filing by the Commission on behalf of I&ME. In addition, Section 5 of this Modification revises the Billing and Payment provisions of the 1977 Agreement to become consistent with the provisions presently used by the AEP system and have been accepted for filing by the Commission.

AEP requests an immediate effective date, which will allow AEP to offer similar services at similar rates to

electric utility systems interconnected with AEP affiliated operating

Comment date: August 2, 1985, in accordance with Standard Paragraph E

[Docket Nos. ER85-521-000 and ER85-522-000]

it is presently constructing the Wolf Creek station, and that Wolf Creek

unopposed motion to intervene in

VOL 50 ISS 144 JL 26 1985 UMI

electric utility systems interconnected with AEP affiliated operating subsidiaries as established in previous AEP filings, and therefore requests waiver of this Commission's Notice requirements.

Copies of this filing were served upon RP&L, the Public Service Commission of Indiana and the Michigan Public Service Commission.

Comment date: August 2, 1985, in accordance with Standard Paragraph E at the end of this notice.

7. Kansas Gas and Electric Company

[Docket No. ER84-136-004]

Take notice that on July 8, 1985, Kansas Gas and Electric Company tendered for filing the original and five (5) copies of the refund report for Chanute, Fredonia and Iola, Kansas in accordance with the Commission's letter order dated June 5, 1985. The refund amount reflects the settled rates for Service Schedule A under Docket No. ER84-136-000. There is no refund due Fredonia and Iola since they did not buy firm demand during the refund period.

The refund amounts include interest from the date payment was received through July 5, 1985 at the appropriate interest rate in accordance with 18 CFR 35.19(a).

Comment date: August 2, 1985, in accordance with Standard Paragraph H at the end of this notice.

8. Sierra Pacific Power Company

[Docket No. ER85-406-002]

Take notice that on June 21, 1985, Sierra Pacific Power Company, (Sierra) submitted for filing, in compliance with the Commission's suspension order of May 31, 1985, six (6) copies of original sheet No. 4A to Original Volume No. 1 which reflects the deletion of Sierra's proposed purchase power adjustment clause.

Comment date: August 2, 1985, in accordance with Standard Paragraph H at the end of this notice.

9. Union Electric Company

[Docket No. ER85-618-000]

Take notice that Union Electric Company, on July 11, 1985, tendered for filing a Letter Agreement dated May 31, 1985, between City of Columbia, Missouri, and Union Electric Company.

Union Electric states the purpose of the Letter Agreement is to revise the rate formula for Transmission Service.

Comment date: August 2, 1985, in accordance with Standard Paragraph E at the end of this notice.

10. Washington Water Power Company

[Docket No. ER85-584-000]

Take notice that on June 27, 1985, Washington Water Power Company (WWP) tendered for filing a Firm Capacity and Energy Sales Agreement between WWP and Nevada Power Company. WWP states that this agreement provides for WWP to make capacity and energy sales to the Nevada Power Company transacted from purchases made available to WWP by reason of its contract with Arizona Public Service Company (APS), Wholesale Power Agreement, Contract No. 3124-040.00, designated as APS FERC Rate Schedule No. 84.

Comment date: August 2, 1985, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to bhe proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

H. Any person desiring to be heard or to protest this filing should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before the comment date. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. ER85-521-000 and ER85-522-000]

Kansas Gas & Electric Co.; Order Accepting for Filing and Suspending Rates, Noting Intervention, Ordering Summary Disposition, Granting Waivers, Establishing Hearing Procedures, and Consolidating Dockets

Issued July 19, 1985.

Before Commissioners: Raymond J. O'Connor, Chairman; A. G. Sousa and Charles G. Stalon.

On May 20, 1985, Kansas Gas and Electric Company (KG&E) tendered for filing in Docket No. ER85-521-000: (1) Proposed modifications to fuel adjustment clauses applicable to service to 12 full requirements customers,[1] 12 partial requirements customers,[2] and Kansas Electric Power Cooperative, Inc. (KEPCO)[3]; and (2) a request for waiver of section 35.14 of the Commission's regulations (18 CFR 35.14) to permit the company to retain the fuel cost savings which occur during the testing of new generating units. KG&E has also tendered for filing, in Docket No. ER85-522-000, a proposed agreement with KEPCO providing for the transmission of KEPCO's share of test energy from the Wolf Creek Generating Station (Wolf Creek).[4] The rate for transmission service is set at KG&E's incremental cost to provide transmission losses or 1 mill/kWh of total energy delivered, whichever is greater.[5] KG&E requests waiver of the notice requirements to permit the transmission agreement and the proposed modifications to the fuel adjustment clauses to become effective on June 1, 1985, when Wolf Creek is expected to begin testing.

In seeking a waiver of § 35.14 of the Commission's regulations and proposing modification to its fuel adjustment clause, KG&E requests that the fuel adjustment charges collected from the wholesale customers be determined as though energy provided by generating plants undergoing test operations were not available to KG&E for supply to such customers. The company represents that

[1] The Cities of Acradia, Arma, Blue Mound, Elsmore, Erie, Haven, La Harpe, Moran, Mount Hope, Mulberry, Oxford and Savonburg, Kansas.

[2] The Cities of Augusta, Burlington, Chanute, Coffeyville, Fredonia, Girard, Iola, Mulvane, Neodesha, Wellington and Winfield, Kansas, and Missouri Public Service Company.

[3] *See* Attachment for rate schedule designations.

[4] Wolf Creek is jointly owned by KG&E, KEPCO and Kansas City Power & Light Company (KCP&L). KG&E and KCP&L each own 47% of Wolf Creek while KEPCO owns the remaining 6%.

[5] Incremental cost is defined as fuel and O&M expenses plus 10%, not to exceed 2 mills/kWh.

it is presently constructing the Wolf Creek station, and that Wolf Creek is expected to begin an estimated three months of test operation soon, during which it will generate approximately 580 million kWh of test energy.

KG&E contends that since the output of Wolf Creek would become part of the energy supply to KG&E's system, the output and fuel consumption of KG&E's other generating units would be reduced substantially.[6] The company states that the savings due to test energy should not automatically flow through the fuel adjustment clauses to wholesale customers because it will not begin to recover its investment in Wolf Creek through rates until commercial operation. KG&E seeks to modify its fuel adjustments clause procedures to value the test energy at an amount equal to the displacement cost of fuel, *i.e.*, fuel costs related to the test energy if that test energy had not been available to serve customers' load. The displacement cost is, thus, the difference between actual costs and a reconstruction of costs without the test power. The company proposes to credit this amount to the investment cost of Wolf Creek. KG&E contends that this will result in valuing test energy at its "fair value" as required by the Uniform System of Accounts, Electric Plant Instructions, Section 3, Paragraph 18 (18 CFR Part 101). The company states that the proposed modifications will affect all wholesale customers entitled to firm power service on an equal basis except the Cities of Chanute, Fredonia and Iola.[7] KG&E states that it will maintain clear and detailed work papers from which the entire process can be verified by auditors.

Notice of the company's filings were published in the **Federal Register**,[8] with comments due on or before June 10, 1985. Kansas Municipal Untilities (Cities) filed timely motions to intervene in both dockets.

Cities request that KG&E's filing in Docket No. ER85-521-000 be suspended and that the company's petition for waiver of § 35.14 of the Commission's regulations be denied. Cities state that KG&E's petition for waiver of § 35.14 should be denied on the grounds that the company failed to submit detailed cost support data to justify the proposed amendments to fuel clauses or to enable the Commission to determine that the credit to Wolf Creek rate base has, in fact, been made. Cities allege that KG&E could, and should, have referred to rate base data filed in Docket No. ER85-461-000 (KG&E's current general rate increase under investigation) that presumably reflect the rate base credits at issue. Accordingly, Cities request that KG&E's filing in Docket No. ER85-521-000 be suspended and consolidated with Docket Nos. ER85-522-000 and ER85-461-000.

In their motion to intervene in Docket No. ER85-522-000, Cities request consolidation with Docket Nos. ER85-461-000 and ER85-521-000. They state that KG&E's transmission of inexpensive test-run nuclear energy under the terms of the proposed service schedule gives KEPCO a competitive advantage over Cities, but do not otherwise raise any specific issues regarding the filing.

On June 25, 1985, KG&E filed separate answers to Cities' motions to intervene in Docket Nos. ER85-521-000 and ER85-522-000. With respect to Docket No. ER85-521-000, KG&E agrees that no rate base offset has been reflected in its filing in Docket No. ER85-461-000 and that, if the Commission approves modifications to its fuel adjustment clauses, an adjustment to rate base will ultimately be required. KG&E contends, however, that the lack of a rate base adjustment at this time does not warrant denial of its request for waiver. KG&E opposes Cities, request for suspension; in the event that the Commission does suspend its filing, the company asks that the suspension be for a nominal period so that the rates become effective on June 1, 1985.[9] In support, KG&E states that, if the proposed modifications to the fuel adjustment clauses are suspended for five months, it will extend beyond the testing period and result in an irretrievable loss of revenues. The company does not oppose the consolidation of Docket No. ER85-521-000 with Docket No. ER85-461-000 so long as consolidation does not delay the effective date. In Docket No. ER85-522-000, KG&E opposes Cities' intervention and objects to consolidation of that docket with either ER85-461-000 or ER85-521-000, stating that the transmission of KEPCO's ownership share of test energy does not affect Cities.

Discussion

Pursuant to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214), the timely, unopposed motion to intervene in Docket No. ER85-521-000 serves to make Cities a party to the proceeding. Notwithstanding the company's opposition, we find that good cause exists to grant their motion to intervene, given their interest as customers of KG&E, in Docket No. ER85-522-000.

With respect to KG&E's proposed treatment of test energy in its fuel adjustment clauses, the Commission has previously accepted several similar applications by utilities, including one by KCP&L for its 47% share of test energy from Wolf Creek filed in Docket No. ER84-594-000. In *Pennsylvania Power & Light Co.*, Opinion No. 176, 23 FERC ¶ 61,395, we granted the company's request for waiver and approved its modifications to its fuel adjustment clauses. In that case, we found that, absent waiver of the fuel clause regulations, the current ratepayers would receive the benefits of the test energy in the form of decreased fuel costs while the future ratepayers would incur all the cost associated with the test energy through higher rates which result from inclusion of such cost in the CWIP account and ultimately in rate base. We concluded that, by allowing waiver of the regulations and crediting the fair value of test energy to the plant account, the future ratepayers who ultimately bear the costs associated with the facility undergoing testing will receive benefits through lower rates.

The situation in this case is similar, although not identical, to that in *Pennsylvania Power & Light Co.* Here, KG&E's wholesale customers have not been paying for the total carrying costs associated with Wolf Creek CWIP; thus, some retention of test energy savings by KG&E is appropriate. However, unlike *Pennsylvania Power & Light Co.*, KG&E's present rates (filed in Docket No. ER83-628-000) became effective on February 29, 1984, and include substantial amounts of CWIP investment in Wolf Creek (22.5% of test year balances). Thus, KG&E's wholesale customers have been paying higher rates since February 29, 1984, to compensate KG&E for part of its carrying costs on Wolf Creek. Therefore, we believe that the current customers should be given credit for some of the low-cost test energy that will be generated during the testing of Wolf Creek to reflect the portion of Wolf Creek carrying costs that have been recovered through rates. Accordingly, we shall grant waiver of the fuel clause regulations, accept KG&E's proposed modifications to its fuel adjustment clauses for filing, and suspend them.

[6] KG&E estimates that the reduction in the energy costs during the testing of Wolf Creek will be approximately $6.8 million on a total company basis due to avoided fuel and purchases power costs.

[7] KG&E's contracts with these cities preclude further rate changes under Service Schedule A until such contracts have terminated.

[8] 50 FR 23757 (1985).

[9] KG&E states that Wolf Creek was synchronized to the tranamission grid on June 13, 1985 and that, therefore, the filing should be made effective at least by that date.

We agree with Cities that KG&E has failed to demonstrate that its firm rates

KG&E rate schedules. Further, Cities do

shall be held concerning the justness

ATTACHMENT.—KANSAS GAS & ELECTRIC

[Docket Nos. TA85-3-28-000, 001]

filing have been calculated utilizing the

VOL 50 ISS 144 JL 26 1985 UMI

We agree with Cities that KG&E has failed to demonstrate that its firm rates have been designed to appropriately reflect the required reduction in Wolf Creek investment cost. KG&E's filed increased rates, which are under investigation in Docket No. ER85-461-000, do not reflect the requisite reduction of investment cost by the additional revenues that will be collected due to the modified fuel adjustment clauses. The rates submitted in Docket No. ER85-461-000 were filed less than a month before the proposed test energy clause, have an effective date tied to Wolf Creek's commercial operation date, and should therefore reflect a Wolf Creek investment net of retained test energy savings. Accordingly, we shall order summary disposition with respect to this issue. The precise level of the offset should be resolved at hearing and KG&E shall reflect the offset in the final compliance rates.

Our review of the company's filing in Docket No. ER85-521-000 and the pleadings indicates that the rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Accordingly, we shall accept the rates for filing, as modified by summary disposition, and we shall suspend them as ordered below.

In *West Texas Utilities Co.*, 18 FERC ¶ 61.189 (1982), we explained that where our preliminary examination indicates that the proposed rates may be unjust and unreasonable, but may not be substantially excessive, as defined in *West Texas*, we would generally impose a nominal suspension. Here, our examination suggests that the proposed rates filed in Docket No. ER85-521-000 may not yield substantially excessive revenues. Further, since maximum suspension would extend the effectiveness of the fuel adjustments beyond the testing stage and result in the company retaining none of the benefits of test energy, we believe that a nominal suspension is appropriate. We also believe, for this latter reason, that good cause exists to grant waiver of the notice requirements. Accordingly, we shall accept KG&E's submittal in Docket No. ER81-521-000, as modified by summary disposition, and suspend it for one day, to become effective as of June 2, 1985, subject to refund.

Based on our review of the company's proposed transmission agreement filed in Docket No. ER81-521-000, we find that the proposed rates will not produce excessive revenues. The proposed transmission rate is on file in other KG&E rate schedules. Further, Cities do not state what specific relief they seek and simply request consolidation with KG&E's ongoing rate case. While it is true that KEPCO will receive its ownership share of low cost test energy, and that such low cost test energy may give KEPCO a competitive advantage over Cities, this simply reflects the fact that KEPCO has assumed the cost and risk of constructing 6% of Wolf Creek. Under these circumstances, no reasonable grounds appear to warrant a hearing in this docket. Accordingly, we shall accept the transmission agreement for filing, without suspension or hearing, to become effective June 1, 1985.

We find that common questions of law and fact may be presented in Docket Nos. ER85-521-000 and ER 85-461-000. As a result, we shall consolidate those dockets for purposes of hearing and decision.

The Commission orders:

(A) Summary disposition is hereby ordered with respect to the required reduction of Wolf Creek investment cost by the additional revenues that will be collected due to the modified fuel adjustment clauses. KG&E shall file revised fuel clauses reflecting the offset in the final compliance rates at the conclusion of this proceeding.

(B) KG&E's request for waiver of § 35.14 of the Commission's regulations is hereby granted.

(C) KG&E's request for waiver of the notice requirements is hereby granted.

(D) KG&E is hereby ordered to file within thirty (30) days of the date of issuance of this order or the end of the testing of Wolf Creek, whichever is later, the accounting entries made to effect its treatment of test power, including a detailed explanation of the derivation of all figures.

(E) KG&E's proposed rates, as modified by summary disposition, in Docket No. ER85-521-000 are hereby accepted for filing and suspended for one day, to become effective June 2, 1985, subject to refund.

(F) KG&E's proposed transmission agreement in Docket No. ER85-522-000 is hereby accepted for filing without suspension or hearing to become effective June 1, 1985.

(G) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the Department of Energy Organization Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Rules of Practice and Procedure and the regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held concerning the justness and reasonableness of KG&E's rates in Docket No. ER85-521-000.

(H) Docket Nos. ER85-521-000 and ER85-522-000 are hereby terminated. The evidentiary proceedings established herein are designated as Docket No. ER85-521-001.

(I) Docket No. ER85-521-001 is hereby consolidated with Docket No. ER85-461-001 for purposes of hearing and decision.

(J) The administrative law judge designated to preside in Docket No. ER85-461-001 shall determine procedures best suited to accommodate consolidation of Docket No. ER85-521-001 with the pending proceeding.

(K) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ST81-260-005]

Mustang Fuel Corp. Application for Approval of Revised Rates for Transportation of Gas Pursuant to § 284.123(b)(2) of the Commission's Regulations

July 19, 1985.

Take notice that on May 1, 1985, Mustang Fuel Corporation (Mustang), an Oklahoma intrastate pipeline company, filed in the above-captioned docket an application pursuant to Subpart C of Part 284 of the Commission's regulations for approval of a revised rate for the transportation of natural gas on behalf of El Paso Natural Gas Company (El Paso) in Docket No. CP82-206, all as more fully set forth in the application which is on file with the Commission and open to public inspection. Mustang has proposed to charge El Paso 41.54 cents per Mcf, effective May 1, 1985.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before August 19, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. TA85-3-28-000, 001]

Panhandle Eastern Pipe Line Co.; Change in Tariff

July 22, 1985.

Take notice that on July 17, 1985 Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing the following revised sheets to its FERC Gas Tariff, Original Volume No. 1:

Fifty-Second Revised Sheet No. 3-A
Twenty-Ninth Revised Sheet No. 3-B
Thirteenth Revised Sheet No. 3-C.1
Thirteenth Revised Sheet No. 3-C.2
Thirteenth Revised Sheet No. 3-C.3

The proposed effective date of these revised tariff sheets is September 1, 1985.

Panhandle states that these revised tariff sheets reflect a net decrease in the commodity PGA rate adjustment of (20.78¢) per Dt. This adjustment includes: (1) In the projected purchased gas cost a (0.42¢) per Dt. decrease component; (2) a (9.27¢) per Dt. decrease in the surcharge to recover the current deferred account balance at May 31, 1985 and related carrying charges; and (3) an (11.09¢) per Dt. decrease in the surcharge for the current period amortization of the deferred account balance at May 31, 1983, pursuant to Docket No. TA83-2-28-000.

In addition, the revised tariff sheets filed herewith reflect the termination, as of August 31, 1985, of the mechanism whereby customers, under certain conditions, could receive a 14¢ per dt reduction in the gas cost portion of the applicable commodity volume charges for all volumes delivered during the June 1 through August 31, 1985 period, as approved by the Commission's order dated May 31, 1985 in Docket Nos. TA85-2-28-000 and TA85-2-28-001. The customers could elect to participate in the interim reduction by not nominating or participating in the 10% contractual entitlement option provided for in the Commission's omnibus SMP order of September 26, 1984 in Docket No. CI83-269-000, *et al.* In accordance with Ordering Paragraph (B)(5) of the Commission's Order dated May 31, 1985 in Docket No. TA85-2-28-000, Panhandle is reflecting the credit of the full current PGA recovery rate to Account No. 191 for all sales during the June 1, 1985 through August 31, 1985 period in which the interim rate reduction was in effect.

Panhandle has included in this filing projected gas purchase volumes from its suppliers for the six-month period commencing September 1, 1985, as detailed in section 18.2, Schedule A. All projected gas costs for purchases from producer suppliers reflected in this PGA filing have been calculated utilizing the "historical cost" procedures consistent with the requirements of the Commission's PGA regulations.

Panhandle further states that the revised tariff sheets filed herewith also reflect net decreases of ($.01) and (0.14¢) to Panhandle's D_1 and D_2 demand rates, respectively.

Panhandle's previous PGA filing in Docket No. TA85-1-28-000 (March 1, 1985 PGA) included a line-item adjustment which projected a reduction in the cost of gas associated with its ongoing negotiations with its producer-suppliers during that PGA period, with respect to those suppliers that became deregulated at January 1, 1985. The Commission's Order issued February 28, 1985 in Docket Nos. TA85-1-28-000 and TA85-1-28-001, accepted this adjustment, subject to Panhandle assuming the risk of any undercollection that might result and the burden of showing why it should be permitted to recover any such undercollection. Panhandle acknowledges that the undercollection at-risk condition imposed by the Commission's February 28, 1985 Order remains in effect for the remainder of the March PGA period, that is, through August 31, 1985.

Inasmuch as the instant filing includes only the first 3 months of that period (March-May) Panhandle is unable to determine at this time the full impact of its renegotiation efforts related to this projected cost of gas reduction. Panhandle's next regularly scheduled PGA filing, to be effective March 1, 1986 will include the remaining 3 months of the March PGA period (June-August).

Therefore, Panhandle will be able to demonstrate in its next PGA filing, the effect of its renegotiation efforts and meet the burden of responsibility it has with respect to undercollections that occurred, if any, during the six-month period, when it can review the deferred account activities for the entire March through August 1985 period. The Commission has recognized this PGA timing dichotomy in a recent PGA order, where it reserved decision on the appropriateness of these type costs until it can review the Account No. 191 balances for the entire six-month period.

Trunkline Gas Company (Trunkline) is filing concurrently herewith revised rates in compliance with a letter order issued by the Commission on July 9, 1985 in Docket No. TA84-2-30-003 (PGA84-a). With respect to the pricing of its purchases from Trunkline, Panhandle has, during this PGA period, utilized Trunkline's interim rates which are currently in effect as further described below, subject to the outcome

of Trunkline's Docket No. RP83-93 *et al.* proceeding, and as adjusted for

had estimated (negative $5.4 million as compared to the estimated negative $4.4

protestants parties to the proceeding. Any person wishing to become a party

Washington, D.C. 20426, a motion to

will be considered by it in determining

therein must file a motion to intervene in

VOL 50 ISS 144 JL 26 1985 UMI

of Trunkline's Docket No. RP83–93 *et al.* proceeding, and as adjusted for compliance with the Commission's order of July 9, 1985.

On March 25, 1985 Trunkline filed revised tariff sheets to implement interim reduced rates which rates were approved by the Commission's letter order dated April 10, 1985 in Docket No. RP83–93–006, subject to restoration of the amount of the reduction if the Stipulation and Agreement in Docket No. RP83–93 (Phase I), *et al.* is disapproved or withdrawn. Accordingly, the reflection of Truckline's interim rates in the instant Panhandle PGA filing is dependent upon and coextensive with the duration of the interim Truckline rate reduction, and the outcome of Truckline's Docket No. RP83–93 proceeding.

Panhandle has also included in this filing a continuation of the three-year amortization of the deferred account balance at May 31, 1983 as approved in Docket No. TA83–2–28–000. Consistent with the Commission's Order dated August 31, 1983, Opinion No. 223 dated June 1, 1984, and Order on Rehearing dated July 25, 1984, no carrying charges on the amortized deferred account have been included herein. On September 11, 1984 Panhandle filed for court review of the Commission's Orders dated June 1, 1984 (Opinion No. 223) and July 25, 1984. This filing is being made without prejudice to Panhandle's claims as stated in its request for court review.

In accordance with the Commission's Order dated February 28, 1984 in Docket No. TA84–1–28–002 (March 1, 1984 PGA) Panhandle flowed-through during the twelve-month period ending February 28, 1985, refunds provided for in Article V, Section 4 of the Stipulation and Agreement in Docket No. RP82–58, which related to the Tax Normalization and related issues in Docket No. RP78–62 (Remand) and RP80–78.

In Docket No. TA85–1–28–000, *et al.* (March 1, 1985 PGA) Panhandle reflected the transfer of the estimated negative remaining balance at February 28, 1985 of approximately $4.4 million related to the tax normalization refund in Sub-Account 191.1008, to Sub-Account 191.1009. The Commission's Order dated February 28, 1985 accepted Panhandle's proposal but (1) required Panhandle to adjust its refund sub-account to reflect actual sales during the last three months of the amortization period and (2) required Panhandle to assume the risk of any underrecovery of its gas cost associated with this proposal.

Panhandle submits that since the actual balance at February 28, 1985 in Sub-Account 191–1008 was less than it had estimated (negative $5.4 million as compared to the estimated negative $4.4 million) that no undercollection occurred, due to the fact that the actual sales for the December 1984 through February 1985 were lower than the projected sales volumes. In accordance with the Commission's Order dated February 28, 1985, Panhandle has reflected in the instant filing the transfer of the actual negative remaining balance of approximately $5.4 million in Sub-Account 191.1008 to Sub-Account 191.1009. Likewise, the actual associated carrying charge balance has been transferred to the appropriate current sub-account.

Additionally, the revised tariff sheets filed herewith reflect Projected Incremental Pricing Surcharges in accordance with section 21 of the General Terms and Conditions of Panhandle's tariff.

In accordance with section 18 of the General Terms and Conditions of its tariff, Panhandle has estimated sales volumes for the six-month period, September 1, 1985 through February 28, 1986. A tabulation of these estimated sales volumes for the six-month period beginning September 1, 1985 is submitted herewith in section 18.2.

Panhandle's Schedule A included herein reflects costs under the Commission's Order No. 94–A for gas to be acquired by Panhandle during the six-month period commencing September 1, 1985. Panhandle will supply to the Commission within thirty days hereof, under separate cover, additional workpapers containing the information required under section 271.1104(f) of the Commission's Regulations for production-related costs reflected in this filing.

To the extent required, if any, Panhandle requests that the Commission grant such waivers as may be necessary for the acceptance of the tariff sheets submitted herewith to become effective September 1, 1985.

Copies of this letter and enclosures are being served on all jurisdictional customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC., 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before August 1, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket Nos. ST80–7–002, et al.]

Southwestern Gas Pipeline, Inc., et al.; Extension Reports

July 19, 1985

The companies listed below have filed extension reports pursuant to section 311 of the Natural Gas Policy Act 1978 (NGPA) and Part 284 of the Commission's regulations giving notice of their intention to continue transportation and sales of natural gas for an additional term of up to 2 years. These transactions commenced on a self-implementing basis without case-by-case Commission authorization. The sales may continue for an additional term if the Commission does not act to disapprove or modify the proposed extension during the 90 days preceding the effective date of requested extension.

The table below lists the name and addresses of each company selling or transporting pursuant to Part 284; the party receiving the gas; the date that the extension report was filed; and the effective date of the extension. A letter "B" in the Part 284 column indicates a transportation by an interstate pipeline which is extended under § 284.105. A letter "C" indicates transportation by an intrastate pipeline extended under § 284.125. A "D" indicates a sale by an intrastate pipeline extended under § 284.146. A "G" indicates a transportation by an interstate pipeline pursuant to § 284.221 which is extended under § 284.105. The following symbols are used for transactions pursuant to a blanket certificate issued under Section 284.222 of the Commission's Regulations: a "G(HT)", "G(HS)" or "G(HA)", respectively, indicates transportation, sale or assignments by a Hinshaw pipeline; a "G(LT)" indicates transportation by a local distribution company, and a "G(LS)" indicates sales or assignments by a local distribution company.

Any person desiring to be heard or to make any protests with reference to said extension report should on or before August 19, 1985, file with the Federal Energy Regulatory Commission,

Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214). All protests filed with the Commission will be considered by it in determining the associate action to be taken but will not serve to make the protestants party to a proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. ER85–534–000, et al.]

Southwestern Electric Power Co.; Order Accepting for Filing and Suspending Rates, Denying Waiver, Ordering Summary Disposition, Establishing Hearing Procedures, and Consolidating Dockets

Issued: July 22, 1985.

Before Commissioners: Raymond J. O'Conner, Chairman; A. G. Sousa and Charles G. Stalon.

On May 23, 1985, Southern Power Company (SWEPCO) submitted for filing a proposed rate increase for firm power service to the City of Bentonville, Arkansas (Bentonville).[1] SWEPCO provides service to Bentonville pursuant to a firm power agreement which provides for a formulary rate. Beginning with the in-service date of SWEPCO's Pirkey Unit No. 1, the firm power agreement provides for an annual true-up to recompute the prior year's rate based on actual cost data, including SWEPCO's actual earned return. The rate developed under the true-up will also become the interim rate to be charged until the next true-up. Based on SWEPCO's 1984 data, SWEPCO proposes to increase the common equity component from 15.7% to 18.75%. This would increase revenues by about $136,000. The firm power agreement provides that the revised rates will become effective on the first day of the month following the commercial operation date of SWEPCO's Pirkey Unit No. 1. SWEPCO states that Pirkey Unit No. 1 was placed in commercial operation on January 3, 1985, and, therefore, SWEPCO requests waiver of the notice requirements to permit an effective date of February 1, 1985.

Notice of the filing was published in the **Federal Register** [2] with comments, protests, or motions to intervene due on or before June 25, 1985. No comments were filed.

Discussion

In *Southwestern Electric Power Co.*, Docket No. ER85–468–000, 31 FERC ¶ 61,389 (1985) and *New England Power Co.*, Docket No. ER85–475–000 *et al.*, 31 FERC ¶ 61,378 (1985), we announced that, in the future, we would reject all filings which contain an automatic formula rate for return on common equity. Because SWEPCO's filing in this docket predates our orders in Docket Nos. ER85–468–000 and ER85–4745–000, we shall not reject SWEPCO's submittal in its entirety. However, we shall reject SWEPCO's return formula in this docket and accept for filing a rate which incorporates a fixed return on common equity of 18.75%, the current result of the formula. SWEPCO shall file an appropriate rate schedule within 30 days.

Our review of SWEPCO's submittal indicates that the rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Accordingly, we shall accept the rates for filing and suspend them as ordered below.

In *West Texas Utilities Company*, 18 FERC ¶ 61,189 (1982), we explained that where our preliminary review indicates that proposed rates may be unjust and unreasonable and may yield substantially excessive revenues, as described in *West Texas*, we would generally impose a maximum suspension. Here, our preliminary review suggests that the rates in this docket may yield substantially excessive revenues. We shall therefore suspend SWEPCO's rates, as modified, for five months.

SWEPCO requests waiver of the notice requirements to permit an effective date of February 1, 1985. In support of the requested waiver, SWEPCO states that it tendered the filing as soon as practicable and that the customer supports the proposed waiver. SWEPCO knew at least by January 3, 1985 (the day the Pirkey Unit No. 1 became operational), that the agreement provided for a revised equity return; however, SWEPCO did not tender its filing until May 23, 1985. Consistent with the Commission's action in Docket Nos. ER85–424–000 and ER85–425–000 [3] we

[1] SWEPCO's submittal is designated as Supplement No. 8 to Rate Schedule FERC No. 60.

[2] 50 FR 24680 (1985).

[3] 31 FERC ¶ 61,286 (1985).

do not find that SWEPCO has demonstrated good cause for waiver

By the Commission.

Kenneth F. Plumb,

petition are on file with the Commission and are available for public inspection.

papers, as ordered by the Commission's

Louisiana Gathering System and the

[Docket No. TA85–4–29–000, 001]

VOL
50

26
1985
UMI

do not find that SWEPCO has demonstrated good cause for waiver and, therefore, we shall deny the company's request. Accordingly, we shall suspend SWEPCO's rates, as modified by summary disposition, for five months from sixty days after filing to become effective on December 23, 1985, subject to refund.

We find that common questions of law and fact may be presented in Docket Nos. ER85–424–001, ER85–425–001, ER85–468–001, and ER85–534–000. As a result, we shall consolidate this docket with Docket Nos. ER85–424–001, *et al.*, for purposes of hearing and decision.

The Commission orders:

(A) Summary disposition is hereby ordered, as noted in the body of this order, with respect to SWEPCO's proposed equity adjustment mechanism. SWEPCO is hereby ordered to file, within thirty (30) days of the date of this order, a revised rate schedule which establishes a fixed return on common equity of 18.75%.

(B) SWEPCO's request for waiver of the notice requirements is hereby denied.

(C) SWEPCO's proposed rates, as modified by summary disposition, are hereby suspended for five months from sixty days after filing to become effective on December 23, 1985, subject to refund.

(D) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the Department of Energy Organization Act and by Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held concerning the justness and reasonableness of SWEPCO's rates.

(E) Subdocket –000 in Docket No. ER85–534–000 is hereby terminated, and Docket No. ER85–534–001 is assigned to the evidentiary hearing ordered herein.

(F) Docket Nos. ER85–424–001, ER85–425–001, ER85–468–001, and ER85–534–001 are hereby consolidated for purposes of hearing and decision.

(G) The presiding administrative law judge designated to preside in Docket Nos. ER85–424–001, *et al.* shall determine procedures best suited to accommodate consolidation of this docket with the pending proceeding.

(H) The Secretary shall promptly publish this order in the **Federal Register**.

By the Commission.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–17797 Filed 7–25–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. GP85–30–000]

State of West Virginia, Department of Mines, Oil and Gas Division, Section 108 Determination Consolidated Gas Transmission Corp., W. W. McDonald Land Co. No. 11212 Well, FERC JD No. 84–24582; Petition To Reopen and Vacate Final Well Category Determination and Request To Withdraw

July 22, 1985.

Take notice that on May 16, 1985, Consolidated Gas Transmission Corporation (Consolidated) filed with the Commission pursuant to § 275.205 of the Commission's regulations a petition to reopen and vacate a final well category determination under section 108 of the Natural Gas Policy Act of 1978 for the W. W. McDonald Land Co. No. 11212 well, located in Mingo County, West Virginia, and to withdraw its request for the determination. Notice of West Virginia's section 108 determination was received on March 14, 1984, and became final on April 28, 1984, 45 days following notification, pursuant to section 275.202(a) of the Commission's regulations. Consolidated states that based on production records, no basis exists for the section 108 determination.

The question of whether refunds, plus interest calculated under § 154.102(c) of the regulations, will be required is a matter which will be considered by the Commission in ruling on the subject petition.

Any person desiring to be heard or to protest this petition should file a motion to intervene or protest in accordance with Rules 214 or 211 of the Commission's rules of practice and procedure. All motions to intervene or protests should be submitted to the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, not later than 30 days following publication of the notice in the **Federal Register**. All protests will be considered by the Commission but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene in accordance with Rule 214. Copies of this petition are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–17799 Filed 7–25–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. ST85–1106–000]

THC Pipeline Co.; Petition for Approval of Fair and Equitable Rate

July 19, 1985.

Take notice that on June 10, 1985, THC Pipeline Company (THC), a Hinshaw pipeline subject to the jurisdiction of the Railroad Commission of Texas, filed in Docket No. ST85–1106–000 a petition pursuant to Subpart C of Part 284 of the Commission's regulations. The petition requests approval of a fair and equitable rate of 13.29 cents per Mcf or 12.9 cents per MMBtu for service under a blanket certificate issued in Docket No. CP85–107–000 for the transportation of natural gas through its system, all as more fully set forth in the petition on file with the Commission and open to public inspection.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before August 19, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP85–141–002]

Texas Gas Transmission Corp.; Tariff Filing

July 19, 1985.

Take notice that on July 15, 1985, Texas Gas Transmission Corporation (Texas Gas) tendered for filing Substitute Tariff Sheets to its FERC Gas Tariff, Original Volume Nos. 1 and 2, to become effective on November 1, 1985.

The tariff sheets are being submitted, under protest, with supporting work papers, as ordered by the Commission's "Order Accepting for Filing and Suspending Proposed Tariff Sheets Subject to Refund and Conditions, Rejecting Proposed Tariff Sheets and Granting Late Interventions," 31 FERC Para. 61,238. That Order directed Texas Gas to file revised tariff sheets in compliance with the Commission's interpretation of the *North Penn* methodology concerning its claimed working capital allowance for current gas in storage.

Copies of the filing were served upon the intervenors, jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before July 26, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. CP79–411–005]

Transcontinental Gas Pipe Line Corp; Petition To Amend

July 18, 1985.

Take notice that on July 10, 1985, Transcontinental Gas Pipe Line Corporation (Petitioner), P.O. Box 1396, Houston, Texas, 77251, filed in Docket No. CP79–411–005 a petition to amend further the order issued December 3, 1979, in Docket No. CP79–411, pursuant to section 7(c) of the Natural Gas Act, so as to authorize an additional point of delivery for natural gas transported for the account of Northern Natural Gas Company, a Division of InterNorth, Inc. (Northern), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that in Docket No. CP79–411 it was authorized to transport up to 150,000 Mcf of natural gas per day for the account of Northern. Petitioner further states it receives this gas at the interconnection of its Southwest Louisiana Gathering System and the tailgate of the separation plant of U-T Offshore System (UTOS) in Johnson's Bayou, Cameron Parish, Louisiana. Petitioner states that it then delivers equivalent quantities of natural gas for the account of Northern at one or more of the following: (1) The interconnection between the facilities of Petitioner and Northern at Northern's Starks Compressor Station located in Calcasieu Parish, Louisiana; (2) the interconnection between Petitioner and Florida Gas Transmission Company near Vinton, Calcasieu Parish, Louisiana; (3) the interconnection between Petitioner and Houston Pipe Line Company (HPL) at Katy, Waller County, Texas; (4) the interconnection between Petitioner and HPL at Fulshear, Fort Bend County, Texas; and (5) the interconnection between Petitioner and HPL at Bammel, Harris County, Texas. Petitioner states that this gas is purchased by Northern from eleven blocks located offshore Texas and Louisiana. Petitioner states further that this gas is transported to UTOS by High Island Offshore System.

Petitioner states that the proposed amendment will add a further delivery point at the interconnection between Petitioner and Louisiana Resources Company in Johnson's Bayou, Cameron Parish, Louisiana. Petitioner proposes to perform this transportation service under the terms and coditions of its Rate Schedule X–219.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before July 29, 1985, file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or protest, in accordance with the requirements of Rule 214 or Rule 211, respectively, of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Commission's Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TA85–4–29–000, 001]

Transcontinental Gas Pipe Line Corp.; Tariff Filing

July 22, 1985.

Take notice that Transcontinental Gas Pipe Line Corporation (Transco) on July 17, 1985, tendered for filing certain revised tariff sheets to its FERC Gas Tariff, Second Revised Volume No. 1 and Original Volume No. 2. The sheets are proposed to become effective on September 1, 1985 and were filed in accordance with Article X of Transco's "Settlement Agreement As To Rates" approved by Commission order dated July 25, 1984 in Docket No. RP83–137. The revised tariff sheets reflect a "tracking" rate reduction of 0.3¢ per dt in the commodity rate or delivery charge of Transco's sales and long-haul transportation rate schedules.

Article X of the settlement agreement provides for adjustments to Transco's jurisdictional rates to give effect to inclusion in rate base of any decreases in the amount of Transco's outstanding advance payments after March 31, 1984. The rate reduction proposed is occasioned by a decrease of $12,381,587 in the advance payment balance of Transco from that which existed at December 31, 1984.

Transco further states that copies of the instant filing have been mailed to each of its customers, and State Commissions and other parties to Docket No. RP83–137.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rule 211 and Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before August 1, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

rates, adjusted to reflect the (1.96¢) per

letters of intent to participate. Listed below are all entities that have at this

Issued at Golden, Colorado, July 18, 1985.

4. In the second column, in the fifth

[Docket No. GT85-19-000]

Transcontinental Gas Pipe Line Corp.; Proposed Changes in FERC Gas Tariff

July 19, 1985.

Take notice that on July 15, 1985, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing certain tariff sheets to its FERC Gas Tariff, Second Revised Volume No. 1 and Original Volume No. 2. The tariff sheets are proposed to be effective August 15, 1985 with the exception of First Revised Sheet No. 233A which is proposed to be effective November 1, 1979.

Transco states that these tariff sheets are being filed in order to update Transco's tariffs by revising the Title Page (designating a new person to whom correspondence in regard to the tariff should be directed), Table of Contents, Preliminary Statement, System Maps, Index of Purchasers, etc. The cover pages of Rate Schedules X-213 and X-225 have been filed to change the name of Carolina Pipeline Company, Inc. to South Carolina Pipeline Company, Inc.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Fderal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before July 26, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TA84-2-30-009]

Trunkline Gas Co.; Change in Tariff

July 22, 1985.

Take notice that on July 17, 1985 Trunkline Gas Company (Trunkline) tendered for filing the following revised sheets to its FERC Gas Tariff, Original Volume No. 1:

Description and Proposed Effective Date

Second Substitute Forty-Sixth Revised Sheet No. 3-A—September 1, 1984

First Substitute Forty-Seventh Revised Sheet No. 3-A—March 1, 1985

These revised tariff sheets are being filed at this time in compliance with a letter order issued by the Commission on July 9, 1985, in Docket No. TA84-2-30-003 (PGA84-a). In the July 9, 1985 order the Commission directed Trunkline to recompute its Deferred Purchased Gas Account (Account No. 191), eliminating an adjustment of $5,638,222 related to an exchange imbalance, and related carrying charges which occurred at the time Trunkline changed the basis of its PGA tariff from a unit of purchase to a unit of sales method.

The revised tariff sheets submitted herewith reflect this adjustment to Account No. 191, and related carrying charges, and are proposed to be effective September 1, 1984 and March 1, 1985, as further described below.

September 1, 1984

The September 1, 1984 revised tariff sheet reflects a reduced PGA rate adjustment of (1.96¢) per Dt. in Trunkline's applicable commodity and one-part rates.

This proposed rate reduction represents a downward revision of the PGA rate adjustment which became effective September 1, 1984 in Docket No. TA84-2-30-000, *et al.*, and is being filed at this time in compliance with the Commission's letter order dated July 9, 1985.

The instant filing reflecting these revisions results in: (1) A (1.95¢) per Dt. decrease in the surcharge to recover the current Deferred Account Balance at May 31, 1984 and (2) a (0.01¢) per Dt. decrease in the related carrying charges.

This change in Trunkline's September 1, 1984 rates also impacts the subsequent change in rates at March 1, 1985, as described below.

March 1, 1985

On March 25, 1985 Trunkline filed revised tariff sheets to implement interim reduced rates which were approved by the Commission's letter order dated April 10, 1985 in Docket No. RP83-93-006, subject to restoration of the amount of the reduction if the Stipulation and Agreement in Docket No. RP83-93 (Phase I), *et al.* is disapproved or withdrawn. Accordingly, the March 1, 1985 revised tariff sheet transmitted herewith is likewise dependent upon and coextensive with, the duration of the interim Trunkline rate reduction and the outcome of Trunkline's Docket No. RP83-93 proceeding.

The March 1, 1985 revised tariff sheet reflects Trunkline's interim settlement rates, adjusted to reflect the (1.96¢) per Dt. reduced PGA rate adjustment described above in connection with Trunkline's September 1, 1984 PGA.

Copies of this filing were served on all jurisdictional customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before July 31, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Western Area Power Administration

Parties Indicating Interest in Spring Canyon Pumped Storage Project Arizona; Non-Federal Participation in Proposed Planning Investigation

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Parties Indicating Intent to Participate in Spring Canyon Pumped Storage Project, Arizona, Planning Investigation; Deadline for Letters of Intent.

SUMMARY: In accordance with the March 29, 1985, **Federal Register** notice (50 FR 12622-12623), the Bureau of Reclamation (Bureau) and Western Area Power Administration (Western) held a public information forum to explain the Spring Canyon Pumped Storage Project and the public access on April 23, 1985, at the Showboat Hotel, Las Vegas, Nevada. During the public information forum, Western explained that the public process was to seek to identify additional participants and to identify future needs for peaking power development in the Lower Colorado River Basin. The Bureau explained the planning investigation process and technical details of the proposed project, including the estimated costs. At the April 23 forum, any additional interested parties were asked to submit their letters of intent to participate. Listed below are all entities that have at this time expressed an intent to participate in this project. The planning cost for non-Federal participants is estimated to be $1,500 per megawatt (MW) of specified capacity. A firm estimate of the project planning cost will be developed prior to execution of the planning agreement. Non-Federal entities are expected to fund at least 50 percent of the project planning cost. Each entity will bear a share of such cost in proportion to the amount of capacity specified in its letter of intent. The United States' funding goal is 50 percent of the project planning costs which includes the specified amount of capacity for the United States and United States consideration, not yet determined, for the use of Federal property.

Non-Federal entity	Specified amount of capacity [1] (megawatt)
Arizona Electric Power Cooperative	20
Arizona Public Service Company	100
Citizens Utilities Company	20
Colton, City of	5
Colorado River Commission of NV	15
Imperial Irrigation District	25
Los Angeles Department of Water and Power	150
Nevada Power Company	250
Public Service Company of New Mexico	100
Riverside, City of	30
Salt River Project	200
San Diego Gas & Electric Company	200
Southern California Edison Company	250
Tucson Electric Power Company	200
Wellton-Mohawk Irrigation and Drainage District	5
Total (including U.S.)	1,870

[1] United States specified amount of capacity is 300 MW.

Letters of interest were also received from Electrical District Number One, Electrical District Number Three, and Pacific Gas and Electric Company with no specific levels of participation indicated: therefore, they have not been listed among entities intending to participate.

DATES: Any additional letters of intent to participate must be submitted to the address listed below within 30 days of the publication date of this notice. This will be the final opportunity to participate and failure to file the requested letters of intent will preclude participation.

ADDRESS: Any additional letters of intent to participate should be sent to: Mr. Thomas A. Hine, Area Manager, Boulder City Area Office, Western Area Power Administration, P.O. Box 200, Boulder City, NV 89005, (702) 293-8800.

Issued at Golden, Colorado, July 18, 1985.

William H. Clagett,

Administrator.

Glyco Inc.; Approval of Pesticide Product Registrations

Correction

In FR Doc. 85-14866 appearing on page 26408 in the issue of Wednesday, June 26, 1985, make the following corrections:

1. In the first column, in the **SUMMARY**, the fifth line should read:

"Glycoserve™ Lad", which contain active.

2. In the second column, the eighth line should read:

Glycoserve™ and Glycoserve™ Lad.

3. In the second column, in the second paragraph, the second, third and fourth lines should read:

March 8, 1985 for Glycoserve™ (EPA Reg. No. 38906-6) and Glycoserve™ Lad (EPA Reg. No. 38906-5) for uses as a.

4. In the second column, in the fifth paragraph, in the second line, "provide" should read "provides".

5. In the third column, in the third line. "MC No. 2" should read "CM #2".

Certain Chemicals Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of the final rule published in the **Federal Register** of May 13, 1983 (48 FR 21722). This notice announces receipt of thirty PMNs and provides a summary of each.

Agency denied the petition, it indicated

Chemical. (S) Benzoic acid, 2-[3-(4-methyl, cyclohex-3-enyl)butylidene]amino, methyl ester.
Use/Production. (S) An industrial and consumer aroma chemical for fragrances. Prod. range: 500–5,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture: dermal, a total of 4 workers, up to 4 hrs/da, up to 2 da/yr.
Environmental Release/Disposal. 10 to 20 kg/batch released to water. Disposal by POTW.

P 85–1213

Manufacturer. Confidential.
Chemical. (G) Polyurethane dispersion.
Use/Production. (G) An additive used in the building and construction industry. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Manufacture: dermal, a total of 1 worker, up to 3 to 4 hrs/da.
Environmental Release/Disposal. 25 kg/day released to washout. Disposal by city sewer system.

P 85–1214

Manufacturer. Confidential.
Chemical. (G) Further clarification needed before information can be released to the public file.
Use/Production. (G) Intermediate reacted in another resin. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Confidential.
Environmental Release/Disposal. Confidential.

P 85–1215

Manufacturer. Confidential.
Chemical. (G) Further clarification needed before information can be released to the public file.
Use/Production. (S) Binder for transparent wood finishes. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Confidential.
Environmental Release/Disposal. Confidential.

P 85–1216

Manufacturer. J. M. Huber Corporation.
Chemical. (S) Silicon monoxide.
Use/Production. (S) Industrial strength reinforcing agent in organic and inorganic composite materials (e.g., plastics, metals, and ceramics) and in paints and coatings (e.g., field applied structural coatings, marine coatings, and heavy equipment coatings) and papers, felts and mats of compacted whiskers (e.g., filter media and preforms for production of composits). Prod. range: 72,000–185,000 kg/yr estimated.
Toxicity Data. Acute oral: 5 g/kg; Irritation: Skin—Not a primary irritant, Eye—Not a primary irritant; Inhalation: 0.172 g/m³.
Exposure. Manufacture: inhalation, a total of 18 workers, up to 4.5 hrs/da, up to 225 da/yr.
Environmental Release/Disposal. 1.1 to 11 kg/da released to air. Disposal by approved landfill.

Dated July 19, 1985.

Certain Chemicals Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of the final rule published in the **Federal Register** of May 13, 1983 (48 FR 21722). In the **Federal Register** of November 11, 1984, (49 FR 46066) (40 CFR 723.250), EPA published a rule which granted a limited exemption from certain PMN requirements for certain types of polymers. PMNs for such polymers are reviewed by EPA within 21 days of receipt. This notice announces receipt of four such PMNs and provides a summary of each.

DATES: Close of Review Period:
Y 85–109—August 1, 1985.
Y 85–110 and 85–111—August 4, 1985.
Y 85–112—August 5, 1985.

FOR FURTHER INFORMATION CONTACT: Wendy Cleland-Hamnett, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–611, 401 M St., SW., Washington, DC 20460, (202–382–3725).

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the non-confidential version of the submission by the manufacturer on the exemptions received by EPA. The complete non-confidential document is available in the Public Reading Room E–107 at the above address between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

Y 85–109

Manufacturer. Confidential.
Chemical. (S) Polymer of: isophthalic acid, terephthalic acid, adipic acid, ethylene glycol, neopentyl glycol, 1,6 hexanediol and dibutyl tin oxide.
Use/Production. (G) Polymer for industrial metal costings. Prod. range: 90,000–180,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture: dermal, a total of 4 workers, up to 3 hrs/da, up to 15 da/yr.
Environmental Release/Disposal. Released to air and land. Disposal by publicly owned treatment works (POTW) with 20 kg/batch incinerated.

Y 85–110

Manufacturer. The Upjohn Company.
Chemical. (G) Polyurethane resins.
Use/Production. (G) Industrial thermoplastic resin, Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Manufacture: dermal and inhalation, a total of 4 workers.
Environmental Release-Disposal. Less than 20 kg released to land. Disposal by sanitary landfill.

Y 85–111

Importer. Huels Corporation.
Chemical. (G) Unsaturated polyester resin from dibasic acids and polyol.
Use/Import. (S) Industrial coatings and adhesives. Import range: 30,000–150,000 kg/yr.
Toxicity Data. Acute oral: (Male and female)—> 5,000 mg/kg. Irritation: Skin—Slight, Eye—Non-irritant; Ames test: Non-mutagenic.
Exposure. Processing and nse: dermal, inhalation and ocular.
Environmental Release/Disposal. No release.

Y 85–112

Manufacturer. Confidential.
Chemical. (G) Ethylene olefin terpolymer.
Use/Production. (G) Polymer compound for wire and cable jacketing, drip irrigation tubing and for miscellaneous industrial tubing. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Manufacture: dermal and inhalation, a total of 30 workers, up to 8 hrs/da, up to 188 da/yr.
Environmental Release/Disposal. No release.

Dated: July 19, 1985.

Testing Requirement Rule for Certain Toxic Chemical Substances and Mixtures Found in Southeast Chicago Denial of Citizens' Petition

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Denial of Citizens' Petition.

SUMMARY: This notice announces the decision of the Administrator of the Environmental Protection Agency to deny a citizens' petition filed under section 21 of the Toxic Substances Control Act (TSCA). Two groups, Citizens for a Better Environment and Irondalers Against the Chemical Threat, have petitioned EPA to issue a rule under section 4 of TSCA, requiring the scientific testing of certain toxic chemical substances and mixtures, which have been identified as environmental pollutants in Southeast Chicago, for their combined health and environmental effects.

FOR FURTHER INFORMATION CONTACT:
Edward A. Klein, Director, TSCA Assistance Office (TS–799), Office of Toxic Substances, Environmental Protection Agency, Rm. E–543, 401 M St., SW., Washington, D.C. 20460. Toll-free: (800–424–9065). In Washington, D.C.: (544–1404). Outside the USA: (Operator–202–554–1404).

In EPA Region V, contact:
Mitchell J. Wrich, Chief, Toxic Materials Branch (5HT–16), Environmental Services Division, U.S. Environmental Protection Agency, Rm. 1680, 230 South Dearborn St., Chicago, Illinois 60604, (312) 353–2192.

ADDRESS: A copy of the petition and all related information, under docket number OPTS–211014A, is located in: Rm. E–107, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460.

This material is available for viewing and copying from 9 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 21 of the Toxic Substances Control Act (TSCA), 15 U.S.C. 2620 (a) and (b), provides that any person may petition the Administrator of EPA to initiate a proceeding for the issuance, amendment, or repeal of a rule under various sections of the Act. The Administrator may hold a public hearing or may conduct such investigation or proceeding as he deems appropriate in order to determine whether or not the petition should be granted. If the Administrator grants the petition, the Agency must promptly commence an appropriate proceeding. If the Administrator denies the petition, the reasons for denial must be published in the **Federal Register.** The petitioner may commence a civil action in a district court of the United States to compel the Administrator to initiate a rulemaking proceeding as requested in the petition. Any such civil action shall be filed within 60 days after the Administrator's denial of the petition or, if the Administrator fails to grant or deny the petition within 90 days after the petition is filed, within 60 days following expiration of the 90-day response period.

On July 17, 1984, EPA received a citizens' petition, under section 21 of TSCA, from Robert Ginsburg, Ph.D. (representing Citizens for a Better Environment) and Mary Ellen Montes (representing Irondalers Against the Chemical Threat). The petitioners requested that the Administrator (1) issue a rule under section 4(f)(2) and/or section 6(a) of TSCA, "to remedy the unreasonable risk of injury to health and the environment in the Southeast portion of the City of Chicago;" (2) prior to issuing a rule, conduct a "full field investigation" to determine the immediate and cumulative health effects of multiple toxic substances from multiple sources in air, land, and water in the Southeast Chicago area; and (3) use the authorities of TSCA "to assess and remedy the overall impact on public health and safety from the combined effects of exposure to the different pollutants," instead of "piecemeal enforcement and regulatory actions taken under other Federal statutes. . . ."

EPA issued a notice denying the petition which was published in the **Federal Register** of October 31, 1984 (49 FR 43764). The principal basis for the denial was that the Clean Air Act, the Clean Water Act, the Safe Drinking Water Act, the Resource Conservation and Recovery Act, and the Comprehensive Environmental Response, Compensation, and Liability Act can adequately address the issues raised by the petition and that these other acts are more appropriate than TSCA to address the majority of the environmental pollution problems caused by toxic chemicals in the Southeast Chicago area. Although the Agency denied the petition, it indicated in the administrative record that various environmental investigations would be undertaken to address the petitioners' concerns.

On April 23, 1985, EPA received another citizens' petition under section 21 of TSCA from the petitioners indicated above. This section petition presented five specific requests:

1. The petitioners requested that the Administrator determine the name and nature of business of each person and business entity in the Southeast Chicago area whose business includes the manufacture, distribution in commerce, processing, use or disposal of any one or more of the following "Identified Substances" detected in the air, water, and land of the area: coke oven emissions, benzene, chromium, arsenic, cadmium, nickel, toluene, xylene, acetone, copper, and lead.

2. The petitioners requested that the Administrator compel the persons and business entities identified above, to commence testing of the Identified Substances and such other chemical substance and mixtures, as soon as practicable, which testing shall include the following environmental and health effects:

(1) The cumulative effect over an extended period of time, of each Identified Substance individually and in combination with every other Identified Substance (i.e., benzene alone; benzene with chromium; benzene with chromium and arsenic, etc.);

(2) The synergistic/antagonostic effect of each Identified Substance in combination with every other Identified Substance, occurring at one time;

(3) The effect of multi-media exposure to each of the Identified Substances individually, and in combination with every other Identified Substance;

(4) The cumulative, synergistic/antagonistic and multi-media effect, as set forth above, for each and every other chemical substance and mixture which may create an unreasonable risk of injury to the residents' health or their environment, as determined by the Administrator, individually and in combination with each and every other Identified Substance and such other chemical substances and mixtures; and

(5) All other health and environmental effects set forth at section 4(b)(2)(A) of each of the Identified Substances and such other chemical substances and mixtures as so determined by the Administrator, individually and in combination with each and every other Identified Substance and such other chemical substances and mixtures.

3. The petitioners requested that the Administrator set reasonable deadlines

for the completion of all the environmental investigations resulting

summarize the present knowledge on the toxicity and testing of chemical

2. The public record for the previous

Resource Mgmt. Plan, Bitterroot.

requested that mitigation measures

for the completion of all the environmental investigations resulting from their first petition and of all other actions EPA may take as a result of the current petition.

4. The petitioners requested that the Administrator allow public participation and input with regard to any proposals resulting from the current petition and any actions undertaken as a result of their first petition.

5. The petitioners also requested "[t]hat the Administrator establish such other and further rules and orders as may be allowed under the Act which the Administrator deems appropriate to expeditiously result in the reduction of the health and environmental risks affecting this community."

II. The Administrator's Decision

EPA is denying this petition under section 21 of TSCA for the following reasons:

In order to issue a testing requirement rule under section 4 of TSCA, the Agency must specify standards for the development of the test data. These standards, which must be included in each testing requirement rule issued under section 4(a) of TSCA, are to be issued in order to assure that the resulting test data are "reliable and adequate" (See section 3(12)(B) of TSCA). However, no such standards exist at present for the testing of multiple chemicals for their toxicological interactions, and the state of the art in this area is insufficient for prescribing how the testing which the petitioners request should be conducted, or for assuring that the test data be reliable and adequate.

The Agency is aware of the importance of considering the potential added health and environmental risks posed by multiple chemical exposures, and has ongoing and planned activities to address this area of concern. EPA invited public comments on its "Proposed Guidelines for the Health Risk Assessment of Chemical Mixtures," as published in the **Federal Register** of January 9, 1985 (50 FR 1170). These guidelines, which are expected to be published in final form in the summer of 1985, will be useful for the assessment of cumulative risks posed by mixtures of toxic chemicals such as the ones cited by the petitioners; however, the available toxicity information for mixtures on which the guidelines are based does not allow for the estimation of synergistic or antagonistic effects. Following the recent review of these proposed guidelines by EPA's Science Advisory Board, a comprehensive technical support document is being prepared which will discuss and summarize the present knowledge on the toxicity and testing of chemical mixtures.

An ongoing major EPA research project, the Integrated Air Cancer Project, involves the performance of short-term mutagenicity and animal carcinogenicity tests on ambient air samples collected from simple and subsequently more complex air sheds. This effort will identify airborne carcinogens, determine which emission sources are the major contributors of carcinogens to ambient air, and improve the estimate of comparative human cancer risk from specific air pollution emission sources. Another long-range EPA research project, the Strategy for Assessment and Control of Complex Pollutant Mixtures, is still in the early planning stage and is being considered for funding; it is designed to develop and validate an approach for assessing and predicting potential health and ecological effects from complex pollutant mixtures and interactions. In a 1984 report to Congress, the National Advisory Environmental Health Sciences Council made recommendations on the research needs concerning multiple chemical exposures and toxicological interactions. (National Advisory Environmental Health Sciences Council. 1984. Report of the Third Task Force for Research Planning in Environmental Health Science. A Report to the Committee on Appropriations, United States House of Representatives, dated December 1984.) The report highlighted the many complexities of toxicological interactions and emphasized the need for "an orderly, systematic research approach with frequent analysis and redirection." The Agency believes that its research program addressing multiple chemical exposures is consistent with these recommendations.

In addition to requesting the issuance of testing requirement rules for multiple chemicals in combination with each other, the petitioners requested that EPA compel the testing of each of the 11 "Identified Substances" individually. This part of the petitioners' request is denied because the toxicological properties of these 10 substances and 1 mixture (coke over emissions) are already well documented, and therefore regulatory decisions concerning them can be made without requiring further testing.

For a number of reasons, EPA is also denying the petitioners' request concerning the identification of businesses in the Southeast Chicago area which are the sources of the 11 "Identified Substances." First, as the petition indicates, the Illinois Environmental Protection Agency (IEPA) has already identified 44 local businesses which emit pollutants into the air in the area of Southeast Chicago. Also, in response to that previous petition, EPA stated that it would conduct a variety of environmental investigations, including preparation of an inventory of probable emission sources. EPA Region V, together with EPA Headquarters staff, has initiated its effort to develop an emissions inventory for Southeast Chicago. The petitioners are invited to meet with EPA Region V staff to discuss this ongoing project.

The petitioners' requests for the setting of "reasonable deadlines" and for public participation are denied because those activities are not subject to petition under section 21 of TSCA, which states that "[a]ny person may petition the Administrator to initiate a proceeding for the issuance, amendment, or repeal of a rule under section 4, 6, or 8 or an order under section 5(e) or 6(b)(2)." Although the setting of deadlines and the allowing of public participation are not among the enumerated petitionable items under section 21, the Agency invites the petitioners to meet with officials of EPA Region V in Chicago to discuss the progress of the various environmental investigations being undertaken as a result of their first petition. Also, the petitioners are invited to provide input with regard to the research efforts directed toward assessing the risks posed by multiple chemical exposures.

Concerning the petitioners' request for "such other and further rules and orders as may be allowed under the Act," EPA believes that the petitioners' concerns are being addressed by actions under the authority of statutes other than TSCA, as explained in the Agency's response to the first petition concerning Southeast Chicago (49 FR 43764).

III. Public Record

EPA has established a record for the decision denying this citizens' petition under section 21 of TSCA (docket control number OPTS-211014A). This record, along with a complete index, is available for inspection in the OTS Public Information Office from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays. The Public Information Office is located in Rm. E-107, 401 M St., SW., Washington, D.C. 20460. The public record contains basic information considered by the Agency in reaching this decision and includes:

1. This notice and the citizens' petition to which it responds.

2. The public record for the previous citizens' petition by the same petitioners.

3. Records of communications between EPA personnel concerning the development of the Agency's response to this petition.

4. Reports on the toxicological properties of the 11 "Identified Substances" cited in the petition.

Dated: July 18, 1985.

Lee M. Thomas,

Administrator.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared July 8, 1985 through July 12, 1985 pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 382-5075/76. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in the **Federal Register** dated October 19, 1984 (49 FR 41108).

Draft EISs

ERP No. D-AFS-E65033-FL, Rating LO, Florida Nat'l Forests, Land and Resource Mgmt. Plan, FL. **SUMMARY:** EPA has no objections to the implementation of the preferred plan.

ERP No. D-AFS-E65034-AL, Rating LO, Alabama Nat'l Forests, Land and Resource Mgmt. Plan, AL. **SUMMARY:** EPA's review concludes that the proposed alternative is consistent with good environmental practices. Therefore, EPA lacks objection to the proposal as outlined.

ERP No. D-AFS-J61065-MT, Rating EC2, Hyalite-Porcupine Buffalo Horn Wilderness Study Areas, Designation and Mgmt., Gallatin Nat'l Forest, MT. **SUMMARY:** EPA is concerned with possible water quality degradation and soil erosion if the preferred alternative or any alternative involving timber harvesting and road construction is selected. Insufficient information has been provided to evaluate the impact of alternatives involving timber harvesting and road construction on water quality and soil erosion.

ERP No. D-AFS-J61066-00, Rating EC2, Blue Joint and Sapphire Montana Wilderness Study Act Areas, Land and Resource Mgmt. Plan, Bitterroot, Deerlodge and Salmon Nat'l Forests, MT and ID. **SUMMARY:** EPA is concerned with possible water quality degradation and soil erosion. Insufficient information is available to evaluate the impact of alternatives involving timber harvesting and road construction on these two environmental concerns.

ERP No. D-AFS-J65136-00, Rating EC2, Bitterroot Nat'l Forest, Land and Resource Mgmt. Plan, MT and ID. **SUMMARY:** EPA is concerned because the proposed alternative calls for an approximate ten percent increase in sediment production potential over baseline. EPA is concerned that unacceptable water quality degradation and soil erosion may occur. EPA believes a water quality monitoring and environmental impact evaluation effort should be included as part of the cost of harvesting timber and/or road construction.

ERP No. D-AFS-J65137-MT, Rating EC2, Gallatin Nat'l Forest, Land and Resource Mgmt. Plan, MT. EPA believes that the DEIS/Plan does not provide specific procedures to achieve water quality standards or describe monitoring practices to demonstrate compliance or identify problems. EPA also believes that the soil and water monitoring budget to evaluate water quality problems, verify compliance with water quality standards, and evaluate Best Management Practice (BMP) effectiveness is insufficient to ensure that unacceptable impacts are avoided. A four percent sedimentation rate increase forest wide is projected if the preferred alternative is implemented. EPA is concerned about the water quality impact of this sediment increase.

ERP No. D-BLM-J70002-WY, Rating EC2, Kemmerer Resource Area, Resource Mgmt. Plan, WY. **SUMMARY:** EPA's review has identified several concerns and recommendations for management as identified activities in relation to water quality standards, air quality, riparian and wetland areas, ground water, and rangeland ecosystem, and soils. A concern for fisheries and stream improvements has been expressed. additionally, EPA has requested additional impact analyses, and further description of BLM resource management requirements, resource conditions, best management practices, watershed planning, monitoring, and intergovernmental/public coordination.

ERP No. D-COE-C36058-NY, Rating LO, Saw Mill River Basin Flood Control Project, Construction, Nepera Park, NY. **SUMMARY:** EPA's review of the DEIS did not identify any potential environmental impacts requiring substantive changes to the preferred alternative. EPA requested that mitigation measures proposed in the DEIS be implemented to the greatest extent practicable and that measures to control turbidity in the river be employed in order to reduce potential environmental impacts to water quality from trace levels of toxic pollutants.

ERP No. D-COE-E30032-FL. Rating EC2, Palm Beach County Beach Erosion Control Project, FL. **SUMMARY:** EPA's review concludes that the potential for significant short- and long-term water quality degradation due to depositing fine textural material on a high energy shore face is one of the most obvious environmental concerns. EPA has some environmental concerns with the selection of borrow sites and requests additional information on same for evaluation as soon as it becomes available.

ERP No. D-COE-K36084-CA, Rating EO2, Lower San Joaquin River and Tributaries Flood Control, Channel Clearing and Modification, CA. **SUMMARY:** The EPA review identified potentially significant impacts to riparian habitat, fish, wildlife and water quality. EPA recommended mitigation to alleviate these potential impacts.

ERP No. RD-NOA-A91053-00, Rating LO, Taking of Marine Mammals Associated With Tuna Purse Seining Operations, 1986 Amendments to Regulations. **SUMMARY:** EPA has reviewed the DEIS and has no comment.

Final EISs

ERP No. F-AFS-F61009-MI, Manistee River Wild and Scenic Area Study, Designation, Manistee Nat'l Forest, MI. **SUMMARY:** EPA's review of the FEIS did not identify any significant environmental impacts requiring changes to the proposed project.

ERP No. FS-BLM-L65039-OR, Josephine and Jackson-Klamath Sustained Yield Units, Ten-Year Timber Mgmt. Plan, OR. **SUMMARY:** EPA made no formal comments. EPA reviewed the FEIS and has no objection to implementation of the preferred alternative as proposed.

ERP No. F-BLM-L65092-ID, Medicine Lodge Resource Area, Resource Mgmt. Plan, ID. **SUMMARY:** EPA made no formal comment. EPA reviewed the FEIS and found it to be satisfactory.

ERP No. F-COE-K30014-HI, Hilo Bayfront Beach Shoreline Improvements Study, HI. **SUMMARY:** The FEIS addresses the concerns EPA raised on the DEIS and adequately assesses the environmental impact of the proposed action.

ERP No. F-FHW-D40153-PA, Exton Bypass Linkage, Coatesville Downington Bypass, and US 202, Construction, PA.

SUMMARY: EPA recommended further study and reevaluation of the selected alternative due to the adverse wetland

Allowable Overdepth Removal and Advance Maintenance, Lake Borgne

September 3, 1985, Published FR 4-19-85—Review extended.

designated area. Public Assistance will be limited to damage resulting from major fires as defined by the Federal

DATE: Plans Received: July 12, 1985.

FEDERAL MARITIME COMMISSION

SUMMARY: EPA recommended further study and reevaluation of the selected alternative due to the adverse wetland impacts. EPA prefers the widen US 30 alternative. The selected alternative must also be reevaluated in consideration of Sec. 404 guidelines.

ERP No. F-FHW-K40144-CA, I-80 At-Grade Access Closure, Pedrick Road and Putah Creek, Construction, CA. **SUMMARY:** The FEIS addressed the concerns EPA raised on the DEIS.

ERP No. F-NRC-C06011-NY, Nine Mile Point Nuclear Station Unit 2, Operating License, Lake Ontario, NY. **SUMMARY:** The FEIS adequately responded to EPA's DEIS comments regarding potential impacts relating to groundwater, air quality, and human health. Radiological aspects were addressed in the FEIS and EPA concurs that the project will not adversely affect the environment. Thus, EPA lacks objections to the issuance of a license to operate this facility. EPA will review the Final Safety Analysis Report to assess NRC's information concerning groundwater aspects of the project.

ERP No. F-SFW-L64029-AK, Izembek Nat'l Wildlife Refuge, Mgmt. and Comprehensive Conservation Plan and Wilderness Review, AK. **SUMMARY:** EPA made no formal comment. EPA reviewed the FEIS and has no objection to implementation of the preferred alternative as proposed.

ERP No. F-UMT-L54002-WA, Downtown Seattle Transit Project, WA. **SUMMARY:** EPA made no formal comment. EPA reviewed the FEIS and found it to be satisfactory and responsive to comments.

Dated: July 23, 1985.

BILLING CODE 6560-50-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-739-DR]

California; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of California (FEMA-739-DR), dated July 18, 1985, and related determinations.

DATE: July 18, 1985.

FOR FURTHER INFORMATION CONTACT: Sewall H.E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 646-3616.

Notice

Notice is hereby given that, in a letter of July 18, 1985 the President declared a major disaster under the authority of the Disaster Relief Act of 1974, as amended (42 U.S.C. 5121 *et seq.*, Pub. L. 93-288), as follows:

I have determined that the damage in certain areas of the State of California resulting from grass, wildlands, and forest fires beginning on or about June 26, 1985, is of sufficient severity and magnitude to warrant a major-disaster declaration under Pub. L. 93-288. I therefore declare that such a major disaster exists in the State of California.

In order to provide Federal assistance, you are hereby authorized to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under Pub. L. 93-288 for Public Assistance will be limited to 75 percent of total eligible costs in the designated area. Public Assistance will be limited to damage resulting from major fires as defined by the Federal Emergency Management Agency.

Pursuant to section 408(b) of Pub. L. 93-288, you are authorized to advance to the State its 25 percent share of the Individual and Family Grant program, to be repaid to the United States by the State when it is able to do so.

The time period prescribed for the implementation of section 313(a), priority to certain applications for public facility and public housing assistance, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management Agency under Executive Order 12148, and redelegated to me, I hereby appoint Mr. Tommie C. Hamner of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following areas of the State of California to have been affected adversely by this declared major disaster:

City of Los Angeles and the Counties of Monterey, San Diego, San Luis Obispo, Santa Clara, Santa Cruz, and Ventura for Individual Assistance and Public Assistance.

Public Assistance will be provided as authorized by the President's declaration.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Samuel W. Speck,

Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.

BILLING CODE 6718-02-M

[Docket: FEMA-REP-4TN-2]

Tennessee Multi-Jurisdictional Emergency Response Plan for Watts Bar Nuclear Plant

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of Receipt of Plan.

SUMMARY: For continued operation of nuclear power plants, the Nuclear Regulatory Commission requires approved licensee and State and local governments' radiological emergency response plans. Since FEMA has a responsibility for reviewing the State and local government plans, the State of Tennessee has submitted its radiological emergency plan to the FEMA Regional Office. These plans support nuclear power plants which impact on Tennessee and include those of local governments near the Tennessee Valley Authority's Watts Bar Nuclear Plant located in Rhea County, Tennessee.

DATE: Plans Received: July 12, 1985.

FOR FURTHER INFORMATION CONTACT: Mr. Major P. May, Regional Director, FEMA Region IV, 1371 Peachtree Street, NE, Atlanta, Georgia 30309, (404) 881-2400.

Notice

In support of the Federal requirement for emergency response plans, FEMA has a Rule describing its procedures for review and approval of State and local government's radiological emergency response plans. Pursuant to this FEMA Rule (44 CFR Part 350.8), "Review and Approval of State Radiological Emergency Plans and Preparedness," **Federal Register**, Volume 48, Number 189, page 44338, the *Tennessee Multi-Jurisdictional Emergency Response Plan For Watts Bar Nuclear Plant* was received by the Federal Emergency Management Agency Region IV Office.

Included are plans for local governments which are wholly or partially within the pluma exposure pathway emergency planning zone of the nuclear plant. For the Watts Bar Nuclear Plant plans are included for McMinn, Meigs and Rhea Counties.

Copies of the Plan are available for review at the FEMA Region IV office, or they will be made available upon request in accordance with the fee schedule for FEMA Freedom of Information Act requests, as set out in subpart C of 44 CFR Part 5. There are 884 pages in the document; reproduction fees are $.10 a page payable with the request for copy.

Comments on the Plan may be submitted in wrting to Mr. Major P. May, Regional Director, at the above address within thirty days of this **Federal Register** notice.

FEMA Rule 44 CFR 350.10 also calls for a public meeting prior to approval of the plan. Details of this meeting were announced at least two weeks prior to the scheduled meeting and local radio and television stations were requested to announce the meeting. The required public meeting was held on October 30, 1984, at 7:00 p.m. at the Meigs County High School in Decatur, Tennessee. The meeting was announced in the *Daily Post—Athenian*, Athens, Tennessee, the *Dayton Herald*, Dayton, Tennessee, and the *Monroe County Advocate*, Sweetwater, Tennessee.

Dated: July 19, 1985.

Major P. May,

Regional Director.

FEDERAL MARITIME COMMISSION

Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 202-000150-078.

Title: Trans-Pacific Freight Conference of Japan/Korea.

Parties:
American President Lines, Ltd.
Barber Blue Sea Line
Hapag-Lloyd AG
Japan Line, Ltd.
Kawaski Kisen Kaisha, Ltd.
Lykes Bros. Steamship Co., Inc.
Mitsui O.S.K. Lines, Ltd.

FEDERAL RESERVE SYSTEM

Green Mountain Financial Services Corp., et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than August 15, 1985.

A. **Federal Reserve Bank of Boston** (Richard E. Randall, Vice President) 600 Atlantic Avenue, Boston, Massachusetts 02106:

1. *Green Mountain Financial Services Corporation*, Wilmington, Delaware; to acquire 20.83 percent of the voting shares of The Green Mountain Bank, Winhall Township (Bondville), Vermont.

B. **Federal Reserve Bank of New York** (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Commercial Bancshares, Inc.*, Jersey City, New Jersey; to acquire 100 percent of the voting shares of Lenape State Bank, West Deptford, New Jersey.

2. *Rock Financial Corporation*, North Plainfield, New Jersey; to become a bank holding company by acquiring 100 percent of the voting shares of North Plainfield State Bank, North Plainfield, New Jersey.

C. **Federal Reserve Bank of Cleveland** (Lee S. Adams, Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101:

1. *The Notional Bancorp of Kentucky, Inc.*, Lexington, Kentucky; to become a bank holding company by acquiring 100 percent of the voting shares of The National Bank of Cynthiana, Cynthiana, Kentucky, and The First National Bank of Falmouth, Falmouth, Kentucky.

D. **Federal Reserve Bank of Richmond** (Lloyd W. Bostian, Jr., Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. *Century Bancshares, Inc.*, Washington, D.C.; to become a bank holding company by acquiring 100 percent of the voting shares of Century National Bank, Washington, D.C.

E. **Federal Reserve Bank of St. Louis** (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *People First Corporation*, Paducah, Kentucky; to acquire 100 percent of the voting shares of First Liberty Bank of Calvert City, Calvert City, Kentucky.

Board of Governors of the Federal Reserve System, July 22, 1985.

James McAfee,

Associate Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Department of Health and Human Services (HHS) publishes a list of information collection packages it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). The following are those packages submitted to OMB since the last list was published on July 19, 1985.

Health Care Financing Administration

Subject: Early Periodic Screening Diagnostic and Treatment Report—HCFA-420—Revision (0938-0291)

Respondents: State/local government

Subject: Provider Overpayment Report—HCFA-481—Existing Collection

Respondents: Businesses or other for-profit, non-profit institutions

Subject: Survey of Self-Insured Health Plans—HCFA-475—Revision (0938-0389)

Respondents: Businesses or other for-profit, non-profit institutions, small businesses or organizations

Subject: Peer Review Organization Semiannual Resources Allocation Report—HCFA-515—New

Respondents: Businesses or other for-profit institutions

Subject: Medicaid Management Information System Conditions of Approval and Reapproval and Procedures for Reductions of Federal Financial Participation 42 CFR 433.112, 433.116, and 433.117—HCFA-R-82—New

Respondents: State/local governments

OMB Desk Officer: Fay S. Iudicello

Social Security Administration

Subject: Claimant's Statement when Request for Hearing is Filed and the Issue is Disability—HA-4486—Extension (0960-0316)

Respondents: Individuals

OMB Desk Officer: Judy A. McIntosh

Copies of the above information collection clearance packages can be obtained by calling the HHS Reports Clearance Officer on 202-245-6511.

Written comments and recommendations for the proposed information collections should be sent directly to the appropriate OMB Desk Officer designated above at the following address: OMB Reports Management Branch, New Executive Office Building, Room 3208, Washington, D.C. 20503. Attn: (name of OMB Desk Officer).

Dated: July 22, 1985.

K. Jacqueline Holz,

Deputy Assistant Secretary for Management Analysis and Systems.

BILLING CODE 4150-04-M

Food and Drug Administration

[Docket No. 85E-0268]

Determination of Regulatory Review Period for Purposes of Patent Extension; Lupron Injection

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has determined the regulatory review period for the human drug product, Lupron Injection, and is publishing this notice of that determination as required by law. FDA has made the determination because of the submission of an application to the Commissioner of Patents and Trademarks, Department of Commerce, for the extension of a patient which claims that human drug product.

ADDRESS: Written comments and petitions should be directed to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: James C. Shehan, Office of Health Affairs (HFY-20), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-1382.

SUPPLEMENTARY INFORMATION: The Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. L. 98-417) generally provides that a patent may be extended for a period of up to 5 years so long as the patented item (human drug product, medical device, food additive, or color additive) was subject to regulatory review by FDA before the item was marketed. Under that act, a product's regulatory review period forms the basis for determining the amount of extension an applicant may receive.

A regulatory review period consists of two periods of time: a testing phase and an approval phase. For human drug products, the testing phase begins when the exemption to permit the clinical investigations of the drug becomes effective and runs until the approval phase begins. The approval phase starts with the initial submission of an application to market the human drug product and continues until FDA grants permission to market the drug product. Although only a portion of a regulatory review period may count toward the actual amount of extension that the Commissioner of Patents and Trademarks may award (for example, half the testing phase must be subtracted as well as any time that may have occurred before the patent was issued), FDA's determination of the length of a regulatory review period for a human drug product will include all of the testing phase and approval phase as specified in 35 U.S.C. 156(g)(1)(B).

FDA recently approved for marketing the human drug product Lupron Injection, an injectable preparation of leuprolide acetate, which is indicated for the palliative treatment of advanced prostatic cancer in certain patients.

Based on the recent approval of Lupron Injectable, Abbott Laboratories applied for patent term restoration. FDA has determined that the applicable regulatory review period for Lupron Injection is 3,088 days. Of this time, 2,619 days were spent in the testing phase and 469 days were spent in the approval phase. These periods of time were derived from the following information.

1. *The date on exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act became effective: October 27, 1976.* The applicant claimed September 23, 1976, as the date that commenced the testing phase. FDA received the exemption application on September 27, 1976. The exemption became effective, under FDA regulations (21 CFR 312.1(b)(4)), on October 27, 1976, 30 days after receipt of the claimed investigational exemption.

2. *The date the new drug application was initiolly submitted with respect to the human drug product under section 505(b) of the Federal Food, Drug, and Cosmetic Act: December 28, 1983.* The applicant claimed April 15, 1983, as the date which commenced the approval phase. Only a presubmission of data was received by the agency at that time. The full application for new drug approval was received on December 28, 1983.

3. *The date the opplicotion wos opproved: April 9, 1985.* FDA has verified that the application (NDA 19-010) was approved on April 9, 1985.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the U.S. Patent and Trademark Office applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 730 days of patent extension.

Anyone with knowledge that any of the dates as published is incorrect may, on or before September 24, 1985, submit to the Dockets Management Branch (address above) written comments and ask for a redetermination. Furthermore, any interested person may petition FDA, on or before January 20, 1986, for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must contain sufficient facts to merit an FDA investigation (See H. Rept. 857, Part 1, 98th Cong., 2nd Sess., pp. 41-42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Comments and petitions should be submitted to the Dockets Management Branch (address above) in three copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. Comments and petitions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: July 24, 1985.

Kenneth Flieger,

Acting Associate Commissioner for Health Affairs.

[FR Doc. 85-17887 Filed 7-25-85; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 85D-0312]

Labeling of Surimi-Based Seafood Products; Availability of Policy

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces the labeling policy for processed and/or blended seafood (surimi) products. This policy is stated in FDA Compliance Policy Guide 7108.16.

ADDRESS: Requests for single copies of FDA Compliance Policy Guide 7108.16 should be submitted to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Raymond E. Newberry, Center for Food Safety and Applied Nutrition (HFF-314), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202-485-0232.

SUPPLEMENTARY INFORMATION: FDA has been aware of an expanding trade in surimi-based seafood products in recent years. Some of these products are made to resemble and are promoted as substitutes for crabmeat, shrimp, lobster, scallops, and other natural seafoods. The labeling of these seafood products is of great concern not only to FDA but also to the National Marine Fisheries Service and the marine trade associations. Therefore, FDA, with the cooperation of all the interested parties, has developed a policy which addresses the acceptable labeling of surimi-based seafood products.

Surimi is a fish product which consists of minced fish meat (usually pollock)

5. The labeling of surimi-based products may contain a statement that

on August 14 and 15, 1985 from 9:30 am-4:30 pm and from 9:30 am-12:00 pm

Bureau of Land Management

The involved State lands within the

decision to exchange, are available for

Surimi is a fish product which consists of minced fish meat (usually pollock) which has been washed to remove fat and undesirable matter (such as blood, pigment, and odorous substances) and then mixed with cryoprotectants, such as sugar and or sorbitol, to ensure good frozen shelflife. Surimi may be blended with additional ingredients and additives (natural shellfish meat, shellfish flavoring, salt, water, etc.) and heat processed into fibrous, flaked, chunked, or composite-molded consumer products. These consumer products may or may not resemble specific types of seafood or seafood body parts and may or may not be frozen and/or breaded.

FDA is offering guidance as to the proper labeling for surimi-based seafood products in its issuance of Compliance Policy Guide 7108.16, which states the agency's policy as follows:

1. If the surimi-based product purports to be or is represented as any specific type of natural seafood, including shape or form representations, but is nutritionally inferior to that seafood, it must be labeled as imitation in accordance with 21 CFR 101.3. To date, FDA has not encountered any surimi-based product in which nutritional equivalency with a given seafood has been achieved.

2. An additional statement of product identity must appear on the principal display panel, such as "A Blend of Fish with _____." The blank is to be filled in with the common or usual name of the ingredient or component, such as "snow crab". Because the fish used in the surimi base has been decharacterized, the word "fish" is adequate for the statement of product identity. If an artificial flavor or color is added, the label must comply with 21 CFR 101.22.

3. The specific names of all seafoods used in the product must appear in the ingredient statement in descending order of predominance ("pollock" must be used rather than "white fish"; "snow crab" rather than "crab"). All other ingredients present must also be declared in descending order of predominance.

Note.—The intermediate surimi product usually contains sugar and/or sorbitol and phosphate compounds as cryoprotectants. These should be listed in the ingredient statement unless removed during the manufacturing process.

4. Products that are not purported or represented to be a specific type of seafood (or seafood body part) need not be labeled "imitation" and may lawfully be marketed, provided that the label properly reflects their composition.

5. The labeling of surimi-based products may contain a statement that the products may be used in recipes in place of natural seafood products. The statement should be general, such as "use like crabmeat, lobster, or shrimp in all seafood recipes."

Background information supporting this labeling policy is on file in the Dockets Management Branch (address above). Requests for single copies of FDA Compliance Policy Guide 7108.16 should reference the docket number found in brackets in the heading of this document and should be submitted in writing to the Dockets Management Branch.

Dated: July 22, 1985.

Marvin H. Shumate,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 85-17734 Filed 7-25-85; 8:45 am]

BILLING CODE 4160-01-M

Office of Human Development Services

Federal Council on the Aging; Meeting

Agency Holding the Meeting: Federal Council on the Aging.

Time and Date: The Federal Council on the Aging (FCA) is holding its August meeting in conjunction with the National Training Conference of the National Association of Area Agencies on Aging and the National Association of State Units on aging. The FCA regular business meeting will occur on August 14, from 9:30 am–12:30 pm, followed by a forum on the "Future of Health Care for Older Americans," from 2:00 pm–4:30 pm. The FCA will reconvene on August 15 from 9:30 am–12:00 pm for Committee meetings, followed by adjournment.

Place: Sheraton Washington Hotel, Warren Room, 2660 Woodley Road NW., Washington, DC 20008.

Status: The FCA portion of this meeting, to be held in the Warren Room, is open to the public.

Contact Persons: James Conroy/Rita Lowry, Room 4243, HHS North Building, 245–2451 for further information and clarification.

The Federal Council on the aging was established by the 1973 Amendments to the Older Americans Act of 1965 (P.L. 93–29, 42 U.S.C. 3015) for the purpose of advising the President, the Secretary of Health and Human Services, the Commissioner on Aging and the Congress on matters relating to the special needs of older Americans.

Notice is hereby given pursuant to the Federal Advisory Committee Act (Pub. L. 92–453, 5 U.S.C. App. 1, Sec. 10, 1976) that the Council will conduct a meeting on August 14 and 15, 1985 from 9:30 am–4:30 pm and from 9:30 am–12:00 pm respectively at the Sheraton Washington Hotel, Warren Room, 2660 Woodley Road, NW, Washington, DC.

The agenda will include a forum on "The Future of Health Care for Older Americans," with a panel comprised of "presenters" and "reactors" from the American Enterprise Institute, the American Association of Retired Persons, the American Medical Association, the Health Care Financing Administration, and aging network representatives (area agency director, state aging director, ombudsman, and an advisory council member), and will also include the FCA's regularly scheduled business and Committee meetings.

Dated: July 17, 1985.

Adelaide Attard,

Chairperson, Federal Council on the Aging.

BILLING CODE 4130-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Peregrine Falcon; Emergency Exemption; Issuance

On July 16, 1985, a letter waiving the 30-day public comment period was issued to Mr. Bruce Haak, Eagle, Idaho (ref: PRT 696909), authorizing emergency action to enhance the survival of one male peregrine falcon (*Falco p. peregrinus*). This waiver was granted to allow the re-export of one peregrine falcon which was to be destroyed by the U.S. Department of Agriculture unless re-exported, because although it tested negatively for Newcastle's disease, it had been quarantined with birds that tested positively. The bird will be quarantined at Dubai Wildlife Research, Dubai, U.A.E., for 90 days.

It was determined by the U.S. Fish and Wildlife Service that an emergency does in fact exist, that the health and life of the falcon is threatened and that no reasonable alternative to the proposed action is available to the applicant.

This emergency waiver is provided in accordance with the Endangered Species Act of 1973, as amended Pub. L. 94–359 (90 Stat. 911).

Dated: July 19, 1985.

R.K. Robinson,

Chief, Branch of Permits Federal Wildlife Permit Office.

T. 5 S., R. 31 E.

The involved public lands within the townships described above comprise 3,069.45 acres, more or less, in Greenlee County.

Selected Public Lands—Hackberry Group

Gila and Salt River Meridian, Arizona

T. 8 S., R. 29 E.
T. 9 S., R. 29 E.
T. 10 S., R. 29 E.
T. 8 S., R. 30 E.
T. 9 S., R. 30 E.
T. 10 S., R. 30 E.
T. 9 S., R. 31 E.
T. 10 S., R. 31 E.
T. 11 S., R. 31 E.

The involved public lands within the townships described above comprise 184 acres, more or less, in Greenlee County and 24,087.27 acres, more or less, in Graham County.

In exchange, the State of Arizona has offered lands in the following described townships to the United States.

Offered State Lands—Gila Box Group

Gila and Salt River Meridian, Arizona

T. 6 S., R. 28 E.
T. 5 S., R. 29 E.
T. 5 S., R. 30 E.

The involved State lands within the townships described above comprise 4,536.05 acres, more or less, in Greenlee County.

Offered State Lands—Hackberry Group

Gila and Salt River Meridian, Arizona

T. 7 S., R. 27 E.
T. 8 S., R. 27 E.
T. 9 S., R. 27 E.
T. 7 S., R. 28 E.
T. 8 S., R. 28 E.

T. 10 S., R. 28 E.
T. 7 S., R. 29 E.
T. 8 S., R. 29 E.
T. 9 S., R. 29 E.

The involved State lands within the townships described above comprise 23,618.36 acres, more or less, in Graham County.

The above identified non-federal lands are being acquired to enhance resource management programs and continue the land tenure adjustment program prescribed in the land use plan. The overall exchange program will block up Federal and State-owned lands and consolidate ownership and management with the predominant land holder for the areas involved. The public interests will be well served.

The values of the lands to be exchanged are approximately equal and the acreages will be adjusted to equalize values upon completion of the final appraisal of the lands.

Patents for the public lands, when issued shall contain the following reservations:

1. A reservation to the United States of a right-of-way for ditches or canals constructed by the authority of the United States under the Act of August 30, 1890 (26 Stat. 391; 43 U.S.C. 945).

2. A reservation to the United States of a right-of-way granted to the Arizona Department of Transportation under serial number PHX–080452 for a highway under the authority of the Act of November 9, 1921 (42 Stat. 212), affecting the NW¼NE¼SW¼, Section 6, T. 5 S., R. 30 E.

The public lands shall also be patented subject to all valid existing rights and the terms and conditions of the authorized uses.

The State lands, when conveyed to the United States, will be subject to such terms and conditions as are necessary to protect the permittees and lessees. The permittee/lessee will be able to either continue his/her use under the existing terms of the State's authorization or may be issued a new authorization by the Bureau of Land Management.

DATE: For a period of 45 days from date of publication in the **Federal Register** interested parties may submit comments to the Safford District Manager, 425 E. 4th Street, Safford, Arizona 85546. Any adverse comments will be evaluated by the State Director, who may sustain, vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

SUPPLEMENTARY INFORMATION: Detailed information concerning the exchange including the land use plan supporting this exchange and the environmental considerations reviewed in making this decision to exchange, are available for review at the Safford District Office.

Dated: July 19, 1985.

Lester K. Rosenkrance,

District Manager.

BILLING CODE 4310-32-M

[CA 16396]

Realty Action; Exchange of Public Lands in San Diego County, CA

AGENCY: Bureau of Land Management, Interior.

ACTION: Realty Action-Exchange of Public Lands, CA 16396.

SUMMARY: The following described public lands have been determined to be suitable for disposal by exchange under section 206 of the Federal Land Policy and Management Act of October 21, 1976 (43 U.S.C. 1716):

T. 8 S., R. 4 W., SBM.,
Sec. 32: W½SE¼
Containing 80.00 acres.

In exchange, the Federal Government will acquire non-Federal land in San Diego County from Mr. Jack Stone, 5722 Skylark Place, La Jolla, California 92037. These lands are described as follows:

T. 18 S., R. 2 E., SBM.,
Sec. 7: SE¼
Sec. 17: NW¼NE¼, N½NE¼
Sec. 18: lot 1, N½NE¼, NE¼NW¼
Containing 441.11 acres ±.

The purpose of this exchange is to obtain non-Federal lands for use in Federal programs. This exchange conforms with the Southern California Metropolitan Project's Escondido Management Framework Plan/ Management Action Summary. The public interest will be well served by making this exchange. The values of the lands exchanged are approximately equal and the acreage will be adjusted and/or money will be used to equalize values upon completion of the final appraisal of the lands.

The terms and conditions applicable to this exchange are:

1. The non-Federal lands involve an exchange of the surface estate only; all minerals, together with the right to prospect for, mine and remove the minerals are already vested in the United States.

2. The Federal lands involve an exchange of the surface estate and the mineral estate; excepting geothermal resources, together with the right to prospect for, develop and utilize geothermal resources pursuant to the

Geothermal Steam Act of 1970 (84 Stat. 1566; 30 U.S.C. 101–1025).

Interior Department Desk Officer, Washington, D.C. 20503, telephone (202)

1st Qtr. _____
2nd Qtr. _____

SUMMARY: Notice is hereby given that Conoco Inc. has submitted a DOCD

Cameron Area, offshore Louisiana. Proposed plans for the above area

Dated: July 16, 1985.

Geothermal Steam Act of 1970 (84 Stat. 1566; 30 U.S.C. 101–1025).

3. The Federal lands will have a reservation to the United States of a right-of-way for ditches or canals constructed by authority of the United States under the Act of August 30, 1890 (43 U.S.C. 945).

The publication of this notice in the **Federal Register** shall segregate the public lands described herein from all other forms of appropriation and entry under the public land laws and the mining laws for a period of two years. The exchange is expected to be consummated before the end of that period.

Detailed information concerning this exchange, including the planning documents, environmental assessment and the land report is available for review at the Bureau of Land Management's California Desert District Office, 1695 Spruce Street, Riverside, California 92507.

The publication date of this notice will commence the 45 days comment period. For a period of 45 days after publication of this notice in the **Federal Register**, interested parties may submit comments to the District Manager, California Desert District, 1695 Spruce Street, Riverside, California 92507. Any adverse comments will be evaluated by the State Director, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

Dated: July 12, 1985.

Wes Chambers,

Acting District Manager.

Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed collection of information and related forms and explanatory material may be obtained by contacting the Bureau's clearance officer at the phone number listed below. Comments and suggestions on the requirement should be made within 30 days directly to the Office of Management and Budget Interior Department Desk Officer, Washington, D.C. 20503, telephone (202) 395–7313; with copies to Mr. David A. Schuenke; Chief, Branch of Rules, Orders, and Standards; Offshore Rules and Operations Division; Mail Stop 646, Room 6A110; Minerals Management Service; 12203 Sunrise Valley Drive; Reston, Virginia 22091.

Title: Projected Maximum Attainable Rate (MAR) of OCS Oil and Gas Production for Significant OCS Fields

Abstract: Respondents are required to provide to the Minerals Management Service (MMS) oil and gas production information and projections of future production rates. This information is used by MMS to determine the maximum attainable rate of production of crude oil and natural gas from significant OCS fields. This information is reported to Congress biennially.

Bureau Form Number: Form MMS–2013 (see attachment)

Frequency: Biennially

Description of Respondents: Lessees which operate significant fields on the Federal Outer Continental Shelf.

Annual Responses: 75

Annual Burden Hours: 900

Bureau Clearance Officer: Dorothy Christopher, (703) 435–6214

Dated: April 17, 1984.

Outer Continental Shelf; Development Operations Coordination Document; Conoco Inc.

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the Receipt of a Proposed Development Operations Coordination Document (DOCD).

SUMMARY: Notice is hereby given that Conoco Inc. has submitted a DOCD describing the activities it proposes to conduct on Lease OCS 0487, Block 119, Vermilion Area, offshore Louisiana. Proposed plans for the above area provide for the development and production of hydrocarbons with support activities to be conducted from onshore bases located at Cameron and Morgan City, Louisiana.

DATE: The subject was deemed submitted on July 15, 1985.

ADDRESSES: A copy of the subject DOCD is available for public review at the Office of the Regional Director, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana (Office Hours: 9 a.m. to 3:30 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: Ms. Angie Gobert; Minerals Management Service; Gulf of Mexico OCS Region; Rules and Production; Plans, Platform and Pipeline Section; Exploration/Development Plans Unit; Phone (504) 838–0876.

SUPPLEMENTARY INFORMATION: The purpose of this notice is to inform the public, pursuant to section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the DOCD and that it is available for public review.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected states, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in revised § 250.34 of Title 30 of the CFR.

Dated: July 17, 1985.

Scientific Committee of the Outer Continental Shelf (OCS) Advisory Board; Notice and Agenda of Meeting

This Notice is issued in accordance with the provisions of the Federal Advisory Committee Act, Pub. L. 92–463, 5 U.S.C. Appendix I, and the Office of Management and Budget's Circular A–63 Revised.

The Scientific Committee of the OCS Advisory Board will meet on August 13 and 14, 1985, in the Conference Room (Room 602), Alaska Region, 949 East 36th Avenue, Anchorage, Alaska 99508.

The Scientific Committee will meet during the period 8:30 a.m. to 5 p.m. on both days.

Agenda for the meeting will include the following subjects:

- Environmental Studies Issues Related to Exploration, Development, and Production Activities;
- The Alaska Region Socioeconomic Studies Program; and
- Scientific Data and Information Exchange Between Industry and Federal Agencies.

The meeting of this committee is open to the public. Approximately 20 visitors can be accommodated on a first-come/first-served basis. All inquires concerning this meeting should be addressed to: Dr. Don Aurand, Chief, Branch of Environmental Studies (644), Minerals Management Service, Room 2528, U.S. Department of the Interior, 18th & C Streets, NW., Washington, DC 20240; telephone: (202) 343–7744.

Dated: July 19, 1985.

BILLING CODE 4310–MR–M

Bureau of Reclamation

Quarterly Status Tabulation of Water Service and Repayment Contract Negotiations; Notice of Proposed Contractual Actions Pending Through September 1985

Pursuant to section 226 of the Reclamation Reform Act of 1982 (96 Stat. 1273), and to § 426.20 of the rules and regulations published in the Federal Register December 6, 1983, Vol. 48, page 54785, the Bureau of Reclamation will publish notice of proposed or amendatory repayment contract actions or any contract for the delivery of irrigation water in newspapers of general circulation in the affected area at least 60 days prior to contract execution. The Bureau of Reclamation announcements of irrigation contract actions will be published in newspapers of general circulation in the areas determined by the Bureau of Reclamation to be affected by the proposed action. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation requirements do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. The Secretary or the district may invite the public to observe any contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act if the Bureau determines that the contract action may or will have "significant" environmental effects.

Pursuant to the "Final Revised Public Participation Procedures" for water service and repayment contract negotiations, published in the Federal Register February 22, 1982, Vol. 47, page 7763, a tabulation is provided below of all proposed contractual actions in each of the seven Reclamation regions. Each proposed action listed is, or is expected to be, in some stage of the contract negotiation process during July, August, or September of 1985. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the Regional Directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved. The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the addresses and telephone numbers given for each region.

This notice is one of a variety of means being used to inform the public about proposed contractual actions. Individual notice of intent to negotiate, and other appropriate announcements, are made in the Federal Register for those actions found to have widespread public interest. When this is the case, the date of publication is given.

1. Boise Cascade Corporation, Columbia Basin Project, Washington; Industrial water service contract; 250 acre-feet; FR notice published April 7, 1980, Vol. 45, page 23531.

2. Five IDs, Boise Project, Idaho-Oregon; Irrigation repayment contract; 22,800 acre-feet of stored water in Arrowrock Reservoir.

3. Brewster Flat ID, Chief Joseph Dam Project, Washington; Amendatory repayment contract; Land reclassification of approximately 360 acres to irrigable; Repayment obligation to increase by $189,000.

4. Individual irrigators, M&I, and miscellaneous water users, Pacific Northwest Region, Idaho, Oregon and Washington; Temporary (interim) water service contracts for surplus project water for irrigation or M&I use to provide up to 10,000 acre-feet of water annually for terms up to 5 years; Long-term contracts for similar service for up to 1,000 acre-feet of water annually.

5. Rogue River Basin water users, Rogue River Basin Project, Oregon; Water service contracts; $5 per acre-foot or $20 minimum per annum, not to exceed 320 acres or 1,000 acre-feet of water per contractor for terms up to 40 years.

6. Willamette Basin water users, Willamette Basin Project, Oregon; Water service contracts; $1.25 per acre-foot or $20 minimum per annum, not to exceed 320 acres or 1,000 acre-feet of water annually per contractor for terms up to 40 years.

7. Fifty-three Palisades Reservoir Spaceholders, Minidoka Project, Idaho-Wyoming; Contract amendments to extend term for which contract water may be subleased to other parties.

8. Cascade Reservoir water users, Boise Project, Idaho; Irrigation repayment contracts; 57,251 acre-feet of stored water in Cascade Reservoir.

9. Boise Water Corporation, Boise Project, Idaho; Short-term (2 years) M&I water service contract; up to 5,000 acre-feet annually from stored water in Lucky Peak Reservoir.

10. Thirty-two Jackson Lake Dam Spaceholders, Minidoka Project, Idaho-Wyoming; Repayment of costs associated with Safety-of-Dams modifications to Jackson Lake Dam.

11. ID's and similar water user entities; Amendatory repayment and water service contracts; Purpose is to conform to the Reclamation Reform Act of 1982 (Pub. L. 97–293).

12. Greater Wenatchee ID, Chief Joseph Dam Project, Washington; SRPA loan repayment contract; $6,576,000 proposed obligation.

Mid-Pacific Region: Bureau of Reclamation, (Federal Office Building) 2800 Cottage Way, Sacramento, CA 95825, telephone (916) 484–4680.

1. 2047 Drain Water Users Association, CVP, California; Water right settlement contract; FR notice published July 25, 1979, Vol. 44, Page 43535.

2. Tuolumne Regional Water District, CVP, California; Water service contract; 3,200 acre-feet from New Melones Reservoir.

3. Calaveras County Water District, CVP, California; Water service contract; 500 acre-feet from New Melones Reservoir; FR notice published February 5, 1982, Vol. 47, page 5473.

4. Individual irrigators, M&I, and miscellaneous water users, Mid-Pacific Region, California, Oregon, and Nevada; Temporary (interim) water service contracts for surplus project water for irrigation or M&I use to provide up to 10,000 acre-feet of water annually for terms up to 5 years; Temporary Warren Act contracts to wheel nonproject water through project facilities for terms up to 1 year; Long-term contracts for similar service for up to 1,000 acre-feet of water annually.

5. Pacheco Water District, CVP, California; Amendatory water service contract providing for a change in point of delivery from Delta-Mendota Canal to the San Luis Canal.

6. El Dorado ID, Sly Park Unit, CVP, California; D&MC contract to allow the District to accomplish the construction work with the remaining funds from the distribution system contract, and amend the Unit 4 portion of its existing repayment contract to pay interest on actual M&I use.

7. South San Joaquin ID and Oakdale ID, CVP, California; Operating agreement for conjunctive operation of New Melones Dam and Reservoir on the Stanislaus River; FR notice published June 6, 1979, Vol. 44, page 32483.

8. San Luis Water District, CVP, California; Amendatory water service contract providing for a change in point of delivery from Delta-Mendota Canal to the San Luis Canal.

9. Mid-Valley Water Authority, CVP, California; Temporary water supplies up to 100,000 acre-feet.

10. Solano ID, Solano Project, California; Amendatory loan repayment contract providing for reconveyance and M&I water supply delivery.

11. City of Avenal, CVP, California; Amendment of existing water service contract to provide for furnishing project power to city canalside relift facilities and change the point of diversion.

12. Yuba County Water Agency, South County Irrigation Project, SRPA, California; Loan repayment contract, $18,500,000 proposed obligation.

13. ID's and similar water user entities; Amendatory repayment and water service contracts, including the amending of approximately 24 SRPA contracts; Purpose is to conform to the Reclamation Reform Act of 1982 (Pub. L. 97–293).

14. United Water Conservation District, SRPA, California; Loan

repayment contract, $18,730,000 proposed obligation.

15. State of Hawaii, Molokai Project

Colorado; Water service contract; 9,200 acre-feet per year for M&I use; 72,200

District. Final proposed contract drafts available.

11. Rancho California Water District, Temecula, California; Contract for the

6. ID's and similar water user entities; Amendatory repayment and water

5. Green Mountain Reservoir, Colorado River Storage Project;

repayment contract, $18,730,000 proposed obligation.

15. State of Hawaii, Molokai Project, SRPA; Contract amendment to provide for use of facilities for M&I purposes.

16. Shasta Dam Area Public Utility District, CVP, California; Amendatory water service contract providing for increased M&I use to the district.

17. State of California, CVP, California; contract(s) for, (1) sale of interim water to the Department of Water Resources for use by the State Water Project Contractors, and (2) acquisition of conveyance capacity in the California Aqueduct for use by the CVP, as contemplated in the current draft of the Coordinated Operations Agreement.

18. Pixley ID, SRPA, California; Loan repayment contract, $12,300,000 proposed obligation.

19. Century Ranch Water Company, Inc., CVP, California; Orland exchange, M&I, and water right settlement contract.

20. Kaiser Development Company, CVP, California; Sacramento River water right contract; Suspension of agricultural contract and execution of M&I contract.

21. Madera ID, Madera Canal, CVP, California; Warren Act contract to convey and/or store nonproject Soquel water through project facilities.

22. Hills Valley ID, CVP, California; Amendatory water service contract, additional 400 acre-feet.

23. Tri-Valley Water District, CVP, California; Amendatory water service contract, additional 160 acre-feet.

24. County of Tulare, CVP, California; Amendatory water service contract, additional 1,908 acre-feet.

Upper Colorado Region: Bureau of Reclamation, P.O. Box 11568 (125 South State Street), Salt Lake City, UT 84147, telephone (801) 524–5495.

1. Individual irrigators, M&I, and miscellaneous water users, Upper Colorado Region, Utah, Wyoming, Colorado, and New Mexico; Temporary (interim) water service contracts for surplus project water for irrigation or M&I use to provide up to 10,000 acre-feet of water annually for terms up to 5 years; Long-term contracts for similar service for up to 1,000 acre-feet of water annually.

2. M&I water users, Navajo Unit, CRSP, New Mexico; Negotiate or amend long term contracts for M&I water with current long term and short term contractors or new contractors pursuant to Section II of P.L. 87–483 and Hydrologic Determination dated January 29, 1985.

3. Animas-La Plata Conservancy District, Animas-La Plata Project, Colorado; Water service contract; 9,200 acre-feet per year for M&I use; 72,200 acre-feet per year for irrigation.

4. La Plata Conservancy District, Animas-La Plata Project, New Mexico; Water service contract; 16,000 acre-feet per year for irrigation.

5. City of Farmington, Animas-La Plata Project, New Mexico; M&I water service contract; 19,700 acre-feet per year.

6. City of Aztec, Animas-La Plata, Project, New Mexico; M&I water service contract; 5,800 acre-feet per year

7. City of Bloomfield, Animas-La Plata Project, New Mexico; M&I water service contract; 5,300 acre-feet per year.

8. Central Utah Project, Bonneville Unit, Utah; Supplemental M&I repayment contract for 94,100 acre-feet per year; FR notice published August 22, 1980, Vol. 45, No. 165, page 56199. Final proposed draft contract available.

9. Central Utah Project, Bonneville Unit, Utah; $34,000,000 D&MC Contract—Duchesne River Area Canals rehabilitation to meet 1987 construction commitment. Repayment covered under executed repayment contract and by CRSP power revenues.

10. Dorchester Coal Company, Blue Mesa Reservoir, Colorado, Colorado River Storage Project; M&I water service contract, 400 acre-feet per year, for 40 years.

11. South Weber Water Improvement District, Weber Basin Project, Utah; Amendatory SRPA contract to extend payout period from 21 years to 40 years.

12. State of Wyoming, Seedskadee Project, Wyoming; Contract for repayment of reimbursable cost associated with the modification of Fontenelle Dam pursuant to the Reclamation Safety of Dams Amendments of 1984 (Pub. L. 98–404).

13. Miscellaneous water users, Upper Colorado Region, Blue Mesa Reservoir, Colorado River Storage Project, Colorado, M&I uses, 20-acre feet and less for 20-40 years.

14. ID's and similar water user entities; Amendatory repayment and water service contracts; Purpose is to conform to the Reclamation Reform Act of 1982 (Pub. L. 97–293).

15. M&I water users, Navajo Unit, Colorado River Storage Project, New Mexico; Negotiable repayment of reimbursable costs associated with the modification of Navajo Dam pursuant to the Reclamation Safety of Dam Act Amendment of 1984 (Pub. L. 98–404).

16. Bonneville Unit, Central Utah Project, Utah; Two repayment contracts for repayment of Jordan Aqueduct with Salt Lake County Water Conservancy District and the Metropolitan Water District. Final proposed contract drafts available.

17. Upper Yampa Water Conservancy District, Colorado; Repayment contract to repay a loan of $4,478,000 for the construction of Stagecoach Dam and Reservoir pursuant to the SRPA of 1956, Pub. L. 48–984, as amended.

18. Weber Basin Water Conservancy District, Weber Basin Project, Utah; Emergency Loan, Repair of A.V. Watkins Dam Embankment, $2,800,000.

Lower Colorado Region: Bureau of Reclamation, P.O. Box 427 (Nevada Highway and Park Street), Boulder City, NV 89005, telephone (702) 293–8536.

1. Wellton-Mohawk Irrigation and Drainage District, Gila Project, Arizona; Amendatory D&MC contract for improvement of the Gila River within the district's boundaries; $6,000,000 of Federal funds to be utilized on a nonreimbursable basis pursuant to Pub. L. 98–396, August 21, 1984.

2. Agricultural and M&I water users, CAP, Arizona; Water service subcontracts; A certain percent of available supply for irrigation entities and up to 640,000 acre-feet per year for M&I use.

3. Elsinore Valley Municipal Water District, Elsinore, California; Contract for the repayment of a $7,158,000 SRPA loan.

4. Agricultural and M&I water users, CAP, Arizona; Contracts for repayment of Federal expenditures for construction of distribution systems.

5. Contracts with 5 agricultural entities located near the Colorado River in Arizona, Boulder Canyon Project; Water service contracts for up to 1,920 acre-feet per year total.

6. Gila River Indian Community, CAP, Arizona; Water service contract; Contract for delivery of up to 173,100 acre-feet per year.

7. Yuma-Mesa IDD, North Gila Valley ID, and Yuma ID, Gila Project, Arizona; Amendatory and supplemental contracts to conform to the provisions of Pub. L. 98–530.

8. Hillander "C" ID, Colorado River Basin Salinity Control Project, Yuma, Arizona; 5-year contract for 4,000 acre-feet per year from the Protective and Regulatory Pumping Unit.

9. Sunset Mobile Home Park, Boulder Canyon Project, Arizona; M&I water service contract for delivery of 30 acre-feet of water per year pursuant to recommendation of Arizona Department of Water Resources.

10. ID's and similar water user entities; Amendatory repayment and water service contracts; Purpose is to conform to the Reclamation Reform Act of 1982 (Pub. L. 97–293).

11. Rancho California Water District, Temecula, California; Contract for the repayment of a $20,940,000 SRPA loan.

12. Ak-Chin Indian Community, Maricopa, Arizona; Supplemental contract in accordance with the provisions of Pub. L. 98–530.

13. City of Needles, Needles, California; Contract for up to 10,000 acre-feet per year of surplus water from the Colorado River, permanent contract to be activated only during periods when surplus flows are available.

14. Gila River Indian Community, Arizona; Contract for the repayment of a $6,574,000 SRPA loan.

15. Lakeview City, Incorporated; Water delivery contract for up to 400 acre-feet per year from the Colorado River for M&I use; Contains provisions for increasing delivery up to 1,309 acre-feet to serve future development upon recommendation of the State of Arizona.

16. Water delivery contracts with the State of Arizona, the Bureau of Land Management, and several private entities which are in the process of being organized for a yet undetermined amount of Colorado River Water for M&I use. The purpose of these contracts is to afford legal status to various noncontractual water users within the State of Arizona.

17. Contract with the State of Arizona for a yet undetermined amount of Colorado River water for agricultural use and related purposes on State-owned land.

Southwest Region: Bureau of Reclamation, Commerce Building, Suite 201, 714 South Tyler, Amarillo, TX 79101, telephone (806) 378–5430.

1. Fort Cobb Reservoir Master Conservancy District, Washita Basin Project, Oklahoma; Amendatory repayment contract to convert 4,700 acre-feet of irrigation water to M&I use.

2. Foss Reservoir Master Conservancy District, Washita Basin Project, Oklahoma; Amendatory repayment contract for remedial work.

3. Vermejo Conservancy District, Vermejo Project, New Mexico; Amendatory contract to relieve the district of further repayment obligation, presently exceeding $2 million, pursuant to Pub. L. 96–550.

4. Lavaca-Navidad River Authority, Palmetto Bend Project, Texas; Amendatory repayment contract to provide for increased payment for recreation.

5. Hidalgo County Irrigation District No. 1, Lower Rio Grande Valley, Texas; Supplemental SRPA loan contract for approximately $13,205,000. The contracting process is dependent upon final approval of the supplemental loan report.

6. ID's and similar water user entities; Amendatory repayment and water service contracts; Purpose is to conform with the Reclamation Reform Act of 1982 (Pub. L. 97–293).

Upper Missouri Region: Bureau of Reclamation, P.O. Box 2553, Federal Building, 316 North 26th Street, Billings, Montana 59103, Telephone (406) 657–6413.

1. Individual irrigators, M&I, and miscellaneous water users, Upper Missouri Region, Montana, Wyoming, North Dakota, and South Dakota; Temporary (interim) water service contracts for surplus project water for irrigation or M&I use to provide up to 10,000 acre-feet of water annually for terms up to 5 years; Long-term contracts for similar service for up to 1,000 acre-feet of water annually.

2. Nokota Company, Lake Sakakawea, P–SMBP, North Dakota; Industrial water service contract; Up to 16,800 acre-feet of water annually; FR notice published May 5, 1982, Vol. 47, Page 19472.

3. Fort Shaw ID, Sun River Project, Montana; R&B loan repayment contract; Up to $1.5 million.

4. ID's and similar water user entities; Amendatory repayment and water service contracts; Purpose is to conform to the Reclamation Reform Act of 1982 (Pub. L. 97–293).

5. Oahe Unit, P–SMBP, South Dakota, Cancellation of master contract and participating and security contracts in accordance with Pub. L. 97–273 with South Dakota Board of Water and Natrural Resources Spink County and West Brown Irrigation Districts.

6. Owl Creek ID, Owl Creek Unit, P–SMBP, Wyoming; Amendatory water service contract to reflect water supply benefits being received from Anchor Reservoir.

Lower Missouri Region: Bureau of Reclamation, P.O. Box 25247 (Building 20, Denver Federal Center), Denver, Colorado 80225, telephone (303) 234–3327.

1. Almena ID No. 5, Almena Unit, P–SMBP, Kansas; Deferment of repayment obligation for 1985.

2. Purgatoire River Water Conservancy District, Trinidad Project, Colorado; Amendatory repayment contract for extension of the development period and revision of the repayment determination methodology.

3. Corn Creek ID, New Grattan Ditch Company, Earl Michael, Glendo Unit, P–SMBP, Wyoming, and Nebraska; Irrigation water service contracts.

4. Webster ID NO. 4, Webster Unit, P–SMBP, Kansas; Irrigation water service and repayment contract amendment to adjust payment due to reduced water supply, $970,816 outstanding.

5. Green Mountain Reservoir, Colorado-Big Thompson Project; Proposed contract negotiations for sale of water from the marketable yield to water users within the Colorado River drainage of western Colorado.

6. Individual irrigators, M&I, and miscellaneous water users, Lower Missouri Region, Southeastern Wyoming, Colorado, Nebraska, and northern Kansas; Temporary (interim) water service contracts for surplus project water for irrigation or M&I use to provide up to 10,000 acre-feet of water annually for terms up to 5 years; Long-term contracts for similar service for up to 1,000 acre-feet of water annually.

7. Ruedi Reservoir, Fryingpan-Arkansas Project, Colorado; Second round of proposed contract negotiations for sale of water from the regulatory capacity of Ruedi Reservoir.

8. ID's and similar water user entities; Amendatory repayment and water service contracts; Purpose is to conform to the Reclamation Reform Act of 1982 (Pub. L. 97–293).

9. Lower South Platte Water Conservancy District, Central Colorado Water Conservancy District, and the Colorado Water Resources and Power Development Authority, P-SMBP, Narrows Unit, Colorado; Water service contracts for repayment of costs and cost sharing agreement.

10. Kirwin ID No. 1, Kirwin Unit, P-SMBP, Kansas; Deferment of repayment obligation for 1985.

11. Kirwin ID No. 1, Kirwin Unit, P-SMBP, Kansas; Irrigation water service and repayment contract and Emergency Drought Act loan contract amendment to adjust payments due to reduced water supply, $866,231 outstanding.

12. Cedar Bluff ID No. 6, Cedar Bluff Unit, P-SMBP, Kansas; Deferment of repayment obligation for 1985.

13. Webster ID No. 4, Webster Unit, P-SMBP, Kansas; Deferment of repayment obigation for 1985.

14. Fryingpan-Arkansas Project, Colorado; East Slope Storage system consisting of Pueblo, Twin Lakes, and Turquoise Reservoir; Contract negotiations for long term storage contracts.

15. Twin Loups Reclamation District, P-SMBP, D&MC contract and a sole source contract for correction of initial construction deficiencies and monitoring during initial filling, priming and puddling activities of the project. Proposed contracts are to be $500,000 and $1,439,000, respectively.

16. Farwell Irrigation District, Nebraska; Request for D&MC contract for the correction of drainage and seep area on the project.

VOL 50 ISS 144 JL 26 1985 UMI

VOL 50 ISS 144 JL 26 1985 UMI

Opportunity for public participation and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

(1) Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

(2) Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of the Bureau of Reclamation.

(3) All written correspondence regarding proposed contracts will be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act (80 Stat. 383), as amended.

(4) Written comments on a proposed contract or contract action must be submitted to the appropriate Bureau of Reclamation officials at locations and within time limits set forth in the advance public notices.

(5) All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

(6) Copies of specific proposed contracts may be obtained from the appropriate Regional Director or his designated public contact as they become available for review and comment.

(7) In the event modifications are made in the form of proposed contract, the appropriate Regional Director shall determine whether republication of the notice and/or extension of the 60-day comment period is necessary.

Factors which shall be considered in making such a termination shall include, but are not limited to: (i) The significance of the impact(s) of the modification and (ii) the public interest which as been expressed over the course of the negotiations. As a minimum, the Regional Director shall furnish revised contracts to all parties which requested the contract in response to the initial public notice.

Dated: July 22, 1985.

Robert A. Olson,

Acting Commissioner of Reclamation.

BILLING CODE 7035-01-M

[Finance Docket No. 30681]

Railroad Exemption; Consolidated Rail Corp.; Trackage Rights; Missouri Pacific Railroad Co.

Missouri Pacific Railroad Company (MP) has agreed to grant overhead trackage rights to Consolidated Rail Corporation (Conrail) between St. Elmo, and east St. Elmo, IL, over a segment of MP's line described as follows:

Beginning at the MP-Conrail property line, point X, near Conrail's Milepost 154, 1, E. St. Elmo, IL, to the MP-Conrail property line, point Y, near Conrail's Milepost 157, 5, St. Elmo, IL, a distance of approximately 3.4 miles.

The trackage rights will be effective July 14, 1985, or on such later date as MP and Conrail agree to, as evidenced by an exchange of letters.

This notice is filed under 49 CFR 1180.2(d)(7). Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction.

Dated: July 16, 1985.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Manufacturer of Controlled Substances; McNeilab Inc.; Registration

By Notice dated May 16, 1985, and published in the Federal Register on May 23, 1985; (50 FR 21373), McNeilab Inc., DBA First State Chemical Company Inc., 803 East Fourth Street, Wilmington, Delaware 19801, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of the basic classes of controlled substances listed below:

Drug and Schedule

Codeine (9050)—II
Oxycodone (9143)—II
Morphine (9300)—II
Thebaine (9333)—II

No comments or objections have been received. Therefore, pursuant to section 303 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 and Title 21, Code of Federal Regulations, § 1301.54(e), the Deputy Assistant Administrator hereby orders that the application submitted by the above firm for registration as a bulk manufacturer of the basic classes of controlled substances listed above is granted.

Dated July 18, 1985.

Gene R. Haislip,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

[FR Doc. 85-17765 Filed 7-25-85; 8:45 am]

BILLING CODE 4410-09-M

Medicine Shoppe; Revocation of Registration

On April 3, 1985, the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration (DEA) issued an Order to Show Cause to Medicine Shoppe of 206 Donelson Pike, Donelson, Tennessee 37214 (Respondent) proposing to revoke its DEA Certificate of Registration AM5562524. The proposed action was predicated on the conviction of Daniel C. Dickson, R.Ph., the owner and managing pharmacist of Respondent pharmacy, of four counts of felonies relating to controlled substances. A further basis for the proposed action was the material falsification of the renewal applications for registration of the Medicine Shoppe submitted in December 1981, 1982, 1983 and 1984, in which Mr. Dickson indicated that neither the applicant nor any officer, shareholder, partner or proprietor of the pharmacy had been convicted of a felony offense relating to controlled substances.

In a letter dated April 9, 1985, Mr. Dickson specifically waived Respondent's opportunity for a hearing and instead filed a written statement regarding his position on the matters of fact and law involved. 21 CFR 1301.54(c). The Acting Administrator has considered the entire investigation file in this matter, including Respondent's written statement, and hereby issues this final order based upon findings of fact and conclusions of law as hereinafter set forth.

The Acting Administrator finds that during 1980 and 1981, the Tennessee Bureau of Investigation Narcotics Division made numerous undercover purchases of controlled substances from Daniel Dickson, the owner and managing pharmacist of Respondent pharmacy. The controlled substances purchased included phentermine, propoxyphene and diazepam, all Schedule IV controlled substances, and a codeine combination product, which was a Schedule III controlled substance. Mr. Dickson dispensed these drugs without the authorization of a physician. On one occasion, Mr. Dickson stated that he had contacted the prescribing physician for authorization to refill a certain prescription. However, it was ascertained that no telephone calls had been received at the physician's office from Mr. Dickson.

On July 22, 1981, the Davidson County Grand Jury returned a 92 count indictment against Daniel Dickson charging him with dispensing controlled substances without authorization of a practitioner. On September 10, 1981, Dickson pled guilty to four counts of the 92 count indictment. These are felony offenses relating to controlled substances. DEA has consistently held that the registration of a corporate registrant may be revoked upon a finding that a natural person who is an owner, officer or key employee, or who has some responsibility for the operation of the registrant's controlled substance business, has been convicted of a felony offense relating to controlled substances. *Leonard S. Cohen, t/a Senate Drug Store,* Docket No. 72-5, 38 FR 9522 (1973); *Big-T Pharmacy, Inc.,* Docket No. 80-34, 47 FR 51830 (1982); *K & B Successors, Inc.,* Docket No. 82-15, 49 FR 34588 (1984). Therefore, there is a lawful basis for the revocation of Respondent's registration. 21 U.S.C. 824(a)(2).

The Acting Administrator finds an additional ground for revoking Respondent's DEA registration under 21 U.S.C. 824(a)(1) in that Daniel Dickson materially falsified the renewal applications for registration of Respondent pharmacy submitted in December 1981, 1982, 1983 and 1984. On each application, Mr. Dickson indicated a negative response to the question, "Has the applicant been convicted of a felony in connection with controlled substances under the state or federal law?"

In his letter dated April 19, 1985, responding to the Order to Show Cause, Mr. Dickson attempted to explain the material falsification of the applications by stating that his failures to indicate he was convicted of a controlled substance-related felony were "stupid errors." The Acting Administrator finds it difficult to believe that Mr. Dickson could have carelessly forgotten his felony convictions for four consecutive years.

The Administrator of DEA is charged with protecting the public from the illicit diversion of controlled substances. The Acting Administrator is not convinced Mr. Dickson will not continue his illegal practices. His failure to disclose his prior conviction indicates that he is not to be trusted.

Accordingly, having concluded that there is a lawful basis for the revocation of Respondent's registration, and having further concluded that under the facts and circumstances of this case the registration should be revoked, the Acting Administrator of the Drug Enforcement Administration, pursuant to the authority vested in him by 21 U.S.C. 824 and 28 CFR 0.100(b), hereby orders that DEA Certificate of Registration AM5562524, previously issued to Medicine Shoppe, be, and it hereby is revoked August 26, 1985.

Dated: July 22, 1985.

John C. Lawn,

Acting Administrator.

National Study of Law Enforcement Agencies' Policies and Practices Regarding Missing Children and Homeless Youth

Correction

In FR Doc. 85-17654, beginning on page 30312 in the issue of Thursday, July 25, 1985, make the following correction:

On page 30314, in the third column, the following text should appear between the paragraph designated "6." and the line "a. Runaways.":

Claims of extreme variation in law enforcement agencies' reactions to any particular revision they are interested in.

3,500 responses, 1,167 hours, 1 form

requires that when a certified WIN registrant refuses to participate in WIN, are identified in the Appendix to this notice. Upon receipt of these petitions Assistance, at the address shown below, not later than (August 5, 1985.)

Claims of extreme variation in law enforcement agencies' reactions to reports of missing children have been made with little documentation of actual practices. To date, no such national survey has been conducted of law enforcement's role in the identification, location and recovery of missing children. The first phase of the study should inform us about the extent to which varying definitions, case classification, record keeping procedures, etc., affect our ability to use official police reports as indicators of the national incidence of children reported missing and, to what extent various practices may impede or facilitate the process of recovery of missing children under varying circumstances.

The results of this survey and other information will be used to formulate the sampling strategy for the second phase of the study.

B. Phase II: Onsite Interviews with Personnel from up to 100 Law Enforcement: Agencies.

1. To verify responses from the mailed questionnaire obtained in Phase I;

2. To collect more detailed information from selected jurisdictions on actual investigative practices utilized by law enforcement agencies in responding to reports of missing children, with particular attention to the following types of reported cases:

DEPARTMENT OF LABOR

Office of the Secretary

Agency Forms Under Review by the Office of Management and Budget (OMB)

Background

The Department of Labor, in carrying out its responsibility under the Paperwork Reduction Act (44 U.S.C. Chapter 35), considers comments on the proposed forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

On each Tuesday and/or Friday, as necessary, the Department of Labor will publish a list of the Agency forms under review by the Office of Management and Budget (OMB) since the last list was published. The list will have all entries grouped into new collections, revisions, extensions, or reinstatements. The Departmental Clearance Officer will, upon request, be able to advise members of the public of the nature of any particular revision they are interested in.

Each entry will contain the following information:

The Agency of the Department issuing this form
The title of the form.
The OMB and Agency form numbers, if applicable.
How often the form must be filled out.
Who will be required to or asked to report.
Whether small businesses or organizations are affected.
An estimate of the number of responses.
An estimate of the total number of hours needed to fill out the form.
The number of forms in the request for approval.
An abstract describing the need for and uses of the information collection.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained by calling the Departmental Clearance Officer, Paul E. Larson, Telephone 202–523–6331. Comments and questions about the items on this list should be directed to Mr. Larson, Office of Information Management, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N 1301, Washington, D.C. 20210. Comments should also be sent to the OMB reviewer, Nancy Wentzler, Telephone 202–395–6880, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3208, NEOB, Washington, D.C. 20503.

Any member of the public who wants to comment on a form which has been submitted to OMB should advise Mr. Larson of this intent at the earliest possible date.

New

Bureau of Labor Statistics
CES Response Analysis Survey (RAS)
One-time survey
Nonagricultural establishments
655 responses; 175 hours; 1 form

The CES survey is one of the primary sources of employment, payroll, and hours information for the economy, with over 200,000 establishments providing payroll information each month. The RAS continues the Bureau's efforts to periodically review the payroll records of respondents to better match available records with CES definitions to improve data quality.

Mine Safety and Health Administration
A Demographic Survey of the Mining Industry Population
Nonrecurring
Businesses or other for-profit; small businesses or organizations
3,500 responses; 1,167 hours; 1 form

The survey will collect data from the mining industry and produce information on the population characteristics (e.g., job experience, job training, education) of the Nation's mine workers. This information will be used to improve accident data analysis, to improve and expand mine health and safety research, and to customize training and safety programs for specifically identified demographic sectors of the mining industry population.

Departmental Management, Women's Bureau
Women's Bureau Region III Women Veterans' Job Information Packet Evaluation Form
On occasion
Individuals or Households
2,174 responses; 435 hours; 1 form

The information will be used to make decisions about the content of the Women's Bureau Region III Women Veterans' Job Information Packet, the cost-effectiveness of a national distribution of the packet and the most effective dissemination strategy for the information. Affected public: recently discharged women veterans.

Revision

Employment Standards Administration
Homeworker Handbooks
1215–0013; WH–75, WH–75a
On occasion
Individuals or households; Businesses or other for-profit;
Non-profit institutions; Small businesses or organizations
11,250 responses; 22,500 hours; 2 handbooks

Homeworker handbooks provide information on hours worked and wages paid to homeworkers covered by the Fair Labor Standards Act. The handbooks are used to help insure that such workers receive the minimum and overtime wages to which they are entitled. The new WH–75a covers homeworkers in the knitted outerwear industry only.

Extension

Employment and Training Administration
Notice of Intended Deregistration
1205–0175; ETA RC 42
On occasion
Individuals or households
1,458 respondents; 18,225 hours; no forms

The Notice of Intended Deregistration is needed for consistency with due process as expressed by U.S. Supreme Court in Goldberg vs. Kelly. The Law requires that when a certified WIN registrant refuses to participate in WIN, either (1) notify the welfare agency to remove AFDC benefits or (2) allow the registrant to request a hearing.

Signed at Washington, D.C., this 23rd day of July, 1985.

Paul E. Larson,

Departmental Clearance Officer.

BILLING CODE 4510-27/4510-43

Employment and Training Administration

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance; Amaconda Minerals Co., et al.

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearings, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than (August 5, 1985.).

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 5, 1985.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 22nd day of July 1985.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

Office of Pension and Welfare Benefit Programs

[Application No. D–4124 et al.]

Proposed Exemptions; Crawford Fitting Co. et al.

AGENCY: Pension and Welfare Benefit Programs, Labor.

ACTION: Notice of Proposed Exemptions.

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemptions, unless otherwise stated in the Notice of Pendency, within 45 days from the date of publication of this Federal Register Notice. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. Attention: Application No. stated in each Notice of Pendency. The applications for exemption and the comments received will be available for public inspection in the Public

Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200

Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C. 20216.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of pendency of the exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of pendency are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

Crawford Fitting Company Profit Sharing Trust and the Associated Profit Sharing Trusts of Several Related Corporations (the Crawford Plans) Located in Cleveland, Ohio

[Application No. D-4124]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set fortyh in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of sections 406(a), 406 (b)(1) and (b)(2) and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply: (1) To those leases of certain manufacturing equipment (the Equipment) between the Crawford Plans and the Crawford Fitting Company and several related employers (the Crawford Companies) that were entered into prior to June 1, 1980, and to the renewals of such leases (including renewals of leases previously covered by section 414(c) of the Act that were extended beyond June 30, 1984), to the extent that any such lease, when entered into, did not cause the affected plan to have more than 25 percent of its assets committed to such transactions; (2) effective April 9, 1975, to the purchase from and subsequent leaseback to the Toner Company (Toner) of certain real estate (the Property) by the Crawford Fitting Company Profit Sharing Trust (the CFC Trust); and (3) prospectively, to the cash sale of the Equipment and the Property by the respective Crawford Plans (which term includes the CFC Trust) to selected members of the Crawford Companies within 90 days of the grant of this proposed exemption, provided that, at all times, the amounts received by the Crawford Plans in the above described transactions represent(ed) no less than the fair market value at the time of such transactions.

Effective Dates: If the proposed exemption is granted, it will be effective January 1, 1975 with respect to the lease of the Equipment; April 9, 1975 with respect to the purchase and leaseback of the Property; and from the date of the grant of the exemption for the cash sale of the Equipment and the Property.

Summary of Facts and Representations

1. The application was submitted on behalf of the Crawford Companies which constitute a group of twenty corporations acting in concert with one another.[1] The Crawford Companies are the net result of a business enterprise which was initiated in 1947 by Fred A. Lennon (Lennon). Presently at least 50 percent of the stock of all but four of the Crawford Companies is owned singularly by Lennon or in combination by Lennon and various members of his family.[2] The Crawford Companies include five separately incorporated domestic manufacturing companies and two foreign affiliates. To supply these companies with various back-up services including the manufacturing of specialized parts, a number of additional entities were either developed or acquired. Both the manufacturing companies and their supplier affiliates utilize the Equipment in developing their respective products. The Equipment consists of screw machines which are used to shape metal bars or tubing and are employed in a wide variety of manufacturing procedures. Products manufactued by the above referenced entities are then sold to separately incorporated regional warehouses which, in turn, sell the products to independent local distributors.

2. Each of the respective corporate entities which make up the Crawford Companies has adopted a profit sharing plan qualified under section 401(a) of the Code. The Crawford Plans range in size from 8 to 348 participants. The assets of each of the Crawford Plans are currently managed by the Midwest Bank and Trust Company (Midwest) as trustee; however, the assets are not commingled for investment purposes. Midwest is a local financial institution having full investment discretion over the assets of the Crawford Plans. Neither Lennon nor any member of his family is an officer or director of Midwest. Lennon and an officer of one of the affiliated companies, F.J. Callahan (Callahan), had a combined minority stock interest in Midwest of approximately 8.75 percent on January 1, 1975. This combined minority stock interest increased to approximately 14 percent by 1982 although neither party owned 10 percent. The applicants represent that this stock ownership interest by Lennon and Callahan had a "*de minimus*" effect on operating policies of Midwest, and that they had no ability to influence the decision of Midwest in its capacity as fiduciary for the Crawford Plans. The inability of Lennon and Callahan to influence decisions of Midwest was evidenced by a decision of the Midwest Board of Directors in 1982 to approve the sale of Midwest's stock to another financial institution in the face of opposition by Lennon and Callahan which at one point was elevated to a threat of litigation to

[1] The entities which comprise the Crawford Companies include: Alfred Machine Co., Atlantic Co., Cajon Co., Central Swagelok Co., Colony Tool Co., Crawford Fitting Co., Eastern Swagelok Co., Falon Co., Impaction Co., Kenmore Research Co., Nupro Co., Pritchard Products Co., Snow Metal Products Co., Southern Swagelok Co., Swagelok Co., Toner Co., Western Swagelok Co., Whitney Co., Whitney Research Tool Co., Zalo Manufacturing Co.

[2] The applicant represents that four of the Crawford Companies are not parties in interest with respect to the employee benefit plans sponsored by the other member employers of the group. These companies are Alfred Machine Co., Atlantic Co., Snow Metal Products Co. and Whitney Research Tool Co. The applicant has reviewed the party in interest provisions and represents that no prohibited transaction exists with respect to any lease of the Equipment involving these companies except in the one situation where Atlantic Co. leased a piece of Equipment from the profit sharing plan which it sponsors. Accordingly, for purposes of the relief provided by this exemption the term "Crawford Companies" should not be read as including the above named companies with the limited exception of the one lease involving the Atlantic Co.

block the sale. The controlling stock interest resided with Raymond Rossman (Rossman), Chairman of the Board of Directors and Chief Executive Officer of Midwest and the Catholic Diocese of Cleveland, whose combined holdings exceeded 60 percent of the voting stock during the period of the subject transactions. Between 1970 and 1982, Callahan was a member of the Board of Directors of Midwest although he was not involved, on behalf of Midwest, in any of the transactions which are the subject of the exemption request. Additionally, the nine other members of Midwest's Board of Directors were unrelated either directly or indirectly to Lennon or Callahan. Over the years the Crawford Companies have used MIdwest, as well as other local financial institutions, to satisfy occasional short-term financing needs. These loans have always been repaid in strict accordance with their terms. At no time did the total percentage of outstanding loans to the Crawford Companies represent more than one percent of the outstanding commercial loans made by Midwest.

The documents implementing each of the Crawford Plans provided for the appointment of an advisory committee (the Committee (s)) comprised of senior officials of the respective Crawford Companies. The Committees are provided with the authority to construe the provisions of the applicable plan and trust documents and provide basic administrative functions. In addition, by the terms of the respective plans' trust agreements, the Committees have the power to require Midwest to seek prior approval of any specified type of investment which Midwest would otherwise choose to acquire for any of the Crawford Plans. The applicant states that the Committees have never taken any action to initiate the requirement that Midwest seek prior review in connection with the investment decision making process. Midwest represents that it has never considered the existence of this provision as compromising its unfettered flexibility to make investment decisions. Accordingly, Midwest has served, since the inception of the trust arrangement, with no active restriction on its investment discretion.

3. Midwest assumed its duties as trustee for the Crawford Plans in 1970. At that time, discussions between Midwest, principals of the Crawford Companies and members of the Committees for the respective profit sharing plans, resulted in an understanding that Midwest would consider investing assets of the Crawford Plans in the Equipment. After purchase by one of the Crawford Plans, the Equipment would then be leased to a particular employer of the Crawford Companies.[3]

This type of Equipment (screw machines) has a long useful life and it is not uncommon for a forty (40) year old machine to still be in service. As a result of these meetings, Rossman initiated his own study to determine the feasibility of effectuating such an investment program. Rossman personally interviewed representatives of National Acme (Acme), an unrelated manufacturing company for similar types of equipment, to obtain an understanding of the normal characteristics of equipment leases and obtained copies of the standardized lease forms utilized in the operation of their leasing program. Midwest then drafted its own lease document which implemented the terms and conditions utilized by Acme. Once Midwest had determined that such an investment program was in the interests of the participants in the Crawford Plans and that one of the Crawford Plans contained adequate liquidity that it did not wish to invest in Treasury Bills or other securities, Midwest contacted representatives of the Crawford Companies. Such inquiry was to ascertain whether any of the Crawford Companies were desirous of acquiring an additional piece of the Equipment. Midwest would then be sent information regarding the acquisition intentions of the Crawford Companies, including a list of the Equipment which such companies anticipated purchasing in the near future. Upon review, Midwest would approach the appropriate company and offer to have one of the Crawford Plans acquire the desired piece of equipment with the understanding that it would be immediately leased to such company. Midwest evaluated the terms of its standard lease document and made modifications, if necessary, to assure that each equipment lease satisfied the established standards for commercial reasonableness.

The leases were almost exclusively (90 percent) 5 years in term and provided for an annual rental payment equal to 24 percent of the purchase price of the particular piece of equipment purchased. At the expiration of the 5 year period such leases would be renewed at the option of the lessee on a year-to-year basis. The annual rent during the renewal period would be equal to 6 percent of the original purchase price. The leases involving the Equipment contained the following conditions considered to be safeguards for the Crawford Plans as lessors: (1) The Equipment shall remain the sole and exclusive property of the lessor plan and may not be transferred, delivered or sublet to any other person or corporation without the concurrence of the lessor plan; (2) the lessee shall be responsible at all times and at its own expense to maintain the Equipment in good and efficient working order and surrender the Equipment on expiration of the lease in such good order; (3) the lessee shall maintain, at its own expense, insurance for the actual value of the Equipment and pay all taxes and assessments which may be assessed against the Equipment; and (4) the lessee shall be prohibited from attaching the Equipment to any personal or real property without the prior approval of Midwest. Based on his positions on the Board of Directors of three machine tool manufacturers (unrelated to the Crawford Companies), Rossman had personal knowledge of the rate structure generally employed for similar equipment leases and utilized this expertise in determining that the rates which the Crawford Plans received equalled or exceeded normal commercial leasing rates.

4. Beginning in April of 1970 and continuing through August of 1981 the Crawford Plans acquired and leased a total of 209 machines to the Crawford Companies.[4] Of that number 138 were acquired and leased after January 1, 1975, the effective date of the fiduciary responsibility provisions of the Act. As a result of Midwest's intention to provide each of the Crawford Plans with a reasonably equivalent overall portfolio rate of return, several of the smaller plans developed substantial asset concentrations in equipment leases during some of the years involved. Rossman felt that such concentration did not violate the requirement for diversification because of his personal knowledge of the strong economic condition of the Crawford Companies and his experience in evaluating

[3] The purchase and leasing of the Equipment was represented as a good investment medium because of the longevity and rental income expectations normally associated with such equipment.

[4] The Department notes that a number of pieces of the Equipment were the subject of leases executed prior to July 1, 1974. The Department is not expressing an opinion whether such leases were covered under the transitional provisions of section 414(c) of the Act. Those leases satisfying the conditions contained therein require no relief until July 1, 1984; this notice, however, has the effect of proposing additioning relief for those transactions that extended beyond July 1, 1984 until the Equipment is sold.

equipment leasing transactions.[5] The Crawford Plans were in no way utilized as a device for effectuating the

the Crawford Companies, purchased the Property for $500,000 and immediately

program involving the leasing of the

Act. While this contact did not come

VOL 50 ISS 144 JL 26 1985 UMI

equipment leasing transactions.[5] The Crawford Plans were in no way utilized as a device for effectuating the acquisition of properties which the Crawford Companies could not otherwise afford. During the period in question the aggregate investment of the Crawford Plans in the Equipment represented less than 8.2 percent of the total value of equipment, machinery and other capital assets acquired by the Crawford Companies.

From the inception of the leasing arrangements involving the Equipment in 1970 to the present time, the Crawford Companies have abided by all of the terms of such leases, the Equipment has been kept in good working order and all monies due the Crawford Plans have been timely paid. There has been no instance when a Crawford Company has failed to renew a year-to-year lease on the Equipment which has been held for more than 5 years. Thus, none of the Crawford Plans has ever been in a position of having to dispose of a piece of the Equipment at the termination of a lease.

5. In early 1975, Rossman determined that the largest of the Crawford Plans, the CFC Trust, should diversify into the real estate market. Rossman identified the Property, a 3.95 acre parcel in Solon, Ohio, as suitable for purchase by the CFC Trust. While no appraisal of the Property was made, Rossman determined that a price of $500,000, an amount which was less than the purchase price paid by the then current owner of the Property, was fair market value based on his personal knowledge of real estate values for properties of comparable size and use within the same geographic area during this time period. Midwest had previously been a party to several real estate transactions in the subject area by virtue of having loaned mortgage money based on appraisals of certain real estate to be used as collateral for the mortgage loans. Rossman suggested that a more favorable price for the Property might be obtained if someone other than Midwest, as trustee for an unnamed client, approached the seller. Accordingly, it was decided that the principals of the Crawford Companies would negotiate the purchase of the Property. On April 9, 1975 Toner, one of the Crawford Companies, purchased the Property for $500,000 and immediately resold it to the CFC Trust for the same price. No commission was paid by the Plan in connection with the acquisition of the Property. The Property had been improved with an industrial building and an office wing which together contained approximately 27,0000 square feet of leasable space. On April 9, 1975, the office space (approximately 4,000 square feet) was leased to Falls Advertising Company (Falls), an unrelated party, on a 5 year net lease with an option for 5 additional years. The main shop area of the Property was leased on the same date to Toner under identical lease terms except Toner also agreed to pay all real estate taxes. In April of 1980 when the original 5 year leases expired, the CFC Trust continued to rent space in the Property to both Falls and Toner on a month-to-month basis.

Midwest was able to secure a rate of return on the Property equal to 14 percent of its acquisition cost at a time when a 12 percent return was considered market for similar types of property. Since its acquisition, the CFC Trust has had the Property reappraised several times and the rental terms have been modified so that the lease rate has at all times reflected a return of 14 percent of current appraised value.

6. The Committees, in overseeing the operation of the Crawford Plans, had always looked to Midwest and in-house counsel for confirmation that such plans were operated in conformance with applicable federal statutes. In May of 1980 a Federal banking audit identified a perceived prohibited transaction problem. However, transactions involving the leasing of the Equipment continued because of applicant decided to rely on the fact that representatives of the Department and the Internal Revenue Service (the IRS) were aware of the transactions based on audits conducted between 1978 and 1980 and had not objected to or suggested that the transactions represented violations of the prohibited transactions rules of the Act. The Crawford Companies, the Committees and Midwest claim no actual knowledge of the prohibited nature of the leasing transactions until May 27, 1981. On that date the Department formally notified the Committee of the CFC Trust of its position that the leasing transactions involving the Equipment and the Property constituted prohibited transactions. Upon being advised of these prohibited transactions, Midwest ceased engaging in additional leasing arrangements. However, since all of the lessees had a proven record of fulfilling their obligations and Midwest was concerned about the potential loss of a favorable income stream for the Plans, Midwest determined that it would not be in the best interests of the Crawford Plans to discontinue the existing leasing arrangements between the Crawford Plans and the Crawford Companies.

7. After reviewing the situation with Department representatives, the Committees, Midwest and the Crawford Companies developed a program that would serve as a basis for disentangling the Crawford Plans from the Crawford Companies through sales of the Equipment and the Property to such companies, and filed an application for exemption on January 18, 1983. The program calls for the obtaining of qualified independent appraisals for both the Property and the Equipment. All costs for such appraisals including commissions or other expenses incidental to the sale of the Equipment or the Property will be paid by parties other than the Crawford Plans.

It is the intention of the parties that once the fair market value of the Equipment is established, the Crawford Companies will purchase such for an amount which would equal the greater of (a) the current appraised value of the asset or (b) the book value for the asset as reflected on the financial records of the applicable profit-sharing plan. The applicant is aware that the IRS may characterize any payment which exceeds the appraised value of an asset as a form of indirect employer contribution. The applicant has reviewed the instances where such a differential may arise and compared the size of such differential to the covered payroll attributable to the profit-sharing plan in question. In each case, the recharacterization of the payment as a form of indirect contribution, coupled with the actual employer contributions fna forfeitures for the plan year would fall well within the limitations of section 415 of the Code. Mr. John Jelenic, President of Jelenic Machinery Company, was retained to appraise the Equipment. Mr. Jelenic has dealt in new and used automatic screw machines and the servicing of such equipment for 15 years. His appraisal, dated January 31, 1984, noted the current resale prices of each piece of Equipment owned by the Crawford Plans and its current book value as reflected on the financial records of the applicable profit-sharing plan. The appraisal for each piece of Equipment will be reviewed and updated prior to actual sale pursuant to this exemption, if granted. Mr. Jelenic is represented as being independent of and unrelated to any of the Crawford Companies, their principals or Midwest.

The Property which is currently owned by the CFC Trust and leased to Toner has also been appraised and will be sold for cash to one of the Crawford Companies. Mr. Stuart J. Satullo (Satullo), a senior member of the American Society of Appraisers, was retained to appraise the Property. Mr. Satullo determined that the market value of the Property as of January 23, 1984 was $735,000. The appraisal of the Property will be reviewed and updated prior to actual sale pursuant to this exemption, if granted. Mr. Satullo is represented as being independent of and unrelated to any of the Crawford Companies, their principals or Midwest.

These transactions would be effectuated within 90 days of the grant of this exemption request. Midwest, as the discretionary trustee for the Crawford Plans, has reviewed the terms of the proposed sales of the Equipment and the Property and has stated in writing that such transactions are appropriate and in the best interests of the participants and beneficiaries of the Crawford Plans (which term includes the CFC Trust).

8. In summary, the applicant represents that the statutory criteria contained in section 408(a) of the Act have been satisfied as follows:

(a) With respect to the retroactive leasing arrangements involving the Equipment—

(1) A bank trustee exercising its discretionary authority as a fiduciary, evaluated the investment program before the leasing arrangements commenced and determined it appropriate for the Crawford Plans. Such fiduciary also had decision making authority with respect to the Equipment to be purchased;

(2) The transactions between the Crawford Plans and the Crawford Companies commenced several years prior to the passage of the Act and constituted an established practice. These transactions were engaged in subsequent to January 1, 1975 with no actual knowledge of the prohibited nature of the leasing arrangements by either the Committees or Midwest;

(3) Midwest exercised its discretion over the leasing activities involving the Equipment in such a way as to ensure that the rates were competitive with leases of similar equipment by unrelated parties and that the terms of such leasing arrangements were protective of the lessors' interest in the Equipment; and

(4) Based on its contacts with the equipment manufacturing industry, Midwest believed that the investment program involving the leasing of the Equipment was protective and in the best interests of the participants and beneficiaries of the Crawford Plans.

(b) With respect to the retroactive purchase and leaseback of the Property—

(1) Based on its knowledge and experience in the real estate marketplace, Midwest determined that investment and leasing of improved real estate was appropriate for the CFC Trust;

(2) The price for the Property and the terms of the lease were approved by Rossman who determined the acquisition cost and lease terms to be fair market value and protective of the interests of the CFC Trust; and

(3) The Property was periodically appraised and the lease terms adjusted accordingly.

(c) With respect to the prospective program of disentanglement—

(1) It will be a one-time cash transaction which will provide the Crawford Plans with substantial liquidity for future investment;

(2) The sales of the Equipment and the Property will be for a price not less than fair market value as determined by qualified independent appraisers;

(3) All costs of appraisals, commissions, or other expenses incidental to the sales of the Equipment and the Property will be paid by parties other than the Crawford Plans; and

(4) Midwest has made a determination that such transaction would be in the interests of the Crawford Plans and their participants and beneficiaries.

Scope of Proposed Exemption

The applicants are seeking retroactive relief for all leasing transactions involving the Equipment and the Property. The applicants are also seeking prospective relief to permit the sale of the Equipment and the Property to the Crawford Companies. The Department has determined that, although significant safeguards appear to have existed, the proposal of retroactive relief is justified for only certain of the subject transactions. The Department offers the following as an explanation of the scope of proposed relief.

1. In reviewing the chronology of events for the subject leasing transactions, and upon considering the factors enunciated in ERISA Technical News Release No. 85–1 (issue January 22, 1985), it appears that as of May 1980, the applicants were put on notice as a result of a federal banking authority audit concerning the likelihood that the leasing transactions involving the Equipment represented violations of the Act. While this contact did not come from either the Department or the IRS, the agencies charged with primary enforcement responsibility of the Act, the advice should have caused the fiduciaries of the Crawford Plans to exercise due diligence in identifying the prohibited transactions and to take appropriate steps to seek an exemption or correct the transactions. Instead, the record suggests that such fiduciaries placed undue reliance on the failure of the Department or the IRS to object to the transactions as a basis for continuing the investment program of purchasing and leasing the Equipment. Accordingly, the Department is only proposing retroactive relief for transactions entered into between the effective date of the prohibited transaction provisions of the Act and May 31, 1980. The Department's proposal for retroactive relief would permit the continuation, including renewals, of leasing arrangements in effect on May 31, 1980. However, relief would not extend to any new leasing arrangements entered into after May 31, 1980 even though the Crawford Plans may have previously obligated themselves to purchase a piece of Equipment and tentatively agreed to a lease with one of the Crawford Companies. With respect to new leasing transactions involving the Equipment which occurred after May 31, 1980, the applicant represents that all applicable excise taxes will be paid within 90 days of the grant of this exemption.

2. The representations of the applicant indicate several of the Crawford Plans had substantial concentrations of assets committed to Equipment which was leased to the Crawford Companies. While it is apparent that Rossman wished to fairly allocate the income producing potential of the leases among all the Crawford Plans, and that the leasing program incorporated safeguards for the benefit of the lessor plans, the percentage of assets committed to these employer-related transactions by some of the Crawford Plans exceeded the tolerance level for diversification that has generally been applied by the Department in its consideration of individual exemption applications. Accordingly, the Department is only proposing relief to the extent that, when entered into, any lease involving the Equipment by any of the Crawford Plans did not cause the plan to have more than a total of 25 percent of its assets committed to such transactions. For purposes of applying this percentage ceiling, those leases that may have qualified for section 414(c) relief are to be aggregated with those

[5] The Department's authority to grant administrative relief under section 408(a) of the Act does not extend to the general standards of fiduciary conduct found in section 404(a)(1) of the Act. In particular, by this notice the Department makes no determination with respect to the requirement of section 404(a)(1)(C) that a fiduciary diversify the investments of the plan so as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so.

leasing arrangements involving the Equipment covered under the [illegible] Interests by the Plan to the Trustees. The [illegible] Code, by reason of section 4975(c)(1) (A)

Original Lease (the New Lease), [illegible] equivalent to those of an arm's-length [illegible] through (E) of the Code shall not apply

leasing arrangements involving the Equipment covered under the scope of this proposed exemption.

Baker, Lieberman & Filios, D.D.S., P.C. Employees' Profit Sharing and Retirement Located in Rochester, New York

[Application No. D-5943]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the sale of two partnership interests (the Interests) in Red River Associates (the Partnership) by the Plan to Drs. Kenneth I. Lieberman and Achilles M. Filios, parties in interest with respect to the Plan, provided that the terms of the proposed sale are as favorable to the Plan as those obtainable in an arm's-length transaction with an unrelated party.

Summary of Facts and Representations

1. The Plan is a profit sharing plan with 26 participants. The Plan had total assets of $746,092 as of December 31, 1983. The trustees of the Plan are Drs. Kenneth I. Lieberman and Achilles M. Filios (the Trustees). The Trustees are shareholders of Baker, Lieberman & Filios, D.D.S., P.C. (the Employer). The Employer is a professional service corporation engaged in the practice of general dentistry.

2. On December 14, 1983, the Trustees purchased the Interests at a price of $50,000 per unit from an unrelated party.[6] The Interests represent approximately 5 percent of the total interests outstanding in the Partnership. The Partnership was formed for the purpose of operating an AM/FM radio station in Grand Forks, North Dakota.

3. The applicant requests an exemption to allow the sale of the Interests by the Plan to the Trustees. The Trustees have determined that the Interests are not performing the goals of producing current income, plus capital appreciation, that had been anticipated. In fact, the Interests have shown a loss since their purchase. The December 31, 1984 financial statement for the Partnership shows the Plan's net loss for 1984 was $41,645. The Trustees have also determined that the Plan's continued holding of the Interests would produce lower returns than could be expected in comparison to other investments that could be made with the proceeds from the sale of the Interests. The sale will be for cash and the purchase price will be $50,000 per unit of the Interests. No commission or fees will be charged in connection with their proposed sale.

4. Mr. John B. Babcock of Ithaca, New York, is the largest investor in the Partnership and a consultant to the communications industry. Mr. Babcock, by letter of December 19, 1984, represents that the fair market value of the Interests is not greater than $50,000 per unit as of that date.

5. In summary, the applicant represents that the proposed transaction meets the statutory criteria for section 408 of the Act because:

(1) The Plan will be able to divest itself of assets that are not meeting the investment objectives which were sought at the time of their purchase;

(2) The Plan will receive at least fair market value for the Interests;

(3) No commissions or fees will be charged to the Plan in connection with the proposed transaction; and

(4) The Trustees have determined that the proposed transaction is in the interests of and protective of the Plan and its participants and beneficiaries.

For Further Information Contact: Ms. Linda Hamilton of the Department, telephone (202) 523-8881. (This is not a toll-free number.)

Northwest Pump and Equipment Company Profit Sharing Plan and Employees' Trust (the Plan) Located in Portland, Oregon

[Application No. D-5953]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of sections 406(a), 406(b)(1) and (b)(2) and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to a lease, effective July 1, 1984, of certain improved real property by the Plan to the Northwest Pump and Equipment Company (the Employer), the sponsor of the Plan, provided that such lease is on terms and conditions at least as favorable to the Plan as those which the Plan could obtain in an arm's-length transaction with an unrelated party.

Effective date: This exemption, if granted, will be effective July 1, 1984.

Summary of Facts and Representations

1. The Plan is a defined contribution pension plan with 44 participants and total assets of $1,741,371 as of December 31, 1984. The Employer is a Washington corporation engaged in sales and service of petroleum production equipment. The trustees of the Plan are two officers of the Employer (the Trustees).

2. Among the Plan's assets is certain improved real property (the Property) consisting of 30,500 square feet of commercially-zoned land improved with a warehouse and an office building located at 2003 and 2045 SE Ankeny Street and 2044 Burnside Street in Portland, Oregon. The Plan leases 19.1 percent of the office space in the Property to parties unrelated to the Plan. The remaining office space and all of the warehouse space in the Property (the Leased Space) is utilized by the Employer as its principal place of business. The Leased Space has been leased by the Employer from the Plan continuously since September 1, 1972 under a lease (the Original Lease) which was renewed and extended by its own terms on August 29, 1982 to expire June 30, 1984. The Employer represents that the Original Lease constituted a lease as defined under section 414(c)(2) of the Act and was therefore exempt until June 30, 1984 from the prohibitions of sections 406 and 407(a) of the Act.[7] As of December 13, 1983 the Property had a fair market value of $540,000, accordiang to Harold R. Wacker, MAI (Wacker), an independent professional real estate appraiser whose office is located in Portland, Oregon. The fair market value of the Leased Space, based on Wacker's appraisal, constitutes twenty-five percent of the assets of the Plan as value on December 31, 1984. The Employer is requesting an exemption for the continued leasing of the Leased Space by the Plan to the Employer after June 30, 1984 under a modification of the Original Lease (the New Lease), effective July 1, 1984, under the terms and conditions described herein.

3. The interests of the Plan for all purposes under the New Lease are represented by the Trust Department of the Pacific Western Bank (the Bank) of Portland, Oregon, to whom the Trustees have delegated total authority with respect to the Plan's interests in the Leased Space. The Bank represents that it has no busines relationship with the Employer. The New Lease is a triple net lease for an initial term of ten years commencing July 1, 1984, with a provision for up to two five-year extensions with approval of the Bank. Under the New Lease the Employer assumes responsibility for all taxes, all costs of maintenance and repair and full fire and extended coverage insurance on the Lease Space. The New Lease requires the Employer to indemnify the Plan and hold the Plan harmless against all claims, demands and liabilities resulting from the Employer's of the Leased Space. Rentals under the New Lease, payable monthly, were established as of July 1, 1984 for the first five years of the initial term, and were determined by the Bank, based upon Wacker's appraisal and the Bank's independent investigation of the fair market rental value of the Lease Space. The Bank represents that the initial rentals as so determined provided the Plan a return of no less than the fair market rental value of the Leased Space. The new Lease provides that on July 1, 1989 the fair market rental value of the Leased Space will be determined by a professional MAI appraiser selected by the Bank, and the rental commencing on such date for the remainder of the initial term shall be the fair market rental value as so determined. Rental during any renewal terms shall be determined in the same manner at the commencement of each renewal term.

4. The subject transaction, as described herein, has been reviewed and evaluated on behalf of the Plan by the Bank. The bank has detemined that the Plan's continued holding of the Property and the lease of the Leased Space to the Employer are in the best interests and protective of the Rlan. The Bank notes that the New Lease is of short duration, requiring mid-term rental review, reserving for the Bank adequate oversight of the rate of return provided by the Leased Space and allowing the Bank to refuse a renewal of the New Lease in the event of market changes necessitating alterations in the Plan's use of the Property. The Bank represents that all terms and conditions of the subject transaction are at least equivalent to those of an arm's-length transaction between unrelated parties and that some features of the transaction, such as triple net return and five-year rental review, surpass those to be expected in standard commercial leases between unrelated parties. The Bank will act on behalf of the Plan for all purposes related to the Leased Space, including the collection of rentals from the Employer and the pursuit of appropriate remedies, if necessary, on behalf of the Plan in the event of the Employer's default or other deficiency of performance.

5. In summary, the applicant represents that the critieria of section 408(a) of the Act are satisfied in the subject transaction because: (1) The interests of the Plan with respect to the Leased Space are represented by an independent fiduciary, the Bank, which has determined that the continued holding of the Property and the Employer's lease of the Leased Space under the New Lease are in the best interests and protective of the participants and beneficiaries of the Plan; (2) The New Lease provides the Plan a net return, insurance protection on its investment in the Lease Space, and no less than the fair market rental value of the Leased Space as periodically determined; (3) The New Lease is of short duration and reserves to the Bank the oversight of the Plan's rate of return on the Leased Space and the right to refuse a renewal of the New Lease in the event of market changes; and (4) The Bank has determined that the terms and conditions of the subject transaction are equivalent to and better than those which the Plan could obtain in dealing at arm's length in a standard commercial transaction with an unrelated party.

For Further Information Contact: Mr. Ronald Willett of the Department, telephone (202) 523-8194. (This is not a toll-free number.)

Robert J. Bray, D.D.S., M.S., P.A. Profit Sharing Plan (the Plan) Located in Rochester, New York

[Application No. D-5884]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a) and 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply to the sale of a partnership interest (the Interest) in Red River Associates (the Partnership) by the Plan to Dr. Robert Bray, a party in interest with respect to the Plan provided that the terms of the sale are at least as favorable to the Plan as those obtainable in a similar transaction with an unrelated party on the date of its consummation.

Summary of Facts and Representations

1. The Plan is a profit sharing plan with 11 participants. The Plan had total assets of $130,623 as of December 31, 1983. The trustee of the Plan is Dr. Robert Bray (the Trustee). The Trustee is the sole shareholder of Robert J. Bray, P.A. (the Employer). The Employer is a professional service corporation engaged in the practice of general dentistry.

2. On December 14, 1983, the Trustee purchased the Interest at a price of $50,000 from an unrelated party. The Interest represents approximately 2.3 percent of the total interests outstanding in the Partnership and 38 percent of the total assets of the Plan. The Partnership was formed for the purpose of operating an AM/FM radio station in Grand Forks, North Dakota.

3. The application requests an exemption to allow the sale of the interest by the Plan to the Trustee. The Trustee has determined that the Interest is not performing the goals of producing current income, plus capital appreciation, that had been anticipated. In fact, the Interest has shown a loss since its purchase. The December 31, 1984 financial statement for the Partnership shows the Plan's net loss for 1984 was $20,823. The Trustee has also determined that the Plan's continued holding of the Interest would produce lower returns than could be expected in comparison to other investments that could be made with the proceeds from the sale of the Interest. The sale will be for cash and the purchase price will be $50,000. No commission or fees will be charged in connection with the proposed sale.

4. Mr. John B. Badcock of Ithaca, New York, is the largest investor in the Partnership and a consultant to the communications industry. Mr. Babcock, by letter dated December 19, represents that the fair market value of the Interest is not greater than $50,000 as of that date.

5. In summary, the applicant represents that the proposed transaction meets the statutory criteria of section 408 of the Act because:

(1) The Pan will be able to divest itself of an asset that is not meeting the

[6] The Department notes that when the Interests were purchased in December 1983, Dr. Robert Baker was a partner of the Partnership. Dr. Baker is an owner of the Employer. The Department expresses no opinion as to the possible prohibited transaction involved in the Plan's purchase of the Interests and provides no exemptive relief for this transaction.

[7] In this proposed exemption, the Department expresses no opinion as to whether the Original Lease met the requirements of section 414(c)(2) of the Act.

investment objectives which were sought at the time of its purchase;

Cone, Wegner, Nugent, Johnson, Hazouri & Roth, P.A. Profit Sharing Plan and Trust (the Plan) Located in Palm Beach, Florida

[Application No. D-6038]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a) and 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply to the proposed cash sale of a certain condominium unit (the Property) by the individually directed account (the Account) in the Plan of David Roth (Mr. Roth) to Mr. Roth, for the greater of the Property's fair market value or the Account's costs in acquiring and holding the Property.

Summary of Facts and Representations

1. The Plan is a profit sharing plan with 74 participants and assets of $4,364,457 as of November 30, 1984. The trustees of the Plan (the Trustees) are Albertus J. Cone, A. Ward Wagner and Charles Nugent, all of whom are stockholders and officers in Cone, Wagner, Nugent, Hazouri & Roth, P.A. (the Plan Sponsor). The Plan permits participants to direct the investment of their individual account balances in any manner that would not constitute a prohibited transaction or cause the Plan to lose its tax exempt status. As of November 30, 1984, the Account balance was $220,857 including the Property.

2. Mr. Roth is a stockholder and officer in the Plan Sponsor and a member of the investment management and finance committee which administers the Plan.

3. The Property is a rental condominium unit, number 910, 100 Ocean Trail Way in Jupiter, Florida. The Plan purchased the Property on behalf of the Account in November of 1981 for $136,346.78 from the builder, Compeau Corporation, which is unrelated to Mr. Roth or the Plan Sponsor. The applicant represents that the Property has been rented on a continual basis to unrelated parties, and all income and expenses attributable to the Property are applied to the Account. Since the purchase of the Property to November of 1984, the Account has spent $5,945 for improvements and shown a net profit of $8,456.64 on rentals.

4. The Trustees desire to remove the Property from the Plan for several reasons. The major reasons are to relieve the Trustees of the administrative burdens currently associated with the Property and to eliminate the risk of becoming tied up in a law suit in the event of personal injuries occuring on the Property. In addition, the applicant represents that the cost of adequate liability insurance reduces the financial attractiveness of the Property. The applicant represents that virtually all the other assets of the Plan and another retirement Plan sponsored by the Plan Sponsor are managed by professional investment managers. The only assets not managed by these professionals are a small checking account maintained in each Plan for current operating needs and the earmarked investments. The trustee committee has neither the ability nor the desire to manage the Plan assets. The only asset which requires active management at the present time is the Property. The Trustees could hire professional management for the Property, as they have with the other assets, but the Property is neither large enough nor profitable enough to justify the expense of professional management. The applicant also represents that there is currently a "glut" of ocean front condominiums in the Palm Beach area and that the value of the Property will not appreciate significantly in the near future. The proceeds of the sale will be invested in a more profitable manner.

5. Mr. Roth desires to retain the Property and wishes to purchase it from the Plan. He will pay cash at the greater of the Plan's costs in acquiring and holding the Property for its appraised fair market value. Mr. Roth will pay all expenses and fees associated with the transaction.

6. The Property was appraised on April 15, 1985 by Nathaniel J. Orr, M.A.I., unrelatred to Mr. Roth or the Plan Sponsor, as having a fair market value of $140,000. This represents approximately 3.3% of the Plan's assets and 63% of the Account's assets.

7. In summary, the applicant represents that the proposed transaction satisfies the criteria set forth in section 408(a) of the Act because: (a) The sale will be a one time transaction for cash; (b) the Plan will receive the greater of the appraised fair market value of the Property or the total costs incurred by the Plan in acquiring and holding it; (c) Mr. Roth will bear all the costs of the transaction; (d) the Trustees have determined that it is in the best interests and protective of the Plan and its participants and beneficiaries to sell the Property; and (e) Mr. Roth is the only person affected by the transaction and he desires that it be consummated.

Notice to Interested Person: Because Mr. Roth is the only participant in the Plan to be affected by the proposed transaction, it has been determined that there is no need to distribute the notice of proposed exemption to interested persons. Comments and requests for a public hearing are due 30 days after the date of publication of this notice in the **Federal Register**.

For Further Information Contact: Mr. David Lurie of the Department, telephone (202) 523-8884. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible,

in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemption, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 23rd day of July, 1985.

Elliot I. Daniel,

Assistant Administrator for Regulations and Interpretations, Office of Pension and Welfare Benefit Programs, U.S. Department of Labor.

[FR. Doc. 85-17816, Filed 7-25-85; 8:45 am]

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 85-127; Exemption Application No. D-4482 et al.]

Grant of Individual Exemptions; Local Union 731, International Brotherhood of Teamsters, et al.

AGENCY: Pension and Welfare Benefit Programs, Labor.

ACTION: Grant of Individual Exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, D.C. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of pendency were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

Local Union No. 731, International Brotherhood of Teamsters et al. (the Union) Located in Chicago, Illinois

[Prohibited Transaction Exemption 85-127; Exemption Application No. D-4482]

Exemption

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the proposed sale of an interest in a computer system by the Union to a group of related pension and welfare trust funds for $12,000, provided that this amount does not exceed the fair market value of the interest in the computer system on the date the transaction is consummated.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on May 21, 1985 at 50 FR 20980.

[Prohibited Transaction Exemption 85-128; Exemption Application No. D-5229]

Exemption

The sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (e) of the Code, shall not apply to the loan by the Plan to Peter W. Burk of $22,000, under the terms described in the notice of proposed exemption, provided such terms are not less favorable to the Plan than those obtainable in an arm's-length transaction with an unrelated party. Section 408(d)(1) of the Act provides that the Department lacks authority to grant an exemption under section 408(a) of the Act for the lending of any part of the corpus or the income of a plan to an owner-employee. Therefore, the Department cannot grant an exemption under Title I of the Act for the subject loan. However, the Department can grant an exemption under Title II of the Act, pursuant to section 4975 of the Code.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on June 7, 1985 at 50 FR 24065.

For Further Information Contact: Gary H. Lefkowitz of the Department, telephone (202) 523-8881. (This is not a toll-free number.)

LTV Corporation and Affiliates Consolidated Retirement Trust (the Trust) Located in Dallas, Texas

[Prohibited Transaction Exemption 85-129; Application No. D-5332]

Exemption

(a) *General Exemption.* The restrictions of section 406(a)(1) (A) through (D) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, shall not apply to any party in interest transaction involving the purchase, ownership, sale, management, leasing and development of real property by the portion of the Trust maintained and managed by Thomas L. Karsten Associates (Karsten) and the LTV Corporation (LTV), the sponsor of the Trust, provided that the following conditions are met:

(1) The party in interest is not:

(i) Karsten, any person directly or indirectly controlling, controlled by or under common control with Karsten

(Controlled Person); any officer, director, or highly compensated employee (as defined in section

terms generally available in arm's-length transactions between unrelated parties;

Accordingly, the Department has determined not to hold a hearing. After

(Controlled Person); any officer, director, or highly compensated employee (as defined in section 4975(e)(2)(H) of the Code) of Karsten or any Controlled Person; any corporation, partnership, trust or unincorporated enterprise in which Karsten, any Controlled Person, or any officer, director or highly compensated employee (as defined above) of Karsten or any Controlled Person owns a 5% or more interest; or any corporation, partnership, trust, or unincorporated enterprise which owns a 5% or more interest in Karsten or any Controlled Person; or

(ii) LTV, any person directly or indirectly controlling, controlled by or under common control with LTV (LTV Controlled Person); any officer, director, or highly compensated employee (as defined in section 4975(e)(2)(H) of the Code) of LTV or any LTV Controlled Person; any cooperation, partnership, trust or unincorporated enterprise in which LTV, any LTV Controlled Person, or any officer, director or highly compensated employee (as defined above, of LTV or any LTV Controlled Person owns a 5% or more interest; or any corporation, partnership, trust, or unincorporated enterprise which owns a 5% or more interest in LTV or any LTV Controlled Person; or

(iii) Any person who exercises discretionary authority, responsibility or control or who provides investment advice with respect to the investment of Trust assets involved in the particular transaction;

(iv) The term "interest", as applied in subsections (1) (i) and (ii) above, means with respect to ownership of an entity—

(A) The combined voting power of all classes of stock entitled to vote or the total value of the shares of all classes of stock of the entity if the entity is a corporation.

(B) The capital interest or the profits interest of the entity if the entity is a partnership, or

(C) The beneficial interest of the entity if the entity is a trust or unincorporated enterprise; and

(v) A person is considered to own an interest held in any capacity if the person has or shares the authority—

(A) To exercise any voting rights or to direct some other person to exercise the voting rights relating to such interest, or

(B) To dispose or to direct the disposition of such interest.

(2) At the time the transaction is entered into, and at the time of any subsequent renewal thereof that requires the consent of Karsten and/or LTV, the terms of the transaction are not less favorable to the Trust than the terms generally available in arm's-length transactions between unrelated parties;

(3)(i) Karsten shall maintain for a period of six years from the date of each transaction mentioned above, records necessary to determine whether the conditions of this exemption have been met. The records above must be unconditionally available at their customary location for examination for purposes reasonably related to protecting rights of the participants of the Trust during normal business hours by:

(A) Any duly authorized employee or representative of the Department of Labor or the Internal Revenue Service;

(B) Any fiduciary of a plan participating in the Trust who has the authority to acquire or dispose of the interests of the plan in the investment fund subject to the management of Karsten, or any duly authorized employee or representative of such fiduciary; and

(C) Any participant or beneficiary of any plan which is funded by the Trust or any duly authorized representative of such participant or beneficiary.

(ii) None of the persons described in subdivision (i)(C) of this subpargraph (3) shall be authorized to examine LTV's or Karsten's trade secrets or commercial or financial information which is privileged, confidential or of a proprietary nature.

(b) *Specific Exemption for Transactions Involving Places of Public Accommodation.* The restrictions of sections 406(a)(1) (A) through (D) and 406(b) (1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the furnishing of services, facilities and any goods incidental thereto by a place of public accommodation which is or may be considered an asset of the Thrust to a party in interest with respect to the Trust if the services, facilities or incidental goods are furnished on a comparable basis to the general public, and if the requirements of subparagraph (a)(3) of this exemption are met.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 26, 1985 at 50 FR 7855.

Hearing Request: The Department received one request for a public hearing from a participant in the Trust. The participant's request did not raise any objections to the transactions for which an exemption is requested. Attempts to contact the commentator by telephone and mail have been unsuccessful. Accordingly, the Department has determined not to hold a hearing. After consideration of the entire record, the Department has determined to grant the exemption as proposed.

Effective Date: This exemption is effective January 8, 1983.

For Further Information Contact: Mr. David Stander of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

Retirement Plan for Employees of Holsum Bakery, Inc. (the Plan) Located in Phoenix, Arizona

[Prohibited Transaction Exemption 85–130; Exemption Application No. D–5773]

Exemption

The restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale of certain real property by Holsum Bakery, Inc. (the Employer) to the Plan, and the leaseback of the real property by the Plan to the Employer provided the terms of the proposed transactions are as favorable to the Plan as those obtainable by the Plan in an arm's-length transaction with an unrelated party.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on May 21, 1985 at 50 FR 20961.

For Further Information Contact: Linda H. Hamilton of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 23rd day of July, 1985.

Elliot I. Daniel,

Assistant Administrator for Regulations and Interpretations, Office of Pension and Welfare Benefit Programs, U.S. Department of Labor.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Music Advisory Panel; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Music Advisory Panel (Opera-Musical Theater Professional Companies Section) to the National Council on the Arts will be held on August 13, 1985, from 9:00 a.m.–7:00 p.m., August 14–15, 1985, from 9:00 a.m.–6:00 p.m., and on August 16, 1985, from 9:00 a.m.–5:30 p.m. in Room M–09 of the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, D.C.

A portion of this meeting will be open to the public on August 13, 1985, from 9:00–9:30 a.m. for introductions, announcements, and updates.

The remaining sessions of this meeting on August 13, 1985, from 9:30 a.m.–7:00 p.m., August 14–15, 1985, from 9:00 a.m.–6:00 p.m., and on August 16, 1985, from 9:00 a.m.–5:30 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applications. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c)(4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 682–5433.

Dated: July 19, 1985.

BILLING CODE 7537–01–M

Humanities Panel Meetings; Change in Meeting Dates

AGENCY: National Endowment for the Humanities.

ACTION: Notice of Changes in meeting dates.

SUMMARY: This is to announce that the dates for some of the Humanities Panel meetings to be held at the National Endowment for the Humanities, 1100 Pennsylvania Avenue, NW, Washington, DC 20506 as announced in the **Federal Register** on July 16, 1985 at pages 28855–28856 have been changed as follows:

Meeting #6 to review Fellowships for College Teachers in Religious Studies has been changed from August 4, 1985 to August 5, 1985.

Meeting #7 to review Fellowships for College Teachers in Art and Music has been changed from August 5, 1985 to August 6, 1985.

Meeting #11 to review Fellowships for College Teachers in Foreign Languages and Literature has been changed from August 11, 1985 to August 12, 1985.

Meeting #13 to review Fellowships for College Teachers in American History has been changed from August 13, 1985 to August 14, 1985.

Meeting #15 to review Fellowships for College Teachers in Political Science has been changed from August 15, 1985 to August 16, 1985.

Meeting #19 to review Fellowships for College Teachers in World History has been changed from August 18, 1985 to August 19, 1985.

Meeting #21 to review Fellowships for College Teachers in Philosophy has been changed from August 20, 1985 to August 21, 1985.

Meeting #26 to review Fellowships for College Teachers in American Literature and Studies, Film, TV, and Theatre has been changed from August 25, 1985 to August 26, 1985.

Meeting #27 to review Fellowships for College Teachers in British Literature, Literary Criticism, Composition and Rhetoric has been changed from August 26, 1985 to August 27, 1985.

Meeting #29 to review Fellowships for College Teachers in Anthropology, Sociology, Education, and Psychology has been changed from August 28, 1985 to August 29, 1985.

The time and room numbers will remain the same.

Stephen J. McCleary,

Advisory Committee Management Officer.

BILLING CODE 7536–01–M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–317 and 50–318]

Baltimore Gas and Electric Co. (Calvert Cliffs Nuclear Power Plant Unit Nos. 1 and 2); Order Modifying License Confirming Additional Licensee Commitments on Emergency Response Capability

I

The Baltimore Gas and Electric Company (BG&E) is the holder of Facility Operating License Nos. DPR–53 and DPR–69 which authorize the operation of the Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2, at steady-state power levels not in excess of 2700 megawatts thermal. The facility consists of two pressurized water reactors located in Calvert County, Maryland.

II

Following the accident at Three Mile Island Unit No. 2 (TMI–2) on March 28, 1979, the Nuclear Regulatory Commission (NRC) staff developed a number of proposed requirements to be implemented on operating reactors and on plants under construction. These requirements include Operational Safety, Siting and Design, and Emergency Preparedness and are intended to provide substantial additional protection in the operation of nuclear facilities and significant upgrading of emergency response capability based on the experience from the accident at TMI–2 and the official studies and investigations of the accident. The requirements are set forth in NUREG–0737, "Clarification of TMI

Action Plan Requirements," and in Supplement 1 to NUREG–0737,

would provide timely upgrading of the

Accordingly, pursuant to sections 103,

intervene was filed following notice of

Dated at Bethesda, Maryland, this 19th of

Summary of Environmental Impacts as

VOL 50 ISS 144 JL 26 1985 UMI

Action Plan Requirements," and in Supplement 1 to NUREG–0737, "Requirements for Emergency Response Capability." Among these requirements are a number of items consisting of emergency response facility operability, emergency procedure implementation, addition of instrumentation, possible control room design modification, and specific information to be submitted.

On December 17, 1982, a letter (Generic Letter 82–33) was sent to all licensees of operating reactors, applicants for operating licenses, and holders of construction permits enclosing Supplement 1 to NUREG–0737. In this letter, operating reactor licensees and holders of construction permits were requested to furnish the following information, pursuant to 20 CFR 50.54(f), no later than April 15, 1983:

(1) A proposed schedule for completing each of the basic requirements for the items identified in Supplement 1 to NUREG–0737, and

(2) A description of plans for phased implementation and integration of emergency response activities including training.

III

BG&E responded to Generic Letter 82–33 by letter dated April 15, 1983. By letters dated July 22, 1983 and November 18, 1983, BG&E modified several dates as a result of negotiations with the NRC staff. In these submittals, BG&E made commitments to complete the basic requirements. BG&E's commitments included (1) dates for providing required submittals to the NRC, (2) dates for implementing certain requirements, and (3) a schedule for providing implementation dates for other requirements. The staff found that these dates were reasonable and achievable dates for meeting the Commission requirements and concluded that the schedule proposed by the licensee would provide timely upgrading of the licensee's emergency response capability. On June 14, 1984, the NRC issued "Order Confirming Licensee Commitments on Emergency Response Capability" which confirmed BG&E's commitments.

IV

The June 14, 1984 Order stated that, for those requirements for which BG&E committed to a schedule for providing implementation dates, those dates would be reviewed, negotiated and confirmed by a subsequent order. The June 14, 1984 Order, as supplemented by BG&E's letters dated December 1, 1984 and June 19, 1985, provided completion schedules for the following requirements:

1. Regulatory Guide 1.97—Application to Emergency Response Facilities
1b. Implement (installation or upgrade) requirements.
2. Upgrade Emergency Operating Procedures (EOPSs)
2b. Implement the upgraded EOPs

The attached Table summarizing BG&E's schedular commitments for the above items was developed by the NRC staff from the information provided by BG&E. The staff reviewed BG&E's December 1, 1984 and June 19, 1985 letters and discussed the dates with the licensee.

The NRC staff finds these dates are reasonable and achievable dates for meeting the Commission requirements. The NRC staff concludes that the schedule proposed by the licensee will provide timely upgrading of the licensee's emergency response capability.

In view of the foregoing, I have determined that the implementation of BG&E's commitments are required in the interest of the public health and safety and should, therefore, be confirmed by an immediately effective Order.

Accordingly, pursuant to sections 103, 161i, 161o, and 182 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.204 and 10 CFR Part 50, it is hereby ordered, effective immediately, that licenses DPR–53 and DPR–69 are modified to provide that licensee shall:

Implement the specific items described in the Attachment to this Order in the manner described in BG&E's submittals noted in Section IV herein no later than the dates in the Attachment.

Extension of time for completing these items may be granted by the Director, Division of Licensing, for good cause shown.

VI

The licensee or any person with an adversely affected interest may request a hearing on this Order within 20 days of the date of publication of this Order in the Federal Register. Any request for a hearing should be addressed to the Director, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A copy should be sent to the Executive Legal Director at the same address. A request for hearing shall not stay the immediate effectiveness of this Order.

If a hearing is to be held, the Commission will issue an Order designating the time and place of any such hearing.

If a hearing is held concerning this Order, the issue to be considered at the hearing shall be whether the licensee should comply with the requirements set forth in section V of this Order.

This Order is effective upon issuance.

For the Nuclear Regulatory Commission.

Dated in Bethesda, Maryland, this 16th day of July 1985.

Hugh L. Thompson, Jr.,

Director, Division of Licensing, Office of Nuclear Regulation.

BILLING CODE 7590–01–M

[Docket No. 50–394]

California Polytechnic State University; Order Terminating Facility License

By application dated April 30, 1981, as supplemented by letter dated September 8, 1981, California Polytechnic State University (the licensee) requested authorization to dismantle the AGN–201 Training Reactor (the facility), a research reactor located on the campus in San Luis Obispo, California, and to dispose of the component parts in accordance with the plan submitted as part of the application, and to terminate Facility Operating License No. R–121. A "Notice of Proposed Issuance of Orders Authorizing Dismantling of Facility, Disposition of Components Parts, and Termination of Facility License" was published in the Federal Register on June 26, 1981 (46 FR 33148). No request for hearing or petition for leave to intervene was filed following notice of the proposed action. By Order dated October 6, 1981 the Commission authorized dismantling of the facility and disposal of component parts as proposed in the licensee's dismantling plan.

By letter dated January 30, 1985, the licensee indicated compliance with the dismantling and disposal plan and requested termination of the Facility Operating License No. R–121. The facility area has been inspected by a Nuclear Regulatory Commission Region V inspector. The inspection and radiation surveys confirm disposal of component parts in accordance with licensee's dismantling plan, that radiation levels meet the values defined in the dismantling plan, and that the area is, therefore, available for unrestricted access.

Accordingly, the Commission has found that the facility has been dismantled and decontaminated pursuant to the Commission's Order dated Octobver 6, 1981. Satisfactory disposition has been made of the component parts and fuel in accordance with the Commission's regulations in 10 CFR Chapter I, and in a manner not inimical to the common defense and security, or to the health and safety of the public. In accordance with 10 CFR Part 51, the Commission has determined that the issuance of this termination Order will have no significant impact. The Finding of No Significant Environmental Impact was published in the Federal Register on July 17, 1985 (50 29005).

For further details with respect to this action, see (1) the application for authorization to dismantle the facility and dispose of component parts and for termination of facility operating license dated April 30, 1981, as supplemented September 8, 1981 and January 30, 1985, (2) the Commission's Order Authorizing Dismantling of Facility and Disposition of Component Parts, dated October 6, 1981, and (3) the Commission's related Safety Evaluation, dated July 19, 1985. Each of these items is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

This termination Order is effective as of its date of issuance.

Dated at Bethesda, Maryland, this 19th of July 1985.

For the Nuclear Regulatory Commission.

Hugh L. Thompson, Jr., Director,

Division of Licensing.

[FR Doc. 85–17820 Filed 7–25–85; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 50–2]

Finding of No Significant Environmental Impact Regarding Proposed Amendment to Facility Operating License No. R 28; University of Michigan

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. R–28 for the University of Michigan training and research reactor located on the campus in Ann Arbor, Michigan.

The amendment will renew the Operating License for twenty years from its date of issuance, in accordance with the licensee's application dated November 30, 1984, as supplemented. Opportunity for hearing was afforded by the Notice of Proposed Renewal of Facility License published in the Federal Register on January 15, 1985 at 50 FR 2115. No request for hearing or petition for leave to intervene was filed following notice of the proposed action.

Continued operation of the reactor will not require alteration of buildings or structures, will not lead to changes in effluents release from the facility to the environment, will not increase the probability or consequences of accidents, and will not involve any unresolved issues concerning alternative uses of available resources. Based on the foregoing and on the Environmental Assessment, the Commission concludes that renewal of the license will not result in any significant environmental impacts.

Finding of No Significant Impact

The Commission has prepared an Environmental Assessment of this action, dated May 15, 1985, and has concluded that the proposed action will not have a significant effect on the quality of the human environment. Therefore, the Commission has determined not to prepare an Environmental Impact Statement for the proposed action.

Summary of Environmental Impacts as Described in the Environmental Assessment

The proposed action would authorize the licensee to continue operating the reactor in the same manner that it has been operated since 1957. The environmental impacts associated with the continued operation of the facility are discussed in an Environmental Assessment associated with this action. The Assessment concluded that continued operation of the reactor for an additional 20 years will not result in any significant environmental impacts on air, water, land or biota in the area, and that an Environmental Impact Statement need not be prepared. These conclusions were based on the following:

(a) The excess reactivity available under the technical specifications is insufficient to support a reactor transient generating enough energy to cause overheating of the fuel or loss of integrity of the cladding;

(b) At a thermal power level of 2 Mw, the inventory of fission products in the fuel cannot generate sufficient radioactive decay heat to cause fuel damage even in the hypothetical event of rapid total loss of coolant, and

(c) The hypothetical loss of integrity of the cladding of the maximum irradiated encapsulated fueled experiment will not lead to radiation exposures in the unrestricted environment that exceed guideline values of 10 CFR Part 20.

For further details with respect to this proposed action, see the application for license renewal dated November 30, 1984, as supplemented, the Environmental Assessment, and the Safety Evaluation Report prepared by the staff (NUREG–1138).

These documents are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555. Copies may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Copies of NUREG–1138 may be purchased by calling (202) 275–2060 or (202) 275–2171 or by writing to the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, D.C. 20013–7982.

Dated at Bethesda, Maryland, this 22nd day of July 1985.

BILLING CODE 7590-01-M

[Docket Nos. 50-369 and 50-370]

Duke Power Co.; Consideration of Issuance of Amendments to Facility Operating Licenses and Opportunity for Prior Hearing

The United States Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License No. NPF-9 and Facility Operating License No. NPE-17, issued to Duke Power Company (the licensee), for operation of the McGuire Nuclear Station, Units 1 and 2, located in Mecklenburg County, North Carolina.

The proposed amendments would change Technical Specifications for McGuire Units 1 and 2 to allow operation at up to 100% rated power without the Upper Head Injection (UHI) Systems. The Specification for the gas pressure to be maintained within the ECCs cold leg injection accumulators would also be increased 155 psi.

By letter dated May 9, 1985, the licensee requested NRC approved of proposed changes associated with UHI systems deletion by cutting and capping of the penetrations at the upper head of the reactor vessel. The letter proposed amendments to delete Technical Specifications requiring UHI system maintenance, surveillance, and leakage verification and to modify Technical Specifications to reflect deletion of UHI related containment penetrations and associated conductor overcurrent protective devices, containment isolation valves, and system piping snubbers. The proposed Technical Specifications would also increase the operable range of the nitrogen gas cover-pressure of the ECCS cold leg injection accumulators from 430 and 484 psig to 585 and 639 psig. The proposed Technical Specifications would be changed in a manner which would allow existing specification requirements to remain in effect until implementation of plant modifications during refueling outages, (currently scheduled during the first half of 1986) whereupon the revisions would become effective.

The UHI system performs no function during normal operation but serves to mitigate accidents after they occur. In support of the proposed amendments, the licensee will provide appropriate reanalyses of accidents presented in FSAR Chapters 6 and 15, including large and small break LOCAs, steamline breaks, and associated containment analyses. The reanalyses are intended to demonstrate that the change would not result in exceeding operating limits established by 10 CFR 50.46, or other Commission regulations.

Prior to issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended, (the Act) and the Commission's regulations.

By August 26, 2985, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating licenses and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularly the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who had been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matters within the scope of the amendments under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene shall be filed with the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner or representative for the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325-6000 (in Missouri (800) 342-6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Elinor G. Adensam: petitioner's name and telephone number; date petition was mailed; plant name; and publication date and page number of this Federal Register notice. A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. Albert Carr, Duke Power Company, P.O. Box 33189, 422 South Church, Charlotte, North Carolina 28242, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendments dated May 9, 1985, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Atkins Library, University of North Carolina, Charlotte (UNCC Station), North Carolina 28242.

Dated at Bethesda, Maryland, this 22nd day of July 1985.

For the Nuclear Regulatory Commission.
Darl S. Hood,
Acting Chief, Licensing Branch No. 4 Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-285]

Omaha Public Power District (Fort Calhoun Station, Unit No. 1); Order Modifying License Confirming Additional Licensee Commitment on Emergency Response Capability

I

Omaha Public Power District (the licensee or OPPD) is the holder of Facility Operating License No. DPR-40 which authorizes the operation of Fort Calhoun Station, Unit No. 1 (the facility) at steady-state power levels not in excess of 1500 megawatts thermal. The facility is a pressurized water reactor (PWR) located in Washington County, Nebraska.

II

Following the accident at Three Mile Island Unit No. 2 (TMI-2) on March 28, 1979, the Nuclear Regulatory Commission (NRC) staff developed a number of proposed requirements to be implemented on operating reactors and on plants under construction. These requirements include Operational Safety, Siting and Design, and Emergency Preparedness and are intended to provide substantial additional protection in the operation of nuclear facilities and significant upgrading of emergency response capability based on the experience from the accident at TMI-2 and the official studies and investigations of the accident. The requirements are set forth in NUREG-0737, "Clarification of TMI Action Plan Requirements," and in Supplement 1 to NUREG-0737, "Requirements for Emergency Response Capability." Among these requirements are a number of items consisting of emergency response facility operability, emergency procedure implementation, addition of instrumentation, possible control room design modification, and specific information to be submitted.

On December 17, 1982, a letter (Generic Letter 82-33) was sent to all licensees of operating reactors, applicants for operating licenses, and holders of construction permits enclosing Supplement 1 to NUREG-0737. In this letter operating reactor licensees and holders of construction permits were requested to furnish the following information, pursuant to 10 CFR 50.54(f), no later than April 15, 1983:

(1) A proposed schedule for completing each of the basic requirements for the items identified in Supplement 1 to NUREG-0737, and

(2) A description of plans for phased implementation and integration of emergency response activities including training.

III

OPPD responded to Generic Letter 82-33 by letter dated April 15, 1983. In this submittal, OPPD made commitments to complete the basic requirements. OPPD's commitments included (1) dates for providing required submittals to the NRC, (2) dates for implementing certain requirements, and (3) a schedule for providing implementation dates for other requirements. The staff found that these dates were reasonable and achievable dates for meeting the Commission requirements and concluded that the schedule proposed by the licensee would provide timely upgrading of the licensee's emergency response capability. On February 22, 1984, the NRC issued "Order Confirming Licensee Commitments on Emergency Response Capability" which confirmed OPPD's commitments.

IV

The February 22, 1984, Order stated that for those requirements for which OPPD committed to a schedule for providing implementation dates, those dates would be reviewed, negotiated and confirmed by a subsequent order. In conformance with the milestones in the February 22, 1984 Order, OPPD's letter dated April 1, 1985, provided a completion schedule for the following requirement:

3. Regulatory Guide 1.97—Application to Emergency Response Facilities
3b. Implement (installation or upgrade) requirements.

The attached Table summarizing OPPD's schedular commitment for the above item was developed by the NRC staff from the information provided by OPPD. The staff reviewed OPPD's April 1, 1985 letter and discussed the date with the licensee.

The NRC staff finds that this date is reasonable and achievable for meeting the Commission requirements. The NRC staff concludes that the schedule proposed by the licensee will provide timely upgrading of the licensee's emergency response capability.

In view of the foregoing, I have determined that the implementation of OPPD's commitment is required in the interest of the public health and safety and should, therefore, be confirmed by an immediately effective Order.

Accordingly, pursuant to sections 103, 161i, 161o and 182 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.204 and 10 CFR Part 50, it is hereby ordered, effective immediately, that license DPR-40 is modified to provide that the licensee shall:

Implement the specific item described in the Attachment to this Order in the manner described in the OPPD submittal noted in section IV herein no later than the date in the Attachment.

Extension of time for completing this item may be granted by the Director, Division of Licensing, for good cause shown.

The Licensee or any other person with an adversely affected interest may request a hearing on this Order within 20 days of the date of publication of this Order in the Federal Register. Any request for a hearing should be addressed to the Director, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A copy should be sent to the Executive Legal Director at the same address. A request for hearing shall not stay the immediate effectiveness of this order.

If a hearing is to be held, the Commission will issue an Order designating the time and place of any such hearing.

If a hearing is held concerning this Order, the issue to be considered at the hearing shall be whether the licensee should comply with the requirements set forth in section V of this Order.

This Order is effective upon issuance.

Dated in Bethesda, Maryland, this 19th day of July 1985.

For the Nuclear Regulatory Commission.
Hugh L. Thompson, Jr.,
Director, Division of Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket Nos. 50-338 and 50-339]

Virginia Electric and Power Co., and the Old Dominion Electric Cooperative, North Anna Power Station, Units No. 1 and No. 2; Consideration of Issuance of Amendments to Facility Operating Licenses and Opportunity for Prior Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating Licenses No. NPF-4 and No. NPF-7, issued to Virginia Electric and Power Company, et al. (the licensee), for operation of the North Anna Power Station, Units No. 1 and No. 2 (NA-1&2) located in Louisa County, Virginia.

The amendments would revise the NA-1&2 Technical Specifications (TS) to increase the presently rated core power level of 2775 Megawatts thermal (MWt) to 2893 MWt in accordance with the licensee's application for amendments dated May 2, 1985. The proposed changes would allow NA-1&2 to operate at a Nuclear Steam Supply System (NSSS) power of 2905 MWt. The proposed changes would represent approximately a 4½ percent increase over the presently licensed core power rating or 2775 MWt. The proposed changes would increase the electrical power output for each unit by 32 Megawatts electrical (MWe). It is noted that the NA Updated Final Safety Analysis Report (UFSAR) analyses and accident evaluations were evaluated at the presently Engineered Safeguards Design Stretch Core Power Rating of 2900 MWt and a NSSS power rating of 2910 MWt. In order to maintain a consistent basis between information reported in the instant proposed amendment request and that reported by reference in the UFSAR, the licensee's evaluation of NSSS capability has also been performed at 2910 MWt. However, because of turbine generator limitations, the licensee's proposed request would allow operation at a NSSS rating of only 2905 MWt and core rating of 2893 MWt.

The scope of the licensee's review to support the proposed core uprate encompassed all aspects of the NA-1&2 NSSS design and operation affected by the increase. NSSS designs were reviewed to verify compliance at the increased power rating with licensing criteria and standards currently specified in the NA-1&2 operating licenses. In addition, a review was conducted by the licensee to identify any potential unreviewed safety question that might occur as a result of the increased power rating in accordance with 10 CFR 50.59. The structural design of NSSS equipment was reviewed to assure that compliance had been maintained at the increased power rating with industry codes and standards that applied when equipment was originally built. In addition, the review encompassed the verification that NSSS components and systems will continue to meet functional requirements specified in the FSAR at the increase power rating. Currently approved NRC analytical techniques were used for analyses performed at the increased power rating. Also, the definition of NSSS/Balance of Plant (BOP) safety related interfaces were reviewed for any impact at the increase in power rating. Based on the scope of review as outlined above, the licensee states that NA-1&2 are capable, in their present design configuration, of operating at the proposed core power rating of 2893 MWt and a NSSS power rating of 2905 MWt without violating any of the design criteria or safety limits specified in the NA-1&2 FSAR and currently required in Facility Operating Licenses NPF-4 and NPF-7 for NA-1&2, respectively.

Based on the above, the licensee states that the review for the proposed power increase has verified that the probability of a malfunction of NSSS equipment imporatant to safety previously evaluated in the FSAR will not be increased at the proposed power rating. Also, the consequences of a malfunction of NSSS equipment important to safety previously evaluated in the FSAR will not be increased at the proposed power rating. And, finally, the possibility of a malfunction of NSSS equipment important to safety different from any already evaluated in the FSAR is not created by operation at the proposed power rating.

A slight change in environmental impact can be expected at the proposed increase in power. However, the Environmental Report for NA-1&2 and the NRC's Final Environmental Impact Statements (FEIS) as amended have already addressed operation up to the stretch core power rating of 2900 MWt and a NSSS power rating of 2910 MWt. Thus, the licensee's proposed core power uprate to 2893 MWt and a NSSS power rating of 2905 MWt is enveloped by the already reviewed and approved NRC's FEIS.

Prior to issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

By August 26, 1985, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating licenses and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Request for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intevention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should

also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matters within the scope of the amendments under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner or representative for the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325-6000 (in Missouri 800 342-6700). The Western Union operator should be given Datagram Identification number 3737 and the following message addressed to Edward J. Butcher: (Petitioner's name and telephone number), (date petition was mailed), (plant name), and (publication date and page number of this **Federal Register** notice). A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Michael W. Maupin, Esq., Hunton, Williams, Gay and Gibson, P.O. Box 1535, Richmond, Virginia 23212, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR 2.714(a)(1) (i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendments dated May 2, 1985, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Board of Supervisors Office, Louisa County Courthouse, Louisa, Virginia 23093 and the Alderman Library, Manuscripts Department, University of Virginia, Charlottesville, Virginia 22901.

Dated at Bethesda, Maryland, this 18th day of July 1985.

Edward J. Butcher,
Acting Chief, Operating Reactors Branch No. 3, Division of Licensing.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-22256; File No. SR-NASD-85-4]

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Order Extending Comment Period

The National Association of Securities Dealers, Inc. ("NASD") submitted on March 4, 1985, a proposed rule change pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") and Rule 19b-4 thereunder to modify the definition of "representative" in Schedule C of the NASD's By-Laws. The proposal would amend the definition to include persons who are employed by certain non-broker-dealer organizations and who perform activities on behalf of members similar to those performed by registered representatives.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by the issuance of Securities Exchange Act Release No. 22034 (May 13, 1985), 50 FR 20641 (May 17, 1985). In that release, the Commission requested public comment on the proposal within twenty-one days from the date of publication in the **Federal Register.**

Since the publication of this release, the Commission has received a number of requests to extend the deadline of this proposed rule's comment period to afford an additional opportunity for public comment. The Commission believes that such an extension is warranted because the proposal raises important issues affecting broker-dealers, banks, and other financial institutions. Moreover, the Commission believes additional opportunity for public comment is appropriate in light of the Commission's recent approval of Commission Rule 3b-9.[1]

Interested persons are invited to submit written data, views and arguments concerning the foregoing

[1] Securities Exchange Act Release No. 22285 (July 1, 1985), 40 FR 28385 (July 12, 1985). In general, Commission Rule 3b-9 requires a bank to conduct certain securities activities through a broker-dealer registered with the Commission.

BILLING CODE 8010-01-M

[Release No. 34-22260; File No. SR-CBOE-85-28]

Self-Regulatory Organizations; Proposed Rule Change by Chicago Board Options Exchange, Inc.; Relating to a Pilot Program for a Performance Appointment System

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on July 1, 1985 the Chicago Board Options Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Text of the Proposed Rule Change

The Exchange files as a rule change the following pilot for a Performance Appointment Market Maker (PAMM) system. The pilot program would be for a period of six months at about six stations. A station is a location at a post on the trading floor, at which location one or more option classes are traded. The stations in the pilot will be selected by the Market Performance Committee. The Committee will attempt to select stations with different levels of trading volume.

To be eligible for a Performance Appointment market makers will have to meet certain criteria as determined by the Market Performance Committee. PAMMs will have special obligations and will receive special benefits as incentives. A Performance Appointment shall extend to all option classes at a station. The measurement period for selecting PAMMs will be the most recent two expiration cycles, in other words a six-month period.

The selection criteria of the Market Performance Committee will focus on in-person trading patterns. A PAMM is expected to be present at the post on a daily basis. A high percentage of a PAMM's in-person trades must be in his Performance Appointment option classes. A PAMM's pattern of trading must have a high degree of correlation with the overall patterns of trading for each series in the option classes involved. The Committee will also consider a PAMM's total contract volume, capitalization, ability to make markets in size, and disciplinary record.

A PAMM is expected to put up firm quotes and to make two-sided markets in all series of option classes in his Performance Appointment. A PAMM also is expected to trade far-term as well as near-term series, in-the-money series as well as out-of-the money series, puts as well as calls and to effect buy transactions as well as sell transactions. PAMMs will receive certain benefits as incentives.

To keep published quotes accurate, especially in inactive series, a PAMM may employ (without incurring a badge fee) a special clerk to update quotes. PAMMs collectively will be accountable for one contract on a disseminated market quote. Upon implementation of an automated updating system, PAMMs will be accountable for five contracts on a disseminated quote.

Because PAMMs must maintain current markets, even in illiquid options, PAMMs may match equally with the book at a bid or an offer. The combined total number of contracts done by a PAMM or PAMMs under this circumstance only can equal the total number of contracts done by the book.

PAMMs may be disadvantaged respecting trading in active option series when they are updating markets or trading in less active series; however, it is anticipated that PAMMs will be able to participate equally with other market makers and floor brokers in trades in their Performance Appointment option classes.

PAMMs shall have access to special telephones at their stations for the purpose of keeping in direct contact with member-firm trading departments to assist in facilitating the execution of orders at their stations. While a PAMM may not use the telephone to accept orders, he may use it to negotiate transactions. To assist in such negotiations (and to enable all market makers to make better markets) member requests for information regarding book depth will be channeled through the PAMM to the OBO.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in sections (A), (B), and (C) below.

(A) Procedures of the Self-Regulatory Organization

The purpose of the Performance Appointment Market Maker System pilot is to enable the Exchange to experiment with and to refine a system that provides incentives to market markers who meet increased obligations. The pilot is expected to demonstrate that Performance Appointment Market Makers (PAMMs) will enhance the Exchange's ability to service its customers in the following ways: Increase the depth and liquidity of markets, create long-term commitments to options classes, generate greater flexibility in responding to varying market conditions, provide current quotes in all series and encourage a continuous commitment to trade all options series.

The Exchange expects increased competition in the options business, including competition involving specialist-based operations. To meet increased competition while continuing the market-maker system, which separate the roles of principal and agent, market makers must be enabled to take on additional obligations.

The Exchange believes that the proposed pilot will enhance its overall market-making capabilities and will serve to improve the mechanism of a free and open market, to maintain a fair and orderly market and to protect investors. For these reasons, the statutory basis for the proposed rule

changes is section 6(b)(5) of the Securities Exchange Act of 1934 (the Act).

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule-change creates any burden on competition not necessary or appropriate under the Act.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Formal comments on the rule-change filing were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submission should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by August 16, 1985.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

John Wheeler,
Secretary.
July 19, 1985.

Self-Regulatory Organizations; Proposed Rule Change by Philadelphia Stock Exchange, Inc., Relating to Margin Requirements

Comments requested within 21 days after the date of this publication.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 28, 1985, the Philadelphia Stock Exchange, Inc. ("Phlx") filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Philadelphia Stock Exchange, Inc. is proposing changes to Rule 722. The change provide for the ability of its organizations to accept from customers, escrow receipts or option guarantee letters in lieu of margin required on short call or put option contracts on an index stock group. The portion of the rule change permitting escrow receipts for short call index option positions is only being proposed for a one year pilot period.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in sections (A), (B) and (C) below.

(A) Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

The Exchange's margin currently do not provide for a customer to carry, on a covered basis, short call or short put option contracts overlying an index stock group. Other exchanges' rules have permitted such, although pursuant to an escrow receipt or option guarantee letter whereby the bank or trust company issuing the escrow receipt for short call index option positions certifies that it (1) holds at least ten (10) qualified equity securities of a fixed aggregate dollar value at trade date and (2) that if agrees to meet the customer's settlement obligation upon assignment.

Although appropriate in theory, this approach has proven impractical in certain respects. Current recordkeeping and segregation system employed by issuing banks and trust companies are not adaptable to the "basket of securities" approach presently required. Further, resolution of assignments is complicated and delayed as no cash is readily available to the bank or trust company to meet cash settlement.

This rule change proposal significantly reduces these operational difficulties and provides for greater flexibility by reducing the number of equity securities required to cover each short call option contract to one or more stocks and also through permitting the use of cash and cash equivalents. The amendment to its margin rule to reflect the ability of its member organizations to accept from customers escrow receipts or option guarantee letters in lieu of margin required on short call option contracts on an index stock group is being proposed for a one year pilot period.

The rule change also would permit margin for short put option contracts, including a put on an index option and foreign currency option, to be met by escrow receipts collateralized by cash or cash equivalents valued at not less than 100% of the aggregate current exercise price of the put on the day the option is written. Other option exchanges currently permit the use of cash and cash equivalents to cover short put equity options and index options. In addition, to these changes, the Exchange is proposing certain amendments to its Rule 722 on margin accounts that would, in effect, merge all its option margin rules, including those on index options, into one rule for the convenience of its members.

The statutory basis for the proposed rule change is section 6(b)(5) under the

Securities Exchanges Act of 1934, in that the proposal will facilitate the use of

VOL 50 ISS 144 JL 26 1985 UMI

Securities Exchanges Act of 1934, in that the proposal will facilitate the use of index options.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that this proposed rule change will impose any burden on competition.

(C) Self-Regulatory Organization's Statement an Comments on the Proposed Rule Change Received From Member, Participants or Others

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submission should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the Phlx. All submissions should refer to the file number in the caption above and should be submitted by August 16, 1985.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: July 19, 1985.

John Wheeler,

Secretary.

SMALL BUSINESS ADMINISTRATION

Reporting and Recordkeeping Requirement Under OMB Review

ACTION: Notice of Reporting and Recordkeeping Requirement Submitted for OMB Review..

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35), agencies are required to submit proposed reporting and recordkeeping requirement to OMB for review and approval, and to publish notice in the Federal Register that the agency has made such a submission.

DATE: Comments must be received on or before August 17, 1985. If you anticipate commenting on a submission but find that time to prepare will prevent you from submitting comments promptly, advise the OMB reviewer and the Agency Clearance Officer of your intent as early as possible before the comment deadline.

Copies: Copies of forms, request for clearance (S.F. 83), supporting statements, instructions, and other documents submitted to OMB for review may be obtained from the Agency Clearance Officer. Submit comments to the Agency Clearance Officer and the OMB Reviewer.

FOR FURTHER INFORMATION CONTACT:

Agency Clearance Officer: Richard Vizachero, Small Business Administration, 1441 L Street NW., Room 200, Washington, DC. 20416, Telephone: (202) 653-8538

OMB Reviewer: David Reed, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3235, New Executive Office Building, Washington, DC 20503, Telephone: (202) 395-7231.

Action Subject to Intergovernmental Review

AGENCY: Small Business Administration (SBA).

ACTION: Correction to notice of action subject to intergovernmental review under Executive Order 12372.

SUMMARY: This corrects a notice published in the **Federal Register** on June 10, 1985 (50 FR 24335).

This correction changes the closing date for comments from September 30, 1985, to September 15, 1985. This will allow SBA to respond to comments before the September 30, 1985, date when the SBDC's are scheduled to be funded.

DATE: Effective July 26, 1985.

FOR FURTHER INFORMATION CONTACT: Ms. Johnnie L. Albertson, (202) 653-6768, Deputy Associate Administrator, SBDC Programs, U.S. Small Business Administration, Washington, D.C. 20416.

In FR Doc. 85-13834 appearing at page 24335 in the issue of Monday, June 10, 1985, in the first column, subheading titled DATE, change the date September 30, 1985, to read September 15, 1985.

Dated: July 18, 1985.

Comptroller of the Currency

[Docket No. 85-9]

Privacy Act of 1974; Proposed Changes To A System of Records

AGENCY: Office of the Comptroller of the Currency, Treasury

ACTION: Notice of Proposed Change to System of Records entitled Enforcement and Compliance Information System.

SUMMARY: Pursuant to the requirements of the Privacy Act of 1974, the Office of the Comptroller of the Currency [Office] gives notice of a change to the system of records entitled the Enforcement and Compliance Information System (System).

DATE: Comments must be received no later than August 26, 1985. If no comments are received, the changes to the system of records will become effective September 24, 1985.

ADDRESS: Comments should be sent to Docket No. 85-9, Communications Division, Office of the Comptroller of the Currency, Washington, D.C. 20219, Attn: Lynnette Carter, (202) 447-1800.

FOR FURTHER INFORMATION CONTACT: Jane Rasmussen, Attorney, Enforcement and Compliance Division, (202) 447-1818, Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, S.W., Washington, D.C. 20219.

SUPPLEMENTARY INFORMATION:

Changes to the System

The names of bank directors, officers and shareholders named in administrative enforcement actions will be added to the System. Names of persons who have been the subject of criminal referrals by other federal financial institution regulatory agencies will also be added. Additional information will also be maintained in the System regarding criminal referrals. Where applicable, the law enforcement agency to which referred, indication of whether a grand jury subpoena has been issued, indication of other action taken, and the name of the OCC attorney handling the case will also be added to the System.

Purpose of System

The purpose of the system is to maintain a system of records containing names of persons who are suspected of crimes or who have been the subject of administrative enforcement actions. This information will be used to enhance the Office's ability to track criminal referrals, to analyze applications for bank charters and changes in bank control, and to evaluate proposed bank directors or officers. The System provides a method of tracking persons involved in actual or suspected fraudulent activities related to banks. In considering applications for charters for national banks, the Office must consider the general character of proposed management. Under the Change in Bank Control Act (12 U.S.C. 1818(j)(7)) the Comptroller may disapprove a proposed acquisition of a bank if the competence, experience, or integrity of any acquiring person or of any of the proposed management personnel indicates that it would not be in the interest of the depositors of the bank, or in the interest of the public to permit such person to control the bank. The System facilitates that consideration. Also, the Office may also use the system to evaluate proposed officers in problem banks.

Description of the System

The changed system will contain the names of persons who have been the subject of civil enforcement actions made by the Office, the Federal Reserve Board, the Federal Deposit Insurance Corporation, the Federal Home Loan Bank Board, and the National Credit Union Administration. It will also contain the names of persons who have

been the subject of criminal referrals made by these financial institution regulatory agencies.

release of information relating to civil and criminal proceedings.

e. To disclose information to third

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. To provide the Department of Justice with periodic reports which indicate the number, place and individual identity of outstanding potential criminal violations of the law, which have been referred to the Department.

b. To provide the Office of the Comptroller of the Currency with statistical information to respond to general information requests from the Congress.

c. To disclose information to foreign governments in accordance with formal or informal international agreements.

d. To disclose information to the news media in accordance with guidelines contained in 28 CFR 50.2 which covers release of information relating to civil and criminal proceedings.

e. To disclose information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records will be maintained in general correspondence files, enforcement action files, in card files and on computer discs.

RETRIEVABILITY:

All records will be indexed by bank name and location. In addition, records on computer discs will be indexed by name of individual, and code provision known or suspected to be violated.

SAFEGUARDS:

Correspondence files are stored in the Office's central file room and may only be retrived by authorized personnel. Enforcement files are accessible only to authorized personnel. Card files will be stored in lockable file cabinets. Computer discs will be accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Records are periodically updated to reflect changes and maintained as long as needed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Enforcement and Compliance Division, Law Department, Comptroller of the Currency, 490 L'Enfant Plaza East, SW., Washington, D.C. 20219.

NOTIFICATION PROCEDURE:

This system is exempt from notification requirements under 5 U.S.C. 552a(k)(2) of the Act as relating to investigatory material compiled for law enforcement purposes.

RECORD ACCESS PROCEDURE:

Same as Notification above.

CONTESTING RECORD PROCEDURES:

Same as Notification above.

RECORD SOURCE CATEGORIES:

Examination of national banks by national bank examiners; investigations performed by agency attorneys and notifications from the Department of Justice, other Federal and State law enforcement agencies, and other Federal and State bank regulatory agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Components of this system have been designated as exempt from 5 U.S.C 552a(j)(2). To the extent that the exemption under 5 U.S.C. 552a(j)(2) does not apply, the exemption under 5 U.S.C. 552a(k)(2) applies.

Customs Service

[T.D. 85-124]

U.S. Valuation of Imported Carrier Media Bearing Data or Instructions for Use in Data Processing Equipment

AGENCY: Customs Service, Treasury.

ACTION: Notice of decision on valuation.

SUMMARY: This document advises that Customs has been, and will continue to value imported carrier media bearing data or instructions for use in data processing equipment exclusive of a value element for the data, instructions, or information component contained on such software. A recent decision by the Committee on Customs Valuation of the General Agreement on Tariffs and Trade (GATT) sanctioned the practice of valuing software either inclusive or exclusive of a value element for data, instructions, or information components. Customs has routinely been valuing software only on the value of the carrier medium, and will continue to use this practice.

FOR FURTHER INFORMATION CONTACT: Bruce N. Shulman, Classification and Value Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202-566-2938).

SUPPLEMENTARY INFORMATION

Background

On September 24, 1984, the Committee on Customs Valuation of the General Agreement on Tariffs and Trade (GATT) adopted a decision regarding the customs valuation of carrier media bearing data or instructions for use in data processing equipment (reprinted as Annex A). The decision indicates that the merchandise which is the subject of the decision may be valued either inclusive or exclusive of a value element for the data or instructions. Prior to the adoption of the above decision, Customs had routinely valued the merchandise referred to in the GATT decision only on the value of the carrier medium plus other incidental costs (*e.g.*, recording charges), and exclusive of a valuation element for the data or instructions or for an information component. Because the GATT decision affirms the validity of the U.S. approach to the valuation of carrier media bearing data or instructions for use in data processing equipment, on February 28, 1985, Customs reaffirmed its prior position as set forth below:

On September 24, 1984, the GATT Valuation Committee adopted the attached decision. Customs has previously taken the position that the valuation of software (*i.e.*, data or instructions) recorded on carrier media be based only on a value for the carrier media itself and is not to include a value for an information component. Because the TSUS item under which such importations are most frequently classified (item 724.40, TSUS) carries a specific rate of duty, the valuation of software has been of little concern to Customs field personnel. However, in a small number of cases the valuation of software may become important, either because the TSUS item number under which it is classified carries an ad valorem rate of duty, or because it is not clear whether the merchandise involved is a form of software. Accordingly, we wish to reemphasize our previous position that software be valued only on the basis of the value of the carrier medium. In this regard, for valuation purposes carrier media bearing data or instructions (*i.e.*, software) does not include data or instructions recorded or encoded by means of integrated circuits, semiconductors and similar devices, or articles incorporating such circuits or devices. Likewise, the expression "data or instructions" is not to be interpreted as including sound, cinematic, or video recordings. In view of the above GATT decision, appropriate steps should be taken to ensure that Customs personnel continue their current practice of valuing computer software only on the basis of the value of the carrier media.

Accordingly, Customs will continue to value the merchandise which is the subject of the GATT decision exclusive of an element for the value of the data or instructions.

Annex A—General Agreement on Tariffs and Trade, Committee on Customs Valuation; Decision on the Valuation of Carrier Media Bearing Software for Data Processing Equipment, Adopted by the Committee on 24 September 1984

The Committee on Customs Valuation Decides as Follows:

1. It is reaffirmed that transaction value is the primary basis of valuation under the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade (the Agreement) and that its application with regard to data or instructions (software) recorded on carrier media for data processing equipment is fully consistent with the Agreement.

2. Given the unique situation with regard to data or instructions (software) recorded on carrier media for data processing equipment, and that some Parties have sought a different approach, it would also be consistent with the Agreement for those Parties which wish to do so to adopt the following practice:

In determining the customs value of imported carrier media bearing data or instructions, only the cost or value of the carrier medium itself shall be taken into account. The customs value shall not, therefore, include the cost or value of the data or instructions, provided that this is distinguished from the cost or the value of the carrier medium.

For the purpose of this Decision, the expression "carrier medium" shall not be taken to include integrated circuits, semiconductors and similar devices or articles incorporating such circuits or devices; the expression "data or instructions" shall not be taken to include sound, cinematic or video recordings.

3. Those Parties adopting the practice referred to in paragraph 2 of this Decision shall notify the Committee of the date of its application.

4. Those Parties adopting the practice in paragraph 2 of this Decision will do so on a most-favoured-nation (m.f.n.) basis, without prejudice to the continued use by any Party of the transaction value practice.

Robert P. Schaffer,

Acting Commissioner of Customs.

Approved: July 8, 1985.

John M. Walker, Jr.,

Assistant Secretary of the Treasury.

BILLING CODE 4820-02-M

UNITED STATES INFORMATION AGENCY

Reporting and Information Collection Requirement Under OMB Review

AGENCY: United States Information Agency.

ACTION: Notice of reporting requirement submitted for OMB review.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) agencies are required to submit proposed or established reporting and recordkeeping requirements to OMB for review and approval and to publish a notice in the Federal Register notifying the public that such a submission has been made. USIA is requesting approval of a form that will be used to collect data on prospective grantees who will implement USIA youth exchange programs.

DATE: Comments must be received by August 30, 1985.

Copies: Copies of the request for clearance (SF-83), supporting statement, instructions, transmittal letter and other documents submitted to OMB for review may be obtained from the USIA Clearance Officer. Comments on the item listed should be submitted to the Office of Information and Regulatory Affairs of OMB, Attention Desk Officer for USIA.

FOR FURTHER INFORMATION CONTACT: Agency Clearance Officer, Charles N. Canestro, United States Information Agency, M/M, 301 Fourth Street, SW., Washington, DC 20547, telephone (202) 485-8678. And OMB review: Michael Weinstein, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503, telephone (202) 395-4814.

SUPPLEMENTARY INFORMATION: Title: "International Youth Exchange Organization Index". This form will be provided to prospective grantees applying for USIA international youth exchange grants to facilitate the selection process. Data provided by youth exchange organizations will be retained by USIA for review upon receipt of subsequent grant applications, thus facilitating the process of evaluating candidates' qualifications for conducting youth exchange programs. Having data available to USIA grant application reviewers will eliminate the need for candidates to resubmit the same information with each new grant application.

Dated: July 22, 1985.

Charles N. Canestro,

Management Analyst, Federal Register Liaison.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 6:31 p.m. on Friday, July 19, 1985, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to:

(A) (1) Receive bids for the purchase of certain assets of and the assumption of the liability to pay deposits made in Gilpin County Bank, Black Hawk, Colorado, which was closed by the State Bank Commissioner for the State of Colorado on Friday, July 19, 1985; (2) accept the bid for the transaction submitted by First Interstate Bank of Golden, National Association, Golden, Colorado; and (3) provide such financial assistance, pursuant to section 13(c)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1823(c)(2)), as was necessary to facilitate the purchase and assumption transaction; and

(B) (1) Receive bids for the purchase of certain assets of and the assumption of the liability to pay deposits made in Linn County State Bank, Linneus, Missouri, which was closed by the Commissioner of Finance for the State of Missouri on Friday, July 19, 1985; (2) accept the bid for the transaction submitted by United Missouri Bank of Linn County, Linneus, Missouri, a newly-chartered State nonmember bank; (3) approve the applications of United Missouri Bank of Linn County, Linneus, Missouri, for Federal deposit insurance, for consent to purchase certain assets of and assume the liability to pay deposits made in Linn County State Bank, Linneus, Missouri, and for consent to establish the sole branch of Linn County State Bank as a branch of United Missouri Bank of Linn County; and (4) provide such financial assistance, pursuant to section 13(c)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1823(c)(2)), as was necessary to facilitate the purchase and assumption transaction.

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Mr. John F. Downey, acting in the place and stead of Director H. Joe Selby (Acting Comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c) (6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: July 22, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson.

Executive Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on Monday, July 22, 1985, the Corporation's Board of Directors determined, on motion of Chairman Willam M. Isaac, seonded by Director Irvine H. Sprague (Appointive), concurred in by Director H. Joe Selby (Acting Comptroller of the Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven day's notice to the public, of the following matters:

Application of The Fifth Third Bank, Cincinnati, Ohio, a State member bank, for consent to purchase certain assets of an assume the liability to pay deposits made in the Delhi, Ohio, branch of Hunter Savings Association, Cincinnati, Ohio, a non-FDIC-insured institution.

Memprandum re: Awarding of a contract to ATTIS for telecommunciations system.

By the same majority vote, the Board further determined that no earlier notice of these changes in the subject matter of the meeting was practicable.

Dated: July 23, 1985.

Federal Deposit Insurance Corporation.

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Change in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2), notice is hereby given that at its closed meeting held at 2:30 p.m. on Monday, July 22, 1985, the Corporation's Board of Directors determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director H. Joe Selby (Acting Commptroller of the Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of a request for financial assistance pursuant to section 13(c) of the Federal Deposit Insurance Act.

The Board further determined, by the same majority vote that no earlier notice of this change in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that they could be considered in a closed meeting by authority of subsections (c)(4), (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(4), (c)(6), (c)(8), and (c)(9)(A)(ii)).

Dated: July 23, 1985.

PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION PLANNING COUNCIL

(Northwest Power Planning Council)

ACTION: Notice of meeting to be held pursuant to the Government in the Sunshine Act (5 U.S.C. 552b).

STATUS: Open.

TIME AND DATE: 9:00 a.m., August 7-8, 1985.

PLACE: Council Offices, 850 SW. Broadway, Suite 1100, Portland, Oregan.

MATTERS TO BE CONSIDERED:

- Staff Presentation of Draft 1985 Power Plan and Council Consideration of Entering Rulemaking on the Draft.
- Staff Presentation of Issue Paper on Salmon and Steelhead Productivity Analysis.*
- Staff Presentation of Issue Paper on Strategies for Investments in Salmon and Steelhead Production.**
- Staff Presentation of Issue Paper on Resident Fish Substitutions for Salmon and Steelhead Losses.
- Council Business.

Public comment will follow each item.

*Fish and Wildlife items on the agenda will be taken up no sooner than 11:00 a.m., August 7. Deliberations on the draft 1985 plan could require that fish and wildlife items be taken up on August 8.

**Formerly titled "Issue Paper on Stock Selections".

POSTAL SERVICE

Notice of a Meeting

The Board of Governors of the United States Postal Service, pursuant to its Bylaws (39 C.F.R. 7.5) and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives notice that it intends to hold meetings at 9:30 a.m. on Monday, August 5, 1985, in Anchorage, Alaska, and at 8:00 a.m. on Tuesday, August 6, 1985, in the Federal Building, 701 C Street, Anchorage, Alaska. As indicated in the following paragraph, the August 5 meeting is closed to public observation. The August 6 meeting is open to the public. The Board expects to discuss the matters stated in the agenda which is set forth below. Requests for information about the meetings should be addressed to the Secretary of the Board, David F. Harris, at (202) 245-3734.

At its meeting on July 8, 1985, and by telephone on July 19, 1985, the Board voted in accordance with the provisions of the Government in the Sunshine Act to close to public observation its meeting scheduled for August 5. (See 50 FR 29042, July 17, 1985.)

Agenda

Monday Session—August 5, 1985, 9:30 a.m. (Closed)

1. Discussion of personnel matters.
2. Consideration of court ruling in *Griffin v. Carlin.*
3. Consideration of possible sale of the E-COM system.
4. Consideration of proposed procurement for mail sorting equipment.

Tuesday Session—August 6, 1985, 8:00 a.m. (Open)

1. Minutes of the Previous Meeting, July 8 and 10, 1985.
2. Remarks of the Postmaster General.
3. Quarterly Report on Financial Performance.
(Mr. Cummings, Senior Assistant Postmaster General, Finance Group, will present the quaterly summary of financial performance.)
4. Quarterly Report on Service Performance.
(Mrs. Strange, Deputy Postmaster General, will present the quarterly summary on service performance.)
5. Review of Legislative Matters and Government Relations.
(Mr. Johnstone, Assistant Postmaster General, Government Relations, will report on current legislative matters.)
6. Briefing on Alaska Mailhandling Operations.
7. Capital Investments:
a. Redding, California, General Mail Facility.
b. Denver CO, General Mail Facility.
(Mr. Caraveo, Regional Postmaster General, Western Region, will present the two proposed investments.)
8. Consideration of Tentative Agenda for September 5-6, 1985, in Washington, D.C.

David F. Harris,

Secretary.

[FR Doc. 85-17848 Filed 7-24-85; 12:24 pm]

BILLING CODE 7710-12-M

POSTAL SERVICE

Vote to Close Meeting

By telephone vote on July 19, 1985 a majority of the members contacted and voting, the Board voted to add to the agenda for the closed session on Monday, August 5, 1985 (See 50 FR 29042, July 17, 1985), the following items:

(1) Consideration of a court ruling in *Griffin v. Carlin.*

(2) Consideration of possible sale of the E-COM system.

(3) Consideration of proposed procurement for mail sorting equipment.

As to the first item, the Board determined that pursuant to section 552b(c)(10) of title 5, United States Code, and § 7.3(j) of title 39 Code of Federal Regulations, consideration of the matter is exempt from the open meeting requirement of the Government in the Sunshine Act because it is likely to specifically concern the participation of the Postal Service in a civil action or proceeding. As to the second and third items, the Board determined that pursuant to section 552b(c)(9)(B) of title 5 United States Code, and § 7.3(i) of title 39 Code of Federal Regulations, the consideration of the matters are exempt from the open meeting requirements because the premature disclosure of information to be discussed would be likely to frustrate actions the Postal Service may wish to take regarding the sale of E-COM and the procurement of equipment.

In accordance with section 552b(f)(i) of title 5, United States Code, and § 7.6(a) of title 39 Code of Federal

Regulations, the General Counsel of the United States Postal Service has

Draft General NPDES Permit for Oil and Gas Operations in Portions of the Gulf of Mexico; Fact Sheet

AGENCY: Environmental Protection Agency.

ACTION: Notice of Draft General NPDES Permit.

SUMMARY: The Regional Administrators of Regions IV and VI are proposing to issue a general NPDES permit, for certain discharges in the Offshore Subcategory of the Oil & Gas Extraction Point Source Category, which implements a best professional judgment (BPJ) determination of the best available technology economically achievable (BAT) and best conventional pollutant control technology (BCT) effluent limitations for these discharges. This general NPDES permit will establish effluent limitations, prohibitions and other conditions on discharges from oil and gas facilities. The facilities covered by this draft permit are located in Federal waters in the Gulf of Mexico seaward of the outer boundary of the territorial seas as defined in the Clean Water Act, off the states bordering the Gulf of Mexico. This fact sheet sets forth the principal facts and the significant factual, legal, and policy questions considered in developing this draft permit. A copy of the draft permit is also being published today immediately after this fact sheet.

DATE: Comments must be received by October 7, 1985.

ADDRESS: Comments should be sent to:

Regional Administrator, Region VI, U.S. Environmental Protection Agency, 1201 Elm Street, InterFirst Two Building, Dallas, Texas 75270.

Regional Administrator, Region IV, U.S. Environmental Protection Agency, 345 Courtland Street, NE., Atlanta, Georgia 30365

FOR FURTHER INFORMATION CONTACT:

Region VI, Ms. Ellen Caldwell, Permits Branch (6W-PS) U.S. Environmental Protection Agency, 1201 Elm Street, InterFirst Two Building, Dallas, Texas 75270, Telephone (214) 767-2765

Region IV, Mr. Lloyd Wise, Facilities Performance Branch (4W), U.S. Environmental Protection Agency, 345 Courtland Street, N.E., Atlanta, Georgia 30365, Telephone (404) 881-4980

Hearings:

Four hearings regarding this draft permit and fact sheet have been scheduled by the Regions as follows:

(1) Time: 7:00 p.m. Date: August 27, 1985. Council Chambers, City Hall, 1300 Perdido, Room 1E04, New Orleans, Louisiana

(2) Time: 7:00 p.m. Date: August 29, 1985. Houston Lighting and Power Building, Lower Level, 611 Walker Street, Houston, Texas

(3) Time: 7:00 p.m. Date: September 4, 1985. Curtis Hixon Convention Center, 600 Ashley Drive, Tampa, Florida

(4) Time: 7:00 p.m. Date: September 6, 1985. Mobile Municipal Auditorium, 401 Auditorium Drive, Mobile, Alabama

The purpose of these public hearings is to receive written and oral comments from interested persons and the public on the draft permit proposed by EPA. The following is a summary of the procedures which will be followed at the hearings:

1. The Presiding Officer shall have the authority to open and conclude the hearing and to maintain order.

2. Any person appearing at the hearing may submit oral or written statements and data concerning the draft permit.

3. The Presiding Officer may set reasonable limits on the time allowed for oral statements.

Any written comments, requests for information, or requests for copies of the draft permit should be sent to the contact persons named above. The administrative record containing all documents relating to the permit is located at the above Regional addresses and is available for public inspection between 8:00 a.m. and 4:30 p.m. Monday through Friday, except holidays.

EPA's comments and public hearing procedures may be found at 40 CFR 124.10 and 124.12 (as amended at 49 FR 38051, September 26, 1984).

EPA will notify each person who has submitted written comments or requested notice of the final permit decision, of the decision on the final permit. A final permit decision means a final decision to issue, deny, modify, revoke or reissue, or terminate a permit.

FACT SHEET AND SUPPLEMENTARY INFORMATION

I. Background

A. General NPDES Permits

Section 301(a) of the Clean Water Act (the Act) provides that the discharge of pollutants is unlawful except in accordance with a National Pollutant Discharge Elimination System (NPDES) permit. Although such permits generally have been issued to individual dischargers, EPA's regulations authorize the issuance of general permits to categories of dischargers (40 CFR 122.28). EPA may issue a single, general permit to a category of point sources located within the same geographic area whose discharges warrant similar pollution control measures. The Director of an NPDES permit program (in this case the Regional Administrator) is authorized to issue a general permit if there are a number of point sources operating in a geographic area that:

1. Involve the same or substantially similar types of operations;

2. Discharge the same types of wastes;

3. Require the same effluent limitations or operating conditions;

4. Require the same or similar monitoring requirements; and

5. In the opinion of the Director, are more appropriately controlled under a general permit than under individual permits.

In addition, under EPA regulations (40 CFR 122.28(c)(1), the Regional Administrator is required to issue general permits covering discharges from offshore oil and gas facilities within the Region's jurisdiction. Where the offshore area includes areas, such as areas of environmental concern, for which separate permit conditions may be required, a separate individual or general permit may be required by the Regional Administrator.

As in the case of individual permits, violation of any condition of a general permit constitutes a violation of the Act and subjects the discharger to the penalties specified in section 309 of the Act. Any owner or operator authorized by this general permit may be excluded from coverage by applying for an individual permit. This request may be made by submitting an NPDES permit application, together with reasons supporting the request, no later than 90 days after publication. Authorization to discharge under the applicable general permit will automatically expire upon issuance of an individual permit.

The Regional Administrator may require any person authorized by the final general permit to apply for and obtain an individual permit. In addition, any interested person may petition the Regional Administrator to take this action. However, an individual permit will not be issued for an oil or gas facility covered by the general permit unless it can be clearly demonstrated that inclusion under the general permit is inappropriate. The Regional Administrator may consider the issuance of individual permits according to the criteria in 40 CFR 122.28(b)(2). These criteria include:

1. The discharge(s) is a significant contributor of pollution;

2. The discharger is not in compliance with the terms and conditions of the general permit;

3. A change has occurred in the availability of demonstrated technology or practices for the control or abatement of pollutants applicable to the point source;

4. Effluent limitations guidelines are subsequently promulgated for the point sources covered by the general permit;

5. A Water Quality Management Plan containing the requirements applicable to such point sources is approved; or

6. The requirements listed in 40 CFR 122.28(a) and identified in the previous paragraphs are not met.

B. Oil and Gas Operations in the Gulf of Mexico

General permits were issued on April 3, 1981 under the Offshore Subcategory of the Oil and Gas Extraction Point Source Category, (40 CFR Part 435) implementing best practicable control technology currently available (BPT) to cover the then existing facilities in Region VI operating in the Gulf of Mexico including:

1. Federal waters, (west of 87° 40' west longitude)

2. Territorial seas of the State of Texas, and

3. Territorial seas of the State of Louisiana.

These Permits were re-issued by Region VI through public notice in the **Federal Register** on September 15, 1983, and continued past their expiration date of June 30, 1984, by the Administrative Procedure Act for current lease operators that notified of their intent to be covered prior to June 30, 1984. Certain areas of biological concern were excluded from those general permits. The Regions are now proposing to issue one general permit that will also cover the areas excluded from the BPT general permit and expand the area of coverage for Federal waters to include all Federal waters (as defined in the Clean Water Act) in the Gulf of Mexico. This general permit for Federal waters has been written jointly by EPA Regions IV and VI because the permit area is within the jurisdiction of both Regions. Lease operators making notifications and reporting under the permit will send correspondence to either Region IV or Region VI, based on the location of the Federal or State lease. A demarcation line between Regions IV and VI has been established at the western boundary of Outer Continental Shelf lease areas identified as: Mobile, Viosca Knoll (north part), Destin Dome, Desoto Canyon, NG16-2 and NG16-5.

Based on notifications made by existing lease operators under the current general permits there are 1460 lease blocks with facilities discharging in Federal waters. Region VI has issued 11 individual permits for discharges adjacent to areas of biological concern in the Gulf and Region IV has issued 22 individual permits for Gulf oil and gas discharges. All 1493 lease blocks will be covered by this general permit along with any new lease blocks purchased after July 1, 1984 until the expiration date of this permit.

This draft permit applies to "new dischargers" and "existing sources" for all facilities in the Offshore Subcategory of the Oil and Gas Extraction Point Source Category located within and discharging into Federal waters in the Gulf of Mexico. It does not apply to facilities located in the territorial seas located within 3 miles of the territorial seas baseline along the coast of any State. Separate permits for operations in the state waters of Texas and Louisiana will be issued by EPA shortly. Operations within the Alabama and Mississippi State waters will be permitted by these states. The Regional Administrators have determined that the permit conditions and effluent limitations in the draft permit contain sufficient pollution controls to allow one general permit to cover all Federal waters of the Gulf of Mexico.

The states of Texas and Florida own mineral rights to a distance of three marine leagues (approximately 10 statute miles) seaward of the baseline from which the territorial seas are measured. The Clean Water Act, however, authorized states to issue NPDES permits only within the three mile wide territorial seas, therefore this permit's boundary off Texas and Florida is the outer boundary of the territorial seas, not the boundary for federal oil and gas leases as defined by the Minerals Management Service.

This draft permit does not apply to "new sources" because under the NPDES regulations new sources are defined by the publication of new source performance standards (NSPS) under section 306 of the Clean Water Act and 40 CFR 122.2 and 122.29 (as amended September 26, 1984, 49 FR 37998). The Agency has not yet established NSPS for the oil and gas industry. When NSPS are established, either a separate general permit will be issued implementing those NSPS standards or this permit will be modified to incorporate the NSPS for "new sources". However, permittees are required under this proposed general permit to submit information with their notice of intent so that EPA may determine what facilities are new sources when necessary.

II. Nature of Discharges From Oil and Gas Facilities Point Source Categories

The Oil and Gas Extraction Point Source Category includes facilities engaged in field exploration, development, and production. Exploration includes drilling multiple wells to define a hydrocarbon reserve. Development is the process of drilling production wells and treating those wells to stimulate production. Production includes extraction of the hydrocarbon along with further stimulation or enhanced recovery. Depending on the subcategory involved, discharges can be divided into district types such as: Drilling fluids, drill cuttings, produced water, produced sands, deck drainage, sanitary wastes, domestic wastes, cooling water, discharges from desalinization units, blowout preventer fluid, fire control system test water, and uncontaminated ballast and bilge water. The proposed permit will authorize discharge from exploration, development, and production facilities.

A. Drilling Fluids

Drilling fluid is defined as any fluid sent down the hole, including drilling muds, gelling compounds, weighting agents, and any specialty products, from the time a well is begun until final cessation of drilling in that hole. Generally, two basic types of muds (water-based or oil-based) are used in drilling. Water-based muds usually are mixtures of fresh water or sea water with clays. Oil-based muds (invert emulsion muds or oil emulsion muds) are mixtures of diesel or mineral oil and clays with water or brine emulsified in the oil. Drilling fluids are used in both exploration and development drilling to maintain hydrostatic pressure control in the well, lubricate the drilling bit, and remove drill cuttings from the well. Oil-based muds are used for special drilling requirements such as tightly consolidated subsurface formations, water sensitive clays, and shales. Specific needs of a drilling program may also require additives to the drilling fluids.

B. Drill Cuttings

Drill cuttings are mineral particles generated by drilling into subsurface geologic formations. Drill cuttings are carried to the surface of the well with the circulation of the drilling fluids and separated from the fluids by solids separation equipment (screens and shakers) on the platform.

C. Produced Water ("Formation Water" or "Brine")

usually includes ethylene glycol. During periodic testing of the blowout

nine or fewer persons or only intermittently manned by any number of

employed in drilling and production operations. Concerning the factor of

prohibition of discharge, if necessary, to ensure this goal" (45 FR 65942, October

coastal socioeconomic development, land use changes to accommodate the

VOL 50 ISS 144 JL 26 1985 UMI

C. Produced Water ("Formation Water" or "Brine")

Produced water includes water and suspended particular matter brought to the surface in conjunction with the recovery of oil and gas from underground geologic formations. Produced waters are generated primarily during the production phase of oil and gas operations with the amount generated dependent upon the method of recovery and the nature of the formation. Geologic formations contain different oil-water or gas-water mixtures which are produced at different times:

1. In some formations, water is produced with the oil and gas in the early stages of production;
2. In others, water is not produced until the formation has been significantly depleted; and
3. In still others, water is never produced.

Generally, older wells produce a higher percentage of water than new wells.

D. Produced Sands

Produced sands include sands and other solids removed from the produced waters.

E. Deck Drainage

Deck drainage includes all waste resulting from platform washings, deck washings, tank cleaning operations, and runoff from curbs, gutters, and drains including drip pans and work area drains.

F. Sanitary Wastes

Sanitary wastes include human body waste discharges from toilets and urinals.

G. Domestic Wastes

Domestic wastes include materials discharged from sinks, showers, laundries, and galleys. The galley discharge is waste food which is discharged after maceration.

H. Cooling Water

Cooling water means once-through, noncontact cooling water.

I. Desalinization Unit Discharge

Desalinization unit discharge means any wastewater associated with the process of creating fresh water from sea water.

J. Blowout Preventer Fluid

Blowout preventer fluid is used to actuate the hydraulic equipment installed at or near the mud line as required by the Minerals Management Service. The fluid is a mixture of 1 to 2% biodegradable oil in potable water, and usually includes ethylene glycol. During periodic testing of the blowout preventer, this fluid is released without treatment.

K. Fire Control System Test Water

This discharge is sea water released during the training and testing of personnel in fire protection. This water is discharged overboard without treatment.

L. Uncontaminated Ballast Water

Seawater is introduced into or removed from ballast water to maintain the proper ballast floater level and ship draft during drilling operations. No chemicals are introduced and uncontaminated ballast water is discharged without treatment.

M. Uncontaminoted Bilge Water

Seawater that seeps into the bilge of a vessel is discharged if it is uncontaminated.

III. Statutory Basis for Permit Conditions

Sections 301(b), 304, 308, 401, 402, and 403 of the Clean Water Act provide the basis for the permit conditions contained in the draft permit. The general requirements of these sections fall into three categories, which are described below. A discussion of the basis for specific permit conditions follows in Part IV.

A. Technology-Based Effluent Limitations

1. BPT Effluent Limitations

The Clean Water Act requires particular classes of industrial dischargers to meet effluent limitations established by EPA. EPA promulgated effluent limitations guidelines requiring Best Practicable Control Technology Currently Available (BPT) for the Offshore Subcategory of the Oil and Gas Extraction Point Source Category (40 CFR Part 435, Subpart A) on April 13, 1979 (44 FR 22069).

BPT effluent limitations guidelines required "no discharge of free oil" for discharges of deck drainage, drilling muds, drill cuttings, and well treatment fluids. This limitation required that a discharge shall not cause a film or sheen upon or discoloration on the surface of the water or adjoining shorelines or cause a sludge or emulsion to be deposited beneath the surface of the water or upon adjoining shorelines (40 CFR 435.11(d)). The BPT effluent limitations guideline for sanitary waste required that the concentration of chlorine be maintained as close to 1 mg/1 as possible in discharges from facilities housing ten or more persons. For facilities continuously manned by nine or fewer persons or only intermittently manned by any number of persons, the BPT effluent limitations guideline required no discharge of floating solids. BPT limitations on oil and grease in produced water allowed a daily maximum of 72 mg/1 and a monthly average of 48 mg/1. BPT effluent limitations were incorporated into previous general permits issued for oil and gas facilities for the Gulf of Mexico (48 FR 41494, September 5, 1983).

2. BAT and BCT Effluent Limitations

All permits issued after July 1, 1984, are required by section 301(b)(2) of the Act to contain effluent limitations for all categories and classes of point sources which: (1) Control toxic pollutants (40 CFR 401.15) through the use of Best Available technology Economically Achievable (BAT), and (2) represent Best Conventional Pollutant Control Technology (BCT). BCT effluent limitations apply to conventional pollutants (pH, BOD, oil and grease, suspended solids, and fecal coliform). In no case may BCT or BAT be less stringent than BPT. Permits in effect after July 1, 1987, must impose effluent limitations which control noncoventional pollutants by means of BAT.

BAT and BCT effluent limitations guidelines and New Source Performance Standards (NSPS) are currently under development and will be proposed in the near future for the Offshore Subcategory. In the absence of effluent limitations guidelines for the Offshore Subcategory, permit conditions must be established using Best Professional Judgment (BPJ) procedures (40 CFR 122.43, 122.44, and 125.3). This proposed permit incorporates BAT and BCT effluent limitations based on the Agency's Best Professional Judgment.

As required by section 304(b)(2)(B) of the Act, in developing the BPJ/BAT permit conditions, the Agency considered: The age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, the cost of achieving such effluent reduction, non-water quality environmental impact (including energy requirements), and such other factors as the Director deemed appropriate.

The type of equipment and processes employed in production and drilling operations are well known to the Agency. Region 6 has issued general and individual permits for such operations. The records for this permit and those earlier permits discuss the types of equipment, facilities and processes

employed in drilling and production operations. Concerning the factor of engineering aspects of the application of various types of control techniques, the only permit limitation based on installation of control equipment is the limitation on the oil content of produced water. All other new proposed permit limitations can be achieved through product substitution, the technology basis for the limitations in this permit. Any costs of achieving the effluent limitations and any non-water quality environmental impacts were also evaluated and a discussion of such evaluations is presented below with respect to any limitation where applicable.

As required by section 304(b)(4)(B) of the Act, the Agency considered the same factors in determining BPJ/BCT permit conditions, but with one exception. Rather than considering "the cost of achieving such effluent reduction," any BCT determination includes "consideration of the reasonableness of the relationship between the costs of attaining a reduction in effluents and the effluent reduction benefits derived, and the comparison of the cost and level of reduction of such pollutants from publicly owned treatment works to the cost and level of reduction of such pollutants from a class or category of industrial sources." BCT effluent limitations cannot be less stringent than BPT; therefore, if the candidate industrial technology fails the BCT "cost test", BCT effluent limitations are set equal to BPT.

The Agency's evaluation of the BAT factors, as discussed above, is also applicable to BCT, as well as to the Agency's best professional judgment determinations of BPT in instances where there is no BPT effluent limitation guideline for a particular waste stream. With respect to the BCT "cost test," all BCT limitations are equal to the BPT effluent limitations guidelines or to the Regions' best professional judgment determinations of BPT. Therefore, no incremental cost would be incurred.

B. Ocean Discharge Criteria

Section 403 of the Act requires that an NPDES permit for a discharge into marine waters located seaward of the inner boundary of the territorial seas be issued in accordance with guidelines for determining the degradation of the marine environment. These guidelines, referred to as the Ocean Discharge Criteria (40 CFR Part 125, Subpart M), and section 403 are intended to "prevent unreasonable degradation of the marine environment and to authorize imposition of effluent limitations, including a prohibition of discharge, if necessary, to ensure this goal" (45 FR 65942, October 3, 1980).

If EPA determines that the discharge will cause unreasonable degradation, an NPDES permit will not be issued. If a determination of unreasonable degradation cannot be made because of a lack of sufficient information, EPA must then determine whether a discharge will cause irreparable harm to the marine environment and whether there are reasonable alternatives to on-site disposal. To assess the probability of irreparable harm, EPA is required to make a determination that the discharger, operating under appropriate permit conditions, will not cause permanent and significant harm to the environement during a monitoring period in which additional information is gathered. If data gathered through monitoring indicate that continued discharge may cause unreasonable degradation, the discharge must be halted or additional permit limitations established.

The determination of unreasonable degradation must be based on the following factors: Quantities, composition, and potential for bioaccumulation or persistence of the pollutants discharged; potential transport of such pollutants; the composition and vulnerability of biological communities exposed to such pollutants; the importance of the receiving water area to the surrounding biological community; the existence of special aquatic sites; potential impacts on human health; impacts on recreational and commercial fishing; applicable requirements of approved Coastal Zone Management Plans; marine water quality criteria developed pursuant to section 304(a)(1) of the Act; and other relevant factors. A final Ocean Discharge Criteria Evaluation (ODCE) has been completed for those discharges in the area covered by this permit. The following is a summary of the ODCE.

The effects of drilling muds, cuttings, and produced waters when discharged in compliance with the proposed limitations are measured in terms of meters to hundreds of meters for chemical effects on benthic sediments or biological effects on bentic communities; and in terms of hundreds to a few thousands of meters for effects of suspended solid loads. The effect on biological populations in the water column is virtually negligible. All of these effects, singly, are local and ephemeral.

The major long-term effects are expressed as effects of the industry's coastal socioeconomic development, land use changes to accommodate the industry, and space/use conflicts. These effects are not a result of discharges and are not addressed in this document. They are presented and assessed in the NEPA process requiring Environmental Impact Statements on major federal actions, in this case the lease sales that are managed by the Department of Interior. The NEPA regulations, §§ 1502.20 and 1508.28, encourage "tiering" of environmental documents if there is to be subsequent environmental analysis at future stages of the project when potential impacts can be assessed with more certainty. This is generally the case with OCS oil and gas activities, which are subject to post-lease NEPA reviews at times when site-specific impacts can be identified. The Department of Interior, Minerals Management Service has an ongoing environmental studies program that funds pertient studies where information is needed to better assess potential impacts. DOI and EPA are currently working under a Memorandum of Understanding (MOU) which formalizes procedures for coordination in determining these data requirements and the type of information needed to address future Clean Water Act 403(c) Ocean Discharge Criteria assessments.

The Regional Administrators have concluded that, oil and gas facilities operating under the effluent limitations and conditions in this general permit will not cause unreasonable degradation of the marine environment pursuant to the Ocean Discharge Criteria guidelines.

C. Section 308 of the Clean Water Act

Under section 308 of the Act and 40 CFR 122.44(i) the Administrator must require a discharger to conduct monitoring to determine compliance with effluent limitations and to assist in the development of effluent limitations. EPA has proposed several monitoring requirements for the effluent limitations proposed in this permit, as listed in the table below.

IV. Specific Permit Conditions

A. Approach

The determination of appropriate conditions for each discharge was accomplished through:

(1) Consideration of technology-based effluent limitations to control conventional pollutants under BCT;

(2) Consideration of technology-based effluent limitations to control toxic and nonconventional pollutants under BAT; and

(3) Evaluation of the Ocean Discharge Criteria assuming conditions in parts (1)

fluids should apply to other discharges, including uncontaminated bilge water,

discharge of floating solids from the discharge of sanitary wastes should

benzenes, nappthalenes, and

costs Gulf operators $19,200 for

particulate phase, which discharged

(3) Evaluation of the Ocean Discharge Criteria assuming conditions in parts (1) and (2) were in place.

Discussions of the specific effluent limitations and monitoring requirements derived from (1) through (3) appear below in Parts B. through D., respectively. For convenience, these conditions and the regulatory basis for each are cross-referenced by discharge in the following table:

Discharge and permit condition	Statutory basis
Drilling muds:	
Authorized muds only	BAT.
No oil-based muds	BAT & BCT.
No diesel	BAT.
Discharge rate limitations	Section 403(c).
No free oil	BAT & BCT.
Toxicity limitation	BAT.
Monitor volume discharged	Section 308.
Inventory of added substances	Section 308.
Drill cuttings:	
No free oil	BAT & BCT.
No discharge if oil based muds used	BAT & BCT.
Monitor volume discharged	Section 308.
Deck drainage:	
No free oil	BAT & BCT.
Monitor discharge rate	Section 308.
Produced water:	
Oil & grease limits: 48 mg/l monthly avg., 72 mg/l daily max.	BCT.
Monitor volume discharged	Section 308.
Sanitary wastes:	
No floating solids	BCT.
Chlorine 1.0 mg/l (facilities With more than 10 people)	BCT.
Monitor discharge rate	Section 308.
Domestic wastes:	
No floating solids	BCT.
Monitor discharge rate	Section 308.
Miscellaneous discharges:	
No free oil	BAT & BCT.
Monitor discharge rate	Section 308.
Inventory of added substances	Section 308.
Well treatment and test fluids:	
Oil & grease limits: 48 mg/l monthly avg., 72 mg/l daily max.	BCT.
Monitor volume discharged	Section 308.
All discharges:	
No halogenated phenols	BAT.
No floating solids	BCT.

B. BCT Requirements

1. Oil and Grease in Produced Water

Under BPT, oil and grease in discharges of produced water were limited to a 48 mg/l monthly average and a 72 mg/l daily maximum based on oil/water separation technologies. This limitation is equal to BCT because the Regions do not have technology performance data available at this time on which to base a more stringent limitation. As this limitation is equal to the BPT level of control, there is no incremental cost involved. The discharge of oil is also controlled under BAT limits as discussed below.

2. Free Oil

No discharge of free oil is permitted from discharges authorized by this permit. The Regions have determined that the BPT effluent limitations guideline of no discharge of free oil from the discharge of deck drainage, drilling muds, drill cuttings, and well treatment fluids should apply to other discharges, including uncontaminated bilge water, uncontaminated ballast water, desalination unit wastes, non-contact cooling water, blowout preventer fluid, and fire control system test water. Thus, the no free oil limitation is the Regions best professional judgment determination of BPT controls for these discharges. No technology performance data available to the Regions indicate that a more stringent standard is appropriate at this time. For this permit, therefore, the Regions have proposed BCT effluent limitations equal to the BPT level of control and, as such, these proposed limitations impose no incremental costs.

The BCT effluent limitation on free oil for drilling muds is equal to the BPT limitation. The discharge of oil-based drilling muds (with oil as the continuous phase and water as the dispersed phase) is therefore prohibited since oil-based muds would violate the BCT effluent limitation of no discharge of free oil. Likewise, the prohibition on discharge of drill cuttings associated with oil-based drilling mud is based on the data which demonstrates that approximately nine percent by weight, oil is retained on cuttings after washing. The Regions have determined that this concentration of oil on cuttings will result in a violation of the BCT effluent limitations of no discharge of free oil. The monitoring requirement for determining compliance with the effluent limitation on free oil is a visual observation of the receiving water. Regions IV and VI are proposing the use of the visible sheen test in the draft permit. However, the Regions do recognize that EPA Region X has proposed and is using the static (laboratory) sheen test for certain discharges. EPA Headquarters is also studying the reproducibility of modifications to the static sheen test with the possibility of modifying the test as it has been use in the past by reducing the volume of mud required to be tested. When this study is completed and the results are evaluated, the static sheen test may be required for facilities covered by this permit. Regions IV and VI request comment on which test is appropriate for discharges of drilling muds and cuttings, the possible cost consequences of using the static sheen test, and any other pertinent comments or relevant information.

3. Floating Solids

The BCT prohibition on floating solids is equal to the BPT level of control for sanitary wastes. As with the free oil limitations for other waste streams, the Regions have determined that the BPT effluent limitations guideline of no discharge of floating solids from the discharge of sanitary wastes should apply to all other discharges as well. Thus, the no floating solids limitation is the Regions' best professional judgment determination of BPT limitations for these discharges. No technology performance data available to Regions IV and VI indicate that a more stringent standard is appropriate at this time. Therefore, the Regions have determined that the BCT effluent limitation on floating solids from these discharges is equal to the BPT level of control. As such, the extension of this limitation to all discharges will involve no incremental cost.

4. Chlorine

The requirement of maintaining residual chlorine levels as close as possible to, but no less than 1 mg/1 in sanitary waste discharges for facilities manned by 10 or more people is a BCT determination equal to BPT. There is therefore no incremental cost to the industry.

C. BAT Requirements

1. Diesel Oil

The discharge of muds which have been contaminated by diesel oil (i.e., those drilling muds which have contained diesel) or drill cuttings associated with these muds is prohibited. Diesel, which is sometimes added to a water-based mud system, is a complex mixture of petroleum hydrocarbons, known to be highly toxic to marine organisms and to contain numerous toxic and nonconventional pollutants. While this limitation thereby controls the toxic as well as nonconventional pollutants present in diesel, the Agency's primary concern is to control the toxic pollutants. The pollutant "diesel oil" is being used as an "indicator" of the toxic pollutants listed below present in diesel oil which are controlled through compliance with the effluent limitation (i.e., no discharge). The technology basis for this limitation is product substitution of less toxic mineral oil for diesel oil.

The Agency selected "diesel" as an "indicator" as an alternative to establishing limitations on each of the specific toxic and nonconventional pollutants present in the diesel-contaminated waste streams. The listed toxic pollutants found in various diesel oils include naphthalene, benzene, ethylbenzene, phenanthrene, toluene, flourene, and phenol. Diesel oil may contain from 20 to 60 percent by volume aromatic hydrocarbons. The light aromatic hydrocarbons, such as benzenes, nappthalenes, and phenanthrenes, constitute the most toxic major components of petroleum products. Mineral oils, with their lower aromatic hydrocarbon content and lower toxicity, contain lower concentrations of toxic pollutants than do diesel oils. Diesel oil also contains a number of nonconventional pollutants, including polynuclear aromatic hydrocarbons such as methylnaphthalene, dimethylnaphthalene, methylphenanthrene, and other alkylated forms of each of the listed toxic pollutants.

The Regions have determined that eliminating the discharge of drilling fluids contaminated with diesel oil will reduce the levels of toxic pollutants present in discharged fluids. Studies show that when the amount of diesel is reduced in drilling muds, the concentrations of toxic pollutants and overall toxicity of the fluid generally is reduced. Available data clearly establish that diesel oils as a class contain significantly higher levels of toxic pollutants than do mineral oils as a class. It is reasonable and appropriate to conclude that BAT-level control of toxic pollutants (i.e., reduction in concentrations through substitution of mineral oil for diesel oil) will be achieved by regulating diesel oil as an indicator pollutant. Regions IV and VI believe that the limitations achieved by product substitution represent the technically feasible and economically achievable BAT level of control for the various toxic pollutants to be controlled. Establishing limitations of these pollutant parameters as indicator pollutants avoids the costly and technically complex requirement of complying with specific limitations on each of the toxic pollutants. Monitoring and analyzing all waste streams to confirm compliance with specific effluent limitations for each of the toxic pollutants is not considered by the Regions to be economically justified at this time. Low toxicity mineral oils are available as product substitutes for diesel oil and do not impose unreasonable additional costs on industry.

In this permit proposal the Agency relied primarily on the lower effective cost of mineral oil over diesel oil as a basis for this determination. The Draft Diesel pill Monitoring Program prepared by EPA and the American Petroleum Institute gives data for comparative costs of using a diesel Pill and a mineral oil pill for Gulf of Mexico operators (page 5 Draft Diesel Pill Monitoring Program). For example, a mineral oil pill costs Gulf operators $19,200 for components; storage, and disposal, whereas a diesel pill would cost $28,500 if the operator takes part in the diesel pill monitoring program, and $116, 300 if the operator does not take part in the program. Therefore, operators would actually have a savings of several thousand dollars by using mineral oil in the Gulf rather than diesel oil for pill formulations for stuck drilling pipe.

2. Free Oil and Oil-Based Muds and Associated Cuttings

The free oil limitation is a BPT effluent limitations guideline for the major waste streams, and, as discussed above, the Regions have made a BPJ determination that it is an appropriate BPT effluent limitation for other minor waste streams. Therefore, no incremental costs are incurred by establishing the no free oil limitation as a BAT effluent limitation in this permit.

In addition, no oil-based muds may be discharged. The prohibition on the discharge of free oil for BPT effectively prohibited the discharge of oil-based drilling fluids. The limitation is also included under BAT to explicitly control the discharge of toxic and nonconventional pollutant components of the oils in oil-based muds and oil-contaminated cuttings.

3. Toxicity Effluent Limitation

Treatment to remove toxic pollutants from drilling fluids is not feasible because the only demonstrated treatment is designed to control the solids in drilling fluids by removing drill cuttings and other solids from the drilling fluid. In order to control toxic pollutants and nonconventional pollutants it is the best professional judgment that the type and concentration of these pollutants can most efficiently be controlled by establishing a toxicity limitation on the discharge of drilling fluids. The proposed permit will control the toxicity of discharged drilling fluids through two provisions. First, only drilling muds listed in Table 1 of the draft permit can be discharged (i.e., the discharge is restricted to an approved drilling fluids list (generic drilling fluids) which specifies concentration limits for the major components). This list includes the major water based drilling fluids for which EPA has extensive toxicity data.

Second, to control the toxicity of additives used in generic muds, the permit limits the total LC50 toxicity of any mud plus all the additives to that mud. A toxicity effluent limitation is proposed which establishes a maximum 96 hr LC50 value of 7,400 ppm (for *Mysidopsis bahia*) on the suspended particulate phase, which discharged drilling fluids cannot exceed.

In the Gulf of Mexico, individual permits have allowed the addition of drilling additives provided the permittee demonstrates that the additive does not increase the toxicity of the most toxic of the approved drilling fluid. This procedure requires the review of toxicity data by the permit writer and is unmanageable for the number of facilities covered by this permit.

The limitation is a 96 hr LC50 value of 7,400 ppm (for *Mysidopsis bahia*) on the suspended particulate phase of drilling fluid. This toxicity effluent limitation is based on the results of toxicity data for drilling fluids as determined by EPA. These data reveal that five percent mineral oil added to generic drilling fluid number eight yields a 96 hour LC50 value of 7,400 ppm (lower 95 percent confidence limit) suspended particulate phase using *Mysidopsis bahia* as the test organism.

Generic drilling fluid number eight is a common drilling fluid for the Gulf of Mexico and based on current data the five percent mineral oil is considered an adequate concentration to satisfy lubrication needs. Also, the toxicity test data indicate that the other generic drilling fluids will meet the proposed toxicity effluent limitation. This limit can be achieved through product substitution.

The toxicity effluent limitation will allow operators to discharge drilling fluid additives, which have been added to the generic drilling fluids, but the limitation will assure the selection of less toxic additives or minimal concentrations of the more toxic additives.

Consideration was given to requiring two toxicity effluent limitations; a lower LC50 for drilling fluids containing lubricants and a higher LC50 for drilling fluids with no lubricants. The Agency rejected this approach because it would in effect be giving an incentive, in the form of a more lenient toxicity limitation, for the discharge of lubricants. With only one toxicity limitation, which will allow lubricants to be discharged, there is no permit imposed incentive to use and discharge lubricants. The other single toxicity effluent limitation which the Regions considered is a 96 hour LC50 value of 30,000 ppm for the suspended particulate phase for *Mysidopsis bahia*. This LC50 represents the most toxic of the generic drilling fluids (Mud No. 1) without additives. This would be a reasonable toxicity effluent limitation if an additives approval process were proposed in the permit. Since this draft

permit does not establish an additives approval process, the Regions needed to generate data on the effectiveness of pill recovery.

15, 1983). This class of compounds is subject to BAT limitations. Because

2. Resulting from circumstances

discharges authorized by this general

VOL 50 ISS 144 JL 26 1985 UMI

permit does not establish an additives approval process, the Regions needed to establish a toxicity limitation that would allow the use of mineral oil lubricant. Therefore, the Regions selected the 7,400 ppm 96 hr LC50 suspended particulate phase with *Mysidopsis bahia*, as a limitation that would allow selective use of mineral oil, but also control the overall toxicity of the drilling fluid. Comments are solicited on the appropriate toxicity effluent limit to control the discharge.

4. Diesel Pill Monitoring Program

While the permit prohibits the discharge of drilling muds and cuttings contaminated with diesel oil, the permit also includes one exception to that prohibition. That exception provides that water-based drilling muds and associated cuttings may be discharged despite the presence of some residual diesel oil if the diesel oil was used as part of a diesel "pill" or "spotting fluid" to free stuck pipe *and* the operator participates and complies with EPA/API Diesel Pill Monitoring Program. A copy of the draft Program (dated January 1985) has been made a part of the Administrative Record for the draft permit.

The Diesel Pill Monitoring Program ("DPMP") has been developed by EPA's Industrial Technology Division cooperatively with the American Petroleum Institute to assist in evaluating the effectiveness of recovery of diesel oil from drilling muds when a diesel pill is used. Industry has requested that the discharge of diesel oil should be allowed when the diesel oil is the residual oil left in the mud following use of a diesel pill and stringent pill recovery techniques. The Agency currently has minimal information on the effectiveness of pill recovery. This fact coupled with the increasing availability of mineral oil pills has resulted in a prohibition of the discharge of any muds contaminated with diesel oil, including residual diesel oil from a pill. However, the Agency has determined that an opportunity should be made available to demonstrate whether a diesel pill can be effectively removed from a mud system after use. The Gulf of Mexico was selected for this study because of the large number and diversity of drilling operations. The Agency expects that a large number of operations will choose to use a substitute to a diesel oil pill and therefore not participate in the DPMP. For those operators that choose to use a diesel oil pill, the DPMP establishes stringent conditions for pill recovery, bioassay testing and monitoring to generate data on the effectiveness of pill recovery.

The DPMP requires that an operator who uses a diesel pill and intends to discharge the drilling muds, recover the diesel pill plus at least 50 barrels of drill muds from either side of the pill. These drilling muds and recovered pills may *not* be discharged; they must be transported to shore for disposal or reuse. The DPMP also requires the operator to purchase a special sampling kit and take samples of his drilling mud system prior to use and after recovery of the diesel pill, as well as samples of the pill formulation and diesel oil used the in pill. These samples must be sent to the laboratory specified in the DPMP for analysis including bioassay testing of the mud samples.

The DPMP will last one year from the issuance of this permit. EPA will evaluate the data from the DPMP to determine the effectiveness of pill recovery. Based on the conclusions of the DPMP, a permit modification will be proposed following the procedures of 40 CFR 124.5 to include a final provision regarding whether discharge of drill muds and cuttings following use of a diesel pill will be allowed, and if so under what conditions.

Any operator participating in the DPMP will be required to meet all permit limitations with the exception of the diesel oil prohibition (a mud system with residual diesel oil from the pill may be discharged) and the time of compliance with the toxicity limitation. Compliance with the toxicity limitation will be demonstrated by the sample taken of the mud system prior to use of the diesel pill rather than the end-of-well sample. When the prior-to-pill mud sample is used for toxicity compliance, the operator still must take and submit an end-of-well sample but it will not be used to determine compliance with the toxicity limitation. After conclusion of the DPMP and prior to permit modification, any operator using a diesel pill must continue to follow the DPMP requirements for pill removal and continue to comply with the toxicity limitations prior to use of the pill. They also will be required to contnue to submit an end-of-well sample but it will not be used to determine compliance.

5. Other Toxic Compounds

Under the draft permit discharge of the following pollutant would be prohibited: Halogenated phenol compounds. The class of halogenated phenol compounds includes toxic pollutants. The discharge of this compound was previously prohibited in the BPT general permits for the Western Gulf of Mexico (48 FR 41494, September 15, 1983). This class of compounds is subject to BAT limitations. Because operators complied with this provision in the BPT permit, there is no additional cost to the industry.

D. Requirements Based on the Ocean Discharge Criteria Evaluation

1. No Discharge in Areas of Biological Concern

The draft permit prohibits discharge in areas of biological concern, which are defined as locations identified by MMS as "no activity" or "live bottom". General permits previously issued for oil and gas facilities located in the Gulf of Mexico (48 FR 41494, September 15, 1983) designated specific lease blocks which were excluded from coverage by the general permits. These excluded lease blocks were based on the MMS designated "no activity" areas, however, these areas were not the same because the "no activity" locations are defined by isobaths encompassing topographic highs (banks) and lease blocks are surveyed plots defined by coordinates. Additional lease blocks were also excluded from coverage by the previous general permits which were not related to MMS "no activity" areas. These lease blocks were excluded from coverage based on a request from the National Marine Fisheries Services. This permit provides NPDES permit coverage for the formerly excluded areas because it controls the discharge to toxic pollutants to these potentially sensitive areas.

The no discharge requirement for areas of biological concern is necessary to ensure no unreasonable degradation of the environment.

2. Drilling Fluids Discharge Rate Limitation

A controlled discharge rate for drilling fluids is required within 2000 meters of areas of biological concern to ensure no unreasonable degradation of the environment. The discharge rate is based on establishing a toxicity criterion at a specific boundary, assuming a discharge at the permitted toxicity limit of 7,400 ppm 96 hr. LC50 suspended particulate phase with *Mysidopsis bahia*. A safety factor of 0.01 was used in consideration of chronic versus acute effects, test species sensitivity versus sensitivity of species *in situ*, and synergistic interactions. A factor of 35 was used to represent whole drilling fluid toxicity since the 7,400 limit is based on the suspended particulate phase. These two factors function to derive the safety factor as:

$$0.01 \times \frac{7400}{35}\ \text{ppm} = 2.1\ \text{ppm}$$

Dispersion ratios that were derived as a function of discharge rate and transport time were developed to calculate the discharge rate limitation as:

$$\text{Discharge rate (bbl/hr)} = 10^{[2\ \log(d(m))/10 - 2.26]}$$

This limitation assures that the toxicity criterion is met at the boundary of the areas of biological concern.

A maximum drilling fluids discharge rate of 1,000 barrels per hour is required because reliable dispersion data are available only up to this discharge rate.

3. Minimized Discharge of Cleaning Compounds

Surfactants, dispersants and detergents are used to clean up spills on drilling facilities to maintain safe working conditions. The permit requirement to minimize the discharge of these compounds is necessary to determine no reasonable degradation.

The Regional Administrators have determined that all discharges authorized by this permit will not cause unreasonable degradation of the marine environment.

V. Other Legal Requirements

A. State Certification

Section 301(b)(1)(C) of the Act requires that NPDES permits contain conditions which ensure compliance with applicable State water quality standards or limitations. Under section 401(a)(1) of the Act EPA may not issue a NPDES permit until the State in which the discharge will originate grants or waives certification to ensure compliance with appropriate requirements of the Act and State law. State waters are not included within the area of coverage by the draft permit, therefore State certification is not required.

B. Oil Spill Requirements

Section 311 of the Act prohibits the discharge of oil and hazardous materials in harmful quantities. In the 1978 amendments to section 311, Congress clarified the relationship between this section and discharges permitted under section 402 of the Act. It was the intent of Congress that routine discharges permitted under section 402 be excluded from section 311. Discharges permitted under section 402 are not subject to section 311 if they are:

1. In compliance with a permit under section 402 of the Act:

2. Resulting from circumstances identified, reviewed and made part of the public record with respect to a permit issued or modified under section 402 of the Act, and subject to a condition in such permit; or

3. Continuous or anticipated intermittent discharges from a point source, identified in a permit or permit application under section 402 of this Act which are caused by events occurring within the scope of the relevant operating or treatment system.

To help clarify the relationship between discharges permitted under section 402 and section 311 discharges EPA has compiled the following list of discharges which it considers to be regulated under section 311 rather than under a section 402 permit. The list is not to be considered all-inclusive.

1. Discharges from a platform or structure on which oil or water treatment equipment is not mounted,
2. Discharges from burst or ruptured pipelines, manifolds, pressure vessels or atmospheric tanks,
3. Discharges from uncontrolled wells,
4. Discharges from pumps or engines,
5. Discharges from oil gauging or measuring equipment,
6. Discharges from pipeline scraper, launching, and receiving equipment,
7. Spills of diesel fuel during transfer operations,
8. Discharges from faulty drip pans,
9. Discharges from well heads and associated valves,
10. Discharges from gas-liquid separators, and
11. Discharges from flare lines.

C. The Endangered Species Act

The Endangered Species Act (ESA) and its implementing regulations (50 CFR Part 402) require that each Federal Agency shall ensure that any of their actions, such as permit issuance, do not jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modifications of their habitats.

The Minerals Management Service (MMS) has undertaken endangered species reviews including full consultation with the Department of Commerce, the National Marine Fisheries Service (NMFS) and the Department of the Interior, Fish and Wildlife Service (FWS), with respect to all oil and gas leasing in the general permit area for this permit. Based on information in the Ocean Discharge Criteria Evaluation, which summarizes the consultation, and in the Environmental Impact Statements prepared by MMS for the Gulf of Mexico, EPA has concluded that the discharges authorized by this general permit will neither jeopardize the continued existence of any endangered or threatened species nor adversely affect their critical habitat. EPA is requesting comments from the U.S. Fish and Wildlife Service and the National Marine Fisheries Service and will consider their comments in making the final permit decision. EPA will initiate consultation should new information reveal impacts not previously considered, should the activities be modified in a manner beyond the scope of the original opinion, or should the activities affect a newly listed species.

D. The Coastal Zone Management Act

The Coastal Zone Management Act (CZMA) and its implementing regulations (15 CFR Part 930) require that any federally licensed or permitted activity affecting the coastal zone of a State with an approved Coastal Zone Management Program (CZMP) be determined to be consistent with the CZMP (section 307(c)(3)(A) Subpart D). For facilities operating in Federal waters, a decision to require a consistency determination might arguably require a demonstration that the permitted discharge will affect the territorial seas or coastal waters of the approved State (44 FR 37142, June 25, 1979; 15 CFR 930.50). Since there are no applicants identified in the general permit process, EPA in effect becomes the applicant certifying consistency and submitting a general permit for consistency review to the appropriate State agency. EPA is submitting a copy of the draft permit along with the consistency certification to each State with a CZMP. (Louisiana, Mississippi, Alabama and Florida).

Formal State review of EPA's consistency certification begins at the time the State agency receives a copy of the certification along with the information required in 15 CFR 930.58.

E. The Marine Protection, Research and Sanctuaries Act

The Marine Protection, Research and Sanctuaries Act (MPRSA) of 1972 regulates the dumping of all types of materials into ocean waters and establishes a permit program for ocean dumping. In addition the MPRSA establishes the Marine Sanctuaries Program implemented by the National Oceanic and Atmospheric Administration (NOAA), which requires NOAA to designate ocean waters as marine sanctuaries for the purpose of preserving or restoring their conservation, recreational, ecological or asthetic values.

Section 302(f) of MPRSA requires that

adaptive environmental assessment

mercenaria report number 2. seawater/

DRAFT PERMIT

those facilities to the receiving waters

pill removal, and additional data are

Section 302(f) of MPRSA requires that the Secretary of Commerce, after designation of a marine sanctuary, consult with other Federal agencies, and issue necessary regulations to control any activities permitted within the boundaries of the marine sanctuary. It also provides that no permit, license, or other authorization issued pursuant to any other authority shall be valid unless the Secretary shall certify that the permitted activity is consistent with the purpose of the marine sanctuaries program and/or can be carried out within its promulgated regulations. There are presently no existing marine sanctuaries in the Gulf of Mexico.

F. Economic Impact (Executive Order 12291)

The Office of Management and Budget has exempted this action from the review requirements of Executive Order 12291 pursuant to section 8(b) of that order.

G. The Paperwork Reduction Act

EPA has reviewed the requirements imposed on regulated facilities in this draft general permit under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* The information collection requirements of this permit have already been approved by the Office of Management and Budget in submissions made for the NPDES permit program under the provisions of the Clean Water Act.

H. The Regulatory Flexibility Act

After review of the facts presented in the notice of intent printed above, I hereby certify, pursuant to the provisions of 5 U.S.C. 605(b), that this general permit will not have a significant impact on a substantial number of small entities. This certification is based on the fact that the regulated parties have greater than 500 employees and are not classified as small businesses under the Small Business Administration regulations established at 49 FR 5024 et seq. (February 9, 1984). These facilities are classified as Major Group 13—Oil and Gas Extraction SIC 1311 Crude Petroleum and Natural Gas.

DRAFT PERMIT

Authorization to Discharge Under the National Pollutant Discharge Elimination System

[(FRL–2868–1 Permit No. GMG280000]

In compliance with the provisions of the Federal Water Pollution Control Act, as amended, (33 U.S.C. 1251 et. seq; the "Act"), Operators of lease blocks in the Offshore Subcategory of the Oil and Gas Extraction Point Source Category, located in lease areas seaward of the outer boundary of the territorial seas off the States bordering the Gulf of Mexico, are authorized to discharge to receiving waters named the Gulf of Mexico in accordance with effluent limitations, monitoring requirements, and other conditions set forth in Parts I, II, and III hereof.

Operators of lease blocks within the general permit area who: (1) Fail to notify the Regional Administrator of their intent to be covered by this general permit, or (2) who have not received written notification from the Regional Administrator of their coverage by the general permit, are not authorized under this general permit to discharge from those facilities to the receiving waters named.

This permit does not authorize discharges from "new sources" as defined in 40 CFR 122.2.

This permit shall become effective on the date of final publication.

This permit and the authorization to discharge shall expire at midnight, 5 years from effective date.

Signed this ——day of ——, 1985

Myron O. Knudson, P.E.,

Director, Water Management Division (6W), Region VI.

Signed this——day of ——, 1985

Bruce R. Barrett,

Director, Water Management Division (4), Region IV.

Part I.—Requirements For NPDES Permits

Section A. Effluent Limitations and Monitoring Requirements

1. During the period beginning the effective date and lasting through the date of expiration the permittee is authorized to discharge Drilling Fluids.

Such discharges shall be limited and monitored by the permittee as specified below:

Effluent characteristic	Discharge limitations	Monitoring requirements: Measurement frequency	Monitoring requirements: Sample type	Reported value(s)
Free oil	No free oil	Once/day [1]	Observation of sheen or film [2].	Number of days sheen or film observed.
Volume (barrels)		Once/month	Estimate	Monthly total.
Toxicity [3] 96-hour LC50	Not less than 7,400 ppm.	Once/well	Grab	96-hour LC50.
Discharge rate	1,000 barrels/hour	Once/hour [4]	Estimate	Maximum hourly rate.
Discharge rate [5], see figure 1 (areas of biological concern).		Once/hour [4]	Estimate	Maximum hourly rate.

[1] When discharging.
[2] Monitoring shall be accomplished by visual observation of the surface of the receiving water in the vicinity of the discharge.
[3] Suspended particulate phase with *Mysidopsis bahia* following approved test method. The sample shall be taken from beneath the shale shaker when maximum depth is reached. See Part III.
[4] Discharge locations equal to or less than 2000 meters from areas of biological concern and from the territorial seas of Mississippi and Alabama.

(a) *Generic Drilling Fluids.* Only authorized drilling fluids, as identified in Table 1 shall be discharged; however, additives are allowed subject to other limitations.

(b) *Oil Based Drilling Fluids Discharge Prohibition.* The discharge of oil-based drilling fluids, and inverse imulsion drilling fluids are prohibited.

(c) *Oil Contaminated Drilling Fluids Discharge Prohibition.* The discharge of drilling fluids which contain waste engine oil, cooling oil, gear oil, or any lubricants which have been previously used for purposes other than borehole lubrication, is prohibited.

(d) *Diesel Oil Discharge Prohibition.* If diesel oil is added to the drilling fluid, the drilling fluid may not be discharged uless:

1. The diesel oil is added in an attempt to free stuck pipe only and,

2. The diesel pill and at least 50 barrels of drilling fluid on either side is removed from the active drilling fluid system and not discharged to waters of the United States, and

3. Samples of the drilling fluid, after pill removal, and additional data are provided to EPA in accordance with the requirements of the Diesel Pill Monitoring Program.

Item 3. above will be effective for one year from the permit effective date. Thereafter, items 1. and 2. apply until this permit is modified following the procedures of 40 CFR 124.5.

If residual diesel oil is discharged in compliance with items 1. 2 and 3 above, the end of well toxicity testing will be required for reporting purposes only as part of the Diesel Pill Monitoring Program.

In all cases where a diesel spot is used the drilling fluid toxicity shall be monitored prior to spotting by following the procedures of this section A.1. The amount, brand name, and chemical description of any drilling fluid lubricant shall be reported for each well where spotting is required.

(e) *Drilling Fluids Additives Approval.* When a drilling fluids additivies approval programs is developed, the permittee shall discharge only drilling fluids and additives which are approved or alternatively shall continue to meet the toxicity effluent limitation if additives are discharged which have not been approved. Under no circumstances shall a disapproved additive, or an approved additive at greater than approved concentration, be authorized for discharge by this permit. Toxicity compliance monitoring shall be used for reporting purposes only if approved additives, at approved concentrations, are discharged.

(f) *Drilling Fluids Inventory.* The permittee shall maintain a precise chemical inventory of all constituents and their volume added downhole for each well. For each constituent the inventory shall specify the estimated maximum concentration in the discharged drilling fluid and the total volume or mass added downhole. Toxicity compliance monitoring shall be used for reporting purposes only if approved additives at approved concentrations are discharged.

(g) *Applicability.* All discharged drilling fluids, including those fluids adhering to cuttings must meet the limitations of this section A.1., except the discharge rate limitations do not apply during initial drilling i.e., before installation of the marine riser.

Figure 1.—Drilling Fluids Discharge Rate Graph

Drilling fluid discharges equal to or less than 2000 meters from specified areas shall comply with the discharge rate obtained from the graph below.

2. During the period beginning the effective date and lasting through the date of expiration the permittee is authorized to discharge Drill Cuttings.

Such discharges shall be limited and monitored by the permittee as specified below:

Effluent characteristic	Discharge limitation	Monitoring requirements: Measurement frequency	Monitoring requirements: Sample type	Reported value(s)
Free oil	No free oil	Once/day[1]	Observation of sheen or film.[2]	Number of days sheen or film observed.
Volume (barrels)		Once/month	Estimate	Monthly total.

[1] When discharging.
[2] Monitoring shall be accomplished by visual observation of receiving water surface in the vicinity of the discharge.

(a) *Cuttings From Oil Based Drilling Fluids Discharge Prohibition.* The discharge of cuttings, produced when using oil based or inverse emulsion drilling fluids, is prohibited.

3. During the period beginning the effective date and lasting through the date of expiration the permittee is authorized to discharge the effluents listed in the following table. Such discharges shall be limited and monitored by the permittee as specified below:

Discharge and effluent characteristic	Discharge limitation	Monitoring requirements: Measurement frequency	Monitoring requirements: Sample type	Report value(s)
Deck drainage:				
Volume (barrels)		Once/month	Estimate	Monthly total
Free Oil	No free oil	Once/day [1]	Observation of sheen or film.	Number of days sheen or film observed.
Produced water:				
Flow (MGD)		Once/month	Estimate	Monthly average.
Oil and grease	72 mg/l daily max. (48 mg/l monthly ave.) When sampled weekly.	Once/month	Grab [2]	Daily maximum.
Produced sand:				
Weight (lbs)		Once/month	Estimate	Monthly total
Free Oil	No free oil	Once/day	Observation of sheen or film.	Number of days sheen or film observed.
Well treatment fluids [3] Volume		Once/month	Estimate	Monthly total.
Sanitary waste [4] (continuously manned by 10 or more persons):				
Flow (MGD)		Once-month	Estimate	Monthly average.
Residual chlorine	1 mg/l [5]	Once/month	Grab	Concentration.
Sanitary waste (continuously manned by 9 or fewer persons or intermittently by any number): Solids	No floating solids	Once/day	Observation [6]	Number of days solids observed.
Domestic Waste: Solids	No floating solids	Once/day	Observation [6]	Number of days solids observed.
Cooling water, desalinization unit discharge, blowout preventer fluid, fire control system test water, uncontaminated ballast water, uncontaminated bilge water				
Free Oil	No free Oil	Once/day	Observation of sheen or film.	Number of days sheen or film observed.

[1] When discharging and facility is manned. Monitoring shall be accomplished during daylight by visual observation of the receiving water surface in the vicinity of the discharge.
[2] May be based on the arithmetic average of four grab results samples in the twenty-four hour period.
[3] No discharge except as part of produced water.
[4] Any facility which properly operates and maintains a marine sanitation device (MSD) that complies with pollution control standards and regulations under section 312 of the Act shall be deemed to be in compliance with permit limitations for sanitary waste. The MSD shall be tested yearly for proper operation and test results maintained at the facility.
[5] Each method CN-85-DPD approved. Minimum of 1 mg/l and maintained as close to this concentration as possible.
[6] Monitoring shall be accomplished during daylight by visual observation of the surface of the receiving water in the vicinity of sanitary and domestic waste outfalls. Observations shall be made following either the morning or mid-day meals and at a time during daylight and maximum estimate discharge.

Section B. Other Discharge Limitations

1. *Floating Solids or Visible Foam.* There shall be no discharge of floating solids or visible foam in other than trace amounts.

2. *Halogenated Phenol Compounds.* There shall be no discharge of halogenated phenol compounds.

3. *Surfactants, Dispersants, and Detergents.* The discharge of surfactants, dispersants, and detergents shall be minimized except as necessary to comply with the safety requirements of the Minerals Management Service.

4. *Rubbish, Trash and Other Refuse.* The discharge of any solid material not in compliance with other parts of this permit is prohibited. Incineration residue from paper and plastic only is exempt from this prohibition.

5. *Areas of Biological Concern.* There shall be no discharge in areas of biological concern

Part II.—Standard Conditions for NPDES Permits

Section A. General Conditions

1. *Duty to Comply.* The permittee must comply with all conditions of this permit. Any permit noncompliance constitutes a violation of the Clean Water Act and is grounds for enforcement action; or for requiring a permittee to apply for and obtain an individual NPDES permit.

2. *Penalties for Violations of Permit Conditions.* The Clean Water Act provides that any person who violates a permit condition implementing sections 301, 302, 306, 307, 308, 318, or 405 of the Clean Water Act is subject to a civil penalty not to exceed $10,000 per day of such violation. Any person who willfully or negligently violates permit conditions implementing sections 301, 302, 306, 307, or 308 of the Clean Water Act is subject to a fine of not less than $2,500 nor more than $25,000 per day of violation, or by imprisonment for not more than 1 year, or both.

3. *Permit Actions.* This permit may be modified, revoked and reissued, or terminated for cause including, but not limited to, the following:

a. Violation of any terms or conditions of this permit;

b. Obtaining this permit by misrepresentation or failure to disclose fully all relevant facts; or

c. A change in any condition that requires either a temporary or a permanent reduction or elimination of the authorized discharge; or

d. A determination that the permitted activity endangers human health or the environment and can only be regulated to acceptable levels by permit modification or termination.

The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance, does not stay any permit condition.

In accordance with regulations promulgated under section 403 (40 CFR 125.123(d)(4)) of the Clean Water Act, this permit shall be modified or revoked at any time if, on the basis of any new data, the Regional Administrator determines that continued discharges may cause unreasonable degradation of the marine environment.

This permit shall be modified, or a alternatively, revoked and reissued, to comply with any applicable effluent standard or limitation issued or approved under section 301(b)(2)(C), and (D), 304(b)(2), and 307(a)(2) of the Clean Water Act, if the effluent standard or limitation so issued or approved:

a. Contains different conditions or is otherwise more stringent than any effluent limitation in the permit; or

b. Controls any pollutant not limited in the permit.

The permit as modified or reissued under this paragraph shall also contain any other requirements of the Act then applicable.

4. *Toxic Pollutants.* Notwithstanding Section A, paragraph 3 above, if any toxic effluent standard or prohibition (including any schedule of compliance specified in such effluent standard or prohibition) is promulgated under section 307(a) of the Clean Water Act for a toxic pollutant which is present in the discharge and that standard or prohibition is more stringent than any limitation on the pollutant in this permit, this permit shall be modified or revoked and reissued to conform to the toxic effluent standard or prohibition and the permittee so notified.

The permittee shall comply with effluent standards or prohibitions

established under Section 307(a) of the Clean Water Act for toxic pollutants within the time provided in the

determination of concentration shall be the arithmetic average (weighted by

also is for essential maintenance to assure efficient operation. These

is final administrative action subject to judicial review.

Report (DMR) Form (EPA No. 3320-1). In addition, the annual average for each

or application. This period may be extended by request of the Regional

established under Section 307(a) of the Clean Water Act for toxic pollutants within the time provided in the regulations that established those standards or prohibitions, even if the permit has not yet been modified to incorporate the requirement.

5. *Civil and Criminal Liability.* Except as provided in permit conditions on "Bypassing" section B, paragraph 4.b. and "Upsets" section B, paragraph 5.b., nothing in this permit shall be construed to relieve the permittee from civil or criminal penalties for noncompliance.

6. *Oil and Hazardous Substance Liability.* Nothing in this permit shall be construed to preclude the institution of any legal action or relieve the permittee from any responsibilities, liabilities, or penalties to which the permittee is or may be subject under section 331 of the Clean Water Act.

7. *State Laws.* Nothing in this permit shall be construed to preclude the institution of any legal action or relieve the permittee from any responsibilities, liabilities, or penalties established pursuant to any applicable State law or regulation under authority preserved by section 510 of the Clean Water Act.

8. *Property Rights.* The issuance of this permit does not convey any property rights of any sort, or any exclusive privileges, nor does it authorize any injury to private property or any invasion of personal rights, nor any infringement of Federal, State, or local laws or regulations.

9. *Severability.* The provisions of this permit are severable, and if any provision of this permit or the application of any provision of this permit to any circumstance is held invalid, the application of such provision to other circumstances, and the remainder of this permit, shall not be affected thereby.

10. *Definitions.* The following definitions shall apply unless otherwise specified in this permit:

a. "Daily Discharge" means the discharge of a pollutant measured during a calendar day or any 24-hour period that reasonably represents the calendar day for purposes of sampling. For pollutants with limitations expressed in terms of mass, the "daily discharge" is calculated as the total mass of the pollutant discharged over the sampling day. For pollutants with limitations expressed in other units of measurement, the "daily discharge" is calculated as the average measurement of the pollutant over the sampling day. "Daily discharge" determination of concentration made using a composite sample shall be the concentration of the composite sample. When grab samples are used, the "daily discharge" determination of concentration shall be the arithmetic average (weighted by flow value) of all samples collected during that sampling day.

b. "Monthly Average" discharge limitation means the highest allowable average of "daily discharges" over a calendar month, calculated as the sum of all "daily discharges" measured during a calendar month divided by the number of "daily discharges" measured during that month.

c. "Daily Maximum" discharge limitation means the highest allowable "daily discharge" during the calendar month.

Section B. Operation and Maintenance of Pollution Controls

1. *Proper Operation and Maintenance.* The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance also includes adequate laboratory controls and appropriate quality assurance procedures. This provision requires the operation of backup or auxiliary facilities or similar systems which are installed by a permittee only when the operation is necessary to achieve compliance with the conditions of the permit.

2. *Need to Halt or Reduce not a Defense.* It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

3. *Duty to Mitigate.* The permittee shall take all reasonable steps to minimize or prevent any discharge in violation of this permit which has a reasonable likelihood of adversely affecting human health or the environment.

4. *Bypass of Treatment Facilities.* a. Definitions:

(1) "Bypass" means the international diversion of waste streams from any portion of a treatment facility.

(2) "Severe property damage" means substantial physical damage to property, damage to the treatment facilities which causes them to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.

b. Bypass not exceeding limitations. The permittee may allow any bypass to occur which does not cause effluent limitations to be exceeded, but only if it also is for essential maintenance to assure efficient operation. These bypasses are not subject to the provisions of section B, paragraphs 4.c. and 4.d. of this section.

c. Notice:

(1) Anticipated bypass. If the permittee knows in advance of the need for a bypass, it shall submit prior notice, if possible at least ten days before the date of the bypass.

(2) Unanticipated bypass. The permittee shall submit notice of an unanticipated bypass as required in section D, paragraph 6 (24-hour notice).

d. Prohibition of bypass.

(1) Bypass is prohibited, and the Regional Administrator may take enforcement action against a permittee for bypass, unless:

(a) Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

(b) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate back-up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

(c) The permittee submitted notices as required under section B, paragraph 4.c.

(2) The Regional Administrator may approve an anticipated bypass, after considering its adverse effects, if the Regional Administrator determines that it will meet the three conditions listed above in section B, paragraph 4.d.(1).

5. *Upset Conditions.* a. Definition. "Upset" means an exceptional incident in which there is unintentional and temporary noncompliance with technology-based permit effluent limitations because of factors beyond the reasonable control of the permittee. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

b. Effect of an upset. An upset constitutes an affirmative defense to an action brought for noncompliance with such technology-based permit effluent limitations if the requirements of section B, paragraph 5.c. are met. No determination made during administrative review of claims that noncompliance was caused by upset, and before an action for noncompliance, is final administrative action subject to judicial review.

c. Conditions necessary for a demonstration of upset. A permittee who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An upset occurred and that the permittee can identify the cause(s) of the upset;

(2) The permitted facility was at the time being properly operated; and.

(3) The permittee submitted notice of the upset as required in section D, paragraph 6.

(4) The permittee complied with any remedial measures required under section B, paragraph 3.

d. Burden of proof. In any enforcement proceeding the permittee seeking to establish the occurrence of an upset has the burden of proof.

6. *Removed Substances.* Solids, sludges, filter backwash, or other pollutants removed in the course of treatment or control of wastewaters shall be disposed of in a manner such as to prevent any pollutant from such materials from entering navigable waters.

Section C. Monitoring and Records

1. *Representative Sampling.* Samples and measurements taken as required herein shall be representative of the volume and nature of the monitored discharge.

2. *Monitoring Procedures.* Monitoring must be conducted according to test procedures approved under 40 CFR Part 136, unless other test procedures have been specified in this permit.

3. *Penalties for Tampering.* The Clean Water Act provides that any person who falsifies, tampers with, or knowingly renders inaccurate, any monitoring device or method required to be maintained under this permit shall, upon conviction, be punished by a fine of not more than $10,000 per violation, or by imprisonment for not more than 6 months per violation, or by both.

4. *Reporting of Monitoring Results.* The operator of each lease block shall be responsible for submitting monitoring results for each facility within each lease block.

If there is more than one facility (platform, drilling ship, semisubmersible), the discharge shall be designated in the following manner:

101 for the first facility; 201 for the second facility; 301 for the third facility; etc.

Monitoring results obtained during the previous 12 months shall be summarized and reported on a Discharge Monitoring Report (DMR) Form (EPA No. 3320-1). In addition, the annual average for each facility shall be reported and shall be the arithmetic average of all samples taken during the reporting year. The highest daily maximum sample taken during the reporting period shall be reported as the daily maximum concentration.

If any category of waste (discharge) is not applicable due to the type of operation (e.g. drilling, production) no reporting is required for that particular outfall. Only DMR's representative of the activities occurring need to be submitted. A notification indicating the type of operation should be provided with the DMR's.

The first report is due on the 28th day of the 13th month from the day this permit first becomes applicable to a permittee. Signed and certified copies of these and other reports required herein, shall be submitted to the Regional Administrator at the following address:

(a) For all lease blocks west of the western boundary of Outer Continental Shelf lease areas identified as: Mobile, Viosca Knoll (north part), Destin Dome, Desoto Canyon, NG16-2 and NG16-5.

Director, Water Management Division (6W), Region VI, U.S. Environmental Protection Agency, P.O. Box 50708, Dallas, Texas 75250

(b) For all lease blocks east of the line identified in (a) above.

Director, Water Management Division (4W), Region IV, U.S. Environmental Protection Agency, 345 Courtland Street N.E., Atlanta, Georgia 30365

5. *Additional Monitoring by the Permittee.* If the permittee monitors any pollutant more frequently than required by this permit, using test procedures approved under 40 CFR Part 136 or as specified in this permit, the results of this monitoring shall be included in the calculation and reporting of the data submitted in the DMR. Such increased monitoring frequency shall also be indicated on the DMR.

6. *Averaging of Measurements.* Calculations for all limitations which require averaging of measurements shall utilize an arithmetic mean unless otherwise specified by the Regional Administrator in the permit.

7. *Retention of Records.* The permittee shall retain records of all monitoring information, including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation, copies of all reports required by this permit, and records of all data used to complete the application for this permit, for a period of at least 3 years from the date of the sample, measurement, report, or application. This period may be extended by request of the Regional Administrator at any time.

8. *Record Contents.* Records of monitoring information shall include:

a. The date, exact place, and time of sampling or measurements;

b. The individual(s) who performed the sampling or measurements;

c. The date(s) analyses were performed;

d. The individual(s) who performed the analyses;

e. The analytical techniques or methods used; and

f. The results of such analyses.

9. *Inspection and Entry.* The permittee shall allow the Regional Administrator or an authorized representative, upon the presentation of credentials and other documents as may be required by law, to:

a. Enter upon the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit;

b. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;

c. Inspect at reasonable times any facilities, equipment (including monitoring and control equipment), practices, or operations regulated or required under this permit; and

d. Sample or monitor at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by the Clean Water Act, any substances or parameters at any location.

Section D. Reporting Requirements

1. *Planned Changes.* The permittee shall give notice to the Regional Administrator as soon as possible of any planned physical alterations or additions to the permitted facility. Notice is required only when:

a. The alteration or addition to a permitted facility may meet one of the criteria for determining whether a facility is a new source in 40 CFR 122.29(b) (48 FR 14153, April 1, 1983, as amended at 49 FR 38046, September 26, 1984); or

b. The alteration or addition could significantly change the nature or increase the quanity of pollutants discharged. This notification applies to pollutants which are subject neither to effluent limitations in the permit, nor to notification requirements under 40 CFR Part 122.42(a)(1) (48 FR 14153, April 1, 1983, as amended at 49 FR 38046, September 26, 1984).

2. *Anticipated Noncompliance.* The permittee shall give advance notice to the Regional Administrator of any

For locations identified in Part II.C.4. reporting to Region VI, the reports should be made to telephone number

similar policy or decision making functions for the corporation, or

information, including the possibility of fine and imprisonment for knowing violations.

(a) The discharge(s) is a significant contributor of pollution;

located in lease areas seaward of the outer boundary of the territorial seas.

VOL 50 ISS 144 JL 26 1985 UMI

2. *Anticipated Noncompliance.* The permittee shall give advance notice to the Regional Administrator of any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements.

3. *Transfers.* This permit is not transferable to any person except after notice to the Regional Administrator. The Regional Administrator may require modification or revocation and reissuance of the permit to change the name of the permittee and incorporate such other requirements as may be necessary under the Clean Water Act.

4. *Monitoring Reports.* Monitoring results shall be reported at the intervals and in the form specified in Section C, paragraph 5 (Monitoring).

5. *Compliance Schedules.* Reports of compliance or noncompliance with, or any progress reports on, interim and final requirements contained in any compliance schedule of this permit shall be submitted no later than 14 days following each schedule date. Any reports of noncompliance shall include the cause of noncompliance, any remedial actions taken, and the probability of meeting the next scheduled requirement.

6. *Twenty-Four Hour Reporting.* The permittee shall report any noncompliance which may endanger health or the environment. Any information shall be provided orally within 24 hours from the time the permittee becomes aware of the circumstances. A written submission shall also be provided within 5 days of the time the permittee becomes aware of the circumstances. The written submission shall contain a description of the noncompliance and its cause; the period of noncompliance, including exact dates and times, and if the noncompliance has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the noncompliance. The Regional Administrator may waive the written report on a case-by-case basis if the oral report has been received within 24 hours.

The following shall be included as information which must be reported within 24 hours:

a. Any unanticipated bypass which exceeds any effluent limitation in the permit.

b. Any upset which exceeds any effluent limitation in the permit.

c. Violation of a maximum daily discharge limitation for any of the pollutants listed by the Regional Administrator in Part III of the permit to be reported within 24 hours.

For locations identified in Part II.C.4. reporting to Region VI, the reports should be made to telephone number (214) 767–2214. Locations reporting to Region IV should use telephone number (404) 881–4062. The Regional Administrator may waive the written report on a case-by-case basis if the oral report has been received within 24 hours.

7. *Other Noncompliance.* The permittee shall report all instances of noncompliance not reported under section D, paragraphs 4, 5, and 6, at the time monitoring reports are submitted. The reports shall contain the information listed in section D, paragraph 6.

8. *Changes in Discharges of Toxic Substances.* The permittee shall notify the Regional Administrator as soon as it knows or has reason to believe:

a. That any activity has occurred or will occur which would result in the discharge, in a routine or frequent basis, of any toxic pollutant which is not limited in the permit, if that discharge will exceed the highest of the "notification levels" described in 40 CFR 122.42(a)(1) (48 FR 14153, April 1, 1983, as amended at 49 FR 38046, September 26, 1984).

b. That any activity has occurred or will occur which would result in any discharge, on a non-routine or infrequent basis, of a toxic pollutant which is not limited in the permit, if that discharge will exceed the highest of the "notification levels" described in 40 CFR 122.42(a)(2) (48 FR 14153, April 1, 1983, as amended at 49 FR 38046, September 26, 1984).

9. *Duty to Provide Information.* The permittee shall furnish to the Regional Administrator, within a reasonable time, any information which the Regional Administrator may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit. The permittee shall also furnish to the Regional Administrator upon request, copies of records required to be kept by this permit.

10. *Signatory Requirements.* All applications, reports, or information submitted to the Regional Administrator shall be signed and certified.

a. All permit applications shall be signed as follows:

(1) For a corporation: By a responsible corporate officer. For the purpose of this section, a responsible corporate officer means:

(i) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions for the corporation, or

(ii) The manager of one or more manufacturing, production, or operating facilities employing more than 250 persons or having gross annual sales or expenditures exceeding $25 million (in second-quarter 1980 dollars), if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

(2) For a partnership or sole proprietorship: By a general partner or the proprietor, respectively.

(3) For a municipality, State, Federal, or other public agency: by either a principal executive officer or ranking elected official. For purposes of this section, a principal executive officer of a Federal agency includes:

(i) The chief executive officer of the agency, or

(ii) A senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency.

b. All reports required by the permit and other information requested by the Regional Administrator shall be signed by a person described above or by a duly authorized representative of that person.

A person is a duly authorized representative only if:

(1) The authorization is made in writing by a person described above.

(2) The authorization specifies either an individual or a position having responsibility for the overall operation of the regulated facility or activity, such as the position of plant manager, operator of a well or a well field, superintendent, or position of equivalent responsibility, or an individual or position having overall responsibility for environmental matters for the company. A duly authorized representative may thus be either a named individual or any individual occupying a named position; and

(3) The written authorization is submitted to the Regional Administrator.

c. Certification. Any person signing a document under this section shall make the following certification:

I certify under penalty of law that this document and all attachments were prepared under the direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

12. *Availability of Reports.* Except for data determined to be confidential under 40 CFR Part 2, all reports prepared in accordance with the terms of this permit shall be available for public inspection at the office of the Regional Administrator. As required by the Clean Water Act, the name and address of any permit applicant or permittee, permit applications, permits, and effluent data shall not be considered confidential.

13. *Penalties for Falsification of Reports.* The Clean Water Act provides that any person who knowingly makes any false statement, representation, or certification in any record or other document submitted or required to be maintained under this permit, including monitoring reports or reports of compliance of noncompliance shall, upon conviction, be punished by a fine of not more than $10,000 per violation, or by both.

Section E. Notification Requirements

1. *Commencement of Operations.* Written notification of commencement of operations, including the legal name and address of the operator, the lease block number assigned by the Department of Interior or, if none, the name commonly assigned to the lease area, and the number and type of facilities located within the lease block, shall be submitted:

(a) Within 45 days of the effective date of this permit, by operators of lease blocks whose facilities are discharging into the general permit area on the effective date of the permit,

(b) Fourteen days prior to the commencement of discharge by operators facilities commencing discharge subsequent to the effective date of this permit.

In addition to the information required above, lease operators with leases located within *2000* meters of areas of biological concern shall identify those leases within the notification.

2. *Termination of Operations.* Lease block operators shall notify the Regional Administrator upon the permanent termination of discharges from their facilities within the lease block.

Section F. Additional General Permit Conditions

1. *When the Regional Administrator May Require Application for an Individual NPDES Permit*

The Regional Administrator may require any person authorized by this permit to apply for and obtain an individual NPDES permit when:

(a) The discharge(s) is a significant contributor of pollution;

(b) The discharger is not in compliance with the conditions of this permit;

(c) A change has occurred in the availability of the demonstrated technology or practices for the control or abatement of pollutants applicable to the point sources;

(d) Effluent limitation guidelines are promulgated for point sources covered by this permit;

(e) A Water Quality Management Plan containing requirements applicable to such point source is approved;

or

(f) The point source(s) covered by this permit no longer:

(1) Involve the same or substantially similar types of operations;

(2) Discharge the same types of wastes;

(3) Require the same effluent limitations or operating conditions;

(4) Require the same or similar monitoring;

and

(5) In the opinion of the Regional Administrator, are more appropriately controlled under a general permit than under individual NPDES permits.

The Regional Administrator may require any operator authorized by this permit to apply for an individual NPDES permit only if the operator has been notified in writing that a permit application is required.

2. When an Individual NPDES Permit may be Requested.

(a) Any operator authorized by this permit may request to be excluded from the coverage of this general permit by applying for an individual permit. The operator shall submit an application together with the reasons supporting the request to the Regional Administrator no later than (90 days after the publication).

(b) When an individual NPDES permit is issued to an operator otherwise subject to this general permit, the applicability of this permit to the owner or operator is automatically terminated on the effective date of the individual permit.

(c) A source excluded from coverage under this general permit solely because it already has an individual permit may request that its individual permit be revoked, and that it be covered by this general permit. Upon revocation of the individual permit, this general permit shall apply to the source.

Part III

Section A. General Permit Area

The area covered by this general permit includes the Gulf of Mexico located in lease areas seaward of the outer boundary of the territorial seas.

Section B. Other Conditions

1. *Samples of Wastes.* If requested, the permittee shall provide EPA with a sample of any waste in a manner specified by the Agency.

2. *Toxicity Test.* The approved test method for permit compliance is identified as:

U.S. Environmental Protection Agency Industrial Technology Division. May 1985. Appendix 3–Drilling Fluids Toxicity Test Proposed Regulation for the Offshore Subcategory of the Oil and Gas Extraction Point Source Category.

Section C. Definitions

1. "Annual average" means the average of all discharges sampled and/or measured during a calendar year in which daily discharges are sampled and measured, divided by the number of discharges sampled and/or measured during such year.

2. "Cooling water" means once through non-contact cooling water.

3. "Deck drainage" means all waste resulting from platform washings, deck washings, and run-off from curbs, gutters, and drains including drip pans and wash areas.

4. "Desalinization unit discharge" means wastewater associated with the process of creating fresh water from seawater.

5. "Domestic waste" means discharges from galleys, sinks, showers, and laundries only.

6. "Drilling cuttings" means particles generated by drilling into subsurface geological formations.

7. "Drilling fluids" means any fluid sent down the hole, including drilling muds and any specialty products, from the time a well is begun until final cessation of drilling in that hole.

8. "Produced waters" means waters and particulate matter associated with oil and gas producing formations. Sometimes the terms "formation water" or "brine water" are used to describe produced water.

9. "Produced sands" means sands and other solids removed from the produced waters.

10. "Sanitary waste" means human body waste discharged from toilets and urinals.

11. The term "Territorial seas" means the belt of the seas measured from the line of ordinary low water along that portion of the coast which is in direct contact with the open sea and the line marking the seaward limit of inland waters, and extending seaward a distance of three miles.

12. "Well completion and treatment fluids" means any fluids sent down the drill hole to improve the flow of

which contain biological assemblages consisting of such sessile invertebrates as sea fans, sea whips, hydroids

Service, January, 1983. Final regional environmental impact statement, Gulf of

VOL
50
ISS
144
JL
26
1985
UMI

12. "Well completion and treatment fluids" means any fluids sent down the drill hole to improve the flow of hydrocarbons into or out of geological formations which have been drilled.

13. "Uncontaminated Ballast/Bilge Water" means seawater added or removed to maintain proper draft.

14. "Blow out preventer control fluid" means fluid used to actuate hydraulic equipment.

15. "Fire control system test water" means the water released during the training and testing of personnel in fire protection.

16. "Live bottom areas" means seagrass communities or those areas which contain biological assemblages consisting of such sessile invertebrates as sea fans, sea whips, hydroids, anemones, ascidians, sponges, bryozoans, or carols living upon and attached to naturally occurring hard or rocky formations with rough, broken, or smooth topography; or whose lithotope favors the accumulation of turtles, fishes, and other fauna.

17. "No activity zones" means those areas identified by the Minerals Management Service where no structures, drilling rigs, or pipelines will be allowed. Those zones are identified as lease stipulations in: U.S. Department of Interior. Minerals Management Service, January, 1983. Final regional environmental impact statement, Gulf of Mexico. Additional no activity areas may be identified by MMS during the life of this permit.

18. "Inverse emulsion drilling fluids" means an oil-base drilling fluid which also contains a large amount of water.

19. "Areas of biological concern" means locations identified by MMS as "no activity zones" or "live bottom areas".

20. "Spotting" means the process of adding a lubricant (spot) down hole to free stuck pipe.

Part III

Department of Labor

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions; Notice

DEPARTMENT OF LABOR

General wage determination decisions are effective from their date of

Any person, organization, or

VOL 50 ISS 144 JUL 26 1985 UMI

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 5.1 (including the statutes listed at 36 FR 306 (1970) following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations. Procedure for Predetermination of Wage Rates, 48 FR 19533 (1983) and of Secretary of Labor's Orders 9–83, 48 FR 35736 (1983), and 6–84, 49 FR 32473 (1984). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 5.1 (including the statutes listed at 36 FR 306 (1970) following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations. Procedure for Predetermination of Wage Rates, 48 FR 19533 (1983) and of Secretary of Labor's Orders 6–84, 49 FR 32473 (1984). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Office of Program Operations, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Determination Decision.

Modifications to General Wage Determinations

The numbers of the decisions being modified and their dates of publication in the **Federal Register** are listed with each State.

Alabama:	
AL85–1004	May 31, 1985.
AL85–1005	Do.
Connecticut: CT85–3023	June 7, 1985.
District of Columbia: DC84–3009.	Apr. 6, 1984.
Indiana: IN83–2072	Sept. 2, 1983.
Montana: MT83–5101	Feb. 18, 1983.
Ohio:	
OH83–5123	Dec. 2, 1983.
OH83–5124	Do.
OH83–5125	Dec. 23, 1983.
OH85–5026	May 24, 1985.
OH85–5028	June 21, 1985.
Oklahoma: OK85–4011	May 10, 1985.
Pennsylvania: PA84–3000	Jan. 13, 1984.
Rhode Island: RI84–3043	Nov. 30, 1984.
Virginia: VA82–3034	Dec. 3, 1982.

Supersedeas Decisions to General Wage Determination Decisions

The numbers of the decisions being superseded and their dates of publication in the **Federal Register** are listed with each State. Supersedeas decision numbers are in parentheses following the numbers of the decisions being superseded.

Alabama: (AL85–1006).	AL85–1003	Feb. 22, 1985.
Maryland: (MD85–3041).	MD83–3010	June 3, 1983.
Missouri: (MO85–4022).	MO84–4054	Sept. 14, 1984.
New York:		
NY83–3043 (NY85–3039)		Aug. 19, 1983.
NY84–3005 (NY85–3040)		Mar. 2, 1984.

Signed at Washington, D.C. this 19th day of July 1985.

James L. Valin,

Assistant Administrator.

Group III	13.81	3.10
Group IV	13.08	3.10
Group V	11.61	3.10
POWER EQUIPMENT OPERATORS (Paving, Site Clearance and Utilities):		
Group I	13.40	3.10
Group II	12.72	3.10
Group III	11.93	3.10
Group IV	10.48	3.10

BUILDING POWER EQUIPMENT OPERATOR CLASSIFICATIONS

Group I - Operators handling or setting steel, stone prestressed concrete or machinery. Tower cranes.

Group II - Backfiller, backhoe, batching plants, boat captain, cableway, case type hoe (with a front end bucket over 1-½ yds.), concrete mixing plants, concrete paver, crane, derrick boat, double concrete pump, dragline, Kimco type overhead loader, elevating grader, excavating scoop (25 yds. and over), front end loader (1-3/4 yds. and over), gradall, grader, hoist (2 active drums or more), multiple conveyor, pile drinving machine, power shovel, repair mechanic, shield, standard guage locomotive, trenching machine, tunnel mucking machine, twin engine scraper, welder, whirley rig. D-9 Dozer.

Group III - Asphalt spreader, bull float, case type backhoe (with a front end bucket 1-½ yds. and under), concrete mixer (with skip), concrete pump, concrete spreader, excavating scoop (under 25 yds.), finishing machine, front end tractor loader (under 1-3/4 yds.), hi-lift fork lift, longitudinal float, narrow guage locomotive, one drum hoist, power roller, bulldozer screeding machine, stone crusher, stone spreader, sub-grader, tractor with attachments (2 or more provided both attachments are being used).

Group IV - Caterpillar type tractor, compressor, elevator operator, firemen, fuel truck, grease truck, grot pump, light plant, mighty midget with compressor, single conveyor, space heaters, welding machines, well-drill, wellpoint system.

Group V - Deck hands, oilers (all types)

(PAVING, SITE CLEARANCE UTILITIES) POWER EQUIPMENT OPERATOR CLASSIFICATIONS

Group I - Backfiller, backhoe, batching plants, cableway, case type hoe (with a front end bucket over 1-½ yds.), concrete mixing plants, concrete paver, derrick, derrick boat, double concrete pump, dragline, elevating grader, excavating scoop (25 yds. and over), front end loader (1 - 3/4 yds. and over), grader, gradall, hoist (2 active drums or more), pile driving machine, power crane, power shovel, repair mechanic, standards guage locomotive, trenching machine, tunnel mucking machine, twin engine scoop, welder, whirley rig, D-9 dozer

Group II - Asphalt spreader, bull float, Case type hoe (with a front end bucket 1 - ½ yds. and under), concrete mixer (with a slip), concrete pump, concrete spreader, ditch-witch type trencher, excavating scoop (under 25 yds.) finishing machine, front end loader (under 1 - 3/4 yds.), grout pump, hi-lift, longitudinal float, narrow guage locomotive, one drum hoist, power roller, bulldozer, screeding machine, stone crusher, stone spreader, tractor with attachments (2 or more provided both attachments are being used); subgrader, well-drill

Group III - Compressors, conveyors, firemen, fuel truck, grease truck, light plants, mighty midget with compressor, space heaters, welding machines, wellpoint system

Group IV - Oilers (all types)

Unlisted classifiestions needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29 CFR, 5.5(a)(1)(ii)).

DECISION NO. MD85-3041

Welders - receive rates prescribed for craft performing operation to which welding is incidental.

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day; G-Christmas Eve; H-Good Friday.

FOOTNOTES:
a. Holidays: A through F.
b. Employer contributes 8% of basic hourly rate for 5 years or more of service or 6% of the basic hourly rate for 6 months to 5 years of service as vacation pay credit.
c. Employee working Christmas Eve shall work 4 hours and receive 8 hours pay.
d. Holidays: A through F,H. Friday after Thanksgiving, and employee's birthday. vacation: One week per year after 1 year of service, 2 weeks after 3 years of service and 3 weeks after 10 years of service.
e. Holidays: A through F.
f. Employee with 1 year of service - 1 week's paid vacation; 2 - 3 weeks paid vacation, provided the employee has worked during the holiday week).
g. Holidays: A through H plus the employee's birthday; (provided the employee has worked one day and has been available for work during the holiday week).
h. Holidays: Employees with 1 year of service - 1 week paid vacation; 2 - 2 weeks paid vacation; 10 years - 3 weeks paid vacation.

(d)	19.07	4.04
Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29 CFR, 5.5(a)(1)(ii)).		

Power Equipment Operators

Group I - Backhoe; cableway; crane, crawler or truck; crane, hydraulic-truck or cruiser mounted - 16 tons & over; crane locomotive; derrick, steam; derrick car & derrick boat; dragline; dredge; gradall, crawler or tire mounted; locomotive, gas, steam & other powers; pile driver, land or floating; scoop, skimmer; shovel, power (steam, gas, electric, or other powers); switch boat; whirley

Group II - air tuggerw/air compressor; anchor-placing barge; asphalt spreader; athey force feeder loader (self-propelled); backfilling machine; boat operator-push boat or tow boat (jobsite); boiler, high pressure breaking in period; boom truck, placing or erecting; boring machine, footing foundation; bullfloat; cherry picker; combination concrete hoist & mixer (such as mixermobile); compressors, two, not more than 50 ft. apart; compressor (when operator runs throttle); compressor-generator combination, compressor-pump combination; generators, two 30 KW or over, or any number developing over 30 KW; generator-pump combination; compressor-welder combination; concrete breaker (truck or tractor mounted); concrete pump, such as pump-crete machine; concrete spreader; conveyor, large (not self-propelled), hoisting or moving brick and concrete into, or into and on floor level, one or both; crane, hydraulic-rough terrain, self-propelled; crane hydraulic-truck or cruiser mounted-under 16 tons; drilling machines,self-powered, used for earth or rock drilling or boring (wagon drills and any hand drills obtaining power from other sources including concrete breakers,jackhammers and barco equipment - no engineer required); elevating grader; engineman, dredge; excavator or coverbelt machine; finishing machine, self-propelled oscillating screed; forklift; grader, road with power blade; highlift; hoist; concrete and brick (brick cages or concrete skips operating in or on tower, towermobile, or similar equipment); hoist; stack; hydro-hammer; lad-a-vator, hoisting brick or concrete; loading machine (such as barber-greene); mechanic, on job site; mixer, paving; mixer-mobile; mucking machine; pipe cleaning machine; pipe wrapping machines; plant asphalt; plant, concrete producing or ready-mix job site; plant heating-job site; plant mixing-job site; plant power,-generating-job site; pumps, two self-powered over 2" through 6"; pumps, electric submersible, one through three, over 4"; quad-track; roller, asphalt, top or sub-grade; scoop, tractor drawn; spreader box; sub-grader; tie tamper; tractor-crawler, or wheel type with or without power unit, power take-offs, and attachments regardless of size; trenching machine; tunnel boring machine; vibrating machine automatic; automatic propelled; welding machines (gasoline or diesel) more than one but not over four (regardless of size); well drilling machine

Group III - Conveyor, large (not self-propelled); conveyor, large (not self-propelled) moving brick and concrete (distributing) on floor level; mixer two or more mixers of one bag capacityor less, air tugger w/plant air; boiler, for power or heating on construction projects; boiler, temporary; compressor, air-one; compressor air (mounted on truck; concrete saw, self-propelled;curb finishing machine; ditch paving machine; elevator (building construction or alteration); endless chain hoist; form grader; generator, one over 30 KW or any number developing over 30 KW; greaser; hoist; one drum regardless of size (except brick or concrete); lad-a-vator, other hoisting; manlift; mixer, asphalt, over 8 cu. ft. capacity, mixer, if two or more mixers of one bag capacity or less are

Group III - (Cont'd): used by one employer on job an operator is required; mixer, with outside loader, 2 bag capacity or more; mixer, with side loader,regardless of size, not paver; oiler on dredge; oiler on truck crane pug mill operator; pump, sump-self-powered, automatic controlled over 2" during use in connection with construction work; sweeper, street; welding machine, one over 400 amp.; winch operating from truck; scissor lift (used for hoisting); tractor, small wheel type 50 h.p. & under with grader blade & similar equipment

Group III(a) - Truck crane and dredge

Group IV - Boat operator-outboard motor (job site); conveyor (such as con-vay-it) regardlessof how used; oiler; sweeper, floor

Group IV(a) - Crawler type

Group V - (a) Air pressure, oiler engineer, operating under ten pounds (b) air pressure, oiler engineer operating over ten pounds (c) air pressure engineer operating under ten pounds (d) air pressure engineer operating over ten pounds (e) crane-piledriving and extracting; crane using rock socket tool; dragline - 7 cu. yds. & over; shovel, power - 7 cu. yds. and over; crane, climbing such as Linden); derrick, diesel, gas or electric hoisting material and erecting steel - 150' or more above ground; hoists, three or more drums; scoop,tandem; tractor, tandem crawler

Crane with boom (including jib), over 100' from pin to pin (add 1¢ per foot to maximum of $2.00) above basic rate for crane

Work in tunnel or tunnel shaft, .50¢ above base rate

TRUCK DRIVER CLASSIFICATION DEFINITIONS

GROUP 1 - Flat bed drivers; pick-ups and station wagons; tireman & station attendant; dump, aingle axle

GROUP 2 - Flat bed, tandem axle; dump, tandem; tank trucks, single axle

GROUP 3 - Agitator & transit-mix

GROUP 4 - Winch trucks; steel haulers, derrick & A-trucks; distributors drivers & operators; tank truck; tandem & semi-tractors; wheel tractors; oilers, greasers & mechanic helpers; heavy excavating & hauling euclids, dumpsters, etc.

GROUP 5 - Pork lifts & high lifts, etc., when unloading or carrying

GROUP 6 - Mechanics

SUPERSEDEAS DECISION

STATE: NEW YORK
DECISION NO.: NY85-3039
COUNTIES: BROOME & CHENANGO
DATE: DATE OF PUBLICATION
Supersedes Decision No. NY83-3043 dated August 19, 1983 in 48 FR 37801.
DESCRIPTION OF WORK: Building Construction (does not include single family homes and apartments up to and including 4 stories), Heavy (except water well drilling) & Highway Construction Projects.

	Basic Hourly Rates	Fringe Benefits
ASBESTOS WORKERS	18.70	3.41

DECISION NO. NY85-3039

FOOTNOTES:

PAID HOLIDAYS: A-New Year's Day, B-Memorial Day, C-Independence Day, D-Labor Day, E-Thanksgiving Day, F-Christmas Day

a. Paid Holidays: B, C & D, provided the employee has been on the payroll the week before the holiday and works the day following the holiday.

b. Paid Holidays: C & D, provided the employee works his scheduled day before and his scheduled day after the holiday and is on the payroll in the payroll week in which the holiday falls.

c. Paid Holidays: A through F, plus the day after Thanksgiving.

d. Employer contributes 8% of basic hourly rate for 5 years or more of service and 6% of basic hourly rate for 6 months to 5 years as vacation pay credit.

e. Paid Holidays: A through F, provided the employee has worked the day before and the day after the holiday.

f. Paid Holidays: A through F, plus Washington's Birthday, Good Friday, and Election Day for the President of the United States and Election Day for the Governor of New York State, provided the employee works the day before or the day after the holiday.

g. Paid Holidays: A through F, provided the employee works the day before and the day after the holiday.

CLASSIFICATION DESCRIPTIONS

LABORERS (BUILDING CONSTRUCTION):

CHENANGO (Twpa. of Columbia, New Berlin, South New Berlin and Sherburne):

Group 1: Laborers, mortar mixer, plaster mixer, power buggy, asphalt worker, chipping hammer 12 lbs. and over, mechanical tamp operators, vibrator and chain saw operator, powder man, pipe layer, form and joint setter, concrete boot, gunite and sandblasting, epoxy handlers, wagon drill operator, air track drill, jackhammer operator.

Group 2: Blaster.

Group 3: Asbestos and toxic chemical removal.

LABORERS (HEAVY & HIGHWAY CONSTRUCTION):

CLASS A: Laborers, drill helpers, outboard and hand boats.

CLASS B: Bull float, chain saw, concrete aggregate, bin concrete bootman, gin buggy, hand or machine vibrator, jackhammer, mason tender, mortar mixer, pavement breaker, handlers of all steel mesh, small generators for laborers' tools, installation of bridge drainage pipe, pipelayers, vibrator type rollers, tamper, drill doctor, tail or screw operator on asphalt paver, water pump operator (1½" and single diaphram), nozzle (asphalt gunnite, seeding and sand-blasting), laborers on chain link fence erection, rock splitter and power unit, pusher type concrete saw and all other gas, electric, oil and air tool operators, wrecking laborer.

CLASS C: All rock or drill machine operators (except quarry master and similar type), acetylene torch op., asphalt raker, powderman.

CLASS D: Blasters, form setter, stone or granite curb setters.

POWER EQUIPMENT OPERATORS (BUILDING CONSTRUCTION):

CLASS I: Cranes with boom and jib, 175 feet and over

CLASS II: Cranes with boom and jib, 130 feet and over

CLASS III: Cranes with boom and jib, 100 feet and over

CLASS IV: Automatic fine grader, backhoe, cableway, caisson auger, cherry picker (straddle - mobile type), cherry picker (hydraulic crane) over 5 ton, not more than (4), crane, derrick, diesel power unit, dragline, excavators (gradall type, hydraulically operated), front end loader (4 cubic yards and over), high speed conveyors (in one line), piledriver, shovel, two and three drum hoist, vibro or sonic hammer controls (when not mounted by rig operator), tower crane

CLASS V: "A" frame truck (when used in setting of installation of material), bulldozer, carry-all scrapper, cherry picker (5 ton or under), compressor (300 cubic feet and over), concrete paver and mixer, (16S and over), concrete pump, core boring machine, machine, crop dryer (when used as heater), dinkey locomotive, elevator cage hoist, fork lift, full time welder on maintenance, front end loader (under 4 cubic yard), grease truck, high pressure boiler, one drum hoist, maintenance engineer, post hole digger, power grader, pumps (4 inch and over), roller, side boom, test boring machine, tractor mounted backhoe, trenching machine, two cage elevator hoist, tugger hoist, vibto. tamp, well drill, well point system

CLASS VI: Concrete mixer (under 16S), conveyor, (over 12 foot), firemen, hydraulic pumps, oiler, mechanical heaters (more than two (2) mechanical heaters), power driven welding machine (300 amp. and over, other than all electric - one welding machine under 300 amp. will not require an engineer unless in a battery), pump (under 4 inch), tractor (farm type), steam jenny

POWER EQUIPMENT OPERATORS (HEAVY AND HIGHWAY CONSTRUCTION):

Group I: Automated concrete spreader (CMI), automatic fine grader, backhoe (except tractor mounted, rubbertired), belt placer (CMI type), blacktop plant (automated), cableway, caisson auger, central mix concrete plant (automated), cherry picker, (over 5 tons capacity) concrete pump (8" or over) crane, cranes & derricks (steel erection), dragline, dredge, dual drum paver, excavator (all purpose-hydraulically operated)(gradall or similar), fork lift (factor rated 15 ft. and over), front end loader (4 c.y. and over), machine or mole, over head crane (gantry or straddle type), piledriver, power grader, quarry master (or equivalent), scraper, shovel, sideboom, slip form paver (if second man is needed, he shall be an oiler), tractor drawn belt-type loader, truck crane, tunnel shovel.

Group II: Backhoe (tractor mounted, rubber tired), bituminous spreader and mixer, blacktop plant (non-automated), blast or rotary drill (truck or tractor mounted), boring machine, cage-hoist, central mix plant (non-automated) and all concrete batching plants, cherry picker (5 tons capacity concrete paver (over 16S), concrete pump (under 8"), crusher, diesel power unit, drill rigs (tract-or mounted), front end loader (under 4 c.y.), hi-pressure - boiler (15 lbs. and over), hoist (one drum) Kolman plant loader and similar type loaders (if another man is required to clean screen or to maintain the equipment, he shall be an oiler), locomotive, maintenance engineer/greaseman/welder, mixer (for stabilized base self-propelled), monorail machine, plant engineer, pump crete, ready mix concreteplant, refrigeration equipment (for soil stabilization), road widener, roller (all above subgrade), tractor with dozer and/or pusher, trencher, tugger-hoist, winch, winch cat.

Group III: A-frame truck, compressors (4 not to exceed 2000 C.F.M. combined capacity; or 3 or less with more than 1200 C.F.M. but not to exceed 2000 C.F.M.), compressors (any size but subject to other provisions for compressors), dust collectors, generators, pumps, welding machines (4 of any type of combination), concrete pavement spreaders and finishers, conveyor, drill-core, drill-well, electric pumps used in conjunction with well point system, farm tractor with accessories, fine grade machine, fork lift (under 15 ft.), gunite machine, hammers (hydraulic-self-propelled), post hole digger and post driver, power sweeper, roller (grader and fill), submersible electric pump (when used in lieu of well point system), tractor with towed accessories, vibratory compactor, vibro tamp, well point.

Group IV: Aggregate plant, boiler (used in conjunction with production), cement and bin operator, compressors (3 or less not to exceed 12 C.F.M. combined capacity), compressor (any size, but subject to other provisions for compressors), dust collectors, generators, pumps, welding machines (3 or less of any type or combination), concrete paver or mixer (16S and under), concrete saw (self-propelled), fireman, form tamper, hydraulic pump (jacking system), light plants, mulching machine, oiler, parapet-concrete or pavement grinder, power broom (towed), power heaterman, revinius widerner, shell winder, steam cleaner, tractor.

DECISION NO. NY85-3039

TRUCK DRIVERS (HEAVY & HIGHWAY CONSTRUCTION):

CLASS 1: Warehouseman, yardmen, truck helpers, pickups, panel trucks, flat-boy material trucks (straight jobs), single axle dump trucks, dumpsters, material checkers and receivers, greasers, truck tire-man, mechanic helpers and parts chaser.

CLASS 2: Tandems, batch trucks, mechanics and dispatcher.

CLASS 3: Semi-trailers, low-boy trucks, asphalt distributors trucks, agitator, mixer trucks and dumperete type vehicles, truck mechanic.

CLASS 4: Specialized earth moving equipment - euclid type or similar off-highway equipment, where not self loaded, and straddle (ross) carrier.

CLASS 5: Off-highway tandem back-dump, twin engine equipment and double hitched equipment where not self loaded.

SUPERSEDEAS DECISION

STATE: NEW YORK

COUNTIES: ALBANY, COLUMBIA, GREENE, FULTON, MONTGOMERY, RENSSELAER, SARATOGA, SCHENECTADY, SCHOHARIE, and WASHINGTON

DECISION NO. NY85-3040
DATE: Date of Publication
Supersedes Decision No. NY84-3005 dated March 2, 1984 in 49 FR 7911.
DESCRIPTION OF WORK: Building Construction (does not include single family homes and apartments up to and including 4 stories), Heavy Construction (except water well drilling), and Highway Construction Projects

	Basic Hourly Rates	Fringe Benefits
ASBESTOS WORKERS	16.60	2.36
BOILERMAKERS	18.93	3.381
BRICKLAYERS:		
Area 1:		
Bricklayers, Stone Masons, Marble Masons, Cement Masons, Plasterers, Pointers, Caulkers and Cleaners	14.80	4.01

DECISION NO. NY85-3040

a. Paid Holidays: Fourth of July and Labor Day, provided the employee works his scheduled day before and his scheduled day after the holiday and is on the payroll in the week in which the holiday falls.

b. Paid Holidays: Labor Day and Memorial Day, provided the employee is on the payroll the week before or the week after the holiday and works the day after the holiday.

c. Paid Holidays: Labor Day, provided the employee has been on the payroll the calender week or any day of the holiday week preceeding the holiday and works the day after the holiday.

d. Paid Holidays: Thanksgiving Day, provided the employee reports to work the day after the holiday.

e. Paid Holidays: New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day and the day after Thanksgiving Day.

f. Employer contributes 8% of basic hourly rate for 5 years or more of service or 6% of basic hourly rate for 6 months to 5 years of service as vacation pay credit.

g. Paid Holidays: Labor Day and Memorial Day, provided the employee works his scheduled day before and his scheduled day after the holiday and is on the payroll in the payroll week in which the holiday falls.

h. Paid Holidays: New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

i. Paid Holidays: New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, provided the employee works the day before and the day after the holiday.

j. Election Time Off: Two hours off with pay on the first Tuesday after the first Monday in November, provided the employees are working on a job beyond 50 miles from the shop.

k. One week vacation after 1 year; 2 weeks vacation after 5 years.

l. Paid Holidays: New Year's Day, Washington's Birthday, Good Friday Decoration Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day and Election Day for the President of the United States and Election Day for the Governor of New York State, provided the employee works the day before or the day after the holiday.

m. Blue Cross or Blue Shield, Plan B, or equal

DECISION NO. NY85-3040

n. Paid Holidays: New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Election Day, Christmas Day, provided employee is on the rolls prior to the holiday and works the first day following holiday.

o. New Year's Day, Lincoln's Birthday, Washington's Birthday, Good Friday, Memorial Day, Independence Day, Labor Day, Veteran's Day, Thanksgiving Day, Christmas Day, provided employee works on one day within the calendar week in which holiday falls.

AREA 1: ALBANY (except Cities of Watervliet and Cohoes); COLUMBIA (Stuyvesant, Stockport, Kinderhook, New Lebanon, Canaan, Ghent, Austerlitz); GREENE (except Twp. of Catskill); RENSSELAER (North Greenbush, East Greenbush, Schodack, Nassau, Stephentown).

AREA 2: ALBANY (Cities of Watervliet and Cohoes); RENSSELAER (Berlin, Sand Lake, Poestenkill, Schaghticoke, Pittstown, Hoosick, Brunswich, Grafton, Petersburg); SARATOGA (Stillwater, Half Moon); WASHINGTON.

AREA 3: FULTON (Bleeker, Mayfield, Northampton, Johnstown, Broadalbin, Perth); MONTGOMERY (Mohawk, Glen, Charleston, Amsterdam, Florida); SARATOGA (except the Twps. of Saratoga, Stillwater, Half Moon and Waterford); SCHENECTADY; SCHOHARIE.

AREA 4: FULTON (Stratford, Oppenheim, Caroga, Ephrata); MONTGOMERY (St. Johnsville, Minden, Canajoharie, Palatine Root).

AREA 5: GREENE (Catskill).

DECISION NO. NY85-3040

AREA DESCRIPTIONS (CONTINUED)

AREA 6: COLUMBIA (Greensport, Claverack, Hillsdale, Livingston, Germantown, Taghkanic, Copake, Clermont, Gallatin, Ancram).

PAINTERS:

AREA 1: ALBANY; COLUMBIA (Stockport, Ghent, Austerlitz, Canaan, New Lebanon, Chatham, Kinderhook, Stuyvesant, Greenport); GREENE (Greenville, Coxsackie, Catskill, New Baltimore); FULTON (except Twps. of Northamption, Mayfield and Broadalbin); MONTGOMERY; RENSSELAER; SARATOGA (Clifton Park, Half Moon, Waterford), Galway, Milton, Charlton); SCHENECTADY; SCHOHARIE (except the Twps. of Sharon, Seward, Richmondville, Summit, Jefferson, Blenheim, Gilboa and the western half of Fulton).

AREA 2: FULTON (Northampton, Mayfield, Broadalbin); SARATOGA (Day, Hadley, Corinth, Stillwater, Saratoga, Northumberland, Noreau, Wilton, Saratoga Springs City, Greenfield, Edinburg, Providence, Ballston); WASHINGTON (Fort Edward, Argyle, Hebron, Granville, Hartford, Kingsbury, Fort Ann, Whitehall, Hampton, Dresden, Putnam).

AREA 3: COLUMBIA (Remainder of County); GREENE (Remainder of County).

PLUMBERS:

AREA 1: ALBANY; COLUMBIA; GREENE; RENSSELAER; SARATOGA (Half Moon, Stillwater, Waterford).

AREA 2: MONTGOMERY (Minden, Canajoharie).

AREA 3: FULTON; MONTGOMERY (Remainder of County); SARATOGA (Clifton Park, Charlton, Galway, Milton); SCHENECTADY; SCHOHARIE.

AREA 4: SARATOGA (Remainder of County); WASHINGTON.

ROOFERS:

AREA 1: ALBANY; COLUMBIA; FULTON; GREENE; MONTGOMERY; RENSSELAER; SARATOGA; SCHENECTADY.

AREA 2: SCHOHARIE.

DECISION NO. NY85-3040

CLASSIFICATION DESCRIPTIONS

LABORERS (BUILDING CONSTRUCTION):

AREAS 1, 2, & 3:

GROUP 1: Common Laborers.
GROUP 2: Pipelayers, mortar mixers (hand or machine), jackhammer operator, wellpointing, concrete vibrators, power driven buggies.
GROUP 3: Form setters (curb).
GROUP 4: Wagon drill operator.
GROUP 5: Acetylene burners.
GROUP 6: Demolition.
GROUP 7: Blasters.

AREA 4:

GROUP 1: Common Laborers.
GROUP 2: Pipelayers, mortar mixers, motor buggy (walk behind), walk-behind power high lift.
GROUP 3: Wagon drill operator.
GROUP 4: Blasters, form setters, mortor buggy (rider type).

AREA 5:

GROUP 1: Common laborers, mason tenders, mortar mixers, hod carriers, scaffold builders, concrete men, signalman, vibrator operator, poured gypsum roof work, wrecking, walking power buggy, landscaper, chipping hammer (air or electric 1" or under), operation and tending of all power driven hand fed mortar or concrete mixers, pumpcrete machines, plastering, fireproofing and accoustic pumps and mixers.

GROUP 2: Asphaltmen, pipelayers, air or electric jackhammer, air track, wagon, joy and jib drills, powdermen, gunnite, concrete saw, sandblasting, pressure blasting, barmen, chain saw operator, riding power buggy, vibro, barco, joy tamper or similar type tamper (air or gas), walk behind roller, granite curbing, all fork lifts and laser operations.

GROUP 3: Blasters, form setters, burner acetylene torch, Ingersoll Rand, heavy duty crawler-master type HCMZ, drill machine or equivalent, all wrecking work 50' or more above the ground.

AREA 6:

GROUP 1: General laborers, mason tenders, carpenter tenders, laborer stripping and cleaning forms, laborer grading and digging ditches, sweepers, cleaners.

DECISION NO. NY85-3040

CLASSIFICATION DESCRIPTIONS (CONTINUED)

GROUP 2: Hod carriers, plasterers' tenders, scaffold builders (padlock and self-supporting scaffold 14 ft. or under all runways), mortar mixers (machine and hand), concrete mixers (by machine under 21E), vibrators, form setters, asphalt rakers, handling reinforcement rods, drillers, jackhammer operator, signalman, gunniting, motorbugs, water pump 2" or under, barco machine, wreckers, paving breakers, power saw operators, other machine operators.

GROUP 3: Blasters, laser beam operator.

LABORERS (HEAVY & HIGHWAY):

AREAS 1, 2, 3, & 4:

GROUP 1: Laborers, drill tenders, outboard and hand boats.

GROUP 2: Bull float, chain saw, concrete aggregate bin, concrete bootman, gin buggy, hand or machine vibrator, jackhammer, mason tender, mortar mixer, pavement breaker, handlers of all steel mesh, small generators for laborers' tools, installation of bridge drainage pipe, pipelayers, vibrator type rollers, tamper, drill doctor, tail or screw operator on asphalt paver, water pump operators (1½" and single diaphram), nozzle (asphalt, gunnite, seeding and sandblasting), laborers on chain link fence erection, rock splitter and power unit, pusher type concrete saw and all other gas, electric, oil and air tool operators, wrecking laborer.

GROUP 3: All rock or drilling machine operators (except quarry master and similar type), acetylene torch operators, asphalt raker, powderman.

GROUP 4: Blasters, form setters, stone or granite curb setters.

AREA 5:

GROUP 1: Laborer, pitman, chuck tender, dump men, handling and distributing of drinking water, placing and maintenance of all flares, lights, barracades and all reflective type materials for traffic control.

GROUP 2: Concrete men, vibrator men, asphalt men, joint setter, signal men, mason tenders, mortar men, pipelayers, rip rap and dry stone layers, steel rod carriers, jackhammer, pavement breaker, wagon drill, air track, jub rig and joy drill operators, power buggy operators, gunnite and sandblasting, coal passers and other machine operators, sprayer and nozzle men on mulching and seeding machines, guard rail and fencemen, waterproofing, spraying and brushing of concrete for preservative purposes, all seeding and sod laying, all landscape work, grade checkers,

DECISION NO. NY85-3040

CLASSIFICATION DESCRIPTIONS (CONTINUED)

all bridge work, walk behind self-propelled power saw, walk behind rollers and tampers of all types, wrecking laborers (including barmen and burnermen), all sheeting and shoring, bit grinder, operator of form pin pullers and drivere, joint and jet sealers and filling and wiring of baskets for gabion walls, permanent sign man, sta-wall or similar type product, chain saw operator.

GROUP 3: Concrete finisher on highways, form setter, granite stone layer, Ingeraoll Rand heavy duty crawler-master type HCM2 or equivalent or any drill using a 4" or larger bit.

AREA 6:

GROUP 1: General laborers.

GROUP 2: Concrete men, signal man, mason tender, pipelayer, riprap and dry stone layer, asphalt worker, screed bar operator, jackhammerman, wagon driller, air-track operator, nippers, powderman, high scalers, power buggy operator, steel rod carrier, vibrator operator compactor, wrecking laborers, gunnite and sandblasting, water pumps 2" or under.

GROUP 3: Blaster, form setter, laser beam operator.

POWER EQUIPMENT OPERATORS (BUILDING CONSTRUCTION):

GROUP I - Oiler, fireman and heavy-duty greaser, boilers, and steam generators, pump, vibrator, mortar mixer, air compressor, dust collector, welding machine, well point, mechanical heater, generators, temporary light plants, contrete pumps, electric submersible pump 4" and over, murphy type diesel generator, conveyor, elevators, concrete mixer and beltcrete power pack (belcrete system).

GROUP II - Bulldozer, push cat, tractor, traxcavator scraper, LeTourneau grader, form fine grader, road roller, blacktop roller, blacktop spreader, power brooms, sweepers, trenching machine, Barber Green loader, side booms, hydro hammer, concrete spreader, concrete finishing machine, high lift, fork lift, one drum hoist, power hoisting (single drum), hoist - two drum or more, three drum engine, power hoisting (two drum and over), two drum and swinging engine, three drum swing engine, hod hoist, A-L fram winches, core and well drillers (one drum), post hole digger, model CHB Vibro-Tamp or similar machine, batch bin and plant operator, dinkey locomotive, seeding and mulching machines.

DECISION NO. NY85-3040

CLASSIFICATION DESCRIPTIONS (CONTINUED)

GROUP III - Crane, hydraulic cranes, tower crane, locomotive crane, piledriver, cableway, derricks, whirlies, dragline, shover, backhoe, gradalls, power road grader, all CMI equipment, fornt-end rubber tire loader, tractor-mounted drill (quarry master), mucking machine, concrete central mix plant, concrete pump, belcrete system, automated asphal concrete plant and tractor road paver.

GROUP IV - Maintenance Engineer.

POWER EQUIPMENT OPERATORS (HEAVY & HIGHWAY CONSTRUCTION):

GROUP I - Automated concrete spreadr (CMI), automatic fine grader, backhoe (except tractor mounted, rubber tired), belt placer (CMI type), black top plant (automated), cableway, caisson auger, central mix concrete plant (automated), cherry picker (over 5 tons capacity), concrete pump (8" or over), crane, cranes & derricks (steel erection), dragline, dredge, dual drum paver, excavator (all purpose-hydraulically operated) (gradall or similar), fork lift (factory rated 15 ft. and over), front end loader (4 c.y. and over), head tower (sauerman or equal), hoist (2 or 3 drum), Holland loader, mine hoist, mucking machine or mole, over head crane (gantry or straddle type), piledriver, power grader, quad 9, quarry master (or equivalent), scraper, shovel, sideboom, slip form paver, tractor drawn belt-type loader, truck crane, truck or trailer mounted log chipper (self-feeder), tug operator (except manned rented equipment), tunnel shovel.

GROUP II - Backhoe (tractor mounted, rubber tired), bituminous spreader and mixer, blacktop plant (non-automated), blast or rotary drill (truck or tractor mounted), boring machine, cage-hoist, central mix plant (non-automated) and all concrete batching planta, cherry picker (5 tons capacity and under), compressors (4 or less) exceeding 2000 C.F.M. combined capacity, concrete paver (over 16S), concrete pump (under 8"), crusher, diesel power unit, drill rigs (tractor mounted), front end loader (under 4 c.y.), hi-pressure - boiler (15 lbs. and over), hoist (one drum) Kolman plant loader and similar type loaders, L.C.M. work boat operator, locomotive, maintenance engineer/greaseman/welder, mixer (for stablized base self-propelled), monorall machine, plant engineer, pump crete, ready mix concrete plant, refrigation equipment (for soil stabilization), road widener, roller (all above subgrade), sea mule, tractor with dozer and/or pusher, trencher, tugger-hoist, winch, winch cat.

GROUP III - A-frame truck, ballast regulator (ride-on), compressors (4 not to exceed 2000 C.F.M. combined capacity; or 3 or less with more than 1200 C.F.M. but not to exceed 2000 C.F.M.), dust collectors, generators, pumps, welding machines, light plants (4 of any type of combination), concrete pavement spreaders and finishers, conveyor, drill core, electric pump used in conjunction

CLASSIFICATION DESCRIPTIONS (CONTINED)

with well point system, farm tractor with accessories, fine grade machine, fork lift (under 15 ft.), grout pump gunnite machine, hammers (hydraulic-self-propelled), hydra-spiker (ride-on), hydro-blaster water, post hole digger and post driver, power sweeper, roller (grade and fill), scarifier (ride-on spansaw (ride-on), sumbersible electric pump (when used in lieu of well point system), tamper (ride-on), tie extractor (ride-on), tie handler, tie inserter (ride-on), tie spacer (ride-on), track liner, tractor with towed accessories, vibrator compactor, vibro tamp, well point.

GROUP IV - Aggregate plant, boiler (used in conjunction with production), cement and bin operator, compressors (3 or less not to exceed 1200 C.F.M. combined capacity), dust collectors, generators, pumps, welding machines, light plants (3 or less of any type or combination), concrete paver or mixer (16S and under), concrete saw (sel-propelled), fireman, form tamper, hydraulic pump (jacking system), light plants, mulching machine, oiler, parapet-concrete or pavement grinder, power broom (towed), power heaterman, Revinius widener, shell winder, steam cleaner, tractor.

TRUCK DRIVERS (BUILDING CONSTRUCTION):

GROUP 1: Straight, winch, transit mix on job site, road oilers, dump, panel, pick-up, water and fuel trucks on site (including nozzle.

GROUP 2: Euclid or similar equipment, lowboy or lowboy trailers.

TRUCK DRIVERS (HEAVY & HIGHWAY CONSTRUCTION):

GROUP 1: Pick-ups, panel trucks, flatboy material trucks (straight jobs), single axle dump trucks, dumpsters and receivers, greasers, truck tireman.

GROUP 2: Tandems, batch truck, mechanics.

GROUP 3: Semi-trailers, low-boy trucks, asphalt distributor trucks, agitator, mixer trucks and dumpcrete type vehicles, truck mechanic and fuel truck.

GROUP 4: Specialized earth moving equipment - euclid type or similar off-highway equipment, where not self-loaded, straddle (ross) carrier, and self-contained concrete unit.

GROUP 5: Off-highway tandem back dump, twin engine equipment and double hitched equipment where not self-loaded.

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 30, 31, 32, 35, and 40

Medical Use of Byproduct Material

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is proposing to revise its regulations to modify the process for licensing and regulating the medical use of radioactive byproduct material. The proposed revision would primarily affect hospitals, clinics, and individual physicians.

By clarifying and consolidating all the essential radiation safety requirements that are now contained in the regulations, license conditions, regulatory guides, and staff positions, the proposed regulation provides a single source of requirements related specifically to medical use of byproduct materials. The proposed regulation also provides flexibility for licensees to update their day-to-day radiation safety procedures. The revision of the regulations would provide a more efficient method for regulating the medical uses of byproduct material.

DATE: Comment period expires November 18, 1985. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments filed on or before this date.

ADDRESSES: Submit written comments and suggestions to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch.

Copies of the preliminary regulatory analysis and the comments received may be examined at the Commission's Public Document Room at 1717 H Street NW., Washington, DC. Single copies of the preliminary regulatory analysis and environmental impact assessment are available from Norman L. McElroy, Office of Nuclear Material Safety and Safeguard, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: (301) 427–4108.

FOR FURTHER INFORMATION CONTACT: Norman L. McElroy, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: (301) 427–4108.

SUPPLEMENTARY INFORMATION:

ByProduct Material in Medicine

Use for Patient Care

Radioactive materials are used in drugs in the field of nuclear medicine. Drugs labeled with radioisotopes are known as radiopharmaceuticals. In diagnostic nuclear medicine, patients receive these materials by injection, inhalation, or oral administration. Physicians use radiation detection equipment to visualize the distribution of a radioactive drug within the patient. Using this technology, it is possible to locate tumors, assess organ function, or monitor the effectiveness of a treatment. In therapeutic nuclear medicine, larger quantities of radiopharmaceuticals are administererd to treat hyperactive thyroid conditions and certain forms of cancer. An estimated 15 to 20 million nuclear medicine procedures are performed in this country annually.

Sealed radioactive sources that produce high radiation fields are used in radiation therapy to treat cancer. A radioactive source in a teletherapy machine can be adjusted to direct a radiation beam to the part of the patient's body to be treated. An estimated 2 million teletherapy treatments are performed annually by NRC licensees. Smaller, less radioactive sealed sources are designed to be implanted directly into a tumor area or applied on the surface of an area to be treated. This procedure is known as brachytherapy. NRC licensees perform approximately 10,000 brachytherapy treatments annually.

Sealed radioactive sources can also be used in machines that are used for diagnostic purposes. The source provides a beam of radiation that is projected through the patient. A device on the other side of the patient detects the amount or spatial distribution of radiation that goes through the patient. This can provide information about tissues within the patient. This is a relatively new development in the field of medicine and the NRC has no estimate of the number of these diagnostic procedures performed annually.

State and Federal Regulation

Twenty-seven states, known, as Agreement States, have assumed responsibility for regulating certain radioactive materials within their respective borders by agreement with the NRC. (This kind of agreement is authorized by the Atomic Energy Act.) They issue licenses for the medical use of byproduct material. In non-Agreement States, the NRC issues licenses to medical institutions (mostly hospitals and clinics) and to individual physicians. These licenses authorizes certain disgnostic and therapeutic uses of radioactive materiáls.

NRC's Regulatory Program

Policy Regarding the Medical Use of Byproduct Material

In a policy statement published in 1979 (44 FR 8242), the NRC noted that it regulates the medical use of byproduct material as necessary to provide for the radiation safety of workers and the general public, regulates the radiation safety of patients where justified by the risk to patients, and minimizes its intrusion into medical judgments affecting patients, and into other areas traditionally considered to be the practice of medicine. The NRC does have the authority to regulate the medicial use of byproduct material to protect the health and safety of patients, but also recognizes that physicians have the primary responsibility for the protection of their patients. NRC regulations are predicated on the assumption that properly trained and adequately informed physicians will make decisions in the best interest of their patients.

This revision retains NRC's current balance between adequate controls and avoidance of undue interference in medical judgments. Too much regulation could result in poorer health care delivery to patients. Insufficient regulation could result in the unwarranted or unsafe use of radiation.

Current Licensing Practice

The current regulations in 10 CFR Part 35, "Human Uses of Byproduct Material," provide for general and specific licenses for medical use.

The general license in current § 35.31 authorizes physicians to use small quantities of prepackaged, individual dosages of byproduct materials. Physicians simply submit a registration Form NRC–482 to NRC. A validated copy with a registration number is returned to the applicant.

Most medical institutions and physicians who use byproduct material need more byproduct material than can be permitted under the general license program. A specific license, which authorizes a larger inventory of byproduct material and a wider variety of uses, may be issued for one or more of six types of medical use, defined as Groups I–VI in the current § 35.100. Each group is comprised of a number of diagnostic or therapeutic procedures that have been grouped together because they require similar physician training and radiation safety

precautions for safe use. A separate specific license may also be issued for use of a teletherapy unit. Applications for a specific license are much more detailed than a general license application and actually contain the applicant's step-by-step radiation safety procedures, which are reviewed and approved individually by NRC.

The NRC has issued 650 general licenses, and in 1983 received seventeen new applications. NRC currently has about 2500 specific medical licensees (2200 hospitals and 300 physicians in private practice). In 1983, the NRC received 143 new applications for specific licenses, 647 license renewal applications, and 1,772 license amendment requests for a total of 2,562 licensing actions.

To help licensees design their radiation safety programs, the NRC has published many NUREG reports and regulatory guides that contain radiation safety guidance. These publications address three general areas: radiological health and safety, personnel training and experience, and facilities and equipment. Experience has shown that if licensees follow the guidance in the publications, the medical use of byproduct material generally poses no hazard to workers and the public.

Problems with Current Practice

The General License. The general license program is based on the fact that the quantities and forms of material that are authorized by a general license present a very low health risk. The NRC believes it is no longer efficient to issue medical general licenses. The tests authorized under § 35.31 have been superseded by newer procedures with greater diagnostic accuracy. These developments have been reflected by a significant decrease in applications for general licenses. As noted above, although NRC has on file 650 in-vivo general licenses under § 35.31, only seventeen new applications were received by NRC in 1983.

To determine the status of general license use, the staff performed a telephone survey of 10 percent of the current registrants. The survey results indicated that less than 9 percent of all the current registrants still use material under a general license; many are now using byproduct material under a specific license. Because of the low level of use of the general license, the NRC has concluded that it no longer serves a useful role in licensing the medical use of hyproduct material.

The Specific License. Because of the potential radiation hazard to workers and the public, the specific license program incorporates three regulatory features: case-by-case review of applications, on-site inspections, and periodic license renewals.

A major problem with the current licensing program is that radiation protection requirements are not located in one document. Requirements are scattered in the regulations, Inspection and Enforcement (IE) orders that modify a license or group of licenses, and in conditions attached to individual licenses. Suggestions for good practice are contained in NRC regulatory guides and technical reports (NUREG's). For example, Regulatory Guide 10.8, "Guide for the Preparation of Applications for Medical Programs," and NUREG–0267, "Principles and Practices for Keeping Occupational Radiation Exposure at Medical Institutions As Low As Reasonably Achievable," contain many recommendations that the NRC believes are important for the safe use of byproduct material. The revision of Part 35 incorporates those recommendations, and also corrects the piecemeal fashion in which the regulations have been amended over the years to address specific problems.

When preparing a specific license application for review under the current licensing program, the applicant must include sufficient information to assure NRC reviewers that byproduct material will be used safely. Applicants include, as an integral part of the application package, copies of their proposed step-by-step radiation safety procedures. In many cases, the procedures are edited versions of procedures described in Regulatory Guide 10.8.

When NRC receives the application, a licensing reviewer evaluates the applicant's training and experience, facility, equipment, and radiation safety procdures in detail. If the application is found to be incomplete or inadequate, a "deficiency letter" is sent to the applicant explaining what additional information is needed. Review of the application is not resumed until a written response from the applicant has been received. Staff studies indicate that about 40 percent of all applicants receive either a deficiency letter or a phone call for additional information. The need for deficiency letters stems from two sources. Guidance on what is needed to get a license is unclear and scattered in various documents. Application review practice must be conservative because the application and license comprise the basis for regulatory control. Deficiency letters are costly for the NRC and the applicant and greatly increase the time needed to complete licensing actions.

When the application, including any additional submitted information, is approved, the NRC issues a specific license that grants the authority for medical use of byproduct material in accordance with the program described in the application. Requirements in addition to those contained in the regulations are frequently incorporated in the license as conditions of use. Since the licensee must comply with conditions specified in the license, the license, rather than the regulations, is frequently used to regulate radiation safety in the day-to-day use of byproduct material.

The specific license is valid for five years. The license must be amended before methods of use or procedures may be added or changed, or before permitting additional physicians to use materials. Amendments to a specific license involve an application, review, and approval process similar to that for new licenses. Renewals are treated in the same manner as new license applications.

This regulatory process was appropriate during the evolution of the use of byproduct material in medicine. Radiation safety problems were not well defined, regulatory requirements had not caught up with developing technology, physician training curricula had not been established, and there were no formal training programs for nuclear medicine technologists. Therefore, it was necessary to regulate by reviewing each individual radiation safety program to ensure that the applicant had adequate personnel, facilities, and equipment.

Proposed Revision of the Regulatory Program

Overview

NRC intends to modify its regulation of the medical use of byproduct material. The Commission plans to revise the regulations to provide a single source of requirements specifically related to medical use of byproduct materials, and within the boundaries set by the regulations, allow medical licensees to modify their radiation safety procedures, facilities, and equipment so they can make prompt use of new safety methods and also meet new needs caused by changes in demand for various patient care services or in patient load. The proposed revision of 10 CFR Part 35 is consistent with the Commission's general policy on medical use of byproduct material issued February 9, 1979 (44 FR 8242). It states "NRC will continue to regulate the medical uses of radioisotopes, as necessary, to provide for the radiation

safety of workers and the general public."

reduces the amount of time NRC must spend reviewing procedures.) The

Officers, but would be a new requirement for qualified teletherapy

licensees who want to use the new material will have to submit a request

continue to review user training and experience. The NRC will review site-

VOL 50 ISS 144 JL 26 1985 UMI

safety of workers and the general public."

Codification of Requirements in the Regulations

NRC proposes to simplify regulation of medical licensees by incorporating all medical use requirements in 10 CFR Part 35. These regulations would become the primary means of regulating the medical use of byproduct material. General safety requirements for worker instruction, worker safety, noncompliance reports, and materials licensing that are in Parts 19, 20, 21, and 30 will also continue to apply to Part 35 licensees. The current license application process will be unchanged. The applicant prepares a complete Form NRC-313. That form asks for the following information: the name and mailing address of the applicant; the location of use; a person who can be contacted about the application; what materials are requested; the purpose (in this case, "medical use"); the training and experience of the authorized users and Radiation Safety Officer; the worker radiation safety training program; facilities and equipment; the radiation safety program; and waste management. Licensees would not face significant new regulatory burdens because, in most cases, these requirements are currently imposed as license conditions. Under the proposed revision, the license would authorize medical use of byproduct materials for specified types of use. A licensee's day-to-day uses would be controlled by the regulations. This would simplify inspections for NRC because inspectors would only need to be familiar with one set of regulations rather than a different set of license conditions and radiation safety procedures at each facility.

License Application, Issuance, and Authority and Responsibility

New revisions of Regulatory Guide 10.8, "Guide for the Preparation of Applications for Medical Programs," and Draft Regulatory Guide TM 608-4, "Guide for the Preparation of Licenses in Medical Teletherapy Programs," will contain instructions on the type and extent of information that must be submitted based on what byproduct materials the applicant has requested. They will also contain model procedures that the applicant can use to develop site-specific procedures. (Consistent with current practice, applicants will alternatively be allowed to simply certify that they will follow the model procedure developed by NRC staff with public comment and published in a regulatory guide to meet a certain requirement. This method significantly reduces the amount of time NRC must spend reviewing procedures.) The applicant mails the completed application, with application fee, to the NRC office identified on the form.

The NRC staff will continue to review the application to determine whether the applicant's radiation safety program is sufficient to meet the requirements of the regulations. After completing the review, if the applicant's program appears incomplete or inadequate, NRC will issue a deficiency letter that describes the apparent shortcomings in the applicant's program and requests clarification or correction. If the applicant's response to the deficiency letter is satisfactory (or if no deficiency letter was needed), the license will be issued.

Licensees will be free to modify their procedures after conducting a required internal review and approval process. At medical institutions, the Radiation Safety Committee would review and approve a modified procedure before it could be implemented. At non-institution facilities, the Radiation Safety Officer (RSO) and management would review and approve changes. This will allow each licensee to make prompt use of new safety methods and to adjust radiation safety procedures to meet new needs caused by changes in demand for patient care services or patient load. A list of radiation safety topics that should be considered when reviewing proposed changes will be published as an appendix in Regulatory Guide 10.8. The right to modify procedures does not relieve the licensee from the requirement to comply with the regulations. This regulatory scheme would *not* incorporate the current requirement that licensees use byproduct material in accordance with the statements made in the application.

This proposed regulatory program, which gives more discretionary authority, and concomitant responsibility, to the licensee, represents a change in the policy that has guided NRC's regulation of medical licensees for several years. The NRC particularly invites comment on whether this change is appropriate at this time, and whether or not it will benefit licensees, workers, and the public.

The proposed regulations require specific training and experience for the use of material in each use group. Proposed authorized user physicians and qualified teletherapy calibration experts (identified in current Part 35 as qualified experts) will have to submit summaries of their training and experience. This is currently required for authorized users and Radiation Safety Officers, but would be a new requirement for qualified teletherapy calibration experts, whose credentials are currently reviewed by the licensee. The staff will review those individuals' training and experience against the standards in the regulation before authorizing them to work under the license. (Also consistent with current practice, any individual who does not meet the standards may ask for an exemption from the training and experience requirements. The NRC staff will review the individual's training and experience with the assistance of its Advisory Committee on the Medical Use of Isotopes, and may issue the exemption as a license condition.)

Enforcement

Under this regulatory scheme, a licensee will be cited for failure to meet the requirements of the regulations or license conditions (which would list, for example, authorized users, locations of use, authorized methods of use, authorized byproduct material and inventory limits, and other site-specific limitations), failure to have on hand the written procedures required by the regulations, failure to follow the procedures on hand, failure to have the records required by the regulations, or failure to follow technically valid procedures (examples: Using an instrument that doesn't work, not determining instrument detection efficiency, not allowing an instrument enough time to respond, or making unsubstantiated assumptions in calculations). Use of material can be authorized either by license or by virtue of working under supervision; use without authorization would be a violation of the regulations and the Act, which would subject the user to an enforcement action.

Amendments

As mentioned above, under the current regulatory scheme, the licensee is required to handle material exactly according to the radiation safety procedures submitted with the application. The NRC frequently receives requests for permission to modify day-to-day radiation safety procedures. Because the regulations will now contain sufficient prescriptive and performance criteria on which to base enforcement actions, the NRC would allow a licensee to change its radiation safety procedures without preparing a formal amendment request, paying an amendment fee, and awaiting NRC approval. This would *not* relieve the licensee from the regulatory requirement to comply with the regulations in Part 35 or in other parts of 10 CFR Chapter I.

Four types of program changes will still require formal license amendments:

(1) *New users.* The NRC will review the training and experience of each proposed authorized user, Radiation Safety Officer, and qualified teletherapy calibration expert as described above before listing the individual on a license.

(2) *New type of use.* A licensee's request to add a type of use (for example, adding radiopharmaceutical therapy to a license that authorizes radiopharmaceuticals for imaging) to an existing license will be handled as a new application. The authorized user's training and experience will be reviewed for adequacy with respect to the new type of use, and procedures that must be submitted in support of the request will be reviewed for completeness and adequacy with respect to the new type of use before the amendment is issued.

(3) *New method of use.* Two developments may occur but only one type of license amendment will be needed:

(a) If a new radioactive material becomes available, and the radiation safety procedures needed for its safe use are identical to the procedures already established for an already established and authorized use (for example, a new imaging agent administered by intravenous injection), no license amendment will be required. Instead, the new material will be added by rulemaking to the list of materials in the appropriate use group specified in the regulations. The NRC will mail to licensees a notice that says those who are authorized to use material in that group may begin using the new material on the effective date of the final rule that adds the new material to the regulations.

(b) If a new radioactive material becomes available but its safe use depends on following a new procedure that current licensees have not submitted and NRC has not reviewed, two actions will be taken.

(i) The new material will be added by rulemaking to the appropriate use group in the regulations but authorization to use it will be limited to persons who were licensed after it was added to the use group and who have submitted the new procedure for review in their application packages.

(ii) NRC will mail to current licensees a notice that says they may apply for authorization to use the new material. With that notice, NRC will also supply a model procedure, which would become a new appendix in Regulatory Guide 10.8, for the new material. Those licensees who want to use the new material will have to submit a request for amendment which includes a proposed procedure that will be reviewed by NRC for completeness and adequacy.

(4) *New location of use.* Two types of amendment may be needed:

(a) A request to leave one location of use and begin working in a new location, for example when moving a private practice to a new office or when moving into a new hospital building, will have to be supported by a complete new application package.

(b) Some licensees receive packages, prepare radiopharmaceuticals, and package waste at a central facility, but actually use the byproduct material at satellite locations. This might be a mobile nuclear medicine service that provides diagnostic services at clients' facilities such as clinics, small hospitals, or nursing homes, or it may be a licensee that has a principal facility and outlying clinics. If the licensee has been approved to offer service at satellite locations, a request to add another satellite location will only have to identify the new location. (Due to the training, space, and equipment commitments needed for safety during therapy procedures, the NRC will generally not authorize licensees to perform therapies at satellite locations. This type of request will be handled on a case-by-case basis.)

Renewals

The NRC license is valid for five years. If a person wants to continue using byproduct material the license must be renewed. The renewal application must completely describe the entire radiation safety program just as a new application does. If a previously submitted radiation safety procedure, facility description, or equipment list still accurately reflects that part of the licensee's program, the renewal applicant may simply make a clear reference to the previous submission. If the licensee has changed a procedure, is using different areas of use, or is using different equipment, a complete new description of the particular procedure, area of use, or equipment must be submitted. The licensee may also take this opportunity to identify new authorized users or request authorization for new types or methods of use.

Summary of Changes Proposed in the Regulatory Program

In summary, the regulation will be amended to require that licensees meet standards that are currently imposed by license conditions. The NRC will continue to review user training and experience. The NRC will review site-specific radiation safety procedures for completeness and adequacy and issue deficiency letters if necessary, but will allow licensees to change procedures that were submitted in support of the application after conducting an internal radiation safety review of each change. However, the right to change procedures does not relieve the licensee from the requirement to comply with the regulations. Amendment requests will generally be reviewed just as new applications are reviewed, but they may incorporate by reference the original application and any previous amendments.

Notes

Word Usage

In preparing the proposed revision of Part 35, one goal was to remove language that might be misinterpreted. The following words used in the revision may require clarification.

1. *Licensee.* The person (individual, partnership, corporation, or agency) listed on the license as the "licensee" is responsible for compliance with regulations and license conditions. The licensee may effect compliance through full-time or part-time employees, contracts with consultants or service organizations, or other business arrangements. The word "licensee" is used throughout the regulation to stress the fact that, no matter which method is used, the licensee is legally responsible in case of non-compliance.

2. *Type of use* and *group.* In the current Part 35 there are six "groups" of use described in § 35.100. Each group is comprised of a set of medical procedures that require similar training and equipment for radiation safety purposes. The word "group" has not been used in the proposed revision in order to avoid confusion between the old and new Part 35. The revision uses the phrase "type of use" for this concept. Some types of use are amalgamations of old groups, and some types are new. The six types of use are: (1) Uptake, dilution, and excretion—Subpart D; (2) imaging and localization—Subpart E; (3) radiopharmaceutical therapy—Subpart F; (4) brachytherapy—Subpart G; (5) sealed sources for diagnosis—Subpart H; and (6) teletherapy—Subpart I.

3. *Method of use* and *procedure.* The word "procedure" is frequently used in supporting documentation for by product materials programs. Sometimes it refers to a specific set of steps that must be taken to effect an end, for example a procedure for ordering and

receiving packages. Sometimes it is used to indicate a type of medical

revision this concept of perfunctory examination is referred to as a "check."

be operable. If a piece of equipment is not operable or reliable, whether due to

under Part 33 that include medical use. They are issued to large medical/

Transition Policy for General Licensees

Transition Policy for Specific Licensees

VOL 50 ISS 144 JL 26 1985 UMI

receiving packages. Sometimes it is used to indicate a type of medical examination or treatment, for example a thyroid uptake study or a cesium implant therapy, without indicating the amount of byproduct material used or the specific steps taken in handling it. The word may also be used to indicate the number of patients cared for over a period of time, for example an average workload of fifteen procedures each day. In order to avoid confusion, the phrase "method of use" appears in the proposed revision. Each type of use is comprised of several methods of use. Each method of use should identify, explicitly or by context, the radionuclide, its chemical and physical form, method of administration, and purpose (diagnosis or therapy).

4. *Dose* and *dosage.* In pharmacy, the word "dose" is used to indicate the amount of chemical administered; in radiation biology it is used to indicate the amount of ionizing energy absorbed per unit mass; and in radiation safety it is used as a shorthand term to indicate a worker's exposure to radiation. In order to avoid confusion, the word "dosage" is used in the proposed revision to indicate quantities of radioactivity that are measured with the base unit Curie. The word dose is used to indicate quanities of radiation absorbed dose or doss equivalent that are measured with the base unit rad or rem.

5. *Record* and *report.* A record is a user-retrievable notation or complete document. It may consist of something as small as a check-mark on a form or something as extensive as a survey of a newly installed teletherapy unit with appended calculations to demonstrate compliance with the limits on exposure in uncontrolled areas. A report is a transfer of information which might be made face to face, by telephone, telegram, computer link, or hard copy transmittal.

6. *Test* and *check.* For many pieces of equipment, drafting committees comprised of industry experts have prepared standards of performance and complete calibration protocols. If a piece of equipment is subjected to the protocol in the calibration laboratory and meets all the standards, then the ability of the equipment to perform as expected in normal field use is assured. In the proposed revision this concept of complete examination is referred to as a "test." During field use it is common practice to subject a piece of equipment to a quick examination to determine whether it is working. This procedure does not examine all parameters of equipment performance. In the proposed revision this concept of perfunctory examination is referred to as a "check."

7. *Location of use, facility,* and *area of use.* The phrase "location of use" is used to describe the building or buildings (typically identified by a single street address) where byproduct material is used. The word "facility" connotes a room or contiguous rooms where byproduct material is used, such as a nuclear medicine clinic comprised of an office, an imaging room, and a dosage preparation and waste storage room. The phrase "area of use" connotes the space used by worker when performing a specific task connected with receiving, handling, or storing byproduct material.

8. *Chemical form.* The current regulation requires that if a radiopharmaceutical is used for indications other than those described in the package insert, the user must nevertheless follow instructions on chemical and physical form, dosage, and route of administration. The proposed revision has deleted the word chemical in its restatement of this requirement because to change the chemical form would be to create a radiopharmaceutical other than the one received from the authorized distributor. Deletion of this word in the proposed revision does not authorize Part 35 licensees to manufacture radiopharmaceuticals.

9. *Available for use.* In many cases the regulation states an equipment possession requirement because the piece of equipment is considered by experts to be an integral part of the radiation safety program. In a few cases the need for a piece of equipment is sporadic and normally scheduled weeks in advance. For example, a licensee who has a diagnostic sealed source in a device (see § 35.500) usually only needs a survey instrument when receiving or returning a radioactive source; there is no need to have the instrument on hand every day. The phrase "available for use" is intended to connote that the licensee either may possess equipment or contract for measurement services, but is not required to have regular day-to-day possession of the described equipment.

10. *Dedicated check source.* A long-lived radioactive source can be used to check the day-to-day constancy of an instrument. The *same* source (a "dedicated" source) must be used every day so that the user knows what reading to expect from the instrument. The source may also be used for other purposes.

11. *Operable.* The word "operable" is not used in the proposed regulation because every piece of equipment must be operable. If a piece of equipment is not operable or reliable, whether due to old or absent batteries, incomplete or improper maintenance, damage, inappropriate use, or improper use, it cannot be used to meet a regulatory requirement because there is no assurance that it accomplished the task for which it was used.

12. *Implement.* This verb is used with its ordinary definition, which is "to carry out, accomplish, or ensure fulfillment of."

13. *Promptly.* This word is used with its ordinary definition, which is "performed readily or immediately."

Record Retention

The Commission requires that licensees make and retain records as evidence of compliance with regulations and license conditions. A review of records during inspections is the least burdensome way that the Commission may be assured that the licensee has developed and implemented a radiation safety program. However, permanent retention of all required records, or retention between inspections, would be unreasonable and would run counter to recent guidance to regulatory agencies that was issued by the Office of Management and Budget. Therefore the Commission has, in the proposed revision, generally adhered to the following policy.

1. For recurring records that are created on a daily basis, for example end-of-day surveys, and for most non-recurring, sporadic, or periodic records, such as individual patient dosage measurements or survey instrument calibrations, the Commission has made a judgment that records retention for two years provides adequate evidence of compliance with requirements.

2. In a few cases a record is only created once or the Commission considers the record to be essential evidence of compliance with regulations that, if not followed, might cause an immediate discernible impact on a worker or member of the public (for example, requirements for the geometry test for a dose calibrator and the teletherapy dosimetry equipment calibration, respectively). In those cases the Commission has made a judgment that retention for the duration of use of the equipment or of the license is necessary.

Effect on Broad Licensees

In addition to the more common "group" licenses which the NRC issues that authorize by product material for uses described in the groups, the NRC has also issued about 100 broad licenses

under Part 33 that include medical use. They are issued to large medical/academic institutions that have had several years experience using radioactive materials.

About 50 of the medical use broad licenses that have been issued vest in each institution's Radiation Safety Committee the authority to permit medical practitioners to use byproduct material for both patient care and medical research, to permit individuals to use byproduct material for research in test tubes and animals, and to review the facilities and radiation safety procedures that these individuals will use. Before NRC issues a broad license it reviews the applicant's administrative and safety procedures, the training and experience of the Radiation Safety Officer and of each individual member of the Committee, and the standards and management procedures it will use when reviewing permit requests. This type of license is needed to allow for the orderly evolution of the medical sciences. The NRC will continue to review Committee member qualifications on a case-by-case basis because the size and individuality of each broad license program precludes the preparation of generic prescriptive qualifications. These licensees would be required to comply with the proposed prescriptive and performance criteria of Part 35, but would be exempted from the training and experience requirements of Subpart J and the authorized materials and authorized use restrictions in proposed §§ 35.49, 35.100, 35.200, 35.300, 35.400, and 35.500.

The other 50 medical broad licenses that have been issued are similar to the license described above, except that the Committee only has the authority to permit individuals to use material in test tube and animal research, and only authorizes medical use in accordance with the groups in current § 35.100. The NRC would continue to review the training and experience of medical practitioners before allowing them to use material for medical use. Because control of medical use in these cases is the same as that exercised over the more common group licensees, the basis for a determination of compliance will be the same as that described below for group licensees.

Because, whether at a group or broad license facility, teletherapy is separately licensed "for treatment of humans" and because the NRC reviews qualifications of proposed users and safety procedures, no significant inconsistencies with current teletherapy programs or new teletherapy programs are expected.

Transition Policy for General Licensees

The general license in current § 35.31 has been eliminated from the proposed regulations. In the future, all medical use will be specifically licensed. Current general licensees, all of whom are physicians, will receive a specific license that will be incorporated into NRC's filing system for keeping track of specific licensees. However, they will be limited to the methods of use described in the current § 35.31, and relieved, by license condition on a pre-printed license, from the requirements that are more burdensome than the current general licensee requirements. The only action general licensees will need to take is to respond affirmatively to an NRC notice that asks if they want to continue to have an NRC license that is limited to the methods of use authorized by the current general license.

The Commission proposes, under § 170.11(b), to continue to exempt these licensees from application and renewal fees as long as their programs are limited to the material uses described in current § 35.31. Under the new specific licensing system, former general licensees that want to make any changes in their programs, amend their licenses, or transfer them to other physicians, will have to apply under the new licensing scheme and will be subject to all the fees that apply to other specific licensees.

The Commission proposes to waive fees to former general licensees for the following reasons. General licensees do not now pay fees. About 90% of the 600 or so general licensees are inactive. Each year NRC receives only a very few requests for general licenses under § 35.31. There would be no NRC review time needed and only a minor NRC administrative cost to process these licenses. It would be unfair to charge these licensees the fees listed in 10 CFR Part 170, and it would be more costly for NRC to alter that fee structure than to grant the exemption.

The current Part 35 also grants a general license for in vitro work described in § 31.11 to group licensees without requiring that they submit an in vitro registration form. Under the proposed regulation, applicants would have to specifically request this authorization as a line item on their applications. Part 31 will be amended to continue the in vitro authorization for current medical licensees until their licenses are renewed. In either case, the use of § 31.11 materials within the inventory limits of that section will only be subject to the requirements of § 31.11.

Transition Policy for Specific Licensees

Under the current regulatory program, the license document with the appended application is used to regulate each individual licensee. Because the requirements in the proposed revision were taken from commonly used topical license conditions and regulatory guidance that most licensees have incorporated into their applications, the Commission does not expect any significant inconsistencies between current licensee radiation safety programs and radiation safety programs of applicants that apply after the effective date of the propsed regulations. Therefore, current licensees will normally be cited if they do not comply with the new regulations. However, because each current licensee's radiation safety program was reviewed individually and license conditions were tailored to meet the licensee's individual needs, there may be an occasional inconsistency between a license condition and the regulation (for example, a license may require survey instrument calibration biennially, but the proposed regulation would require calibration annually). There is no health and safety reason to undo these licenses to effect compliance with the regulation. To impose the regulation in addition to or in lieu of the license conditions would not provide for significant additional health and safety. The Commission therefore proposes to resolve possible temporary inconsistencies between license conditions and the regulation by providing in the regulation a transition period between the effective date of the final rule and the expiration date of each license. During this transition period, if there is an inconsistency between a provision in a license (issued prior to the regulation) and the regulation, the proposed regulation states that the license condition would take precedence over the regulation. Because the license conditions were reviewed from the perspective of overall safety and approved by the NRC, the inconsistency would not result in an increased risk to workers or the public.

In addition to the topical license conditions mentioned above (for example, sealed source leak test requirements, special bioassay requirements, radioactive patient surveys and release limits, or waste disposal restrictions), each specific license has an encompassing license condition that requires each licensee to possess and use licensed material in accordance with the statements, representations, and procedures contained in the license application and

in letters of clarification. Despite this encompassing condition, licensees would be allowed to make changes in

guides would be consolidated into a concise set of regulations. The

document, but this does not relieve them of the requirement to conduct their work

of this part, the phrase "location of use"

VOL 50 ISS 144 JL 26 1985 UMI

in letters of clarification. Despite this encompassing condition, licensees would be allowed to make changes in their radiation safety programs; permissible changes would be restricted to those identified in § 35.36, and the licensee would have to conduct the internal review required by that section.

In the case of record retention, the regulation will generally take precedence because, in the past, the Commission has not offered much guidance on this topic. Many applicants have either not specified a period of retention or have incorporated a single, all encompassing record retention phrase "until the Commission authorizes their disposal," rather than shouldering the burden of justifying to NRC a shorter period. If a record is substantively the same as a record described in the proposed regulation and the licensee has not stated a retention period for that specific record, licensees could adopt the retention period stated in the final rulemaking. However, licensees would still have to comply with any record retention period required by a topical license condition or another Part (for example Part 20) of the regulations. (For example, surveys that provide the basis for occupational dose records or measurements of effluent release are governed by Part 20.)

NRC does not currently review qualified teletherapy calibration expert credentials, and does not identify the Radiation Safety Officer on the license. Under this proposal, NRC would begin to review their credentials and identify both of them just as it does now for authorized users. To add current licensees to this new scheme, licensees would be required to submit their credentials for review and approval when the next amendment or renewal request is required. These individuals would be identified on the next license amendment.

The NRC particularly requests public comment on this transition policy and would like to know if licensees envision problems of interpretation or compliance that the staff might not foresee.

Discussion of Proposed Regulations

The primary purpose in initiating this revision to the regulations is to simplify the regulatory process by providing licensees with a single source of requirements for the medical use of byproduct material. Radiation protection standards now contained in several existing regulations, Inspection and Enforcement orders that modify a single license or group of licenses, technical reports (NUREGs), standard conditions of licenses, and regulatory guides would be consolidated into a concise set of regulations. The requirements that apply to all licensees appear first, followed by the specific requirements for each of the six basic types of use.

In the proposed regulation, items of general information, general administrative requirements, and general technical requirements are addressed first in Subparts A through C, respectively. Subparts D through I contain the additional technical requirements that apply to licensees for each of the six new types of use. Subpart J lists the training and experience requirements, and Subpart K lists the penalties for violations of the regulations.

In order to maintain consistency among the various parts of NRC's regulations, conforming amendments have been made to the affected sections of Parts 30, 31, 32, and 40. These conforming amendments can be found immediately after the revised Part 35. A section-by-section discussion of the proposed revision of Part 35 follows.

Title

The title of Part 35 has been changed from "Human Uses of Byproduct Material" to "Medical Use of Byproduct Material" to better reflect the scope of the part.

Authority

This listing provides notice of the statutory basis for the regulations. It also provides notice that the NRC may initiate criminal prosecution of persons who knowingly and willfully do not comply with the prescriptive requirements issued under section 161b or the recordkeeping and reporting requirements issued under section 161o.

Subpart A—General Information

Section 35.1 Purpose and scope.

The regulations in this part apply to all persons licensed by the Commission to intentionally administer byproduct material or the radiation from byproduct material to humans, and to individuals working under their supervision.

Section 35.2 License required.

This section requires that persons have a license issued by the Commission or an Agreement State before they handle byproduct material for medical use. The Commission uses the specific licensing process to limit the use of byproduct material to persons who have the equipment, facilities, training, and experience needed to ensure its safe use. Individuals who are working under the supervision of an authorized user do not need a license document, but this does not relieve them of the requirement to conduct their work in accordance with requirements of the license and the regulations of this chapter. The licensee remains responsible for the noncompliance of such agents or employees, and may be subject to sanctions for their failure to comply.

Section 35.6 Information collection requirements: OMB Approval.

This section provides notice that the Office of Management and Budget has reviewed and approved the information collection requirements contained in this part.

Section 35.15 Definitions.

The term "Agreement State" applies to those states that have entered into an agreement with NRC to assume responsibility for regulating the use of byproduct material within their borders.

The word "ALARA" was added ton identify the acronym for the phrase "as low as reasonably achievable."

The term "area of use" was added to identify a place in which byproduct materials are received, used, or stored. The term is used in § 35.36 to authorize licensees to use byproduct materials in rooms, suites, or building wings not identified in the application.

The term "authorized user" was added to identify individuals who are identified by name on a license and who are authorized by the Commission or an Agreement State to administer byproduct material, or the radiation therefrom, to humans for medical care, and supervise its use by others.

The term "dentist" wa added to identify a group of practitioners licensed by the States who might use byproduct materials in their practice.

The term "medical use" was included to help identify the scope of this part. The word "intentional" was included in the definition to make it clear that occupational and nonoccupational exposures under the regulations of Part 20, accidental exposures, and unwanted exposures from other sources of radiation (e.g., nuclear powered cardiac pacemakers, smoke detectors, and radioactive waste) are not considered medical use. The phrase "in the practice of medicine in accordance with a license" was included to make it clear that NRC recognizes that States may have different difinitions of medical practice or different levels of control and that licensees should not interpret that NRC license as a pre-emption of State medical regulations or an attempt to direct the States' regulation of medical practice.

The word "medical institution" was added to identify organizations in which the radiation safety program depends on the cooperation of individuals from several different departments.

The word "management" was added to identify the individual responsible for defining the licensee's policies and allocating personnel, budget, and space resources.

The word "misadministration" was included to define those instances in which a mistake has been made in the medical use of byproduct material. The definitions are the same as those in the current § 35.41.

The term "mobile nuclear medicine service" was added to describe the transport of byproduct material for the purpose of offering diagnostic nuclear medicine services at addresses other than the principal business address of the licensee.

The word "output" was added to describe the amount of radiation in a teletherapy beam.

The word "physician" was included to identify individuals licensed by the States to practice medicine and therefore eligible to use byproduct meterial in the practice of medicine.

The word "podiatrist" was added to identify a group of practitioners licensed by the States who might use byproduct materials in their practice.

The term "qualified teletherapy calibration expert" was included to replace the term "qualified expert" which is used in the current § 35.24. The new term better reflects the training, experience, and responsibilities of the individual who is responsible for calibrating a licensee's teletherapy unit.

The term "Radiation Safety Officer" was added to identify the individual named on a license and who is responsible for managing the licensee's radiation safety program.

The term "sealed source" was included to identify byproduct material that is specially encapsulated to prevent leakage or escape during use and storage. It is the same definition as use in § 30.4.

The term "visiting authorized user" was added to identify individuals listed as authorized users on one license who, while working for another licensee on a temporary or occasional basis, use byproduct material under the restrictions of the temporary employer's license, which does not identify the visitor as an authorized user. This authorization is based on a frequently used topical license condition.

Section 35.16 Application for license, amendment, or renewal.

At an institution, only management may apply for a license; individual physicians would be listed on that license as authorized users. An individual physician may not apply for use within a medical institution (an organization that provides various medical services). This requirement reflects the need for coordination with other employees who may not be under the administrative control of the authorized user. For use sited outside a medical institution, such as for private practice or mobile service, any person may apply. An application must be filed on Form NRC–313 because it elicits information in an orderly manner that will allow for uniformity in application review procedures.

Teletherapy applications must be submitted separately because the scope and nature of information needed is much different than that needed for the other types of medical use. This requirement does *not* imply that the applicant should have two separate safety programs.

This section also reflects the Commission's decision to delegate to Regional Administrators some licensing functions which, until recently, were conducted in the headquarters. This program was described in **Federal Register** notices published May 27, 1982 (47 FR 23138), April 14, 1983 (48 FR 16030), May 9, 1984 (49 FR 19630), and April 15, 1985 (50 FR 14692).

Section 35.17 License amendments.

The Commission requires that the licensee obtain an amendment for any changes in the byproduct material program that might increase the potential for radiation exposure to workers and the general public, or make it difficult for the Commission to conduct its inspection program. The Commission has determined that certain changes are potentially significant for the following reasons and thus will require an amendment:

(1) The NRC must be assured that the licensee has adequate training and experience and facilities before authorizing a change in the type or method of medical use or amount of byproduct material used. Such a change might also indicate a need for increased inspection frequency.

(2) The use of byproduct material at an address not identified on the license would make it impossible for the Commission to make unannounced inspections. The Commission relies on the unannounced inspection to assure day-to-day compliance. For the purpose of this part, the phrase "location of use" refers to a building. (Moving from one room to another within a building would not constitute a change in location of use.)

(3) The Commission must be assured that the training and experience of Radiation Safety Officers, authorized users, and qualified teletherapy calibration experts is sufficient to assure that they are able to understand and follow regulations for the safe use of byproduct material.

Section 35.18 Notifications.

A notification requirement was added to require the licensee to notify the Commission if an authorized user, Radiation Safety Officer or qualified teletherapy calibration expert is no longer affiliated with the licensee's byproduct material program. Without this notice the NRC would not have assurance that the collective training and experience of the licensee's remaining personnel is adequate to ensure the safe use of byproduct material for all the types of use authorized by the license. The Commission has made a judgment that notification within 30 days is sufficient because technicians who have worked under the supervision of the authorized user can adequately ensure the safe receipt and proper storage of byproduct material. However, absence of an individual to oversee a byproduct material program may increase the probability of an accumulation of unused byproduct material or unauthorized use of material. This presents an unacceptable potential hazard.

Section 35.28 License issuance.

The Commission has selected a license term of five years. A shorter term would not benefit the public health and safety because past experience indicates that medical programs do not generally change significantly over that period of time. A shorter term may unduly interfere in patient care because the licensee would spend an inordinate amount of time requesting renewals. A longer term may occasionally result in unintentional abandonment of the license.

The applicant must use Form NRC–313 to provide for an orderly safety review of the applicant's program. The Commission will apply certain standards when reviewing an application so as to ensure that the safety of workers and the public will not be compromised if the license is granted. The staff must be assured that the applicant's proposed equipment and

facilities are adequate to protect health and minimize danger to life or property

In this proposed rulemaking the Commission has not required non-

21023), and as a final rule on September 13, 1982 (47 FR 40149).

assure that exposures remain ALARA considering the few program

locations where the licensee might not have clear and direct control over

material or different kinds of material

VOL 50 ISS 144 JL 26 1985 UMI

facilities are adequate to protect health and minimize danger to life or property (§ 30.33(a)(2)), and that the authorized users are qualified by training and experience to use the material for the purposes listed in the application in such a manner as to protect health and minimize danger to life or property (§ 30.33(a)(3)), and that applicant has established procedures adequate to assure that safe use of byproduct material.

Concerning fees, Congress has directed that agency services, such as licensing and inspection, must be self-sustaining to the extent possible.

Section 35.29 Specific exemptions.

As part of an application or amendment request, a person may request an exemption from any requirement of this part. The NRC occasionally receives requests for exemptions from procedural, equipment, or training standards. The Commission may allow the exemption if the applicant can show that it will not compromise the health and safety of workers and the public.

Subpart B—General Administrative Requirements

Section 35.30 ALARA program.

An ALARA program is a management tool needed to assure that all reasonable efforts are made to assure that safe use of byproduct material. (See 'Management Organization and Administration for ALARA' by Kathren, *Health Physics*, Vol. 42, No. 2, February 1982, p. 119–131, and 'Radiation Safety in a Nuclear Medicine Department,' by Gandsman et al., *Health Physics*, Vol. 38, No. 3, March 1980, p. 399–408.) In an institution many workers from different departments might be occasionally exposed to byproduct material. The Commission has made a judgment that a formal ALARA program is the only management tool that can ensure a cooperative effort to reduce individual and collective dose and ensure regular safety reviews. Specific requirements usually considered part of an ALARA program are required by §§ 35.31 amd 35.32.

The annual briefing of management by the Radiation Safety Officer on the byproduct material program is intended to assure that licensee management knows what kinds of byproduct material are used in which departments, which workers are involved, its use, the regulatory requirements that govern its use, and current and potential radiation safety problems. Management needs this information to ensure that its decisions do not inadvertently result in activities contrary to the regulations or license conditions.

In this proposed rulemaking the Commission has not required non-institutional licensees, such as one or a few physicians in private practice, to have a formal ALARA program because, for those licensees, the physician authorized user is usually also the Radiation Safety Officer, management, and the line manager. Hence, any formal ALARA report requirement would consist of the physician reporting to himself. However, the Commission would appreciate comments as to whether *all* medical licensees should have a formal ALARA program. If so, should small licensees conduct an internal annual review or should that review be conducted by someone who is not associated with the licensee's program on a day-to-day basis? Commenters are reminded that the exhortation in 10 CFR 20.1(c) to make every reasonable effort to maintain radiation exposures and releases of radioactive materials ALARA applies to medical licensees.

Section 35.31 Radiotion Safety Officer.

The Radiation Safety Officer is an individual with special expertise who is needed to coordinate the safe use of byproduct material in accordance with the license and the Commission's regulations.

Section 35.32 Radiation Safety Committee.

The proposed Part 35 requires institutional licensees to establish a Radiation Safety Committee to oversee the use of byproduct material. The committee is required because, in an institution, radiation safety for *all* workers (users and ancillary staff) and the public depends on the cooperation of employees from administratively separate departments. Without the benefit of committee discussion, authorized users may not be aware of radiation safety problems outside their own department that are caused by their patients, packages, or waste. The Committee's deliberations will provide management and authorized users with information that is needed to optimize allocation of resources available for radiation safety. A Committee is not required for licensees that are not medical institutions because such organizations generally do not have the multi-armed, multi-tiered management structure typical of medical institutions. In non-institutions the authorized user is likely to be part of management and a line supervisor for ancillary workers; therefore a formal committee structure would serve no useful purpose. A similar requirement was published as a proposed rule on April 9, 1979 (44 FR 21023), and as a final rule on September 13, 1982 (47 FR 40149).

Committee membership must include a physician identified on the institution's license as an authorized user or byproduct material for each type of use permitted by the license, the institution's Radiation Safety Officer, a representative of the institution's management, and a representative of the nursing service.

Institutions that only request a license for diagnostic sealed sources will be exempted from this requirement by license condition because the radiation safety program would not depend on the cooperation of individuals from several different departments. Packages would arrive infrequently, there would be no chance of contaminating an entire room or suite, no radioactive waste, no radioactive patients, and little chance of loss of material.

To assure the safety of workers and the public in light of site-specific exigencies, the Committee must review on the basis of safety: (1) The qualifications of each individual to be listed as an authorized user, and (2) each proposed method of use. In its reviews, the Committee should consider compliance with NRC regulations, special physical or chemical containment problems, the amount of byproduct material that will be used, and the relative hazard of the material, all in light of the licensee's facility and staff.

The Committee must review occupational exposures quarterly. A more frequent review would inappropriately emphasize normal and expected statistical variations in exposure data. A less frequent review would not provide for timely notice of unnecessary or unnecessarily high doses.

The quarterly review should be guided by two trigger levels for individual doses. The lower level would be a minimum level below which no action need be taken. Above the minimum level, the source of exposure should be determined and consideration given to methods of reducing the exposure rate. The higher level should trigger immediate intervention by the Radiation Safety Officer to reduce the exposure. The committee should review the appropriateness and completeness of the intervention, and should develop a permanent solution to maintain doses at a lower level.

The annual review of the safety program is needed to determine its adequacy in light of the current and projected use of all byproduct material. In the Commission's judgment, a review at least once each year is adequate to assure that exposures remain ALARA considering the few program adjustments typically made during any single year. More time between reviews might not permit the committee to make timely recommendations for reducing unnecessary worker, public, or patient exposure by, for example, changing space allocation, purchasing new equipment, or changing procedures.

Section 35.33 Requirement for authority and statement of responsibilities.

To ensure that material is used safely, the Radiation Safety Officer and Radiation Safety Committee need a clear statement of their duties from management so that questions about authority, responsibility, and jurisdiction do not keep these individuals from acting.

Section 35.34 Visiting authorized user.

The uninterrupted provision of medical care occasionally requires a visiting authorized user to work for a host licensee when its permanent staff may be unable to do so. This was allowed in the past by a standard license condition. If the licensee had a copy of another licensee's NRC license that listed the visitor as an authorized user, the visitor could work under the license for sixty days each year without requesting a license amendment. The scope of this concept has been expanded to allow NRC licensees to employ Agreement State authorized users. Because the visiting authorized user's training and experience has been reviewed for health and safety consideration by a regulatory agency, this short-term authorization will not pose an undue risk to public health and safety. The purpose of written permission is to assure that the required records have been reviewed and found complete.

When exercising this privilege, host licensees should identify each individual method of use authorized by their license, each individual method of use authorized by the visitor's license, and each individual method of use that the visitor will be allowed to do at the host facility. Note that in some cases the Agreement States' groups, schedules, or subparts do not correspond to those of the NRC. The visitor can only do those procedures authorized by *both* licenses.

Section 35.35 Mobile nuclear medicine service administrative requirements.

Mobile nuclear medicine service has been limited to diagnostic medical use because the inherent hazard of therapeutic amounts of byproduct material makes it unsuitable for use in locations where the licensee might not have clear and direct control over personnel, facilities, or equipment. The Commission will continue, on a case-by-case basis, to authorize provision of low level radiopharmaceutical therapy by mobile nuclear medicine services. These licensees are required to have a letter of permission from the management of each client to assure that the client management is aware of and in agreement with the medical use of byproduct material within the facility.

Mobile service may not be provided to licensed clients because, in case of a spill or dose rates above regulatory limits, the responsibility for corrective action may be clouded.

Section 35.36 Radiation safety program changes.

This section allows the licensee to make changes in the radiation safety program that was described in the application if the changes are within the requirements of the regulation. The purpose of this authorization is to allow the licensee to respond to changes in staff levels, available equipment, or patient load that may require reallocation of floor space, or to make changes that may be necessary for patient care, administrative, radiation safety, or economy needs. Before implementing any change, the licensee must make a record of safety matters that were considered when planning the change. The record will be used during unannounced inspections to determine whether the licensee has made changes that are contrary to the regulations, license conditions or orders, and during termination surveys to provide an indication of every area where material was used.

The Commission notes that this change in the current licensing process under which *all* radiation safety program changes must be approved by license amendment, recognizes that, in the end, public health and safety is based on three features: (1) NRC regulates who may use byproduct material for medical use by listing authorized users on the license; (2) NRC regulates the degree of hazard, balanced with medical needs, by only allowing certain chemical and physical forms for medical use; and (3) NRC regulates where byproduct material may be used to allow for unannounced inspections of licensee radiation safety programs. This proposal would retain those regulatory features by requiring licensees to receive a license amendment before using material for new clinical methods of use not permitted by the license; before permitting new authorized users to use material; before receiving more material or different kinds of material than permitted by the license; and before using material at locations not listed on the license. These are major changes in a licensee's radiation safety program for which a license amendment would still be required (see § 35.17). Under this proposal all other changes (such as selecting replacement equipment, re-arranging the nuclear medicine clinic, switching from one service contractor to another, or switching to an alternative equipment quality assurance procedure) would be minor changes.

The Commission would appreciate comments on this major/minor dividing line or threshold. Is this dividing line clear and complete? Are there other features that should be considered as major changes, or are some of these major changes really not important to health and safety? Is there some other dividing line, either fixed or flexible, that would clarify which changes are really not important to health and safety and may therefore be made by the licensee? Alternatively, should the Commission continue to require licensees to submit all radiation safety program changes for agency approval?

Section 35.37 Records and reports of misadministrations.

The proposed Part 35 retains the misadministration definitions and reporting and recordkeeping requirements of the current Part 35. A discussion of these requirements appears at 45 FR 31701, published May 14, 1980.

Although the Commission has not revised its misadministration reporting and recordkeeping requirements, it would like to take this opportunity to ask for public comment on these requirements based on the experience gained since the requirements were first published in final form five years ago. For both diagnostic and therapeutic misadministrations, are the current requirements adequate to protect the public health and safety or should they be made more or less stringent? Should the regulations require prompt notification of the patient who received the misadministration? Do the regulations provide the public with a clear notice of the Commission's role when there is misadministration? Should the Commission take enforcement action against licensees who misadminister by product material or radiation to patients? If so, what type of enforcement action should be taken?

Section 35.38 Supervision.

The authorized user is allowed to use byproduct material in the

economy and efficiency, the NRC uses voluntary national standards in its regulatory program if they provide

record of the assay results. This is required to ensure that the patient

Section 3.3.5.3 recommends a minimum detectable limit of 0.005 microcuries for

individual handling a vial of byproduct material

measure of safety for the general public,

VOL 50 ISS 144 JL 26 1985 UMI

Section 35.38 Supervision.

The authorized user is allowed to use byproduct material in the practice of medicine. Frequently, specific tasks may be delegated (under §§ 35.2(b) and 35.38) to individuals with less training and experience. However, it is necessary that a qualified individual instruct them, oversee their work on a frequent basis, and be available to promptly respond in unusual or emergency situations. The regulation requires that supervised individuals comply with instructions, procedures, and the regulations.

The NRC has not specified which tasks may be delegated to whom because the practice of medicine is regulated differently in each State and because medical services must also be responsive to each community's particular needs. The NRC particularly requests comment on whether special training elements should be clearly identified for certain tasks that are delegated or whether the general guidance is sufficient.

Section 35.49 Suppliers.

In order to authorize only the use of materials reviewed by the government for safety and effectiveness considerations, authorized users may use only byproduct material that has been manufactured and distributed under procedures that were reviewed for safety by the NRC, the Food and Drug Administration (FDA), or an Agreement State.

The NRC will continue its current practice of allowing, on a case-by-case basis, re-transfer of radiopharmaceuticals between Part 35 licensees if an applicant specifically requests an exemption from this section and shows the exemption is in the public interest.

Subpart C—General Technical Requirements

Section 35.50 Possession, use, calibration, and check of dose calibrators.

A dose calibrator is needed to ensure that the dosage of material given is the dosage that was prescribed. It must be tested for accuracy, the ability to exactly measure a specified quantity, and linearity, the ability to exactly measure a range of quantities. The requirements are generally consistent with the recommendations of the American National Standards Institute. (See ANSI N42.13–1978). Copies may be purchased by contacting Sales Department, American National Standards Institute, 1430 Broadway, New York, NY 10018. In the interest of economy and efficiency, the NRC uses voluntary national standards in its regulatory program if they provide adequate assurance of safety.) The activity levels of the accuracy check sources were chosen because a lower activity would invalidate the accuracy test due to expected statistical fluctuations, and a higher activity would present an unnecessary source of radiation exposure to workers. The radionuclides required reflect the fact that dose calibrators are not as accurate as might be expected for the photon energies commonly used for imaging (see "Joint NCDRH and State Quality Assurance Surveys in Nuclear Medicine," HHS Publication FDA 83–8209). The linearity test should only be done over the range between highest individual dosage measured and 10 microcuries to ensure that the dosage given is the dosage that was prescribed. It is not necessary to test for linearity for all amounts that might be measured, for example the first elution from a fresh generator or a multidose vial, because this would subject the worker to unnecessary radiation dose. Dosages below 10 microcuries cannot be accurately measured on a conventional dose calibrator because they are so tiny. Also, these dosages present only a trivial risk to the patient and therefore need not be so accurately measured. The geometry test assures that the shape of the syringe or vial containing the byproduct material does not affect the dosage measurement. The daily constancy check assures that the dose calibrator has worked consistently since it was last tested.

Licensees whose level or scope of use does not indicate need for a dose calibrator may request an exemption from this section. The request should be supported by a description of an alternative method that the licensee will use to measure radiopharmaceutical dosages.

Section 35.51 Calibration and check of survey instruments.

The 1000 mR/hr limit was chosen because that is the highest radiation exposure rate that is likely to be encountered in the medical environment. The calibration frequency and the other prescriptive and performance requirements in this section are generally consistent with ANSI N323–1978.

Section 35.53 Measurement of radiopharmaceutical dosages.

This section requires that the licensee assay the radioactivity of each radiopharmaceutical dosage before it is administered to a patient and keep a record of the assay results. This is required to ensure that the patient receives the intended dosage. The time at which the measurement must be made has been purposefully omitted to allow for flexibility in licensee's procedures.

A similar requirement was published as a proposed rule on September 1, 1981 (46 FR 43840). The comment period on the proposed rule expired November 30, 1981. The NRC is incorporating the dosage measurement proposal in this revision. The proposed Part 35 dosage measurement requirement differs from the 1981 proposal in its recordkeeping requirement. The Part 35 proposal requires the dosage measurement record to include the patient's name, and identification number if one has been assigned, and prescribed dosage. This information was not required by the 1981 proposal.

Section 35.58 Authorization for calibration and reference sources.

These sources are needed to check and test radiation instruments and to mark images. They represent a small radiation hazard in relation to the amount of radioactivity used in patient care. The activity level was chosen to allow licenses to have a range of sources with several energies and half-lives available.

Section 35.59 Requirements for possession of sealed sources and brachytherapy sources.

The user must follow the manufacturer's instructions because they have been reviewed for safety considerations by the Commission or an Agreement State.

The six-month test interval has been recommended by the National Council on Radiation Protection and Measurements (NCRP)[1] in Report No. 57, "Instrumentation and Monitoring Methods for Radiation Protection." More frequent testing is inconsistent with ALARA considerations because it would cause worker dose when making the test but provides only a slightly greater probability of funding a leaking source. The test procedures described are intended to maximize the probability of detecting contamination from a leaking source. Report No. 57,

[1] The National Council on Radiation Protection and Measurements (NCRP) is a nonprofit corporation chartered by Congress in 1964 to draft proposed recommendations on protection against radiation and on radiation measurements, quantities, and units, particularly those concerned with radiation protection. Copies of reports may be purchased by contacting NCRP Publications, P.O. Box 30175, Washington, DC 20014.

Section 3.3.5.3 recommends a minimum detectable limit of 0.005 microcuries for equipment used to measure leak test samples. This level is also consistent with the requirements of other parts of the current regulations (see, for example, §§ 31.5 and 34.25), and is only slightly higher than the minimum detectable activity exhibited by instrumentation available to licensees. The Commission has made a judgment that this level provides the most conservative detection level technically achievable at a reasonable cost. It is noted that this requirement would reduce the current permissible amount of detectable contamination from teletherapy sources ten-fold, from 0.05 microcuries to 0.005 microcuries for purpose of consistency.

The Commission has made a judgment that the exempted sources do not present a contamination hazard because of the small amount of radioactivity in the sources, the method in which they are constructed, or the small hazard of the byproduct material. To conduct a physical inventory more frequently than quarterly is inconsistent with ALARA exposure goals. To inventory less frequently may, in case of a misplaced source, allow an unacceptable radiation exposure to go on for too long without detection. The radiation survey assures that sources are safely stored.

Section 35.60 Syringe shields.

Syringes that contain byproduct material can be an external radiation source and should therefore be shielded at all times. In some cases the use of a shield when making an injection could interfere significantly with the injection. This would jeopardize patient benefit. In such cases the higher radiation exposure to the hands that is received by the technician who does not use a syringe shield is warranted. A shield need not be used when the risk of spoiling the injection is greater than the benefit of reduced worker exposure.

The NRC considered requiring the use of syringe shields when drawing individual dosages from multi-dose vials. That requirement is not included in this proposed revision because it appears that the increased handling required to remove the shield when measuring the dosage may actually increase radiation dose to the hands. However, the NRC is soliciting comments on whether syringe shields should be used when drawing individual dosages.

Section 35.61 Vial shields.

A vial radiation shield can significantly reduce the radiation exposure to the fingers and hands of an individual handling a vial of byproduct material.

Section 35.62 Syringe labels, and § 35.63 Vial shield labels.

Some misadministrations have been caused by accidentally transposing vials or syringes. The proper labelling of containers will help to avoid this type of mistake.

Section 35.70 Surveys for contamination and ambient radiation exposure rate.

Since radiopharmaceuticals are frequently handled, it is plausible that a syringe or some radioactive waste may be misled. This would result in unnecessary radiation exposure to workers and the public. The exposure rate survey will bring this to the attention of workers. The weekly exposure rate survey of waste storage areas will ensure that exposure rates in that area will be monitored so that special steps can be taken if greater than average use of radiopharmaceuticals results in higher than average exposure rates in the waste storage area.

The Commission knows that a removable contamination wipe test made several days after spillage of a short-lived radiopharmaceutical will probably not detect any contamination. The periodic contamination survey serves as a check of workers' physical control of radiopharmaceuticals. If contamination is found, it indicates that controls or safety measures may be inadequate or are not always being used.

Section 35.75 Release of patients containing radiopharmaceuticals or permanent implants.

A patient whose body contains byproduct material is a source of external radiation and can be a source of radioactive contamination. The patient should not be released from the clinic or hospital until the residual radioactivity in the patient is at an acceptable level. The Commission proposes to allow patient release limits based on residual activity in the patient or exposure rate at a specified distance from the patient at the licensee's option. The 30 millicuries burden limit is based on a recommendation of the NCRP and current licensing practice. The 6 mR/hr at one meter limit is based on the exposure rate from 30 millicuries of iodine-131, the most commonly used therapeutic radiopharmaceutical; some individuals believe that the exposure rate is more relevant and easier to measure. The Commission believes that either limit provides an adequate measure of safety for the general public, and that further reductions in public exposure are not reasonably achievable considering the cost and potential for deterimental effect from an unnecessarily long hospital confinement.

Section 35.80 Mobile nuclear medicine service technical requirements.

The Commission has limited radiopharmaceutical transportation by these licensees to unit dosage and multi-dose vials of prepared radiopharmaceuticals.

The Commission did not authorize transportation of generators because they are needed by persons who do not have daily access to prepared radiopharmaceuticals. That lack of access would be contrary to the geographic proximity required by § 35.38.

The service must remove all radioactive waste generated during the use of byproduct material at a client location of use because the Commission has no assurance that the client is equipped to safely receive and process radioactive waste. Because there is no assurance that the licensee can control access to areas of use while working in a facility that is under another person's administrative control, client facilities should be considered as unrestricted areas, and the licensee must therefore constantly exercise physical control of byproduct material.

Equipment checks are needed to assure the proper function of equipment after transport and before byproduct material is handled. A survey is needed to assure that all byproduct material has been removed from the client location of use. The mobile nuclear medicine service must carry a calibrated survey meter to monitor exposure and contamination in case of any accident that may result in a release of byproduct material.

Section 35.90 Storage of volatiles and gases.

Some radiopharmaceuticals present an inhalation or immersion source (e.g., volatile iodine-131 and xenon-133 respectively). The chance of exposure can be reduced by storing these materials in a fume hood or multiple barriers (such as a folded plastic bag within a folded plastic bag).

Section 35.92 Decay-in-storage.

For most hospital radiopharmaceutical waste, decay to background levels is essentially complete over a period of days or months. The waste disposal requirements of § 20.301, directed

primarily at longer half-lived material,

The Commission notes that the FDA is

Subpart E—Imaging and Localization

receiving an undesired 4.5 microcuries of molybdenum-99. The molybdenum

the current §§ 35.100 (d) and (e). The drugs have been approved for medical

their release to unrestricted areas may result in potentially lethal radiation

VOL 50 ISS 144 JL 26 1985 UMI

primarily at longer half-lived material, are not necessary for short half-lived radiopharmaceutical waste. Therefore, short half-lived waste can be exempted from the requirements of § 20.301. A decay period of ten half-lives was chosen because it represents a thousand-fold reduction in radioactivity. This ensures that, in most cases, byproduct material will have decayed to levels below those in § 30.71, which are quantities that, under certain ordinary conditions, are exempt from a requirement for a specific license. The regulation would only allow decay-in-storage for radioactive material with a half-life of 65 days or less because storage for the required ten half-lives would be in excess of 650 days and more appropriately considered permanent storage. (Consistent with current practice, the Commission will consider, on a case-by-case basis, requests to decay longer-lived material or to decay for fewer half-lives.) Waste must be monitored to assure that long-lived waste was not accidentally mixed with short-lived waste and that no waste has been added to the container since it was sealed. When the waste is monitored, neither the waste nor the survey instrument may have any radiation shielding because it might hide the presence of long-lived byproduct material in the waste. The requirement to remove or obliterate radiation labels is in § 20.203(f)(4) and is included here for completeness. Generator columns must be individually monitored because they contained larger amounts of radioactivity and also may have small amounts of long-lived contaminants.

Subpart D—Uptake, Dilution, and Excretion

Section 35.100 Use of radiopharmaceuticals for uptake, dilution and excretion studies, and § 35.200 Use of radiopharmaceuticals, generators, and reagent kits for imaging and localization studies (§ 35.200 is also discussed later).

Drugs approved for human use by the FDA have a label or package insert that specifies the FDA-approved use, physical form, route of administration, and dosage range. NRC relies primarily on FDA's determination of a radioactive drug's safety and effectiveness when it is used according to the package insert. By restricting the physician to the FDA-approved physical form, route of administration, and dosage range, NRC assures the safety of the public while allowing the physician flexibility regarding the choice of the clinical procedure.

The Commission notes that the FDA is considering a change in its regulations for reviewing the safety of investigational new drugs and new uses of approved drugs (see 48 FR 26720, published June 9, 1983). The Commission may revise its regulations regarding investigational new drugs and new uses of approved drugs after reviewing FDA's final rulemaking.

The FDA also authorizes the Radioactive Drug Research Committee (RDRC) at an institution to review and approve the use of radioactive materials for medical use research purposes. The Commission believes that the guidelines used by the FDA when reviewing the credentials of the RDRC members, and the guidelines that the FDA requires the RDRC to use when evaluating research proposals, are adequate to assure the safety of workers and the public without unduly restricting medical research. Therefore, the Commission will continue to allow, on a case-by-case basis, licensees to administer radiopharmaceuticals authorized by an RDRC in accordance with FDA regulations. This authorization was not included in the regulation because only a few licensees request it.

The radiopharmaceuticals listed in § 35.100 were taken from those listed in the current §§ 35.31 and 35.100(a). Those listed in § 35.200 were taken from current §§ 35.100 (b) and (c). Mercury-203 was not included in the proposed revision because the Commission believes that there are other radiopharmaceuticals available that provide equivalent diagnostic information with much less radiation dose to the patient.

Manufacturers are currently distributing generally licensed radiopharmaceuticals under a license issued pursuant to § 32.70. If this revision is adopted by the Commission, these manufacturers would have to apply for a license amendment to distribute radiopharmaceuticals pursuant to § 32.72.

Section 35.120 Possession of survey instrument.

A low level survey instrument is needed to check areas of use for contamination. Since the total amount of radioactivity used for uptake, dilution, and excretion studies is relatively small, the Commission does not believe the licensee needs an ionization survey instrument to measure dose rates.

Subpart E—Imaging and Localization

Section 35.200 Use of radiopharmaceuticals, generators, and reagent kits for imaging and localization studies.

Xenon-133 as a gas or as saline solution has been added to this group. Manufacturers are currently distributing the product under a license issued pursuant to Part 30. If this revision is adopted by the Commission, these manufacturers would have to apply for a license amendment to distribute xenon pursuant to § 32.72.

Through continuing medical research, new uses may be found for existing approved radiopharmaceuticals. These new uses, which may require a different dosage, route of administration, or physical form, may not appear on the manufacturer's label or package insert instructions. It was such a situation that resulted in a petition filed by Dr. George V. Taplin (Docket No. PRM–35–1) requesting an exemption for Tc–99m pentetate as an aerosol for lung function studies. A proposed rule was published on April 13, 1982 (47 FR 15798). The comment period on this proposed rule expired June 14, 1982, and 35 comments were received. The NRC adopted the rule in final form without change on February 4, 1983 (48 FR 5217); the preamble of the final rule also described how to apply for future exemption requests. The NRC is incorporating this regulation into this revision of Part 35 without soliciting public comment because of the recentness of the rulemaking and because there are no substantive changes to the rule as adopted.

Section 35.204 Permissible molybdenum-99 concentration.

Technetium-99m is produced when molybdenum-99 undergoes radioactive decay. When the technetium is separated from the molybdenum, unwanted molybdenum may appear as a contaminant in the technetium solution. The permissible concentration of molybdenum-99 was chosen to be consistent with the permissible concentration listed in the United States Pharmacopeia (USP), the nationwide standard for all pharmaceuticals used in the practice of medicine. It is the judgment of the Commission that the USP standard provides an adequate level of safety and to require a different standard would be confusing and unproductive. Since diagnostic dosages of technetium-99m are generally 30 millicuries or less, the maximum permissible level of molybdenum-99 in such a dosage would result in a patient

receiving an undesired 4.5 microcuries of molybdenum-99. The molybdenum would be taken up primarily by the liver. The dose to the liver would be about 0.2 rads as a result of the molybdenum concentration. The Commission has made a judgment that, by holding the permissible concentration to the required level, the resulting radiation dose is insignificant compared to the radiation dose which would be received by the patient due to the administration of the technetium.

The licensee that elutes the generator must measure and keep a record of the molybdenum concentration. Persons who receive prepared radiopharmaceuticals do not have to make this measurement because the person who prepared it would have made the measurement (see the conforming amendment to § 30.34).

Section 35.205 Control of aerosols and gases.

The Commission believes that a system that provides for the collection or controlled dispersal of aerosols and gases is needed to reduce exposure to workers and the public. If control is by dispersal in the atmosphere, licensees should note §§ 20.105 and 20.106, which limit the amount of radioactivity in the effluent stream.

Unlike solid and liquid byproduct materials authorized by this part, gases usually cannot be contained or recovered after a spill. To reduce exposure to workers and the public after a spill, exhaust and dispersal in the atmosphere is commonly used. However, because conventional room ventilation rates are seldom sufficient to clear spilled gas in a timely fashion, the licensee must follow special, room-specific safety measures in case of a gas spill. When making the required exhaust calculation, the licensee must assume that the largest single gas container handled in the area is completely spilled, and may use either ambient or emergency air exhaust rates.

Section 35.220 Possession of survey instruments.

The licensee needs a low level survey instrument to check for contamination and an ionization type instrument to measure dose rates in areas where large amounts of radioactive material are stored.

Subpart F—Radiopharmaceuticals for Therapy

Section 35.300 Use of radiopharmaceuticals for therapy.

The radiopharmaceuticals listed in § 35.300 were taken from those listed in the current §§ 35.100 (d) and (e). The drugs have been approved for medical use by the FDA.

Section 35.310 Safety instruction, and § 35.410 Safety instruction.

In the hospital setting, the use of byproduct material presents special training problems which are not addressed in Part 19 because they are unique to the medical environment. For example, visitor control in a hospital cannot be accomplished by physical barriers which might impede the delivery of emergency medical care to patients. After administration, the byproduct material is contained in an ambulatory human.

Therefore, the Commission has made a judgment that worker instruction in addition to that required by Part 19 is necessary. (This parallels special instruction required, for example, for radiographers and radiographers' assistants pursuant to § 34.31 of the Commission's regulations.)

Section 35.315 Safety precautions.

Because of the special contamination hazards of radiopharmaceutical therapy patients, a private room with private sanitary facilities is needed to protect members of the public, who might be visiting nearby patients, from unnecessary exposure to radiation. The RSO must be notified in case of the patient's death or medical emergency in order to determine whether special contamination control procedures must be implemented.

Section 35.320 Possession of survey instruments.

The licensee needs a low level survey instrument to check for contamination and an ionization type instrument to measure dose rates in areas where large amounts of radioactive material are stored.

Subpart G—Sources for Brachytherapy

Section 35.400 Use of sources for brachytherapy.

This section identifies brachytherapy sources that may be used for medical use. The list was taken from the current § 35.100(e), which is a list of sources commonly used for patient care.

Section 35.404 Release of patients treated with temporary implants.

A responsibility of the Commission is to restrict the movement of byproduct material when the public exposure would be increased. Brachytherapy sources for temporary implants have high levels of radiation, and remain radioactive for a long period of time. Loss of control of these sources and their release to unrestricted areas may result in potentially lethal radiation exposure to members of the public. The Commission has made a judgment that temporary confinement of the implant patient is necessary to ensure public safety. Section 35.404 requires that the licensee prevent the patient from leaving the hospital or clinic until all temporary implant sources have been removed. The records required by this section may be amalgamated with the records required by § 35.406; there is no need for duplication.

Section 35.406 Brachytherapy sources inventory.

Because of the particular hazard of brachytherapy sources due to their high activity and small size, the Commission believes that an inventory procedure that requires a physical count and a radiation survey log entry each time sources are handled with help to ensure that if a source is misplaced its absence will quickly become apparent to the licensee, which can then promptly begin a search for the source.

Section 35.415 Safety precautions.

Because of the high exposure rates around implant patients, a private room is needed to protect members of the public, who might be visiting nearby patients, from unnecessary exposure to radiation. The RSO must be notified in case of the patient's death or medical emergency to ensure that control of implant sources is retained.

Section 35.420 Possession of survey instrument.

The licensee needs a high level survey instrument to measure exposure rates in storage areas around a patient's room, and to check to be sure all sources have been removed from the patient before release from confinement.

Subpart H—Sealed Sources for Diagnosis

Section 35.500 Use of sealed sources for diagnosis

This is a new type of use group established to incorporate the recent development of medical devices that use a sealed source of byproduct material to create a beam of ionizing radiation. These devices are now available to persons licensed to use materials listed in § 35.100(f). Because the devices represent a lower level of hazard than the other sources in that group, the Commission has determined that these devices should comprise a new group.

Section 35.520 Availability of survey instrument.

be notified in an emergency. The Commission believes this is also an

Section 35.621 Radiation monitoring device.

compared to the response of the other systems. If each system measures the

due to source radioactive decay. To ensure accurate dose delivery, the

source leakage radiation levels for several years as license conditions.

VOL 50 ISS 144 JL 26 1985 UMI

Section 35.520 Availability of survey instrument.

The licensee needs a survey instrument to measure the exposure rates around a packaged sealed source that was just received or that is to be returned to the manufacturer, and to survey for contamination in case of an accident that might have compromised the intergrity of the sealed source. However, because a source exchange is an infrequent and scheduled event, and because a hazardous accident would be a very rare occurrence, the Commission believes that it is sufficient, for safety purposes, to require the licensee to make arrangements to borrow or rent an instrument or contract with a measurement service when measurements are necessary.

Subpart I—Teletherapy

Section 35.600 Use of a sealed source in a teletherapy unit.

This is a new type of use group established to deal with a well-established type of use. Safety measures that now apply to all licensees within this group have been used over the years and are reflected in these proposed regulations.

Section 35.605 Maintenance and repair restrictions, and § 35.645 Five-year inspection (§ 35.645 is also discussed later).

These sections provide notice that only specially licensed persons may maintain, adjust, or repair teletherapy units because this type of work requires special training and equipment in order to be done safely. This work is licensed under Part 30 of the Commission's regulations.

Section 35.606 Amendments.

Amendments are required for items identified in paragraphs (a) through (e) because any change described in these paragraphs could easily result in an increase in radiation levels in excess of the levels authorized in § 20.105. The service of a qualified teletherapy calibration expert is an essential element in ensuring the safe use of a teletherapy unit. The Commission has made a judgment that only an individual with special training and experience can determine the operating characteristics of the licensee's teletherapy unit and should therefore be identified on the license.

Section 35.610 Safety instructions.

Emergency instructions must be posted to remind individuals of the proper steps to be taken in case of an emergency and to identify individuals to be notified in an emergency. The Commission believes this is also an appropriate place to remind workers that it is important to ensure that only the patient is in the room before turning the unit on. The reminder is necessary because it is possible that when two workers are stationed on one teletherapy unit one worker may inadvertently turn the unit on when the other worker is still in the treatment room, or a worker may turn the unit on to check its operation after a patient or co-worker has entered the treatment room without telling the worker at the control console.

The special instruction for teletherapy workers is needed because this is the one type of medical use of byproduct material in which a worker or member of the public could receive a high, whole body dose in a matter of minutes if the source were not used safely.

Section 35.615 Doors, interlocks, and warning systems.

NCRP Report No. 57, "Instrumentation and Monitoring Methods for Radiation Protection," on page 42, states that a survey of a new teletherapy facility must determine that . . .". All entrances into the irradiation room or other high radiation areas are provided with barriers equipped with interlocks that are not dependent on the operation of a single circuit, and that will interrupt radiation production when the barrier is opened." There have been incidents in irradiation facilities in which personnel were unnecessarily exposed to radiation because door interlocks or alarms were intentionally bypassed for convenience. See, for example, cases 19, 21, and 28 in NUREG/BR-0001, "Case Histories of Radiography Events," vol. 1, 1980. If the interlocks and warning systems had not been bypassed, personnel would not have been irradiated. The Commission, however, has made a judgment that the dual warning system of a door interlock and a radiation monitor in the teletherapy room obviates the need for the dual circuit door interlock recommended in the report.

The beam condition indicator light will indicate to workers about to enter the room whether the unit is turned on or off.

Section 35.620 Possession of survey instrument.

The licensee needs a survey instrument on hand as a backup room monitoring device in case the radiation monitoring device fails.

Section 35.621 Radiation monitoring device.

The radiation monitoring device is needed to indicate radiation levels in the teletherapy room if the interlocks or the warning systems fail. Individuals may be unnecessarily exposed following the failure of the source retraction mechanism coupled with a failure of the primary beam condition indicator system. Therefore, § 35.621 requires licensees to install a permanent radiation monitor in each teletherapy room, to check its operation before using the teletherapy unit, and to use portable survey instrument or personal audible alarm dosimeter if the monitor is inoperable. Similar requirements were published as a proposed rule on April 28, 1982 (47 FR 18131), and were adopted in a final rule published January 18, 1983 (48 FR 2116).

Section 35.622 Viewing system.

If a patient moved during a therapy administration, this could result in a radiation dose to healthy tissue and no dose to the treatment area. Therefore, a viewing system is needed to monitor the orientation of the patient and the teletherapy unit to assure the prescribed application of radiation.

Section 35.630 Dosimetry equipment.

Dosimetry equipment is needed to measure radiation output. In order to help assure accuracy the equipment must be calibrated. The equipment requirements are the same as the current §§ 35.22 and 35.23. This section also contains the proposed resolution of the petition filed by the American Association of Physicists in Medicine, Petition Docket No. PRM 35-2 (see 47 FR 4311, January 29, 1982). Currently, regulations require that primary dosimetry equipment be calibrated every two years. The petitioner requested that this two year requirement be relaxed to four years if, two years after calibration, the primary dosimetry system is intercompared with a system that was calibrated within the past two years, and the results of the intercomparison indicate that the calibration factor used to convert an instrument reading to a dose measurement had not changed by more than two percent. (Intercomparison meetings are occasionally scheduled by several qualified teletherapy calibration experts within a geographic area. Each expert takes a dosimetry system of *similar* metrological quality to the meeting. Each dosimetry system in turn is exposed to the same radiation dose from a teletherapy unit. The response of each dosimetry system can then be compared to the response of the other systems. If each system measures the same radiation dose in rads, this provides assurance that each system is working properly. Note that when instruments of *different* metrological quality are exposed to the same rediation dose, it is referred to as a comparison rather than an intercomparison.) This suggestion has been incorporated into these proposed regulations. The petitioner also asked that the licensee be required to make quarterly constancy checks to assure the consistency of operation of the dosimetry system. The Commission did not incorporate this suggestion because it is not aware of any scientific study that shows that such checks, when made with currently available equipment, are capable of detecting small but significant changes in calibration. Therefore, the Commission has no basis to assume that periodic constancy checks would necessarily provide increased assurance of proper operation.

Section 35.632 Full calibration measurements.

Full calibrations are needed to ensure that the given dose is the same as the prescribed dose. The required frequency of full calibrations remains unchanged from that of the current Part 35. The test for timer accuracy has been clarified to include on-off error. The accuracy of localization devices that are used to position the teletherapy patient has been added to minimize the risk of unintentional irradiating healthy tissue. The function of mechanical and electrical interlocks that are used to limit the directions in which the beam can be aimed, and thereby reduce the exposure rate in uncontrolled areas, has also been added. The licensee need no longer perform all measurements with a calibrated dosimetry system. Instead, the calibrated dosimetry system need only be used for one representative measurement, and then a relative exposure rate measurement system can be used to complete the calibration. This would allow for use of computer-controlled dosimetry systems that are capable of making precise relative measurements but are not suitable for making absolute output measurements.

The Commission proposes to allow licensees to use either the currently required calibration procedure or a new procedure that was recently published. The new procedure is generally considered more scientifically rigorous, but the Commission believes that either procedure provides an adequate measure of teletherapy dose rate.

The exposure rate from a radioactive source goes down as time progresses due to source radioactive decay. To ensure accurate dose delivery, the regulation requires that licensees mathematically take this into account in calculating patient doses. The regulation requires that the licensee use time periods of not longer than one month when making decay calculations. This will ensure that the actual dose does not differ from the calculated dose by more than one percent due to this decay error.

Section 35.633 Periodic spot-checks, and § 35.642 Safety checks for teletherapy facilities.

A monthly spot-check is required by § 35.22 of the current regulations to ensure that the teletherapy unit is giving the expected radiation dose. The following changes from current requirements have been made. Timer accuracy has been clarified to include on-off error. The accuracy of localization devices has been added. Error in either may result in incorrect administration of radiation. The qualified teletherapy calibration expert must review the results of the spot-check measurements within fifteen days, and must notify the licensee in writing of the results of the monthly check, to assure the licensee and the Commission that the check results were reviewed by a qualified individual. The Commission has made a judgment that a response period of less than fifteen days would be unreasonably expensive.

A requirement to check certain safety systems in the teletherapy facility has been added. These checks are needed to assure that safety systems required by other sections of the regulations are working properly. They need not be performed by the qualified teletherapy calibration expert. Devices that are not working must be promptly repaired in order to assure safety in the teletherapy facility. In case of failure of the viewing system, the regulation would allow the physician to decide whether treatments should be interrupted. This would *not* relieve the licensee from the requirement to promptly repair the viewing system. The regulation would require that the teletherapy unit not be used in case of door interlock failure because that is the mechanism that protects workers and the public from unintentional irradiation. However, the Commission invites comment as to whether additional administrative procedures or personal supervision would provide an acceptable balance of worker safety and medical use needs.

Section 35.641 Radiation surveys for teletherapy facilities.

The Commission has used these maximum and average permissible source leakage radiation levels for several years as license conditions. They are consistent with guidance from the NCRP in its Report No. 33, "Medical X-ray and Gamma-ray Protection for Energies up to 10 MeV-Equipment Design and Use," Section 4.2.2. The Commission has made a judgment that they are sufficiently restrictive to keep exposures as low as reasonably achievable. The required location of the collimators during the head leakage survey is a new specification. It is based on the fact that, for individuals who receive most of their radiation dose from working around a source in the "off" position, the collimators will normally be at the setting used for the last treatment.

Section 35.643 Modification of teletherapy unit or room before beginning a treatment program.

The section is needed to require that licensees take prompt action to reduce exposure rates in uncontrolled areas that may be caused by errors in design or construction of the teletherapy facility.

Section 35.644 Reports of teletherapy surveys, checks, tests, and measurements.

Given the potential for high exposure to workers and the public from improperly installed teletherapy units, the radiation survey information required by § 35.644 is needed to assure that teletherapy units have been properly installed and are sufficiently shielded to ensure compliance with the exposure limits of Part 20.

Section 35.645 Five-year inspection.

Many licensees replace teletherapy sources at five year intervals. Requiring a mechanical check at five year intervals helps to assure that the source exposure mechanism is in good working order and will not stick in the exposed position. The mechanic who exchanges sources and inspects units can remove the source, inspect the drawer mechanism, and then install the new source. More frequent checks would require greater time near a very radioactive source. Less frequent checks would not be sufficient to assure the continuous proper operation of the exposure mechanism. The identification information in the record is needed to establish which unit was inspected, when, and by whom. The remaining information is needed so the Commission may determine that the inspection was of sufficient depth to assure the health and safety of workers and the public.

Subpart J—Training and Experience Requirements

Sections 35.900(b), 35.910(b), 35.920(b), 35.930(b), 35.940(b), 35.941(b), 35.950(b),

nuclear medicine training programs for physicians. These three boards

Conforming Amendment

New Section Number	Origin	New Section Number	Origin

VOL 50 ISS 144 JL 26 1985 UMI

Subpart J—Training and Experience Requirements

A combination of theoretical and practical training and experience is necessary to assure the safe use of byproduct material. The criteria in this subpart were developed by the staff with the advice of the Advisory Committee on the Medical Use of Isotopes (ACMUI). The requirements for the Radiation Safety Officer have not been published before. The requirements for authorized users are similar to those published as an amendment to Appendix A of Regulatory Guide 10.8, "Guide for the Preparation of Applications for Medical Programs," in the Federal Register on December 2, 1982 (47 FR 54376). The requirements for the qualified teletherapy calibration expert are similar to those required of a qualified expert pursuant to the current § 35.24.

Consistent with current practice, if individuals do not meet the training and experience standards, the NRC will review their credentials with regard to the materials requested and these standards and make authorizations on a case-by-case basis.

The Commission has received and is reviewing suggested altenative training standards for some methods of use. The review is being handled as a separate project. If any changes in training standards come out of that project, they will be published for public comment and incorporated into this subpart or elsewhere, as appropriate.

Sections 35.900(a), 35.910(a), 35.920(a), 35.930(a), 35.940(a), 35.941(a), 35.950(a), 35.960(a), and 35.961(a), concerning certification.

The Commission has made a judgment that in some cases, certification by an appropriate professional board provides proof of adequate training and experience because the criteria which must be met to attain certification are more stringent than the training and experience required by the Commission.

Section 35.900(c) Authorized user as a Radiation Safety Officer.

The training and experience required by the Commission includes safety considerations for the byproduct material that the authorized user may use. Therefore, authorized users are qualified to oversee the safe use of byproduct material that they are authorized to use pursuant to the conditions of the license.

Sections 35.900(b), 35.910(b), 35.920(b), 35.930(b), 35.940(b), 35.941(b), 35.950(b), 35.960(b), and 35.961(b) Training and experience.

The criteria identified in these sections were developed by the staff with the assistance of the ACMUI over the past several years. The Commission has made a judgment that, for each type of use, the training and experience described is necessary to ensure the safe use of byproduct material. The duration of training and experience is usually specified in classroom (not credit) hours. Training may be received as part of a formal program at an accredited university, at a proprietary school, from an equipment or radiopharmaceutical manufacturer, or elsewhere. NRC will carefully review this information before listing an individual on a license. Supervised work experience must be received at an institution under an authorized user preceptor because usually only such an individual is qualified to teach the clinical use of byproduct material, and, if the experience were not received at an institution, the student would be less likely to receive experience with all the methods of use commonly used or all the management problems associated with the safe handling of byproduct material.

Sections 35.910(c) and 35.920(c) Integrated programs.

The Accreditation Council for Graduate Medical Education (ACGME) reviews and approves training programs for physicians. Approval of these training programs is based, in part, on adequate radiation safety content. The Commission has made a judgment that individuals who have successfully completed an approved training program have received sufficient training and experience to use byproduct material safely.

Sections 35.901 and 35.970 Current Radiation Safety Officers and Authorized users.

The staff has reviewed and found acceptable the training and experience of each individual who is currently listed as a Radiation Safety Officer or an authorized user. Further review of the credentials of these individuals is unnecessary.

Section 35.971 Physician training exception.

In addition to the ACGME, the American Board of Radiology, the American Board of Osteopathic Radiology, and the American Board of Nuclear Medicine review and approve nuclear medicine training programs for physicians. These three boards independently arrived at the conclusion that, while currently acceptable, a three month training program may not allow sufficient time in the future to provide the training and experience needed to develop a satisfactory level of expertise in nuclear medicine, including radiation safety. All three boards and the ACGME have therefore extended their training programs to six months duration for those who begin their training after June 30, 1984. The Commission has made a judgment that, in the meantime, individuals who have successfully completed an approved three month training program have received sufficient training and experience to use byproduct material safely.

Section 35.972 Recentness of Training.

Radiation safety regulations and practices may be expected to change with time. The Commission has made a judgment that training received within the five years preceding submittal of an application is sufficiently up-to-date to assure the safe use of byproduct material. If an individual received training more than five years before the application and has not had continuing involvement in the field, training must be repeated.

Subpart K—Enforcement

Section 35.990 Violations.

This section gives notice that the Commission will initiate legal proceedings if necessary to enforce requirements.

Section 35.999 Resolution of conflicting requirements during transition period.

As discussed before, to allow for an orderly transition from licenses granted under the present regulations to licenses granted under the new regulations, if there is a conflict between the final rule and a licensee's radiation safety program as described in the statements, representations, and procedures submitted in support of the license request, and if the license was issued before the effective date of the final rule and has not been renewed, the requirements and authorizations of the licensee's radiation safety program will take precedence over the final rule. However, if the licensee exercises its right to make a radiation safety program change as authorized under § 35.36, the changed procedure must be in accord with the revised regulation.

Conforming Amendment

Section 31.11 General license for use of byproduct material for certain in vitro clinical or laboratory testing.

Many medical use licensees now use byproduct material for in vitro work under the provisions of current §§ 31.11 and 35.14(c). The proposed conforming amendment grandfathers them. In the future, new and renewal applicants will have to specifically request permission to use § 31.11 materials as a separate line item on their applications. The use of materials listed in § 31.11 within the inventory limits of that section will only be subject to the requirements of that section; consistent with current regulations, the use of materials listed in § 31.11 will *not* be subject to the requirements of Parts 19, 20, 21, and 35 except for the Mock Iodine-125 disposal, loss or theft, and notification clause of § 31.11(f).

Derivation Table

The following derivation table identifies the origin of each section of the proposed regulations. Sources of the proposed regulations include 10 CFR Parts 19, 30, and 35, Federal Register Notices (FR), frequently used license conditions, licensing staff policy, current regulatory guides (RG), Office of Inspection and Enforcement bulletins, the United States Pharmacopeia, and new text prepared by staff.

New Section Number	Origin
Subpart A—General Information	
35.1 Purpose and scope	35.1 revised.
35.2 Licenses required	35.2 revised.
35.8 Reporting recordkeeping, and application requirements: OMB Approval.	New text.
35.15 Definitions:	
Agreement State	20.3.
ALARA	Acronym.
Authorized users	Term used on licenses.
Dentist	New term.
Medical institution	Do.
Management	Do.
Medial use	35.3(a) revised.
Misadministration	35.41.
Mobile nuclear medicine service.	New term.
Output	Do.
Physician	35.3(b) revised.
Podiatrist	New term.
Qualified teletherapy calibration expert.	Do.
Radiation Safety Officer	Term used on licenses.
Sealed source	30.4(r) verbatim.
Visiting authorized user	New term; similar to "visiting authorized user" license condition.
35.16 Application for license, amendment, or renewal.	35.4 revised.
35.17 License amendments	New text; compare 30.36.
35.19 Notifications	New text.
35.28 License issuance	New text; compare 30.36.
35.29 Specific exemptions	New text; compare 30.11.
Subpart B—General Administrative Requirements	
35.30 ALARA program	New text; see RG 10.8 Appendix O revised.
35.31 Radiation Safety Officer	RG 10.8.
35.32 Radiation Safety Committee.	35.11(b) revised.
35.33 Requirements for authority and statement of responsibilities.	New text.
35.34 Visiting authorized user	License condition.
35.35 Mobile nuclear medicine service administrative requirements.	Licensing policy.
35.36 Radiation safety program changes.	New text.
35.37 Records and reports of misadministrations.	35.42.
35.38 Supervision	Expanded from RG 10.8 p. 3.
35.49 Suppliers	35.14 revised.
Subpart C—General Technical Requirements	
35.50 Possession, use, calibration, and check of dose calibrators.	RG 10.8 Appendix D2 revised, and new text.
35.51 Calibration and check of survey instruments.	RG 10.8 Appendix D1 revised, and new text.
35.53 Measurement of radio pharmaceutical dosages.	Proposed rulemaking 35.15 (46 FR 43940; September 1, 1981).
35.58 Authorization for calibration and reference sources.	35.14(d) revised.
35.59 Requirements for possession of sealed sources.	35.14(e)(1)(i), 35.14(f) revised.
35.60 Syringe shields	Inspection and Enforcement letter April 16, 1979.
35.61 Vial shields	Inspection and Enforcement letter April 16, 1979.
35.62 Syringe labels	New text.
35.63 Vial shield labels	Do.
35.70 Surveys for contamination and ambient radiation exposure rate.	RG 10.8 Appendix I revised.
35.75 Release of patients containing radiopharmaceuticals or permanent implants.	New text.
35.80 Mobile nuclear medicine service technical requirements.	Licensing policy.
35.90 Storage of volatiles and gases.	RG 10.8 Appendix M revised.
35.92 Decay-in-storage	License condition.
Subpart D—Uptake, Dilution, and Excretion	
35.100 Use of radiopharmaceuticals, for uptake, dilution, and excretion studies.	35.31 and 35.100 (I) revised.
35.120 Possession of survey instrument.	RG 10.8 page 5.
Subpart E—Imaging and Localization	
35.200 Use of radiopharmaceuticals, generators, and reagent kits, for imaging and localization studies.	35.100 (II) and (III) revised.
35.204 Permissible molybdenum-99 concentration.	US Pharmacopeia.
35.205 Control of aerosols and gases.	RG 10.8 Appendix M revised.
35.220 Possession of survey instruments.	RG 10.8 page 5.
Subpart F—Radiopharmaceuticals for Therapy	
35.300 Use of radiopharmaceuticals for therapy.	35.100 (IV) and (V) revised.
35.310 Safety instruction	19.12 revised.
35.315 Safety precautions	RG 10.8 Appendix K.
35.320 Possession of survey instruments.	RG 10.8 page 5.
Subpart G—Sources for Brachytherapy	
35.400 Use of sources for brachytherapy.	35.100 (VI) revised.
35.404 Release of patients treated with temporary implants.	35.14(b)(5)(vii) revised.
35.406 Brachytherapy sources inventory.	RG 8.18 page 8.
35.410 Safety instruction	19.12 revised.
35.415 Safety precautions	RG 10.8 Appendix L.
35.420 Possession of survey instruments.	New text.
Subpart H—Sealed Sources for Diagnosis	
35.500 Use of sealed sources for diagnosis.	New text.
35.520 Availability of survey instrument.	New text.
Subpart I—Teletherapy	
35.600 Use of a sealed source in a teletherapy unit.	New text.
35.605 Maintenance and repair restrictions.	License condition.
35.606 Amendments	New text.
35.610 Safety instruction	License condition and new text.
35.615 Doors, interlocks, and warning systems.	License condition.
35.620 Possession of survey instrument.	New text.
35.621 Radiation monitoring device.	35.25 (48 FR 2116; Jan. 18, 1983).
35.622 Viewing system	License condition.
35.630 Dosimetry equipment	35.22, 35.23 revised.
35.632 Full calibration measurements.	35.21 revised.
35.633 Periodic spot-checks	35.22 revised and license condition.
35.641 Radiation surveys for teletherapy facilities.	License condition.
35.642 Safety checks for teletherapy facilities.	License condition.
35.643 Modification of teletherapy unit or room before beginning a treatment program.	New text.
35.644 Reports of teletherapy surveys, checks, tests and measurements.	License condition.
35.645 Five-year inspection	License condition.
Subpart J—Training and Experience Requirements	
35.900 Radiation Safety Officer	New text.
35.901 Training for experienced Radiation Safety Officer.	Do.
35.910 Training for uptake, dilution, and excretion studies.	Do.
35.920 Training for imaging and localization studies.	Revision of Federal Register Notice (47 FR 53476; Dec. 2, 1982).
35.930 Training for therapeutic use of radiopharmaceuticals.	Revision of Federal Register Notice (47 FR 53476; Dec. 2, 1982).
35.940 Training for therapeutic use of brachytherapy sources.	Revision of Federal Register Notice (47 FR 53476; Dec. 2, 1982).
35.941 Training for ophthalmic use of strontium-90.	Revision of Federal Register Notice (47 FR 53476; Dec. 2, 1982).
35.950 Training for use of sealed sources for diagnosis.	New text.
35.960 Training for teletherapy	Revision of Federal Register Notice (47 FR 53476; Dec. 2, 1982).
35.961 Training for qualified teletherapy calibration expert.	35.24 revised.
35.970 Training for experienced authorized users.	New text.
35.971 Physician training in a three month program.	Do.
35.972 Recentness of training	Revision of Federal Register Notice (47 FR 53476; Dec. 2, 1982).
Subpart K—Enforcement	
35.980 Violations	New text.
35.999 Resolution of conflicting requirements during transition period.	Do.

Administrative Statements

Finding of No Significant Environmental Impact: Availability

The Commission is proposing to completely revise the regulations

governing the medical use of byproduct material. The Commission has

in accordance with section 605(b) of the Regulatory Flexibility Act of 1980, the

impact should notify the Commission of this in a comment that indicates:

1. 10 CFR Part 35 is revised to read as follows:

Subpart F—Radiopharmaceuticals for Therapy

Authority: Secs. 81, 161, 182, 183, 68 Stat.

VOL 50 ISS 144 JL 26 1985 UMI

governing the medical use of byproduct material. The Commission has determined under the National Environmental Policy Act of 1969, as amended, and the Commission's regulations in Subpart A of 10 CFR Part 51, that promulgation of this regulation is not a major Federal action significantly affecting the quality of the human environment and therefore an environmental impact statement is not required. The radiation levels and release of byproduct material authorized by this proposed revision are consistent with the Commission's other regulations and internationally accepted standards. Most radiation experts agree that levels and releases that are within these regulations and standards will not have a significant effect on the quality of the human environment. The assessment analyzes the possible impact of release of radioactive patients, the transportation of byproduct material for medical use, storage, and control of aerosols and gases, waste disposal by decay-in-storage, and dose rates outside teletherapy rooms. The environmental assessment and finding of no significant impact on which this determination is based are available for public inspection at the NRC Public Document Room, 1717 H Street NW, Washington, DC. Single copies of the evironmental assessment and finding of no significant impact are available from Mr. McElroy (See "For further information contact:" heading).

Paperwork Reduction Act Statement

This proposed rule amends information collection requirements that are subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). This rule has been submitted to the Office of Management and Budget for review and approval of the paperwork requirements.

Regulatory Analysis

The Commission has prepared a draft regulatory analysis on this proposed regulation. The analysis examines the costs and benefits of the alternatives considered by the Commission. The draft analysis is available for inspection in the NRC Public Document Room, 1717 H Street NW, Washington, DC Single Copies of the analysis may be obtained from Mr. McElroy (see "For further information contact:" heading).

The Commission requests public comment on the draft regulatory analysis. Comments on the draft analysis may be submitted as indicated in the ADDRESSES heading.

Regulatory Flexibility Certification

Based on the information available at this stage of the rulemaking proceeding, in accordance with section 605(b) of the Regulatory Flexibility Act of 1980, the Commission certifies that this proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. The NRC has issued approximately 2500 medical licenses under 10 CFR Part 35. Of these, approximately 2200 are held by institutions, and approximately 300 by individual physicians. Most of the institutional licensees are community hospitals. The Small Business Administration size standards, 13 CFR Part 121, (49 FR 5037; February 9, 1984) classify a hospital or physician's office as a small entity if its average gross annual receipts do not exceed $3.5 million. Under these size standards, some NRC medical licensees could be considered "small entities" for purposes of the Regulatory Flexibility Act.

The number of medical licensees that would fall into the small entity category does not constitute a substantial number for purposes of the Regulatory Flexibility Act.

The primary objective of the proposed rule is to simplify the medical licensing process by consolidating requirements without lessening the protection necessary for public health and safety. This will be accomplished through incorporation of frequently used license conditions into the regulations and the elimination or modification of requirements that are not essential to the protection of public health and safety. These steps will make it easier for a licensee to determine what is required to obtain a license and what is required of licensees. Therefore, there should not be a significant economic impact on these small entities.

The Commission has prepared a preliminary regulatory analysis for this proposed regulation which contains information concerning the anticipated economic effect of this regulation on licensees and presents the basis for the Commission's belief that the proposed regulation would not result in significant additional costs to any licensees. It is available for public inspection in the NRC Public Document Room at 1717 H Street NW., Washington, DC. Single copies are available from Mr. McElroy (see "For further information contact:" heading).

Because of the widely differing conditions under which licensees covered by this proposed regulation operate, the Commission specifically seeks public comment from small entities. Any small entity subject to this regulation which determines that, because of its size, it is likely to bear a disproportionate adverse economic impact should notify the Commission of this in a comment that indicates:

(1) The licensee's size in terms of annual income or revenue, number of employees and, if the licensee is a treatment center, the number of beds and patients treated annually;

(2) How the proposed regulation would result in a significant economic burden on the licensee as compared to that on a larger licensee;

(3) How the proposed regulations could be modified to take into account the licensee's differing needs or capabilities;

(4) The benefits that would be gained or the detriments that would be avoided to the licensee, if the proposed regulations were modified as suggested by the Commenter; and

(5) How the regulation, as modified, would still adequately protect public health and safety.

List of Subjects

10 CFR Part 30

Byproduct material, Government contracts, Intergovernmental relations, Isoptes, Nuclear materials, Penalty, Radiation Protection, Reporting and recordkeeping requirements.

10 CFR Part 31

Byproduct material, Labeling, Nuclear materials, Packaging and containers, Penalty, Radiation protection, Reporting and recordkeeping requirements, Scientific equipment.

10 CFR Part 32

Byproduct materials, Labeling, Nuclear materials, Penalty, Radiation protection, Reporting and recordkeeping requirements.

10 CFR Part 35

Byproduct material, Drugs, Health devices, Health professions, Incorporation by reference, Medical devices, Nuclear materials, Occupational safety and health, Penalty, Radiation protection, Reporting and recordkeeping requirements.

10 CFR Part 40

Government contracts, Hazardous materials—transportation, Nuclear materials, Penalty, Reporting and recordkeeping requirements, Source material, Uranium.

Under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 553 the NRC is proposing to adopt the following revision of 10 CFR Part 35 and the following amendments to 10 CFR Parts 30, 31, 32, and 40.

1. 10 CFR Part 35 is revised to read as follows:

PART 35—MEDICAL USE OF BYPRODUCT MATERIAL

Sec.

Subpart A—General Information

35.1 Purpose and scope.
35.2 License required.
35.8 Information collection requirements: OMB approval.
35.15 Definitions.
35.16 Application for license, amendment, or renewal.
35.17 License amendments.
35.18 Notifications.
35.28 License issuance.
35.29 Specific exemptions.

Subpart B—General Administrative Requirements:

35.30 ALARA program.
35.31 Radiation Safety Officer.
35.32 Radiation Safety Committee.
35.33 Requirement for authority and statement of responsibilities.
35.34 Visiting authorized user.
35.35 Mobile nuclear medicine service administrative requirements.
35.36 Radiation safety program changes.
35.37 Records and reports of misadministrations.
35.38 Supervision.
35.49 Suppliers.

Subpart C—General Technical Requirements

35.50 Possession, use, calibration, and check of dose calibrators.
35.51 Calibration and check of survey instruments.
35.53 Measurement of radiopharmaceutical dosages.
35.58 Authorization for calibration and reference sources.
35.59 Requirements for possession of sealed sources and brachytherapy sources.
35.60 Syringe shields.
35.61 Vial shields.
35.62 Syringe labels.
35.63 Vial shield labels.
35.70 Surveys for contamination and ambient radiation exposure rate.
35.75 Release of patients containing radiopharmaceuticals or permanent implants.
35.80 Mobile nuclear medicine service technical requirements.
35.90 Storage of volatiles and gases.
35.92 Decay-in-storage.

Subpart D—Uptake, Dilution, and Excretion

35.100 Use of radiopharmaceuticals for uptake, dilution, and excretion studies.
35.120 Possession of survey instrument.

Subpart E—Imaging and Localization

35.200 Use of radiopharmaceuticals, generators, and reagent kits for imaging and localization studies.
35.204 Permissible molybdenum-99 concentration.
35.205 Control of aerosols and gases.
35.220 Possession of survey instruments.

Subpart F—Radiopharmaceuticals for Therapy

35.300 Use of radiopharmaceuticals for therapy.
35.310 Safety instruction.
35.315 Safety precautions.
35.320 Possession of survey instruments.

Subpart G—Sources for Brachytherapy

35.400 Use of sources for brachytherapy.
35.404 Release of patients treated with temporary implants.
35.406 Brachytherapy sources inventory.
35.410 Safety instruction.
35.415 Safety precautions.
35.420 Possession of survey instrument.

Subpart H—Sealed Sources for Diagnosis

35.500 Use of sealed sources for diagnosis.
35.520 Availability of survey instrument.

Subpart I—Teletherapy

35.600 Use of a sealed source in a teletherapy unit.
35.605 Maintenance and repair restrictions.
35.606 Amendments.
35.610 Safety instruction.
35.615 Doors, interlocks, and warning systems.
35.620 Possession of survey instrument.
35.621 Radiation monitoring device.
35.622 Viewing system.
35.630 Dosimetry equipment.
35.632 Full calibration measurements.
35.633 Periodic spot-checks.
35.641 Radiation surveys for teletherapy facilities.
35.642 Safety checks for teletherapy facilities.
35.643 Modification of teletherapy unit or room before beginning a treatment program.
35.644 Reports of teletherapy surveys, checks, tests, and measurements.
35.645 Five-year inspection.

Subpart J—Training and Experience Requirements

35.900 Radiation Safety Office.
35.901 Training for experienced Radiation Safety Officer.
35.910 Training for uptake, dilution, and excretion studies.
35.920 Training for imaging and localization studies.
35.930 Training for therapeutic use of radiopharmaceuticals.
35.940 Training for therapeutic use of brachytherapy sources.
35.941 Training for ophthalmic use of strontium-90.
35.950 Training for use of sealed sources for diagnosis.
35.960 Training for teletherapy.
35.961 Training for qualified teletherapy calibration expert.
35.970 Training for experienced authorized users.
35.971 Physician training in a three month program.
35.972 Recentness of training.

Subpart K—Enforcement

35.990 Violations.
35.999 Resolution of conflicting requirements during transition period.

Authority: Secs. 81, 161, 182, 183, 68 Stat. 935, 948, 953, 954, as amended (42 U.S.C. 2111, 2201, 2232, 2233); sec. 201, 88 Stat. 1242, as amended (42 U.S.C. 5841).

For the purposes of sec. 223, 68 Stat. 958, as amended (42 U.S.C. 2273): §§ 35.2, 35.17, 35.30 (a) and (b), 35.31 (a) and (b), 35.32, 35.33, 35.34(a), 35.36(a), 35.38, 35.49, 35.50 (a)–(d), 35.51 (a)–(d), 35.53 (a) and (b), 35.59 (a)–(c), (e)(1), (g) and (h), 35.60, 35.61, 35.62, 35.63, 35.70 (a)–(f), 35.75, 35.80 (a)–(e), 35.90, 35.92(a), 35.100(b), 35.120, 35.200 (b) and (c), 35.204 (a) and (b), 35.205, 35.220, 35.310(a), 35.315, 35.320, 35.400, 35.404(a), 35.408 (a) and (c), 35.410(a), 35.415, 35.420, 35.500, 35.520, 35.605, 35.608, 35.610 (a) and (b), 35.615, 35.620, 35.621 (a)–(d), 35.621 (f) and (g), 35.622, 35.630 (a) and (b), 35.632 (a)–(f), 35.633 (a)–(i), 35.641 (a) and (b), 35.642 (a) and (b), 35.643 (a) and (b), 35.645 (a) and (b), 35.900, 35.910, 35.920, 35.930, 35.940, 35.941, 35.950, 35.960, 35.961, 35.970, and 35.971 are issued under sec. 161b, 68 Stat. 948 as amended (42 U.S.C. 2201(b)); and §§ 35.18, 35.30(c), 35.31(b), 35.32(b), 35.33(b), 35.34 (a) and (c), 35.35(b), 35.36(b), 35.37 (a)–(d), 35.50(e), 35.51(e), 35.53(c), 35.59 (d) and (e)(2), 35.59 (g) and (i), 35.70(g), 35.80(f), 35.92(b), 35.204(c), 35.310(b), 35.315(b), 35.404(b), 35.408 (b) and (d), 35.410(b), 35.415(b), 35.610(c), 35.621(e), 35.630(c), 35.632(g), 35.633(j), 35.641(c), 35.642(c), 35.643(c), 35.644 and 35.645(c) are issued under sec. 161o, 68 Stat. 950 as amended (42 U.S.C. 2201(o)).

Subpart A—General Information

§ 35.1 Purpose and scope.

This part prescribes requirements and provisions for the medical use of byproduct material and for issuance of specific licenses authorizing the medical use of this material. These requirements and provisions provide for the protection of the public health and safety. The requirements and provisions of this part are in addition to, and not in substitution for, others in this chapter. The requirements and provisions of Parts 19, 20, 21, 30, 71, and 170 of this chapter apply to applicants and licensees subject to this part unless specifically exempted.

§ 35.2 License required.

(a) No person shall manufacture, produce, acquire, receive, possess, use, or transfer byproduct material for medical use except in accordance with a specific license issued by the Commission or an Agreement State and as allowed in paragraph (b) of this section.

(b) An individual may receive, possess, use, or transfer byproduct material in accordance with the regulations in this chapter under the supervision of an authorized user as provided in § 35.38, unless prohibited by license condition.

§ 35.8 Information collection requirements: OMB approval.

(3) A radiopharmaceutical or radiation by a route of administration

instructions in Regulatory Guide 10.8

(e) If the applicant is located in a

§ 35.29 Specific exemptions.

§ 35.31 Radiation Safety Officer

VOL 50 ISS 144 JL 26 1985 UMI

§ 35.8 Information collection requirements: OMB approval.

(a) The Commission has submitted the information collection requirements contained in this part to the Office of Management and Budget (OMB) for approval as required by the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). OMB has approved the information collection requirements in this part under control number 3150–.

(b) The approved information collection requirements contained in this part appear in §§ 35.16, 35.17, 35.18, 35.30(c), 35.31(b), 35.32(a), 35.33(b), 35.34(c), 35.35(b), 35.36, 35.37(a)–(d), 35.50(e), 35.51(e), 35.53(c), 35.59 (d), (e), (g), and (i), 35.62, 35.63, 35.70(g), 35.80(f), 35.92(b), 35.204(c), 35.310, 35.315, 35.404(b), 35.406, 35.410(b), 35.606, 35.610, 35.621(e), 35.630(c), 35.632(g), 35.633 (e), and (j), 35.641(c), 35.642(c), 35.643(c), 35.644, and 35.645(c).

§ 35.15 Definitions.

"Agreement State" means any State with which the Commission or the Atomic Energy Commission has entered into an effective agreement under subsection 274b of the Atomic Energy Act of 1954, as amended.

"ALARA" means as low as reasonably achievable.

"Area of use" means a portion of a physical structure that has been set aside for the purpose of receiving, using, or storing byproduct material.

"Authorized user" means a physician, dentist, or podiatrist who is identified as an authorized user on a Commission or Agreement State license that authorizes the medical use of byproduct material.

"Dentist" means an individual licensed by a State or Territory of the United States, the District of Columbia, or the Commonwealth of Puerto Rico to practice dentistry on humans.

"Management" means the chief executive officer.

"Medical Institution" means an organization in which several medical disciplines are practiced.

"Medical use" means the intenational internal or external administration of byproduct material, or the radiation therefrom, to human beings in the practice of medicine in accordance with a license issued by a State or Territory of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

"Misadministration" means the administration of:

(1) A radiopharmaceutical or radiation from a sealed source other than the one intended;

(2) A radiopharmaceutical or radiation to the wrong patient;

(3) A radiopharmaceutical or radiation by a route of administration other than that intended by the prescribing physician;

(4) A diagnostic dosage of a radiopharmaceutical differing from the prescribed dosage by more than 50 percent;

(5) A therapeutic dosage of a radiopharmaceutical differing from the prescribed dosage by more than 10 percent; or

(6) A therapeutic radiation dose from a sealed source such that errors in the source calibration, time of exposure, and treatment geometry result in a calculated total treatment dose differing from the final prescribed total treatment dose by more than 10 percent.

"Mobile nuclear medicine service" means the transportation and medical use of byproduct material.

"Output" means the exposure rate, dose rate, or a quantity related in a known manner to these rates from a teletherapy unit for a specified set of exposure conditions.

"Physician" means a medical doctor or doctor of osteopathy licensed by a State or Territory of the United States, the District of Columbia, or the Commonwealth of Puerto Rico to prescribe drugs in the practice of medicine.

"Podiatrist" means an individual licensed by a State or Territory of the United States, the District of Columbia, or the Commonwealth of Puerto Rico to practice podiatry on humans.

"Qualified teletherapy calibration expert" means the individual identified as the qualified teletherapy calibration expert on a Commission license.

"Radiation Safety Officer" means the individual identified as the Radiation Safety Officer on a Commission license.

"Sealed source" means any byproduct material that is encased in a capsule designed to prevent leakage or escape of the byproduct material.

"Visiting authorized user" means an authorized user who is not identified on the license of the host.

§ 35.16 Application for license, amendment, or renewal.

(a) For use sited in a medical institution, only the institution's management may apply. For use not sited in a medical institution, any person may apply.

(b) An application for a license for medical use of byproduct material as described in §§ 35.100, 35.200, 35.300, 35.400, and 35.500 of this part must be made by filing an original and one copy of Form NRC–313, "Application for Materials License." For guidance in completing the form, refer to the instructions in Regulatory Guide 10.8 Revision 2, "Guide for the Preparation of Applications for Medical Programs." A request for a license amendment or renewal may be submitted as an original and one copy in letter format.

(c) An application for a license for medical use of byproduct material as described in § 35.600 of this part must be made by filing an original and one copy of Form NRC–313. For guidance in completing the form, refer to the instructions contained in Regulatory Guide 10.—, "Guide for the Preparation of Applications for Teletherapy Programs." A request for a license amendment or renewal may be submitted as an original and one copy in letter format.

(d) An applicant shall mail the completed request as directed below.

(1) If the applicant is a Federal agency in Region I or is located in Connecticut, the District of Columbia, Delaware, Maine, Massachusetts, New Jersey, Pennsylvania, or Vermont, it shall mail or deliver the completed application form to U.S. Nuclear Regulatory Commission, Region I, Material Licensing, 631 Park Avenue, King of Prussia, Pennsylvania 19406.

(2) If the applicant is a Federal agency in Region II or is located in Virginia, West Virginia, Puerto Rico, or the Virgin Islands, it shall mail or deliver the completed application form to U.S. Nuclear Regulatory Commission, Region II, Material Licensing Section, 101 Marietta Street, Suite 2900, Atlanta, Georgia 30323.

(3) If the applicant is a Federal agency in Region III or is located in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio, or Wisconsin, it shall mail or deliver the completed application form to U.S. Nuclear Regulatory Commission, Region III, Material Licensing Section, 799 Roosevelt Road, Glen Ellyn, Illinois 60137.

(4) If the applicant is a Federal agency in Region IV or is located in Oklahoma, Montana, South Dakota, or Wyoming, it shall mail or deliver the completed application form to U.S. Nuclear Regulatory Commission, Region IV, Material Licensing Section, 611 Ryan Plaza Drive, Suite 1000, Arlington, Texas 76011.

(5) If the applicant is a Federal agency in Region V or is located in Alaska, Hawaii, or Guam, it shall mail or deliver the completed application form to U.S. Nuclear Regulatory Commission, Region V, Material Licensing Section, 1450 Maria Lane, Suite 210, Walnut Creek, California 94596.

(e) If the applicant is located in a State, territory, or possession that is not mentioned in paragraphs (d) (1) through (5) of this section, it shall:

(1) Mail the completed application form to the Director, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, or

(2) Deliver the completed application form to the Commission offices at:

(i) 1717 H Street NW., Washington, DC, or

(ii) 7915 Eastern Avenue, Silver Spring, Maryland.

§ 35.17 License amendments.

A licensee shall apply for and must receive a license amendment:

(a) Before it uses byproduct material for a method or type of medical use not permitted by the license issued under this part;

(b) Before it permits anyone, except a visiting authorized user described in § 35.34, to work as an authorized user under the license;

(c) Before it changes Radiation Safety Officers or Qualified Teletherapy Calibration Experts;

(d) Before it receives byproduct material in excess of the amount authorized on the license; and

(e) Before it adds to or changes the location or locations of use or mailing address identified on the license.

§ 35.18 Notifications.

A licensee shall notify the Commission by letter within thirty days when an authorized user, Radiation Safety Officer, or Qualified Teletherapy Calibration Expert, permanently discontinues performance of duties under the license. It shall mail the report to the appropriate address identified in § 35.16.

§ 35.28 License issuance.

The Commission shall issue a license for the medical use of byproduct material for a term of five years if:

(a) The applicant has filed Form NRC–313 "Application for Materials License" in accordance with the instructions in § 35.16;

(b) The applicant has paid any applicable fee as provided in Part 170 of this chapter;

(c) The Commission finds the applicant equipped and committed to observe the safety standards established by the Commission for the protection of the public health and safety; and

(d) The applicant meets the requirements of Part 30 of this chapter.

§ 35.29 Specific exemptions.

The Commission may, upon application of any interested person or upon its own initiative, grant such exemptions from the regulations in this part as it determines are authorized by law and will not endanger life or property or the common defense and security and are othewise in the public interest.

Subpart B—General Administrative Requirements

§ 35.30 ALARA program.

(a) Each medical institution licensee shall implement a program to maintain individual and collective dose equivalents as low as reasonably achievable.

(b) To satisfy the requirement of paragraph (a) of this section:

(1) Management, the Radiation Safety Officer, and all authorized users must participate in the establishment, implementation, and operation of the program as required by the regulations or requested by the Radiation Safety Committee.

(2) The program must include an annual review by the Radiation Safety Committee of the types and amounts of byproduct material used, occupational dose reports or summaries, and continuing education and training for all personnel who work with or in the vicinity of byproduct material. The purpose of the review is to ensure that individuals make every reasonable effort to maintain individual and collective occupational dose as low as reasonably achievable, taking into account the state of technology, and the cost of improvements in relation to benefits.

(c) A licensee shall retain a written description of the ALARA program for the duration of the license. The written description must include:

(1) A commitment by management to keep individual and collective occupational dose as low as reasonably achievable;

(2) A requirement that the Radiation Safety Officer brief management once each year on the byproduct material program;

(3) Personnel exposure investigational levels that, when exceeded, will initiate an investigation by the Radiation Safety Officer of the cause of the exposure; and

(4) Personnel exposure investigational levels that, when exceeded, will initiate a prompt investigation by the Radiation Safety Officer of the cause of the exposure and a consideration of actions that might be taken to reduce the probability or recurrence.

§ 35.31 Radiation Safety Officer.

(a) A licensee shall appoint a Radiation Safety Officer responsible for implementing the radiation safety program. The licensee, through the Radiation Safety Officer, shall ensure that radiation safety activities are being performed in accordance with approved procedures and regulatory requirements in the daily operation of the licensee's byproduct material program.

(b) The Radiation Safety Officer shall:

(1) Investigate overexposures, accidents, spills, losses, thefts, unauthorized receipts, uses, transfers, and disposals, and other deviations from approved radiation safety practice and implement corrective actions as necessary;

(2) Establish and implement written policy and procedures for:

(i) Authorizing the purchase of byproduct material;

(ii) Receiving and opening packages of byproduct material;

(iii) Storing byproduct material;

(iv) Keeping an inventory record of byproduct material;

(v) Using byproduct material safely;

(vi) Taking emergency action if control of byproduct material is lost;

(vii) Performing periodic radiation surveys;

(viii) Performing checks of survey instruments and other safety equipment;

(ix) Disposing of byproduct material;

(x) Training personnel who work in or frequent areas where byproduct material is used or stored;

(xi) Keeping a copy of all records and reports required by the Commission regulations, a copy of these regulations, a copy of each licensing request and license and amendments, and the written policy and procedures required by the regulations.

(3) For medical use not at a medical institution, approve or disapprove radiation safety program changes with the advice and consent of management; and

(4) For medical use at a medical institution, assist the Radiation Safety Committee in the performance of its duties.

§ 35.32 Radiation Safety Committee.

Each medical institution licensee shall establish a Radiation Safety Committee to oversee the use of byproduct material. Management may establish more than one committee to meet these responsibilities.

(a) Each Committee must meet the following administrative requirements:

(1) Membership must consist of at least three individuals and must include an authorized user of each type of use

permitted by the license, the Radiation Safety Officer, a representative of the

(8) Establish a table of investigational levels for occupational dose that

(b) Mobile nuclear medicine service

(2) Test each dose calibrator for

VOL 50 ISS 144 JL 26 1985 UMI

permitted by the license, the Radiation Safety Officer, a representative of the nursing service, and a representative of management who is neither an authorized user nor a Radiation Safety Officer. Other members may be included as the licensee deems appropriate.

(2) The Committee must meet a least quarterly.

(3) To establish a quorum and to conduct business, one-half of the Committee's membership must be present, including the Radiation Safety Officer and the management's representative.

(4) The minutes of each Radiation Safety Committee meeting must include:

(i) The date of the meeting;

(ii) Members present;

(iii) Members absent;

(iv) Summary of deliberations and discussions;

(v) Recommended actions and the numerical results of all ballots; and

(vi) ALARA program reviews described in § 35.30(b)(2).

(5) The Committee must provide each member with a copy of the meeting minutes, and retain one copy for the duration of the license.

(b) To oversee the use of licensed material, the Committee must:

(1) Be responsible for monitoring the institutional program to maintain individual and collective doses as low as reasonably achievable;

(2) Review, on the basis of safety and with regard to the training and experience standards in Subpart J of this part, and approve or disapprove any individual who is to be listed as an authorized user, the Radiation Safety Officer, or Qualified Teletherapy Calibration Expert before submitting a license application or request for amendment or renewal;

(3) Review on the basis of safety and approve or disapprove each proposed method of use of byproduct material;

(4) Review on the basis of safety, and approve with the advice and consent of the Radiation Safety Officer and the management representative, or disapprove procedures and radiation safety program changes;

(5) Review quarterly, with the assistance of the Radiation Safety Officer, occupational radiation exposure records of all personnel working with byproduct material;

(6) Review quarterly, with the assistance of the Radiation Safety Officer, all incidents involving byproduct material with respect to cause and subsequent actions taken;

(7) Review annually, with the assistance of the Radiation Safety Officer, the byproduct material program; and

(8) Establish a table of investigational levels for occupational dose that, when exceeded, will initiate investigations and considerations of action by the Radiation Safety Officer.

§ 35.33 Requirement for authority and statement of responsibilities.

(a) A licensee shall provide the Radiation Safety Officer, and at a medical institution the Radiation Safety Committee, sufficient authority and organizational freedom to:

(1) Identify radiation safety problems;

(2) Initiate, recommend, or provide solutions; and

(3) Verify implementation of solutions.

(b) A licensee shall establish in writing the authorities, duties, responsibilities, and radiation safety activities of the Radiation Safety Officer, and at a medical institution the Radiation Safety Committee.

§ 35.34 Visiting authorized user.

(a) A licensee may permit any visiting authorized user to use licensed material for medical use under the terms of the licensee's license for sixty days each year if:

(1) The visiting authorized user has the prior written permission of the licensee's management and, if the use occurs on behalf of an institution, the institution's Radiation Safety Committee;

(2) The licensee has a copy of a Commission or Agreement State license that identifies the visiting authorized user by name as an authorized user for medical use; and

(3) Only those procedures for which the visiting authorized user is specifically authorized by a Commission or Agreement State license are performed by that individual.

(b) A licensee need not apply for a license amendment in order to permit a visiting authorized user to use licensed material as described in paragraph (a) of this section.

(c) A licensee shall retain copies of the records specified in this section for two years after the visiting authorized user's last use of licensed material unless the visiting authorized user has been listed as an authorized user on the licensee's license.

§ 35.35 Mobile nuclear medicine service administrative requirements.

(a) The Commission will only license mobile nuclear medicine service in accordance with Subparts D, E and H of this part and § 31.11 of this chapter to serve clients who do not have a Commission or Agreement State license for the materials listed in those Subparts.

(b) Mobile nuclear medicine service licensees shall retain for the duration of service a letter signed by the management of each location where services are rendered that authorizes use of byproduct material.

§ 35.36 Radiation safety program changes.

(a) A licensee may change the radiation safety procedures and equipment that are used to meet regulatory requirements and that were described in the application for license, renewal, or amendment. The licensee may also receive, use, and store licensed material (except teletherapy sources) in areas of use that were not identified in the application for license, renewal, or amendment.

(b) A licensee shall retain for the duration of the license a record of each change. The record must include the effective date of the change, a copy of the old and new radiation safety procedures, equipment descriptions, or area floor plans, the reason for the change, a summary of radiation safety matters that were considered before making the change, the signature of the Radiation Safety Officer, and the signatures of the affected authorized users and of management or, in a medical institution, the Radiation Safety Committee's chairman and the management representative.

§ 35.37 Records and reports of misadministrations.

(a) When a misadministration involves any therapy procedure, the licensee shall notify by telephone the appropriate NRC Regional Office listed in Appendix D of Part 20 of this chapter. The licensee shall also notify the referring physician of the affected patient and the patient or a responsible relative (or guardian), unless the referring physician agrees to inform the patient or believes, based on medical judgment, that telling the patient or the patient's responsible relative (or guardian) would be harmful to one or the other, respectively. These notifications must be made within 24 hours after the licensee discovers the misadministration. If the referring physician, patient, or the patient's responsible relative or guardian cannot be reached within 24 hours, the licensee shall notify them as soon as practicable. The licensee is not required to notify the patient or the patient's responsible relative or guardian without first consulting the referring physician; however, the licensee shall not delay medical care for the patient because of this.

(b) Within 15 days after an initial therapy misadministration report to NRC, the licensee shall report, in writing, to the NRC Regional Office initially telephoned and to the referring physician, and furnish a copy of the report to the patient or the patient's responsible relative (or guardian) if either was previously notified by the licensee under paragraph (a) of this section. The written report must include the licensee's name; the referring physician's name; a brief description of the event; the effect on the patient; the action taken to prevent recurrence; whether the licensee informed the patient or the patient's responsible relative (or guardian), and if not, why not. The report must not include the patient's name or other information that could lead to identification of the patient.

(c) When a misadministration involves a diagnostic procedure, the licensee shall notify, in writing, the referring physician and the appropriate NRC Regional Office listed in Appendix D of Part 20 of this chapter. Licensee reports of diagnostic misadministrations are due within 10 days after the end of the calendar quarters (defined by March, June, September and December) in which they occur. These written reports must include the licensee's name; the referring physician's name; a description of the event; the effect on the patient; and the action taken to prevent recurrence. The report should not include the patient's name or other information that could lead to identification of the patient.

(d) Each licensee shall retain for ten years a record of each misadministration. The record must contain the names of all individuals involved in the event (including the physician, allied health personnel, the patient, and the patient's referring physican), the patient's social security number, a brief description of the event, the effect on the patient, and the action taken to prevent recurrence.

(e) Aside from the notification requirement, nothing in this section shall affect any rights or duties of licensees and physicians in relation to each other, patients, or responsible relatives (or guardians).

§ 35.38 Supervision.

A licensee who permits the receipt, possession, use, or transfer of byproduct material by an individual under the supervision of an authorized user as allowed by § 35.2(b) shall:

(a)(1) Instruct the supervised individual in the principles of radiation safety appropriate to that individual's use of byproduct material;

(2) Review the supervised individual's use of byproduct material and the records kept to reflect this use;

(3) Require the authorized user to be immediately available by telephone to the supervised individual; and

(4) Require the authorized user to be able to be physically present and available to the supervised individual on one hour's notice. The supervising authorized user need not be present for each use of byproduct material.

(b) Require the supervised individual receiving, possessing, using or transferring byproduct material under § 35.2(b) to:

(1) Follow the instructions of the supervising authorized user;

(2) Follow the procedures established by the Radiation Safety Officer; and

(3) Comply with the regulations of this part and the license conditions with respect to the use of byproduct material.

§ 35.49 Suppliers.

A licensee may use for medical use only:

(a) Byproduct material manufactured, labeled, packaged, and distributed in accordance with a license issued pursuant to the regulations in Part 30 and § 32.72, 32.73, or 32.74 of this chapter or the equivalent regulations of an Agreement State;

(b) Reagent kits that have been manufactured, labeled, packaged, and distributed in accordance with an approval by the Commission pursuant to § 32.73 or an Agreement State under equivalent regulations for the preparation of radiopharmaceuticals for medical use; and

(c) Teletherapy sources manufactured and distributed in accordance with a license issued pursuant to Part 30 of this chapter or the equivalent regulations of an Agreement State.

Subpart C—General Technical Requirements

§ 35.50 Possession, use, calibration, and check of dose calibrators.

(a) A medical use licensee authorized to administer radiopharmaceuticals shall have in its possession a dose calibrator and use it to measure the amount of activity administered to each patient.

(b) A licensee shall:

(1) Check each dose calibrator for constancy with a dedicated check source at the beginning of each day of use. To satisfy the requirement of this paragraph, the check must be done on a frequently used setting with a sealed source of not less than 10 microcuries of radium-226 or 50 microcuries of any other photon-emiyting radionuclide;

(2) Test each dose calibrator for accuracy upon installation and at least annually thereafter by assaying at least two sealed sources containing different radionuclides whose activity the manufacturer has determined within 5 percent of its stated activity, whose activity is at least 10 microcuries for radium-226 and 50 microcuries for any other photon-emitting radionuclide, and at least one of which has a principal photon energy between 100 keV and 500 keV;

(3) Test each dose calibrator for linearity upon installation and at least quarterly thereafter over the range of its use between the highest dosage that will be administered and 10 microcuries; and

(4) Test each dose calibrator for geometry dependence upon installation over the range of volumes and volume configurations for which it will be used. The licensee shall keep a record of this test for the duration of the use of the dose calibrator.

(c) A licensee shall also perform appropriate checks and tests required by this section following adjustment or repair of the dose calibrator.

(d) A licensee shall mathematically correct dosage readings for any geometry or linearity error that exceeds 10 percent if the dosage is greater than 10 microcuries and shall repair or replace the dose calibrator if the accuracy or constancy error exceeds 10 percent.

(e) A licensee shall retain a record of each check and test required by this section for two years unless directed otherwise. The records required in paragraphs (b)(1) through (b)(4) of this section must include:

(1) For paragraph (b)(1), the model and serial number of the dose calibrator, the identity of the radionuclide contained in the check source, the date of the check, the activity measured, and the initials of the individual who performed the check;

(2) For paragraph (b)(2), the model and serial number of the dose calibrator, the model and serial number of each source used and the identity of the radionuclide contained in the source and its activity, the date of the test, the results of the test, and the signature of the Radiation Safety Officer;

(3) For paragraph (b)(3), the model and serial number of the dose calibrator, the calculated activities, the measured activities, the date of the test, and the signature of the Radiation Safety Officer; and

(4) For paragraph (b)(4), the model and serial number of the dose calibrator, the configuration of the source measured, the activity measured for

each volume measured, the date of the test, and the signature of the Radiation Safety Officer.

radionuclide to verify that the dosage does not exceed 10 microcuries;

(c) To satisfy the leak test requirements of this section, the licensee

(g) A licensee in possession of a sealed source or brachytherapy source

§ 35.70 Surveys for contamination and ambient radiation exposure rate

(2) the activity in the patient is less

VOL 50 ISS 144 JL 26 1985 UMI

each volume measured, the date of the test, and the signature of the Radiation Safety Officer.

§ 35.51 Calibration and check of survey instruments.

(a) A licensee shall calibrate the survey instruments used to show compliance with this part before first use, annually, and following repair.

(b) To satisfy the requirements of paragraph (a) of this section, the licensee shall:

(1) Calibrate all scale readings up to 1000 milliroentgens per hour with a radiation source;

(2) Calibrate two readings on each scale that must be calibrated; and

(3) Conspicuously note on the instrument the apparent exposure rate from a dedicated check source as determined at the time of calibration, and the date of calibration.

(c) To satisfy the requirements of paragraph (b) of this section, the licensee shall:

(1) Consider a point as calibrated if the indicated exposure rate differs from the calculated exposure rate by not more than 10 percent; and

(2) Consider a point as calibrated if the indicated exposure rate differs from the calculated exposure rate by not more than 20 percent if a correction chart or graph is conspicuously attached to the instrument.

(d) A licensee shall check each survey instrument for proper operation with the dedicated check source before and after each use. The licensee is not required to keep records of these checks.

(e) The licensee shall retain a record of each calibration required in paragraph (a) of this section for two years. To satisfy the requirements of this paragraph, the record must include:

(1) A description of the calibration procedure; and

(2) A description of the source used and the certified exposure rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, and the signature of the individual who performed the calibration.

§ 35.53 Measurement of radiopharmaceutical dosages.

A licensee shall:

(a) Assay before medical use the activity of each radiopharmaceutical dosage that contains more than 10 microcuries of a photon-emitting radionuclide;

(b) Assay before medical use the activity of each radiopharmaceutical dosage with a desired activity of 10 microcuries or less of a photon-emitting radionuclide to verify that the dosage does not exceed 10 microcuries;

(c) Retain a record of the measurements required by this section for two years. To satisfy this requirement, the record must contain the:

(1) Generic name, trade name, or abreviation of the radiopharmaceutical, its lot number, and expiration dates and the radionuclide;

(2) Patient's name and identification number if one has been assigned;

(3) Prescribed dosage and activity of the dosage at the time of measurement, or a notation that the total activity is less than 10 microcuries;

(4) Date and time of the measurement; and

(5) Initials of the individual who made the measurement.

§ 35.58 Authorization for calibration and reference sources.

Any person authorized by § 35.2 for medical use of byproduct material may receive, possess, and use the following byproduct material for check, calibration, and reference use:

(a) Sealed sources manufactured and distributed by a person licensed pursuant to § 32.74 of this chapter or equivalent Agreement State regulations and that do not exceed 6 millicuries each;

(b) Any byproduct material listed in §§ 53.100 or 35.200 with a half-life not longer than 100 days in individual amounts not to exceed 15 millicuries;

(c) Any byproduct material listed in §§ 35.100 or 35.200 with a half-life longer than 100 days in individual amounts not to exceed 200 microcuries each; and

(d) Technetium–99m in individual amounts not to exceed 50 millicuries.

§ 35.59 Requirements for possession of sealed sources and brachytherapy sources.

(a) A licensee in possession of any sealed source or brachytherapy source shall follow the radiation safety and handling instructions supplied by the manufacturer, and shall maintain the instructions for the duration of source use in a legible form convenient to users.

(b) A licensee in possession of a sealed source shall:

(1) Test the source for leakage before its first use unless the licensee has a certificate from the supplier indicating that the source was tested within six months before transfer to the licensee; and

(2) Test the source for leakage at intervals not to exceed six months or at other intervals approved by the Commission or an Agreement State and described in the label or brochure that accompanies the source.

(c) To satisfy the leak test requirements of this section, the licensee must:

(1) Take a wipe sample from the sealed source or from the surfaces of the device in which the sealed source is mounted or stored on which radioactive contamination might be expected to accumulate or wash the source in a small volume of detergent solution and treat the entire volume as the sample;

(2) Take the teletheraphy source test sample when the source is in the "off" position; and

(3) Measure the sample so that the leakage test can detect the presence of 0.005 microcuries of radioactive material on the sample.

(d) A licensee shall retain leakage test records for two years. The records must contain the model number, and serial number if assigned, of each source tested, the identity of each source radionuclide and its estimated activity, the measured activity of each test sample expressed in microcuries, a description of the method used to measure each test sample, the date of the test, and the signature of the Radiation Safety Officer.

(e) If the leakage test reveals the presence of 0.005 microcurie or more of removable contamination, the licensee shall:

(1) Immediately withdraw the sealed source from use and store it in accordance with the requirements in Parts 20 and 30 of this chapter; and

(2) File a report within five days of the leakage test with the appropriate Nuclear Regulatory Commission Regional Office listed in Appendix D of Part 20 of this chapter, with a copy to Director of Inspection and Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, describing the equipment involved, the test results, and the action taken.

(f) A licensee need not perform a leakage test on the following sources:

(1) Sources containing only byproduct material with a half-life of less than 30 days;

(2) Sources containing only byproduct materials as a gas;

(3) Sources containing 100 microcuries or less of beta or gammae-mitting material or 10 microcuries or less of alpha-emitting material;

(4) Sources stored and not being used. The licensee shall, however, test each such source for leakage before any use or transfer unless it has been leakage-tested within six months before the date of use or transfer; and

(5) Seeds of iridium-192 encased in nylon ribbon.

(g) A licensee in possession of a sealed source or brachytherapy source shall conduct a quarterly physical inventory of all such sources in its possession. The licensee shall retain each inventory record for five years. The inventory records must contain the model number of each source, and serial number if one has been assigned, the identity of each source radionuclide and its estimated activity, the location of each source, and the signature of the Radiation Safety Officer.

(h) A licensee in possession of a sealed source or brachytherapy source shall survey with a low range survey meter quarterly all areas where such sources are stored. This does not apply to teletherapy sources in teletheraphy units or sealed sources in diagnostic devices.

(i) A licensee shall retain a record of each survey required in paragraph (h) of this section for two years. The record must include the date of the survey, a plan of each area that was surveyed, the measured exposure rate at several points in each area expressed in millirem per hour, the model number and serial number of the survey instrument used to make the survey, and the signature of the Radiation Safety Officer.

§ 35.60 Syringe shields.

(a) A licensee shall keep syringes that contain byproduct material to be administered in a radiation shield.

(b) A licensee shall require each individual who prepares a radiopharmaceutical kit to use a syringe radiation shield and shall require each individual who administers a radiopharmaceutical by injection to use a syringe radiation shield unless the use of the shield is contraindicated for that injection.

§ 35.61 Vial shields.

A licensee shall require each individual preparing or handling a vial that contains a radiopharmaceutical to keep the vial in a vial radiation shield.

§ 35.62 Syringe labels.

A licensee shall conspicuously label each syringe, or syringe radiation shield that contains a syringe with a radiopharmaceutical, with the radiopharmaceutical's abbreviation or with the type of diagnostic study or therapy procedure to be performed.

§ 35.63 Vial shield labels.

A licensee shall conspicuously label each vial radiation shield that contains a vial of a radiopharmaceutical with the radiopharmaceutical name or its abbreviation.

§ 35.70 Surveys for contamination and ambient radiation exposure rate.

(a) A licensee shall survey with a low range survey meter at the end of each day of use all areas where radiopharmaceuticals are routinely prepared for use or administered.

(b) A licensee shall survey with a low range survey meter at least once each week all areas where radiopharmaceuticals or radiopharmaceutical waste is stored.

(c) A licensee shall conduct the surveys required by paragraphs (a) and (b) of this section so as to be able to measure exposure rates as low as 0.1 milliroentgen per hour.

(d) A licensee shall establish radiation exposure rate action levels for the surveys required by paragraphs (a) and (b) of this section and shall require that the individual performing the survey immediately notify the Radiation Safety Officer if an exposure rate exceeds an action level.

(e) A licensee shall survey for removable contamination once each week all areas where radiopharmaceuticals are routinely prepared for use, administered, or stored.

(f) A licensee shall conduct the surveys required by paragraph (e) of this section so as to be able to detect contamination on each wipe sample of 200 disintegrations per minute.

(g) A licensee shall establish removable contamination action levels for the surveys required by paragraph (e) of this section and shall require that the individual performing the survey immediately notify the Radiation Safety Officer if contamination exceeds the action level.

(h) A licensee shall retain a record of each survey for two years. The record must include the date of the survey, a plan of each area surveyed, the action level established for each area, the measured exposure rate at several points in each area expressed in millirem per hour or disintegrations per minute, the model number of the instrument used to make the survey or analyze the samples, and the initials of the individual who performed the survey.

§ 35.75 Release of patients containing radiopharmaceuticals or permanent implants.

(a) A licensee may not authorize release from confinement for medical care any patient administered a radiopharmaceutical until either:

(1) The exposure rate from the patient is less than 6 milliroentgens per hour at a distance of one meter; or

(2) the activity in the patient is less than 30 millicuries.

(b) A licensee may not authorize release from confinement for medical care of any patient administered a permanent implant until the exposure rate from the patient is less than 6 milliroentgens per hour at a distance of one meter.

§ 35.80 Mobile nuclear medicine service technical requirements.

A licensee providing mobile nuclear medicine service shall:

(a) Transport to each location of use only syringes or vials containing prepared radiopharmaceuticals;

(b) Bring into each location of use all byproduct material to be used and, before leaving, remove all unused byproduct material and all associated waste;

(c) Secure or keep under constant surveillance and immediate control all byproduct material when in transit or at a location of use;

(d) Check survey instruments and dose calibrators as described in §§ 35.50 and 35.51, and check all other transported equipment for proper function before medical use at each location of use;

(e) Carry a calibrated survey meter in each vehicle that is being used to transport byproduct material, and, before leaving a client location of use, survey all radiopharmaceutical areas of use with a low range survey meter to ensure that all radiopharmaceuticals and all associated waste have been removed;

(f) Retain a record of each survey required in paragraph (e) of this section for two years. The record must include the date of the survey, a plan of each area that was surveyed, the measured exposure rate at several points in each area of use expressed in millirem per hour, the model number of the instrument used to make the survey, and the initials of the individual who performed the survey.

§ 35.90 Storage of volatiles and gases.

A licensee shall store volatile radiopharmaceuticals and radioactive gases in a fume hood or in a container with two barriers against release.

§ 35.92 Decay-in-storage.

(a) A licensee may hold byproduct material with a physical half-life of less than 65 days for decay-in-storage before disposal in ordinary trash and is exempt from the requirements of § 20.301 of this chapter if it:

(1) Holds byproduct material for decay a minimum of ten half-lives;

(2) Monitors byproduct material at the

instructions regarding physical form,

pharmaceutical containing byproduct

that are at negative pressure compared

instruction must describe the licensee's

in its possession a portable low level

VOL 50 ISS 144 JL 26 1985 UMI

(2) Monitors byproduct material at the container surface before disposal as ordinary trash and determines that its radioactivity cannot be distinguished from the background radiation level with a low range survey meter set on its most sesitive scale and with no interposed shielding;

(3) Removes or obliterates all radiation labels; and

(4) Separates and monitors each generator column individually with all radiation shielding removed to ensure that it has decayed to background radiation level before disposal.

(b) For paragraph (a) of this section, the licensee shall retain a record of each disposal for two years. The record must include the date of the disposal, the date on which the byproduct material was placed in storage, the model number of the survey instrument used, the background radiation exposure rate, the radiation exposure rate measured at the surface of each waste container, and the name of the individual who performed the disposal.

Subpart D—Uptake, Dilution, and Excretion

§ 35.100 Use of radiopharmaceuticals for uptake, dilution and excretion studies.

(a) A licensee may use the following prepared radiopharmaceuticals for diagnostic studies involving the measurement of uptake, dilution, or excretion:

(1) Iodine-131 as sodium iodide, iodinated human serum albumin (IHSA), labeled rose bengal, or sodium iodohippurate;

(2) Iodine-125 as sodium iodide or iodinated human serum albumin (IHSA);

(3) Cobalt-58 as labeled cyanocobalamin;

(4) Cobalt-60 as labeled cyanocobalamin;

(5) Chromium-51 as sodium chromate or labeled human serum albumin:

(6) Iron-59 as citrate;

(7) Technetium-99m as pertechnetate;
